**Volume 10985**

Proceedings of SPIE 0277-786X, V. 10985

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Window and Dome Technologies and Materials XVI*, edited by W. Howard Poisl, Proceedings of SPIE Vol. 10985 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510626355

ISBN: 9781510626362 (electronic)

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at [copyright.com](http://copyright.com). Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/19/\$18.00.

Printed in the United States of America by Curran Associates, Inc., under license from SPIE.

Publication of record for individual papers is online in the SPIE Digital Library.

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v Authors  
vii Conference Committee

---

## OPTICAL/ELECTRICAL PROPERTIES OF INFRARED WINDOW AND DOME MATERIALS

---

- 10985 02 **Measurements of weak scattering and absorption in spinel and sapphire from the near infrared to the visible** [10985-1]
- 10985 03 **Optical properties of undoped and neodymium doped polycrystalline yttrium aluminum garnet** [10985-2]
- 10985 04 **Angle dependent scatter in CVD ZnSe and single crystal CaF<sub>2</sub> from the infrared through the NIR** [10985-3]

---

## INFRARED WINDOW AND DOME TECHNOLOGY OVERVIEWS

---

- 10985 07 **Evaluation of sapphire at II-VI Optical Systems for HEL applications** [10985-7]

---

## ADVANCES IN MID-WAVELENGTH INFRARED COATING TECHNOLOGY

---

- 10985 0A **Small particle erosion of coated and uncoated electro-optical materials** [10985-10]
- 10985 0B **Sun blocking filter for satellite based laser communication terminals** [10985-11]
- 10985 0C **Advanced window coatings for drone and ground based applications** [10985-12]
- 10985 0E **Peridynamic analysis of indentation and impact of coated and uncoated electro-optical materials** [10985-14]

---

## INFRARED WINDOW AND DOME PROCESSING AND MANUFACTURING TECHNOLOGY

---

- 10985 0F **Scale up of large ALON windows** [10985-15]
- 10985 0G **Conformal ALON and spinel windows** [10985-16]

10985 0I **Challenges in size scale up of freeform polishing processes** [10985-18]

10985 0J **Recent advances in machines, software and processes for manufacturing complex optical components** [10985-19]

**POSTER SESSION**

---

10985 0K **A computer code for modeling optical properties of materials II** [10985-20]

10985 0L **Sources of variability in the sand erosion testing of electro-optical materials** [10985-21]
