

# **2018 IEEE Symposium on Product Compliance Engineering – Asia (ISPCE-CN 2018)**

**Shenzhen, China  
5 – 7 December 2018**

**IEEE Catalog Number: CFP18BWD-POD  
ISBN: 978-1-7281-4627-0**

## Table of Contents

|                                                                                                                                                   |      |
|---------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Messages from IEEE ISPCE-CN 2018 Chairs .....                                                                                                     | i    |
| Organisation of IEEE ISPCE-CN 2018 .....                                                                                                          | ii   |
| Programme Overview .....                                                                                                                          | iv   |
| Programme in Detail .....                                                                                                                         | viii |
| Papers .....                                                                                                                                      | 1    |
| A Surrogate-based Optimization Algorithm with Local Search .....                                                                                  | 1    |
| Network-based output feedback stabilization for one-sided Lipschitz nonlinear systems with unknown nonlinearities .....                           | 8    |
| An Empirical Investigation on Movie Industry from 1980 to 2018 .....                                                                              | 14   |
| The evolution of keywords co-occurrence network based on MAG dataset, 1800-2017 .....                                                             | 18   |
| Scalable Subspace Clustering via Adaptive Low-rank .....                                                                                          | 22   |
| Discriminative Feature Selection via Joint Trace Ratio Criterion and $l_{2,1}$ -norm Regularization .....                                         | 27   |
| Design and Implementation of a Fog Computing Based Collision Warning System in VANETs .....                                                       | 33   |
| Robust Hybrid Beamforming Design for Millimeter Wave MIMO Relay Channels .....                                                                    | 39   |
| Segmentation of Precast Concrete Elements in Outdoor Laser Scan Data via Image Processing .....                                                   | 45   |
| Neural network-based AILC for non-repetitive trajectory tracking of non-affine pure-feedback discrete-time systems .....                          | 51   |
| Soft measurement of ammonia nitrogen concentration based on GA-SCN .....                                                                          | 56   |
| Applying Stationary Wavelet Transform for Locating and Cancelling Electrocardiogram Interference Interval in Diaphragmatic Electromyography ..... | 60   |
| Testing of Walking Aids for Elderly .....                                                                                                         | 65   |
| A Perturbed Compressed Sensing based Authentication Mechanism in Multi-hop Wireless Sensor Networks .....                                         | 68   |
| Intermittent Finite-Time Control for Consensus of Coupled Kuramoto Oscillators .....                                                              | 73   |
| Repurposition of Lithiumion Battery Packs from Electric Vehicles to Energy Storage Systems(the challenge and cost effective solutions) .....      | 77   |
| Application of Lean Manufacturing in Product Safety .....                                                                                         | 79   |
| Provision of Traceable Calibration Services at SCL to Underpin Development of Smart City Initiatives .....                                        | 82   |
| A Review on the Self-Cleaning Glass Technology Applied in Automobile .....                                                                        | 86   |
| An Interharmonics Traceability Method Based on Thermal Converters .....                                                                           | 90   |
| Representation of Job-Skill in Artificial Intelligence with Knowledge Graph Analysis .....                                                        | 95   |
| A Resilient Safety LPWAN for Ubiquitous Medical Applications .....                                                                                | 101  |
| Tradeoff Between Duration and Energy Optimization for Speed Control of Quadrotor .....                                                            |      |

|                                                                                                                    |            |
|--------------------------------------------------------------------------------------------------------------------|------------|
| Unmanned Aerial Vehicle .....                                                                                      | 105        |
| Toy Product Safety Enhancement Using Smart Product Development .....                                               | 110        |
| An Assessment and Guidance for the Prevention and Transmission of Tree Hazard to Human<br>Safety .....             | 113        |
| Critical Study on the Relationship between Power Conversion Technique and Energy<br>Efficiency on Set-top Box..... | 117        |
| <b>Author Index .....</b>                                                                                          | <b>120</b> |
