SPIE

Volume 11015

Proceedings of SPIE 0277-786X, V. 11015

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Open Architecture/Open Business Model Net-Centric Systems and Defense Transformation 2019*, edited by Raja Suresh, Proceedings of SPIE Vol. 11015 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is $18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/19/$18.00.

Printed in the United States of America by Curran Associates, Inc., under license from SPIE.

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Authors*

vii *Conference Committee*

ix *Introduction*

COMMUNICATIONS AND NETWORKS

11015 04 **Fully cognitive transceiver for High Frequency (HF) applications** [11015-2]

11015 05 **Application of a military data dissemination standard in a civil context** [11015-3]

11015 06 **Modular open systems architecture for optical networks in spacecraft** [11015-4]

11015 07 **Modular communications and software-defined networks for aerospace applications** [11015-5]

11015 08 **Exploring the security and operational aspects of the 5th generation wireless communication system** [11015-6]

AUTONOMY AND UNDERSEA SYSTEMS

11015 0B **Exploring L3 unmanned maritime systems Iver UUV post-mission analysis through virtual reality** [11015-9]

11015 0D **Applications of mid-mission acoustic retasking and SITREPS aboard an underway L3 Unmanned Maritime Systems Iver UUV network** [11015-11]

OPEN ARCHITECTURE SYSTEMS

11015 0I **Designing the next generation of sensor systems using the SOSA standard (Invited Paper)** [11015-15]

11015 0K **Analog-to-digital conversion and model based engineering** [11015-17]

11015 0L **Architecting doctrinally-consistent C2 infrastructure services** [11015-18]

ISR AND SYSTEMS

11015 0N **A new approach for information dissemination in distributed JISR coalitions** [11015-20]

11015 0O **Machine understanding of domain computation for Domain-Specific System-on-Chips (DSSoC)** [11015-21]

11015 0P **Towards information extraction from ISR reports for decision support using a two-stage learning-based approach** [11015-22]

11015 0Q **Formal reporting for information exploitation and dissemination in Joint ISR** [11015-23]

SELF-ORGANIZING COLLABORATIVE ROBOTIC TEAMS: JOINT SESSION WITH CONFERENCES 11015 AND 11021

11015 0R **Controlling swarm complexity: a management by objective approach** [11015-24]

11015 0S **Cloud-based computation and networking for space** [11015-25]
