|                                                                                                                                                                                                                                                                                                               |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Preface .....                                                                                                                                                                                                                                                                                                 | 2  |
| The Approaches to the Design of Integrated Quality Management Systems for the Digital Enterprise .....<br><i>Azarov Vladimir N., Mayboroda Valery P., Leokhin Yuri L.</i>                                                                                                                                     | 3  |
| Analysis of Information Structure of the Corporate Network of Enterprise .....<br><i>Azarov Vladimir N., Saksonov Evgeny A., Leokhin Yuri L.</i>                                                                                                                                                              | 9  |
| <b>Quality Management Systems. International Integrated Systems of Quality Management for Information Systems.<br/>Implementation, Certification, Auditing.</b>                                                                                                                                               |    |
| Business Continuity Management System .....<br><i>Aleksandrova Svetlana V., Aleksandrov Mark N., Vasiliev Victor A.</i>                                                                                                                                                                                       | 14 |
| Digital Technology and Quality Management .....<br><i>Aleksandrova Svetlana V., Vasiliev Victor A., Letuchev Gennady M.</i>                                                                                                                                                                                   | 18 |
| Piloting of the Integrated Model for Quality Assurance in Education QM&CQAF in Russia .....<br><i>Aniskina Nina N., Lunina Ekaterina V.</i>                                                                                                                                                                   | 22 |
| Enterprise's Innovative Infrastructure Development Model Based on Quality Function Deployment Method .....<br><i>Babkin Aleksandr V., Galimova Margarita P., Gileva Tatiana A., Gorshenina Mariya E.</i>                                                                                                      | 27 |
| The Stakeholders' Feedback Mechanisms for Degree Programs Quality Assurance .....<br><i>Belash Olga Y., Ryzhov Nikolai G.</i>                                                                                                                                                                                 | 35 |
| Specifics of Management Quality Implementation to Information Systems and Products .....<br><i>Djevello Ekaterina S., Vlasova Irina N., Larionov Evgeniy I., Korotkich Alexey V., Nazarenko Maxim A.</i>                                                                                                      | 40 |
| Algorithm of End-to-End Integrated Quality Management.....<br><i>Filippov Aleksandr A., Antonova Anastasia A., Antonova Irina I., Baranova Irina A., Nazarenko Maxim A.</i>                                                                                                                                   | 44 |
| Evaluation of the Quality of International Instruments Determining the Interaction of States<br>in the Exploration of Near-Earth Space.....<br><i>Isaev Vladimir G., Astasheva Nadezda P., Zhidkova Ekaterina A.</i>                                                                                          | 47 |
| To the Issues of the Company's Target Management System Formation .....<br><i>Martynova Elena V., Gorchakova Elena N.</i>                                                                                                                                                                                     | 51 |
| Increase of Efficiency of Activity of the Branch Enterprises in a Context of Technologies of Quality Management .....<br><i>Menshikova Margarita A., Lyapina Irina V., Piunova Yana V.</i>                                                                                                                    | 55 |
| Company Life Cycle and Quality Standardization .....<br><i>Muraviev Vyacheslav V., Baranova Irina A., Bykova Elena V., Khronusova Tatiana V., Nazarenko Maxim A.</i>                                                                                                                                          | 59 |
| Mobile Operating Systems and Integrated Apps Quality Management System .....<br><i>Nazarenko Maxim A.</i>                                                                                                                                                                                                     | 63 |
| Appraisal of Organization Efficiency of the Bed Fund of the Department of Maxillofacial Surgery<br>in the Management of the Quality of Dental Aid.....<br><i>Semenov Viktor P., Budrin Alexander G., Soldatov Ivan K., Soldatova Anastasiya V.,<br/>Solovieva Dina V., Zonis Marina M., Emtsova Marina G.</i> | 66 |
| Internal Education Quality Assurance through Standardization of Educational Organization Management System .....<br><i>Silaeva Vera V., Semenov Viktor P.</i>                                                                                                                                                 | 70 |

|                                                                                                                                                                                               |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Features of Implementation of a Quality Management System at Enterprises of the Industrial Sector<br>(the Case of ALMAZ Group of Companies) .....                                             | 74  |
| <i>Sorokin Aleksey V., Aniskina Nina N.</i>                                                                                                                                                   |     |
| Basics of Forming an Integrated Management System .....                                                                                                                                       | 77  |
| <i>Velmakina Yuliya V., Aleksandrova Svetlana V., Vasiliev Victor A.</i>                                                                                                                      |     |
| <b>Engineering Management. Management of Innovations. IT Service Management.<br/>Management of Projects and Risks.</b>                                                                        |     |
| The Use of Cellular Automata to Simulate the Dynamics of Snow Avalanches .....                                                                                                                | 80  |
| <i>Bolgov Yuriy V.</i>                                                                                                                                                                        |     |
| Mathematical Modeling in the Calculation of the Dynamic Characteristics of Snow Avalanches .....                                                                                              | 83  |
| <i>Bolgov Yuriy V., Senov Khamisha, Adzhiev Anatoly, Bekkiev Mukhtar</i>                                                                                                                      |     |
| Calibration of Dry Friction and Turbulent Drag Coefficients in the Calculation of the Dynamic Characteristics of Snow<br>Avalanches .....                                                     | 89  |
| <i>Bolgov Yuriy V.</i>                                                                                                                                                                        |     |
| Assessment of the Implemented Innovations Impact on Urban Passenger Transport Services Demand .....                                                                                           | 92  |
| <i>Budrin Alexandr G., Budrina Elena V., Lebedeva Anna S., Rogavichene Larisa I., Rubzova Katerina A.</i>                                                                                     |     |
| State-private Partnership as Tool for Achieving Strategic Objectives in Sphere of Maritime Transport and Logistics .....                                                                      | 95  |
| <i>Chernyi Sergei G., Logunova Natalya A., Aleksahina Ludmila V.</i>                                                                                                                          |     |
| Modeling of Efficiency Assessment for Enterprises Economic Activity in Environmental System.....                                                                                              | 98  |
| <i>Drozdov Nikita A., Vasilenko Marina A., Kuzina Elena L., Tagiltseva Julia A.</i>                                                                                                           |     |
| Eliminating Transport Losses with the Aid of Intelligent Digital Environment.....                                                                                                             | 103 |
| <i>Efimova Olga V., Dmitrieva Elizaveta I., Tereshina Natalia P., Zhakov Vladimir V.</i>                                                                                                      |     |
| Concrete Macrostructure Modelling – As a Method of Increasing the Quality of Transport Facilities Construction .....                                                                          | 106 |
| <i>Kondrashchenko Valery.I., Telyatnikova Natalia.A., Kondrashchenko Elena V., Adylkhodzhaev Anvar.I.</i>                                                                                     |     |
| Freight Forwarding Space as a Component of Transport and Logistic.....                                                                                                                        | 112 |
| <i>Koroleva Elena A., Sokolov Sergey S., Makashina Irina I., Filatova Evgeniya V.</i>                                                                                                         |     |
| Method of Calculation of the Main Cutting Edge Form for Turn-Milling Profile.....                                                                                                             | 117 |
| <i>Kulikov Mikhail Yu., Nakhushev Rakhim S., Evseev Dmitriy G., Volkov Dmitriy V.</i>                                                                                                         |     |
