2020 International Conference on Intelligent Transportation, Big Data & Smart City (ICITBS) **ICITBS 2020**

Table of Contents

Preface	xxvii
Organizing Committee	xxviii
Technical Program Committee	xxix
Reviewers	xxx

Session 1: Intelligent Transportation System

Design of Automatic Testing System for Electrical Equipment Based on PCI Bus	1
<i>Meng Sun (Chifeng Industrial Vocational Technical College, Inner Mongolia), Jin Sun (Chifeng Industrial Vocational Technical College, Inner Mongolia), and Jianmei Song (Chifeng Industrial Vocational Technical College, Inner Mongolia)</i>	
Design of Intelligent Access Vehicle System Based on Cloud Network Communication	7
<i>Chunxiao Shi (South China Agriculture University), Weihui Ye (South China Agriculture University), Junqin Chen (South China Agriculture University), and Hongxiang Ge (South China Agriculture University)</i>	
Design of Urban Intelligent Traffic Congestion Situation Monitoring System Based on Big Data	12
<i>Dujuan Zhang (Xi'an Medical University, China) and Yangyang Jiang (Xi'an Medical University, China)</i>	
Diffraction of Cnoidal Waves Around a Large Vertical Elliptical Cylinder	16
<i>Mi Zhao (Beijing University of Technology), Xiaojing Wang (Beijing University of Technology), Piguang Wang (Beijing University of Technology), and Yiming Huang (Beijing University of Technology)</i>	
Driver Status Monitoring and Early Warning System Based on Multi-sensor Fusion	24
<i>Dan Liu (Neusoft Institute of Information, China)</i>	
Dynamic Password Authentication Method Based on Vehicle Command and Dispatch System	28
<i>Wenfeng Li (Xi'an University of Science and Technology, China), Liming Fan (Xi'an University of Science and Technology, China), Wenli Lei (Yan'an University, China), and Dajuan Li (Xi'an University of Science and Technology, China)</i>	

Fusion Modeling Method for Floating Car and Section Detection Data in Multiple Scenes	33
<i>Ming Jin (Henan Provincial Department of Transportation, China), Yinglei Hu (Henan Provincial Department of Transportation, China), Yuzhou Li (Henan Provincial Department of Transportation, China), Chuanxia Sun (Henan Provincial Department of Transportation, China), and Xiaoliang Sun (Research Institute of Highway Ministry of Transport, China)</i>	
Investigation on Damage and Simplified Collision Force of Prestressed Concrete Box Bridge Subjected to Over-Height Truck Collision	37
<i>Lingyun Kong (Chang'an University), Jingfeng Zhang (Chang'an University), and Wanshui Han (Chang'an University)</i>	
Port Short-Term Truck Flow Forecasting Model Based on Wavelet Neural Network	43
<i>Ying Luo (Beijing Jiaotong University) and Lei Huang (Beijing Jiaotong University)</i>	
Research on Fire Extinguishing Behavior of Bubble Atomizing Nozzle in Metro Model	48
<i>Xu Song (Shenyang Aerospace University), Chen Jian (Shenyang Aerospace University), and Zhao Jun-qing (Shenyang Aerospace University)</i>	
Research on Map Matching Algorithm Based on Moving Trajectory of Underground Personnel	53
<i>Ning Kang (Xi'an University of Science & Technology, China; 62882 PLA troops, China) and Shuchun Xiao (Xi'an University of Science & Technology, China; 62882 PLA troops, China)</i>	
Research on the Construction Mode of Intelligent Traffic Safety Integration Under the Background of Intelligent City	57
<i>Zhijie Zhang (University of Jinan, China)</i>	
Research on the Overturning Stability of the Straight Ramp Bridge Under the Conditions of Accident Vehicle Rescue	61
<i>You Jiuang (Ningbo University), Ding Yong (Ningbo University), Wang Bing (Ningbo University), Li Zhiyong (Ningbo Traffic Plan and Design Institute Company), and Nie Zaidong (Ningbo University)</i>	
Study on the Factors and Management Strategy of Traffic Block Incident on Hangzhou Province Highway	67
<i>Juan Wen (Research Institute of Highway Ministry of Transport, China), Zhifeng He (Zhengjiang Provincial Highway Administration, China), Yuhua Yang (Zhengjiang Provincial Highway Administration, China), and Yong Cheng (Zhengjiang Provincial Highway Administration, China)</i>	
The Combination of Battery Swapping System and Connected Vehicles Technology in Intelligent Transportation	72
<i>Zhengxian Chen (Beijing Institute of Technology, China)</i>	
Vehicle Detection Based on Improved Yolov3 Algorithm	76
<i>Shuai Zhao (Beijing Institute of Graphic Communication) and Fucheng You (Beijing Institute of Graphic Communication)</i>	

Session 2: Automation of Smart City Construction

Analysis of the Mechanical Performance of the Corbel of Pile-Plate Structure	80
<i>Shao-Hong Cao (Anhui Transportation Holding Group Co., Ltd., Hefei-Wuhu Reconstruction and Expansion Project Office, China) and Wei-Min Hu (Anhui Transportation Holding Group Co., Ltd., Hefei-Wuhu Reconstruction and Expansion Project Office, China)</i>	

Applicability of Artificial Waves to Seismic Vulnerability of High-Speed Railway Continuous Bridge	86
<i>Biao Wei (Central South University), Chaobin Li (Central South University), Zhangliang Hu (Central South University), Yuewu Zhou (China Railway Design Group Co., Ltd.), Lizhong Jiang (Central South University), and Shanshan Li (Jiangsu Vocational Institute of Architectural Technology)</i>	
Application of Regional Building Energy Consumption Prediction Model in Building Construction	92
<i>Zhao Qiuhong (Changchun Architecture and Civil Engineering College), Zhu Zhan (Changchun Architecture and Civil Engineering College), and Wang Jiayi (Changchun Architecture and Civil Engineering College)</i>	
Application Research of BIM Technology in Architectural Structure Design	95
<i>Xue Zhang (Changchun Architecture & Civil Engineering College)</i>	
Deepening Application and Practice of BIM Based on Smart City in Cost Control and Cost Collaborative Management	98
<i>Hui Chen (Yunnan Technology and Business University, China) and Feiyan Ying (Yunnan Technology and Business University, China)</i>	
Distributed Optical Fibre Sensor for Strain Measurement of Reinforced Concrete Beams	102
<i>Mengmeng Chen (Nanjing Xiaozhuang University), Bo Li (Hebei University of Architecture), Ali Masoudi (University of Southampton), Daniel Bull (University of Southampton), and Janice M. Barton (University of Southampton)</i>	
Effect of Hydrodynamic Pressure on Seismic Response for Seismically Isolated Girder Bridge in Deep Water	108
<i>Jing Ma (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China), Jixin Zhu (Xiamen Road and Bridge Engineering Investment Development Co., Ltd, China), Junbo Zhang (Xiamen Road and Bridge Engineering Investment Development Co., Ltd, China), Jinhai He (Shanghai Seismic Civil Engineering Technology Co., Ltd, China), and Xinzhi Dang (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China)</i>	
Effects of Vertical Earthquake Ground Motions on Seismic Response of Steel-Concrete Plate Composite Beam Bridges	114
<i>Runqing Li (Anhui Transportation Hold Group Co., Ltd.) and Chunjiang Yao (Anhui Transportation Hold Group Co., Ltd.)</i>	
Finite Element Modeling and Dynamic Mode Characteristics of Pile-Slab Structure	118
<i>Junyin Wu (Anhui Transportation Holding Group Co., Ltd., Hefei-Wuhu Reconstruction and Expansion Project Office, China) and Jin Lei (Anhui Transportation Holding Group Co., Ltd., Hefei-Wuhu Reconstruction and Expansion Project Office, China)</i>	
Finite Element Modeling and Seismic Response Analysis of Pile Slab Structure	122
<i>Zhong-Wei Xiao (Anhui Transportation Holding Group Co., Ltd., Hefei-Wuhu Reconstruction and Expansion Project Office, China) and Yan Zhang (Anhui Transportation Holding Group Co., Ltd., Hefei-Wuhu Reconstruction and Expansion Project Office, China)</i>	
Influence of Greenfield Landscape on Urban Skyline of North Canal of Tongzhou	127
<i>Hangqi Guo (Beijing University of Agriculture) and Sheng Lu (Beijing University of Agriculture)</i>	

Influence of Shield Tunneling Construction on Formation and Existing Tunnel Deformation	131
<i>Junfeng Tian (Xi'an University of Science and Technology), Baofen Ma (Xi'an University of Science and Technology), Gengshe Yang (Xi'an University of Science and Technology), Leixiao Zhang (Chang'an University Highway College), Mengke Sun (China Railway Shanghai Engineering Bureau Group Seventh Engineering Co., Ltd), and Xiaobo Zhang (China Railway Shanghai Engineering Bureau Group Seventh Engineering Co., Ltd)</i>	
Numerical Simulation of Prefabricated Prestressed Bridge Piers Based on Fiber Beam Element	137
<i>Ma Jun (Harbin Institute of Technology), Li Xiao (Hubei Provincial Tendering Co. Ltd), and Xu Jiangjiang (Changjiang Institute of Survey)</i>	
Research on Building Data Acquisition Methods in Smart City	144
<i>Xiaoyan Liu (Guangzhou Architectural Engineering Vocational School, China), Xu Liu Yu (Guangzhou Architectural Engineering Vocational School, China), and Teng Fei (Guangzhou Architectural Engineering Vocational School, China)</i>	
Research on Effects of Near-Fault Earthquake Ground Motion Characteristics on Seismic Response of the Steel-Concrete Plate Composite Beam Bridge with Transverse Supported Steel Beams	148
<i>Yunfeng Han (Anhui Transportation Hold Group Co., Ltd.)</i>	
Research on Evaluation Index of Rural Roads Development Level	154
<i>Yiming Zhou (China Academy of Transportation Sciences, China)</i>	
Research on Structural Damage Identification by Use of No Inversion Algorithm of Frequency	162
<i>Zhaolan Wei (Sichuan Agricultural University), Xiaodong Song (China railway eryuam Engineering group.co., ltd), and Weiwei Lu (Liaoning Provincial Transportation Planning and Design Institute Co., Ltd.)</i>	
Research on the Application of Face Recognition Technology in Public Service of Smart City	167
<i>Yanchi Li (King's College London, United Kingdom)</i>	
Research on the Application of Internet of Things Technology in the Construction of University Intelligent Health Canteen	171
<i>Dandan Xiao (Wuhan Technology and Business University)</i>	
Research on the Measurement of the Construction Level and Development Strategy of Yiyang Smart City Based on Principal Component Analysis	176
<i>Liu Gang (Hunan City University)</i>	

Review of Ecological Coast Construction Technology	181
<i>Ying-ni Luan (Tianjin Research Institute of Water Transport Engineering, National Engineering Laboratory for Port Hydraulic Construction Technology & Key Laboratory of Engineering Sediment of Ministry of Communications, China), Da Li (Hohai University, China), Han-bao Chen (Tianjin Research Institute of Water Transport Engineering, National Engineering Laboratory for Port Hydraulic Construction Technology & Key Laboratory of Engineering Sediment of Ministry of Communications, China), Bao-lei Geng (Tianjin Research Institute of Water Transport Engineering, National Engineering Laboratory for Port Hydraulic Construction Technology & Key Laboratory of Engineering Sediment of Ministry of Communications, China), and Hai-yuan Liu (Tianjin Research Institute of Water Transport Engineering, National Engineering Laboratory for Port Hydraulic Construction Technology & Key Laboratory of Engineering Sediment of Ministry of Communications, China)</i>	
Review of Research on Seismic Retrofit Technology of RC Bridge Pier	187
<i>Yingxiang Wang (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC, Beijing), Tianren Li (China University of Petroleum), Pengfei He (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC, Beijing), Luguang Wang (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC, Beijing), and Zhichao Chen (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC, Beijing)</i>	
Seismic Fragility Analysis of Simply Supported Beam Bridges with Precast Columns	191
<i>Sheng-Liang Ge (Ningbo University, China) and Zhan-Yu Bu (Ningbo University, Ningbo, China)</i>	
Seismic Mitigation and Isolation Control of High-Speed Railway Extradosed Cable-Stayed Bridge Under Multi-point Ground Motion	195
<i>Wei Quan (Huangshan University), Hong-ming Yu (Shenyang Jianzhu University), Shi-jie Bai (Shenyang Jianzhu University), and Dong-sheng Wang (Hebei University of Technology)</i>	
Seismic Response Analysis of the Rocking Double-Deck Bridge	201
<i>Chen Jingyi (Beijing University of Technology), Du Xiuli (Beijing University of Technology), and Han Qiang (Beijing University of Technology)</i>	
Sensitivity of Seismic Response of the Steel-Concrete Plate Composite Beam Bridge with Transverse Supported Steel Beams to Design Parameters	205
<i>Huihui Liu (Anhui Transportation Hold Group Co., Ltd.)</i>	
Structural Analysis of Precast Concrete Segments of Bheri Babai Diversion Multipurpose Project	210
<i>Wenzhao Sun (Kunming Engineering Corporation Limited), Dairong Cen (Kunming Engineering Corporation Limited), and Zhiyu Chen (Huaneng Lancang River Hydropower Inc.)</i>	
Study on Calculation of Construction Cable Force of Cable-Stayed Bridge Based on Unstressed State Method	215
<i>Yao Rui (Chang'an University)</i>	

Study on Construction Planning for Bridge Structure Based on BIM Technology	219
<i>Ning Xu (China MCC20 Group Corp. LTD.), Jianli Zhao (China MCC20 Group Corp. LTD.), Fei Xie (China MCC20 Group Corp. LTD.), Yinwu Wang (China MCC20 Group Corp. LTD.), and Xiong Zhang (China MCC20 Group Corp. LTD.)</i>	
Study on Construction Technology of Prestressed Cross Polygon Assembled Fiber Concrete Tower Crane Foundation	224
<i>Zhang Xiaoxi (Fujian Yongfu Construction Group Co. , Ltd.), Jiang Guoping (Fujian Jiangxia University), Wen Xiaodong (NingBo University of Technology), Chen Feng (Fujian Jiangxia University), Li Jun (Fujian Liujian Group Co. , Ltd.), and Guo Jinglong (Fujian Jiangxia University)</i>	
The Future Direction of Bridge Seismic Research - Intelligence and Resilience	229
<i>Sijie Wang (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China), Huai-feng Li (Shandong Provincial Communications Planning and Design Institute, China), Changyong Zhang (Shandong Provincial Communications Planning and Design Institute, China), Xinzhi Dang (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China), and Wancheng Yuan (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China)</i>	

Session 3: Smart City Infrastructure Engineering

A Summary of Studies on Main Factors of Earthquake Resistance of Urban Ramp Bridge	235
<i>Jinjun Li (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd.of CCCC.Beijing), Chenlei Su (China University of Petroleum), Xing Zhao (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd.of CCCC.Beijing), Jianbin Zhang (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd.of CCCC.Beijing), and Yongyong Fang (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd.of CCCC.Beijing)</i>	
An Improved Cellular Automaton with Unfixed Length Cell for Traffic Load Effect Analysis of Bridge	240
<i>Zhao Xuan (Chang'an University), Wang Shudong (Chang'an University), and Ye Chunsheng (Chang'an University)</i>	
Analysis of Dynamic Characteristics of Long-Span Railway Extradosed Bridge	245
<i>Weiqliang Guo (Fuzhou University), Bruno Briseghella (Fuzhou University), Junqing Xue (Fuzhou University), Xiaoye Luo (Fuzhou University), Quan Chen (Lanzhou Jiaotong University), and Fuyun Huang (Fuzhou University)</i>	
Analysis of Wind Field Parameters of Bridge Location Based on Wind Field Measurement	249
<i>Zhiqing Qin (Fujian Communications Planning and Design Institute Co., Ltd.), Huai Feng Wang (Xiamen University of Technology), Zhiwu Chen (Fujian Communications Planning and Design Institute Co., Ltd.), Qingsong Zheng (Fujian Communications Planning and Design Institute Co., Ltd.), Dandan Xia (Xiamen University of Technology), and Li Lin (Xiamen University of Technology)</i>	

Analyze the Aging Degree of Optical Cable in Accordance with the Change Degree of the Received Optical Power	255
<i>Shukai Zhang (Hunan Technical College of Railway High-speed College of Railway) and Haibing Dong (Hunan Institute of Technology)</i>	
Bridge Finite Element Model Updating Based on RBF and MODE Algorithm	259
<i>Yunpeng Zhao (Chang'an University), Ronghao Yang (Chang'an University), Zhigang Li (Chang'an University), and Haipeng Si (Chang'an University)</i>	
Calculation and Experimental Verification of Equivalent Damping Ratio of New-Pattern Corrugated Steel Web Composite Box Girder	264
<i>Wang Li (Lanzhou Jiaotong University), Liu Shizhong (Lanzhou Jiaotong University), Niu Sisheng (Gansu Provincial Department of Transportation), Lu Wei (Lanzhou Jiaotong University), and Qin Aobao (Lanzhou Jiaotong University)</i>	
Effects of Fluid-Structure Interaction on Nonlinear Seismic Response of Deep-Water Hollow Bridge Pier	269
<i>Zheng Wei (Wuhan University of Technology), Yulin Deng (Wuhan University of Technology), and Xiong Ge (Wuhan University of Technology)</i>	
Effects of Shear Stiffness of Stud Shear Connections in Steel-Concrete Plate Composite Beams on Seismic Response of Precast Assembly Hollow Piers	276
<i>Wei Yu Dou (Anhui Transportation Hold Group Co., Ltd.)</i>	
Energy-Based Seismic Design of Viscous Dampers for Long Span Bridges	281
<i>Huaisheng Ruan (China Railway Major Bridge Reconnaissance & Design Institute Co., Ltd.), Wei Wang (Guangzhou Municipal Engineering Design & Research Institute), Saad Riaz (Southwest Jiaotong University), and Kai Wei (Southwest Jiaotong University)</i>	
Experimental Study and Finite Element Analysis on Stress Transfer Mechanism of Retard-Bonded Prestressed Concrete Beams	288
<i>Yingxiang Wang (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC.), Xusheng Feng (China University of Petroleum.), Pengfei He (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC.), Luguang Wang (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC.), and Zhichao Chen (NO.8 Engineering Co., Ltd. of First Highway Engineering Co., Ltd. of CCCC.)</i>	
Influence of Far-Field Ground Motion on Seismic Response of Rocking Isolated Bridge Piers	294
<i>Shi Jun (Lanzhou Jiaotong University) and Xia Xiushen (Lanzhou Jiaotong University)</i>	
Influence of Joint Reinforcement Anchorage Detailing on the Seismic Performance of Double-Column Bridge Piers	299
<i>Liyuan Wang (Fuzhou University), Chaoyang Tang (Fujian Highway Administrative Bureau), Yongjian Chen (Fuzhou University), Siyang Ma (Fuzhou University), and Tianyu Zheng (Fuzhou University)</i>	
Multiscale Finite Element Model and Mechanical Analysis of a Cable-Stayed Bridge with Large Cantilever Spine Girder	305
<i>Zhu Yu (Anhui Transportation Holding Group Co., Ltd.)</i>	

Optimization Model for Calculating Capacity of Urban Road Segments	309
<i>Xiaodan Wu (Beijing Institute of Technology), Minqiao Li (Guangdong Fundway Technology Co., LTD.), and Guiping Lu (Beijing Institute of Technology)</i>	
Parametric Analysis of Transverse Load Distribution of the Spine-Like Beam with Long Cantilever	314
<i>Xiaohu Yao (Anhui Transportation Holding Group Co., Ltd.)</i>	
Performance Based Seismic Design of Precast Segmental Column Bridges and Quasi-Static Cyclic Test	319
<i>Tian-Hao Ma (Ningbo University), Jie He (Ningbo University), Yu-Wei Gong (Ningbo University), and Zhan-Yu Bu (Ningbo University)</i>	
Reconstruction Design of Urban Buildings in Historical Environment	323
<i>Li Zheng (South China University of Technology) and Xiaolan Huang (South China University of Technology)</i>	
Research on Combination of Seismic and Temperature Action Effects of Multi-span Long Continuous Girder	327
<i>Jianbin Zhang (Xiamen Road and Bridge Engineering Investment Development Co., Ltd, Xiamen, China), Xiao Yang (Department of Bridge Engineering Tongji University, Shanghai, China), and Xinzhi Dang (Department of Bridge Engineering Tongji University, Shanghai, China)</i>	
Research on Seismic Simplified Analysis Method Under Rare Earthquake Continuous Rigid Frame Bridge with Qualified CFST Stack	332
<i>Zhijing Ou (Fujian University of Technology), Jinze Wang (Fujian University of Technology), Jie Yu (Fujian University of Technology), Wenhao Xue (Fujian University of Technology), and Jianhuang Yan (Fujian University of Technology)</i>	
Research Progress on Structural Damage Identification in Civil Engineering	337
<i>Laijian Song (Southeast University), Shuai Li (Southeast University), Jingquan Wang (Southeast University), Zhen Wang (Southeast University), and Guotang Zhao (China Railway Corporation)</i>	
Seismic Performance Evaluation of FRP-Reinforced Beam Bridges Based on Vulnerability	345
<i>Zhi-jiang Meng (Chang'an University Highway College), Zhaotong Hu (Chang'an University Highway College), and Rui Li (Chang'an University Highway College)</i>	
Seismic Performance Test and Fem Analysis of Assembled Concrete Pier with Grouting Sleeve and Steel Tube Shear Connector	349
<i>Ou Zhijing (Fujian University of Technology), Xie Mingqin (Fujian University of Technology), Yu Jie (Fujian University of Technology), Xue Wenhao (Fujian University of Technology), and Yan Jianhuang (Fujian University of Technology)</i>	
Seismic Response of Rocking Double-Column Bridge Bents with External Hysteretic Dissipaters	353
<i>Yulong Zhou (Research Institute of Highway Science of Transport Ministry), Jinquan Zhang (Research Institute of Highway Science of Transport Ministry), Shoushan Cheng (Research Institute of Highway Science of Transport Ministry), Haifang He (Research Institute of Highway Science of Transport Ministry), Zhenhua Dong (Research Institute of Highway Science of Transport Ministry), and Han Qiang (Beijing University of Technology)</i>	

Study on Fatigue Resistance Parameters Design of Orthotropic Steel Bridge Deck Based on Response Surface Method	358
<i>Wang Shudong (Chang'an University), Zhao Xuan (Chang'an University), and Zhao Yunpeng (Chang'an University)</i>	
Study on Impact Resistance of Urban Prefabricated Bridge Piers Under Vehicle Impact Loadings	364
<i>He Jianshuai (Tongji University), Hu Xiao (Tongji University), Liu Chengdong (Tongji University), and Wang Junjie (Tongji University)</i>	
Study on Mitigation Performance of Hyperboloid Spherical Seismic Isolation Bearing for Long-Span High-Speed Railway Continuous Girder Bridge	372
<i>Wei Quan (Huangshan University), Xin Wen (Shenyang Jianzhu University), Zhi-qiang Zhang (Shenyang Jianzhu University,), and Dong-sheng Wang (Hebei University of Technology)</i>	
Study on Seismic Behavior of Single Tower Cable-Stayed Bridge with Overload Yield Bearing in High-Intensity Regions	379
<i>Xuemei Zong (China United Northwest Institute for Engineering Design Research Co., Ltd), Pingjun Liu (Chang'an University), Fang Yang (China United Northwest Institute for Engineering Design Research Co., Ltd), Gang Liu (China United Northwest Institute for Engineering Design Research Co., Ltd), and Mi Zhou (Chang'an University)</i>	
Study on Temperature Stress and Temperature Deformation of Rectangular Hollow Thin Wall High Pier of High-Speed Railway Bridge	387
<i>Jianning Li (Lanzhou Jiaotong University), Wei Lu (Northwest Minzu University), Haowei Gu (Northwest Minzu University), and Jia Wang (Lanzhou Jiaotong University)</i>	
The Effects of BFRP Application on Seismic Capacity of Prefabricated Bridge Columns	394
<i>Dingzhi Jiang (Nanjing University of Science and Technology), Rongqing Xie (Xiamen Road and Bridge Engineering Investment Development Co., Ltd), Luyu Lin (Xiamen Road and Bridge Engineering Investment Development Co., Ltd), Yuye Zhang (Nanjing University of Science and Technology), and Wancheng Yuan (Tongji University)</i>	
The Mechanical Behavior of Predrilled-Hole Concrete Micro-Pile in Integral Abutment Jointless Bridges (IAJBs)	399
<i>Fuyun Huang (Fuzhou University), Yulin Shan (Fuzhou University), Lingfeng He (Fuzhou University), Zhengfeng Liu (Fuzhou University), and Zhiming Zhou (Fuzhou University)</i>	
The Performance of the North Approach Bridge of the Songyuan Bridge in Series Songyuan Earthquakes	405
<i>Yong Huang (China Earthquake Administration) and Guangming Xie (China Earthquake Administration)</i>	

Session 4: Electrical Engineering and Electric Circuits and Electronics

Aero Engine Condition Evaluation Based on D-S Evidence Theory	413
<i>Xinghua Zhao (School of Safety Engineering, Shenyang Aerospace University, Shenyang, China) and Xiao Wang (School of Safety Engineering, Shenyang Aerospace University, Shenyang, China)</i>	

A Permanent Magnetic Brushless Generator with Magnetic Circuit Control	416
<i>Yizhu Fang (Guangdong Institute of Electrical and Mechanical Vocational Technology, China), Zongmei Hu (Guangdong Institute of Electrical and Mechanical Vocational Technology, China), Yingdu Hong (Guangdong Institute of Electrical and Mechanical Vocational Technology, China), and Yimou Chen (Guangdong Institute of Electrical and Mechanical Vocational Technology, China)</i>	
Analysis on Anti-Jamming Performance Test Method of Communication System in New Energy Power Plant .	420
<i>Hao Wang (Shandong Electric Power Engineering Consulting Institute Crop., Ltd), YuanBing Liu (Shandong Electric Power Engineering Consulting Institute Crop., Ltd), Jun Fu (Shandong Electric Power Engineering Consulting Institute Crop., Ltd), and Zhaohui Shi (Shandong Electric Power Engineering Consulting Institute Crop., Ltd)</i>	
Application of Quasi -Dimensional Turbulent Combustion Model in Combustion Cycle Analysis of Gasoline Engine	424
<i>Bengai Shi (Guangdong Mechanical & Electrical Polytechnic, China), Yizhuo Fang (Guangdong Mechanical & Electrical Polytechnic, China), Shaokai Lian (Guangdong Mechanical & Electrical Polytechnic, China), and Shuowen Liao (Guangdong Mechanical & Electrical Polytechnic, China)</i>	
DDA Analysis of Long-Term Stability of Left Abutment Slope of Jinping I Hydropower Station	427
<i>Zhengqi Lei (State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin, China Institute of Water Resources and Hydropower Research), Guoxin Zhang (State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin, China Institute of Water Resources and Hydropower Research), and Haifeng Li (State Key Laboratory of Simulation and Regulation of Water Cycle in River Basin, China Institute of Water Resources and Hydropower Research)</i>	
Economic Analysis Method for Peak Shaving of Wind Storage Combined System Considering Energy Storage Participating In Peak Shaving	431
<i>Yuliang Wan (State Grid East Inner Mongolia Electric Power Company), Xin Liu (State Grid East Inner Mongolia Electric Power Company), Xiaodan Wu (State Grid East Inner Mongolia Electric Power Company), and Quanzhi Liu (Northeast Electric Power University)</i>	
Energy Efficiency Optimization of Super Dense Heterogeneous Network Based on Improved Genetic Algorithm	435
<i>Zhe Niu (Lanzhou Jiaotong University, China) and Zhanjun Jiang (Lanzhou Jiaotong University, China)</i>	
Identification and Detection of DC Arc Fault in Photovoltaic Power Generation System	440
<i>Jun Yang (State Grid Qinghai Electric Power Company) and Yukai Wang (Northeast Electric Power University)</i>	
Optimization Model for Coupled Wind and Thermal Power Transmission of Large-Scale Wind Power Transmission Grid	445
<i>Wang Feng (China Electric Power Research Institute), Chen Huifen (Henan Electric Power Control Center), Wang Yue (China Electric Power Research Institute), and Xu Yizheng (China Electric Power Research Institute)</i>	

Research on DC Motor Driver in Automobile Electric Power Steering System	449
<i>Jindong Li (Dalian Neusoft University of Information, Dalian, Liaoning, China)</i>	
Research on the Application of Electronic Technology of Internet of Things in Smart City	454
<i>Hongyang He (Electronic and Information Institute, Guangdong Polytechnic Normal University, China)</i>	
Risk Assessment Method for Combined Air Storage System Based on Wind Power Uncertainty	458
<i>Lu Chen (State Grid East Inner Mongolia Electric Power Company), Xiaodan Wu (State Grid East Inner Mongolia Electric Power Company), Jian Wu (State Grid East Inner Mongolia Electric Power Company), and Jinbo Jiao (Northeast Electric Power University)</i>	
Study of Cathodic Protection System for Oil Well Casings Based on Pulse Current	463
<i>Julian Ma (Xi'an Shiyou University), Xiaoxiang Zhang (Xi'an Shiyou University), Wang Yuan (Xi'an Shiyou University), and Haobin Zhou (Xi'an Shiyou University)</i>	
Unit Commitment Optimization Model of Wind Storage Combined System Considering Peak Load Regulation of Energy Storage System	468
<i>Xiang Song (State Grid East Inner Mongolia Electric Power Company), Chen Peng (State Grid East Inner Mongolia Electric Power Company), Su Peng (State Grid East Inner Mongolia Electric Power Company), and Zhang Zhongyue (Northeast Electric Power University)</i>	
A Real-Time Computer Network Trend Analysis Algorithm Based on Dynamic Data Stream in the Context of Big Data	473
<i>Limin Feng (Wuhan Textile University, China)</i>	
A Three-Dimensional Localization Algorithm with Multiple Communication Radii and Hybrid Intelligence.....	477
<i>Pingzhang Gou (Northwest Normal University), Xuezhi Liu (Northwest Normal University), Mengyuan Sun (Northwest Normal University), and Bo He (Northwest Normal University)</i>	
An Optimized New Metropolitan Area Network Architecture Design	482
<i>Lei Zhang (Hexi University) and Shaowen Liao (Hexi University)</i>	
Beamforming Technology Based on Multi-cell 3D MIMO System	485
<i>Zhaohua Zeng (Xi'an University of Science and Technology, China), Xiangrui Zhang (Xi'an University of Science and Technology, China), and Yue Hu (Xi'an University of Science and Technology, China)</i>	
Design and Application of Civil Engineering Experimental Teaching Management Platform in Mobile Environment	489
<i>Jun Li (Ningbo University of Technology, China), Yang Feng (Zhejiang Heli Construction Special Technology Co., Ltd., China), and Liu Jing (Zhejiang Heli Construction Special Technology Co., Ltd., China)</i>	
Design and Implementation of Network Intrusion Detection System	494
<i>Zhenhai Mu (Guilin University of Aerospace Technology, China), Haoran Liu (Guilin University of Aerospace Technology, China), and Chenglong Liu (Guilin University of Aerospace Technology, China)</i>	
Design of Intelligent Scenic Area Guide System Based on Visual Communication	498
<i>Jing Zhou (Shandong Women's University, China)</i>	

Design of Monitoring System for Classroom Environment Parameter Based on Wireless Communication	502
<i>Zhidong Liu (Tianjin Sino-German University of Applied Sciences, China), Liqing Geng (Tianjin University of Technology and Education, China), and Yanfeng Xu (Tianjin University of Technology and Education, China)</i>	
Design of On-Line Detection and Training Device for Certain Wireless Communication Equipment	506
<i>Dawei Wang (Army Engineering University of PLA), Huiyu Nie (Army Engineering University of PLA), Weiqing Tian (Army Engineering University of PLA), Xinglong Zhao (Army Engineering University of PLA), and Xiangin Tan (Army Engineering University of PLA)</i>	
Distortion Signal Sensing Technology of Wireless Optical Fiber Communication Network Based on Greedy Algorithm	510
<i>Duanzheng Hou (Changji University, China) and Yajun Zhang (Xinjiang University, China)</i>	
Full-Time Infrared Feature Pedestrian Detection Based on CSP Network	516
<i>Yu Song (Xi'an Research Institute of Hi-Tech, China; National University of Defense Technology, China), Min Li (Xi'an Research Institute of Hi-Tech, China), Xiaohua Qiu (Xi'an Research Institute of Hi-Tech, China; Engineering University of PAP, China), Weidong Du (Xi'an Research Institute of Hi-Tech, China; Engineering University of PAP, China), and Jin Feng (National University of Defense Technology, China)</i>	
Optimal Placement of Sensors Based on Clustering-Effective Independent Method	519
<i>Zhaolan Wei (Sichuan Agricultural University, China) and Jing Xia (Sichuan Agricultural University, China)</i>	
Optimization of Wireless Sensor Network for Dairy Cow Breeding Based on Particle Swarm Optimization	524
<i>Yanmin Wang (Jilin Business and Technology College, China)</i>	
Research on Communication Technology of Ship Integrated Monitoring System Based on OPC	528
<i>Xi Luo (Dalian Neusoft University of Information, China)</i>	
Research on Energy Saving Algorithm in Wireless Sensor Network Based on Mobile Agent	532
<i>Bingyue Liu (Dalian Neusoft Institute of Information, China) and Xu Zhao (Dalian Neusoft Institute of Information, China)</i>	
Research on the Application of Big Data and Artificial Intelligence Technology in Computer Network Technology	536
<i>Yi Feng (Newcastle University, United Kingdom)</i>	
Research on the Application of Network Visualization Technology in the Health Care of Traditional Chinese Medicine	540
<i>Qian Guo (Shanxi Institute of International Trade & Commerce, Xi'an)</i>	
Research on the Communication Mode of Big Data Technology in the Field of Dongba Character Graphic Design	543
<i>Luyao Li (Xi'an Polytechnic University), Hongyan Cong (Xi'an Polytechnic University), and Xin Li (Xi'an Polytechnic University)</i>	
Smart Home System Based on Embedded Control and Wireless Communication	547
<i>Gangling Liu (Guilin University of Aerospace Technology, China) and Xu Chen (Guilin University of Aerospace Technology, China)</i>	

Study on Weak Signal Perception of Optical Communication Network System Based on Double Sparse Dictionary Model	551
<i>Duanzheng Hou (Changji University, China) and Yajun Zhang (Xinjiang University, China)</i>	

Session 5: Big Data and Web Application

A Study on the Spatial and Temporal Distribution of Population in Yunnan Province Based on BigDate	555
<i>Mei Pan (Tourism and Geography College of Yunnan Normal University, Yunnan Kunming), Lede Niu (Tourism and Geography College of Yunnan Normal University, Yunnan Kunming), and Yanrong He (Tourism and Geography College of Yunnan Normal University, Yunnan Kunming)</i>	
An Automatic Page Code Generation Method Based on Excel Template and Poi Technology	560
<i>Xiangfei She (Changchun Institute of Technology) and Yongchun Zheng (Changchun Institute of Technology)</i>	
An Intelligent Skin Color Detection Method Based on FCM with Big Data	565
<i>Chih-Huang Yen (Minnan Normal University, China) and Po-Kai Yang (Minnan Normal University, China)</i>	
Application of Differential Privacy in Location Trajectory Big Data	569
<i>Hongling Liu (Guangzhou Nanyang Polytechnic, China) and Wan Di (Guangzhou Nanyang Polytechnic, China)</i>	
IHS for QoS Satisfaction Degree Based Web Service Composition Optimal Model	574
<i>Qingjun Wang (Dalian Neusoft University of Information, China), Minghua Chen (Dalian Neusoft University of Information, China), Na Chu (Dalian Neusoft University of Information, China), and Xiaoying Song (Dalian Neusoft University of Information, China)</i>	
Innovative Research on the Training Mode of Accounting Professionals Under the Environment of Big Data	579
<i>Yan Zhang (Tongling University, China)</i>	
New Employee Student Repast Big Data Analysis Research Application	583
<i>Zhenkai Li (State Grid of China Technology College)</i>	
Optimization of Server Scheduling Based on Cloud Platform	587
<i>Xiaotian Wang (Dalian Neusoft University of Information, China)</i>	
Patent Protection for Artificial Intelligence in Europe	591
<i>Lin Wang (Shanghai University of Political Science and Law, China) and Shuijing Hu (Shanghai University of Political Science and Law, China)</i>	
Research on Archives Database Construction Based on Heritage Protection in Ancient Towns of Yunnan	595
<i>Yongzhi Wang (Yunnan Open University, China)</i>	
Research on Enterprise Human Resource Management Under the Background of Big Data	600
<i>Zheng Xie (Hunan City University)</i>	
Research on the Entrepreneurship Practice of College Huizhou Merchants Based on Big Data	604
<i>X in Gao (Qingdao University of Technology)</i>	
Research on the Impact of Active Finance on Household Consumption Based on Big Data Analysis	608
<i>Lianguang Mo (Hunan City University)</i>	

Research on the Influence of Information Technology on Education Under the Background of Big Data	612
<i>Shaoqiong Xia (South China Institute of Software Engineering Guangzhou University, China)</i>	
Research on the Management Mode of Graduate Students in Colleges and Universities Based on Big Data	617
<i>Juan Li (Wuhan University of Technology, China)</i>	
Research on Types and Data Characteristics of Freeway Escape in Henan Province	621
<i>Yige Wang (Henan Highway Network Monitoring and Charging Communication Service Co., Ltd., China), Feiya Li (Henan Highway Network Monitoring and Charging Communication Service Co., Ltd., China), Xiao Cui (Henan Highway Network Monitoring and Charging Communication Service Co., Ltd., China), and Li Zhang (Research Institute of Highway Ministry of Transport, China)</i>	
Showing the Brilliance of Human Nature of Mathematics Under the Concept of Cultural Education	626
<i>Shu-e Sun (Xi'an Shiyou University, China)</i>	
Subglacial Lakes, Drainage Pathways and Basins Beneath the Antarctic Ice Sheet Based on the Remote Sensing Big Data	631
<i>Qiuyang Zhao (Hubei Polytechnic University, China; Wuhan University, China)</i>	
The Relationship Between the Construction of Smart City and Residents' Subjective Well-Being: An Empirical Analysis Based on CFPS and CGSS Data	635
<i>Pengpeng Yang (Xi'an International Studies University), Haojie Dong (Xi'an International Studies University), and Min Wang (Xi'an International Studies University)</i>	
The Research of Data Recovery on Windows File Systems	644
<i>Na Zhang (Dalian Neusoft University of Information, China), Ying Jiang (Dalian Neusoft University of Information, China), and Jia Wang (Dalian Neusoft University of Information, China)</i>	

Session 6: Information Logistics and E-Commerce

Analysis on the Influence and Countermeasures of Big Data in Military Logistics Support	648
<i>Ying Zeng (Officers college of PAP, China)</i>	
Optimization Method of Cross-Border E-Commerce Logistics Distribution Route Based on Improved Genetic Algorithm	652
<i>Jian Quan Fu (Shi Jia Zhuang University of Applied Technology)</i>	
Research on the Intelligent Assessment Method of Rural Financial Risks Under Supply-Side Structural Reform	658
<i>Ning Li (Harbin Finance University, China)</i>	
Research on Big Data's Prevention Technology of Financial Systemic Risk	663
<i>Tingting Zhang (Harbin Finance University, China)</i>	
Research on E-Commerce Potential Client Mining Applied to Apriori Association Rule Algorithm	667
<i>Liandi Zheng (Liaoning JianZhu Vocational College, China)</i>	
Research on Reconstruction of Emergency Decision-Making System Based on Big Data	671
<i>Jun Wang (Central South University, China)</i>	

Research on Smartphone Marketing Method Based on Social Big Data	675
<i>Huan Ni (Sichuan University, China), Renshu Zuo (Sichuan University, China), and Chun Chen (Sichuan University, China)</i>	
Research on Tax Collection and Administration Based on Big Data Analysis	679
<i>Lijun Wang (Jilin Engineering Normal University)</i>	
Research on the Accurate Identification Method of College Students with Financial Difficulties Based on Big Data	683
<i>Min Zhu (Wuhan University of Technology, China)</i>	
Research on the Application of Big Data in Industrial Structure Adjustment and Economic Indexes	687
<i>Huili Zhang (Shandong Management University, China)</i>	
Research on the Application of Big Data Technology in Electronic Commerce Supply Chain	691
<i>Song Ziang (Yunnan Technology and Business University, China) and Baohua Li (Yunnan Technology and Business University, China)</i>	
Research on the Risk and Supervision Method of Big Data Application in Financial Field	695
<i>Ruobing Yang (Shanxi University of Finance and Economics, China)</i>	
Research on the Supervision Method of Big Data Technology in the Systemic Risk of Internet Finance in China	699
<i>Xin Wang (The Harbin Finance University) and Jun Ma (The Economics College of the Liaoning University)</i>	

Session 7: Information Management and System Engineering

A Context-Aware Collaborative Filtering Recommender System Based on GCNs	703
<i>Bao Chen (Wuhan University of Science and Technology, China; Beijing United Information Center of Science-Technology-Economy) and Haitao Xie (Wuhan University of Science and Technology, China; Beijing United Information Center of Science-Technology-Economy)</i>	
An Adaptive Deep Learning Model for Smart Home Autonomous System	707
<i>Zhihao Peng (Dalian Neusoft University of Information, China), Xucheng Li (Dalian Neusoft University of Information, China), and Fenglong Yan (Dalian Neusoft University of Information, China)</i>	
An Industrial Environmental Security Monitoring System in Mobile Device Based on Soft PLC	711
<i>Fenglong Yan (Dalian Neusoft University of Information), Hui Zhou (Dalian Neusoft University of Information), ZhiHao Peng (Dalian Neusoft University of Information), Minghua Chen (Dalian Neusoft University of Information), YaoHua Xiong (Dalian Neusoft University of Information), and Zheng Ren (Dalian Neusoft University of Information)</i>	
Analysis and Design of a Context-Aware Smart Home System	716
<i>Lin Zhao (Dalian Neusoft University of Information, China) and Zhihao Peng (Dalian Neusoft University of Information, China)</i>	
Application of Personalized Recommendation Technology in MOOC System	720
<i>Xu Zhao (Dalian Neusoft University of Information, China) and Bingyue Liu (Dalian Neusoft University of Information, China)</i>	
Block Chain Digital Invoice System Risk Assessment and System Development Research	724
<i>Gaohe Li (Xi'an Shiyou University, China), Sicheng Sun (Xi'an Shiyou University, China), and Xinhao Li (Xi'an Shiyou University, China)</i>	

Compound Micro-Expression Recognition System	728
<i>Yue Zhao (Northwestern Polytechnical University) and Jiancheng Xu (Northwestern Polytechnical University)</i>	
Continuous Box-Girder Bridge Condition Assessment Based on Structural Health Monitoring System: A Case Study	734
<i>Chuang Chen (Zhejiang University), Yinhui Wang (Zhejiang University), Mosbeh R. Kaloop (Mansoura University), Tao Wang (Zhejiang University), and Jiaying Ma (Zhejiang University)</i>	
Deep Learning Model for Human Activity Recognition and Prediction in Smart Homes	741
<i>Cheng Wang (Dalian Neusoft University of Information, China) and Zhihao Peng (Dalian Neusoft University of Information, China)</i>	
Design of Motion Recognition System for Semiconductor Device Classification and Recognition	745
<i>Jian Xiao (Xi'an University of Science & Technology, China) and Baiping Li (Xi'an University of Science & Technology, China)</i>	
Humidity Automatic Observation System	749
<i>Zhenhai Mu (Guilin University of Aerospace Technology, China), Haoran Liu (Guilin University of Aerospace Technology, China), and Jinhua Zhang (Guilin University of Aerospace Technology, China)</i>	
Image Restoration and Enhancement in Monitoring Systems	753
<i>Chengxu Ma (Guangxi Normal University), Shangyou Zeng (Guangxi Normal University), and Daihui Li (Guangxi Normal University)</i>	
Intelligent Building Planning System Based on BIM and Artificial Intelligence	761
<i>Huwei Zhang (Liaoning Jianzhu Vocational College, China)</i>	
Quantitative Analysis of Construction Site Risk and Threshold of the Early Warning System	765
<i>Lichao Guo (Tongji University)</i>	
Realistic Interaction System for Human Hand in Virtual Environments	772
<i>Wei Quan (Changchun University of Science and Technology), He Yang (Changchun University of Science and Technology), Cheng Han (Changchun University of Science and Technology), and Yinong Li (Changchun University of Science and Technology)</i>	
Research and Realization of Real Estate Sales System Based on VR Technology	779
<i>Jinhui Wei (Jilin University, China)</i>	
Research on an Improved CNN Speech Recognition System Based on Hidden Markov Model	783
<i>Zhikang Chen (Tianjin Key Laboratory of Information Sensing and Intelligent Control, Tianjin University of Technology and Education), Jia Liu (Tianjin Key Laboratory of Information Sensing and Intelligent Control, Tianjin University of Technology and Education), and Yunxi Zhang (Tianjin Key Laboratory of Information Sensing and Intelligent Control, Tianjin University of Technology and Education)</i>	
Research on Control Method of Intelligent Air-Conditioning System in Smart City	787
<i>Jiao Long (Chongqing Industry Polytechnic College, China)</i>	
Research on Intelligent Monitoring Scheme for Microservice Application Systems	791
<i>Ying Jiang (Dalian Neusoft University of Information, China), Na Zhang (Dalian Neusoft University of Information, China), and Zheng Ren (Dalian Neusoft University of Information, China)</i>	

Research on the Application of Big Data in the Field of Strategic Management of Cultural Industry	795
<i>Chun Chen (Sichuan University, China), Renshu Zuo (Sichuan University, China), and Huan Ni (Sichuan University, China)</i>	
Research on the Application of Big Data in the Informatization of Higher Education Management Mode	799
<i>Jing Liang (Xi'an Medical University)</i>	
Research on the Construction and Application of Desktop Virtual Reality Teaching System	803
<i>Hongling Liu (Guangzhou Nanyang Polytechnic, China)</i>	
Research on the Design of Waste Battery Recycling and Intelligent Management System	807
<i>Jialong Song (Zhuhai College of Jilin University, China) and Xianhe Wang (Zhuhai College of Jilin University, China)</i>	
Study on Design of Port Truck Reservation Information System	811
<i>Linlin Zhao (Beijing Jiaotong University) and Lei Huang (Beijing Jiaotong University)</i>	
The Application of UML in the Modeling of Automation Laboratory Management System	816
<i>Chunxiao Shi (South China Agriculture University) and Hongxiang Ge (South China Agriculture University)</i>	
The Application Prospect of NB-IoT in Intelligent Indoor Ventilation System	820
<i>Xu Li (Guilin University of Electronic Technology, China), Meng Wang (Guilin University of Electronic Technology, China), and Tianming Chen (Guilin University of Electronic Technology, China)</i>	
Tumor Diagnosis Assistant System Design Based on Data Mining Technology	824
<i>Yan Li (GuangDong Lingnan Vocational and Technical College, China) and Gaihua Li (GuangDong Lingnan Vocational and Technical College, China)</i>	

Session 8: Intelligent Computation and Automation

A Chinese-English Machine Translation Model Based on Deep Neural Network	828
<i>Yamin Wu (Wuhan Polytechnic, China)</i>	
A Hybrid Clustering Process for Improving the Computational Efficiency of Automatic Analysis Stability Diagrams	832
<i>Suqiang Wen (Chang'an University, China) and Xiangyu Zhao (Chang'an University, China)</i>	
A Low Complexity MMSE Hybrid Precoding Algorithm	837
<i>Zhaohua Zeng (Xi'an University of Science and Technology, China), Liqi Jia (Xi'an University of Science and Technology, China), and Mi Shao (Xi'an University of Science and Technology, China)</i>	
A New Algorithm for Backlight Image Enhancement	840
<i>Chengxu Ma (Guangxi Normal University, China), Shangyou Zeng (Guangxi Normal University, China), and Daihui Li (Guangxi Normal University, China)</i>	
An Algorithm for Detecting the HOG Features of Head and Shoulder of Football Players Based on SVM Classifier	845
<i>Xuejun Wang (Guilin University of Aerospace Technology, China), Zhiguo Zhou (Northeast Normal University, China), Yun Li (Guilin University of Aerospace Technology, China), and Zhigang Jin (Tianjin University, China)</i>	

An Efficient Sports Navigation Method Based on NFC Technology	850
<i>Xuejun Wang (Guilin University of Aerospace Technology, China), Zhiguo Zhou (Northeast Normal University, China), Yun Li (Guilin University of Aerospace Technology, China), and Zhigang Jin (Tianjin University, China)</i>	
Appearance Detection Method of Resistance Based on Deep Learning	856
<i>Shancheng Tang (Xi 'an university of Science & Technology, China), Xiongxiang Chen (Xi 'an university of Science & Technology, China), Puyue Zhang (Xi 'an university of Science & Technology, China), Ming Chen (Xi 'an university of Science & Technology, China), and Hanbo Wang (Xi 'an university of Science & Technology, China)</i>	
Application of Improved Canopy Algorithm in Customer Clustering	860
<i>Xinxin Shao (Dalian Neusoft University of Information, China) and Limei Fu (Dalian Neusoft University of Information, China)</i>	
Automated Operational Modal Analysis Based on DBSCAN Clustering	864
<i>Chunsheng Ye (Chang'an University) and Xuan Zhao (Chang'an University)</i>	
Data Visualization for Making Sense of Scientific Literature	870
<i>Huanqin Ji (Guangdong University of Technology, China) and Wei Gan (Guangdong University of Technology, China)</i>	
Extraction of Thermos Cup Contour Based on Optimized Edge Feature and Line Detection	874
<i>Gang Wang (Central South University, China) and Hao-Yu Yang (Central South University, China)</i>	
Finite Element Analysis of Passive Bevel Gear of Crusher	878
<i>Lianjiang Xu (Yunnan Open University, China) and HaiYan Sun (Yunnan Open University, China)</i>	
Fruit Classification Model Based on Improved Darknet53 Convolutional Neural Network	881
<i>Hui Wang (Minzu University of China), Fan Zhang (Minzu University of China), and Li Wang (Minzu University of China)</i>	
Image Annotation Method Based on Graph Volume Network	885
<i>Zhouhua Zhu (Xi'an University of Science & Technology, China) and Zhou Hangchi (Xi'an University of Science & Technology, China)</i>	
Individual-Based Cuffless Continue Estimation of Blood Pressure Measurement: Using Multiple Pulse Transmit Time	889
<i>Kexin Chen (Tsinghua Shenzhen International Graduate School, China), Xiaoqing Zhang (Beijing Tongren Hospital, Capital Medical University, China), Qingyan Zou (Tsinghua Shenzhen International Graduate School, China), and Xingjun Wang (Tsinghua Shenzhen International Graduate School, China)</i>	
Intrusion Detection Algorithm of EPSO Combined with BP Neural Network	893
<i>Tao Liu (Xi'an University of Science and Technology, China), Jun Yao (Xi'an University of Science and Technology, China), and Qian Sun (Northwest University, China)</i>	
Optimization Strategy of BP Neural Network for Software Reliability Prediction	897
<i>Zhaomin Li (Wuhan Business University, China)</i>	
Programming of English Word Review Planning Time Based on Ebinhaus Forgetting Curve	901
<i>Dandan Zhu (Wuhan Huaxia University of Technology, China)</i>	

Real and Fake Label Image Classification Algorithm Based on HOG and SVM	905
<i>Baiping Li (Xi'an University of Science & Technology, China) and Bo Wang (Xi'an University of Science & Technology, China)</i>	
Recognition and Classification of Ornamental Fish Image Based on Machine Vision	910
<i>Jingpu Liang (Hunan Agricultural University, China), Zhuojun Fu (Hunan Agricultural University, China), Xibo Lei (Hunan Agricultural University, China), Xiaopeng Dai (Hunan Agricultural University, China), and Baolu Lv (Hunan Agricultural University, China)</i>	
Research and Implementation of Face Detection, Tracking and Recognition Based on Video	914
<i>Limei Fu (Dalian Neusoft University of Information, China) and Xinxin Shao (Dalian Neusoft University of Information, China)</i>	
Research on Image Complexity Description Method Based on Approximate Entropy	918
<i>Hong Zhang (Xi'an University of Science and Technology, China), Jiongwei Dong (Xi'an University of Science and Technology, China), Shasha He (Xi'an University of Science and Technology, China), and Shengze Lv (Xi'an University of Science and Technology, China)</i>	
Research On Tag Recommendation Based on Multiple Keywords	921
<i>Lei Shang (Beijing Institute of Graphic Communication) and Fucheng You (Beijing Institute of Graphic Communication)</i>	
Research on Target Recognition Method Based on Integrated Learning	927
<i>Xin Cao (Dalian Neusoft Institute of Information, China), Na Chu (Dalian Neusoft Institute of Information, China), and Hao Lin (Dalian Neusoft Institute of Information, China)</i>	
Research on the Application of Artificial Intelligence Technology in Public Product Design of Intelligent Scenic Spot	930
<i>Yilin Deng (Guilin University of Technology, China; Hanseo University, Korea), Sang-Yun Han (Hanseo University, Korea), Wenyu Fan (Hanseo University, Korea), and Tiancong Sun (Hanseo University, Korea)</i>	
Research on UWB / IMU Fusion Positioning Technology in Mine	934
<i>Fengbo Wu (Xi'an University of Science & Technology, China) and Zhaoqi Liu (Xi'an University of Science & Technology, China)</i>	
Single-Image Super-Resolution Based on Morphological Component Analysis and Coupled Dictionary Learning In Wavelet Domain	938
<i>Wenbin Li (Beijing University of Technology, China), Wenzhe Zhu (Beijing University of Technology, China), and Qing Zhu (Beijing University of Technology, China)</i>	
Study on the Temporal and Spatial Variation of Phosphorus	942
<i>Liang Wang (China Institute of Water Resources and Hydropower Research), Zhong Li (China Institute of Water Resources and Hydropower Research), Chang Liu (China Institute of Water Resources and Hydropower Research), Shiyan Wang (China Institute of Water Resources and Hydropower Research), Zhen Han (China Institute of Water Resources and Hydropower Research), and Yanliang Du (China Institute of Water Resources and Hydropower Research)</i>	
Text Summarization Generation Based on Semantic Similarity	946
<i>Jingjing Chen (Beijing Institute of Graphic Communication) and Fucheng You (Beijing Institute of Graphic Communication)</i>	

Session 9: Model, Simulation and Optimization

A Smart Graduation Thesis Templates Parsing and Generation Model	950
<i>Xucheng Li (Dalian Neusoft University of Information, China), Zhihao Peng (Dalian Neusoft University of Information, China), Wei Sun (Dalian Neusoft University of Information, China), and Xixin Chen (Dalian Neusoft University of Information, China)</i>	
A Word Representation Method Based on Glyph of Chinese Character	954
<i>Shancheng Tang (Xian University of Science & Technology, China), Puyue Zhang (Xian University of Science & Technology, China), Xiongxiang Chen (Xian University of Science & Technology, China), Hanbo Wang (Xian University of Science & Technology, China), and Ming Chen (Xian University of Science & Technology, China)</i>	
Aircraft Engine Maintenance Based on Reinforcement Learning	958
<i>Xuedong Xu (Shenyang Aerospace University, China) and Xiao Wang (Shenyang Aerospace University, China)</i>	
An Innovative Risk Evaluation Model for Undergraduate New Entrepreneurship	961
<i>Biaoxin Chen (Guangdong University of Science and Technology, China) and Luo Ming (Guangdong University of Science and Technology, China)</i>	
Comparative Study on Patent Eligibility of Artificial Intelligence in the United States, China and Japan	965
<i>Shuijing Hu (Shanghai University of Political Science and Law, China)</i>	
Experiment Test and Numerical Simulation of Cable-Sliding Friction Aseismic Bearing with Buffer	969
<i>Guoyu Shen (Tongji University, China), Huai-feng Li (Shandong Provincial Communications Planning and Design Institute, China), Changyong Zhang (Shandong Provincial Communications Planning and Design Institute, China), Xinzhi Dang (Tongji University, China), and Wancheng Yuan (Tongji University, China)</i>	
Experimental Study on Anchorage Performance of Large Diameter Plain Round CFRP Tendon Compressed Anchor	974
<i>Yang Kelong (Ningbo University), Zhu Geping (Ningbo University), Huang ZeJu (Ningbo University), Qian Dengchao (Highway and Transportation Management Center of Wenzhou), and Wang Dejie (Transportation Bureau of Ninghai County)</i>	
Experimental Study on Local Scour Around Caissons with Different Shapes Under the Unidirectional and Tidal Currents	979
<i>Qiqi Xiang (Southwest Jiaotong University), Kai Wei (Southwest Jiaotong University), Changrong Yao (Southwest Jiaotong University), Mingjin Zhang (Southwest Jiaotong University), and Yadong Li (Southwest Jiaotong University)</i>	
Fault Diagnosis and Simulation of Photovoltaic Array Based on M File	985
<i>Xianshuang Zong (Anhui Post and Telecommunication College), Zhenling Huang (Anhui Post and Telecommunication College), Hong Qin (Anhui Post and Telecommunication College), and Anqin Li (Anhui Post and Telecommunication College)</i>	

High Dimensional Massive Data Processing Based on Locality-Sensitive Hashing and Double-Layer Skiplist	990
<i>Yuxuan Ma (Harbin Institute of Technology), Xin Hao (Harbin University of Science and Technology), Shenghui Liu (Harbin University of Science and Technology), Haining Yu (Harbin Institute of Technology), and Chao Ma (Harbin University of Science and Technology)</i>	
Justification of the Economic Efficiency of a Rational Method to Increase the Snow Accumulation at the Fields	994
<i>Hong Liu (Lanzhou Jiaotong University, China) and Madi Kuntuarov (Lanzhou Jiaotong University, China)</i>	
Optimal IMs for Seismic Demand Modeling of Girder Bridges Subjected to Pulse-Like Ground Motions	998
<i>Junjun Guo (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China), Yongliang Song (Xiamen Road and Bridge Engineering Investment Development Co., Ltd, China), Lianhu Wang (Xiamen Road and Bridge Engineering Investment Development Co., Ltd, China), Wancheng Yuan (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China), and Xinzhi Dang (State Key Laboratory of Disaster Reduction in Civil Engineering, Tongji University, China)</i>	
Research of Genomic Problems Based on Improved Particle Swarm Optimization	1004
<i>Yuxi Gao (Engineering College, Jilin Business and Technology College, China)</i>	
Research on Photocatalytic Properties of TiO ₂ Nanotube Arrays	1008
<i>Chong Wang (Heilongjiang University, China) and Yanwei Dou (Heilongjiang University, China)</i>	
Research on Privacy Protection of Indoor Temperature Acquisition Based on MapReduce Model	1012
<i>Jinglu Zhang (Beijing Polytechnic, China) and Xiuqing Yang (Beijing Polytechnic, China)</i>	
Seismic Performance of Precast Segmental Bridge Columns on the Basis of Bouc-Wen Hysteresis Model	1016
<i>Hanhui Ye (Ningbo University) and Zhanyu Bu (Ningbo University)</i>	
Shear Strength Study of Cohesive Sediment in The Lower Yellow River	1021
<i>Linjuan Xu (Yellow River Institute of Hydraulic Research), Wei Wei (Zhengzhou University of Light Industry), and Zhenghui Zhou (Henan Luohe River Hydrology and Water Resources Survey Bureau)</i>	
Short Term Prediction Method of Financial Crisis Based on Artificial Intelligence	1026
<i>Meirong Zhou (Ezhou Vocational University, China)</i>	
Shortage of Water Resources in Jaffna Peninsula of Sri Lanka	1030
<i>You Li (Chinese Academy of Sciences), Du Jianqing (University of Chinese Academy of Sciences), Hu Chunming (Chinese Academy of Sciences), and Liu Ping (Chinese Academy of Sciences)</i>	
Simulation of Linear Block Code Encoding and Decoding Based on MATLAB	1039
<i>Mengting Yan (Xian University of Science & Technology, China), Xinlan Ge (Xian University of Science & Technology, China), Xun Jia (Xian University of Science & Technology, China), Xinglin Yang (Xian University of Science & Technology, China), and Zhenyan Li (Xian University of Science & Technology, China)</i>	

SMA Negative Stiffness Damper	1043
<i>Hua-hui Chang (Guangzhou University), Sa-sa Cao (Guangzhou University), and Hong-yan Ji (Guangzhou University)</i>	
Spatial and Temporal Variations of Microcystis Aeruginosa and Their Influencing Factors in Bosten Lake	1049
<i>Hu Chunming (Chinese Academy of Sciences), Lai Ying (Bayingolin Mongolia Autonomous Prefecture of Xinjiang Uyghur Autonomous Province), Naren Gerile (Bayingolin Mongolia Autonomous Prefecture of Xinjiang Uyghur Autonomous Province), and You Li (Chinese Academy of Sciences)</i>	
Study on Numerical Simulation Model of Spatio-Temporal Evolution in Dynamic Gob Areas	1056
<i>Peiling Zhou (Tsinghua University) and Fei Yuan (University of Science and Technology Beijing)</i>	
The Impact of Monetary Policy on China's Stock Prices Base on TVP-VAR Model	1061
<i>Wei Feng (Fuzhou University Zhicheng College, China) and Ming Chen (Fuzhou University Zhicheng College, China)</i>	
Theoretical and Experimental Study on Load-Carrying Capacity Evaluation of CFRP Plates Bond-Type Anchors	1065
<i>Chu Beiyu (Ningbo University), Qian Dengchao (Wenzhou Highway and Transportation Management Center), Zhuge Ping (Ningbo University), and Yang Kelong (Ningbo University)</i>	
Vector Operation Function Library Optimization Based on BWDSP104X	1070
<i>Tong Su (Xi'an University of Science & Technology, China), Xiaoqun Liao (Xi'an University of Science & Technology, China), Ma Li (Xi'an University of Science & Technology, China), and Meichun Zhang (Xi'an University of Science & Technology, China)</i>	
Workspace Analysis and Design of 3-DOF Hybrid Bionic Manipulator	1073
<i>Yongtao Xie (North China University of Science and Technology), Bingyan Cui (North China University of Science and Technology), Renhao Xiao (North China University of Science and Technology), and Yang Zhongyuan (North China University of Science and Technology)</i>
