Volume 10422

Proceedings of SPIE 0277-786X, V. 10422

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in Remote Sensing of the Ocean, Sea Ice, Coastal Waters, and Large Water Regions 2017, edited by Charles R. Bostater Jr., Stelios P. Mertikas, Xavier Neyt, Sergey Babichenko, Proceedings of SPIE Vol. 10422 (SPIE, Bellingham, WA, 2017) Seven-digit Article CID Number.

ISSN: 0277-786X ISSN: 1996-756X (electronic)

ISBN: 9781510613089 ISBN: 9781510613096 (electronic)

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system

structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

- vii Authors
- ix Conference Committee
- xi Introduction

SESSION 1 OIL SPILL SENSING, SURVEILLANCE, AND LASERS

- 10422 02 **Real-time surveillance system for marine environment based on HLIF LiDAR (Invited Paper)** [10422-1]
- 10422 03 Vessel and oil spill early detection using COSMO satellite imagery [10422-2]
- 10422 04 Radar and optical remote sensing in offshore domain to detect, characterize, and quantify ocean surface oil slicks [10422-3]
- 10422 05 Oil spill detection from TerraSAR-X dual-polarized images using artificial neural network [10422-4]

SESSION 2 SHALLOW WATER SENSING OF COASTAL WATERS, HABITATS, AND TARGETS

- 10422 08 Shallow water bathymetry correction using sea bottom classification with multispectral satellite imagery [10422-8]
- 10422 09 Collection and corrections of oblique multiangle hyperspectral bidirectional reflectance imagery of the water surface [10422-9]

SESSION 3 WATER QUALITY RELATED SENSING

- 10422 0B Grain size mapping in shallow rivers using spectral information: a lab spectroradiometry perspective (Best Student Paper) [10422-11]
- 10422 OE Hyperspectral signatures and WorldView-3 imagery of Indian River Lagoon and Banana River Estuarine water and bottom types [10422-63]

SESSION 4 AEROSOL AND POLARIZATION STUDIES

- 10422 OF Imaging of polarized target in underwater environment [10422-18]
- 10422 0G Experimental study of dual polarized radar return from the sea surface [10422-17]

10422 0H Characterization of aerosol parameters over ocean from the Ocean Color satellite sensors and AERONET-OC data [10422-19]

SESSION 5 AIRBORNE AND SATELLITE SENSING OF WATER, SST, AND FRONTS

- 10422 01 Oil spill characterization thanks to optical airborne imagery during the NOFO campaign 2015 (Invited Paper) [10422-20]
- 10422 0J Revealing the timing of ocean stratification using remotely sensed ocean fronts [10422-21]
- 10422 0K Identifying pancake ice and computing pancake size distribution in aerial photographs [10422-22]
- 10422 OL Long-term monitoring of sea ice conditions in the Kerch Strait by remote sensing data [10422-23]

SESSION 6 REMOTE SENSING OF VESSELS, WATER CIRCULATION, AND TIDES

- 10422 0M Surface circulation in the Western Mediterranean shown by a synergy of satellite-derived datasets [10422-25]
- 10422 0N A parallel efficient partitioning algorithm for the statistical model of dynamic sea clutter at low grazing angle [10422-26]

SESSION 7 ALTIMETRY, SAR, MICROWAVE, AND POLARIZATION SENSING

- 10422 OR Ensuring that the Sentinel-3A altimeter provides climate-quality data [10422-30]
- 10422 0S Multifrequency radar imagery and characterization of hazardous and noxious substances at sea [10422-31]
- 10422 0T Assessing altimetry close to the coast [10422-33]
- 10422 0U Coastline detection with time series of SAR images [10422-34]

POSTER SESSION

- 10422 0V Assessment of the quality of HY-2A satellite sea surface height data [10422-32]
- 10422 0X Ocean subsurface particulate backscatter estimation from CALIPSO spaceborne lidar measurements [10422-36]
- 10422 0Y Laser induced fluorescence technique for detecting organic matter in East China Sea [10422-37]
- 10422 0Z Satellite observations of rainfall effect on sea surface salinity in the waters adjacent to Taiwan [10422-39]

- 10422 11 The artificial object detection and current velocity measurement using SAR ocean surface images [10422-42]
- 10422 13 The re-analysis for satellite retrieved chlorophyll-a in East China Sea [10422-44]
- 10422 14 Unusual phytoplankton blooms in the southwestern Bay of Bengal: a comparative study [10422-45]
- 10422 15 Multi-sensor satellite survey of natural oil slicks in the southeastern Black Sea [10422-46]
- 10422 16 Longtime variation of phytoplankton in the South China Sea from the perspective of carbon fixation [10422-47]
- 10422 17 Retrieval of total suspended particulate matter in highly turbid Hangzhou Bay waters based on geostationary ocean color imager [10422-49]
- 10422 18 Satellite remote sensing of the aquatic pCO₂ in the basin of the South China Sea [10422-50]
- 10422 1E The influence of tide on sea surface temperature in the marginal sea of northwest Pacific Ocean [10422-57]
- 10422 1G Satellite observation of the recent changes of chlorophyll in the South China Sea and Bay of Bengal [10422-59]
- 10422 1H Damping of surface waves due to oil emulsions in application to ocean remote sensing [10422-60]
- 10422 11 Utilization of multi-channel ocean LiDAR data to classify the types of waveform [10422-61]
- 10422 1K Intersatellite comparisons and evaluations of three ocean color products along the Zhejiang coast, eastern China [10422-48]
