# TABLE OF CONTENTS

|                                                                                                                                                            |           |
|------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>ADVANCED APPLICATION OF SPACE CHARGE MEASUREMENT USING PEA METHOD FOR EVALUATION OF INSULATING MATERIALS .....</b>                                      | <b>1</b>  |
| <i>Y. Tanaka</i>                                                                                                                                           |           |
| <b>POLYMER-BASED DIELECTRIC MATERIALS FOR HIGH-TEMPERATURE FILM CAPACITORS.....</b>                                                                        | <b>9</b>  |
| <i>S. Cheng ; Y. Zhou ; Q. Li</i>                                                                                                                          |           |
| <b>THE RESURRECTION OF OVERHEAD LINES.....</b>                                                                                                             | <b>13</b> |
| <i>Konstantin O. Papailiou</i>                                                                                                                             |           |
| <b>STUDY ON THE EFFECT OF PEAK VALUE OF CURRENTS ON DOUBLE-PULSE RECOVERY CHARACTERISTICS OF SOIL.....</b>                                                 | <b>17</b> |
| <i>Donghui Luo ; Wenxia Sima ; Tao Yuan ; Xiaochuan Li ; Potao Sun ; Ming Yang</i>                                                                         |           |
| <b>THE RESEARCH ON NEW TYPE OF EARTH RESISTIVITY EXPLORING METHOD FOR HVDC DEEP-WELL EARTH ELECTRODE .....</b>                                             | <b>21</b> |
| <i>Maoheng Jing ; Xishan Wen ; Zhuohong Pan ; Hailiang Lu ; Hansheng Cai ; Shangmao Hu ; Gang Liu ; Lei Jia</i>                                            |           |
| <b>ELECTRIC RESISTIVITY VARIATION OF GROUND ENHANCING COMPOUNDS UNDER FIELD CONDITIONS .....</b>                                                           | <b>25</b> |
| <i>Vasilios P. Androvitsaneas ; Christos A. Christodoulou ; Ioannis F. Gonos ; Ioannis A. Stathopoulos</i>                                                 |           |
| <b>A NEW METHOD TO INCLUDE COMPLEX GROUNDING SYSTEM IN LIGHTNING TRANSIENT STUDIES AND EMI EVALUATIONS.....</b>                                            | <b>29</b> |
| <i>V. Steinsland ; L.H. Sivertsen ; E. Cimpan ; S. Zhang</i>                                                                                               |           |
| <b>AN EXPERIMENTAL INVESTIGATION OF THE FLASHOVER BEHAVIOR OF OUTDOOR CABLE TERMINATIONS UNDER LIGHTNING IMPULSE APPLICATION .....</b>                     | <b>33</b> |
| <i>M. Koch ; J. Hohloch</i>                                                                                                                                |           |
| <b>DISPERSION OF CARBON BLACKS AND THEIR INFLUENCE ON THE PROPERTIES OF SEMICONDUCTIVE MATERIALS USE FOR HIGH-VOLTAGE POWER CABLES .....</b>               | <b>37</b> |
| <i>Weikang Li ; Chong Zhang ; Junwei Zha ; Zhimin Dang</i>                                                                                                 |           |
| <b>RESEARCH ON PARAMETERS OF STEP-STRESS TEST TO OBTAIN LIFE EXPONENT OF XLPE-MATERIAL USED IN DC CABLE .....</b>                                          | <b>41</b> |
| <i>Haoran Bian ; Lijun Yang ; Zhipeng Ma ; Zhongxuan Li ; Yuan Yuan</i>                                                                                    |           |
| <b>INVESTIGATION ON INTERACTION BETWEEN LUBRICANTS AND POLYMERIC CABLE INSULATIONS.....</b>                                                                | <b>45</b> |
| <i>Christoph Felix Niedik ; Frank Jenau</i>                                                                                                                |           |
| <b>PARTIAL DISCHARGES AT ARTIFICIAL DEFECTS IN XLPE CABLE ACCESSORIES UNDER SUPERIMPOSED TRANSIENTS .....</b>                                              | <b>49</b> |
| <i>J. Wu ; L. C. Castro Heredia ; A. Rodrigo Mor ; J. J. Smit</i>                                                                                          |           |
| <b>SPACE AND INTERFACE CHARGE SIMULATION OF OIL-PAPER INSULATION WITH MULTI-LAYER OIL GAP AND INSULATION PRESSBOARD.....</b>                               | <b>53</b> |
| <i>Runhao Zou ; Jian Hao ; Lianpeng Wang ; Ruijin Liao ; Lijun Yang ; Chao Tang</i>                                                                        |           |
| <b>HIGH FREQUENCY MODEL OF CABLES FOR FREQUENCY DOMAIN ANALYSIS USED FOR FAULT LOCALIZATION .....</b>                                                      | <b>57</b> |
| <i>Y. Norouzi ; C. Frohne ; P. Werle</i>                                                                                                                   |           |
| <b>GAS PRODUCTION MECHANISMS OF CAMELLIA OIL-PAPER INSULATION UNDER THERMAL STRESS BASED ON MOLECULAR DYNAMICS SIMULATION .....</b>                        | <b>61</b> |
| <i>Jinghan Zhou ; Chenmeng Xiang ; Jian Li ; Yachao Wang ; Chaoyu Wang ; Dongchun Ma ; Ruibao Li</i>                                                       |           |
| <b>INFLUENCE OF DIELECTRIC COATINGS ON AE SIGNALS GENERATED IN HIGH VOLTAGE GAS INSULATED SYSTEMS.....</b>                                                 | <b>65</b> |
| <i>Arkadiusz Dobrzycki ; Wladyslaw Opydo ; Sebastian Zakrzewski</i>                                                                                        |           |
| <b>DERIVATION AND VERIFICATION OF A CALCULATION METHOD FOR THE OVERHEAD LINE VOLTAGE MEASUREMENT CONSIDERING THE INFLUENCE OF THE EARTH CONDUCTOR.....</b> | <b>69</b> |
| <i>Erwin Burkhardt ; Frank Jenau</i>                                                                                                                       |           |
| <b>POSITIVE STREAMER DEVELOPMENT IN SELECTED DIELECTRIC LIQUIDS IN A POINT-TO-SPHERE ELECTRODE SYSTEM WITH PRESSBOARD BARRIER .....</b>                    | <b>73</b> |
| <i>P. Rozga ; M. Stanek ; K. Strzelecki</i>                                                                                                                |           |
| <b>FUNDAMENTAL DIFFERENCE OF PARTIAL DISCHARGE PHENOMENA UNDER AC AND DC STRESSES.....</b>                                                                 | <b>77</b> |
| <i>H. Saadati ; P. Werle ; J. M. Seifert ; E. Gockenbach ; H. Borsi</i>                                                                                    |           |

|                                                                                                                                                |            |
|------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>EVALUATION OF THE DAMAGE CAUSED BY BIRD PECKING ACTIVITY ALONG COMPOSITE HIGH VOLTAGE INSULATORS.....</b>                                   | <b>81</b>  |
| <i>N. C. Mavrikakis ; P. N. Mikropoulos ; K. Siderakis ; I. Pellas ; E. Thalassinakis</i>                                                      |            |
| <b>A NOVEL METHANOL-DETECTION-METHOD FOR THE AGING PREDICTION OF PAPER INSULATION IN POWER TRANSFORMER.....</b>                                | <b>85</b>  |
| <i>Lei Peng ; Qiang Fu ; Musong Lin ; Yihua Qian ; Yaohong Zhao</i>                                                                            |            |
| <b>ANALYSIS ON CARBOHYDRATE AS A CRITERION FOR SOLID INSULATION AGING OF TRANSFORMER.....</b>                                                  | <b>88</b>  |
| <i>Fu Qiang ; Wang Meng-Jun ; Peng Lei ; Li Shengli ; Liu Xin</i>                                                                              |            |
| <b>INTERACTION OF PARTIAL DISCHARGE IN AIR WITH SILICONE RUBBER.....</b>                                                                       | <b>92</b>  |
| <i>K. Komatsu ; M. Shimada ; Y. Mizuno</i>                                                                                                     |            |
| <b>SIGNIFICANCE OF SPACE CHARGE ACCUMULATION DC ENDURANCE OF XLPE UNDER VARYING INSULATION THICKNESS.....</b>                                  | <b>96</b>  |
| <i>Muhammad Shoaib Bhutta ; Lijun Yang ; Zhipeng Ma ; Haoran Bian ; Muhammad Ali Mehmood ; Jawad Ahmad</i>                                     |            |
| <b>PRELIMINARY MEASUREMENTS AND SIMULATIONS FOR SPACE CHARGES IN AERONAUTICAL CABLES.....</b>                                                  | <b>100</b> |
| <i>E. Aubert ; E. N. Diaw ; V. Ury ; S. Le Roy ; G. Teyssedre</i>                                                                              |            |
| <b>SPACE CHARGE ANALYSIS OF POLYETHYLENE WITH CHEMICAL DEFECTS BASED ON DENSITY FUNCTION THEORY .....</b>                                      | <b>105</b> |
| <i>Tao Lin ; Xi Chen ; Xuefeng Zhao ; Jiaming Li ; Junbo Deng ; Jing Liu ; Lu Pu ; Feng Gao ; Nan Wang ; Minghao Fan</i>                       |            |
| <b>DEVELOPMENT OF A SETUP FOR LONG-TERM INVESTIGATIONS OF DIELECTRIC AGEING UNDER LIQUID NITROGEN.....</b>                                     | <b>109</b> |
| <i>Stefan Seibel ; Ralf Puffer</i>                                                                                                             |            |
| <b>STUDY ON SPACE CHARGE CHARACTERISTICS DURING AGING PROCESS OF DC ZNO VARISTORS.....</b>                                                     | <b>113</b> |
| <i>Wang Qian ; Li Jie ; Ji Chenjie</i>                                                                                                         |            |
