SPIE

**Volume 10658**

Proceedings of SPIE 0277-786X, V. 10658

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Compressive Sensing VII: From Diverse Modalities to Big Data Analytics*, edited by Fauzia Ahmad, Proceedings of SPIE Vol. 10658 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at [copyright.com](http://copyright.com). Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/18/\$18.00.

Printed in the United States of America

Publication of record for individual papers is online in the SPIE Digital Library.

**SPIE. DIGITAL LIBRARY**

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

---

## CS FOR SPECTRAL AND MEDICAL IMAGING

10658 02	<b>Effect of chlorophyll concentration under different water situation and estimation model for <i>Pinuse lliottii</i> Engelm with hyperspectral data</b> [10658-1]
10658 03	<b>Snapshot compressive spectral imaging based on adaptive coded apertures</b> [10658-2]
10658 04	<b>High frame-rate compressive spectral video system</b> [10658-3]
10658 06	<b>Compressed sensing and differential measurements in interferometry</b> [10658-5]

---

## DATA ANALYSIS AND LEARNING WITH FAULTY MEASUREMENTS

10658 07	<b>Robust decomposition of 3-way tensors based on L1-norm</b> [10658-6]
10658 08	<b>Selective erasures for high-dimensional robust subspace tracking</b> [10658-7]
10658 09	<b>Conformity evaluation of data samples by L1-norm principal-component analysis</b> [10658-8]

---

## CS SIGNAL PROCESSING

10658 0A	<b>Adaptive measurement design for direction of arrival estimation and target tracking</b> [10658-9]
10658 0B	<b>Realization of radar-based fall detection using spectrograms</b> [10658-10]
10658 0C	<b>A greedy approach for correlation-aware sparse support recovery</b> [10658-11]
10658 0D	<b>A linear discriminative analysis based fall motion detector using radar</b> [10658-12]
10658 0E	<b>Constraint term refinement for compressive sensing image reconstruction</b> [10658-13]

---

**CS FOR REMOTE SENSING, SURVEILLANCE, AND RADAR IMAGING**

---

- |          |  |
|----------|--|
| 10658 OF | <b>Distinguishing one from many using super-resolution compressive sensing</b> [10658-14]  |
| 10658 OG | <b>Clutter identification based on kernel density estimation and sparse recovery</b> [10658-15]  |
| 10658 OH | <b>Compressing two ways: the initial study of an underwater inflatable co-prime sonar array (UICSA)</b> [10658-16]   |
| 10658 OI | <b>Performance comparison of total variation minimization and group sparse reconstructions for extended target imaging in multilayered dielectric media</b> [10658-17] |

---

**BIG DATA PROCESSING**

---

- |          |   |
|----------|---|
| 10658 OJ | <b>Randomness and isometries in echo state networks and compressed sensing</b> [10658-18]     |
| 10658 OK | <b>Perturbation based sparse subspace clustering</b> [10658-19]                               |
| 10658 OL | <b>Polarimetric SAR image classification based on kernel sparse representation</b> [10658-20] |

---

**CS FOR RADIO ASTRONOMY**

---

- |          |  |
|----------|--|
| 10658 ON | <b>Analysis of compressive approach to interference tagging in radio spectrometry</b> [10658-22] |
| 10658 OO | <b>Improved radio astronomical imaging based on sparse reconstruction</b> [10658-23]             |
