# Contents

Measurement and Modeling of Multi-frequency Microwave Emission of Soil Freezing and Thawing Processes .....	31
Z-R Relationships for Weather Radar in Indonesia from the Particle Size and Velocity (Parsivel) Optical Disdrometer .....	37
Imaging Plasma Inhomogeneities Using Spatial Wave Field Processing with DWFT Approximation ...	42
Optimal Cavities to Enhance Free-space Matching in Solar Cells .....	48
Parabolic Equation of Diffraction Theory: Why It Works Better than Expected? .....	53
Dipole Field Diffraction by a Strongly Elongated Spheroid in High-frequency Approximation .....	59
Diffraction of TM Polarized EM Waves by a Nonlinear Inhomogeneous Dielectric Cylinder .....	66
Measurement of the Diffraction Coefficient of a Trihedral Cone with Homogeneous Neumann Boundary Conditions .....	71
Heterogeneously Integrated Optoelectronic Devices for Implantable Neural Interfaces .....	78
A High-speed Pipelined ADC Based on Open-loop Amplification .....	82
A Chip of Pulse-laser-assisted Dual-beam Fiber-optic Trap .....	86
Rotation of a Trapped Microsphere in a Misaligned Dual-beam Optical Tweezer .....	92
Linear Cellularization Enabling Millimeter-wave Train Radio Communication Systems in 5G Era .....	99
Improvement in Accuracy of Breakpoint Distance Model for Path Loss Prediction .....	107
Effects of Storm Attenuation over Satellite Links in Sub-tropical Africa .....	115
A Comparative Study of Dual-slope Path Loss Model in Various Indoor Environments at 14 to 22 GHz	121
An Empirical Approach to Omnidirectional Path Loss and Line-of-sight Probability Models at 18 GHz for 5G Networks .....	129
The Second Order Moment Equation of Crossly Polarized EM-waves Due to Depolarization in Propagation through Continuous Isotropic Random Medium .....	137
Guided-mode Resonance in Waveguide Cavity .....	144
Microwave Interstitial Applicator Array for Treatment of Pancreatic Cancer .....	150
Microwaves in Medical Diagnostics and Treatment .....	155
Numerical Study of Stroke Detection Using UWB Radar .....	160
Prediction of Cement-based Materials' Water Content with the Use of Electromagnetic Homogenisation Schemes .....	164
Radar Bistatic Configuration for Soil Moisture Estimation at L-band Using Global Sensitivity Analysis Method .....	169
Two-slab High Sensitivity Technique for Measurement of Permittivity of a Dielectric Slab in a Rectangular Waveguide .....	176
Shape Measurement Based on Combined Reduced Phase Dual-directional Illumination Digital Holography and Speckle Displacements .....	184
A- $\Phi$ Formulation Time Domain Integral Equations Free from Interior Resonances .....	190
MOD Based Discontinuous Galerkin PMCHW Method for Simulating Transient Scattering Characteristics of Dielectric Objects .....	197

Fast Solution of Volume Integral Equations Based on Meshless Discretization .....	203
Analyzing Phased Arrays with Basis Functions Associated with Characteristic Modes .....	208
FDTD Analysis of Radiation and Reflection of Electromagnetic Fields in Finite Length Microstrip Lines with Terminal Cross-section .....	213
Uncertainties in EMC — Calibration and Testing .....	220
3D Holographic Display with Enlarged Field of View Based on Binary Optical Elements .....	227
Hydrophone Based on a Fiber Bragg Grating .....	233
Exploration of Optical Amplifiers Based on Erbium ( $\text{Er}^{3+}$ ) and Ytterbium ( $\text{Yb}^{3+}$ ) Doped Fiber Segments and Its Emerging Applications .....	237
Deep Learning for Interference Cancellation in Non-orthogonal Signal Based Optical Communication Systems .....	241
On-chip Detection from Directly Modulated Quantum Dot Microring Lasers on Si .....	249
Silicon-based Polarization Analyzer by Polarization-frequency Mapping .....	254
Optoelectronic Frequency Conversion Employing an Electro-absorption Modulated Laser for a Cube Satellite Earth Station .....	257
High SHF Band RF Signal Relay Employing Radio over Multi-mode Fibers .....	262
Modelling Defects on Junction between Coaxial Cables in View of Fault Diagnostic .....	266
Surface Electromagnetic Waves Propagation Guided by Dissipative Dielectric Material Sandwich between Two Periodic Multilayered Isotropic Materials in Prism Coupled Configuration .....	274
Modified Wang Shaped Ultra-wideband (UWB) Fractal Patch Antenna for Millimetre-wave Applications .....	280
Combined Electric and Magnetic Field Tuning of the Impedance of Lanthanum Strontium Manganite Thin Film Interdigital Electrode Devices .....	285
Magnetization State Determination Using Deep Learning .....	291
Ultra-broadband Tungsten Absorber .....	297
A Refined VR Based Video Indirect Ophthalmoscope .....	301
Fundamental Study for Optical Transillumination Imaging of Arteriovenous Fistula — System Integration into Practical Compact Device for Bedside Application .....	308
Monitoring of Nanopowder Combustion Ignited by Laser Radiation .....	311
Effect of Microwave Radiation on the Thermal Properties of the Electroexplosive Copper Nanopowder .....	317
Application of Laser-speckle Correlation Method for Blood Coagulation Estimation .....	320
The Development of a High Sensitive Micro Size Magnetic Sensor Named as GSR Sensor Excited by GHz Pulse Current .....	324
Engineering of GMI Effect of Fe-rich Microwires by Stress Annealing .....	332
Optimization of GMI Effect and Magnetic Properties of Co-rich Microwires by Joule Heating .....	338
Numerical Estimation Based on Ray Tracing for Automotive Radar Beam Through Curved Dielectric Slab .....	344
Electric Field Strength in Layered Materials with Varied Parameters .....	347
On the Evaluation of Sources in Highly Accurate Time Domain Simulations on the Basis of Faber Polynomials .....	352
Extension of the Parabolic Equation Method in the Time Domain .....	357
A Fast Algorithm for Electromagnetic Scattering from One-dimensional Dielectric Rough Surface .....	362
SRCNN-based Enhanced Imaging for Low Frequency Radar .....	366
An Improved Algorithm for Enhancing Fingerprint Image Quality .....	371
A High-speed Data Acquisition and Preprocessing Method for Wirelessly Supervising Train Braking System .....	376

Characteristic Parameter Estimation of Chipless RFID Signals Based on USRP .....	381
NDF and On-axis Resolution of an Axicon in Near Zone: Numerical Experiments .....	386
On the Number of Independent Equations in Phase Retrieval Problem: Numerical Results in Circular Case .....	392
Programmable Pulse Processor Using Cascaded Microrings on Silicon Photonic Circuits .....	396
WT-based Data-length-variation Technique for Fast Heart Rate Detection .....	399
Transmission Line Analogy for Wave Propagation in Graphene-based Structures .....	405
Emulating Tunneling with Elastic Vibrating Beams .....	410
Design of RFID Tag Antenna Based on the Cole-Cole Model of Human Abdomen .....	414
Characteristics of 340 GHz Slow Wave Structure for Staggered Double-vane Traveling Wave Tube .....	420
Design and Modeling of Tunable Band-stop Filter Using Evanescent Mode Resonators .....	424
An Example of Notch Filter Design Spec for the IM Noise Signal Cancellation in 800MHz CDMA Frequency Band .....	428
Influence of Tropospheric Ducts on Radio Propagation over Sea Surface .....	432
Mode Absorption Filters Based on Graphene-on-silicon Waveguides .....	437
Optical Force for Particle Trapping in a Nanobeam Photonic Crystal Cavity .....	440
Analysis of Interferogram Phase Noise by Bi-static Data Sets of TerraSAR-X .....	444
Modified Helical Coils Structure for Uniform Magnetic Flux Density .....	449
A Low-profile Antenna Design for LTE/WWAN Smartphone Application .....	454
Eutrophication Analysis of Water Reservoirs by Remote Sensing and Neural Networks .....	458
Filtered Back Projection and Simultaneous Algebraic Reconstruction Technique for Image Formation on Square-shaped Physical Phantom Aimed at Microwave Imaging Applications .....	464
Estimation of the Energy Characteristics of a Multi-position Radar System for the Control of Small-sized Space Debris for Various Orbital Zones .....	470
Estimation of the Resolution of a Multi-position Radar for the Control of Small-sized Space Debris Objects That Are Not Resolved by Angular Coordinates .....	476
Efficient Electromagnetic Scattering Analysis for Multi-scale Problems Using Green's Functions of Arbitrary Scatterers .....	482
Plasmonic Properties of Electrolytes beyond Classical Nanophotonics — A Two-fluid, Hydrodynamic Approach to Nonlocal Soft Plasmonics .....	490
Modeling the Magnetic Field Radiated from a Ferrite Rod Antenna for Mining Proximity Detection Systems .....	496
A Novel Approach to Microfabrication of Planar Microstrip Meander-line Slow Wave Structures for Millimeter-Band TWT .....	506
Radiation Pattern Inspection of the FMCW Signal Using Asynchronous Electro-optic Measurement System .....	510
Novel Measurement Set-ups of FTB Stress Propagation in an IC .....	513
Speed of Light in Vacuum in the Case of a Lumped Electric Circuit .....	520
Numerical Models of a Multilayered Graphene Structure .....	527
Algorithms to Detect and Localize the Source of a Wideband Pulse Signal .....	533
A Numerical Analysis of a Periodic Resonant Structure at THz Frequencies .....	537
Vision-based and Differential Global Positioning System to Ensure Precise Autonomous Landing of UAVs .....	542
High Frequency Scattering from Conducting Rectangular Cylinder via Surface Equivalence Theorem ..	547
$H$ -polarized Plane Wave Diffraction by Thick Conducting Slits .....	553

An Enhanced Model for the Analysis of Non-uniform Multiconductor Transmission Lines Based on Scattering Theory .....	559
Spatial Prediction of Electromagnetic Fields Using Few Measurements .....	565
Coupling of Differential and Common Modes of Two-line Circuits in the Multi-conductor Transmission-line Theory Including Radiation .....	570
Orbital Angular Momentum Generation Using Composite Quasi-continuous Metasurfaces with Perfect Efficiency .....	575
Giant Nonlinear Response of Subwavelength Dielectric Resonators Enhanced by Bound States in the Continuum .....	580
Metasurfaces for Improvement Magnetic Resonance Imaging Characteristics: Novel Designs and In Vivo Studies .....	585
Characterization of Terahertz Plasmonic Structures Based on Metallic Wire Woven Meshes .....	588
Helicity-induced Multifunctional Devices Based on Hybrid Metasurfaces .....	592
Integrated Circuits Using Photonic-crystal Slab Waveguides and Resonant Tunneling Diodes for Terahertz Communication .....	599
Improved Detection Strategies for Nonlinear Frequency-division Multiplexing .....	606
Open Area Concealed Weapon Detection Sensor System Development .....	611
Design and Analysis of Inductive Reluctance Position Sensor .....	621
Wireless Energy Harvesting in RFID Applications at 5.8 GHz ISM Band, a System Analysis .....	627
A Novel Microwave Applicator for Sandy Soil Disinfection .....	636
Study of Simultaneous Switching Noise in Two-dimensional Transport Theory including Radiation Effect .....	642
Effect of Absorbing Coating on Shielding Effectiveness of Electromagnetic Shielding Fabric .....	648
Optimal Design of Yagi Microstrip Antenna Based on Particle Swarm Optimization with Fitness Estimation .....	653
Analysis of Singular-point Generating Mechanisms Based on the Correlations among the Parameters in Coherency Matrix and Those in the Optimized Scattering-mechanism Vector in PolInSAR .....	661
Imaging Performance of Backward and Forward Bistatic SAR .....	669
Adaptive Subsurface Visualization System Using Phase Retrieval Method and Complex-valued Self-organizing Map .....	677
Influence Analysis of Uneven Surface on Landmine Detection Using Holographic Radar .....	683
A 3.5–8 GHz Analog Complex Cross-correlator for Interferometric Passive Millimeter-wave Security Imaging Systems .....	692
Shuffled Structure for 4.225 GHz Antireflective Plates: A Proposal Proven by Numerical Simulation ...	700
A Modified Method for Measuring the Faraday Rotation Angle .....	706
Data Augmentation Using Conditional GANs for Facial Emotion Recognition .....	710
An Efficient Face Recognition Algorithm Based on Deep Learning for Unmanned Supermarket .....	715
Efficient Data Record System for Radio Backend .....	719
Pre-processing VDIF Data in FPGA .....	723
A Novel Extraction Method for Melodic Features from MIDI Files Based on Probabilistic Graphical Models .....	729
Model Calculations for Hardware Correlator at SHAO .....	734
Waveguide BPF Composed of Dielectric Frequency Selective Structure with High Suppression of Spurious Mode .....	739
Design Optimization of RF-MEMS Based Multiband Reconfigurable Antenna Using Response Surface Methodology .....	743

Indoor Localization System Using Commensal Radar Principle .....	751
An Improved Successive-cancellation Decoding Algorithm for Polar Code Based on FPGA .....	756
Improved Electromagnetic Compatibility Design for Printed Circuit Board of Automobile Atmosphere Lamp .....	760
Next Approach of HEMS WPT .....	765
Numerical Study of Hyperthermia Applicator System for Tumor Treatment in Head and Neck Region .	770
An Interference EMG Model of Selected Water Samples .....	775
Algorithms for Flying Object Detection .....	782
Formation of Ray Trajectories of HF Radiowaves in Midlatitude and Highlatitude Ionosphere during Halloween Storm 2003 According to Radiotomography Data .....	787
Multiple-bounce Modeling of High-rise Buildings with Airborne Tomography Array .....	791
The Study of Composite Scattering from the Target over a Randomly Rough Surface Using SAR/ISAR Imaging .....	797
Scattering Characteristics of Vortex Electromagnetic Waves for a Wedge .....	801
Application of the RK4IP Method for the Numerical Study of Noise-like Pulses in Supercontinuum Generation .....	805
Numerical Analysis of Chaotic Dynamics Produced in a Photonic Crystal Fibers .....	810
Classification and Properties of Modes in Bragg Fibers .....	814
Inverse Synthetic Aperture Ladar Imaging Algorithm for Space Maneuvering Target Using Synchrosqueezing Short-time Fourier Transform .....	819
Analysis of Spectrum Properties of Integrated Optical Chips Applied on IFOG .....	827
Semi Circular Printed Monopole Antenna with U Shaped Slot for UWB Applications .....	833
Design of 5 Way Wide Band Wilkinson Power Divider for 6 to 18 GHz Applications .....	838
Magneto-optical Properties of a Magnetic Fluid in the THz Frequency Range .....	843
Multiband Circularly Polarized Synthetic Aperture Radar (CP-SAR) Onboard Microsatellite Constellation .....	848
Comparison Design of X-band Microstrip Antenna for SAR Application .....	854
Gain Enhancement of C Band Linearly-polarized Microstrip Antenna with Square Parasitic Patch for Airborne LP-SAR Sensor .....	858
Dual-band Circularly-polarized Microstrip Antenna for Nano Satellite .....	864
3D Printed Wideband Circularly Polarized Pyramidal Horn Antenna .....	868
Unidirectional Radiation and Gain Enhancement of Circularly Polarized Printed Slot Antenna by Several Shapes of Reflector .....	872
An 8-channels FPGA-based Reconfigurable Chirp Generator for Multi-band Full Polarimetric Airborne/Spaceborne CP-SAR .....	876
An PC-based Airborne SAR Baseband System .....	882
Numerical Solution for Received Power Estimation in a Wave Propagation — A Case of Ground Based C-band SAR Test .....	889
Indoor Experiment of SAR Interferometry with 79 GHz MIMO Sensor .....	894
Single Post-event PolSAR Data Based Earthquake/Tsunami Damage Information Extraction in Urban Areas .....	899
Interferometry Synthetic Aperture Radar (InSAR) Application for Flood Area Detection Observed by Sentinel 1A .....	905
Multi-temporal Land Deformation Monitoring in V Shape Area Using Quasi-Persistent Scatterer (Q-PS) Interferometry Technique .....	910

Detection of Dry-flammable Peatland Area by Using Backscattering Coefficient Information of ALOS-2 Data L-band Frequency .....	916
Analytical and Numerical Investigation of Silicon Photonic 2D Grating Couplers with a Waveguide-to-Grating Shear Angle .....	921
Experimental and Numerical Study of Electromagnetic Parameters of V-band Planar Meander Slow-wave Structure .....	926
A Millimeter-wave Aperture Coupled High-gain Antenna Array .....	930
A Millimetre Wave Embroidary Beam Forming Antenna Array for UWB Applications .....	935
Numerical Simulation of Reversed Cherenkov Radiation Using a Time-domain DG Method .....	940
High-capacity Mobile Fronthaul Transmission Using IF-over-Fiber Technology for Next-generation C-RAN Architectures .....	947
Energy Efficient Performance Evaluation of XG-PON for Sustainable Green Communication Infrastructure .....	950
Determination of Critical Paths for Multipath Propagation in Broadband Powerline Communication Networks .....	956
Short Range Propagation Simulation of Modified Ground Microstrip Antenna Design for Near Field Communication Application at Frequency of 0.35 THz .....	962
Signal Spectral-interval Estimation in Fast Photonic Analog-to-digital Converters .....	967
Ultra-high Resolution Real-time Radar Imaging Based on Microwave Photonics .....	973
Feasibility of Quantitative Mapping of Microscopic Cerebrospinal Fluid Motion Based on Q-space Imaging .....	978
Two-channel Bioradar for Stress Monitoring .....	983
Microwave Thermal Ablation near Metallic Bronchial Prostheses: Numerical Models and Experiments .....	988
Towards Optimization of Open Ended Contact Probes for Breast Cancer Diagnosis .....	993
Wireless ECG Patient Monitoring System Performance Aimed at Off-/On-body Communications .....	1000
RF Electrical Detection and Characterization of Exosomes Released from Epstein-Barr Virus Infected and Uninfected Cells .....	1005
Mathematical Analysis of Electromagnetic Guided Propagation and Scattering in Millimeter-wave and Optical Fields .....	1014
Transmission Resonance Phenomena for a Narrow Rectangular Slot in Thick Conducting Screen .....	1023
Research of Biological Effects of EM Field in Microwave Frequency Band .....	1028
A Co-design of Current Reuse RFPA and Compact Spiral Printed Antenna .....	1034
The Value of Phase Angle in Electrical Impedance Tomography Breath Detection .....	1040
Monopole Antenna Array with Individual Shields for Ultra High Field Magnetic Resonance Imaging ..	1044
A Numerical Analysis of an Inverse Periodic Resonant Structure at THz Frequencies .....	1051
Hardware Correlator Development at SHAO .....	1056
A Method of Path Sharing for Multiple VDIF Data Streams Transmission .....	1060
Research of the Chinese Array for Pulsars .....	1068
Design of a Transceiver Antenna for Wideband Chipless RFID Tags .....	1071
A Numerical Study of Influence of a Matching Medium on Transmission Coefficients between Antennas Used in Microwave Imaging System .....	1076
Development of UWB Microwave Mammography with Multi-polarization .....	1081
Analysis and Synthesis of Large Scale Conformal Antenna Based on Hybrid Layout .....	1084
High Gain Microstrip Antenna Based on Zero-index Metamaterials .....	1088
Proximity Coupled Patch Array Antenna with Switchable Polarization for WLAN Application .....	1092
Miniaturized Branch-line Coupler with Harmonic Suppression .....	1096

Thin EM Wave Absorber Metasurface Based on Artificial Magnetic Conductor .....	1100
On the Formation of Higher Harmonic Components in Power Spectrum of the Output Radiation of Microwave Generator with Turbulent Electron Beam .....	1104
Compact SIW Power Divider with CSRRs for WLAN Application .....	1108
Design of GaAs pHEMT Negative Resistant Oscillator Using a Novel Parallel Coupled Dielectric Resonator .....	1112
Research of Failure Models for a 700 V VDMOSFET .....	1117
The Impaction of Epitaxy Growth Method on Performance of Low-voltage UMOS .....	1124
Optimization of Current Collector Design for <i>Operando</i> X-band-EPR Investigations of Lithium-Ion Batteries Using Numerical Simulations .....	1127
Wideband Substrate-integrated-waveguide BPF Incorporated with Complimentary-split-ring-resonators .....	1134
Modified Transformation Optics Based FDTD for Local Mesh Refinement .....	1138
The Laser Scattering and Statistical Characteristics of Haze Particles Which Have Rarefied Random Distribution .....	1141
Reducing Reflection Noise of Signal Trace through Metal Planes with a Via Stub in a Thick Multilayered PCB Using High-impedance Arc Traces .....	1146
A 0.94 ~ 1.50 GHz Constant Absolute Bandwidth Tunable Bandpass Filter with Electric Coupling ....	1150
Long-term Change in Rainfall Rate and Melting Layer Height in Indonesia .....	1154
Efficient Control of Output Parameters of the Medium Power Gyrotrons .....	1159
A Numerical Analysis of Capacitors for On-chip Energy Storage .....	1166
Feasibility Assessment of a Phoswich Detector for Simultaneous Measurement of a Mixture of Beta- and Gamma-emitters .....	1172
Investigation of Kalman Filter-KF-Application on a Quasi-Newtonian — QN — Algorithm for Photovoltaic Maximum Power Point Detection — MPPT .....	1177
Highly Tunable Band-stop Filter Based on Silicon on Insulator Split Micro-ring Resonators .....	1184
A Case Study on Pixel-by-pixel Radiometric Normalization between Sentinel-2A and Landsat-8 OLI ..	1188
Practical Implementation of the E-pulse Technique on the Original Antiquates .....	1194
Understanding the Correlation in Scattering Mechanisms between H-Alpha Decomposition and Theoretical Modelling .....	1198
Theoretical Modelling Study on MVI Derivation in Multangular Observation Systems .....	1204
Orthogonal Phase Distortions in Apertures of Linear and Planar Phased Arrays with Different Amplitude Distributions .....	1208
An Integral Form of the Nonlinear Schrödinger Equation with Variable Coefficients .....	1214
Determination of Maximum Influence Zones in the Aperture Amplitude-phase Distribution on Radiation Pattern in the Far-field Radiation .....	1221
The Electromagnetic Resonant Vector and the Generalized Projection Operator .....	1225
Electromagnetic Fields Produced by Filamentary Sources for Stimulation of a Nerve Fiber .....	1233
Theorem for Existence and for the Number of Some Real Numbers .....	1239
Comparison of Various Linearly Polarized Mode Approximations of the Optical Fiber .....	1245
An X-band Waveguide Jig for Pre-screening Testing of Fully-integrated Elementary Phased-array Transceiver Antenna-in-package .....	1248
High <i>Q</i> Dual Band Super High Frequency Notch Filter Based on Complementary Metamaterial .....	1254
SSMR Preconditioned Linear Iterative Solvers for Electromagnetic Simulations .....	1258
Bifunctional Gap-plasmon Metasurfaces for Visible Light .....	1265
Orbital Angular Momentum Generation Using a Bi-functional Pancharatnam-Berry Metasurface .....	1270

Space and Time Division Packet Super-channel Switching System for Next Generation Data Center Networks .....	1274
Optical Image Encryption and Authentication Based on Random Phase Encoding and Dielectric Meta-surface .....	1282
Harvesting Sunlight with Titanium Nitride Nanostructures .....	1286
A Wide-band Dual Circular Polarization UHF RFID Reader Antenna Based on Miniaturized Branch Line Coupler .....	1290
A Novel Chipless RFID Tag Based on Backscattering Principle .....	1295
A Broadband Circularly Polarized Slot Antenna with Ferrite Substrate for CNSS Application .....	1299
Drainage of Remaining Heavy Oil Reservoir by Implementing Electromagnetic Microwave with Nano-ferro Fluid Injection .....	1304
The Development of VLBI Digital Backend in SHAO .....	1310
Electromagnetic Design of a Magnetic Suspended Motor Considering Temperature Influence .....	1315
Design of a Novel Compact LTE/WWAN Antenna for Mobile Phone Applications .....	1320
A New High Gain Antenna Based on MIM Composite Extraordinary Optical Transmission Structure .	1327
Compact Chipless RFID Tag Based on Fractal Antennas and Multiple Microstrip Open Stub Resonators .....	1332
Differentially Fed Ring-shaped Planar Printed Antenna with Higher Order Mode Suppression .....	1339
G-band Diplexer Based on <i>E</i> -plane Waveguide Structures .....	1343
Designs of High Power Ratio Dividers Using Left-handed Transmission Line Transformers .....	1347
A Novel Wideband Rectifier Design with Two-stage Matching Network for Ambient Wireless Energy Harvesting .....	1351
Comparative Analysis of Gyrotrons Driven by External Signals .....	1355
A Novel Intelligent Door-lock and Management System Based on STM32 Microcontroller .....	1358
Detection of Small and Large Hidden Metallic Objects via Passive Millimeter Wave Imaging System with an Auto-segmentation Routine .....	1362
Impact of Usage of Multiple-satellite Sensors on Accuracy of Sea Surface Wind Data .....	1366
Experiment and FDTD Simulation of Antenna for the Microwave CT .....	1372
The Method of Adaptive Gaussian Decomposition Based Recognition and Extraction of Scattering Mechanisms .....	1376
Using Spectral Residual Method to Identification Buried Objects from GPR B-Scan Image .....	1381
A Novel Encoding and Decoding Method for Packaging Goods Based on Grayscale-Information Matrix	1386
Development of Middle-power W-band Gyrotron in IAP RAS .....	1391
A Metamaterial-inspired Structure for UHF RFID Tag Antenna .....	1395
Based on Silicon-micro-ring-resonator and Triple-ring Cavity for Stable and Tunable Erbium Fiber Laser .....	1399
Dispersion Accommodation Based on a Defect Layer in Hollow Single-mode Bragg Fiber .....	1405
Tunable Optical Delay Line Based on SOI Contradirectional Couplers with Sidewall-modulated Bragg Gratings .....	1409
Phase Stabilization in Onboard Microwave-band Fiber-optic Link .....	1413
Numerical Simulation on Thermal Response for Dynamic Non-destructive Detection of Weak Bonds in Carbon Fiber Reinforced Polymer .....	1419
Tropical Cyclone Wind Direction Retrieval from C-band Dual-polarization Synthetic Aperture Radar .	1423
Characterization of the Tropical Cyclones Wind Radii in the North Western Pacific Basin Using the ASCAT Winds Data Products .....	1428
SAR Observations and WRF Modeling of Marine Atmospheric Phenomena .....	1434

A C-band Geophysical Model Function for Determining Coastal Wind Speed Using Synthetic Aperture Radar .....	1440
Upper Ocean Response of Yongxing Island Area to Typhoon ‘Kujira’ in the South China Sea from Multiple-satellite and Fixed-point Observation .....	1447
An Experimental Assessment of Polarimetric L-band Backscattering Using GB-SAR Data .....	1453
RCS Characteristics Analysis of Trihedral Corner Reflector for Bistatic SAR Tandem Mode Radiometric Calibration .....	1457
Integration of Heterogeneous InSAR Measurements for Mapping Complete and Accurate Three-dimensional Surface Displacements: A Case Study of 2016 Mw 7.8 Kaikōura Earthquake, New Zealand .....	1460
Hinotori-C: A Full Polarimetric C Band Airborne Circularly Polarized Synthetic Aperture Radar for Disaster Monitoring .....	1466
An Autofocus Algorithm Based on Topography Searching for Airborne SAR .....	1474
Current Distribution and Input Impedance of a Strip Antenna Located at a Plane Interface of an Isotropic Medium and a Gyrotropic Metamaterial .....	1479
Theorem for the Identity of the $G_1(c, n)$ and $L_1(c, n)$ Numbers and Its Application to the Theory of Waveguides .....	1486
Suppression of Distant Aperture Sidelobes in Linear and Planar Phased Arrays .....	1492
An Efficient Numerical Method for Solving Multiscale Electromagnetic Scattering Problems .....	1496
Mixed Discretization of CFIE in the Framework of MLFMA .....	1500
Accurate Solution of Volume-surface Integral Equations at Very Low Frequencies .....	1506
Electromagnetic Scattering of an Object Using a Modified High Order FDTD .....	1511
Mode Field Evolution of a Single-mode Multi-core Fiber Based on the Coupled Mode Theory .....	1514
Dispersion Characteristic of Elliptical Waveguide under New Boundary Condition .....	1518
Numerical Analysis of a Leapfrog ADI-FDTD Method for Metamaterial Maxwell’s Equations .....	1523
Effect of Mutual Coupling within Elements of Array-units Beyond Full Wavelength Element Spacing for Linear Arrays .....	1532
Flexible Printed Active Antenna for Digital Television Reception .....	1538
Reliability Ranking of Nodes: A Case of Revolution .....	1542
A Novel 1–6 GHz Chaotic Signal Oscillator for Broadband Communication Systems .....	1550
A Novel UWB Quadrifilar Planar Spiral Antenna .....	1555
Design of a Ring Oscillator with Temperature and Process Compensation Adopting a Novel Method ..	1560
Miniaturized Wilkinson Power Divider with DC Isolation .....	1565
T-shaped Slot Loaded Rectangular Patch Antenna with Enhanced Bandwidth Using Defected Ground Structure .....	1570
Optimization Method in 2D DC Cloaking Problems .....	1576
Broadband RCS Reduction Using Digital Impedance Metasurfaces with 2-bit Coding of Axes of Anisotropy and Eigen Reactances .....	1583
Synthesis of a Two-focal Impedance Reflector of Arbitrary Shape .....	1591
Scattering Characteristics of the Van-Atta Waveguide Array on the Surface of a Cylinder .....	1597
Numerical Analysis of Inverse Problems for Electric Field Measurements .....	1603
Theoretical and Numerical Analysis of the Magnetic Cloaking Problem .....	1609
The Radiation Characteristics of the Four-element Vivaldi Antenna Arrays, Which Located on the Cylindrical Surface .....	1617
Radiation Characteristics of the Low Profile Dipole Antenna .....	1621
Development of Terahertz Folded Waveguide Traveling Wave Amplifier .....	1626
Simulation and Analysis of Photoconductive Vacuum Diode Arrays in Terahertz Band .....	1633

Design of Narrow Band Terahertz Waveguide Filters Including Power Handling Analysis .....	1637
Effect of Anisotropic Metasurface Linings on Circular Waveguide .....	1642
Parity-time Symmetric Laser and Absorber .....	1650
<i>E</i> -polarized Diffraction by a Lossy Dielectric Wedge .....	1655
Study on the Microcellular Radio Wave Propagation at Universitas Indonesia Environment Utilizing Ray Tracing .....	1658
The Applications of Interferometric Fiber-optic Sensors in Oilfield .....	1664
Quantum Key Distribution over FSO: Current Development and Future Perspectives .....	1672
Satellite Laser Communication Activities in NICT .....	1680
A Direct Pre-disortion Method Based on Gaussian LED Nonlinear Behavior Model for Visible Light Communication .....	1686
Demonstration of 95 GHz Single RAU Linear Cell Radar over Fiber and Radar Propagation Study in Malaysia .....	1693
Link Budget Analysis for Dual Sideband Optical Carrier Suppression RoF System .....	1698
Asynchronous Electric Field Vector Measurement Using EO Sensor in Millimeter Wave Band .....	1703
Metasurface Spectroscopic Analyzers .....	1707
A New Waveguide Technology with a Ridge and Surrounding Metal Rods of $\lambda/4$ in Height and Its Applications .....	1712
The Method for Determining Distinctive Features PC Hardware Interfaces Based on the Way They Turn .....	1716
The Configuration of Laboratory Stands for Testing Compromising Emanations from It Equipment ...	1722
The Measurement Method of Radiated Emission for Power Generators .....	1728
Measuring the Frequency Band of Transmitter for VSAT Satellite Terminals .....	1735
The Measurement of Signal Level for VSAT Satellite Terminals .....	1741
Veryfication of Multi-access Techniques for VSAT Satellite Terminals .....	1748
Microstrip Antenna with Phase Scanning .....	1754
Linear Antenna Array on Multilayer Dielectric Substrate .....	1759
Applications of IT Equipment Protective Solutions against Electromagnetic Compromising Emanations	1765
Analysis of Scenarios for It Equipment Location from the Point of View of Electromagnetic Security ..	1771
Analysis of Disturbance of the Propagation of Electromagnetic Wave at the Edge of Terrain Obstacle .	1776
Simulations of SAR Values for Selected Telecommunications Devices .....	1780
Effect of Interference Source with Directional Antenna on Radio Link in Non-line-of-sight Conditions .	1784
Degradation of Radio Link Capacity with Directional Antennas .....	1791
Direction of Arrival Error for Localization Procedure of Sources with Directional Antenna .....	1797
Anti-water UHF RFID Tag Antenna with Multi-loop Structure for Impedance Matching .....	1805
A Novel Design of Frequency-reconfigurable Antenna for Wireless Communication .....	1809
Meandered Inductor Shape of DGS for Coupling Suppression between Adjacent Elements of Array Antenna .....	1813
Design of a Novel Miniaturized RFID Tag Antenna for UHF Applications .....	1817
High Stability Tracking with Sparse Location Information .....	1821
Evaluating the Experience Obtained from the Measurement of Light Air Ions in a Cave .....	1826
A Triple-band Monopole Antenna with Dual-polarization Characteristics .....	1831
Slot and DGS Incorporation for Bandwidth Enhancement of Substrate Integrated Waveguide Antenna	1838
Phase-only Excited Random Antenna Arrays .....	1842

Design of a Multi-band Antenna for WLAN Application .....	1847
Dual Band Folded Microstrip Patch Antenna for Omnidirectional Radiation .....	1851
A Low-voltage Gyrotron Backward-wave Oscillator at 200 GHz .....	1856
Flexible Artificial Magnetic Conductor Reflector for Wearable Antenna Application .....	1859
An Approach for Parameter Estimation of Ground Moving Target .....	1863
A Novel Control Method for Pneumatic Generating System Based on Heavy Haul Train .....	1868
A Novel Superpixel Generation Method Based on Edge Intensity for SAR Image .....	1873
A Novel Miniaturized Quasi-lumped Element Antenna Based on Interdigital Capacitor .....	1879
Design of Recognition System for Chipless RFID Tags Based on Spectral Characteristics .....	1884
Broadband Microwave Imaging for Foam Insulation Diagnostics .....	1887
Wall Ringing Multipath Exploitation for Through-the-wall Imaging Radar .....	1895
Design of the RF-DC Conversion Circuit by GA Adopting Mutation Based on Fourier Coefficients on Unit Structures .....	1900
Design of a Miniaturized RFID Tag Antenna Based on Textile Substrates .....	1905
Capacitive-Discharge-Pumped Copper Bromide Vapor Laser with Output Power up to 15 W .....	1909
Compact Over-mode Waveguide for Power Combining in Sub-millimeter Wave .....	1915
Modeling and Simulation of On-chip Probe for Portable NMR Applications .....	1918
Microwave Imaging in a Dielectric Half-space Medium Bounded by a Metal Surface .....	1925
A Universal Fast Back Projection Method for Nonuniform Sampling Based on Nonuniform FFT .....	1932
A Hologram Reconstruction Algorithm for Landmine Recognition and Classification Based on Microwave Holographic Radar Data .....	1938
Comparison of Generalized Multilayer Stolt Migration with Reverse-time Migration .....	1945
Nonlinear Hybrid Waves in a Cylindrical Anisotropic Metal-dielectric Waveguide .....	1948
Multi-contour Saddle Point Method on Dispersion Diagrams for Computing Transient Wave Field Components in Waveguides .....	1955
Reconstructing Permittivity and Permeability of Multi-sectional Anisotropic Diaphragms .....	1963
Reconstruction of Electromagnetic Parameters of a Thin Anisotropic Dielectric Slab .....	1968
The Synthesis Problem of Multilayered Coating Using Metamaterials .....	1973
Compacted 8 MIMO Antenna Design for Wi-Fi AP .....	1978
Directivity Measurement of Circular Phased Array $4 \times 4$ MIMO Antenna .....	1984
Dual-circular $8 \times 8$ MIMO Array with Synchronized Beam Scan for Over-Gbps Inter-vehicle Communications .....	1989
8-loop Antenna Array in the 5 Inches Size Smartphone for 5G Communication the 3.4 GHz–3.6 GHz Band MIMO Operation .....	1995
Double Crossed Planar Bow-tie on a Lens Antenna at Terahertz Frequency for Imaging Application ...	2000
Visualization of the Electrical Field in the Vicinity of a THz Pulse Exposed Cell with FDTD Simulation .....	2006
Compensation of Third-order Inter Modulation Distortion by Using Frequency Chirp Modulation for Electro-optic Modulator .....	2011
Design of the Terahertz Near Field Imaging Discreteer Based on Graphene Monolayer Strip Structure .	2018
Phase Singularities in Moiré Type Metasurfaces .....	2023
High-Q Supercavity States in High-index Subwavelength All-dielectric Resonators .....	2027
An Ultra-short Silicon Polarization Beam Splitter Based on Asymmetrical Directional Coupler .....	2032
Evaluation of Received Signal Power in On-body Dynamic Channel Considering Human Walking Motion .....	2036

Wireless Communication System Based on OFDM System Using Wavelet Transform .....	2041
Propagation Loss Characteristic of V2V Communication for Right-turn Accident Prevention Scenario .	2047
The Use of a Multi-position Radar System with a Limited Number of Receiving Positions for Operational Control of Small-sized Space Debris .....	2052
Airborne Communication Antenna Protection and Stealth .....	2057
A Dynamic Detection Method for RFID Strain Sensor Tag Antenna Based on USRP X300 .....	2061
Multipath Interference Suppression Based on a Stable and Effective Neural Network .....	2066
An Improved Algorithm for Fingerprint Identification Based on Line Tracking and Mirror-assisted Method .....	2072
Precession Period Extraction of Axisymmetric Space Target from RCS Sequence via Convolutional Neural Network .....	2077
The Progress of VLBI Digital Backend Development Based on ROACH2 .....	2083
The Research of FPGA Acceleration for VLBI Hardware Correlator .....	2088
A 10GHz Oscillator Based on the Principle of Negative Resistance .....	2092
A Ka Band Multi-channel Integrated Receiver for Passive Millimeter Wave Imaging System .....	2099
Directional Backlight Generator for Larger Field Angle Autostereoscopic Display .....	2106
Impact from JFET Region Doping on Characteristics of Power MOSFETs .....	2112
Pollution Detection for Insulators of Power System Based on Image Processing .....	2117
Implementation of a High PSRR Low Power CMOS Bandgap Voltage Reference Circuit .....	2121
Estimation of Electron Density Profile in the Lower Ionosphere from Ionogram Data by the Full Wave Method .....	2129
One-minute Rain Rate Distribution in Indonesia Derived from TRMM, GPM and GSMAP Data .....	2134
LTE Area Coverage Probability for All MCS Weighted and Multi-EnodeB Averaged Cell Range in Urban Area .....	2139
Monitoring of Continental and Ocean Crust Subduction Patterns in the Magma Covered by the Philippine Plate as a Young Drifting Crust .....	2151
Direct Determination of Laguerre-Gauss Vortex Beams' Topological Charges by Aperture Diffraction Pattern .....	2155
Empirical Identification of Narrowband Interference in Broadband PLC Networks at the Receiver .....	2160
Impedance Modelling, Profiling and Characterisation of the Powerline Communication Channel .....	2165
Gyrotron-based Microwave Systems for Technological Applications: Recent Experiments and New Designs .....	2172
The Electromagnetic Properties of a Multilayered Resonant Structure Formed from Inorganic Elements	2176
A Novel M-Z Modulator Based on Photonic Crystal and Nanowire Waveguide .....	2184
Investigation of Low-profile RFID Antenna Using AMC Substrate for Anti-metallic Application .....	2187
Metamaterial Inspired Long Read Range UHF RFID Tag Antenna .....	2192
Towards an Automatic Urban Settlement Mapping from Multi-temporal InSAR Trained by Social Media .....	2196
Simultaneous Temperature and Strain Sensing Utilizing Brillouin Frequency Shifts Contributed by Multiple Acoustic Modes with High Spatial Resolution .....	2202
An Experimental Study of Foliage Penetrating Radar with Coherent Change Detection .....	2207
Plane Wave Coupling to Overhead Lines over Stratified Earth .....	2212
A New GLHUA NP11-3 Electromagnetic Invisible Cloak .....	2220
Polarimetric SAR Targets Detection and Classification with Deep Convolutional Neural Network .....	2227
Dynamic Polarimetric Backscattering Matrix Measurement System and Calibration Method .....	2235

Urban Damage Mapping Using Fully Polarimetric SAR Data .....	2239
Optimized Reconstruction of GPR Target Signature Using Evolving Sparse Representation .....	2245
Estimation of Near-surface Soil Moisture through GPR Signal Processing Based on Multi-scaled Spectral Feature Weighting .....	2250
Evaluation of the Impact of Deforestation on the Radio Wave Propagation Near the Large Antenna System in the Calculation of Sanitary Protection Zones .....	2256
FDTD Studies of the Lasing Characteristics .....	2262
Wavelength Scanning Speed Analysis for High-resolution Optical Spectrometry Based on Stimulated Brillouin Scattering .....	2265
Numerical Modeling of Graphene Nano-ribbon by DGTD Taking into Account the Spatial Dispersion Effects .....	2269
Penetrable Numerical Modeling of Metallic Nanoparticles at Terahertz Frequencies .....	2273
Theory of Potential-based Integral-form A- $\Phi$ Formulation in Electromagnetic Applications .....	2280
A Fast FE-BI Method for the Computation of Monostatic Radar Cross Section .....	2287
Change Detection of Huangqi Lake Based on Modified Active Contour Using Sentinel-1 SAR Image ...	2291
Efficient Extraction of Daihai Lake Based on Neural Network Algorithm from High Resolution SAR Image .....	2296
High Resolution Detector Array with On-chip Crowding Honeycomb-shaped Patch Operating in Sub-millimeter Wave .....	2299
A Compact Millimeter-wave Array Element Design Combining Integrated Feed and External Taper Slot Structure .....	2302
Naïve Beamforming for Multi-element Antenna GNSS Receiver .....	2306
Reconfigurable Antenna Based on Graphene at Terahertz Frequency .....	2311
A Novel Reconfigurable Liquid Metal Antenna Controlled by an Impressed Voltage .....	2314
A Dual-band Dual-polarization Stacked Antenna Array for GPS Application .....	2318
Probabilistic Density-tapered Antenna Arrays .....	2324
A Band-notched UWB Antenna Loaded with Tree-shaped Fractal .....	2333
Design of High Efficiency Multiband Rectenna for RF Energy Harvesting .....	2340
A Modified Super-wideband Planar Elliptical Monopole Antenna .....	2344
Nose Cone Conformal Antenna Array Design for X-band Radar Applications .....	2350
A Compressed Sensing Method for Phased Antenna Array Element Failures Diagnosis Using Only One Fixed Receiving Probe .....	2353
Minimum Measurement Points in Near Field: Numerical Results .....	2358
MUSIC Algorithm for Imaging Small Anomaly from Scattering Parameter: Real-data Experiments ...	2362
Parameter Estimation of a Plasmonic Channel Using Vlasov Equation .....	2365
Doppler Radar Vital Sign Detection Based on Complex Continuous Basis Pursuit Algorithm .....	2371
Doppler Migration Estimation for a Complex Moving Target in Low Signal to Noise Ratio Environment	2378
Compressive Sensing-based Two-dimensional Diffraction Tomographic Algorithm for Through-the-Wall Radar Imaging .....	2384
Waveguide-type CRLH Transmission Line Composed of Metallic Cylinder-pairs Arranged in Two Lines and Its Radiation Characteristics as a Leaky-wave Antenna .....	2389
Extraordinary Acoustic Transmission in Human Hearing System .....	2393
Bloch Oscillations in Mechanical Vibrations .....	2399
Terahertz-wave Communication System Using a Traveling-wave Tube Amplifier .....	2405
Study on Seasonal Variability of Ionospheric TEC Estimated Using Signals of Compass/BeiDou Geostationary Satellites .....	2410

Monitoring Traveling Ionospheric Disturbances Using GNSS Interferometry with Geostationary Satellites .....	2414
Tool for Creating Maps of GNSS Total Electron Content Variations .....	2417
Global Electron Content in the 23rd and 24th Solar Cycles .....	2422
1D and 2D Left-handed Materials Loaded with Circularly Coupled Ring-circular .....	2427
Plasmonically Enhanced Spectrally-sensitive Coatings for Gradient Heat Flux Sensors .....	2435
A Study on Highly Resonant Wireless Power Transfer Scheme Using Planar Coils .....	2442
Development of a Simple Ground-based Synthetic Aperture Radar System for Monitoring Fault Creep .....	2449
Diffracted Field Calculation Using Multiple Precision Arithmetic and Parallel Computing .....	2455
Analysis of Phase Mode Variation Due to Bias Voltage in Arrayed Oscillators Using Resonant Tunneling Diodes Integrated with Bow-tie Antennas .....	2461
An Examination of Simulation for PAPR Reduction in OFDM Wave .....	2467
An Optimal Design Method of Coils for Magnetic Coupled Wireless Power Transfer System .....	2470
A Comprehensive Electromagnetic Design, Simulation and Analysis of Wireless Charging Coils for Large Power Applications .....	2476
Investigation of Multi-layer Metamaterial for Enhancing Efficiency of Near-field Wireless Power Transfer Systems .....	2484
Piezoelectric Sensors' Electric Response When Used as Detectors for Short Time Photo Acoustic Pulses with Heat Transport Included .....	2489
All-optical Fiber Power-frequency Electric Field Sensor Using a Twin-FBG Based Fiber-optic Accelerometer with Charged Polyimide .....	2497
Tunable Extremely Ultra-violet Emitter Based on Threshold-less Cherenkov Radiation .....	2505
Group Velocities and Resonance State in Metallic Photonic Crystals .....	2511
Quasi-bound States in the Continuum in a Finite Chain of Dielectric Scatterers: Theory and Experiment .....	2516
Electromagnetic Fields in Lossy Open Dielectric Spheres .....	2520
Novel Fractional-dimensional Approach to Electromagnetics .....	2533
Extension of Maxwell's Equations for Charge Creation-annihilation and Its Applications .....	2537
Improvement of Output Performance in G-band Extended Interaction Klystron .....	2546
Analysis of SiGe Heterojunction Tunneling Field-effect Transistor in the Microwave Regime through Its Small-signal Equivalent Circuit .....	2550
Design of a 3rd-order Single-loop 1-bit Discrete Time $\Sigma$ - $\Delta$ Modulator .....	2554
