2018 International Conference on Engineering Simulation and Intelligent Control

ESAIC 2018

Table of Contents

Preface xiv
Conference Organization xv
Program Committee xvi
Reviewers xvii

Session 1: Intelligent Computation

A Comparative Research on the Impact of Environmental Uncertainty on Up and Downstream Virtual Integration 1
Yan Tang (South China University of Technology) and Min Li (South China University of Technology)

A Novel Modern City Public Art Design Method Based on Immune Genetic Algorithm 8
Wei Zhou (Wu'han University of science and technology)

Analysis and Prediction of The Shanghai Composite Index Based on Grey Fourier FEGM (1,1) Residual Modified Model 12
Shi Liping (Xinjiang University of Finance and Economics) and Yan Haibo (Xinjiang University of Finance and Economics)

Analysis of Causes of Boiler Accidents in Power Plant and Accident Handling Based on Mathematical Statistics 17
Genkuan Lian (Shandong Electric Power College), Yong Niu (Shandong Electric Power College), Xueran Zhang (Shandong Electric Power College), Yanfen Lu (Shandong Electric Power College), and Hongyi Li (Shandong Electric Power College)

Analysis on the Cause of Formation of Floating Sludge in Outer Channel of Shenhua Huanghua Port 21
Liu Guo-ting (Tianjin Research Institute for Water Transport Engineering)

Analysis on the Impact of Expansive Soil Slope Stability by Rainfall Infiltration 26
Huang Zhi-fang (Hunan University of Finance and Economics)

Calculation Method for Cracking Moment of Concrete Beams Reinforced with GFRP Bars 31
ZHAO Quan (Wuhan University of Technology) and TU Jianwei (Wuhan University of Technology)

Double Chaotic Image Encryption Algorithm Based on Run - Length 35
Wang Le-le (Xinjiang University of Finance and Economics) and Li Guo-dong (Xinjiang University of Finance and Economics)

Effect of Hydrogen Free Carburized Layer on Mechanical Properties of TC4 Titanium Alloy ..39
Menghua Chen (Fudan University) and Jianguo Lin (Fudan University)

Evaluation of the use of Urban Public Space Based on PSPL—Taking the Place as an Example ..44
Tongtong Jiang (Beijing University of Agriculture College of landscape architecture) and Sheng Lu (Beijing University of Agriculture College of landscape architecture)

Intelligent Assembly of Cosmetic in the Flexible Production ..49
Shih-Wen Hsiao (National Cheng Kung University), Chih-Huang Yen (National Cheng Kung University), and Chu-Hsuan Lee (National Cheng Kung University)

Low Energy Consumption and High-Precision Time Synchronization Algorithm Based on Improved TPSN in Wireless Sensor Networks ..54
Pingzhang Gou (Northwest Normal University), Fengzhen Li (Northwest Normal University), Yunyu Wang (Northwest Normal University), and Mengyu Li (Northwest Normal University)

Optimization of Neural Network Algorithm and Its Application Based on Particle Swarm ..58
Honglei Jing (Xiamen Institute of Software Technology) and Jinzhu Wang (Xiamen Institute of Software Technology)

Performance of New Tubular Roof Construction Method – A 3D Numerical Investigation ..63
Ba Fang (Shenyang Metro Co.,Ltd.), Chen Ju (Shenyang Metro Co.,Ltd.), and Shi Hong Qian (China Railway Design Corporation)

Research on Effect of Wind Curtailment Accommodation for Combined Heat and Power Units with Heat Storage ..68
Liang jian (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute), Cheng shanshan (Shenyang University of Technology), Bai cunxi (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute), Luo hairong (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute), Li feng (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute), and Zhao xiaodong (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute)

Research on Joint Planning of the Source-Grid-Load with New Energy System Energy Balance and Economy ..73
Ge Weichun (State Grid Liaoning Electric Power Supply Co.LTD.), Ma Tingting (Shenyang University of Technology), Zhu Yu (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), Wang Shunjiang (State Grid Liaoning Electric Power Supply Co.LTD.), Gao Kai (State Grid Liaoning Electric Power Supply Co.LTD.), and Li Jiajue (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute)

Research on Solution of TSP Based on Improved Genetic Algorithm ..78
Wang Xueyuan (Neijiang Normal University)

Study Methods of Design Elements Based on EGM and Fuzzy QFD ..83
Liu Shuofang (National Cheng Kung University), Zhang Yang (National Cheng Kung University), Lai Yuchung (National Cheng Kung University), and Wang Minghong (National Cheng Kung University)

Study of a Detection and Recognition Algorithm for High-Voltage Switch Cabinet Based on Deep Learning with an Improved Faster-RCNN .87
Chen-Zhao FU (State Grid Shanghai Electric Power Research Institute), Wen-Rong SI (State Grid Shanghai Electric Power Research Institute), Qi-Yu LU (State Grid Shanghai Electric Power Research Institute), Chun-Bo SHI (State Grid Shanghai ChongMing Electric Power Supply Company), Qin-Jian GAO (State Grid Shanghai ChongMing Electric Power Supply Company), Hai WANG (Shanghai Energyfuture Co.Ltd), and Chao WANG (Shanghai Energyfuture Co.Ltd)

Study on Analysis and Prediction of Transformer Overheating Fault Based on Chaos Theory of Oil Chromatogram .92
Zhou Lixing (Changsha University of Science and Technology), Zhang Zhuodong (Changsha University of Science and Technology), Zhang Pengfei (Changsha University of Science and Technology), and Li Jia (Changsha University of Science and Technology)

Study on Overall Stability of High-Rise Steel Structure Framework Based on ANSYS Finite Element Calculation .98
LIU Jin-hai (Jiangxi University of Science and Technology), LIAO Zhi-nong (Jiangxi University of Science and Technology), KONG De-yang (Jiangxi Wufang Building Design Co.,Ltd), and WU Xia (Jiangxi Vocational College of Applied Technology)

Study on Static Force Elastic-Plastic Analysis of Short-Leg Shear Wall .102
HUANG Zhen-zheng (Ganzhou Zhongke Engineering Management Co., Ltd), LIU Jin-hai (Jiangxi University of Science and Technology), and WU Xia (Jiangxi Vocational College of Applied Technology)

The Assessment Of River Habitat On Water Temperature And Hydrologic Alteration Of De-Watered River Channel In Flood Season .105
Yang Li (China Institute of Water Resource and Hydropower Research), Jia-peng Wu (China Institute of Water Resource and Hydropower Research), Lai-sheng Liu (China Institute of Water Resource and Hydropower Research), Lei-xiang Wu (China Institute of Water Resource and Hydropower Research), and Wei-jie Huo (China Institute of Water Resource and Hydropower Research)

Total Fragility Metricer Based on Climate Change .109
Liu Xin (JINAN University), Huang Zhiqi (JINAN University), and Huo Yingying (JINAN University)

Session 2: Intelligent Control

Cost Control of New Energy Power Generation Project Based on the Whole Process .114
Cuiping Cheng (State Grid of China Technology College), Yaoyao zhang (State Grid of China Technology College), Yong Niu (State Grid of China Technology College), and Tongjun Jiang (State Grid of China Technology College)

Crane Intelligent Control System Based on CAN Bus .117
Geng Liqing (Tianjin University of Technology and Education), Shao Shanfeng (Tianjin Engineering Machine Academe), and He Mengen (Tianjin University of Technology and Education)

Design and Dynamic Analysis of a Telescopic Service Robot .121
Zhang Leiyu (College of Mechanical and Electrical Engineering), Liu Ruifeng (College of Mechanical and Electrical Engineering), Li Jianfeng (College of Mechanical and Electrical Engineering), Wang Haidong (College of Mechanical and Electrical Engineering), and Zuo Shiping (College of Mechanical and Electrical Engineering)

Development of An Omni-Directional Wheelchair Robot .126
BAI Yang (China Academy of Electronics and Information Technology) and LIU Xi (Offshore Oil Engineering Co., Ltd.)

Highway Ramp Metering Based on CMAC-PID Compound Control .131
Tengjiao Wang (Wuyi University), Xinrong Liang (Wuyi University), and Chaojun Dong (Wuyi University)

New Energy Consumption and Controllable Thermal Load Coordinated Control .136
Wei chun (State Grid Liaoning Electric Power Supply Co.LTD.), Li Weiyang (Shenyang University of Technology), Shao Baozhu (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), Gao Kai (State Grid Liaoning Electric Power Supply Co.LTD), Wang Shunjiang (State Grid Liaoning Electric Power Supply Co.LTD), Li Jiajue (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), and Sun Tianhe (Shenyang University of Technology)

Research on Heat/Power Load Distribution and Coordinated Control of Cogeneration Units .140
Dong anyou (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute), Sun mingchao (Shenyang University of Technology), Zhao xiaodong (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute), and Li feng (State Grid Ningxia Electric Power Company Limited Electric Power Research Institute)

Study on Robust Motion Control of Active Target Tracking with Friction Stir Welding .145
Zhang Kun (Shenyang University of Technology) and Liu Zhengjun (Shenyang University of Technology)

Study on Strategy of Optimizing Long Span Bridge Aseismic System .149
Penghui Zhang (Tongji University), Junjun Guo (Tongji University), Xinzhi Dang (Tongji University), and Wancheng Yuan (Tongji University)

The Application of Stress Reinforcement Method in the Special-Shaped Structure System .154
Liusuo Jia (Zhengzhou City Municipal Engineering Design & Research Institute) and Guanjie Wang (Zhengzhou City Municipal Engineering Design & Research Institute)

Session 3: Simulation and Modeling

Study on the Effect of Flood Discharge on Tidal Dynamic of Power Plant Drainage Project .158
Li Wendan (Tianjin Research Institute for Water Transport Engineering), Li Mengguo (Tianjin Research Institute for Water Transport Engineering), Yang Zhiwen (Tianjin Research Institute for Water Transport Engineering), and Huang Yuxin (Tianjin Research Institute for Water Transport Engineering)

An Assessment on the Mechanical Response of Shield Tunnel Induced by Pit Excavation- A Case Study .162..
Chen Ju (Shenyang Metro Co.,Ltd.) and Ba Fang (Shenyang Metro Co.,Ltd.)

Application of Medical Simulation Teaching in Practical Teaching .166.....
Hang Zhao (China-Japan Union Hospital of Jilin University), Guijie Li (China-Japan Union Hospital of Jilin University), and Wei Feng (China-Japan Union Hospital of Jilin University)

BIM Combined with AR Technology Application in Practical Teaching .169.....
Xu Min (Xiamen Institute of Software Technology)

BIM Modeling Tool Development for Foundation of Bridge Based on Dassault CAA Architecture .173.....
Qi Chenglong (China Railway Design Corporation)

Chinese Firm's Exchange Rate Exposure Based on Price Competition Model .177.....
Liangsheng Li (South China University of Technology) and Ren Gu (South China University of Technology)

Cost Of Energy And Water Resources In Food Production—Xingtai City, Hebei Province .181.....
Yizhen Yao (China Institute of Water Resources and Hydropower Resources State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin), Guiyu Yang (China Institute of Water Resources and Hydropower Resources State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin), Lin Wang (China Institute of Water Resources and Hydropower Resources State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin), Ling Jia (China Institute of Water Resources and Hydropower Resources State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin), Pengfei Lin (China Institute of Water Resources and Hydropower Resources State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin), Yutong Zhang (China Institute of Water Resources and Hydropower Resources State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin), and Jieyun Hu (Sichuan Province Xinjin County Water Affairs Bureau)

Development and Application of Nursing Operation Virtual Simulation Training System .185.....
Xueqin Yang (The First Hospital of Jilin University), Yazhen Li (The First Hospital of Jilin University), Lan Wang (The First Hospital of Jilin University), and Deli Li (The First Hospital of Jilin University)

Evaluation Of Subway Shield Construction Risk Based On Ahp-Rbfnn .188.....
Fan Yanyan (Civil Engineering College of Lanzhou Jiaotong University) and Li Ziqi (Civil Engineering College of Lanzhou Jiaotong University)

Modeling and Intelligent Analysis of Web User Behavior of WEB User Behavior .192.....
Xuezhi Lei (Liaoning JianzhuVocational University)

Modeling and Simulation Analysis of a Special Shaped Arch Bridge .196.....
Dihang Ye (Tongji University), Xinhang Liu (T.Y.Lin International Engineering Consulting (China) Co.,Ltd), and Xun Wu (Tongji University)

Research on Coordinated Dispatch Model Based on New Energy Consumption .201
Gao Kai (State Grid Liaoning Electric Power Supply Co.LTD.), Du Kunze (Shenyang University of Technology), Wang Shunjiang (State Grid Liaoning Electric Power Supply Co.LTD.), Shao Baozhu (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), Ge Weichun (State Grid Liaoning Electric Power Supply Co.LTD.), Li Jiajue (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), and Deng Bofu (Shenyang University of Technology)

Research On Optimization Model And Method Of a Multi-Energy Complementary Combined Heat And Power System .206
Zhao Xiaodong (Electric Power Research Institute of Ningxia electric power company), Li Feng (Electric Power Research Institute of Ningxia electric power company), Liang Jian (Electric Power Research Institute of Ningxia electric power company), Teng Yun (Shenyang University of Technology), and Yao Shengpeng (Shenyang University of Technology)

Research on Optimization Technology and Application of Architectural Design Based on BIM .210
Yu Zhe (Changchun Architecture & Civil Engineering College)

Research on Product Design Based on User's Demand Numerical Simulation Analysis .213
Wu Xiaolei (Changchun Architecture &Civil Engineering College)

Research on the Application of BIM Concept and BIM Software in Architectural Design .218
Wu Xiaolei (Changchun Architecture & Civil Engineering College)

Research on Urban Flood Coupling Hydrodynamic Model .221
Shuai Niu (Nanjing Hydraulic Research Institute), Cunyou Si (Jiangsu Province Hydrology and Water Resources Investigation Bureau), Yongzhi Liu (Nanjing Hydraulic Research Institute), and Xinmin Cui (Nanjing Hydraulic Research Institute)

Simulation Analysis of Feature Extraction and Recognition for Oil Paintings .225
Feng Lv (Guangxi University)

Simulation Study on the Deformation of Sewage Pipe Tunnel with Different Construction Schemes .230
Li-hong Xiong (Shenzhen Water Engineering Construction Management Center), Cong Zhang (Hohai University), Zhi-jian Jiang (Shenzhen Water Planing & Design Institute Co.,LTD), and SUN Bi (Hohai University)

Study on Economic Wind Velocity and Basal Area of Ventilation Shafts of Tunnel .234
Jianguo Zhang (Shandong Jiaotong University), Shan Wang (Shandong Jiaotong University), and Xiaoyun Wang (Jinan Huanghe Luqiao Construction Group Co. Ltd)

Study on the Assessment Method of the Whole Process of Power Grid Dissipating Clean Energy .238
Gao Kai (State Grid Liaoning Electric Power Supply Co.LTD.), Zheng Dingfei (Shenyang University of Technology), Shao Baozhu (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), Wang Shunjiang (State Grid Liaoning Electric Power Supply Co.LTD.), Zhu Yu (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), and Li Jiajue (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute)

The Impact of Environmental Uncertainty on Firms' Forward Virtual Integration and Operational Performance Under Varied Differentiation Positioning Background 242
Yan Tang (South China University of Technology) and Min Li (South China University of Technology)

Session 4: Smart City Infrastructure Engineering

Application of GPR for Predicting the Water Content of Road Structural Layer 250
WU Xia (Jiangxi Vocational College of Applied Technology), WU Zhong-cheng (Jiangxi Vocational College of Applied Technology), WEN Shi-ru (Jiangxi University of Science and Technology,), and LIU Bin (Jiangxi University of Science and Technology)

Assessment of Soil Salinization at the Southern Laizhou Bay, North China 255
LIU Hong-wei (China Geological Survey), GUO Xu (China Geological Survey), MA Zhen (China Geological Survey), Klaus Hinsby (Geological Survey of Denmark and Greenland), ZHOU Yang-xiao (UNESCO-IHE Institute for Water Education), Chen She-ming (China Geological Survey), and HU Yun-zhuang (China Geological Survey)

Evaluation of Nanchang Metro Planning Based on Spatial Syntax 261
ZENG Lin (Science and Technology College of NCHU)

Influence Study of Track System Restraint on Earthquake Damage of Gravity Pier for High Speed Railway Bridges 265
Zun-wen LIU (Lanzhou Jiaotong University), Xing-chong CHEN (Lanzhou Jiaotong University), and Zheng-nan LIU (Lanzhou Jiaotong University)

Local Analysis of Main Tower in a Single Pylon Cable-Stayed Bridge 270
Chen Yaqin (Xi'an University of Technology) and Wang Fei (Shaanxi Key Laboratory of Loess Mechanics and Engineering)

Local Stress Analysis of Single Tower Cable Stayed Bridge with Spans of 100+70m 275
Taotao Wu (Tongji University), Zhongmin Tao (Shanghai Municipal Engineering Design Institute(Group) Co.,Ltd), and Xun Wu (Tongji University)

Research on Causes and Treatment Measures of Atmospheric Mercury Pollution Brought by Power Plant Based on Experimental Analysis 280
Honglei Liu (Shandong Electric Power College), Xutong Li (Beijing Boqi Power Technology Co.Ltd), and Litao Liu (Power China Nuclear Engineering Company Limited.)

Research on Energy Saving Technology and Design for Green Building Electrical 283
Cuiping Cheng (State Grid of China Technology College), Yaoyao Zhang (State Grid of China Technology College), Yong Niu (State Grid of China Technology College), and Lei Ren (State Grid of China Technology College)

Research on Harmonic Suppression Strategy of Grid - Connected Inverter Based on Power Grid Background Harmonics 286
HU Yin (Guangdong University of Technology), XIE Guanghan (Guangdong University of Technology), HAO Xuan (Guangdong University of Technology), and HU Wangyun (Guangdong University of Technology)

Research on Landscape Space Perception of Pocket Park .290
Jiayun Wei (Beijing University of Agriculture College of landscape architecture) and Sheng Lu (Beijing University of Agriculture College of landscape architecture)

Spatial Stability Analysis of Single Tower Cable-Stayed Bridge .295
Chen Yaqin (Xi'an University of Technology) and Wang Fei (Shaanxi Key Laboratory of Loess Mechanics and Engineering)

Study of the U-Rib and Diaphragm Welding Joints of Wide Steel-Box Girder .299
FU Kun (CCCC Third Harbor Consultant Co. Ltd) and JIN XiaoHong (CCCC Third Harbor Consultant Co. Ltd)

Study on Reasonable Completed State of Cantilever Casting Arch Bridge .303
Bin Xie (Highway Surveying and Design Institute of Qinghai Province)

The Evaluation of Building Energy-Efficiency Renovation of Existing Building in Northern Heating Areas Based on WSR Approach .308
Boya Ji (Beijing Jiaotong University), Yuming Liu (Beijing Jiaotong University), Zhanyong Jin (Beijing University of Civil Engineering and Architecture), and Yapeng Tian (Beijing University of Civil Engineering and Architecture)

Typical Earthquake Damage and Seismic Isolation Technology for Bridges Subjected to Near-Fault Ground Motions .314
Wancheng Yuan (Tongji University), Ruiwei Feng (Tongji University), and Xinzhi Dang (Tongji University)

Vertical Greening Engineering Technology Research Based On Experimental Analysis .319
Zhang Yan (Changchun Architecture &Civil Engineering College)

Session 5: Network, Big Data System and Application

Study on Intrusion Detection Based on Data Mining .323
Lei ZHANG (Hexi University), Yong CHEN (Hexi University), and Shaowen LIAO (Hexi University)

Friend Recommendation System Based on Mobile Data .326
Moukala Both Suzy Edith (Shanghai Institute of Technology Shanghai) and Wanjun Yu (Shanghai Institute of Technology Shanghai)

Development of a Data Processing Software for Grounding Grid Fault Diagnosis Based on the State Response Analysis with Impulse Current .330
Zi XIN (State Grid Shanghai Electric Power Research Institute), Qin-Jian GAO (State Grid Shanghai ChongMing Electric Power Supply Company), Chun-Bo SHI (State Grid Shanghai ChongMing Electric Power Supply Company), Hai-Long BAO (State Grid Shanghai Electric Power Research Institute), Peng YUAN (Xi'an MaoRong Power Equipment Co., Ltd.), and Wen-Rong SI (State Grid Shanghai Electric Power Research Institute)

Network Coding Method for Self-Similar Streaming Media Flow in Wireless Mesh Network .334
Wu Feng Sheng (Wuhan city vocational)

Research on Application of Artificial Intelligence in Medical Education .340
Hang Zhao (China-Japan Union Hospital of Jilin University), Guijie Li (China-Japan Union Hospital of Jilin University), and Wei Feng (China-Japan Union Hospital of Jilin University)

Research on Application of VR Technology in Art Design Teaching .343
Yan Song (Changchun Education Institute) and lihua Li (Changchun air force aviation university kindergarten)

Research on Cross Organizational Workflow Collaborative Interaction Model Based on E-RTWD Net .346
Wang ZhiFeng (State Grid Shaanxi Electric Power Info And Telecom), Lei XiaoLing (Xi'an Jiaotong University), Li Lili (Xi'an Jiaotong University), and Hu FeiHu (Xi'an Jiaotong University)

Research on the Construction of Smart University Campus Based on Big Data and Cloud Computing .351
Jianmei Cao (State Grid of China Technology College), Zhuoyue Li (State Grid of China Technology College), Qiang Luo (State Grid of China Technology College), Qingshui Hao (Shandong Greenthink Electric Power Technology Co. Ltd), and Tongjun Jiang (State Grid of China Technology College)

Research on Urban Traffic Guidance System Based on Internet of Things .354
Hui Wang (Changchun University of Architecture & Civil Engineering)

Research Several Issues on Composition Services of Self-Organizing Network .357
Lei ZHANG (Hexi University) and ShaoWen LIAO (Hexi University)

The Adjustment and Protection of Vocal States Based on Big Data .360
Du Shiwu (Southwest University of Science & Techonology)

The Research on the Software Engineering Technology of Object-Oriented Web Application System .364
Jinquan Qi (Hexi University) and Yaqiong Ba (Zhangye Middle School in Gansu Province)

Session 6: Information Management

Application of "Internet+" in Healthcare .368
Hang Zhao (China-Japan Union Hospital of Jilin University), Guijie Li (China-Japan Union Hospital of Jilin University), and Wei Feng (China-Japan Union Hospital of Jilin University)

Design and Implementation of An Apriori-Based Recommendation System for College Libraries .372
Wang Xueyuan (Neijiang Normal University) and Yang Bo (Neijiang Normal University)

Intelligent O&M System Architecture Design of Wind Power .376
YONGLIANG LIU (Chengdu Engineering Corporation Limited), JIANJIAO SONG (Chengdu Engineering Corporation Limited), and XIN QIU (Chengdu Engineering Corporation Limited)

Investigate on the Surgical Drugs Management Based on Modern Logistics .381
Wu Guifen (China-Japan Union Hospital of Jilin University), Cheng Changxia (China-Japan Union Hospital of Jilin University), Su zhenbo (China-Japan Union Hospital of Jilin University), and Zhao Jing (China-Japan Union Hospital of Jilin University)

Research and Design of Traceability System of Agricultural Products .384
Wang Xueyuan (Neijiang Normal University) and Yang Bo (Neijiang Normal University)

Research on Application of Massive Open Online Course (MOOC) in Modern Medical Education Teaching .389
Hang Zhao (China-Japan Union Hospital of Jilin University), Guijie Li (China-Japan Union Hospital of Jilin University), and Wei Feng (China-Japan Union Hospital of Jilin University)

Research on Engineering Cost Management Based on BIM .392
Xie Zheng (Hunan City University)

Research on Optimal Scheduling Method for Large-Scale Wind Power Grid Connection .396
Wang Shunjiang (State Grid LiaoNing Electric Power Supply Co.,LTD), Gu Donghong (Shenyang University of Technology), Ge Weichun (State Grid LiaoNing Electric Power Supply Co.,LTD), Zhu Yu (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute), Gao Kai (State Grid LiaoNing Electric Power Supply Co.,LTD), and Li Jiajue (State Grid Liaoning Electric Power Company Limited Electric Power Research Institute)

Research on the Digital Teaching Management System in the Operating Room .401
Zhou Xueying (China-Japan Union Hospital of Jilin University), Zhao Jing (China-Japan Union Hospital of Jilin University), Cheng Changxia (China-Japan Union Hospital of Jilin University), and Su Zhenbo (China-Japan Union Hospital of Jilin University)

The Application Analysis of BIM Technology in Whole-Process of Engineering Cost Management .404
Lianguang Mo (Hunan City University)

The Problems and Optimal Countermeasures of Water Resources Supply and Demand in Jilin City .407
Jingjing Zhang (China Institute of Water Resources and Hydropower) and Chuanjiang Wei (China Institute of Water Resources and Hydropower)

Design and Application of Partially Unbonded Prestressed Concrete Structures .411
Li Yi (CCCC Highway Consultants CO., Ltd.)

Author Index 415
