## Table of Contents

|                                                                                                                                   |        |
|-----------------------------------------------------------------------------------------------------------------------------------|--------|
| Preface .....                                                                                                                     | vii    |
| Committee .....                                                                                                                   | viii-x |
| Author Index .....                                                                                                                | xi-xii |
| An Improved Quadratic V/f-Based Control of Photovoltaic Battery-Less Induction Motor<br>Driven Water Pumping System               |        |
| <i>Neama Yussif, Ayman S. Abdel-Khalik, Abdelfatah M. Mohamed</i> .....                                                           | 1-6    |
| Mechanical Field Weakening Techniques for an Axial Flux Machine                                                                   |        |
| <i>Muhammad Kasim, John Fletcher</i> .....                                                                                        | 7-15   |
| An Improved Ground Stability in Shielded Capacitive Wireless Power Transfer                                                       |        |
| <i>Aam Muharam, Suziana Ahmad, Reiji Hattori, Daiki Obara, Mitsuru Masuda,<br/>Kristian Ismail, Abdul Hapid</i> .....             | 16-20  |
| Discharge Test to Detect Unbalancing in Electric Vehicle LiFePO <sub>4</sub> Battery Pack                                         |        |
| <i>Amin, Alexander Christantho Budiman, Abdul Hapid, Sudirja, Sunarto Kaleb</i> .....                                             | 21-25  |
| Simulation of Enhancement PV Power Stabilization with Dynamic Power Injection                                                     |        |
| <i>Chandra B. Sukmono, Rudi Darussalam, Muhammad Kuncoro, Iwa Garniwa</i> .....                                                   | 26-32  |
| Study on the Effect of the Intake Port Configuration on the In-Cylinder of Small Engine                                           |        |
| <i>Bambang Wahono, Ardika Setiawan, Ocktaeck Lim, Achmad Praptijanto,<br/>Yanuandri Putrasari</i> .....                           | 33-36  |
| Performance of Inter-vehicular Distance Estimation: Pose from Orthography and Triangle<br>Similarity                              |        |
| <i>Mulia Pratama, Widodo Budi Santoso, Ahmad Dimyani, Achmad Praptijanto, Arifin Nur,<br/>Yanuandri Putrasari</i> .....           | 37-41  |
| Suitability Analysis of Cross-Flow Turbine and Synchronous Generator Characteristics for<br>Very Low Head Hydro Power Application |        |
| <i>Puji Widiyanto, Pudji Irasari, Muhammad Fathul Hikmawan</i> .....                                                              | 42-47  |
| Development of Green Building Materials' Evaluation Criteria to Achieve Optimum Building<br>Facade Energy Performance             |        |
| <i>Marwa M. Gomaa Mayhoub, Mona G. Ibrahim, Zeyad M. Tarek El Sayad,<br/>Ahmed Abdel Monteieb M. Ali</i> .....                    | 48-55  |
| Performance of Wave Energy Converter using Linear Permanent Magnet Generator under<br>Regular Wave Condition                      |        |
| <i>Budi Azhari, Edwar Yazid</i> .....                                                                                             | 56-61  |

|                                                                                                                                                                                                                                                                                                                |         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| Modeling and Performance Analysis of a Parallel Solar Hybrid Micro Gas Turbine<br><i>Maulana Arifin, Ahmad Rajani, Kusnadi, Tinton Dwi Atmaja</i> .....                                                                                                                                                        | 62-68   |
| Design of Motor Control Electric Push-Scooter using Accelerometer as Jerk Sensor<br><i>Kristian Ismail, Amin, Bambang Susanto, Umar Sholahuddin, Muhamad Sabar</i> .....                                                                                                                                       | 69-73   |
| Characteristics of 250 Watt Picohydro Turbine Based on Laboratory Testing Result<br><i>Henny Sudibyo, Ridwan Arief Subekti, Anjar Susatyo</i> .....                                                                                                                                                            | 74-78   |
| Study on Various Simple Power Tracking Methods for Thermoelectric Generator<br><i>Joni Welman Simatupang, Irwan Purnama</i> .....                                                                                                                                                                              | 79-84   |
| Effect of Tracking System Configurations to Beam Aperture Irradiance of Parabolic Dish in Bandung, Indonesia<br><i>Nur Rohmah, Ghalya Pikra, Rakhmad Indra Pramana, Andri Joko Purwanto, Ahmad Rajani</i> ...                                                                                                  | 85-88   |
| Information System Design of Electric Scooter for Sustainable Tourist Transportation<br><i>Kadek Heri Sanjaya, Abdurrahman Ayasy, Surya Citra Tri Vina, Ilham Syahilan, Yukhi Mustaqim Kusuma Sya'Bana</i> .....                                                                                               | 89-94   |
| CFD Study Several Injection Timing on Homogeneous Charge Compression Ignition Hydrogen Diesel Dual Fuels<br><i>Achmad Praptijanto, Widodo Budi Santoso, Arifin Nur, Yanuandri Putrasari, Ahmad Dimyani, Suherman, Mulia Pratama, Bambang Wahono, Muhammad Khristanto Aditya Wardana, Rosli Abu Bakar</i> ..... | 95-100  |
| Performance Evaluation of Islanded Mode Voltage and Current Control in DC Microgrid<br><i>Made Andik Setiawan, Ocsirendi, Zanu Saputra</i> .....                                                                                                                                                               | 101-107 |
| The Crumple Zone Quality Enhancement of Electric Cars Bumper Fascia using a Carbon Fiber Reinforced Vinyl Ester – Microsphere Composites<br><i>Sudirja, Abdul Hapid, Sunarto Kaleg, Alexander Christantho Budiman, Amin</i> .....                                                                              | 108-112 |
| Biogas Consumption Pattern in Indonesia (A Case Study of Sumedang Community Biogas Plant, Indonesia)<br><i>Muhamad Imam Mutaqin, Widyarani, Umi Hamidah, Selly Ayu Janetasari, Muchlis, Neni Sintawardarni</i> .....                                                                                           | 113-118 |
| Photovoltaic Power Stabilization using Dynamic Power Injection Method<br><i>Rudi Darussalam, Muhammad Kuncoro, Candra Budi Sukmono, Iwa Garniwa</i> .....                                                                                                                                                      | 119-124 |
| The Applicability of Sustainable Design Values on Electric Bike Sharing Concept in Indonesia<br><i>Yukhi Mustaqim Kusuma Sya'Bana, Kadek Heri Sanjaya</i> .....                                                                                                                                                | 125-130 |
| Simulation of Uniform Heat Sources in Restricted Space for Battery Module Configurations<br><i>Alexander Christantho Budiman, Sudirja, Amin, Sunarto Kaleg, Abdul Hapid</i> .....                                                                                                                              | 131-135 |
| IPCC Analysis with Backpropagation Neural Network Algorithm for Decennial CH4 Potential: A Review on City Waste to Energy<br><i>Tinton Dwi Atmaja, Dian Andriani, Aji Prasetya Wibawa, Agung Bella Putra Utama, Haviluddin, Nedal A.M. Jabari</i> .....                                                        | 136-142 |
| Power Control among Photovoltaics and Electric Energy Storages in DC Microgrid<br><i>Made Andik Setiawan, Yudhi, Aan Febriansyah</i> .....                                                                                                                                                                     | 143-149 |

|                                                                                                                                                                                                                                               |         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| A Preliminary Experimental Study on an Axial Flux Permanent Magnet Generator for Regenerative Braking<br><i>Sunarto Kaleg, Abdul Hapid, Miftahul Anwar, Feri Adriyanto, Muhammad Fajar Prakasa, Sukmaji I. Cahyono, Kuncoro Diharjo</i> ..... | 150-154 |
| Design and Performance of Solar-powered Telescopic Lamp<br><i>Ahmad Rajani, Hendri Maja Saputra, Ridwan Arief Subekti, Dalmasius Ganjar Subagio, Abdurrahman Nurhakim</i> .....                                                               | 155-158 |
| Influence of Aperture Width and Focal Distance to the Parabolic Trough Solar Collector Geometry<br><i>Andri Joko Purwanto, Ghalya Pikra</i> .....                                                                                             | 159-162 |
| Product Cost Estimation of Interior Permanent Magnet Motor<br><i>Merry Indahsari Devi, Pudji Irasari, Muhammad Fathul Hikmawan, Puji Widiyanto, Rahmat</i> .....                                                                              | 163-167 |
| Software Design of Sequential Injector Controller for Double Cylinders Diesel Engine using 8-Bit Microcontroller<br><i>Mulia Pratama, Widodo Budi Santoso, Ahmad Dimyani, Achmad Praptijanto, Arifin Nur, Yanuandri Putrasari</i> .....       | 168-174 |
| Performance Analysis of Novel Blade Design of Vertical Axis Wind Turbine<br><i>Yoyon Ahmudiarto, Amma Muliya Romadoni, Tulus Besar Karyanto, Tri Admono, Bagus Nugroho, Rey Cheng Chin, Agus Budiyo</i> .....                                 | 175-181 |
| Performance Analysis of Stand-alone Axial Flux Permanent Magnet Generator Connected to Inductive-load<br><i>Ketut Wirtayasa, Pudji Irasari, Muhammad Kasim, Puji Widiyanto, Muhammad Fathul Hikmawan, Budi Azhari</i> .....                   | 182-185 |
| Design of Analog and Digital Filter of Electromyography<br><i>Latif Rozaqi, Asep Nugroho, Kadek Heri Sanjaya</i> .....                                                                                                                        | 186-192 |
| Performance of 10 kWp PV Rooftop System Based on Smart Grid in Energy Building PUSPIPTEK<br><i>Eka Nurdiana, Riza, Ifanda, Abduh Aziz Basharah</i> .....                                                                                      | 193-200 |
| Study of Cyclic Variability in Diesel Dual Fuel Engine with Different Fuel Volatility<br><i>Widodo Budi Santoso, Achmad Praptijanto, Arifin Nur, Suherman, Yanuandri Putrasari, Ivan Sebastian Erada</i> .....                                | 201-206 |
| Study of Hydroelectric Power Plant Potential of Mahakam River Basin East Kalimantan Indonesia<br><i>Yuliana Susilowati, Pudji Irasari, Anjar Susatyo</i> .....                                                                                | 207-213 |
| Experimental Study of the Cooling Performance of Trombe Wall with Geothermal Air Tube System<br><i>Rania Elghamry, Hamdy Hassan</i> .....                                                                                                     | 214-219 |
| A Brief Review on Ground Vehicles Aerodynamics due to the Presence of Streamwise Vortices<br><i>Alexander Christantho Budiman, Abdul Hapid, Sunarto Kaleg, Amin, Sudirja, Sonny H. Winoto</i> .....                                           | 220-224 |
