2018 2nd International Conference on Energy, Power and Environment: Towards Smart Technology (ICEPE)

Conference Record # 43670

TABLE OF CONTENT

66	37	Feasibility Study of the Application of Latent Heat Storage based Energy Storage in Solar dryers	Deva Kanta Rabha and P Muthukumar
72	41	Performance modelling of PV generation with inverter level data through Internet of Photovoltaics (IoPV) using Artificial Neural Networks(ANN)	Subrahmanyam Pulipaka, Prasidh Kumar, Rajneesh Kumar, Rajneesh Kaushal, Vikrant Sharma and Sanjay Kumar
77	46	Implementation of Cost Effective Smart Home Controller with Android Application using Node MCU and Internet of Things (IOT)	Madhu G M and Vyjayanthi C
82	52	Analysis and control implementation for instantaneous mode switching Bi-directional dc-dc converter for plug-in Electric Vehicle	Satyam Kumar Singh, Deepak Kumar, Mohit Prakash, Anand Kumar and Pradip Kumar Sadhu
88	53	Single Object Tracking using Estimation Algorithms	Rahul Seth, Mr Subrat Kumar Swain and Dr Sudhanshu Kumar Mishra
94	55	Optimal Control for Magnetic Levitation System using H-J-B equation based LQR	Ritesh Raj, Subrat Kumar Swain and Sudhansu Kumar Mishra
100	56	Design and Implementation of FOPID and Modified FOPID for Inverted Pendulum using Particle Swarm Optimization Algorithm	Abinash Baruah and Dr. Mrinal Buragohain
106	57	Magnetic Levitation System Control Strategy Based on Backstepping Technique to Design Sliding Mode Controller	Writuparna Saikia and Arobindra Saikia
110	59	Electrical and thermal modelling to evaluate photovoltaic module performance in varying outdoor condition	Honey Brahma, Labanya Baruah and Nabin Sarmah
116	61	Design and Analysis of EMI and RFI Suppressor for Induction Heating Equipment using Vienna Rectifier	Rahul Raman, Anand Kumar and Pradip Kumar Sadhu
122	62	Design of a Robust Nonlinear Controller for a Synchronous Generator to Enhance Transient Stability	Anoopjyoti Nath and Nipan Das
127	66	Transformer Oil Quality Measurement Based on Temperature Rise Test	Deba Mahanta and Shakuntala Laskar
131	69	F-MRAS based Speed Sensorless Vector Controlled Switched Reluctance Motor Drive	Yawer Abbas Khan and Vimlesh Verma
137	71	Analysis of a Single Actuator Double Winding Active Magnetic Bearing (AMB) using Ansys Maxwell Simulation Software	Jonathan Laldingliana, Sukanta Debnath and Pabitra Kumar Biswas
143	72	WELL-BEING ANALYSIS OF MICROGRID WITH GENERATION SCHEDULING	Nutan Topno, Prem Prakash and R.C Jha

149	73	Optimal Selection of Voltage Sag Mitigating Devices using Whale Optimization Algorithm for Small and Medium Sized Customers in Distribution System	Rituparna Mitra, Sadhan Gope, Arup Goswami and Prashant Kumar Tiwari
155	75	Speed and Parameter Estimation of Vector Controlled Permanent Magnet Synchronous Motor Drive	Sai Shiva Badini and Vimlesh Verma
161	79	Steady-State Model for Open Unified Power Quality Conditioner for Power Quality and Energy Efficiency Improvement of Radial Distribution Networks	Shubh Lakshmi and Sanjib Ganguly
167	81	A natural search algorithm optimized sliding mode controller for Inverted pendulum and Robot manipulator system	Nitisha Bordoloi
173	83	Analysis of propagation of errors due to sensor faults in a flow process for design of fault isolation	Santhosh K V, Nanditha Nair and Sneha Nayak
178	84	Demand Side Management for Active Power Control of Autonomous Hybrid Power System	Ghoshika Das and Dulal Chandra Das
184	85	Squarer and Sinusoidal Frequency Doubler based on Single OTRA	Bal Chand Nagar and Mourina Ghosh
188	87	Analysis of high-frequency class E resonant inverter and its application in an induction heater	Chiranjeeb Gorain, Pradip Kumar Sadhu and Rahul Raman
194	89	Effect of System loading on Exhaust Temperature of CCGT plant in Isolated and Restructured AGC	Debdeep Saha, Lalit Chandra Saikia, Rumi Rajbongshi, Washima Tasnin and Arindita Saha
200	94	Comprehensive evaluation of renewable and conventional electric utility of India under non-cooperative and cooperative environment	Bhawna Rawat, Sonal Singhal and Hari Om Gupta
206	95	Attenuation Coefficient Determination for Performance Evaluation of Resampling Filter	Sourav Mondal, Bishakh Paul, Debomita Ghosh and Dusmanta Kumar Mohanta
212	97	Performance Analysis of Combined ALFC and AVR System incorporating Power System Stabilizer	Rumi Rajbongshi, Lalit Chandra Saikia, Washima Tasnin, Arindita Saha and Debdeep Saha
218	99	Virtual Inertia Emulation from HVDC Transmission Links to Support Frequency Regulation in Presence of Fast Acting Reserve	Sanjoy Debbarma, Chhandashree Hazarika and Ksh. Milan Singh
224	106	Impact of Load and Wind Uncertainties on Capacity Factor of Thermal Generators	Rajat Kanti Samal and Manish Tripathy

229	107	Risk based Benefit analysis of RES aggregator in Restructured Energy Market	Harsh Wardhan Pandey, Kumar Raja Gadham and Tirthadip Ghose
235	110	Automatic Generation Control of Multi-area Multi-source System incorporating Distributed Generation units and RFB	Arindita Saha, Lalit Saikia, Washima Tasnin, Rumi Rajbongshi and Debdeep Saha
241	115	Optimal Economic Emission Scheduling of Integrated Energy Systems using Heuristic Optimization Technique	Rituraj Patwal and Nitin Narang
247	117	Dynamic economic and emission dispatch of large scale renewable integrated microgrids for varying loads and seasons	Bishwajit Dey and Biplab Bhattacharyya
253	119	Intelligent Generation Scheduler for a Smart Micro Grid	Anusha Sheth, Praveen Gautam and Siridevi Nc
259	120	Optimal sizing and selection of energy storage system considering load uncertainty	Bhaskarjyoti Das and Ashwani Kumar
265	123	IOT Based Smart Energy Meter for Efficient Energy Utilization in Smart Grid	Bibek Kanti Barman, Shiv Nath Yadav, Shivam Kumar and Sadhan Gope
270	124	A Novel Multi-wing Fractional-order Chaotic System, its Synchronisation Control and Application in Secure Communication	Manashita Borah and Binoy Krishna Roy
276	131	Implementation of Intelligent Auto Ranging Functionality to Capacitive Level Sensor	Santhosh K V and Preeti Mohanty
282	132	Effect of different renewables and FACT device on an interconnected thermal system using SCA optimized Fractional Order Cascade Controllers	Washima Tasnin, Lalit Chandra Saikia, Arindita Saha, Debdeep Saha and Rumi Rajbongshi
288	134	Thermal Performances of Neat Biodiesels in Compression Ignition Engine for Diesel Fuel Substitution	Madhurjya Saikia, Bichitra Bikash, Dilip Kumar Bora and Kalyan Kalita
293	136	An Optimization Approach to Enhance the Performance of Single-Phase Saturated Iron-Core Superconducting Fault Current Limiter	Asif Iqbal and Amalendu Bikash Choudhury
298	137	A Model Based Approach in Determining the Performance of EV under Different Drive Cycles	Himadri Sekhar Bhattacharyya, Amalendu Bikash Choudhury and Chandan Kumar Chanda
304	138	Linear Discriminant Analysis Classifies the EEG Spectral Features Obtained from Three Class Motor Imagination	Maanvi Bhatnagar, Gauri Shanker Gupta and Rakesh Kumar Sinha
310	141	Modified active disturbance rejection controller design for multi variable system	Rajkumar K and Narayanan S

316	142	Mathematical Approach Towards Modelling, Simulation & Experimentation of a Cantilever Structured Magnetostrictive Generator	Subhasish Dey, Soumyabrata Patra, Debabrata Roy and Amalendu Bikash Choudhury
322	146	Analysis of sampling on process timing parameters in a networked control system	Santhosh K V and Nathan Noronha E Silva
327	147	REACTIVE POWER PRICING THROUGH PHASOR MEASUREMENT BASED BI-DIRECTIONAL ENERGY METER	Bishakh Paul, Sourav Mondal, Debomita Ghosh and Dusmanta Mohanta
333	148	Loss Reduction and Voltage Profile Improvement by Optimal Placement of Capacitors using Multi-Sensitivity Factors in Mesh Network	Ankita and Prem Prakash
339	149	A Comparative Study of Noise Cancellation Using Least Mean Squares Adaptive Filter and Recurrent Neural Network Filter	Aakriti Agrawal, Rohitkumar Arasanipalai and Sainath Bitragunta
345	150	GCD based Blind Super-Resolution for Remote Sensing Applications	Neerav Sharma, Prajna Parimita Dash and Priyank Saxena
351	153	Soft computational technique to estimate inflow for fault detection in control valve	Santhosh K V and Bhagya R Navada
356	154	A Comparison Between Adaptive PID Controller and PID Controller with Derivative Path Filter Based on Bacterial Foraging Optimization Algorithm	Navaneet Das and Anindita Sengupta
362	155	An Efficient HEMS for Demand Response considering TOU Pricing Scheme and Incentives	Uday Jha, Nirmala Soren and Abhimanyu Sharma
368	156	Numerical analysis of solar triangular air duct with conical turbulators	Parag Jyoti Bezbaruah, Rajat Subhra Das and Bikash Kumar Sarkar
373	158	Considering Various Equivalent Circuits for Solar PV Array Modelling	Abhishek Chauhan and Surya Prakash
379	159	Study of effects of repetitive impulse voltage on paper insulation	Diptesh Kumar Naik, Arijit Basuray, Saibal Chatterjee and Jyotshna Devi
385	172	PWM based AC-DC-AC converter for an isolated hydro power generation with variable turbine input	P. Devachandra Singh, Akhilesh Sharma and Sarsing Gao
391	174	Smart Grid Stability Analysis on Smart Demand Load Response In Coordinated Network	Shouvik Kumar Samanta and Chandan Kumar Chanda

397	178	Numerical Investigations on Solar Air Heater with Hemispherical roughness	Abhishek Kumar Gupta, Parag Jyoti Bezbaruah, Rajat Subhra Das and Bikash Kumar Sarkar
403	179	Comparative Analysis of DC-DC Converter Topologies and MPPT Techniques used in SPV Based Water Pumping System Using BLDC motor	Manish Kumar, Md Nishat Anwar and Anand Kumar
409	182	The Effect of Lightning on Insulator Flashover Characteristics	Thangabalan B and Supriyo Das
415	183	Fuzzy logic Based Protective Relaying Scheme for IEEE-39 Bus Transmission System	Sandeep Kumar Sahu and Anamika Yadav
421	187	Application of Hurricane Search Algorithm on Economic Load Dispatch problem	Sudip Kumar Ghorui, Saptam Ghosh, Roshan Ghosh, Saikat Mondal and Koustav Dasgupta
427	188	Design of fractional order PI controller for First order plus dead time process based on maximum sensitivity	Dhiraj Rahul and Md Nishat Anwar
433	189	Fault Analysis using Alienation Technique for Three-terminal Transmission Line	Bhuvnesh Rathore and Abdul Gafoor Shaik
439	190	Location of Defective Bearing in three-phase Induction Motor using Stockwell Transform and Support Vector Machine	Megha Singh and Abdul Gafoor Shaik
444	191	Performance analysis of UPFC and SVC-TCSC combination in transmission network	Sourav Das, Mrityunjay Gupta, Mayuree Shegaonkar and Parimal Acharjee
450	197	Improvement in Performance of Induction Heating System using Direct AC-AC Boost Converter	Anand Kumar, Rahul Raman, Debayan Sarkar, Pradip Kumar Sadhu and Atanu Banerjee
455	203	Reduced Order Sliding Mode Observer for a Class of Linear Systems with Relatively Slower Unmeasured State Variables	Parijat Prasun and Biswajit Halder
461	205	Nonlinear Stabilization: Control Contraction Metric Approach via Sum of Square Programming Technique	Jyotirmoy Lenka, Ark Dev and Mrinal Kanti Sarkar
466	209	A Novel Method for Measurement of Linear Displacement by using extension Spring and Flex Sensor	Ram Kishore Roy, Nityananda Hazarika, Hidam Kumarjit Singh and Tulshi Bezboruah
470	210	Suitable Placement of UPFC to Improve Transient Stability of Power System	Mrityunjay Gupta, Mayuree Shegaonkar, Sourav Das and Parimal Acharjee

476	212	Load Frequency Control: Higher Order Sliding Mode Observer Based Integral Higher Order Sliding Mode Controller with Stochastic Perturbation	Shiv Santosh Kumar Singh, Ark Dev and Mrinal Kanti Sarkar
482	213	Microgrid Control using Distributed SMC with Compensation of Network Irregularities	Himaniben Modi, Dipesh Shah, Hema Mehta and Axaykumar Mehta
488	220	Optimal location of SVC considering Techno-economic and Environmental Aspect.	Shubhrajyoti Kundu, Tanmoy Ghosh, Krishnendu Maitra, Parimal Acharjee and Siddhartha Sankar Thakur
494	221	Space Vector Modulated Control for Electric Spring	Bhagyashree Mudaliar, Snehal Gawande, Sumant Kadwane, Manoj Waghmare and Rutuja Pawar
500	225	Analytical and numerical study of local defect resonance frequencies in fibre metal laminates	Subhankar Roy, Tanmoy Bose and Kishore Debnath
505	229	A detailed study of pyrolysis kinetics of elephant grass using thermogravimetric analysis	Debarshi Baruah, Debarshi Mallick, Pankaj Kalita and Vijayanand Suryakant Moholkar
510	238	Full Bridge based Level Doubling Network for Reduced Capacitance	Vasu Rajesh, Sumit Kumar Chattopadhyay and Chandan Chakraborty
516	239	Design of IIR filter using Wallace tree multiplier	Karishma Malviya and Ashutosh Nandi
520	240	Relative Influence of Intelligent Current Controllers on Power Quality in Grid-interactive Solar Inverter System	Moushumi Patowary, Gayadhar Panda and Bimal C. Deka
525	241	Design Consideration of High Power High Current Twelve Pulse Thyristor Controlled Rectifiers	Pradeep Rautela, R.D. Kulkarni and Gaurava Srivastava
531	242	Robotic Fish Locomotion & Propulsion in Marine Environment: A Survey	A M Aminur R B, B Hemakumar and M P R Prasad
537	248	Dual Active Bridge – Magnetic Component Configurations for High Boost Application	Abinash Dash and Dipankar De
543	250	A comprehensive kinetic analysis of bamboo waste using Thermogravimetric analysis	Debarshi Mallick, Debarshi Baruah, Pinakeswar Mahanta and Vijayanand Suryakant Moholkar
549	254	Managing Vehicle-to-grid Mobile Energy Network as Demand Response in Power Systems	Bhabani Kumari Choudhury and Sanjoy Debbarma

555	265	Anti-synchronisation of Vallis Chaotic Systems using Nonlinear Active Control Technique	Eshan Tiwari, Vikash Kumar and Piyush Pratap Singh
559	268	Secure Communication Using NAC Based Synchronisation Between Nonidentical Chaotic Systems	Piyush Pratap Singh and Binoy Krishna Roy
563	270	Some Aspects of Modelling and Simulation of a High Frequency and Fast Settling Time Proportional-Integral-Derivative Controlled Phase-locked loop	Geetamoni Konwar and Tulshi Bezboruah
569	274	Double Threshold Based Cooperative Spectrum Sensing with Consideration of History of Sensing Nodes in Cognitive Radio Networks	Smriti Dhiman and Chhagan Charan
575	272	Performance Analysis of MPC for Level Control of Modified Quadruple Tank System	Shekhar Gehlaut, Tarun Varshney and Sandeep Gupta
581	275	Harmonic Analysis of State Vector Pulse Width Modulated Vienna Rectifier	Hari Charan Nannam, Pratikanta Misra and Atanu Banerjee
587	278	Autonomous Battery Storage Energy System Control of PV-Wind Based DC Microgrid	Aquib Jahangir and Sukumar Mishra
593	281	Implementation of Digital PWM on Buck-Type CSI Fed BLDC Motor Drive	Pratikanta Mishra, Atanu Banrejee and Mousam Ghosh
599	284	Numerical Computational analysis of lightning energy storage system using single stage two level impulse generator	Suman Jana, Pabitra Kumar Biswas and Upama Das
605	286	Water hyacinth derived mixed-oxide heterogeneous catalyst for biodiesel production	Minakshi Gohain and Dhanapati Deka
609	287	An electrode model to ascertain the effects of Voltage and Tip radius with Gap distance on Electric Field of Transformer Oil	Niharika Baruah, Mrutyunjay Maharana and Sisir Kumar Nayak
614	288	Hot spot detection in high voltage transformer by thermal sensor using COMSOL Multiphysics	Sorokhaibam Nilakanta Meitei, Abhijit Saikia, Kunal Borah and Saibal Chatterjee
618	290	STUDY, ANALYSIS AND COMPARISON OF DIFFERENT CONTROL TOPOLOGIES FOR THYRISTOR CONTROLLED REDUCTION FURNACE	Arnab Mondal and Dr. R.D. Kulkarni
624	292	Estimation of Support Vector Machine Parameters Based on Breakdown Voltage Characteristics	Adnan Iqbal and Supriyo Das
629	294	Sensorless Direct Torque Control of PMSM Drive for EV Application	Toshi Sharma and Avik Bhattacharya
635	296	Centroidal Difference of Wavelet Approximate Coefficients Based Protection scheme for Transmission line	Amit Kumar Gangwar and Abdul Gafoor Shaik

640	298	Indirect Vector Control of DFIG based Wind Energy System using Fuzzy-PI Controller	Rashmi Ranjan Patra, Atanu Banerjee and Shaik Affijulla
646	299	Fuzzy logic based control algorithm for DSTATCOM connected to weak AC grid	Gajendra Singh Chawda and Abdul Gafoor Shaik
652	302	Modular Multilevel E-STATCOM Using Supercapacitor Based Energy Storage System	Chivukula Anil Bharadwaj and Suman Maiti
658	303	High Impedance Fault Detection and Classification on IEEE-15 Bus Radial Distribution System by Using Fuzzy Inference System	Vinod Kumar Naik and Anamika Yadav
664	306	Development of a Novel Strategy with Electrical Vehicles to Mitigate Frequency Aberration in Microgrid	Hitesh Datt Mathur, Dhananjay Kumar, Rohit Venkatesh and Shraddha Maslekar
669	311	Analysis of real-time inverter for Kite energy system using TI-C2000 Microcontroller	Roystan Vijay Castelino, Suman Jana and Pabitra Kumar Biswas
674	312	A Comparative Analysis of Flicker Index and Modulation Depth on Few Existing Dimmable LED Drivers	Rupam Chaki, Vipul Anand, Subhra Ghosh and Mousam Ghosh
679	318	An Efficient Bi-directional DC/DC Charger for Electric Vehicle Battery Charging	Pavan Singh Tomar, Manaswi Srivastava and Arun Kumar Verma
685	319	A PMU Model for Dynamic State Estimation of Power Systems	Subin Koshy, Sunitha R and Elizabeth P Cheriyan
691	320	Design and Implementation of Second Order Sliding Mode Controller for 2-DOF Flexible Robotic Link	Sandeep Sharma, Dhananjay Srivastava, Axay Mehta and Keyur Patel
697	321	Comparative Anylysis of Constant Torque Angle Control and Constant Mutual Flux Linkage Control of Permanent Magnet Synchronous Motor	Ramsakal Krishan, Kundan Kumar and Rakesh Roy
703	325	Winding dislocation of a power transformer and its analysis to locate and estimate the deformation	Sibabrata Pradhan and Sisir Kumar Nayak
708	327	The torque simulation of synchronous generator under loaded condition for different types of electrical disturbances	Tarun Kumar, Abhishek Bangunde, Dr. Rajeev Kumar and Prof. Satish Chandra Jain
714	328	Inertia Emulation Using Battery Management System in a Low Inertia Grid with HVDC Links	Siddhartha Deb Roy and Sanjoy Debbarma

720	329	Generalized Design of a Physically Referenced Feed-forward and State Feedback Controller for Load Frequency Control	Omkar Singh, Arabinda Ghosh, Sanjay Thakur, Arjun Kumar, Shubham Kumar Singh, Bhavesh Nandan, Rahul Dev, Sudhir Kumar Nirala, Mukul Anand, Paturi Satish Kumar and Anjan Kumar Ray
726	335	Dynamic Battery Charging Algorithm with Weighted Battery Cost Model for Energy Trading in a Smart Grid	Akshay Kumar Rathore
732	336	Two dimensional Modelling of Multi sectional Helical Flux Compression Generator using state equations approach	Korikar N Hemanth, Saurabh Chanana and Ravinder Singh Bhatia
737	337	Investigation of Power System Cascading Failure and the Causes	Mahitosh Banafer and Monalisa Biswal
742	338	Virtual Synchronous Generator with Variable Inertia Emulation via Power tracking algorithm	Akshay Kumar Rathore and Rama Krishna Naidu Vaddipalli
