Table of contents: Volume I – Full papers

How to make pre-college STEM program and industry partner relationships successful: a systematized literature review of industry mentoring.....	1
<i>Jessica Rush Leeker, Kayla Maxey, Monica Cardella and Morgan Hynes</i>	
Work-in-Progress: Engineering Students' Changing Conceptions of the Value of Creativity	10
<i>Sarah Zappe and Joseph Tise</i>	
Student Reflections on Proficiency with Learning Objectives: Early Semester Actions and Plans	18
<i>Heidi Diefes-Dux and Adam Carberry</i>	
Intent & Revision in Engineering Design	27
<i>Douglas Lecorchick, Elizabeth McEneaney, Tamecia Jones, Cansu Tatar and Cigdem Meral</i>	
Student perceptions on intrapersonal skills required for academic succes.....	37
<i>Arthur James Swart</i>	
Patterns of Monthly Student Access to Feedback by Section in a Large Course using Standards-Based Grading and Reflection	46
<i>Heidi Diefes-Dux and Laura Cruz Castro</i>	
Influence of Personal Epistemology on Research Method: Implications for Research Education	56
<i>David Walwyn</i>	
Through HER Lens: Examining How Black Women Create and Leverage Counter-Spaces in an Engineering Education Doctoral Program	64
<i>Jessica Rush Leeker, Brianna Benedict, Kayla Maxey, H. Paige Brown and Monica Cardella</i>	
Re-Thinking the Industrial Engineering Curriculum in Light of Technological Changes	73
<i>Tinashe Tendayi, Mncedisi Dewa, Mlondolozzi Gxamza and Joseph Akwunwa</i>	
Technology-Mediated Resources as a Substitute to Human Resources: Experiences of International Undergraduate Students in an Active, Blended, and Collaborative (ABC) Classroom in the USA	83
<i>Rohit Kandakatla, Edward Berger, Jeffrey F. Rhoads and Jennifer DeBoer</i>	
Using Self-determination Theory to Evaluate Faculty Professional Development Programs.....	93
<i>Camilo Vieira and Juan David Ortega-Alvarez</i>	
The role of the industry mentors in navigating the paradoxes inherent in work integrated learning.....	103
<i>Tiyamike Ngonda, Corrinne Shaw and Bruce Kloot</i>	
Engineering teachers as action researchers through a community of practice at an alternative school for “street youth” in western Kenya	113
<i>Dhinesh Radhakrishnan, Sally Kimani, Esther Wairimu, Wesley Kimutai, Samwel Kimani and Jennifer DeBoer</i>	
Diversity in groups – students’ reflection	123
<i>Martina Jordaan and Dolf Jordaan</i>	
Short Term International Service Learning: Reflections of Engineering Students on their Learning Experience.....	132
<i>Martina Jordaan, Hongwei Zhang, Li Liu and Hanxiao Zhou</i>	
An Analysis of Possible Predictors of Student Early Engagement with Professional Development Opportunities.....	141
<i>David Lowe and Anthony Kadi</i>	

Table of contents: Volume I – Full papers

Becoming a Researcher: A Narrative Analysis of U.S. Students' Experiences in Australia	150
<i>Kirsten Davis and David Knight</i>	
Using continuous feedback as an alternative student evaluation of teaching	160
<i>Homero Murzi</i>	
A strategy, harnessing the power of cooperative learning, suitable for problem-solving tutorials in mechanical engineering thermodynamics	170
<i>Willem van Niekerk and Elsa Mentz</i>	
Why lecturers in an engineering school assess the way they do	180
<i>Teresa Hattingh and Laura Dison</i>	
A comparative study to predict students' performance based on their access pattern to the Learning Management System using an efficient machine learning algorithm	190
<i>Sriudaya Damuluri, Pouyan Ahmadi and Khondkar Islam</i>	
Global Responsibility in Civil Engineering Practice in the UK: A Report of Work in Progress	198
<i>Shannon Chance, Inês Direito, Rob Lawlor, Katie Creswell-Maynard, Jon Prichard, Nick Tyler and John Mitchell</i>	
The development of engineering identity in an electrical engineering degree programme	208
<i>Gabrielle Nudelman</i>	
Understanding Female Students' Dissatisfaction in First-Year Engineering Teams	217
<i>Laura Hirshfield and Robin Fowler</i>	
Integrating Computation into a Civil Engineering Curriculum Instructions at a Colombian Higher Education Institution.....	226
<i>Camilo Vieira and Juan David Gomez</i>	
Gamification of a flipped classroom course: effects in students motivation and learning.....	236
<i>Matías Recabarren and Benjamín Corvalán</i>	
Literature Review: Exploring Teamwork in Engineering Education	244
<i>Tahsin Chowdhury and Homero Murzi</i>	
Assessing the grit and mindset of incoming engineering students with an emphasis on gender.....	253
<i>Inês Direito, Shannon Chance, Emanuela Tilley and John Mitchell</i>	
Exploring the Discursive Construction of Ethics in an Introductory Engineering Course	262
<i>Johanna Lönngren</i>	
Instructional Practice Learning Through Instructional Incubator Engagement.....	272
<i>Cassandra Woodcock, Haley Antoine, Madison Tarnowski and Aileen Huang-Saad</i>	
Peer Review of Teaching Excellence in Academic Career Systems: A Comparative Study.....	282
<i>Kristina Edström, Lars Geschwind, Sara Levander and Julia Engström</i>	
Creating Gender Inclusive Engineering and Science Classes: Establishing Baseline Experiences, Perceptions and Practices	292
<i>Sally Male, Melissa Marinelli and Lee-Von Kim</i>	
Engineering students' perceptions of the learning experience and its impact on student success.....	302
<i>Nancy Nelson and Robert Brennan</i>	

Table of contents: Volume I – Full papers

Work-in-Progress: Attempted Authors' Perspectives on the Peer Review Process of the Journal of Engineering Education.....	311
<i>Stephanie Cutler, Kacey Beddoes and Rachel Croninger</i>	
Exploration of the Ethics and Societal Impacts Teaching Practices of Anglo and Western European Educators.....	319
<i>Madeline Polmear, Daniel Knight, Angela Bielefeldt, Chris Swan and Nathan Canney</i>	
Moving from crime and punishment to success and reward: transitioning from technical to educational research	329
<i>Sarah Dart, Kim Blackmore, Keith Willey, Anne Gardner, Jose Smitha, Raj Sharma, Sloan Trad and Lesley Jolly</i>	
Development of Socio-Technical and Co-Design Expertise in Engineering Students.....	339
<i>Andrea Mazzurco, Scott Daniel and Jeremy Smith</i>	
Do Teaching and Learning Environments influence Students' Conative Domain Development?	349
<i>Nur Shahira Samsuri, Khairiyah Mohd Yusof, Azmahani Abdul Aziz, Maizam Alias and Syed Ahmad Helmi Syed Hassan</i>	
Identity in practice: Examining personal identities of engineering graduates in the transition to the workplace	359
<i>James Huff</i>	
Access for All: Promoting Universal Design Thinking in a Rehabilitation Engineering Course	369
<i>Brian Self and Jim Widmann</i>	
Constructing the Bourdieusian field of engineering education: Engineering education transformation as a field phenomena	378
<i>Esther Matemba and Natalie Lloyd</i>	
Web tools for curriculum co-design: An indicator of engineering student graduate attributes.....	388
<i>Cheryl Belford and Bronwyn Swartz</i>	
Perceptions of Interdisciplinary Learning: a qualitative approach	398
<i>Renate Klaassen, Nanneke de Fouw, Remon Rooij and Youandi van der Tang</i>	
Legitimizing Engineering Education Research: A View from Sociology of Knowledge	408
<i>Mike Klassen and Jennifer Case</i>	
(Re-)validation of a standardised test instrument in a different national context.....	418
<i>Julie Direnga and Christian Kautz</i>	
The CECI - Interview-based development of items for a control engineering concept inventory	428
<i>Ferdinand Kieckhäfer, Julie Direnga and Christian Kautz</i>	
The smart engineering curriculum	436
<i>Karin Wolff and Marthinus J Booyesen</i>	
Changing instructor behavior and motivation related to active learning and strategies to reduce student resistance	445
<i>Cynthia Finelli, Laura Carroll, Michael Prince and Jenefer Husman</i>	
Taking Teaching and Learning Online: A Sequential Mixed-Methods Study of an Online Chemical Engineering Module.....	454
<i>Robert Huberts</i>	

Table of contents: Volume I – Full papers

Research-with-Practice: Insights From Delivering a Workshop Linking Undergraduate Research, Identity and Epistemic Thinking	464
<i>Lisa Benson, Marian Kennedy, Cazembe Kennedy, Dennis Lee and Courtney Faber</i>	
Towards a collaborative strategy to research the teaching of ethics within the engineering curriculum across South African higher education institutions	473
<i>Alison Gwynne-Evans, Manimagalay Chetty and Sarah Junaid</i>	
University Dropout: A Prediction Ensemble Model for an Engineering Program in Bogotá, Colombia	483
<i>Andrés Acero, Juan Camilo Achury and Juan Carlos Morales</i>	
Motivational insights into students' help-seeking behaviours in a resource-rich engineering course.....	491
<i>Amy Dunford, Edward Berger, Jeffrey Rhoads and Jennifer DeBoer</i>	
Assisting tutors to develop their student's competence when working with complexity	501
<i>Keith Willey and Tania Machet</i>	
Engineering Education Re-interpreted Using the Indigenous Sacred Hoop Framework	510
<i>Jillian Seniuk Cicek, Afua Mante, Carolyn Geddert and Leah Fontaine</i>	
Design literacy practices in a mechanical engineering degree program: A multimodal social semiotic analysis of first and final year design reports	520
<i>Muaaz Bhamjee and Zachary Simpson</i>	
Teaching geotechnical engineering for practice-readiness: An action research project.....	530
<i>Maria Ferentinou and Zach Simpson</i>	
Academic SUCCESS: An Analysis of How Non-Cognitive Profiles Vary by Discipline for Engineering and Computer Science Students.....	540
<i>Jim Widmann, Brian Self, John Chen, Camaryn Chambers, Lisa Kusakabe, Jenna Landy, Edward Berger, Julianna Ge, Allison Godwin and Matthew Scheidt</i>	
Motivations and Offline Experience in a Blended STEM MOOC.....	549
<i>Casey Haney, Jawaria Qureshey, S. Zahra Atiq, David Cox and Jennifer DeBoer</i>	
Individual versus collaborative study behaviors while using an automatic answer-checking feature	558
<i>Mohamed Aziz Dridi, Lori Breslow and Jennifer DeBoer</i>	
Busy Times, Productive Students: Cutoff Points Marking Time in University Engineering Culture.....	568
<i>Elizabeth Briody, Fredy Rodríguez-Mejía, Ruth Rothstein, Chuhao Wu and Edward Berger</i>	
Disciplinary learning in project-based undergraduate engineering education: the case for new knowledge	578
<i>Ann Lahiff, Emanuela Tilley, Janet Broad, Andrea Detmer and Kate Roach</i>	
The Impact of Capstone Design Courses on New Engineering Graduates Preparation for Teamwork: A Mixed Methods Investigation.....	588
<i>Daniel Knight, Christopher Gewirtz and Tahsin Chowdhury</i>	
Toward a Typology of the Sociotechnical in Engineering Practice	597
<i>Brent Jesiek, Natascha Buswell, Andrea Mazzurco and Tasha Zephirin</i>	

Table of contents: Volume I – Full papers

National, disciplinary and institutional influences on curriculum: A preliminary exploration across two Washington Accord Countries	607
<i>Nicole Pitterson, Jennifer Case, Ashish Agrawal and Kevin Krost</i>	
First year engineering students' perceptions of the purposes of classroom assessment	617
<i>Ashish Agrawal, Nicole Pitterson and Jenni Case</i>	
The Role of Racial Identity in the Achievement Motivation of African American Engineering Students Engaged in Undergraduate Research Abroad	626
<i>Kendra DeLaine, Barbara Boakye, Stacie LeSure and Lorraine Fleming</i>	
A Translational Effort Focused on Student Reflection in Engineering Education	635
<i>Jennifer Turns and Wendy Roldan</i>	
Extent and Depth of PBL Implementation – Survey results from over 300 PBL-implementing US engineering educators	645
<i>Angela van Barneveld and Johannes Strobel</i>	
The impact of prior transport-based experiences on academic interest and performance – a case study of undergraduate students in Transport Science modules at Stellenbosch University	654
<i>Megan Bruwer and Marion Sinclair</i>	
The diagnostic potential of admissions tests for South African Higher Education.....	664
<i>Robert Prince, Darlington Mutakwa and Janine Dunlop</i>	
An interrogation of the relationship between theoretical concepts and their application in practice in the curriculum of a professionally orientated higher education programme in South Africa	673
<i>Jonathan Pike</i>	
An exploration of first year engineering students' perception of the university's responsibilities	683
<i>Ashish Agrawal, Margaret Blackie and Reneé Smit</i>	
Multimodal representations for teaching problem solving in engineering dynamics: The case of a lecturer at a South African university	693
<i>Kate le Roux and Bruce Kloot</i>	
The impact of the combined status of race and gender on the persistence of Black female STEM students	703
<i>Barbara Boakye, Dawn Williams, Kalynda Smith, Shaniqua Hodge and Lorraine Fleming</i>	
EngStarter: An Open-Hardware and IoT Integrated Education Kit for Increasing Community-Developed Solutions.....	713
<i>Claudio Freitas, Zachary Beyer and Jennifer DeBoer</i>	
Development of Autonomy through Flipped Classroom Methodology in Probability and Statistics	723
<i>Karen Angulo, Astrid Bernal and Mario Castillo</i>	
Trialling a problem-solving engineering learning environment	733
<i>Karin Wolff, Lauren van Breda and Reynaldo Rodriguez</i>	
Identity in Practice: Reflections from Malaysian Women who are Practicing Engineers.....	741
<i>Jennifer DeBoer, Mohamed Dridi, S. Zahra Atiq, Daeyeoul Lee, Sarah Morton, Andrea De LaBarrera Montpellier, Nehal Abu-Lail, Ashley Ater Kranov and Julie Kmec</i>	
Improving course retention rates in engineering education in refugee settings: Lessons from two case studies	751
<i>Moses Olayemi, Claudio Freitas, Dhinesh Radhakrishnan, Mohamed Aziz Dridi and Jennifer DeBoer</i>	

Table of contents: Volume I – Full papers

An Air Quality Inquiry: A Curricular Approach to Preparing Student Mentors of Air Quality Research Projects in Rural Schools	761
<i>Daniel Knight, Leighanna Hinojosa, Joseph Polman and Michael Hannigan</i>	
Building a Repository of Instructional and Assessment Techniques for Instructional Module Development System	771
<i>Srividya Bansal and Jeanette Mueller-Alexander</i>	
Building a national engineering educator community of practice	781
<i>Karin Wolff, Anton Basson, Deborah Blaine and Mandy Tucker</i>	
How do engineering lecturers perceive the Scholarship of Teaching and Learning (SOTL)?	790
<i>Deborah Blaine, Anton Basson and Cecilia Jacobs</i>	
Developing T-shaped individuals through the Master of Philosophy specialising in Sustainable Mineral Resource Development programme at the University of Cape Town?	799
<i>Alexandra Himunchul, Alison Gwynne-Evans, Lorenzo Himunchul, Jennifer Broadhurst</i>	

Table of contents: Volume II – Extended Abstracts

Designing Authentic Assessment in Engineering Education	810
<i>Ekaterina Rzyankina</i>	
Improving first year engineering students experiences: the role of providing psychosocial support through life coaching	817
<i>Disaapele Mogashana, Moses Basitere and Ntsundeni Mapatagane</i>	
The language question in Africa’s university engineering education: How optimal is multilingualism?	821
<i>Kant Kanyarusoke and Tiyamike Ngonda</i>	
Examining the socio-psychological phenomenon of shame in engineering with coupled interpretive methods	824
<i>James Huff, Nicola Sochacka, Joachim Walther, Stephen Secules and Benjamin Okai</i>	
Factors in Engineering Education that Influence Social Justice	827
<i>Paula Barco-Alzate, Daniela Moreno-Luna and Catalina Ramírez</i>	
Exploring the use of metacognition in learning science concepts	830
<i>Kholisa Z. Papu, Paul Webb and Nokhanyo Mdzanga</i>	
Developing a Conceptual Model of Construction Employees’ Professional Values	833
<i>Hwangbo Bae, Denise Simmons and Cassandra McCall</i>	
Grit as a key success indicator in engineering postgraduate studies, or: marks aren’t everything when choosing a student	836
<i>Robbie Pott</i>	
Professional engineering work: what knowledge matters?.....	840
<i>Nicky Wolmarans and Corrinne Shaw</i>	
Reflection on strategies and interventions used to reduce dropout in engineering first year courses: A case of Extended Curriculum Program	843
<i>Moses Basitere, Disaapele Mogashana and Eunice Ivala</i>	
Challenges and solution in an international collaborative aircraft design education project	846
<i>Lelanie Smith</i>	
Mathematical competencies of a cohort of engineering students at a university of technology	850
<i>Mark Jacobs and Pragashni Padayachee</i>	
“Out of the Box” Low-Cost Portable Tinker Space for Elementary Engineering Education: A Classroom Resource	853
<i>Douglas Lecorchick and Liz Gallo</i>	
Assessment “as learning” in an extended engineering degree programme: implementing iPeer LMS feature to evaluate peer participation in teamwork	855
<i>Erika Müller and Adriana Botha</i>	
Enhancing Elementary Engineering Education with Stop-Motion Animation: An International Collaboration Project	859
<i>Douglas Lecorchick</i>	
Adoption of Computational Modelling in Introductory Engineering Course Modules: A Case Study	862
<i>Abel Nyamapfene</i>
