

Pipelines 2020

Utility Engineering, Surveying, and Multidisciplinary Topics

Proceedings of Sessions of the Pipelines 2020 Conference

San Antonio, Texas, USA
9 – 12 August 2020

Editors:

J. Felipe Pulido
Marke Poppe

ISBN: 978-1-7138-1517-4

Printed from e-media with permission by:

Contents

Multidisciplinary Topics

A Tried and True Method of Surge Control	1
Alan Hutson, Sarah Motes, and Tom Hill	
Consequences of Under-Estimating Friction Losses in Wastewater Forcemains.....	11
Christopher Michalos	
Field Investigation of Metal Multi-Pipe Culvert under Shallow Cover	21
Issam Khoury, Shad M. Sargand, Husam H. Hussein, and Fouad T. Al Rikabi	
Model Experiment for Influence of Sheet Pile Characteristics on Mechanical Behavior of Buried Flexible Pipe	31
Mizuki Tokumasu, Yutaka Sawada, Takuya Ishikawa, Ohta Yoko, and Toshinori Kawabata	
Numerical Methods for Analyzing Surge: What’s behind Those Messy Equations	40
Thomas J. Hill	
Resilience of Sewer Networks to Extreme Weather Hazards: Past Experiences and an Assessment Framework	50
Soroush Zamanian, Mehrzad Rahimi, and Abdollah Shafieezadeh	
Surge Phenomenon during Slow Valve Closures in Short Pipelines.....	60
Guohua Li	
10 Things You Need to Know about the AIS Requirement for SRF Funding	68
Kiri Anderer, Jorge Medrano, and Brandon Mediate	
The Utility Management Process: A Guide to Managing Utility Variables in the Real World	75
Corey Biddle	
Ugh, Not Another Forcemain High Point.....	83
D. Radulj and A. Malekpour	
Uncertainty Quantification of the Structural Capacity of Pipelines Using Separation of Variables Methodology	95
Juan M. Jimenez-Chong, Omer O. Erbay, Frederic F. Grant, Peter D. Nardini, and Murat Engindeniz	

**Utility Coordination in Alternative Delivery Methods for Transportation
Projects: Lessons Learned from In-Market Design Phase (Bid Process).....104**
Juan Camilo Barrera and Tomasz (Tom) Bodera

**Utility Relocation Success and Challenges in a Congested Underground
Network.....113**
Rolando Bueno and Mykel Morgan

Modeling and Monitoring

**A Compelling Comparison of Field Measurements and Numerical
Modeling in Pipeline Surge Pressure Mitigation119**
Brandon M. Billing

**Analyzing Existing Flow and Precipitation Records to Allocate
Resources for Sewer Inflow and Infiltration Studies.....128**
Charles Herckis

**Analyzing Transient Responses of Pumped Pipelines Using an
Analytic Energy-Based Approach137**
Ahmad Malekpour and D. McPherson

Applying Survival Analysis to Pipeline Data: Gaps and Challenges148
Hao Xu and Sunil K. Sinha

Descriptive Analysis of National Water Pipeline Infrastructure Systems.....159
Sunil K. Sinha

**Development of a Consequence of Failure Model and Risk Matrix for
Water Pipelines Infrastructure Systems169**
Anmol Vishwakarma and Sunil K. Sinha

**Development of a Fuzzy Inference Performance Rating System for
Water Pipelines Using a Comprehensive List of Input Variables.....178**
Hao Xu, Sunil K. Sinha, and Anmol Vishwakarma

**Development of a Performance-Based Economic Lifecycle Model for
Water Pipeline Infrastructure Systems189**
Anmol Vishwakarma and Sunil K. Sinha

Estimating Groundwater Infiltration in Sewers196
Kevin L. Enfinger and Patrick L. Stevens

**Evaluation of Artificial Intelligence Tool Performance for Predicting
Water Pipe Failures203**
Sepideh Yazdekhashti, Greta Vladeanu, and Craig Daly

Finding Big Leaks with Big Data: Case Studies from an Internet-of-Things Leak Detection Platform.....212
 Matthew Barrett, Zohreh Andalibi, Tatiana Baeva, and Adam Chan

Keeping the Water Moving: Solving Pressure Problems with Multiple Constraints in Stillwater, Oklahoma.....221
 Lars B. Ostervold Jr., Jennifer Henke, William (Bill) Millis, and David Barth

Leveraging a Risk Based Decision Strategy for Resilient Pipeline Management at the City of Houston232
 Fazle Rabbi and David Totman

Machine Learning: Getting Even Smarter Addressing Water Main Breaks.....241
 James Fitchett, David M. Hughes, and Kosmas Karadimitriou

Pipe Joint Topics

Experimental Investigation of Steel Lap Welded Pipe Joint Performance under Severe Axial Loading Conditions in Seismic or Geohazard Areas.....249
 Brent D. Keil, Gregory Lucier, Spyros A. Karamanos, Richard D. Mielke, Fritz Gobler, Dimitris Fappas, Gregory C. Sarvanis, Giannoula Chatzopoulou, and Robert J. Card

Internal Joint Bonding of Prestressed Concrete Cylinder Pipe: The Improbable Project259
 Greg Smith

Newly Developed Seismic Resilient Steel Pipe Joint Safeguards: Pipeline Structural Integrity during Severe Geohazard Events265
 Brent D. Keil, Richard D. Mielke, Fritz Gobler, Gregory Lucier, Gregory C. Sarvanis, Giannoula Chatzopoulou, Dimitris Fappas, and Spyros A. Karamanos

Pipe Materials

2020 Second Edition of AWWA M55 HDPE Pipe277
 Amster Howard and Camille Rubeiz

Built to Last: Underground Piping for District Heating and Cooling288
 Steven R. Buckler

Case Studies of Hazard Resilient Ductile Iron Pipe Withstanding Natural Hazards in Japan294
 Takeshi Hara, Takaaki Kagawa, and Jun Iide

PVC Pipe Cyclic Design Method304
 Steven Folkman and Jay Parvez

**New U.S. and International Water Main Break Studies: More Detailed
 Pipe Analysis but What Are We Doing with the Data?.....316**
 Gregory M. Baird

**Optimize the Carbon Emissions of Prestressed Concrete Cylinder
 Pipe during the Life-Cycle326**
 Alhossin Alsadi, John C. Matthews, and Omar A. Abdulkareem

Review of Design Methods in AWWA Manuals for Various Flexible Pipe336
 Amster Howard and Shah Rahman

Surveying

**ABC-3D Using Geomatics to Merge the Surface with the Utility
 Underground346**
 Joseph A. Murphy and Peter Borsack

**Acoustic-Based Underground Utility Mapping at the Annacis Island
 WWTP355**
 Michael Metcalf, Kenneth Hui, Dave Hoffman, Victor Castellanos, Mike Thorstenson,
 Gary Skipper, and Grey Tarkenton

**Developing a Proactive City-Wide Stormwater CCTV Master Plan and
 Condition Assessment Program San Antonio, TX.....362**
 Noelle Gaspard, Nefi Garza, Martin Hernandez, and Olufunso Sylvester Ogidan

**Mutual Learning: A Comparison between the Dutch and International
 Utility Surveying Practices.....372**
 Ramon B. A. ter Huurne, Léon L. olde Scholtenhuis, and André G. Dorée

**One If by Air, Two If by Land: Savings with Aerial Surveying for
 Transmission Lines381**
 Hunter Hanson and Mike Dooley

**Minimizing Underground Infrastructure Damages: Utility Locators’
 Perspectives387**
 Ahmed Jalil Al-Bayati, Louis Panzer, and Khalid Kaddoura

**Seeing from above, What’s below: How Drones Can Be Used in Pipeline
 Design and Construction392**
 Natasha F. Lombard, William W. Byland, Greg J. Henry, Michael V. Liga,
 and Venus N. Price

**Use of Subsurface Utility Engineering Data for Multiple Disciplines on
 Mega Projects402**
 Lawrence Arcand and Ophir Wainer
