PROCEEDINGS OF SPIE

Active and Passive Microwave Remote Sensing for Environmental Monitoring III

Fabio Bovenga Claudia Notarnicola Nazzareno Pierdicca Emanuele Santi Editors

11–12 September 2019 Strasbourg, France

Sponsored by SPIE

Cooperating Organisations
European Optical Society
ISPRS—International Society for Photogrammetry and Remote Sensing
EARSeL—European Association of Remote Sensing Laboratories (Germany)

Published by SPIE

Volume 11154

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigital Library.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in Active and Passive Microwave Remote Sensing for Environmental Monitoring III, edited by Fabio Bovenga, Claudia Notarnicola, Nazzareno Pierdicca, Emanuele Santi, Proceedings of SPIE Vol. 11154 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$21.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/19/\$21.00.

Printed in the United States of America by Curran Associates, Inc., under license from SPIE.

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v vii	Authors Conference Committee
	SAR DATA PROCESSING II: JOINT SESSION
11154 05	Capsule and convolutional neural network-based SAR ship classification in Sentinel-1 data [11154-4]
	SOIL MOISTURE AND BIOMASS MONITORING II
11154 OD	Evaluation of backscatter coefficient temporal indices for burned area mapping (Best Student Paper Award) [11154-12]
	POSTER SESSION
11154 OH	Landslide detection with ALOS-2/PALSAR-2 data using convolutional neural networks: a case study of 2018 Hokkaido Eastern Iburi earthquake [11154-6]
11154 OJ	Investigation of ground deformation with PSInSAR approach in an unstable urban area Naples, Italy using X-band SAR images [11154-17]
11154 OM	SWE retrieval by exploiting COSMO-SkyMed X-band SAR imagery and ground data through a machine learning approach [11154-22]
