

2020 6th International Conference of the Immersive Learning Research Network (iLRN 2020)

**San Luis Obispo, California, USA
21 – 25 June 2020**

**IEEE Catalog Number: CFP20K36-POD
ISBN: 978-1-7281-5226-4**

**Copyright © 2020, Immersive Learning Research Network (iLRN)

Table of Contents

Title	Pages
Academic Full Papers	
Reducing Cognitive Load through the Worked Example Effect within a Serious Game Environment	1-8
An AR-Based Case Study of Using Textual and Collaborative Scaffolding for Students with Different Self-Efficacy to Learn Lever Principles	9-15
Virtual Reality for Immersive Learning in Art History	16-23
Embodied Agentic STEM Education: Effects of 3D VR Compared to 2D PC	24-30
Presence and Platform: Effects of Embodiment Comparing a 2D Computer and 3D VR Game	31-37
Conceptualising Embodiment through Virtual Reality for Education	38-45
A Case Study: Students' Perception of a Collaborative Game-Based Virtual Learning Environment	46-53
Computational Thinking in Augmented Reality: An Investigation of Collaborative Debugging Practices	54-61
SterileAR: Evaluation of Augmented Reality and Computer Vision Approaches for Real-Time Feedback in Sterile Compounding Training	62-69
Connecting User Experience to Learning in an Evaluation of an Immersive, Interactive, Multimodal Augmented Reality Virtual Diorama in a Natural History Museum & the Importance of Story	70-77
Different Types of Interaction with Augmented Reality Learning Material	78-85
Acceptance and User Experience of an Augmented Reality System for the Simulation of Sensory Overload in Children with Autism	86-92
Gamification in E-government Platforms and Services: A Literature Review	93-100
Design-Based Research Iterations of a Virtual Learning Environment for Identity Exploration	101-108
Exploring the Rhetorical Affordances of Augmented Reality in the Context of the Anthropocene	109-115
The Nexus Between VR Affordability, Cognition and VR Addiction: A Gaming Perspective	116-123
Immersively Learning Object Oriented Programming Concepts With sCool	124-131
Fostering Penetrative Thinking in Geosciences Through Immersive Experiences: A Case Study in Visualizing Earthquake Locations in 3D	132-139
VSPER Theory, An Interactive and Immersive Learning Environment	140-146
Designing Contextually: An Investigation of Design-Based Research to Promote Situated Irish Language Identity through Virtual Reality	147-154
Unifying Protocols for Conducting Systematic Scoping Reviews with Application to Immersive Learning Research	155-162
Immersive Learning Predicted: Presence, Prior Knowledge, and School Performance Influence Learning Outcomes in Immersive Educational Virtual Environments	163-170
Analysis of Haptic Feedback and its Influences in Virtual Reality Learning Environments	171-177
An Immersive and Interactive Visualization of Gravitational Waves	178-184
Evaluating the impact of multimodal Collaborative Virtual Environments on user's spatial knowledge and experience of gamified educational tasks	185-192

Title	Pages
Academic Short Papers	
An Immersive Virtual Reality Game Designed to Promote Learning Engagement and Flow	193-198
The Naturalist's Workshop: Virtual Reality Interaction with a Natural Science Educational Collection	199-204
Magnetic Resonance Imaging Visualization in Fully Immersive Virtual Reality	205-209
Virtual Reality in Professional Training: An Example from the Field of Bank Counselling	210-214
Hotspots and Trends of Virtual Reality, Augmented Reality and Mixed Reality in Educational Fields	215-219
The Effectiveness of Virtual Reality as an Instructional Medium for Multidimensional Concepts	220-224
A Collaborative, Immersive Language Learning Environment Using Augmented Panoramic Imagery	225-229
Mixed or Virtual: Does Device Type Matter in Human-ECA Interactions	230-235
Challenges Implementing the SimProgramming Approach in Online Software Engineering Education for Promoting Self and Co-regulation of Learning	236-241
Room Scale Virtual Reality Physics Education: Use Cases for the Classroom	242-246
Academic Work-in-Progress Papers	
Virtual Learning Machines: Useful Intelligent Tutoring Within Immersive Learning Environments	247-250
Immersive Virtual Reality Design Considerations to Promote Learning for English Language Learners	251-254
The SORBET Project: Designing an Immersive Environment Which Models the Diffusion of Virus Infection to Help Students of Mathematics Learn Probabilities	255-258
Virtual Agents in Teaching: A Study of Human Aspects	259-262
A Learning Experience Design for Immersive Virtual Reality in Physics Classrooms	263-266
Virtual Reality: A Tool to Develop Social Work Practice Skills of Engagement and Assessment	267-270
A 360 Virtual Reality Simulation to Prepare Social Work Students to Interact with Community Environments	271-274
Design and Evaluation of an Augmented and Virtual Reality Flipped-Learning Course for K-12 Educators	275-278
Designing a Virtual Reality Simulation to Teach Elements of Network Routing	279-282
ARETE - An Interactive Educational System using Augmented Reality	283-286
The ARIZVE Model for Augmented Reality Books	287-290
The Impact of Kinesiology XR-Immersive Labs for Motor Control Learning Attitudes	291-294
An Immersive Virtual Learning Environment for a Visual Arts Curriculum	295-298
Learners' Interaction with Task Narratives for Math Problem-Solving in Game-Based Learning	299-300
Designing a Multi-User Virtual Reality Environment for Conversational Skills Training of Dietetic Students	301-304
Legal and Ethical Issues in Immersive Education	305-307
Converging Virtual Reality, Robots, and Social Networks to Support Immersive Learning	308-311
Development of a Virtual Reality Learning Environment: VR Baby	312-315
A Web-based Virtual Reality Training Simulator for Field Service Telecommunications Engineers	316-319
Context is Key in Immersive Learning Environments	320-323
Measuring Engagement in Virtual Reality for Talent Attraction Purposes	324-327
Adapting a Virtual Reality Anatomy Teaching Tool for Mobility: Pilot study	328-331

Title	Pages
Conceptual Framework for User Interface in Virtual Reality	332-335
Utilizing Virtual Reality to Promote Active Learning in Construction Management	336-339
Using Bloom's Taxonomy and Balanced Design in ARTé: Mecenas	340-343
Determining the Efficacy of Virtual Reality through Experientiality and Biometrics	344-347
Testing of a Virtual Patient: Linguistic and Display Engagement Findings	348-350
GeoForge: Integrating virtual reality and a personalized website to foster collaboration in middle school science	351-354
Work-in-Progress Paper: A Generalizable Virtual Reality Training and Intelligent Tutor for Additive Manufacturing	355-358
Role of Innovative Teaching Strategies in Enhancing STEM Education in Malaysia	359-362
Titration Experiment: Virtual Reality Chemistry Lab with Haptic Burette	363-365
Assisting AR, VR and Hologram Learning Experience through MOOC	366-368
Developing Criteria for Virtual Reality Courses Based on Virtual World Experiences	369-372
Augmented Reality at Scale: Using Physical Dimensionality of Spaces to Our Advantage!	373-376
Learning about Virtual Worlds in Virtual Worlds: How Remote Learning in a Pandemic Can Inform Future Teaching about XR	377-380
A Proposal to Design of Virtual Reality Tool for Learning Mechatronics as a Smart Industry Trainer Education	381-384
The Sudden Requirement to Work from Home Due to COVID-19 Pandemic Restrictions: Attitudes and Changes in Perceived Value of Physical and Immersive Workspaces	385-388
Doctoral Colloquium Papers	
Virtual Reality Implementation: A Qualitative Study of VR as a means of Providing Cultural Context in Minority Serving Institutes	389-391
Towards a Better User Interface of Augmented Reality based Indoor Navigation Application	392-394
Enhancing Brain Plasticity and Cognition Utilizing Immersive Technology and Virtual Reality Contexts for Gameplay	395-398
A Methodology to Evaluate the Use of Serious Games in Achieving Deep Learning: An Application for Andragogy in Human Resource Development	399-402
Exploring the Benefits of Using 360 Video Immersion to Enhance Motivation and Engagement in System Modelling Education	403-406
A Snapshot of the Future: Virtual and Augmented Reality Training for Radiology	407-410
Extended Abstracts	
Improve Foreign Language Speaking Proficiency in Immersive Environment	411-412
Participatory Cultures Beyond Limits? Criteria for Creative Potential of SocialVR in Art Educational Contexts	413-415
ILLUA- Promoting Self-Regulated Learning through Metacognitive Applications in a 3D Virtual Environment	416-417
Ground Truthing and Virtual Field Trips	418-420
Challenges and Opportunities for Assessment in XR	421-423
XREducation 21: Are we ready for XR Disruptive Ecosystems in Education Now?	424-426
