TABLE OF CONTENTS

Plenary Sessions

<i>How will 'digital technology' change Asset Management in the Railways?</i> Andy Doherty	1
<i>Bridges and Structures: Design practice and new trends</i> António Reis	4
<i>We need more accurate and more useful Environmental Assessment of Infrastructure</i> Arpad Horvath	7
<i>Risk and Resilience of civil infrastructure systems under extreme events</i> Mitsuyoshi Akiyama.....	8
<i>Building the present – creating the future, changing the way we create our Built Environment</i> Menno de Jonge	20
<i>New trends and requirements in Bridge and Structural Engineering</i> Klaus H. Ostenfeld	28

A

<i>A Hybrid UKF-MGA Algorithm for Finite Element Model Updating of Historical Constructions</i> Javier Naranjo-Pérez, Andrés Sáez, Javier F. Jiménez-Alonso, Pablo Pachón, Víctor Compán.....	29
<i>A low-cost retrofitting technique for masonry arch bridges: experimental validation</i> Antonio Brencich, Davide Pera.....	37
<i>A Novel Approach to Residual Stiffness Analysis of Flexural Concrete Elements with Composite Reinforcement</i> Viktor Gribniak, Aleksandr Sokolov, Arvydas Rimkus, Haji Akbar Sultani, Murat Can Tuncay, Lluís Torres	46
<i>A novel loading arrangement to evaluate EB-FRP strengthening schemes</i> Konstantinos Katakalos, George C. Manos.....	52
<i>A proactive approach to the conservation of historic and cultural Heritage: the HeritageCare methodology</i> Maria José Morais, Maria-Giovanna Masciotta, Luís F. Ramos, Daniel V. Oliveira, Miguel Azenha, Eduardo B. Pereira, Paulo B. Lourenço, Teresa C. Ferreira, Paula Monteiro	64
<i>A pro-active concept in asset management supported by the quantified Value of Structural Health Monitoring</i> Helder Sousa, Artur Slobbe, Wim Courage.....	72
<i>A qualitative prioritization of the risks imposed on bridges due to climate change</i> Amro Nasr.....	80
<i>A review on experimental flexural cracking in FRP reinforced concrete members</i> Cristina Barris, Paula Zubillaga, Lluís Torres.....	88

<i>A review on wall-to-timber floor anchorages in URM buildings</i> Fabio Solarino, Daniel V. Oliveira, Linda Giresini.....	96
<i>A Scenario-Based Procedure for Structural Robustness Assessment</i> Mohammad EL HAJJ DIAB, André Orcesi, Cédric Desprez, Jeremy Bleyer.....	107
<i>A study on efficiency improvement of diagnosis in maintenance of highway bridge deck</i> Hiroshi Yokoyama, Yuji Maki, Hiroshi Masuya, Ko Kakuma.....	115
<i>A Sustainable Timber Footbridge Complementing an Historic and Sensitive Environment</i> Liam Edwards, Stephen Heaney, Tony Harris, Héctor Beade Pereda.....	123
<i>Active protection system for Main cable of suspension bridge against HGV or Hazardous material fires</i> Manabu Inoue, Yusuke Takai, Masahiro Yanagihara, Müslüm Durmaz, Aydın Kara, Inger Birgitte Kroon.....	131
<i>Aligning technical and financial management of public school buildings</i> Filipa Salvado, Nuno Almeida, Álvaro Vale e Azevedo.....	138
<i>ALLPLAN Bridge - A new BIM tool tailored for Bridge Engineering</i> Vanja Samec, Johann Stampler, Gregor Strekelj.....	146
<i>Ambient Vibration Testing, Dynamic Identification and Model Updating of a historical bridge</i> Pablo Pachón, Enrique García, Víctor Compán, Javier F. Jiménez-Alonso, Rafael Castro.....	152
<i>An information value guide for infrastructure design and operation executives – fundamental idea & concept</i> Helder Sousa, Helmut Wenzel, Sebastian Thöns.....	160
<i>An infrastructure management system for railway bridges: overview and application to a case study</i> João Fernandes, Monica Santamaria, José Campos e Matos, Daniel V. Oliveira, Lino Costa, António Abel Henriques.....	168
<i>An innovative approach for the assessment of masonry bridges based on two new limit analysis theorems</i> Giuseppe Stagnitto, Alessandro Pederzani.....	176
<i>An Overview on H2020 Project “ReSHEALience”</i> Liberato Ferrara, Patrick Bamonte, Cristina Suesta Falcó, Francesco Animato, Carmine Pascale, Aleksej Tretjakov, Esteban Camacho Torregrosa, Peter Deegan, Stamatina Sideri, Enrico Maria Gastaldo Brac, Pedro Serna, Viktor Mechtcherine, Maria Cruz Alonso, Alva Peled, Ruben Paul Borg.....	184
<i>Analysis of BIM methodology implementation in structure projects</i> Alcinia Zita Sampaio.....	192
<i>Application of a Model-free ANN Approach for SHM of the Old Lidingö Bridge</i> Ana C. Neves, John Leander, Ignacio González, Raid Karoumi.....	200
<i>Assessing uncertainty in the computation of seismic failure rates due to record-selection process</i> Mariano Angelo Zanini, Lorenzo Hofer, Flora Faleschini, Carlo Pellegrino.....	212
<i>Assessment and identification of concrete box-girder bridges properties using surrogate model calibration. Case study: El Tablazo Bridge</i> Edward A. Baron.....	218

<i>Assessment of current design guidelines for vertical ties in relation to progressive collapse of RC structures</i>	
Didier Droogné, Wouter Botte, Robby Caspeepe.....	226
<i>Assessment of roadway bridges damaged by human errors using risk indicators and robustness index</i>	
Neryvaldo Galvão, José Campos e Matos, Daniel V. Oliveira, Carlos Santos.....	236
<i>Assessment of the connection properties of a prefabricated wooden sandwich panel under static and cyclic loads</i>	
Dag P. Pasca, Caroline Myhrvold, Roberto Tomasi, Olav A. Høibø, Anders Q. Nyrud.....	244
<i>Assessment of the Seismic Response of Isolated Bridges under extra-stroke displacement demands</i>	
Marco Furinghetti, Alberto Pavese.....	251
<i>“Autopista Urbana Siervo de la Nación”- Flyover at México City Lake Zone</i>	
António Campos e Matos, José Luís Barbosa, Mário Durão, Ricardo Leite.....	258
 B	
<i>Behaviour of laminar RC structures subjected to cyclic loading</i>	
Rajendra Varma, Joaquim A. O. Barros, José Sena-Cruz.....	268
<i>Behaviour of RC structures strengthened with prestressed CFRP laminates: a numerical study</i>	
José Sena-Cruz, Luís Correia, Paulo França.	276
<i>Bending test of a composite steel-timber beam jointed by bolts</i>	
Masanori Fujita , Mayo Ohtaki, Mamoru Iwata.....	284
<i>BIM Practical Application New Bugesera International Airport (Rwanda)</i>	
Joel Soares, Hugo Marques , João Oliveira, Alberto Araújo.....	290
<i>Bond behaviour of chemically prestressed textile reinforced concrete</i>	
Katarzyna Zdanowicz, Boso Schmidt, Hubert Naraniecki, Steffen Marx.....	297
<i>Bridge failures analysis as a risk mitigating tool</i>	
Anton Syrkov, Niels Peter Høj.....	304
<i>Bridge Health Monitoring Using Accelerometer Responses to Passing Traffic</i>	
Eugene Obrien, Daniel McCrum, Muhammad Arslan Khan.....	311
<i>Brisa Experience – Risk Assessment and Capital Investment Planning at Brisa</i>	
Sónia Santos Santiago.....	317
<i>Brisa’s Journey on Asset Management System Modelling</i>	
Carlos Biscaia de Oliveira.....	327
<i>Brisa’s model for life cycle performance monitoring and decision-making process</i>	
Carlos Biscaia de Oliveira.....	333
<i>Building rehabilitation proposal from a sustainable and solidary approach</i>	
Lidia A. Juárez Ruiz, Sofia del Pozo C.	338

C

<i>Case studies for quantifying the value of structural health monitoring information: lessons learnt</i> Sebastian Thöns, Wouter Jan Klerk, Jochen Köhler.....	345
<i>Cementitious adhesives for NSM carbon laminate strengthening system with treated surfaces</i> Reza Mohammadi Firouz, Eduardo B. Pereira, Joaquim A. O. Barros.....	353
<i>CFRP Strengthening and Long-Term Monitoring of an Old Metallic Roadway Bridge in Melbourne</i> Elyas Ghafoori , Ardalan Hosseini , Riadh Al-Mahaidi , Xiao-Ling Zhao , Masoud Motavalli, Yew-Chin Koay.....	360
<i>CFRP Strengthening of RC tensile members with stiff and soft adhesives</i> Roman Sedlmair, Lothar Stempniewski.....	369
<i>Change of load-carrying capacity of real bridge structure due to modified reliability levels and planned remaining lifetime</i> Peter Koteš, Josef Vičan, Jozef Prokop.....	377
<i>Changeability as an alternative to traditional design</i> Daniel F. Villarraga, Samuel Torres Rincón, Mauricio Sánchez Silva.....	385
<i>Chelsea Bridge - The assessment of a 1937 self-anchored suspension bridge</i> Lucy Loewenthal, David Collings.....	392
<i>Chilean Performance Indicator by region applied to road bridges</i> Matias A. Valenzuela, Marcelo Marquez, Leonardo Acuña, Karen Zuñiga, Constanza Barraza.....	400
<i>Conceptual Definition of a Megaproject Feasibility Analysis Method</i> Chrysostomos Mylonas, Yiannis Xenidis.....	407
<i>Conceptual Design of Bridges and Sustainability</i> Jose Romo.....	415
<i>Continuous Monitoring System of Metro Lines to Assess Long-term Behaviour of Massive Train Wheels.</i> Elisabetta Pistone, Hanno Töll, Thomas Hauser.....	425
<i>Contributions for experimental and numerical characterization of the structural behaviour of stone arch bridges</i> Cristina Costa, António Arêde, Aníbal Costa, Rui Calçada.....	431
<i>Corrosion risk assessment for structures using BS EN ISO 9223 (2012) and BS EN ISO 9224 (2012)</i> Graham Gedge, Emily Walport, Bruna Frydman.....	439
<i>Cost-benefit analysis of liquefaction mitigation strategies</i> Keith Jones, Mariantonietta Morga, Nadeeshani Wanigarathna, Federica Pascale, Larisa Yarovaya.....	447
<i>Coura and Valença Bridges on Minho Railway line – old structures, updated performance</i> Miguel Guimarães, Alberto Teixeira.....	455
<i>Crack Spacing Model for FRP Reinforced Concrete Beams based on Stress-Transfer Approach</i> Gintaris Kaklauskas, P.L. Ng, Aleksandr Sokolov.....	464

D

Damage Detection in Structures – Examples

Ivan Duvnjak, Domagoj Damjanović, Natalia Sabourova, Niklas Grip, Ulf Ohlsson, Lennart Elfgren, Yongming Tu..... 471

Decision analysis and scenarios for the assessment of existing timber structures

Mislav Stepinac, Vlatka Rajčić, Dániel Honfi..... 479

Deep Learning Based Active Monitoring for Anti-collision between Vessels and Bridges

Limu Chen, Ye Xia, Dexiong Pan, Chengbin Wang..... 487

Define Urban Limit Conditions by Applying Performance Goals

Alberto Basaglia, Enrico Spacone, Giuseppe Brando, Aleksander Gonzalez, Alessandra Aprile..... 492

Deformation and Cracking Behaviour of Concrete Beams Reinforced with Glass Fibre-Reinforced Polymer Bars

Gintaris Kaklauskas, Edgaras Timinskas, P.L. Ng, Aleksandr Sokolov..... 500

Design of freeform gridshell structures – Simplifying the parametric workflow

Steinar Hillersøy Dyvik, Marcin Luczkowski, John Haddal Mork, Anders Nils Rønquist, Bendik Manum..... 507

Detection of Sparse Damages in Structures

Natalia Sabourova, Niklas Grip, Ulf Ohlsson, Lennart Elfgren, Yongming Tu, Ivan Duvnjak, Domagoj Damjanović..... 515

Determining the Best Pareto-solution in a Multi-Objective Approach for Model Updating

María Infantes, Javier Naranjo-Pérez, Andrés Sáez, Javier F. Jiménez-Alonso..... 523

Developing case studies for implementing COST TU1406 Quality Control plan procedure for typical highway bridges

Amir Kedar, Sander Sein, Naida Ademovic, Panagiotis Panetsos, Pavel Ryjáček, Amos Duke, José Campos e Matos..... 531

Development of cement-based mortars for 3D printing through wet extrusion

Behzad Zahabizadeh, Vítor M.C.F. Cunha, João Pereira, Cláudia Gonçalves..... 540

Development of Fragility Curves for Multi-Span RC Bridges using Generalized Pushover Analysis

Camilo Perdomo, Ricardo Monteiro, Haluk Sucuoğlu..... 548

Different bridge maintenance strategies and life cycle costs: Comparison of costs in Croatia, Slovenia and Netherlands

Sandra Skaric Palic, Irina Stipanovic, Zaharah Allah Bukhsh, Aljosa Sajna..... 556

Digital workflows vs. spatial structures design

Marcin Luczkowski, Steinar Hillersøy Dyvik, John Haddal Mork, Anders Nils Rønquist..... 563

Discrete-continuum approach to assess 3D failure modes of masonry arch bridges

Bora Pulatsu, Ece Erdogmus, Paulo B. Lourenço..... 570

Displacements Needed for collapse in Masonry Arches

Joaquín Antuña, José Ignacio Hernando, Fernando Magdalena, Antonio Aznar..... 579

Duplex stainless steel in infrastructure: applications, challenges and opportunities

Nancy Baddoo..... 587

Duplex Stainless Steels as a Structural Material for Long Life Bridge Construction

Sukanya Hägg Mameng, Andrew Backhouse, Jonathan McCray, Graham Gedge, Ronny Södergren... 595

<i>Durability of GFRP Bars with Different Bar Diameters</i> Mona L. Keller, Matthias Pahn.....	603
<i>Durability of glass FRP reinforcing bars: a state of the art</i> Tommaso D’Antino, Marco A. Pisani.....	611
<i>Dynamic identification and collapse assessment of Rubbianello Bridge</i> Laura Ragni, Fabrizio Scozzese, Fabrizio Gara, Enrico Tubaldi.....	619

E

<i>Earthquake-induced soil liquefaction risk: macrozonation of the European territory taking into account exposure</i> Carlo G. Lai, Daniele Conca, Claudia Meisina, Roberta Boni, Francesca Bozzoni.....	627
<i>Effect of bond in the development length of CFRP pretensioned beams</i> Eleni Toumpanaki, Janet M. Lees, Giovanni P. Terrasi.....	635
<i>Effects of Median Strip Connecting Twin Bridges on Dynamic Performance</i> Haoyan Wu, Ye Xia, Xin Yi, Pingkuan Sun.....	643
<i>Electrical Resistivity Of Sustainable Fiber Reinforced Concretes For Smart Marine Structures</i> Isabel Pereira, Eduardo B. Pereira, Tiago Miranda.....	649
<i>Evaluating Existing Structures due to Adjacent Construction</i> Jenna R. Halpern, James W. Feuerborn Jr., Luciana Balsamo, Jessica McCoy, Jason Wu.....	657
<i>Evaluating the effect of climate change on snow load on structures</i> Pietro Croce, Paolo Formichi, Filippo Landi, Francesca Marsili.....	666
<i>Evaluation of the sustainability level in real estate buildings in the city of Lima, Peru</i> Marck S. Regalado E., Edward Santa María D.	674
<i>Experimental evidences of the effectiveness of some liquefaction mitigation measures</i> Emilio Bilotta, Anna Chiaradonna, Gianluca Fasano, Alessandro Flora, Lucia Mele, Valeria Nappa, Stefania Lirer, Vincenzo Fioravante.....	682
<i>Experimental study of deformations and vibrations of beams using Unmanned Aerial Vehicles</i> Efsthios Polydorou, Des Robinson, Su Taylor, Patrick McGetrick.....	690
<i>Experimental validation of the FE model for dynamic analysis of a composite railway viaduct’s deck slab</i> Joel Malveiro, Carlos Sousa, Rui Calçada, Diogo Ribeiro.....	697
<i>Extending Service Life Expectation by Restoration and Strengthening Concrete Structure of Åland Maritime Museum in Finland</i> Kari C. Avellan, Erika Belopotocanova.....	705

F

<i>Fatigue accumulation comparison of simulated traffic flow and design loads</i> Torsten Lunabba, Milla Ranta, Kimmo Julku, Heikki Lilja.....	713
<i>Final overview of COST Action TU1406 – Quality Control of Existing Bridges</i> José Campos e Matos, Joan R. Casas, Sérgio Fernandes.....	721

<i>Finansparken Bjergsted: an innovative timber-framed office building</i> Mario Rando, Gaute Mo, Katie Overton, Fernando Ibáñez, Manuel Sánchez-Solís.....	729
<i>Finding the link between visual inspection and key performance indicators for road bridges</i> Ana Mandić Ivanković, Marija Kušter Marić, Dominik Skokandić, Ela Njirić, Josipa Šiljeg.....	737
<i>Finite Element Model Updating of a Grandstand as Basis to Assess its Vibration Serviceability Limit State</i> Javier Naranjo-Pérez, Andrés Sáez, Javier F. Jiménez-Alonso, Nicolás González-Gómez, Felipe García-Sánchez.....	745
<i>Finite Element Modelling of FRP-Strengthened Structural Elements</i> Todor Zhelyazov.....	752
<i>Fire Tests on the Pre-cast Concrete Sandwich Walls with GFRP Connectors</i> Marcin M. Haffke, Matthias Pahn, Catherina Thiele.....	759
<i>Forced Time-transient Response Analysis of Acoustic Emission Signals in Bridge Cables Based on Semi-Analytic Finite Element Method</i> Keyang Wan, Limin Sun, Yaohua Yang.....	767
<i>Forensic Engineering: Risks of Performance-Based Engineering for Sustainability or Resilience</i> Joshua B. Kardon.....	775
<i>Framework for the Management of a Large Stock of Earth Retaining Structures</i> João Amado, Luís Freire, Filipe Amarante dos Santos.....	780
<i>Functionally graded concrete elements composed of vertical layers of different mixes</i> Giacomo Torelli, Janet M. Lees.....	788

G

<i>General approach to safety and risk management in bridge construction</i> José Soares, Pedro Pacheco , Hugo Coelho, André Resende, Diogo Carvalho, Alberto Torres.....	794
<i>Geometrical Characterization of Yucatan Churches</i> Isis Perez, Graça Vasconcelos, Paulo B. Lourenço.....	802
<i>Guidelines and codes for liquefaction mitigation by ground improvement</i> Giuseppe Modoni, Paolo Croce, Roberta Proia, Rose Line Spacagna.....	810
<i>Guidelines and Recommendations from COST TU 1406</i> Helmut Wenzel, Vikram Pakrashi.....	818

I

<i>Impact propagation effects along reinforced concrete beams</i> Gonzalo S.D. de Ulzurrun, Carlos Zanuy, Morgan Johansson, Rasmus Rempling.....	825
<i>Implementation of COST Action TU1406 Quality Control framework as a part of Bridge Management System in Saint Lucia</i> Sander Sein, Konsta Mikael Sirvio.....	833

<i>Incorporating Flexibility in Life-cycle Analysis of Infrastructure</i> Samuel Torres Rincón, Mauricio Sánchez Silva, Daniel F. Villarraga.....	841
<i>Increase of the working life of expansion joints thanks to the use of innovative solutions</i> Luca Paroli, Mauricio Chivante.....	849
<i>infFaros – Road Infrastructure Management System for Research and Practice</i> Rade Hajdin, Frank Schiffmann.....	853
<i>Influence of elevated temperatures on the bond behaviour of GFRP bars to concrete – pull-out tests</i> Inês C. Rosa, João P. Firmo, João. R. Correia, P. Mazzuca.....	861
<i>Influence of local scour at multiple piers on the vibration characteristics of a bridge under seismic excitation</i> Andrej Anžlin, Luke J. Prendergast.....	869
<i>Influence of shear modulus and drift capacity on non-linear static analysis of masonry buildings</i> Maria Luisa Beconcini, Paolo Cioni, Pietro Croce, Paolo Formichi, Filippo Landi, Caterina Mochi.....	876
<i>Influence of the local bond stress distribution of FRP rebars on the anchorage in concrete</i> Christian Caspari, Matthias Pahn.....	884
<i>Infraestruturas de Portugal experience on developing a Strategic Asset Management Plan</i> Maria Manuel Pinheiro.....	891
<i>Infrastructure Public Private Partnership Implementation and Risk Management – Lessons from Albanian Approach</i> Julinda Keçi.....	900
<i>Innovative construction methods of Osmangazi Bridge</i> Fatih Zeybek.....	912
<i>Innovative green roof with high water retention and durability</i> Thomas Cornelius Buch-Hanser, Guangli Du, David John Duffus.....	919
<i>In-Plane Seismic Performance of Plain and TRM-Strengthened Rammed Earth Components</i> Reza Allahvirdizadeh, Daniel V. Oliveira, Rui A. Silva.....	924
<i>Inspection and Short, Medium and Long-Term Monitoring of a Historic Brazilian Bridge</i> Alberto B. Colombo, Ronaldo Freitas, Alfredo P. C. Neto, Rafael P. Hune, Túlio N. Bittencourt.....	932
<i>Inspection of Existing Bridges – Moving on from condition rating</i> Rade Hajdin, Joan R Casas, José Campos e Matos.....	940
<i>Intelligent, sustainable and integrated system of management of structures</i> Miquel Morata Royes, Livia Garcia Gil, Alejandro Pérez Caldentey, Javier Gimenez Vila, Abel Capelastegui Lasso, Óscar Muñoz Navascues.....	948

J

<i>Judgement methods of fire resistance time of hybrid reinforced concrete beams</i> Jingbo Tian, Wenjun Qu.....	955
---	-----

K

<i>Key aspects of digital image correlation in impact tests of reinforced concrete beams</i> Morgan Johansson, Rasmus Rempling, Gonzalo S.D. de Ulzurrun, Carlos Zanuy.....	961
--	-----

L

<i>Lateral test on a two-story CLT House</i> Jorge M. Branco, Filipe T. Matos, Paulo B. Lourenço, Thomas Demschner, Patrício Rocha.....	969
<i>Life Cycle Cost Analysis of Two Structural Systems for Buildings</i> Hongyang Wang, Guangli Du, Hetao Hou, Thomas Cornelius Buch-Hansen, Chenglei Wang.....	978
<i>Life cycle costs. The importance of the users' costs</i> José C. Almeida, Jorge de Brito, Paulo Cruz.....	986
<i>Lifecycle Quality Control of New Locks in a Public Private Partnership setup</i> Paul Zanen, Thijs Lambert.....	994
<i>Loko Oweto Bridges on the Benue River, Nigeria</i> Micha B. Petri.....	999
<i>Long-term structural and durability performances of reinforced concrete elements strengthened in flexure with CFRP laminates: a research project</i> José Sena-Cruz, José Ricardo Cruz, Luís Correia, Susana Cabral-Fonseca, Julien Michels, Christoph Czaderski.....	1006

M

<i>Maintenance Management of Railway Bridges and Tunnels</i> Ana Isabel Silva.....	1015
<i>Management of risk of exceeding design loads for reinforced concrete highway bridges</i> Alexander I. Vasilyev.....	1020
<i>Measurement errors in vision based displacement monitoring of masonry bridges</i> Sinan Acikgoz, Matthew J. DeJong, Kenichi Soga.....	1026
<i>Method for sustainable large-scale bridges survey</i> Alessandro Pucci, Hélder S. Sousa, Mario Lucio Puppino, Linda Giresini, José Campos e Matos, Mauro Sassu	1034
<i>Minimisation of maintenance-related disruption to bridge serviceability by the use of the right key structural components</i> Carlos Mendez-Galindo, Niculin Meng, Colm O'Suilleabhain.....	1042
<i>Mode Specific Evacuation Planning in Infrastructure Risk Management</i> Ben Rutten, Stefan Bollars.....	1050
<i>Modelling the Construction of Cable Stayed Bridges Stressed with the Strand by Strand Technique</i> Jose A. Lozano-Galant, Jose Turmo.....	1058
<i>Modelling the temperature effects at the interface between GFRP bar and concrete</i> Ana Veljkovic, Valter Carvelli, Sandor Solyom, György L. Balázs, Mohammadali Rezazadeh.....	1065

<i>Models for Evaluating Shear Strength on Members with Circular Cross Section</i> Jose Turmo, Gonzalo Ramos, Ángel C. Aparicio.....	1073
<i>Monitoring of pedestrian patterns of an office floor under normal walking activity</i> Zandy O. Muhammad, Paul Reynolds.....	1079
<i>Multi-criteria decision analysis methods to support sustainable infrastructure construction</i> Kristine Ek, Alexandre Mathern, Rasmus Rempling, Lars Rosén, Christina Claeson-Jonsson, Petra Brinkhoff, Malin Norin.....	1084
<i>Multi-fidelity modelling for structural identification</i> Sai G.S. Pai, Ian F.C. Smith.....	1092
<i>Multi-level Classification of Bridge Defects in Asset Management</i> Jan Bień, Małgorzata Gładysz-Bień.....	1100

N

<i>Necessity and Invention: Leveraging a Megaproject to Advance the use of Computational Design</i> Zak Kostura, Matthew C.J. Clark, James R. Olson.....	1108
<i>New launching method of composite steel-concrete decks for replacing two bridges in Luxembourg</i> José J. Oliveira Pedro, Arnaud Salmon.....	1116
<i>New Specific Approaches In Romania Regarding The Code For Historic Building Structures With Respect To Multiple Hazard And Fracturing Theories</i> Mircea Mironescu, Adrian M. Stanescu, Teodor Brotea, Radu F. Comanescu, Daniel D. Purdea, Mircea V. Stanescu.....	1124
<i>Non-destructive testing in civil engineering: A valuable source of information for reliability assessments</i> Stefan Küttenbaum , Stefan Maack, Alexander Taffe, Thomas Braml.....	1132
<i>Nonlinear Static Analysis by Finite Elements of a Fujian Hakka Tulou</i> Bruno Briseghella, Valeria Colasanti, Luigi Fenu , Camillo Nuti, Enrico Spacone, Humberto Varum.....	1140
<i>Numerical analysis of techniques to extract bridge dynamic features from short records of acceleration</i> Arturo González, Kun Feng, Miguel Casero.....	1148
<i>Numerical assessment of shear connection for steel and concrete composite floors</i> Talita L. Silva, Isabel B. Valente.....	1156
<i>Numerical modeling of a resilient hinge (RH) for accelerated bridge constructions</i> Konstantinos Katakalos, Panagiota Kagioglou, Stergios Mitoulis.....	1164

O

<i>On the Advantages in Sustainability of Structural Concrete Bubbled Deck Slabs</i> Nazar Oukaili, Hammad Merie.....	1173
<i>Operation and maintenance of Osmangazi Bridge</i> Fatih Zeybek	1181

<i>Optical methods and wireless sensors for monitoring of bridges</i> Cosmin Popescu, Björn Täljsten, Thomas Blanksvärd, Gabriel Sas, Alexander Jimenez, David Crabtree Gärdin, Lennart Elfgrén, Anders Carolin.....	1191
<i>Optimum Design of Long-Span Cable-Supported Bridges Using Robustness Index</i> Mohammad Shoghijavan, Uwe Starossek.....	1199
<i>Osmangazi Bridge Structural Health Monitoring System</i> Fatih Zeybek.....	1207
<i>Overview of AASHTO Design Specifications for GFRP-RC Bridges 2nd Edition: Toledo Bridge as Case Study</i> Marco Rossini, Antonio Nanni, Fabio Matta, Steven Nolan, William Potter, Derek Hess.....	1214
<i>Overview on performance predictive models – Application to Bridge Management Systems</i> Monica Santamaria, João Fernandes, José Campos e Matos.....	1222

P

<i>Performance indicators for cost-benefit analysis applied to investment projects</i> Filipa Salvado, Maria João Falcão Silva, Paula Couto, Manuel Baião.....	1230
<i>Performance-based assessment of Nahr Al-Fidar bridge</i> Nisrine Makhoul.....	1237
<i>Portal and cantilever sign/signal gantries – Inspection and retrofitting</i> Tiago Mendonça, Vítor Brito, Manuel Almeida.....	1243
<i>Prediction of chloride profiles and discussion of time variant alterations</i> Fritz Binder.....	1250
<i>Probabilistic Design for Deteriorating Reinforced Concrete Structures with Time-Variant Finite Element Analysis</i> Tsuyoshi Kouta, Christian Bucher.....	1261
<i>Probabilistic Finite Element Model Updating of Civil Engineering Structures: A Comparative Study</i> Javier F. Jiménez Alonso, Emma J. Hudson, Aleksandar Pavic, Andrés Sáez.....	1269
<i>Protection Coating of Metal Bridges</i> Hugo S. Fernandes.....	1277
<i>Pull-Out Capacity of GFRP Connectors in the Edge Area of Precast Concrete Sandwich Walls</i> Stefan Carstens, Matthias Pahn.....	1282

Q

<i>Quality control index survey for railway bridge health monitoring</i> Sadegh Lajevardi, José Campos e Matos, Paulo B. Lourenço.....	1289
<i>Quality control plan for road bridges – overview of COST Action TU1406 WG3 final report</i> Matej Kušar, Poul Linneberg, João Amado, Snežana Mašović, Nikola Tanasić, Rade Hajdin.....	1298
<i>Quality specifications and performance indicators for road bridges in Europe</i> Alfred Strauss, José Campos e Matos, Joan R. Casas, Sérgio Fernandes.....	1306

<i>Quantifying the Value of B-WIM: Assessing costs and benefits for Value of Information Analysis</i> Dominik Skokandić, Ana Mandić Ivanković, Aleš Žnidarič, Sebastian Thöns.....	1314
---	------

R

<i>Railway Track Asset Management, from long-term vision to completion</i> Andreia Grossinho	1322
<i>Rate-Dependency Study of Reinforced Concrete Piers with Cyclic Loading Tests, Hybrid Simulations, and Shake Table Testing</i> Minseok Park, Chul-Young Kim, Sunah Choi, Yunbyeong Chae.....	1330
<i>Reconstruction of Wangduephodrang Dzong, Bhutan – protecting the heritage and improving earthquake resilience</i> Andreas Galmarini, Nagtsho Dorji.....	1338
<i>Reliability analysis of carbonation for recycled aggregate concretes</i> Flora Faleschini, Mariano Angelo Zanini, Lorenzo Hofer.....	1346
<i>Reliability Evaluation of Structural Safety Factor Using a Global Resistance Approach</i> Sergio Hampshire de C. Santos, Marcio Tacques R. Monteiro Junior, Luiz Fernando Martha, Claudia Interlandi.....	1354
<i>Reliability of a Bridge Subjected a Multi-Hazard: Scour and Earthquakes</i> Berenice A. Olvera Ramírez, Bertha Olmos, José Manuel Jara.....	1362
<i>Research on cable safety based on monitoring data and time-dependent reliability</i> Ning Hou, Limin Sun.....	1370
<i>Resilient System for a Conditioned Predictive Maintenance of Railway Infrastructure</i> Gisela Soley, Miquel Morata Royes, Nahuel Manzo, Valentí Fontserè, Joan Peset.....	1378
<i>Retrofitted corrosion monitoring in cracked concrete of infrastructure buildings</i> Florian Hiemer, Sylvia Keßler, Christoph Gehlen.....	1386
<i>Ribbed iron-based shape memory alloy bars for pre-stressed strengthening applications</i> Bernhard Schranz, Christoph Czaderski, Moslem Shahverdi, Julien Michels, Thomas Vogel, Masoud Motavalli.....	1394
<i>Risk Acceptance Criteria for Extreme fjord Crossings</i> Inger Lise Johansen, Tore Askeland.....	1402
<i>Risk and reliability based design – practical examples and challenges for standardisation</i> Jochen Köhler.....	1410
<i>Risk based approach in maintenance planning in the context of road and railway infrastructure</i> Hugo Patricio.....	1418
<i>Risk Identification and Remedials for Concrete Bridges and Buildings</i> Jonathan G M Wood.....	1428
<i>Roadway Deck of a Marine Terminal Facility in Egypt</i> José J. Oliveira Pedro, José Dâmaso, Loïc Van Durmen, Hubert Vander Meulen.....	1436
<i>Robustness: a practitioner's perspective</i> Peter Tanner, Ramon Hingorani.....	1444

<i>Role of Maintenance in Reducing Building Vulnerability to Extreme Events</i> Lam Pham, Ekambaram Palaneeswaran, Rodney Stewart.....	1452
---	------

S

<i>São Vicente Suspension Bridge Rehabilitation and Cable Substitution</i> Rafael Timerman, Francisco Prieto Aguilera.....	1458
<i>Segmented footbridge made of UHPFRC</i> Petr Tej, Jan Mourek, Marek Blank, Petr Kněž.....	1465
<i>Seismic fragility assessment of RC high-rise buildings in Montenegro</i> Jelena R. Pejovic, Nina N. Serdar, Radenko Pejovic, Milos Knezevic, Meri Cvetkovska.....	1472
<i>Seismic risk assessment of an old RC frame-wall building in Lisbon</i> Claudia Caruso, Rita Bento, José Miguel Castro.....	1480
<i>Seismic risk assessment of RC curved bridges through fragility curves</i> Nina N. Serdar, Jelena R. Pejovic, Radenko Pejovic, Milos Knezevic.....	1488
<i>Seismic vulnerability assessment of masonry buildings through BIM</i> Elisa Ambrassa, Alice Comune, Stefano Podestà, Lorenzo Diana, Pierino Lestuzzi.....	1496
<i>Seismic Vulnerability Assessment of Multi Span Reinforced Concrete Bridges in Republic of Macedonia</i> Marija Vitanova, Viktor Hristovski, Elena Dumova Jovanovska.....	1504
<i>SHM system vs. FEM model – comparison between measured and calculated data of a cable-stayed bridge</i> Jan Biliszcuk, Paweł Hawryszków, Marco Teichgraeber.....	1512
<i>SSS.infra Guideline: a new quantitative tool for the performance assessment of civil infrastructure</i> Elnaz Anvari, Lorenzo Leardini, Matteo Cont.....	1520
<i>Strengthening of steel beams using iron-based shape memory alloy (Fe-SMA) strips</i> Mohammadreza Izadi, Elyas Ghafoori, Ardalan Hosseini, Julien Michels, Masoud Motavalli.....	1528
<i>Structural analysis of a stone arch bridge under incremental railway static loadings</i> Rúben Silva, Cristina Costa, António Arêde, Rui Calçada, Daniel V. Oliveira.....	1536
<i>Structural assessment of masonry arch bridges with settled supports</i> Paolo Zampieri, Mariano Angelo Zanini, Flora Faleschini, Lorenzo Hofer, Nicolò Simoncello, Carlo Pellegrino.....	1544
<i>Structural Health Monitoring for cultural heritage constructions: a resilience perspective</i> Maria Pina Limongelli, Zehra Irem Turksezer, Pier Francesco Giordano.....	1552
<i>Structural Health Monitoring of a masonry viaduct with Fibre Bragg Grating sensors</i> Haris Alexakis, Andrea Franza, Sinan Acikgoz, Matthew J. DeJong.....	1560
<i>Structural Impacts of Nonconformity of Concrete in a Multi-Storey Building</i> Bruno Favoretto Silva, Carlos Abdalla Name.....	1568
<i>Structural performance of the church of São Miguel de Refojos</i> Rafael Ramirez, Nuno Mendes, Paulo B. Lourenço.....	1576

<i>Structural Restoration and Reinforcement of Desengano Bridge</i> Ricardo Valeriano Alves, Mayra Soares Pereira Lima Perlingeiro, Flávia Moll de Souza Judice.....	1584
<i>Suitable degree of crudeness in engineering practice</i> Ivar Björnsson, Oskar Larsson Ivanov, Dániel Honfi, Henrik Gabriellsson, Martin Fröderberg, Thomas Lechner.....	1592
<i>Sustainability assessment of maintenance based on concrete – a systematic review</i> Maria Vogel, Edeltraud Guenther.....	1600

T

<i>Technological developments as an answer to bridge management challenges</i> André Orcesi, Bruno Godart, Laurent Gaillet, Franziska Schmidt, Nicolas Bardou, Maria Pina Limongelli, Pierre Carreaud, François Lenoir, François Gérard BARON.....	1611
<i>Testing Existing Structures – Compressive Strength and Tensile Splitting Strength of the Lahntal Bridge Limburg</i> Daniel Gebauer, Steffen Marx, Gregor Schacht.....	1619
<i>Testing of key bridge components to ensure good life-cycle performance</i> Carlos Mendez-Galindo, Niculin Meng, Colm O’Suilleabhain.....	1628
<i>The ‘Eco-Shed’: An example of a domestic scale building constructed using the principals of the circular economy.</i> Stephen J. Farrar.....	1636
<i>The Development of Multi-Asset Performance Indicators for the Management of the Portuguese Road and Rail Networks</i> João Morgado, João Amado, Nuno Carlos, Maria Pinheiro.....	1643
<i>The diagnostic techniques for the assessment of the historical steel bridges</i> Pavel Ryjáček.....	1651
<i>The effect of loading direction on the compressive behaviour of a 3D printed cement-based material</i> Behzad Zahabizadeh, Vítor M.C.F. Cunha, João Pereira, Cláudia Gonçalves.....	1658
<i>The evolution of the profile of bank branches infrastructure in four districts of the city of São Paulo</i> Mariana A. Oneto, André Luiz G. Scabbia.....	1666
<i>The future of BIM and Bridge Management Systems</i> Dušan Isailović, Marija Petronijević, Rade Hajdin.....	1673
<i>The LRG Software for liquefaction mitigation planning and decision support</i> Abdelghani Meslem, Håvard Iversen, Dominik Lang, Tina Kaschwich, Linn Sir Drange, Keith Jones.....	1681
<i>The new French interactive Guide for Investigations on Structures</i> Bruno Godart, Christophe Aubagnac.....	1688
<i>The RISCO system: constructability appraisal through the identification and assessment of technical project risks sources</i> Dimosthenis Kifokeris, Yiannis Xenidis.....	1696
<i>Toolkit for resilience assessment of critical infrastructures to earthquake induced soil liquefaction disasters</i> Mariantonietta Morga, Keith Jones.....	1704

<i>Torsional strengthening of thin-walled tubular reinforced concrete structures using NSM-CFRP laminates: Experimental work</i>	
Chandan C. Gowda, Joaquim A. O. Barros, Maurizio Guadagnini.....	1712
<i>Toward the development of standardized procedures for structural health monitoring</i>	
Maria Pina Limongelli.....	1720
<i>Towards a Code of Practice for the use of bio-based materials in construction</i>	
Stephen J. Farrar.....	1728
<i>Towards an assessment tool of anobiid damage of pine timber structures</i>	
Lina Nunes, João L. Parracha, Paulina Faria, Pedro Palma, António Maurício, Manuel F. C. Pereira.....	1734
<i>Traditional techniques on masonry buildings that improve performance under seismic risk</i>	
Jorge Mascarenhas, Lurdes Belgas, Fernando G. Branco.....	1742
<i>Transport Infrastructures and Asset Management in Portugal: Past, Present and Future</i>	
Sérgio Costa, Vítor Brito, Tiago Mendonça.....	1750

U

<i>Uncertainty in condition prediction of bridges based on assessment method – case study in Estonia.</i>	
Sander Sein, Juhan Idnurm, José Campos e Matos.....	1758
<i>Uncertainty sources in the structural assessment of masonry arch bridges: a case study of a single-span stone arch bridge</i>	
Borja Conde, Belen Riveiro, Manuel Cabaleiro, Jose Carlos Caamaño, Georgios E. Stavroulakis.....	1766
<i>Use of BIM in rehabilitation and assessment of the built heritage: from the visible to the intangible</i>	
Hélder S. Sousa, Carmen Sguazzo, Manuel Cabaleiro.....	1773
<i>Using a fully autonomous MSS to build the two largest High-Speed Railway arch bridges</i>	
António Póvoas, Joana Delgado.....	1781
<i>Using data interpretation to enhance post-seismic decision making at urban scale</i>	
Yves Reuland, Lorenzo Diana, Pierino Lestuzzi, Ian F.C. Smith.....	1789

V

<i>Value of Information in Resilience Management of Infrastructure Systems</i>	
Jianjun Qin, Michael Havbro Faber, Min Liu, Weiheng Zhang, Dagang Lu.....	1797
<i>Value of Information-Based Inspection Planning using a Population Approach</i>	
Markus R. Dann, Marc A. Maes.....	1808
<i>Value of site-specific information for the design of offshore wind farms</i>	
Jorge Mendoza Espinosa, Jochen Köhler.....	1816

N°

3D Discrete Macro-Modelling Approach for Masonry Arch Bridges

Salvatore Caddemi, Ivo Caliò, Francesco Cannizzaro, Domenico D'Urso, Bartolomeo Pantò, Davide Rapicavoli, Giuseppe Occhipinti..... 1825

3-D-Printing with Steel: Additive Manufacturing of Connection Elements and Beam Reinforcements

Jörg Lange, Thilo Feucht..... 1836
