|                                                                                                                                                  |            |
|--------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>WOLLONGONG UNIVERSITY LABORATORY MICROGRID: A DESIGN FOR FLEXIBILITY .....</b>                                                                | <b>1</b>   |
| <i>Craig Mclauchlan ; Jason David ; Duane Robinson ; Sean Elphick ; Jonathan Knott</i>                                                           |            |
| <b>A NEW TECHNOLOGY TO REDUCE HARMONIC EMISSION IN DISTRIBUTION NETWORKS: ADDRESSING IEC 61000-3-12.....</b>                                     | <b>7</b>   |
| <i>Abdulrahman Alduraibi ; Jalil Yaghoobi ; Firuz Zare ; Rahul Sharma</i>                                                                        |            |
| <b>ANN CONTROL FOR DAMPING LOW-FREQUENCY OSCILLATION USING DEEP LEARNING.....</b>                                                                | <b>13</b>  |
| <i>Seong-Su Jhang ; Heung-Jae Lee ; Cha-Nyeon Kim ; Chan-Ho Song ; Won-Kun Yu</i>                                                                |            |
| <b>SENSITIVITY OF HOSTING CAPACITY TO DATA RESOLUTION AND UNCERTAINTY MODELING .....</b>                                                         | <b>17</b>  |
| <i>Mohammad Seydali Seyf Abad ; Jin Ma ; Diwei Zhang ; Ahmad Shabir Ahmadyar ; Hesamoddin Marzooghi</i>                                          |            |
| <b>ARTIFICIAL NEURAL NETWORK TECHNIQUES APPLY FOR FAULT DETECTING AND LOCATING IN OVERHEAD POWER TRANSMISSION LINE .....</b>                     | <b>23</b>  |
| <i>Patrick S. Pouabe Eboule ; Jan Harm C Pretorius ; Nhlanhla Mbuli</i>                                                                          |            |
| <b>A PRACTICAL METHOD TO IDENTIFY CONTRIBUTIONS OF HARMONICS IN POWER SYSTEMS .....</b>                                                          | <b>29</b>  |
| <i>A.S. De Beer ; S. Kasemuana ; J.H.C. Pretorius</i>                                                                                            |            |
| <b>SHORT-TERM ELECTRIC LOAD FORECASTING IN MICROGRIDS: ISSUES AND CHALLENGES .....</b>                                                           | <b>33</b>  |
| <i>H. Marzooghi ; K. Emami ; P. J. Wolfs ; B. Holcombe</i>                                                                                       |            |
| <b>INVESTIGATING THE FACTORS AFFECTING STATE ESTIMATION OF EMERGING DISTRIBUTION GRIDS .....</b>                                                 | <b>39</b>  |
| <i>Sudarshan Dahal ; Sumit Paudyal ; Jingyuan Wang</i>                                                                                           |            |
| <b>ADVANCED SIMULATION METHOD FOR EVALUATION OF INTERRUPTED ENERGY ASSESSMENT RATES IN DISTRIBUTION SYSTEMS.....</b>                             | <b>44</b>  |
| <i>A. S. Nazmul Huda ; Rastko Živanovic</i>                                                                                                      |            |
| <b>DIRECT DESIGN APPROACH FOR VIRTUAL OSCILLATOR CONTROL SYNCHRONISATION CONDITION &amp; PARAMETER SELECTION USING DESCRIBING FUNCTIONS.....</b> | <b>50</b>  |
| <i>Robert P. P. Mckone ; Peter J. Wolfs ; Edward Palmer</i>                                                                                      |            |
| <b>BI-DIRECTIONAL TRIAC FAULT-PROTECTION TECHNIQUE FOR Z-SOURCE HALF-BRIDGE CONVERTER-FED AC MOTOR DRIVES .....</b>                              | <b>56</b>  |
| <i>Vivek Sharma ; M. J. Hossain ; S. M. Nawazish Ali ; Muhammad Kashif</i>                                                                       |            |
| <b>A VRC H8 DESIGN FOR DYNAMIC THERMAL DERATING OF INDUCTION MACHINES.....</b>                                                                   | <b>62</b>  |
| <i>S.M. Nawazish Ali ; M. J. Hossain ; Athar Hanif ; Vivek Sharma ; Muhammad Kashif</i>                                                          |            |
| <b>CURRENT HARMONIC ESTIMATION TECHNIQUES BASED ON VOLTAGE MEASUREMENTS IN DISTRIBUTION NETWORKS .....</b>                                       | <b>68</b>  |
| <i>Jalil Yaghoobi ; Abdulrahman Alduraibi ; Firuz Zare</i>                                                                                       |            |
| <b>OPTIMAL UTILIZATION OF RENEWABLE POWER PRODUCTION BY SHARING POWER AMONG COMMERCIAL BUILDINGS: CASE STUDY OF GRIFFITH UNIVERSITY .....</b>    | <b>74</b>  |
| <i>U. Amin ; M. J. Hossain ; J. Lu ; Edstan Fernandez</i>                                                                                        |            |
| <b>DESIGN OF STAND ALONE PHOTOVOLTAIC SYSTEM IN DEVELOPING COUNTRIES: A CASE STUDY OF KANO, NIGERIA .....</b>                                    | <b>80</b>  |
| <i>Collins Egbon ; Abigail Oyekola ; Tek-Tjing Lie</i>                                                                                           |            |
| <b>DROOP CONTROL BASED STRATEGY FOR PHOTOVOLTAIC SOURCES IN AN ISLANDED MICROGRID .....</b>                                                      | <b>86</b>  |
| <i>Jiahui Jiang ; Colin Coates</i>                                                                                                               |            |
| <b>BIDDING STRATEGY OF VIRTUAL POWER PLANT CONSIDERING MULTI-ENERGY STORAGE AND CSD .....</b>                                                    | <b>92</b>  |
| <i>He Shaowen ; Wei Xingchen ; Chen Qiuyue ; Yang Dechang</i>                                                                                    |            |
| <b>TWO-STAGE STATE ESTIMATION ALGORITHM FOR DISTRIBUTION NETWORK ANALYSIS.....</b>                                                               | <b>98</b>  |
| <i>Jiaojiao Dong ; Lin Zhu ; Yilu Liu ; D. Tom Rizy ; Fei Fred Wang ; Leon M. Tolbert ; Jim Glass</i>                                            |            |
| <b>RELATIVE INFLUENCE OF ROD SPACING AND LENGTH ON THE THERMAL AND RESISTANCE PROPERTIES OF CONTINUOUSLY LOADED EARTHING ELECTRODES .....</b>    | <b>104</b> |
| <i>Nusra Noorudheen ; Peter Wolfs</i>                                                                                                            |            |

|                                                                                                                                                                      |            |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>DETERMINATION OF HYBRID ENERGY STORAGE SYSTEM CAPACITY BASED ON EMPIRICAL MODE DECOMPOSITION FOR A HIGH PV PENETRATED STANDALONE MICROGRID .....</b>              | <b>110</b> |
| <i>H.W.D. Hettiarachchi ; Sumedha Rajakaruna ; San Shing Choi ; Arindam Ghosh</i>                                                                                    |            |
