

PROCEEDINGS OF SPIE

Vertical-Cavity Surface-Emitting Lasers XXIII

Kent D. Choquette
Luke A. Graham
Editors

6–7 February 2019
San Francisco, California, United States

Sponsored and Published by
SPIE

Volume 10938

Proceedings of SPIE 0277-786X, V. 10938

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Vertical-Cavity Surface-Emitting Lasers XXIII*, edited by Kent D. Choquette, Luke A. Graham, Proceedings of SPIE Vol. 10938 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

SESSION 1 VCSEL MODULATION

10938 02	VCSEL modulation speed: status and prospects (Invited Paper) [10938-1]
10938 03	VCSELS and 100G links (Invited Paper) [10938-2]
10938 04	Bandwidth and optical output power of VCSELS and VCSEL arrays [10938-3]
10938 06	The influences of ethernet standards on VCSEL technology (Invited Paper) [10938-5]
10938 09	Watt-class high-power and high-beam-quality VCSEL amplifiers [10938-8]

SESSION 2 NOVEL VCSEL STRUCTURES

10938 0A	Optically pumped vertical-cavity surface-emitting lasers at 375 nm with air-gap/$\text{Al}_{0.05}\text{Ga}_{0.95}\text{N}$ distributed Bragg reflectors [10938-9]
----------	---

SESSION 3 COMMERCIAL VCSELS

10938 0C	Temperature characteristics of all monolithically integrated self-scanning VCSEL array [10938-11]
10938 0D	VCSEL arrays for quasi-continuous-wave applications [10938-12]
10938 0E	VCSELS in short-pulse operation for time-of-flight applications [10938-13]
10938 0F	High-power VCSEL arrays with customized beam divergence for 3D-sensing applications [10938-14]
10938 0G	Tunable vertical-cavity surface-emitting lasers as a light source for diffuse optical spectroscopy [10938-15]

SESSION 4 VCSELS FOR APPLICATIONS

10938 0J **Energy efficient 850-nm VCSEL based optical transmitter and receiver link capable of 56 Gbit/s NRZ operation** [10938-18]

SESSION 5 VCSEL PERFORMANCE ANALYSIS

10938 0N **Comprehensive self-consistent analysis of oxide-confined vertical-cavity surface-emitting lasers** [10938-22]
