# 2019 International Symposium on Theoretical Aspects of Software Engineering (TASE) **TASE 2019**

## Table of Contents

<b>Preface</b> .....	xi
<b>Program Committee</b> .....	xii
<b>Sub-Reviewers</b> .....	xiv
<b>Keynotes</b> .....	xv

### Refinement and Semantics for Real Time

Towards Refinement Semantics of Real-Time Trigger-Response Properties in Event-B .....	1
<i>Chenyang Zhu (University of Southampton), Michael Butler (University of Southampton), and Corina Cirstea (University of Southampton)</i>	
Handling Refinement of Continuous Behaviors: A Proof Based Approach with Event-B .....	9
<i>G. Dupont (University of Toulouse), Y. Aït-Ameur (University of Toulouse), M. Pantel (University of Toulouse), and N. K. Singh (University of Toulouse)</i>	
Distributed Mediator .....	17
<i>Yi Li (Peking University) and Meng Sun (Peking University)</i>	
A Logical Approach for the Schedulability Analysis of CCSL .....	25
<i>Yuanrui Zhang (East China Normal University), Frédéric Mallet (I3S Laboratory, UMR 7271 CNRS, INRIA, Université Nice Sophia Antipolis), Huibiao Zhu (East China Normal University), and Yixiang Chen (East China Normal University)</i>	

### Security

ABAC Requirements Engineering for Database Applications .....	33
<i>Jim Longstaff (Teesside University) and Mengda He (Teesside University)</i>	
A Co-Occurrence Recommendation Model of Software Security Requirement .....	41
<i>Yilin Xu (Tianjin University, Tianjin, China), Weimin Ge (Tianjin University, Tianjin, China), Xiaohong Li (Tianjin University, Tianjin, China), Zhiyong Feng (Tianjin University, Tianjin, China), Xiaofei Xie (Nanyang Technological University, Singapore, Singapore), and Yude Bai (Tianjin University, Tianjin, China)</i>	

Android Malware Family Classification and Characterization Using CFG and DFG .....	49
<i>Zhiwu XU (Shenzhen University), Kerong Ren (Shenzhen University), and Fu Song (ShanghaiTech University)</i>	
Large-scale Detection of Privacy Leaks for BAT Browsers Extensions in China .....	57
<i>Yufei Zhao (Beihang University), Longtao He (National Computer Network Emergency Response Technical Team/Coordination Center of China), Zhoujun Li (Beihang University), Liquan Yang (Beihang University), Hao Dong (Beihang University), Chao Li (Beihang University), and Yu Wang (Beihang University)</i>	

## Applications/Case Study

Constructing Benchmarks for Supporting Explainable Evaluations of Static Application Security Testing Tools .....	65
<i>Gaojian Hao (Institute of Information Engineering, Chinese Academy of Sciences), Feng Li (Institute of Information Engineering, Chinese Academy of Sciences), Wei Huo (Institute of Information Engineering, Chinese Academy of Sciences), Qing Sun (Institute of Information Engineering, Chinese Academy of Sciences), Wei Wang (Institute of Information Engineering, Chinese Academy of Sciences), Xinhua Li (Institute of Information Engineering, Chinese Academy of Sciences), and Wei Zou (Institute of Information Engineering, Chinese Academy of Sciences)</i>	
Multi-Agent Automated Reasoning Toward Machine Self-Awareness: A Case Study .....	73
<i>Zhenbing Zeng (Shanghai University), Jianlin Wang (Henan University), and Zhengfeng Yang (East China Normal University)</i>	
Hardware Tripartite Synapse Architecture based on Stochastic Computing .....	81
<i>Junxiu Liu (Guangxi Normal University), Zhewei Liang (Guangxi Normal University), Yuling Luo (Guangxi Normal University), Jiadong Huang (Guangxi Normal University), and Su Yang (Ulster University)</i>	
Non-Intrusive MC/DC Measurement Based on Traces .....	86
<i>Faustin Ahishakiye (Western Norway University of Applied Sciences), Svetlana Jaksic (Western Norway University of Applied Sciences), Felix Dino Lange (University of Lübeck), Malte Schmitz (University of Lübeck), Volker Stolz (Western Norway University of Applied Sciences), and Daniel Thoma (University of Lübeck)</i>	

## Mechanized Verification

Optimized Step Semantics Encoding for Bounded Model Checking of Timed Automata .....	93
<i>Zuxi Chen (Huaqiao University), Huixing Fang (Yangzhou University), and Xiangyu Luo (Huaqiao University)</i>	
Efficient Counter-factual Type Error Debugging .....	99
<i>Sheng Chen (UL Lafayette) and Baijun Wu (UL Lafayette)</i>	

Using Recurrent Neural Network to Predict Tactics for Proving Component Connector Properties in Coq .....	107
<i>Xiyue Zhang (School of Mathematical Sciences, Peking University), Yi Li (School of Mathematical Sciences, Peking University), Weijiang Hong (College of Computer, National University of Defense Technology, Changsha, China), and Meng Sun (School of Mathematical Sciences, Peking University)</i>	
Steering Interpolants Generation with Efficient Interpolation Abstraction Exploration .....	113
<i>Xiaozhen Zhang (Dalian University of Technology, Dalian, China), Weiqiang Kong (Dalian University of Technology, Dalian, China), Jianguo Jiang (Liaoning Normal University, Dalian, China), Gang Hou (Dalian University of Technology, Dalian, China), and Akira Fukuda (Kyushu University, Fukuoka, Japan)</i>	
A HOL Theory of the Differential for Matrix Functions .....	121
<i>Yuhan Nie (Capital Normal University), Zhiping Shi (Capital Normal University), Aixuan Wu (Capital Normal University), Ximeng Li (Capital Normal University), Guohui Wang (Capital Normal University), and Yong Guan (Capital Normal University)</i>	
A Quantitative Safety Verification Approach for the Decision-making Process of Autonomous Driving .....	128
<i>Bingqing Xu (East China Normal University), Qin Li (East China Normal University), Tong Guo (East China Normal University), Yi Ao (East China Normal University), and Dehui Du (East China Normal University)</i>	

## Semantics and Temporal Logic

A Denotational Semantics for Dynamic Architectures .....	136
<i>Diego Marmosler (Technical University of Munich)</i>	
Stuttering for Markov Automata .....	144
<i>Arpit Sharma (Indian Institute of Science Education and Research Bhopal, India)</i>	

## Modeling and Verification

Learning-based Probabilistic Modeling and Verifying Driver Behavior using MDP .....	152
<i>Xin Bai (East China Normal University), Chenghao Xu (East China Normal University), Yi Ao (East China Normal University), Biao Chen (East China Normal University), and Dehui Du (East China Normal University)</i>	
SMT-based Multi-objective Optimization for Scheduling of MPSoC Applications .....	160
<i>Rongjie Yan (State Key Laboratory of Computer Science, Chinese Academic of Sciences, Beijing, China), Anyu Cai (Beijing University of Technology, China), Hongyu Gao (Beijing University of Technology, China), Feifei Ma (State Key Laboratory of Computer Science, Chinese Academic of Sciences, Beijing, China), and Jun Yan (State Key Laboratory of Computer Science, Chinese Academic of Sciences, Beijing, China)</i>	

Certified Embedding of B Models in an Integrated Verification Framework .....	168
<i>Alexandra Halchin (INPT-ENSEEIH/IRIT 2 Rue Charles Camichel, 31071 Toulouse, France), Yamine Ait-Ameur (INPT-ENSEEIH/IRIT 2 Rue Charles Camichel, 31071 Toulouse, France), Neeraj Kumar Singh (INPT-ENSEEIH/IRIT 2 Rue Charles Camichel, 31071 Toulouse, France), Abderrahmane Feliachi (RATP, ING/STF/QS 54 rue Roger Salengro, 94724 Fontenay-sous-Bois, France), and Julien Ordioni (RATP, ING/STF/QS 54 rue Roger Salengro, 94724 Fontenay-sous-Bois, France)</i>	
Formalizing Time4sys using parametric timed automata .....	176
<i>Étienne André (Université Paris 13 &amp; CNRS, France / JFLI, Japan / NII, Japan)</i>	

## Logics, Complexity, Quantum

Optimizing Quantum Programs Against Decoherence: Delaying Qubits into Quantum Superposition .....	184
<i>Yu Zhang (University of Science and Technology of China), Haowei Deng (University of Science and Technology of China), Quanxi Li (University of Science and Technology of China), Haoze Song (University of Science and Technology of China), and Leihai Nie (University of Science and Technology of China)</i>	
Low complexity and large interactions are possible in Strategy logic .....	192
<i>Patrick Gardy (East China Normal University)</i>	

## Software Engineering

Automated Test Generation for IEC 61131-3 ST Programs via Dynamic Symbolic Execution .....	200
<i>Li Hao (East China Normal University, National Trusted Embedded Software Engineering Technology Research Center), Jianqi Shi (East China Normal University, National Trusted Embedded Software Engineering Technology Research Center, Hardware/software Co-Design Technology and Application Engineering Research Center), Ting Su (Nanyang Technological University), and Yanhong Huang (East China Normal University, National Trusted Embedded Software Engineering Technology Research Center, Shanghai Key Laboratory of Trustworthy Computing)</i>	
Software Complexity Reduction by Automated Refactoring Schema .....	208
<i>Siteng Cao (East China Normal University, Shanghai, China), Yongxin Zhao (East China Normal University, Shanghai, China), and Ling Shi (National University of Singapore, Singapore)</i>	
IMSpec: An Extensible Approach to Exploring the Incorrect Usage of APIs .....	216
<i>Zuxing Gu (Tsinghua University), Min Zhou (Tsinghua University), Jiecheng Wu (Tsinghua University), Yu Jiang (Tsinghua University), Jiayang Liu (Shenzhen University), and Ming Gu (Tsinghua University)</i>	
Identify Blackboard Pattern Based on Ontology .....	224
<i>Lihui Tang (School of Computer Science and Engineering, Southeast University), Lulu Wang (School of Computer Science and Engineering, Southeast University), and Bixin Li (School of Computer Science and Engineering, Southeast University)</i>	

## Verification, Concurrency, Memory Models

Verifying Opacity of a Modified PSTM .....	232
<i>Yucheng Fang (East China Normal University), Huibiao Zhu (East China Normal University), and Jiaqi Yin (East China Normal University)</i>	
Modeling and Verifying Transaction Scheduling for Software Transactional Memory using CSP .....	240
<i>Chao Xu (East China Normal University), Xi Wu (The University of Sydney, Sydney 2006, Australia), Huibiao Zhu (East China Normal University), and Miroslav Popovic (University of Novi Sad)</i>	
Verifying the Relationship Among Three Descriptions in Problem Frames Using CSP .....	248
<i>Xiaohong Chen (East China Normal University, Shanghai, China), Xi Wu (The University of Sydney, Australia), Mengyao Zhao (East China Normal University, Shanghai, China), and Haiying Sun (East China Normal University, Shanghai, China)</i>	

## Applications/Case Studies

A Common Semantic Scoring Method for Chinese Subjective Questions .....	256
<i>Xinhua Zhu (Guangxi Normal University), Qingting Xu (Guangxi Normal University), Lanfang Zhang (Guangxi Normal University), Han Deng (Guangxi Normal University), and Hongchao Chen (Guangxi Normal University)</i>	
Understanding Ineffective Events and Reducing Test Sequences for Android Applications .....	264
<i>Ping Wang (Institute of Software, Chinese Academy of Sciences), Jiwei Yan (Institute of Software, Chinese Academy of Sciences), Xi Deng (Institute of Software, Chinese Academy of Sciences), Jun Yan (Institute of Software, Chinese Academy of Sciences), and Jian Zhang (Institute of Software, Chinese Academy of Sciences)</i>	
An Optimized Partial Rollback Co-simulation Approach for Heterogeneous FMUs .....	273
<i>Dehui Du (East China Normal University), Yao Wang (East China Normal University), Yi Ao (East China Normal University), and Biao Chen (East China Normal University)</i>	
<b>Author Index .....</b>	<b>281</b>
