2018 3rd International Conference on Smart City and Systems Engineering (ICSCSE)

ICSCSE 2018

Table of Contents

Preface xxvi
Conference Organization xxvii
Technical Program Committee xxviii
Reviewers xxix
Acknowledgements xxxi

Session 1: Smart City Infrastructure Engineering

Analysis of Current Vector Measurement Method in One and a Half Breaker Connection Mode 1
Zhang Xinlei (State Grid Jibei Electric Power Co. Ltd Maintenance Branch), Fan Xiaowei (State Grid Jibei Electric Power Co. Ltd Maintenance Branch), Gu Ying (State Grid Jibei Electric Power Co. Ltd Maintenance Branch), Wang Chong (State Grid Jibei Electric Power Co. Ltd Maintenance Branch), Bai Feng (State Grid Jibei Electric Power Co. Ltd Maintenance Branch), Cai Yong (State Grid Jibei Electric Power Co. Ltd Maintenance Branch), and Wang Yuqiang (State Grid Jibei Electric Power Co. Ltd Maintenance Branch)

A Case Study on the Seismic Performance of an Asymmetric Single-Tower Cable-Stayed Bridge with a Hybrid Seismic Mitigation System 4
Li Hutao (T.Y. Lin International Engineering Consulting (China) Co., Ltd), Zhou Wenhui (T.Y. Lin International Engineering Consulting (China) Co., Ltd), Li Hutao (T.Y. Lin International Engineering Consulting (China) Co., Ltd), and Guo Wei (T.Y. Lin International Engineering Consulting (China) Co., Ltd)

Analysis of Seismic Responses of Continuous Rigid Frame Bridge under Influences of Topographic Effect and Incident Angles 9
Tongfa Deng (Jiangxi University of Science and technology), Qianyong Chang (Jiangxi University of Science and technology), Shuai Li (Jiangxi University of Science and technology), and Meikai Xia (Jiangxi University of Science and technology)

Comparison and Analysis of Effects of Different Types of Isolation Bearings for a Curved Bridge 15
Lei Chen (Jiangxi University of Science and technology), Tongfa Deng (Jiangxi University of Science and technology), Shuai Li (Jiangxi University of Science and technology), and Kaikai Zhang (Jiangxi University of Science and technology)

Dynamic Responses of Bridge Piers with Aluminum Foam Anti-collision Devices under Vehicle Impact .19.....
Ruiyang Pan (Nanjing University of Science and Technology) and Yuye Zhang (Nanjing University of Science and Technology)

Earthquake Resilient Design of Highway Bridges with Tall Piers .24.....
Liyun Liao (Fuzhou University), Zhijian Wang (Fuzhou University), Weidong Zhuo (Fuzhou University), Zhehan Cai (Fuzhou University), Hongda Wang (Fuzhou University), and Kaiqi Lin (Fuzhou University)

Fragility Analysis of Isolation Effect for Plate-Type Elastomeric Bearing on Continuous Girder Bridges with Unequal Height Piers .32.....
Wenpeng Wu (Xiangtan University), Zhiwei Wu (Xiangtan University), Lifeng Li (Hunan University), and Shiguo Long (Xiangtan University)

Hydrodynamic Effects on Dynamic Characteristics of Offshore Continuous Girder Bridge .38.....
Jie Guo (Beijing University of Technology), Xiuli Du (Beijing University of Technology), and Mi Zhao (Beijing University of Technology)

Limitations and Improvement Thinking of Code-Prescribed Static Analysis Method for Vessel Impact Design of Bridge Structures .42.....
Wei Fan (Hunan University), Guangwei Zhou (Xiamen University of Technology), and Wancheng Yuan (Tongji University)

Nondestructive Evaluation and Fault Diagnosis Methods for Substation Grounding Grids: A Review .48.....
Wen-Rong Si (State Grid Shanghai Electric Power Research Institute), Chen-Zhao Fu (State Grid Shanghai Electric Power Research Institute), Bing-Bing Lu (State Grid Shanghai Electric Power Research Institute), Hai-Long Bao (State Grid Shanghai Electric Power Research Institute), Sen Guo (State Grid Shanghai Municipal Electric Power Company), and Peng Yuan (Xi'an MaoRong Power Equipment Co., Ltd.)

Nonlinear Behavior Analysis of Dams under Earthquake Excitation .54.....
Dandan Xia (University of Regina), Liming Dai (University of Regina), and Li Lin (Xiamen University of Technology)

Parametric Analysis of Seismic Restraint System for Super-Large Span Three Pylon Cable-Stayed Bridge.59....
Qinghai Feng (CCCC Highway Consultants CO., Ltd.) and Daojin Lin (CCCC Highway Consultants CO., Ltd.)

Research on Estimation Method of Elastic Cable Stiffness of Cable-Stayed Bridge .64.....
Li Xu (Fuzhou University), Kang Liu (Fuzhou University), Chao Zhang (Fuzhou University), Yang Xu (Fuzhou University), and Qunjun Huang (Fuzhou University)

Research on Key Techniques of Transverse Seismic Design of Poyang Lake Highway Bridge II .69.....
Ouyang Jian (Communications Design & Research Institute Co., Ltd of Jiangxi Prov.), Sijie Wang (Tongji University), Xinzhi Dang (Tongji University), and An Liu (Jiangxi Transport Consultation Company)

Research on Seismic Mitigation System of the Yellow River Road-Cum-Railway Bridge of Shijiazhuang-Jinan Passenger-Dedicated Line .73.....
Wei Quan (Shenyang Jianzhu University), Hong-Ming Yu (Shenyang Jianzhu University), Shi-Chao Zhao (Shenyang Jianzhu University), and Dong-Sheng Wang (Hebei University of Technology)

Research on the Interaction between the Viaduct and Subway Structure under Horizontal Earthquake .79……
Wang Kehai (Research Institute of Highway Ministry of Transport), Zhang Panpan (Research Institute of Highway Ministry of Transport), Lu Guanya (Research Institute of Highway Ministry of Transport), and Guo Weizuo (Research Institute of Highway Ministry of Transport)

Running Safety Analysis of High-Speed Railway Arch Bridge under Seismic Excitations .86……
Bingkun Huang (Fujian University of Technology), Hujun Lei (Fujian University of Technology), Jiangze Huang (Fujian University of Technology), and Wei Liu (Fujian University of Technology)

Running Safety Analysis of Long-Span Railway Cable-Stayed Bridge under Seismic Excitations .92……
Wei Liu (Fujian University of Technology), Hujun Lei (Fujian University of Technology), Jiangze Huang (Fujian University of Technology), and Bingkun Huang (Fujian University of Technology)

Seismic Response Analysis Methods for the Railway Bridge across the Fault .99……
Heng Yang (Henan University) and Zhongying He (Henan University)

Seismic Response Analysis of Water-Soil-Bridges System Considering Site Liquefaction .106……
Liang Cai (Fuzhou University), Yin Gu (Fuzhou University), Zhiyang Huang (Fuzhou University), and Weidong Zhuo (Fuzhou University)

Seismic Responses of Deep-Water Continuous Rigid-Frame Bridge Supported by Lattice Piers .112……
Feng Zhang (Southwest Jiaotong University), Kai Wei (Southwest Jiaotong University), Jiarui Zhang (Southwest Jiaotong University), and Qiang Liu (Southwest Jiaotong University)

Seismic Risk Analysis for Simply-Supported Girder Bridges Based on Total Probability Theorem .117……
Linwei Jiang (Hefei University of Technology), Jian Zhong (Hefei University of Technology), and Wancheng Yuan (Tongji University)

Static-Load Test Study on Self-Anchored Suspension Bridge Based on Updated Infinite Element Model .123…
Wei Lu (Lanzhou Jiaotong University), Zijiang Yang (Lanzhou Jiaotong University), Hongmeng Huang (Northwest Minzu University), and Haowei Gu (Northwest Minzu University)

Study on Protective Measures of Debris Flow Impacting Bridge Piers .128……
Zhengfang Dong (Henan University), Pengfei Zhai (Henan University), Qi Sun (Henan University), and Peng Bao (Henan University)

Study on Seismic Mitigation Effect of Cable-Stayed Bridge Subjected to Near Fault Ground Motions .134……
Chao Zhang (College of Civil Engineering of Fuzhou University), Jianbing Lu (College of Civil Engineering of Fuzhou University), Li Xu (College of Civil Engineering of Fuzhou University), and Hongyu Jia (Southwest Jiaotong University)

Study on the Efficiency of Cool Island Effect In Urban Channel Water .140……
Bohong Zheng (Central South University), Jiayu Li (Central South University), Xiao Chen (Hunan Agricultural University), Luyun Liu (Central South University of Forestry and Technology), and Zilong Li (Central South University of Forestry and Technology)

Study on Water Inflow Estimation of Highway Tunnel Karst Cave In Karst Area .146……
Wu Xia (Jiangxi Vocational College of Applied Technology) and Wen Shi-Ru (Jiangxi University of Science and Technology)

Summary of Research on Seismic Behavior of Precast Column System with the Same Effect as the Cast-in-Place Column .150
Mi Zhou (Chang'an University) and Hang Zeng (Chang'an University)

Torsional Seismic Response Analysis of Long Span High Pier Curved Bridges .155
Xianlin Lan (Southwest Jiaotong University), Hongyu Jia (Southwest Jiaotong University), and Shixiong Zheng (Southwest Jiaotong University)

Transverse Seismic Design of Asymmetric Single Tower Cable-Stayed Bridge under Strong Earthquake Excitations .161
He Jinhai (State Key Laboratory for Disaster Reduction in Civil Engineering), Xu Lei (Tongji Architectural Design(Group)Co., Ltd), Yuan Wancheng (State Key Laboratory for Disaster Reduction in Civil Engineering), and Dang Xinzhi (State Key Laboratory for Disaster Reduction in Civil Engineering)

Session 2: Automation of Smart City Construction

Analysis of Factors Affecting Seismic Response of Medium and Small Span Continuous Beam Bridges under Strong Earthquake and Performance Evaluation .167
Wang Si-Jie (Tongji University), Zhou Ying-Xin (Yunnan Wuyi Highway Construction Headquarters), Qian Zheng-Fu (Yunnan Wuyi Highway Construction Headquarters), Zeng Wei-Cheng (Yunnan Wuyi Highway Construction Headquarters), Yuan Wan-Cheng (Tongji University), and Dang Xin-Zhi (Tongji University)

Analysis of the Seismic Vulnerability of Simply-Supported Girder Bridge under Two Level Seismic Hazard .173
Xiang Li (Hefei University of Technology), Jian Zhong (Hefei University of Technology), Linwei Jiang (Hefei University of Technology), and Wancheng Yuan (Tongji University)

Application of Virtual Reality Technology in Interior Design .178
Wu Qiang (Shanghai Business School)

Based on Big Data Technology Analysis on the Mode and Countermeasures of Smart City Construction Operation Management .184
Liu Wei (Jilin Jianzhu University) and Shen Yuyang (Jilin Jianzhu University)

Construction and Realization of Workflow Model of Spatial Information Constraint In Smart City .187
Xiaoyan Wang (Hexi University) and Shaowen Liao (Hexi University)

Experimental Assessment on Seismic Failure Modes of Bridges in Liquefiable Ground with or without Overburden Crust .191
Xiaowei Wang (Hohai University), Bohai Ji (Hohai University), and Aijun Ye (Hohai University)

Nondestructive Evaluation and Fault Diagnosis Methods for Substation Grounding Grids: The State Response Analysis .195
Wen-Rong Si (State Grid Shanghai Electric Power Research Institute), Chen-Zhao Fu (State Grid Shanghai Electric Power Research Institute), Wei-Yun Mao (State Grid Shanghai Electric Power Research Institute), Hua-Wei Huang (State Grid Shanghai Electric Power Research Institute), Sen Guo (State Grid Shanghai Municipal Electric Power Company), and Peng Yuan (Xi'an MaoRong Power Equipment Co., Ltd.)

Optimization Design of Ultra-High Pressure Retaining Tube of Air-Tight Sampling Device for Deep-Sea Sediments .200
Shu-Dong He (Hunan University of Science and Technology)

RBAC Model Based on Workflow for Power Marketing Field Terminals .203
Lu Chen (Global Energy Interconnection Research Institute), Yuanyuan Ma (Global Energy Interconnection Research Insti-tute), and Cheng Zhou (Global Energy Interconnection Research Insti-tute)

Research on Application of BIM Technology in Construction Project Cost Management .208
Lianguang Mo (Hunan City University)

Research on Application of Computer Technology in Project Management .211
Zheng Xie (Hunan City University)

Research on Construction Engineering Cost Management Based on BIM Technology .214
Lihong Han (Changchun Architecture and Civil Engineering College)

Research on the Structure of Thickening Zone of Oil Drill Pipe and the Characteristics of Flow Field for Drilling Fluid Circulation .218
Xu Airong (Xi'an Shiyou University)

Reverse Engineering of Three-Dimensional Geometric Model of Cattle Hoof Considering Multivariate Function Decomposition .224
Zhao Li (Chifeng Industry Vocational Technology College) and Wang Hetian (Chifeng Industry Vocational Technology College)

Simplified Calculation of the Settlement of a Rigid Composite Foundation with a Cap Pile .229
Zhijian Jiang (Shenzhen Water Planning and Design Institute Co., Ltd.), Yang Ping (Shenzhen Water Planning and Design Institute Co., Ltd.), Zihao Niu (Hohai University), Zhende Zhu (Hohai University), and Cong Zhang (Hohai University)

State-of-the-Art and Engineering Example of Study on Damage-Based Seismic Performance for Bridge .234
Sanfan Zhu (Huaqiao University), Zhanghua Xia (Fuzhou University), Sipan Ding (Fuzhou University), and Shangshun Lin (Fujian University of Technology)

Studies on Seismic Design of the Bridges of Shen-Zhong Link .242
Shenyou Song (Shen-Zhong Link Administration Center), Sijie Wang (Tongji University), Lingzheng Wu (Shen-Zhong Link Administration Center), Bingyao Chen (Shen-Zhong Link Administration Center), Wancheng Yuan (Tongji University), and Xinzhi Dang (Tongji University)

Study on the Seismic Response of the Extradosed Cable-Stayed Bridges with Continuous System for Different Seismic-Isolated Design Scheme .248
Yanfang Liu (Beijing University of Technology), Wenxue Zhang (Beijing University of Technology), and Weigang Bao (China Communications Construction Company Limited)

Summary on Evolution, Test and Durability of Trough Girders in Rail Transit .252
Xun Wu (Tongji University), Shan Zeng (Tongji University), Dihang Ye (Tongji University), and Minjie Gu (Shanghai Municipal Engineering Design Institute(Group) Co. Ltd.)

System Fragility Analysis of a Cable-Stayed Bridge Using Cable Sliding Friction Aseismic Bearings under Spatially Varying Excitations .256
Kai Ma (Tongji University), Wancheng Yuan (Tongji University), and Xinzhi Dang (Tongji University)

Talking About the "Double-Edged Sword" Attribute of the Force and Displacement of Seismic Mitigation and Isolation Techniques .262
Yuan Wan-Cheng (Tongji University), Wang Si-Jie (Tongji University), and Dang Xin-zhi (Tongji University)

The Cause Analysis on the Highway Bridge Expansion Joints and the Maintenance of Construction Management .267
Li Huadong (Changchun Architecture And Civil Engineering College)

The Modification Design of Warehouse In Historic Area of Shantou .270
Li Zheng (South China University of Telecommunications) and Youting Yin (Cardiff University of Architectural Design)

The Research on Efficiency of Metro Vehicle Low Voltage Power Supply under Limit Input Voltage .275
Bin Li (CRRC Changchun Railway Vehicles Co., Ltd.), Huixing Xu (CRRC Changchun Railway Vehicles Co., Ltd.), Wenjun Wang (CRRC Changchun Railway Vehicles Co., Ltd.), Bo Zhou (CRRC Changchun Railway Vehicles Co., Ltd.), and Xuguang Lin (CRRC Changchun Railway Vehicles Co., Ltd.)

Transverse Fatigue Test Design of Segmental U-shaped Girder .279
Minjie Gu (Shanghai Municipal Engineering Design Institute(Group) Co. Ltd.), Dihang Ye (Tongji University), and Xun Wu (Tongji University)

Session 3: Building Materials and Green Manufacturing

Analysis of Factors Affecting Ductility of Reinforced Concrete Column .283
Mi Zhou (Chang'an University) and Yongcun Jiang (Chang'an University)

Assessment of the Seismic Performance of New Steel Box Pier Columns Using Pseudo-Static Tests .288
Haifeng Li (Huaqiao University), Baoan Cao (Huaqiao University), Jun Luo (Huaqiao University), Kunde Lv (Huaqiao University), and Feng Han (Botao international engineering design consulting Co., LTD.)

Discussion on Technical Measures for Green Energy-Saving Design of Office Buildings in Lingnan Area .296
Huihua Xiong (Hunan City University) and Jiajie Chen (Guangzhou Institute of Building Science New Technology Development Center Co., Ltd.)

Mechanical Characteristics of a New Type of Jointless Bridge with an Arch Structure .300
Qiu Zhao (Fuzhou University), Chu Lin (Fuzhou University), Yuwei Zhao (Harbin Institute of Technology), and Guanming Huang (Fuzhou University)

Multi-level Performance Shape Memory Alloy-Based Lead Rubber Bearing .308
Wang Huan (Guangzhou University) and Cao Sa-Sa (Guangzhou University)

Progressive Collapse of Unbonded Prestressed RC Frames under Different Loading Modes .314
Wanqing Chen (Guangxi University), Tao Yang (Guangxi University), Bingxian Qin (Guangxi Xinfazhan Communications Group Co., ltd.), and Shiyuan Liu (Guangxi University)

Research and Application of Anisotropic Friction Pendulum Isolation Bearing .319
Feng Qing-Hai (CCCC Highway Consultants CO., Ltd.)

Research and System Development of Non-metal Resilience Rate Test Technology .324
Zhou Bo (CRRC Changchun Railway Vehicles Co., Ltd), Wang Wenjun (CRRC Changchun Railway Vehicles Co., Ltd), and Hu Qifei (CRRC Changchun Railway Vehicles Co., Ltd)

Research on Additional Water of Mix Proportion for Recycled Aggregate Concrete .328
Wang Min (Taojiang Construction Project Quality Safety Supervisory Station), Yu Fang (Hunan City University), and Yin Canbin (Hunan City University)

Restoring Force Model of Double-Wall Precast Concrete Shear Walls .332
Xingwen Yin (Hunan University of Science and Technology) and Quandong Xiao (Hunan University of Science and Technology)

Review on the Movement of Bed Load Particles in Non-uniform Sediment .336
Linjuan Xu (Yellow River Conservancy Commission), Wanjie Zhao (Yellow River Conservancy Commission), Junhua Li (Yellow River Conservancy Commission), Yuanjian Wang (Yellow River Conservancy Commission), and Enhui Jiang (Yellow River Conservancy Commission)

Seismic Behavior Analysis of Piers Strengthened with Basalt Fiber Reinforced Polymer .340
Yong Li (Shijiazhuang Tiedao University), Mengfei Xie (Shijiazhuang Tiedao University), and Xiaosha Zhao (Shijiazhuang Tiedao University)

Seismic Behavior of Bridge Piers Considering Fluid-Structure-Soil Interaction .344
Piguang Wang (Tsinghua University), Jingbo Liu (Tsinghua University), Xiuli Du (Beijing University of Technology), and Mi Zhao (Beijing University of Technology)

Seismic Behavior of Steel Truss Arch Bridge under Strong Earthquakes Seismic Performance Analysis of Steel Braced Pedestrian Arch Bridge under the Action of Serious Earthquake .351
Fangwen Wu (Chang'an University) and Zhida Wu (Chang'an University)

Seismic Isolation Effect and Parametric Analysis of Multi-span Continuous Bridges with Mild Steel Damping Bearings .357
Shengping Wu (Fujian Jiangxia University) and Chunchao Zhang (Fujian Yongfu Power Design Co., Ltd.)

Seismic Performance Assessment of Highway Bridges Isolated By Negative Stiffness Bearings with Shape Memory Alloy .362
Li Cai (China University of Geosciences) and Yutao Pang (China University of Geosciences)

Seismic Performance of RC Circular Piers with Medium and Low Shear Span Ratio under Compression, Bending and Torsion Action .368
Chiyu Jiao (BUCEA, Beijing Advanced Innovation Center for Future Urban Design), Gexi Zhu (BUCEA, Beijing Advanced Innovation Center for Future Urban Design), Xiaopeng Shi (BUCEA, Beijing Advanced Innovation Center for Future Urban Design), and Peiheng Long (BUCEA, Beijing Collaborative Innovation Center for Technology of Energy Saving and Emission Reduction)

Seismic Risk Probability Assessment of Offshore Bridge Based on the Material Degradation .375.....
Gu Yin (Civil Engineering College of Fuzhou University), Li Pan (Civil Engineering College of Fuzhou University), Li Xiaofang (Civil Engineering College of Fuzhou University), and Zhuo Weidong (Civil Engineering College of Fuzhou University)

Sequential Separation Techniques with Temporal Structure .385.....
Yongjian Zhao (Shandong University) and Bin Jiang (Shandong University)

Study on Dynamic Characteristics of Steel Plate Composite Beams with Unsupported Crossbeam System .390.
Tian Ma (Anhui Transportation Holding Group Co., Ltd) and Runqing Li (Anhui Transportation Holding Group Co., Ltd)

Study on Seismic Dissipation and Isolation Design of a Multi-large-Span Steel Truss Continuous Beam Bridge Considering Sliding Friction Effect .395.....
Changyong Zhang (Shandong Provincial Communications Planning and Design Institute), Run Xu (Shandong Provincial Communications Planning and Design Institute), and Zhiying Wang (Shandong Provincial Communications Planning and Design Institute)

Test on Gravity Distortion Effect of Concrete Filled Steel Tubular Single Arch Rib under Shaking Tables .402.....
Fuyun Huang (Fuzhou University), Yulin Shan (Fuzhou University), and Tengfei Long (Fuzhou University)

The La-ICPMS U-Pb Ages of Detrital Zircons from the BAYANKALA Group: Implication for the Provenance 410
Junyi Sun (China University of Geosciences) and Jiawei Cui (Chinese Academy of Geological Sciences)

The Study of the Seismic Performance of the Strong-Beam and Weak-Column Shaped Joints of Concrete-Filled Steel Tubular Column and Steel Beams .413.....
Zhipeng Zhang (Qingdao University of Technology), Peizhen Xu (Qingdao University of Technology), Daiming Gao (Qingdao University of Technology), Yaguang Zhu (Qingdao University of Technology), and Ruifeng Nie (Shandong University of Science and Technology)

Session 4: Electrical Engineering and Electric Circuits and Electronics

A Network Scanning Detection Method Based on TCP Flow State .419.....
Qiao Hong (State Grid Hunan Electric Power Corporation Research Institute), Tian Jianwei (State Grid Hunan Electric Power Corporation Research Institute), Tian Zheng (State Grid Hunan Electric Power Corporation Research Institute), Ying Ying (Zhejiang Economic Information Center), Zhu Hongyu (State Grid Hunan Electric Power Corporation Research Institute), and Li Shu (State Grid Hunan Electric Power Corporation Research Institute)

Basics Non-time Series Production Scale Semantic Wind Power Consumption Evaluation Method .423.....
Wang Gang (State Grid Liaoning Electric Power Research Institute), Liu Yang (State Grid Liaoning Electric Power Research Institute), Chen Defeng (State Grid Liaoning Electric Power Research Institute), Yang Zhibin (State Grid Liaoning Electric Power Research Institute), Geng Hongbi (State Grid Liaoning Electric Power Research Institute), Li Huan (State Grid Liaoning Electric Power Research Institute), Ren Shuai (State Grid Liaoning Electric Power Research Institute), Li Tong (State Grid Liaoning Electric Power Research Institute), and Zhai Tai (Shenyang University of Technology)

Combined Research on Thermoelectricity to Enhance the Capacity of Renewable Energy .427.....
Zhang Qiang (State Grid Liaoning Electric Power Research Institute), Li Jiajue (State Grid Liaoning Electric Power Research Institute), Liu Yang (Northeast China Grid Company), Wang Chao (State Grid Liaoning Electric Power Research Institute), Qi Quan (State Grid Liaoning Electric Power Research Institute), Zeng Hui (State Grid Liaoning Electric Power Research Institute), Zhang Jiabin (State Grid Liaoning Electric Power Research Institute), Gong Xiaowei (State Grid Liaoning Electric Power Research Institute), and Shi Kai (Shenyang University of Technology)

Coordinated Optimization of Electric-Thermal System for Renewable Energy Clean Heating .432.....
Shao Baozhu (State Grid Liaoning Electric Power Research Institute), Ou Yangqiang (State Grid Fuxin Electric Power Supply Company), Li Jiajue (State Grid Liaoning Electric Power Research Institute), Cheng Xuke (State Grid Liaoning Electric Power Research Institute), Jin Ying (State Grid Liaoning Electric Power Research Institute), Dong Henan (State Grid Liaoning Electric Power Research Institute), Zhang Guanfeng (State Grid Liaoning Electric Power Research Institute), Bai Xue (State Grid Liaoning Electric Power Research Institute), and Li Weiyang (Shenyang University of Technology)

Design and Implementation of Pedometer Based on G-Sensor .436.....
Gangling Liu (Guilin University of Aerospace Technology)

Extract Study of Transmission Line Audible Noise .439.....
Wu Fa-Yuan (Electric Power Research Institute), Zhou Jin-Quan (Electric Power Research Institute), Liu Sheng-Nan (Shanghai Jiao Tong University), Dai Xiao-Min (Electric Power Research Institute), Liu Ping (Electric Power Research Institute), and Cai Jun (Shanghai Jiao Tong University)

Fault Identification Technology for Overhead Transmission Lines .443.....
Li Fan (State Grid Jiangxi Electric Power Research Institute), Zhou Longwu (State Grid Jiangxi Electric Power Research Institute), Li Yanglin (State Grid Jiangxi Electric Power Research Institute), Rao Binbin (State Grid Jiangxi Electric Power Research Institute), Zhang Yu (State Grid Jiangxi Electric Power Research Institute), Zou Jianzhang (State Grid Jiangxi Electric Power Research Institute), Hu Jing (State Grid Jiangxi Electric Power Research Institute), and Kuang Yanjun (State Grid Jiangxi Electric Power Research Institute)

Mechanism Analysis and Prevention of Transmission Line Tripping Caused by the Falling of Box for Bird Guard .448
Zhou Longwu (State Grid Jiangxi Electric Power Company Research Institute), Li Yanglin (State Grid Jiangxi Electric Power Company Research Institute), Yin Guilai (State Grid Jiangxi Electric Power Company Research Institute), Zhang Yu (State Grid Jiangxi Electric Power Company Research Institute), Guo Zhifeng (State Grid Jiangxi Electric Power Company), Hu Jing (State Grid Jiangxi Electric Power Company Research Institute), Zou Jiangzhang (State Grid Jiangxi Electric Power Company Research Institute), Kuang Yanjun (State Grid Jiangxi Electric Power Company Research Institute), and Rao Binbin (State Grid Jiangxi Electric Power Company Research Institute)

Multi-Objective Optimization Method for Source-Source Coordination of Power System Considering Wind Power Consumption .453
Sun Feng (State Grid Liaoning Electric Power Research Institute), Li Shenghui (State Grid Liaoning Electric Power Research Institute), Ge Yangyang (State Grid Liaoning Electric Power Research Institute), Fu Yao (State Grid Liaoning Electric Power Research Institute), Xie Cijian (State Grid Liaoning Electric Power Research Institute), Zhao Qingsong (State Grid Liaoning Electric Power Research Institute), Zhang Xiaotong (State Grid Liaoning Electric Power Research Institute), Zhang Zhao (State Grid Liaoning Electric Power Research Institute), and Liu Yu (Shenyang University of Technology)

Numerical and Experimental Investigation of a Multistage Electric Lifting Pump for Deep-Sea Mining .457
Yajuan Kang (Central South University), Shaojun Liu (Shenzhen Research Institute of Central South University), Xiaozhou Hu (Shenzhen Research Institute of Central South University), and Yu Dai (Central South University)

Numerical Investigation on Pressure Pulsation Characteristics of Deep-Sea Electric Lifting Pump .463
Shaojun Liu (Shenzhen Far East Marine Minerals Exploitation Research Institute Co., Ltd.), Yajuan Kang (Central South University), Xiaozhou Hu (Central South University), He Zhao (Shenzhen Research Institute of Central South University), and Yu Dai (Shenzhen Research Institute of Central South University)

Optimal Design of Magnetic Resonance Wireless Charging Coil for Unmanned Aerial Vehicles .469
Li Qiong (State Grid Jiangxi Electric Power Co., Ltd.), Wang Huayun (State Grid Jiangxi Electric Power Co., Ltd.), Wang Wenbin (State Grid Jiangxi Electric Power Co., Ltd.), Meng Tianqi (State Grid Jiangxi Electric Power Co., Ltd. Wang), and Wang Yongyue (School of Information Engineering, Nanchang University)

Research and Design of Zigbee-Based Swimming Pool Positioning Anti-flooding Device .473
Dandan Xiao (Wuhan Institute of Business and Information) and Fang Liu (Wuhan Institute of Business and Information)

Research on Consumer Side Energy Storage Optimization Configuration Based on Cloud Energy Storage .476
Haojie Chen (Shanghai University of Electric Power), Haozhong Cheng (Shanghai Jiao Tong University), Guodong Xu (Shanghai Jiao Tong University), Wei Zhou (East China Branch of State Grid Corporation of China), Xiaohu Zhang (East China Branch of State Grid Corporation of China), and Da Sang (East China Branch of State Grid Corporation of China)

Research on Power System Active Power Scheduling Strategy Adapted to Large-Scale Wind Power Grid-Connected .482
Liu Tao (State Grid Anshan Electric Power Supply Company), Qu Rongfa (State Grid Anshan Electric Power Supply Company), Gao Zhenjiang (State Grid Anshan Electric Power Supply Company), Shan Zhongchuang (State Grid Anshan Electric Power Supply Company), Xu Guohu (State Grid Anshan Electric Power Supply Company), Guan Qi (State Grid Anshan Electric Power Supply Company), Xu Zheng (State Grid Anshan Electric Power Supply Company), and Jin Hongyu (State Grid Anshan Electric Power Supply Company)

Research on Source and Load Interactive Power System Scheduling Method with Wind Power .487
Guan Ming (State Grid Anshan Electric Power Supply Company), Li Yanan (State Grid Anshan Electric Power Supply Company), Ye Dan (State Grid Anshan Electric Power Supply Company), Li Jianjun (State Grid Anshan Electric Power Supply Company), Sui Yi (State Grid Anshan Electric Power Supply Company), Zhang Linlin (State Grid Anshan Electric Power Supply Company), and Li Ruojiao (State Grid Anshan Electric Power Supply Company)

Research on Thermoelectric Current Detection Method Based on Thermoelectric Coupling for Miniature Circuit Breakers .492
Zong Ming (Shenyang University of Technology), Wang Xiaocui (Shenyang University of Technology), Lv Sen (Shenyang University of Technology), and Wang Shuo (CSIC 703 Research Institute)

Research on Troubleshooting of Communication Equipment Based on PSO-BP .496
Zufang Yang (Wuhan Technology and Business University), Ruiying Wang (Wuhan Technology and Business University), and Zuping Yang (Wuhan Maritime Communication Research Institute)

Study on the Intelligent Analysis Method of the Infrared Detection of Electrical Equipment .500
Xin Jianbo (Electric Power Research Institute of State Grid Jiangxi Electric Power Company), Kang Chen (Electric Power Research Institute of State Grid Jiangxi Electric Power Company), Chen Tian (Electric Power Research Institute of State Grid Jiangxi Electric Power Company), Fu Xiaohua (Zhejiang Hanno photoelectric science and technology Co., Ltd), and Zhou Longwu (Zhejiang Hanno photoelectric science and technology Co., Ltd)

The Analysis and Research of the Stress Cone Dislocation of 110kv Prefabricated Cable Terminal .505
Rao Binbin (State Grid Jiangxi Electric Power Research Institute), Zhou Longwu (State Grid Jiangxi Electric Power Research Institute), Hu Jing (State Grid Jiangxi Electric Power Research Institute), Li Yanglin (State Grid Jiangxi Electric Power Research Institute), and Li Fan (State Grid Jiangxi Electric Power Research Institute)

The Distance Power Inverse Method of Weight Constraint and Its Application In Three-Dimensional Modeling .509
Chi Ming Wen (Bao Tou Light Industry Vocational Technical College)

Session 5: Control Theory and Control Engineering

A Modified Liquid Column Damper Design for Vibration Control of Structures .513
Changzhao Qian (Xiamen University of Technology), Guangwei Zhou (Xiamen University of Technology), and Changping Chen (Xiamen University of Technology)

Design of Connected Cruise Control System with Acceleration Information .518
Xuedong Hua (Southeast University), Zongjun Wu (Southeast University), and Jianqiang Yang (Southeast University)

Research of User Temperature Control and Management in Northern Heating System Area Based on User Data Analysis .522
Wang Liping (Changchun Institute of Technology) and Liu Dapeng (Changchun Institute of Technology)

Research on Irregular Particle in Deep Sea Mining .527
Yuanwen Li (Central South University), Shaojun Liu (Central South University), and Xiaozhou Hu (Central South University)

Research on Power Quality Control Method of Active Distribution Network with Microgrids .533
He Huan (State Grid Anshan Electric Power Supply Company), Liu Junde (State Grid Anshan Electric Power Supply Company), Jin Yukun (State Grid Anshan Electric Power Supply Company), Li Zeng (State Grid Anshan Electric Power Supply Company), Shang Erzhen (State Grid Anshan Electric Power Supply Company), Zhang Zirong (State Grid Anshan Electric Power Supply Company), Wang He (State Grid Anshan Electric Power Supply Company), and Yu Miao (State Grid Anshan Electric Power Supply Company)

Research on Synchronous Frequency Oscillation Mechanism of Photovoltaic Virtual Inverter under the Coupling of Machine Network .537
Yang Libin (State Grid Qinghai Electric Power Research Institute), Yang Hao (Shenyang University of Technology), Li Chunlai (State Grid Qinghai Electric Power Research Institute), Zhai Tai (Shenyang University of Technology), and Hui Qian (State Grid, Liaoning Electric Power Co, Ltd.)

Study on Fluid Radial Force In Six-Stage Deep-Sea Lifting Pump .541
Shaojun Liu (Shenzhen Far East Marine Minerals Exploitation Research Institute Co., Ltd.), He Zhao (Central South University), Xiaozhou Hu (Central South University), and Yajuan Kang (Shenzhen Research Institute of Central South University)

The Collaborative Control between CAVs under Highway Entrance Ramp and Exit Ramp Environment .547
Tianyi Zhang (Fo Shan University), Jiaxin Zhang (Fo Shan University), Mingyue Lu (Fo Shan University), Weihang Lin (Fo Shan University), and Zhai Cong (Fo Shan University)

Voltage Regulation of Synchronous Condensers and Switching Capacitors in Power Grids with a UHV DC/AC System .552
Ting Cui (State Grid Hunan Electric Power Corporation Limited Research Institute), Yangwu Shen (State Grid Hunan Electric Power Corporation Limited Research Institute), Zhen Hu (State Grid Hunan Electric Power Corporation Limited Research Institute), Junying Song (State Grid Hunan Electric Power Corporation Limited), Hu Guo (State Grid Hunan Electric Power Corporation Limited Research Institute), and Xiaofei Wang (State Grid Hunan Electric Power Corporation Limited Research Institute)

Session 6: Information Management and System Engineering

Analysis of Application of Multi-Sensor Data Fusion In Deceleration Early Warning System .557
Cao Xin (Dalian Neusoft Institute of Information), Zhou Hui (Dalian Neusoft Institute of Information), Liu Dan (Dalian Neusoft Institute of Information), Wu Wenbo (Dalian Neusoft Institute of Information), and Zhu Yun (Dalian Neusoft Institute of Information)

Application Research of Hadoop's Weibo Recommendation System Prototype Based on Customer Dynamic Behavior .562
Guo Wei-Wei (Heilongjiang University of Technology) and Liu Feng (Heilongjiang University of Technology)

C Programming Language Education Reform Concept Based on PDCA Circulation Management .567
Wang Cui (Shandong Agriculture And Engineering University), Sun Xiangqun (Shandong Agriculture And Engineering University), and Song Shiyin (Shandong Agriculture And Engineering University)

Construction of Human Resource Management System in the Construction of Smart City Dependent on Information Space Theory .571
Caixia Pei (Quanzhou Normal University)

Design and Implementation of a Monitoring System for Urban Gas Safety Based on PLC and Configuration Software .576
Linlian Ma (Guizhou institute of technology)

Design of Digital Campus Information Storage Security Stereo Defense System .580
Zhiyuan Wu (China University of Geosciences) and Yinqian Cheng (China University of Geosciences)

Development of Constitutive Model of ECC Based on OpenSees Platform .585
Yuguo Zheng (Hunan University of Science and Technology), Yingliang Song (Hunan University of Science and Technology), and Yu Wang (Hunan University of Science and Technology)

Evaluation and Optimization of Hierarchical Diagnosis and Treatment Model of Chronic Diseases Based on Clinical Pathway .590
Zehui Jiang (Jiangxi University of Traditional Chinese Medicine), Jun Zhang (the 94th Hospital of Chinese People's Liberation Army), Junyong Wang (Jiangxi University of Traditional Chinese Medicine), and Xia Liu (Jiangxi University of Traditional Chinese Medicine)

Fault Analysis and Treatment Measures of CRH5 EMU Main Circuit Breaker Disconnected under Over-Current .596
Wang Wenjun (CRRC Changchun Railway Vehicles Co., Ltd), Li Bin (CRRC Changchun Railway Vehicles Co., Ltd), and Zhou Bo (CRRC Changchun Railway Vehicles Co., Ltd)

Learning and Predicting Method of Security State of Cloud Platform Based on Improved Hidden Markov Model .600
Zhixin Li (Jilin University), Lei Liu (Jilin University), Yanli Zhang (Jilin Dongguang Precision Mechanism Factory Td), and Bin Liu (Changchun UP Optotech Co., Ltd.)

Real Time Monitoring and Online Analysis of Integrated Energy in Industrial Park Based on SVG and Ajax .605
Chunlin Zhong (Jiangsu Frontier Electric Technology CO., LTD), Kunming Li (Jiangsu Frontier Electric Technology CO., LTD), Mingzhu Xu (Jiangsu Frontier Electric Technology CO., LTD), Cong Ji (Jiangsu Frontier Electric Technology CO., LTD), Chao Fang (Jiangsu Frontier Electric Technology CO., LTD), and Kaizhen Zhang (Jiangsu Frontier Electric Technology CO., LTD)

Research and Design of Substation Secondary Circuit 3D Simulation Training System .609
Qingquan Wu (China Southern Power Grid), Xiaoping Li (China Southern Power Grid), and Houbing Deng (China Southern Power Grid)

Research on a General Fast Analysis Algorithm Model for PD Acoustic Detection System: Experimental Research .613
Wen-Rong Si (State Grid Shanghai Electric Power Research Institute), Qi-Yu Lu (State Grid Shanghai Municipal Electric Power Company), Chen-Zhao Fu (State Grid Shanghai Electric Power Research Institute), Zheng-Yong Hu (State Grid Shanghai Electric Power Research Institute), Kai Gao (State Grid Shanghai Electric Power Research Institute), and Hai-Long Bao (State Grid Shanghai Electric Power Research Institute)

Research on Highly Reliable Service Composition Technology under Self-Organizing Network .618
Shaowen Liao (Hexi University), Yong Chen (Troops 32153 PLA), and Lei Zhang (Hexi University)

Research on New Metropolitan Area Network VBRAS Technology .623
Lei Zhang (Hexi University), Jianqing Zhang (Troops 32153 PLA), Yong Chen (Army Artillery Training base), and Shaowen Liao (Hexi University)

Research on Optimization of Distributed Big Data Real-Time Management Method .626
Ping Lin (Chi Feng Industry Vocational Technology College)

Research on Optimized Operation of Electrothermal Combined System for Enhancing Wind Power Consumption .631
He Huan (State Grid Anshan Electric Power Supply Company), Liang Kai (State Grid Anshan Electric Power Supply Company), Jin Shaoyu (State Grid Anshan Electric Power Supply Company), Liang Xiaoyang (State Grid Anshan Electric Power Supply Company), Li Bo (State Grid Anshan Electric Power Supply Company), Li Yang (State Grid Anshan Electric Power Supply Company), Jia Yilin (State Grid Anshan Electric Power Supply Company), and Gu Dandan (State Grid Anshan Electric Power Supply Company)

Research on Portable Sign Language Translation System Based on Embedded System .636
Geng Liqing (Tianjin University of Technology and Education), Ling Wenwen (Tianjin University of Technology and Education), Sun Yong (Tianjin University of Technology and Education), Wang Yanyan (Tianjin University of Technology and Education), and Lin Guoming (Tianjin University of Technology and Education)

Research on the Construction of Tourism Information Sharing Service Platform and the Collection of Tourist Satisfaction .640
Huiwei Su (Guilin Tourism University), Xuanmiao Lin (Guilin Tourism University), Wuxiang Chen (Guilin Tourism University), Qixiu Xie (Guangxi Normal University of Teachers College for Vocational and Technical Education), and Yuanbin Tang (Guangxi Normal University of Teachers College for Vocational and Technical Education)

Research on WisdomMedical Management Model .644
Hengyu Cai (China-Japan Union Hospital of Jilin University), Guijie Li (China-Japan Union Hospital of Jilin University), and Yutao Liu (China-Japan Union Hospital of Jilin University)

Structural Optimization of Intelligent Decision Support System Based on the Integration of Quality Evaluation Model of Higher English Teaching .647
Liu Yun (Chifeng Industry Vocational Technology College)

Study on ALOHA Anti-collision Algorithm Based on LoRa for Internet of Things .652
Haiyan Hu (Jilin Business and Technology College) and Hui Yan (Changchun Institute of Technology)

The Simulation Research on Random Disturbance In Multi-hop Wireless Network .655
Shaomin Liu (Wuhan Technology and Business University) and Chengcheng Guo (Wuhan University)

Session 7: Intelligent Transportation System

Analysis of Driving Workload in Mountain City Tunnel Portal Based on Naturally Driving Test .660
Jie Luo (Chongqing Jiaotong University), Baichuan Lu (Chongqing Jiaotong University), Jin Xu (Chongqing Jiaotong University), and Zhongping Yang (Chongqing Vocational College of Transportation)

Design and Implementation of Terminal System for Internet of Vehicles Based on Android .665
Liu Dan (Neusoft Institute of Information), Cao Xin (Neusoft Institute of Information), and Zhou Xinghai (Dalian Hi-Think Computer Technology)

Design of Lighting System Based on Crash Test of Rail Vehicle .670
Xuguang Lin (CRRC Changchun Railway Vehicles Co., Ltd.), Yi Ren (Special equipment supervision and inspection Center of JiLin province), Wenjun Wang (CRRC Changchun Railway Vehicles Co., Ltd), Bin Li (CRRC Changchun Railway Vehicles Co., Ltd), and Bo Zhou (CRRC Changchun Railway Vehicles Co., Ltd.)

Estimation for SOC of Electric Vehical Lithium Battery Based on Artificial Immune Particle Filter .675
Cheng He (Shanghai Polytechnic University), Changchun Liu (Shanghai Polytechnic University), Yang Wu (Shanghai Polytechnic University), and Tao Wu (Shanghai Polytechnic University)

Improving Bus Operation Reliability Using Real-Time Tactics .679
Zhongjun Wu (Southeast University), Wei Wang (Southeast University), and Xuedong Hua (Southeast University)

Influence of Rainfall on Soil Moisture Transport Characteristics In Subgrade Soil .683
Cui Da (Luqiao Huaxiang International Engineering Co., Ltd.), Huang Sining (China University of Petroleum (Hua Dong)), and Cao Kong (China University of Petroleum (Hua Dong))

Research on the Damage Index of the Taxiway Bridge Based on the Efficiency of the Text .687
Chunxiang Qi (Civil Aviation University of China), Jiakun Li (Civil Aviation University of China), and Runfeng Zhang (Civil Aviation University of China)

Research on the Dynamic Head Collision Response of Pedestrians /Cyclists .692
Sun Zhendong (China Automotive Technology & Research Center), Zhu Haitao (China Automotive Technology & Research Center), and He Cheng (China Automotive Technology & Research Center)

Traffic Flow Simulation Based on Adaptive Agent .697
Qianjiao Wu (Chang 'An University), Rong Lan (Xi 'an Jiao Tong University), and Wei Zhou (China Academy of Transportation Sciences Beijing)

Wind Speed Signal Detection and Energy Capture System Design .701
Shu X (Hunan University of Science and Technology), Li X.J (Hunan University of Science and Technology), Jiang L.L (Hunan University of Science and Technology), and Sheng Y.P (Hunan University of Science and Technology)

Session 8: Big Data and Web Application

Acoustic Characteristics of Stops Pronounced by Kazahk Mandarin Learners .704
Mawlanjan Jurat (Xinjiang University), Gvlijan Alijan (Xinjiang University), Mijit Ablimit (Xinjiang University), and Askar Hamdulla (Xinjiang University)

An Analysis of the Present Situation of Postgraduate Papers in the First Master of Education (Vocational and Technical Education Field)–Measurement Statistics and Analysis Based on CNKI .709
Yuanbin Tang (Guangxi Normal University of Teachers College for Vocational and Technical Education), Xiangwei Mu (Guangxi Normal University of Teachers College for Vocational and Technical Education), Gao Dan (Guangxi Normal University of Teachers College for Vocational and Technical Education), Huiwei Su (Guilin Tourism University), and Xin Li (Guangxi Normal University of Teachers College for Vocational and Technical Education)

Analysis of Effect of Financial Resource Allocation on Industrial Restructuring in Xinjiang .716
Zhang Fengli (Shihezi University)

Analysis of Tourist Satisfaction Based on Internet Public Opinion and Big Data Collection .721
Huiwei Su (Guilin Tourism University), Qixiu Xie (Guangxi Normal University of Teachers College for Vocational and Technical Education), Xuanmiao Lin (Guilin Tourism University), Wuxiang Chen (Guilin Tourism University), Dan Gao (Guangxi Normal University of Teachers College for Vocational and Technical Education), and Yuanbin Tang (Guangxi Normal University of Teachers College for Vocational and Technical Education)

Competition Decision for Bottleneck Traveling Salesman Problem Based on Big Data Mining Algorithm with Multi-sSegment Support .725
Dai Ying (Changjiang Polytechnic)

Evaluation of Vocal Music Artistic Talent Based on Emotional Features .730
Hu Xiaoling (Jiangxi University of Traditional Chinese Medicine)

Evaluation on the Effectiveness of Quality Education for Students in Colleges and Universities Based on the Integration of Double Flipped Classroom Mode .736
Tang Ming (Chongqing Vocational institute of Engineering)

Exploration on the Ideological and Political Development Dynamics Investigation and Judgment of College Students Considering Big Data Mining Technology .740
Huichao Li (Chengdu Polytechnic), Tao Wang (Chengdu Polytechnic), and Jiasheng Jiang (Chengdu Polytechnic)

Historical Sources of University Campus Form and Its Relationship with Urban Space .746
Zijian Chen (South China University of Technology) and Jia Guo (South China University of Technology)

Prediction Techniques for Signal Separation .750
Yongjian Zhao (Shandong University)

Recommendation Algorithm Based on Tag Time Weighting .755
Liu Feng (Heilongjiang University of Technology) and Guo Wei-Wei (Heilongjiang University of Technology)

Research of Web Application Intrusion Anomaly Detection Based on GV-Gram Model .759
Shaowen Liao (Hexi University), Changjiang Liu (Troops 32153 PLA), and Lei Zhang (Hexi University)

Research on Application of Big Data in Medical Industry .763
Guijie Li (China-Japan Union Hospital of Jilin University), Yutao Liu (China-Japan Union Hospital of Jilin University), and Hengyu Cai (China-Japan Union Hospital of Jilin University)

Research on Planning, Renovation and Design of Traditional Small Town Tourism Business District .766
Jiajun Yi (Urban Planning and Architectural Design Institute of Hunan City University) and Yanxiang Xiao (Urban Planning and Architectural Design Institute of Hunan City University)

Research on Sharing and Application of Medical Big Data .771
Yutao Liu (China-Japan Union Hospital of Jilin University), Hengyu Cai (China-Japan Union Hospital of Jilin University), and Guijie Li (China-Japan Union Hospital of Jilin University)

Research on the Design Concepts of Small and Medium-Sized Libraries Based on the Perspective of Community Service—Taking the United States as an Example .775
Guo Jia (South China University of Technology), Ni Yang (South China University of Technology), and Chen Zijian (South China University of Technology)

Research on the Planning and Layout of Tourism-Type Villages and Towns Based on Hunan Regional Characteristics .779
Yanxiang Xiao (Yiyang Vocational and Technical College) and Jiajun Yi (Urban Planning and Architectural Design Institute of Hunan City University)

Research on the Protection and Utilization Planning of "Event" Revolutionary Site —A Case Study of Fengxiangxi Conference Site in Dejiang County, Guizhou Province .784
Zhang Boyang (Guiyang University) and Fan Jinyu (Guiyang University)

Smart Solution for Protecting Cultural Heritage in China .788
Chang Liu (China academy of urban planning and design)

Study on Feature Selection and Feature Deep Learning Model for Big Data .792
Ping Yu (Changchun Institute of Technology) and Hui Yan (Jilin province Science and Technology Innovation Center for Physical Simulation and Security of Water Resources and Electric Power)

The Research on Identity Recognition Based on Multi-biological Feature Awareness .796
Lin Zhi-Heng (Yanbian University) and Li Yong-Zhen (Yanbian University)

The Study on Urban Development in Capital of Culture in China: A Case of Jingdezhen .801
Chang Liu (China academy of urban planning and design) and Yuqiao Feng (China academy of urban planning and design)

WeChat-Based Advertising Monitoring Butler .805
Zhenhai Mu (Guilin University of Aerospace Technology), Lizhen Jiang (Guilin University of Aerospace Technology), and Zhongxuan Tan (Guilin University of Aerospace Technology)

Session 9: Model, Simulation and Optimization

3D Geological Modeling Technology and its Application in a Mine .809
Chi Ming Wen (Bao Tou Light Industry Vocational Technical College)

A Dynamic Priority Task Scheduling Algorithm for MPSoC .813
Yang Shen (South China University of Technology) and Deyu Qi (South China University of Technology)

A Novel Theoretical Model of Bite Force for Detecting Pre-stress by Lift-Off Method .819
Faxiang Xie (Hohai University), Feng Zhang (Geotechnical and Structural Engineering Centre of Shandong University), Lin Ji (Jiangsu Taizhou Bridge Co., Ltd.), Jing Ruan (Jiangsu Provincial Transportation Engineering Construction Bureau), Chuanlong Zhang (Hohai University), and Youliang Chen (Hohai University)

A Review: Text Detection in Natural Scene Image .826
Yue Sun (Xinjiang University), Abdusalam Dawut (Xinjiang University), and Askar Hamdulla (Xinjiang University)

A Three-Dimensional DV-Hop Localization Algorithm Based on RSSI .830
Pingzhang Gou (Northwest Normal University), Fengzhen Li (Northwest Normal University), Xiangdong Jia (Northwest Normal University), Gang Mao (Northwest Normal University), and Mengyuan Sun (Northwest Normal University)

An Adaptive Directional Non-local Means Algorithm with Size-Adaptive Search Window for Image Denoising .834
Mingju Chen (Southwest University of Science and Technology), Hua Zhang (Southwest University of Science and Technology), and Guojun Lin (Sichuan University of Science & Engineering)

An Overview of Feature Extraction Methods for Handwritten Image Retrieval .840
Gao Ting (Xinjiang University), Kamil Moydin (Xinjiang University), and Askar Hamdulla (Xinjiang University)

Analysis of Dynamic Change Characteristics of River Channel in Sanmenxia Sediment-Laden Reservoir Area .844
Liang Wang (China Institute of Water Resources and Hydropower Research), Huaidong Zhou (China Institute of Water Resources and Hydropower Research), Chang Liu (China Institute of Water Resources and Hydropower Research), Shiyan Wang (China Institute of Water Resources and Hydropower Research), and Weixiong Yi (China Institute of Water Resources and Hydropower Research)

Analysis of Water Temperature Stratification and Water Quality Response Mechanism of Daheiting Reservoir In Tangshan City .849
Chang Liu (China Institute of Water Resources and Hydropower Research), Liang Wang (China Institute of Water Resources and Hydropower Research), Budong Li (China Institute of Water Resources and Hydropower Research), Shiyan Wang (China Institute of Water Resources and Hydropower Research), and Yanliang Du (China Institute of Water Resources and Hydropower Research)

Chain Recurrent Point and Devaney Chaos of Topological Groups .855
Ji Zhanjiang (Wuzhou University), Qin Guijiang (Wuzhou University), and Zhai Cong (Fo Shan University)

Fault Diagnosis Method Based on EEMD and Multi-class Logistic Regression .859
Hui Zhang (Software Quality Engineering Research Center CEPREI), Ping Chen (Software Quality Engineering Research Center CEPREI), and Qiang Wang (Software Quality Engineering Research Center CEPREI)

Grape Production Status and the Layout of Major Grape Production Regions In Beijing .864
Tianhong Li (China Agricultural University), Zhaoquan Gao (Beijing Vocational College of Agriculture), Jianhui Fang (Beijing Municipal Bureau of Landscape and Forestry), Peng Wang (China Agricultural University), and Jiangchuan Fan (National Engineering Research Center for Information Technology in Agriculture)

Influence Investigation of Wide-Bodied Aircraft Test Model Cavity Pressure on Force Test Data Accuracy .869
Guitian Xiong (High Speed Instruments of China Aerodynamic Research and Development Center), Xin Peng (High Speed Instruments of China Aerodynamic Research and Development Center), Dawei Liu (High Speed Instruments of China Aerodynamic Research and Development Center), Qiang Li (High Speed Instruments of China Aerodynamic Research and Development Center), and Dehua Chen (High Speed Instruments of China Aerodynamic Research and Development Center)

New Ideas on Statistical Analysis of Comprehensive Benefits of Enterprises .875
Xiao Xiaonan (Xiamen University Tan Kah Kee College)

Outdoor Activity Space Design for the Elderly in Residential Areas .880
Wang Qingfen (Changchun Institute of Architecture College of Architecture and Urban Planning)

Parameter Estimation and Verification of the DSSAT Model of Winter Wheat for Simulation and Development in North China .883
Yuan Shi (China Institute of Water Resources and Hydropower Research (IWHR)), Meijian Bai (China Institute of Water Resources and Hydropower Research (IWHR)), Yinong Li (China Institute of Water Resources and Hydropower Research (IWHR)), Ning Yao (Northwest A&F University), and Yifan Li (China Institute of Water Resources and Hydropower Research (IWHR))

Peach Production Status and Planning for Different Main Planting Areas In Beijing .889
Tianhong Li (China Agricultural University), Zhaoquan Gao (Beijing Vocational College of Agriculture), Jianhui Fang (Beijing Municipal Bureau of Landscape and Forestry), Peng Wang (China Agricultural University), and Jiangchuan Fan (National Engineering Research Center for Information Technology in Agriculture)

Research on Multi Constraint of Nursing Practice Scheduling Based on Random Search Algorithm .894
Aijv Lei (Zhoukou Central Hospital), Liu Li (Zhoukou Central Hospital), Yazi Wang (Zhoukou Normal University), Yu Zhao (Zhoukou Normal University), Zhu Sifeng (Zhoukou Normal University), and Shuai Huang (Zhoukou Normal University)

Research on Optimization of Debt Financing Source Structure of Real Estate SMEs Based on Multi-objective Programming Model —Taking Representative Enterprises in Hunan Province as an Example.897
Huikai Zheng (Hunan City University School of Urban Management)

Research on the Simulation Algorithm of Object-Oriented Language .902
Lei Zhang (Hexi University), Jianqing Zhang (Troops 32153 PLA), Yong Chen (Army Artillery Training base), and Shaowen Liao (Hexi University)

Review on Artificial Bending Cutoff and Regulation of Distorted River Bends .905
Zhao Wanjie (Yellow River Conservancy Commission) and Xu Linjuan (Yellow River Conservancy Commission)

Study on Energy Saving Algorithm of LoRa Terminal Based on Neural Network .908
Hui Yan (Changchun Institute of Technology) and Haiyan Hu (Changchun Jilin Business and Technology College)

Study on the Plankton Distribution and Its Relationship with Environmental Factors in the Heihe River Basin .912
Shiyan Wang (China Institute of Water Resources and Hydropower Research), Liang Wang (China Institute of Water Resources and Hydropower Research), Zhen Han (China Institute of Water Resources and Hydropower Research), Yanliang Du (China Institute of Water Resources and Hydropower Research), and Chang Liu (China Institute of Water Resources and Hydropower Research)

The Algorithms for Segmentation of Text-Lines In Handwriting Images .919
Huo Liulei (Xinjiang University), Kamil Moydin (Xinjiang University), Abdusalam Dawut (Xinjiang University), and Askar Hamdulla (Xinjiang University)

The Variation Law of Water Environment Quality in the Haihe River Basin In 2005-2016 and Analysis on the Law .923
Liang Wang (China Institute of Water Resources and Hydropower Research), Chang Liu (China Institute of Water Resources and Hydropower Research), Shiyan Wang (China Institute of Water Resources and Hydropower Research), Zhen Han (China Institute of Water Resources and Hydropower Research), and Yanliang Du (China Institute of Water Resources and Hydropower Research)

Winter Wheat Production Potential Simulation in Central and Southern Hebei Based on Process Model .930
Li Shijuan (Chinese Academy of Agricultural Sciences), Zhu Yeping (Chinese Academy of Agricultural Sciences), and Jiang Xiaoru (Agricultural Technology Extension Station of Hebei Province)

Author Index
