

PROCEEDINGS OF SPIE

Advances in Ultrafast Condensed Phase Physics

Martin Schultze
Eleftherios Goulielmakis
Thomas Brabec
Editors

23–24 April 2018
Strasbourg, France

Sponsored by
SPIE

Cosponsored by
Strasbourg the Eurooptimist (France)
CNRS (France)
Investissements d'Avenir (France)
iCube (France)
Université de Strasbourg (France)

Cooperating Organisations
Photonics 21 (Germany)
EOS—European Optical Society (Germany)
Photonics Public Private Partnership (Belgium)
Comité National d'Optique et de Photonique (France)

Volume 10673

Proceedings of SPIE 0277-786X, V. 10673

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Advances in Ultrafast Condensed Phase Physics*, edited by Martin Schultze, Eleftherios Goulielmakis, Thomas Brabec, Proceedings of SPIE Vol. 10673 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

ULTRAFAST EXCITATION DYNAMICS I

10673 04	Optically excited structural transition in atomic wires on surfaces at the quantum limit: a femtosecond ultrafast surface electron diffraction study (Invited Paper) [10673-4]
10673 06	Ultrafast charge cooling and carrier multiplication in semiconductor nanocrystals and superlattices [10673-6]
10673 07	Effect of size confinement in C exciton dynamics of few-layered MoS₂ nano-sheets [10673-7]

ULTRAFAST EXCITATION DYNAMICS III

10673 0P	Attosecond electron pulse trains and applications to time-resolved diffraction and microscopy (Invited Paper) [10673-26]
