

Pipelines 2019

Planning and Design

Proceedings of Sessions of the Pipelines 2019 Conference

Nashville, Tennessee, USA
21 – 24 July 2019

Editors:

Jeffrey W. Heidrick
Mark S. Mihm

ISBN: 978-1-5108-8983-5

Printed from e-media with permission by:

Contents

Asset Management

Shifting to a Monetized Quantitative Approach for Risk Analysis Using Property Damages.....	1
Amin Ganjidoost, Karl Ivan San Luis, and Craig Daly	

State Required Water Asset Management Plans: Lessons Learned from Hundreds of AMPs from Michigan	8
Gregory M. Baird and David Cox	

Design-Build Case Studies

A New Regional Wastewater System: 16 Communities, \$325M, and 90 Miles of Forcemain.....	19
Stephan Weninger and Pervez Sunderani	

Nashville’s Largest Water Line Project from Concept to Service in 24 Months.....	29
Cyrus Toosi, Jeff Seal, and J. Dale Mosley	

Pipe Manufacturers’ Role in Design/Build Pipeline Projects	40
Henry H. Bardakjian	

Sanitary Conveyance and Treatment Improvements—Western Regional: Progressive Design-Build Project	49
Renee Miller, Galen Mahoney, Clint Wilson, and Larry Gaddis	

Large Diameter Design

Challenging 72-Inch Dual Pipe Relocations through Nob Hill for San Diego County Water Authority.....	58
Brent J. Fountain and Robert J. Card	

Condition Assessment of Two 21-Ft Diameter Flexible Steel Pipelines: A Case Study at the Central Arizona Project.....	69
Jim Geisbush, Jennifer Jia, Jessica Torrey, Stephanie Prochaska, and Bobbi Jo Merten	

Managing a Multitude of Large Diameter Alternative Pipeline Routes in an Urban Area.....	80
Kerilyn M. Paris, Grant A. Gartrell, Timothy D. Kuhns, Philip K. Ryan, and Jason A. Matteo	

Threading the Needle: Routing a Large Diameter Sewer Main through a Densely Urbanized Corridor	91
Rosa Valdez, David Bennett, and Jacqueline McMahon	

Pipeline Rehabilitation Design

Challenges with Designing a Potable Water Transmission Pipeline across the Navajo Reservation 101
 Hubert Quintana, Hilda Castillo Smith, and Ryan Gladden

Design of CIPP Pressure Liners Using the HDB Method 109
 Mark A. Knight, Kay Awe, Ahmed Abdel-aal, Richard Baxter, and George Bontus

Designing an Economical FRP System for Pipeline Rehabilitation 117
 V. Firat Sever and Mo Ehsani

Development of a Framework for Design and Installation of a New Lining Material for Water Pipeline Renewal..... 125
 Mohammadrza Malek Mohammadi, Homing Ni Aaron, Mohammad Najafi, Seyedmohammadsadegh Jalalediny Korkey, and Ramtin Serajiantehrani

Extending the Life of a 35-Year-Old Critical Water Supply System under Severe Time and Environmental Restrictions 135
 Andrew Beck, Elizabeth Blackwelder, Angela Pflanz, and David Burkhart

Overcoming Design and Construction Challenges in a Former Military Base..... 142
 Michael Wegley and Jonathon P. Marshall

Scarborough Trunk Watermain—Design Challenges and Pipe Material Selection..... 152
 S. Alberto, M. Muhammad, M. Neville, and T. Mahtab

That’s Confusing! Suggestions for Preparing Concise Design Guidelines for Pipeline Projects 161
 Roger Beieler

Value Engineering Advances the Booming Oil and Gas Industry 168
 Kyle Krueger, Ryan Kennerly, and John Sedbrook

Planning

20-Year Anniversary of Tucson Water’s Pipeline Protection Program (PPP)..... 175
 Britt Klein

Balancing Present and Future Needs 187
 Nathan Boyd and Thomas Dumm

Case Study: Using a Risk-Based Model to Take the Guesswork Out of Corrosion Protection 196
 Sean Lammerts

Changing Gears in the Motor City: A Case Study on Great Lakes Water Authority’s Shift to Proactive Pipe Management	207
Susan Donnally, Jody Caldwell, Todd King, and Bryon Wood	
Solaris Midstream—Development of Water Infrastructure in the Permian Basin	214
John Hall, Will Parnell, Brandon Collins, and Shawn Garcia	
Early Environmental Planning for Pipeline Projects Can Save a Lot of Green	223
Christine Ellenberger, Grant Mysterly, and Scott Trigg	
Executing an Asset Management Plan for Large Diameter PCCP	234
Erin McKenna-Streyle and Jorge Rodriguez	
Optimal Operational Control of Water Pipeline Systems Using Real-Time Scheduling Framework	243
Abdulrahman A. Bin Mahmoud and Kalyan R. Piratla	
Preparing for the Unexpected during Design and Construction	249
Sierra McCreary and Timothy Weaver	
Route Selection Based on a Weighted Ranking Analysis	258
George Triebel and Todd Crouthamel	
The Conveyance of Ideas to Facilitate Pipeline Design and Delivery	267
Matthew Alcock and Noel Guercio	
Using WIFIA Funding for High Priority Gravity Sewer Rehabilitation Projects	276
Janine M. Alexander and Robert Pelham	
What Lies beneath Riverside Drive? Evansville Water Digs for Answers	284
Duane Gilles, Wayne Lindsay, and William Barloon	
You’re Going to Put a Pipe Where? Mitigating Public Opposition through a Combined Public Outreach and Right-of-Way Approach	291
Michael D. Gossett, Alexis Woodrow, and Katie Angell	
<i>Seismic Design</i>	
Axial Connection Force Capacity Required for Buried Pipelines Subjected to Seismic Permanent Ground Displacement	299
Brad P. Wham, Craig A. Davis, and Sri Rajah	
Development of a Prescriptive Approach for Seismic Design of Water Mains	309
William F. Heubach, Mike McReynolds, and Sri Rajah	
Development of Large Diameter Earthquake Resistant Ductile Iron Pipe	319
K. Oda, R. Tanaka, and S. Kishi	

Finite Element Analysis of Steel Lap Welded Joint Behavior under Severe Seismic Loading Conditions.....325
 Gregory C. Sarvanis, Giannoula Chatzopoulou, Dimitris Fappas,
 Spyros A. Karamanos, Brent D. Keil, Richard D. Mielke, and Gregory Lucier

Innovative Solution to Large Ground Displacement Using Steel Pipe for Crossing Fault334
 H. Nakazono, N. Hasegawa, B. P. Wham, T. D. O’Rourke, and B. Blake

Soil-Pipe Interaction Characterization for Seismically-Induced Longitudinal Permanent Ground Displacements.....346
 Sri Rajah

Strain Demands on Buried Pipelines from Earthquake-Induced Ground Movements357
 Craig A. Davis, Sri Rajah, Brad P. Wham, and William F. Heubach
