Table of Contents

Monday, September 21

General Session: What Can the History of California Dam Building and Safety Teach Us?

Welcome (Presentation Only)...N/A

Harald W. Van Aller, President, Association of State Dam Safety Officials

Looking Back. A History of California Dams (Presentation Only)...N/A

Dr. Donald Jackson, Professor of History, Lafayette

Recent Advancements in California's Dam Safety Program...1

Sharon K. Tapia, P.E., Chief of California Division of Safety of Dams, State of California

Concurrent Session #1: Advancements in PMP Practice

Making the Case for Developing Realistic Inflow Design Floods in Colorado's Rocky Mountains...13

Mark Perry, Dam Safety Engineer, CO Division of Water Resources; and Bill McCormick, Chief of Dam Safety, Colorado Dam Safety

Utah PMP Studies: The Third Time's the Charm...25

Everett W. Taylor, P.E., Dam Safety Engineer, UT Division of Water Rights, Dam Safety

A methodology to evaluate probable maximum precipitation (PMP) under changing climate conditions...29

Bill Kappel, President/Chief Meteorologist; and Doug Hultstrand, Senior Hydrometeorologist, Applied Weather Associates

Concurrent Session #2: Expert Perspectives on Seepage Modeling

Dam Seepage Models - Tool, Rules & Guidance (From a Regulatory Perspective)...60

Michele Lemieux, P.E., Montana Dam Safety Section Supervisor, MT Department of Natural Resources and Conservation

Seepage Models - Tips, Tools, & Guidance (From an Engineer's Perspective)...69

Jennifer Williams, Assoc. Vice President, AECOM; and Julie Heitland, Geotechnical Engineer, AECOM

Concurrent Session #3: Decade Dam Failure Series Part I: Failed but Rebuilt

Alexander Dam: The Story of a Construction Failure on Kauai in 1930...85

Lee Mauney, P.E., CFM, Dam Levee & Civil Works Project Manager; and Abbas Dorostkar, Ph.D., P.E., P.Eng, Senior Water Resources Engineer, HDR; and Dave Sykora, Principal Engineer, Exponent

Pampulha Dam Rupture Study...113

Juan Deyvson José Camilo da Silva, Master Student in Geotechnics; and João Paulo Tavares Souza, Master Student in Geotechnics, University of Brasilia, Brazil

The Prospect Dam Failure of 1980...120

L. Clint Brown, P.E., Senior Dam/Reservoir Engineer; and Dylan Hoehn, Staff Civil/Hydrologic Engineer, Engineering Analytics

Saving the Guajataca Dam Spillway: Interim Risk Reduction Measures...121

Carlos Cepero, P.E., Regional Geotechnical Lead (Southwestern Division), US Army Corps of Engineers

Concurrent Session #4: Understanding Erodibility

Methods for evaluating block stability on masonry or jointed spillways...124

John Chesterton, Principal Project Manager - Dams and Hydraulic Structures; John Heald, Senior Hydraulic Modeller; John Foster, Principal Civil Engineer; and David Rebollo, Civil Engineer, Mott MacDonald

Lessons learned from a screening study of bedrock erodibility at spillway foundations...125

Stephanie Briggs, Senior Geologist; Hans AbramsonWard, CEG, Principal Geologist; and Mark Szymanski, Senior Staff Geologist, Lettis Consultants International; Jose Vasquez, Ph.D., P.E.; and Brady McDaniel P.E., Northwest Hydraulics Consultants; Robert Annear, Ph.D., P.E.; and Derek Morley, P.E., Geosyntec Consultants; and Brandon McGoldrick, P.E., Idaho Power

Advanced Modeling of Rock Scour at Gated Spillway...138

Dustin Mortensen, P.E., Associate; and Hande Gerkus-Harris, Ph.D., P.E., Freese and Nichols, Inc.; Erik F. R. Bollaert, Ph.D., AquaVision Engineering; and Kenneth H. Stokoe II, Ph.D., P.E., Department of Civil, Environmental and Architectural Engineering, The University of Texas at Austin

Concurrent Session #5: Focus on Site Assessment

Forensic Analysis into the Wells Dam East Embankment Design and Construction History to Address Ongoing Internal Erosion and Seismic Stability Concerns...148

Frederic Snider, P.G., Associate Scientist; Alex Rutledge, P.G., P.E., Senior Associate Scientist; Robert Cannon, P.G., Principal; Tom Hepler, P.E; and Jonathan Harris, P.E., Schnabel Engineering; and Cheri Wilson, Chief Dam Safety Coordinator, Douglas County Public Utility District

GNEISS!! Exploring the Conklingville Dam Spillway and Foundation...149

Keith Toombs, P.E., Project Engineer; Brian Toombs, P.E., Senior Engineer; David Railsback, P.E., Senior Engineer; Michael Taylor, P.E., Principal Engineer; and Fred Snider, P.G., Associate Scientist, Schnabel Engineering

Integrating a Large Data Set to Properly Scope the Phase II Repairs at the Lake Manatee Dam...150

Glen R. Andersen, Sc.D., P.E., Principal Engineer – Geotechnical; Karishma R. Desai, P.E., Senior Engineer – Geotechnical; and Seth Olsen P.E., Senior Engineer – Geotechnical, Wood Environment & Infrastructure Solutions

Concurrent Session #6: Perspectives on Dam Removal

Hidden Treasure or Hidden Risk? Risk Management in a Unique Dam Safety Emergency...151

Jason Ward, Ph.D., P.E, Dam Safety Engineer; and Bill McCormick, P.E., P.G., Chief, Dam Safety Branch, CO Division of Water Resources

The Cucharas #5 Dam Removal; a Story of Determination, Persistence and Partners...174

Mark Perry, P.E., Dam Safety Engineer; and Bill McCormick, P.E., P.G., Chief of Dam Safety, CO Division of Water Resources; Paul Bennington, First Assistant Attorney General; and Phillip Lopez, Senior Assistant Attorney General II, Colorado Department of Law

Aligning Dam Removal and Dam Safety: Comparing Policies and Institutions Across States...195

Margaret Walls, Ph.D., Senior Fellow, Resources for the Future

Tuesday, September 22

General Session: Report from the First ASDSO Dam Failure Investigation - The Spencer Dam Failure

The Spencer Dam Failure Investigation...217

Mark E. Baker, P.E., Senior Advisor, Dam & Levee Safety. HDR; Martin Teal, Senior Vice President, West Consultants; John Trojanowski, P.E., Owner/President, Trojanowski Dam Engineering, Limited; and Robert Ettema, Ph.D., Harold Short Endowed Chair, Civil and Environmental Engineering, Colorado State University

Concurrent Session #7: Mini-Workshop: Filter Compaction and Other Practicalities of Filter/Drain Design and Construction

Filter Compaction and Other Practicalities of Filter/Drain Design and Construction...218

John W. France, P.E., D.GE, D.WRE, Independent Consultant, JWF Consulting LLC; Christina Bennetts, P.E., Geotechnical Engineer; and Harry C. Donaghy, E.I.T, Staff Geotechnical Engineer, AECOM

Concurrent Session #8: Notable Experiences with and Approaches to Erosion Control

Physical Model Study of the Proposed Low Froude Number Stilling Basin at Cedar Falls Hydroelectric Project...278

Brian Tri, P.E., Vice President; Chris Marr, P.E., Sr. Engineer; and Cory Anderson, P.E., Water Resources Engineer, Barr Engineering Co.; and Dean Steines, P.E., Principal Plant Engineer, Hydro Operations, Xcel Energy

Dry Creek Dam: From Debris Basin to Urban Recreation...295

Brandon D. Horrocks, P.E., Design Engineer; S. Robert Johnson, P.E., President; Jacob S. Price, P.E., RB&G Engineering, Inc.; and Everett W. Taylor, P.E., Dam Safety Engineer, UT Division of Water Rights, Dam Safety

A Computational Fluid Dynamics Approach to Assessing and Limiting Scour from Complex Spillway Flows...302

Damian Gomez, P.E., Water Resources Engineer, Gomez and Sullivan Engineers, D.P.C.; and Richard Mickwee, P.E., Dam Safety & Surveillance Supervisor, Southern Company Generation

Concurrent Session #9: Rehab Construction: Intakes and Outlet Works

From Lessons-Learned to Action Items - A Case Study of Major Dam Intake Structure Rehabilitation with a 100' Deep Cofferdam...305

Kurt S. Fearheller, Sr. Project Manager, Crofton Industries

To Lift a Hoist or Torque a Trunnion for Tainter Gate Trunnion Friction Load Cases?...315

Kevin Gerst, Hydraulic Structures Section Lead; Asha Baradi, P.E., Hydraulic Structures Engineer; and Sam Planck, P.E., Principal Hydraulic Structures Engineer, HDR

Nothing Boring about Boring and Jacking...327

J. Chris Stoner, P.E., State Conservation Engineer; and Jessica Juenger, Geologist, USDA - NRCS; and Joe Freeland, P.E., Project Engineer, Oklahoma Conservation Commission

Concurrent Session #10: Erosion and Seepage: From Theory to Practice

Charts for Estimating Probabilities of Backward Erosion Piping Progression in Deep, Pervious Foundations...341

Bryant A. Robbins, P.E., Research Civil Engineer, US Army Corps of Engineers, Engineer Research and Development Center; and Timothy M. O'Leary, P.E., Lead Civil Engineer, US Army Corps of Engineers, Institute for Water Resources, Risk Management Center

Rapid Response to Internal Erosion Initiation...349

Ian McGrath, P.E., Dam Safety Engineer, PacifiCorp; and Cari Beenenga, P.E., Vice President, Gannett Fleming, Inc.

Rehabilitating the Hardy Dam for Stability and Seepage Control...350

Rob Kenyon, Ph.D., P.Eng., FEIC, Geotechnical Specialist Advisor; Jason Mann, Department Head Environmental Services - Associate Principal; Chris Robak, P.Eng., Senior Geotechnical Engineer; and Andi Bogdanovic, M.Sc. P.E., Regional Director, KGS Group

Concurrent Session #11: Blue Ribbon 2D Applications

2D Hydrologic Modeling Compared to Traditional Unit Hydrographs...351

Nicholas Miller, P.E., P.H., Senior Water Resource Engineer, GEI Consultants, Inc.

Live Free or Die Trying to Model these Dams - A Two-Dimensional Watershed and Reservoir Routing in New Hampshire...352

Nathaniel Clymer, P.E., Project Engineer, Gannett Fleming, Inc.; and Corey Clark, P.E., Chief Engineering & Construction Engineer, NH Department of Environmental Services

Concurrent Session #12: Cutting Edge Tech

Deep Learning AI and Its Application to Dam Safety and Hydrology...361

James Logan, CEO; and Charles Yost, Meteorologist, OneRain, Inc.

A California Dam Safety Collaborative Technical Assistance Case Study: Using GIS to Integrate Community Profile Analysis, Critical Infrastructure Information, and Inundation Mapping to Support Consequence Analysis and Dam-Related Planning Activities...362

Preston Wilson, Civil Engineer, Federal Emergency Management Agency - National Dam Safety Program; Jose Lara, Mitigation and Dam Safety Branch, Governor's Office of Emergency Services (Cal OES); Shweta Chervu, Advanced Planning Section Manager, Ventura County Watershed Protection District - Planning and Permits; and Erin McCann, Senior Emergency Services Coordinator, San Diego County Office of Emergency Services

Using UAV and GIS Technology in Dam Safety to Support Condition Assessment and Maintenance Planning...365

Chris Bray P.E., Senior Dam Safety Engineer; and William Johnstone P.E., Ph.D., Spatial Vision Group, Inc.

Wednesday, September 23

Concurrent Session #13: Improving Public Safety Around Dams

A National Inventory for Low-head Dams: Methods and Results...380

Rollin H. Hotchkiss, Ph.D., P.E., D.WRE, F.ASCE, Professor, Brigham Young University; Paul Schweiger, P.E., CFM, Vice-President and Dams and Hydraulics Practice Leader, Gannett Fleming, Inc.; and Brian Crookston, Ph.D., Assistant Professor, Utah State University

Does What Happens at a Dam, Stay at the Dam?; Public Safety Hazards and Consequences Related to Making Releases from Dams...388

Steven Davidheiser, Senior Project Engineer/Project Manager; and Paul Schweiger, P.E., CFM, Vice President and Dams and Hydraulics Practice Leader, Gannett Fleming, Inc.

Considerations Surrounding the Rehabilitation and Removal of Low-head Dams...389

Rollin Hotchkiss Ph.D., P.E., D.WRE, F.ASCE, Professor, Brigham Young University; Ken Wright P.E.; and Karl Kingery, P.E.

Concurrent Session #14: H&H Grab-N-Go Number 1

Spillway Debris Physical Model Study: Morning-glory Spillway Structure...400

Melissa Shinbein, P.E., Hydraulic Engineer; and Kent Walker, Dam Safety Program Manager, Bureau of Reclamation

Comparison of Fundão Dam Breach Flow to Natural Floods Along Rio Doce Watershed...417

Helvécio de Aguiar Duarte Júnior (BSc), Environmental Engineer; Marcelo Garcia Miranda Diniz (MSc); and Walfrido Pereira Vidigal Júnior, Civil Engineer (BSc), Golder; and Aloysio Portugal Maia Saliba, Civil Engineer (DSc), Federal University of Minas Gerais (UFMG);

Emergency Action Plans: There's Always Room for Improvement!...430

Gregory L. Richards, P.E., CFM, Senior Dams & Hydraulics Project Manager; and William F. Foos, CPP, PSP, Principal Manager - Security and Safety, Gannett Fleming, Inc.

Is our Emergency Action Plan time sensitive?...431

Joe G. Tam, P.E., Associate Civil Engineer; and Priyanka K. Jain, P.E., Senior Civil Engineer, East Bay Municipal Utility District

Dams and Tunnels: The Underground Connection...437

Shawna Von Stockhausen, P.E., Principal Project Manager, Mott MacDonald

Concurrent Session #15: Structural Design Considerations

Predicting and Evaluating the Effects of Anchoring on Uplift, Bluestone Dam, Hinton, WV...438

Kimberly D. Davidson, P.G., Geologist, US Army Corps of Engineers

Final Design of Eagle Canyon Dam and Debris Basin...439

Somalingam Balachandran, Ph.D., P.E., G.E., Vice President and Principal Engineer; Joseph J. Kulikowski, P.E., G.E., President and Senior Principal Engineer; and Shuyu Liu, P.E., Senior Project Engineer, GENTERRA Consultants, Inc.; Helio K. Takano, P.E., Engineering Project Manager; and Robert Cullen, P.E., Assistant Chief Engineer, Riverside County Flood Control & Water Conservation District

Lessons Learned on Hydraulic Asphalt Mix Design in the US...455

Wonnie Kim, Geotechnical Engineer; and Don Montgomery, Principal Engineer, Stantec Consulting Services, Inc.

Concurrent Session #16: Barrier Cutoff Walls & Grouting

Analytical Methods for Borehole Permeability Tests in Seepage Barrier Walls...470

R. Lee Wooten, P.E., Principal; David R. Shields, P.E., Senior Project Manager; and Darren D. Clark, P.E., Project Manager, GEI Consultants, Inc.; and Charles Fitts, Ph.D., Fitts Geosolutions, LLC

Seepage Cutoff Walls: Lessons Learned, Implemented, and to be Implemented...471

Khaled Chowdhury, Ph.D., P.E., G.E., Senior Geotechnical Engineer; and Joseph Waltz, P.E., Geotechnical Engineer, US Army Corps of Engineers; Meredith Beswick, P.G., P.E., Senior Engineer/Geologist; and Timothy Williams, P.E., G.E., Senior Principal Geotechnical Engineer, Kleinfelder; Kenichi Soga, Ph.D., The Donald H. McLaughlin Chair of Mineral Engineering, Chancellor's Professor, Department of Civil and Environmental Engineering, UC Berkeley; Richard Millet, P.E., G.E., Vice President and Levee Program Manager; and Shawn Orgill, Senior Engineer, AECOM

Researching Optimal Grout Mixes Using Large Scale Laboratory Testing for Logan Martin Dam...487

Eric E. Manning, P.E., Geostructural Services Supervisor, Southern Company; Bobby E. Williams, P.E., Owner / Principal Engineer; and Ronald L. Robinson, Principal Geologist, Tri L Engineering, LLC; and Joshua T. Anderson, Engineer, Alden Research Laboratory, Inc.

Concurrent Session #17: Get Your Modeling Fix

Rapid Inundation Mapping...488

Whitney Sorrels, P.E., Hydraulic Engineer; Ed Stowasser, P.E., Hydraulic Engineer; and Mike Koon, GIS Specialist, US Army Corps of Engineers

Findings from re-evaluating the IDFs for three dams in California during times of change...489

Carmen Bernedo P.E., D.WRE., Principal Civil Engineer; and Vik Iso-Ahola, P.E., PMP, Vice President, Stantec Consulting Services, Inc.; and Adam B. Mazurkiewicz, Operations and Maintenance Manager (Acting), San Francisco Public Utilities Commission

Empirical Models for Estimating On-Stream Reservoir Storage Capacity...492

Richard A. Keizer Jr., P.E., Senior Engineer; Blake J. Dolve, P.E.; Robert G. Burns, CEG, Senior Engineering Geologist; and Gabby L. Hernandez, Engineer, California Division of Safety of Dams

Concurrent Session #18: The Importance of Vigilance: Managing Risk During Rehabs

Risk Management for Dam Rehabilitation Projects...514

David Paul, P.E., Senior Technical Advisor, HDR Engineering Inc.; and Dan Johnson, Senior Technical Advisor; and Terry Arnold, Senior Geotechnical Engineer, AECOM

Dam rehabilitation and the perpetuation of human factors across time and space...524

Meghan Walter, P.E., Environmental Engineer; John Gillilan, P.E., State Design Engineer; and John Markov, R.G., State Geologist, USDA – NRCS

Goose Pasture Tarn Dam: Emergency Planning for a Not-So-Safe Dam...534

Greg J. Monley, P. E., Senior Geotechnical Engineer; Steve Jamieson, P.E., President, W.W. Wheeler & Associates, Inc.

Concurrent Session #19: Breach Modeling

Advances in Risk-Informed Dam Breach Modeling...544

Chris Goodell, P.E., D.WRE, Principal Consultant, Kleinschmidt Associates

Hope Is Not A Strategy: Our Experience with Rapid Dam Break Analysis Tools...545

Thomas E. Evans, P.E., Geotechnical Engineer; Erdem O. Tastan, Ph.D., P.E.; Patterson X. V. Gambill, P.E., PMP, Senior Water Resources Engineer; and Stephen L. Whiteside, P.E., Senior Geotechnical Engineer, CDM Smith; and John M. McCain, P.E., Section Manager, SC Department of Health & Environmental Control

Prediction of Flood Models for Dam Breaching Due to Overtopping...558

Deepak Kumar, UIET, M.D., University, Rohtak, Haryana, India; Baldev Detia, Professor, NIT; and V.K. Arora, Professor, NIT, Kurukshetra, India

Concurrent Session #20: Instrumentation and Investigation

My How You (Dam Instrumentation) Have Changed!...559

Robert Saber, P.E., Chief Geotechnical Engineer; Christopher Bailey, P.E., Principal Geotechnical Engineer; and E.J. Barben, Senior Geotechnical Engineer, Gannett Fleming, Inc.

Using High Resolution Automated Instruments to Identify Karst Connectivity in a High Hazard Dam...560

John Baird, G.I.T., Geologist; and Kristen Enzweiler, P.G., Geologist, US Army Corps of Engineers; and Steven Shifflett, P.E., Engineer

Damage Detection and Quantification in Dam Spillways using Robotics and Computer Vision...573

Harsh Rathod, Ph.D., Chief Executive Officer; and Ali Mostafavian, Ph.D., Computer Vision Engineer, Niricson Software Inc.; and Chris Bray, P.Eng., Surveillance Engineer, Dam Safety, BC Hydro

Concurrent Session #21: State Tech Stuff

Taking Our Dam Safety Program to the Cloud...583

Jonathan Garton, P.E., Dam Safety Engineer, IA Department of Natural Resources

Using ArcGIS Online for Responding to Emergencies and Complaints...584

Chadrick Hill, Civil Engineering Specialist, MT Department of Natural Resources and Conservation

Efficiency, Quality, and Service? Lessons Learned Implementing a Dam Inspection Application...591

John Roche, Chief, Dam Safety Permits Division, MD Department of the Environment

Inundation Mapping - Beyond Fair Weather Failure Maps...597

Rajat Saha, P.E., Ph.D., Senior Water Resources Engineer, CA Department of Water Resources

Thursday, September 24

Concurrent Session #22: Decade Dam Failures Series Part 3: Class of 2010

Delhi Dam Failure of 2010 (Presentation Only)...N/A

Morgan Ruark, P.E., P.H., CFM, Senior Hydrologist and Water Resources Engineer

10th Anniversary of the Failure of Tempe Town Lake Dam...598

Chris Kabala, P.E., Principal Civil Engineer, City of Tempe; Stewart Vaghti, P.E., ENV SP, Principal Dams and Hydraulics Project Manager; and Gregory L. Richards, P.E., CFM, Senior Project Manager, Gannett Fleming, Inc.

Neidow Dam Failure of 2010...599

Eric Gross, P.E., Senior Civil Engineer; and Paul Kokoszka, Civil Engineer, Federal Energy Regulatory Commission; and James Pawloski, P.E., President, James T. Pawloski, PE, LLC

Concurrent Session #23: Rehab At Its Best

Underpinning Prairie: Micropiles Support Prairie Du Sac Dam...600

Brian Barkauskas, P.E., Director of Business Development; Josh Timmreck, Project Manager; and Alexander Sherman, Project Engineer, Nicholson Construction

Old Problems, New Solutions: Rehabilitating Beaverdam Creek Dam...612

David Snyder, P.E., Principal Geotechnical Engineer; and Bob Saber, P.E., Chief Geotechnical Engineer, Gannett Fleming, Inc.; and Erik Smedley, P.E., Engineer, Loudoun Water

Herbert Hoover Dike Rehabilitation Gap Closure Project...625

Dario Maesano, Project Engineer; Pablo Bassola, Project Manager; and Scott Gordon, Quality Control System Manager, TREVIICOS South

Concurrent Session #24: Spilling on CFDs

CFD Modeling of Transverse Waves in Hebgen Dam Spillway...637

Fangbiao Lin, Ph.D., PE, Vice President, Stantec Consulting Services, Inc.

Assessing the Hydraulic Performance and Integrity of Concrete-Lined Spillways...646

Benjamin Israel Devadason, P.E., CFM., Senior Hydraulic and Hydrologic Project Engineer; Paul G. Schweiger, Vice President; and Seth D. Thompson, E.I.T., Gannett Fleming, Inc.

Tip the Fusegates: Risk Reduction at North Fork Dam...647

Mark E. Landis, P.G., P.E., Principal; and Scarlett Kitts, P.E., Project Engineer, Schnabel Engineering; Hasan Kocahan, Manager, Hydroplus Inc.; and Leslie Carreiro, Division Manager - Water Production/Water Quality, City of Asheville, NC

Concurrent Session #25: Spotlight on Seismic Issues

The Need for Keeping Pace With the Science for Earthquake Dam Safety...648

Ivan Wong, Senior Principal Seismologist; and Patricia Thomas, Principal Engineering Seismologist, Lettis Consultants International; and Roger Raeburn, Chief Dam Safety Engineer, PacifiCorp

Evolution of Seismic Analysis of an Embankment Dam...664

Khaled Chowdhury, Ph.D., P.E., G.E., Senior Geotechnical Engineer; Ethan Dawson, Ph.D., Senior Geotechnical Engineer; Kevin Hazleton, P.E., G.E., Geotechnical Engineer; and Adam Gamblin, P.E., Geotechnical Engineer, United States Army Corps of Engineers; Erik Newman, Ph.D., P.E., Project Manager; and Mark Dober, Senior Seismologist, AECOM; and Raymond B. Seed, Professor Emeritus, University of California, Berkeley

Mosul Dam: Dealing with High Artesian Conditions - A case history...683

Nagesh Malyala, P.E., Technical Leader; Juan Vargas, Vice President; and David Sawitzki, Vice President, AECOM

Concurrent Session #26: Unique Spillways

Flood Infrastructure: Localized Scour at Piano Key Weirs...691

Wyatt Lantz, Research Assistant, Utah State University; and Brian Mark Crookston, Ph.D, PE, Assistant Professor, Utah State University - Utah Water Research Laboratory; and Michele Palermo, Ph.D, Associate Professor, University of Pisa, Italy

Developing Free-Surface Inception Point for Stepped Chutes with Multiple Sections of Surface Roughness along the Chute Floor...704

Sherry L. Hunt, Ph.D., E.I.T., Research Leader and Acting Location Coordinator; and Kem C. Kadavy, Agricultural Engineer, USDA – ARS

Spillway overtopping and guidewall analysis of Lahontan Dam...705

Bryan Heiner, Hydraulic Engineer, Bureau of Reclamation

Concurrent Session #27: Risk Panel

Life Safety Consequences: What are the Resources, Trends, and Key Considerations for Risk Assessment and RIDM? A Panel Discussion with Q&A...706

Joe Goldstein, P.E., Senior Engineer, Geosyntec Consultants

How Will the Emergence of Risk-Informed Design Affect Design Practice, Standards, and the Regulatory Framework?...707

Derek Morley, P.E., Senior Principal, Geosyntec Consultants

Concurrent Session #28: Let's Talk About Improving Resiliency

No Pain, No Gain! Building Collective Muscle Memory through Sector-Wide Exercises...709

Enrique E. Matheu, Ph.D., Associate Director, Sectors and Councils; Michelle Yeziarski, P.E., Chief, Dams Section; Craig Freer, Program Analyst, Dams Section; and Kate Schwartzter, PMP, Program Analyst, Dams Section, Cybersecurity and Infrastructure Security Agency

Structure Integrity Hierarchy: A Tool for Incident Planning and Response...708

Derek Morley, P.E., Senior Principal; and Brian Martinez, Ph.D., P.E., Project Engineer, Geosyntec Consultants; and John France, P.E., D.GE, D.WRE, Independent Consultant, JWF Consulting

Public Dissemination of USACE Inundation Maps...721

Rebecca Ragon; Michelle Carey; and Amanda Sutter, US Army Corps of Engineers

Concurrent Session #29: Federal, State and Local Perspectives

Quality Assurance/Quality Control in Dam Safety Design - An Essential Component of the Design Process...737

Frank L. Blackett, P.E., Regional Engineer, Federal Energy Regulatory Commission

Comprehensive Needs Assessment for Oroville Dam and Appurtenant Facilities...748

Leslie F. Harder Ph.D., P.E., G.E., Principal Professional Associate; and Rhonda Robins, HDR Engineering; Sergio Escobar, Principal Engineer, CA Department of Water Resources; and Stephen Verigin, Principal, GEI Consultants

Design of Quality Assurance Program to Validate Dam Foundation Grouting...794

Juan Vargas, Vice President; David Sawitzki, Vice President; and Nagesh Malyala, P.E., Technical Leader, AECOM

Concurrent Session #30: Challenges Facing Levee Projects

Evaluating the Performance of the Lower Assiniboine Levee System in Response to the Record Flooding of 2011...808

Rob Kenyon, Ph.D., P.Eng., FEIC, Geotechnical Specialist Advisor; and Chris Robak, P.Eng., Senior Geotechnical Engineer, KGS Group

The Challenge of Aging and Submerged Pipes in Levees Due to Ohio River Pool Raises...823

Terry M. Sullivan, P.E., Structural Engineer, Risk Management Center; William Puckett, P.E., Geotechnical Engineer; Jacob M. Nienaber, P.G., National Levee Safety Program Manager; Steven S. Spagna, P.G., Geologist; and Emily Calla, P.E., Hydraulic Engineer, Levee Safety Center, US Army Corps of Engineers

Empirical Equations for Levee Breach Parameters Based on Reliable International Data...845

Kaveh Zomorodi, P.E., Ph.D., Senior Hydrologist, Dewberry

Friday, September 25

Concurrent Session #31: Soapbox – Discussing Updates to the Model State Dam Safety Program Guidance Manual

Soapbox - Updating the Model Dam Safety Program...872

Keith Mills, P.E., G.E., State Engineer for Water Resources, Oregon Water Resources Department; Hal Van Aller; Doug Johnson; Ben Green; Mark Ogden; Ken Smith; Dusty Myers; and Tony Fernandes

Concurrent Session #32: A+ Case Studies

Case Study: The Importance of Good Flashboard Design for Dam Safety, a Dam Owner's Perspective...888

Stephen Kinsley, P.E., The City of Columbus

Lake Louise Dam - Preventing Kelly Barnes 2.0...896

Bradley T. Boyer, P.E., Associate; and Brett W. Dodd, P.E., Project Engineer, Schnabel Engineering

Emergency Replacement of Collapsed Spillway Underdrain Pipe...897

Paul Worrlein, P.E., Water Resources Engineer, Project Manager, HDR; and Kevin Larson, P.E., Engineering Project Manager, City of Portland Water Bureau

Concurrent Session #33: Decade Dam Failures Series Part II: Old Stories, New Lessons

They Don't Tell Stories Like They Used To. Dam Failures and Incidents: A Review of ENR Article Archives from 1875 to 1923...907

Jonathan Pittman, P.E., Senior Associate, Schnabel Engineering; Clint Brown, P.E., Project Dam and Reservoir Engineer, Engineering Analytics; and Johnathon Atkins, P.E., Dam Safety Engineer, Louisiana Dam Safety Program

The Walnut Grove Dam 1890 Failure: The Worst and Most Forgotten Disaster in Arizona History...908

Nathaniel Gee, P.E., Regional Engineer, Bureau of Reclamation; and Keil Neff, P.E., Ph.D., Senior Associate, Stantec Consulting Services, Inc.

The Great Granite Dam Failure of 1900: The Story of the Early Years of Austin, Texas...915

Jonathan Pittman, P.E., Senior Associate, Schnabel Engineering

Concurrent Session #34 A Success Story: Twenty Years of Rehab Through the USDA Small Watershed Program

Responding to the Alarm of Aging Infrastructure: The Behind-the Scenes Story of How NRCS engaged with Partners and Congress to Enact the Watershed Rehabilitation Act of 2000...916

Larry Caldwell P.E., Engineer, USDA - NRCS (Retired); and Doug McKalip, former USDA - NRCS

Never Too "Dam" Old: 80 years of Dam Research by the Agricultural Research Service in Support of the USDA Small Watershed Program and Dam Rehabilitation...950

Sherry L. Hunt, Ph.D., E.I.T., Research Leader and Acting Location Coordinator; and Darrel M. Temple, Research Leader (Retired), USDA – ARS

Concurrent Session #35: Prioritizing thru Risk Analysis

Gated Side-Channel Spillway Capacity and Structural Stability of the Salt Springs Dam...951

Adrian Strain, Water Resource Engineer; and Abbas Dorostkar, Senior Water Resource Engineer, HDR; and Andrew Fisher, Civil Engineer – Dam Safety Program, Pacific Gas & Electric

The Next Step After 2,000 Dam Inspections: Risk-Based Prioritization...952

Erdem O. Tastan, Ph.D., P.E.; Kermit Applegate, P.E.; Patterson X. Gambill, P.E.; and Thomas E. Evans, P.E., CDM Smith

Developing an Initial Prioritization Tool for California's Dam Safety Program...967

Kristen Martin, P.E., Senior Engineer; and Vojislav Cvijanovic, P.E., Supervising Engineer, California Division of Safety of Dams

Concurrent Session #36: ASDSO Behind the Scenes

ASDSO Behind the Scenes: A look at how ASDSO runs, what ASDSO is working on, and how you can get involved to further the organization and your career. All through the lens of some of the professionals who are making it happen...978

Panelists: Lori Spragens, Executive Director, and Ross Brown, Conferences, Membership & Marketing Director, ASDSO; Kate Naughton, P.E., CFM, Project Engineer, Gannett Fleming; John Moyle, P.E., Director, Division of Dam Safety and Flood Engineering at NJ Department of Environmental Protection; and Bill McCormick, P.E., P.G., Chief, CO Dam Safety at Colorado Division of Water Resources

Concurrent Session #37: Tailings Dams

First Virtual Round Table on Tailings Dams: Catching up on tailings dam safety and regulation around the world...993

Moderated by Charles Cobb, Alaska Department of Natural Resources, including: Mike Henderson, BGC Engineering; Amanda Adams, Stantec; Harvey McLeod, Klohn Crippen Berger; Andy Small, Klohn Crippen Berger; Kim Morrison, Newmont Mining; Tamara Johndrow, Freeport-McMoran; Dr. Dirk Van Zyl, University of British Columbia and Dr. Priscilla Nelson, Colorado School of Mines

Posters & Lightning Talks

An Up to Date on La Romaine Complex, The Most Important Hydroelectric Project Under Construction in North America...995

Vlad Liviu Alicescu, P.E.; and Jean Pierre Tournier, Ph.D., Special Advisor and VP ICOLD, Hydro-Québec

Historic Information in Dam Rehabilitation ...996

Ed Kaminski, P.E., Project Manager; Jared Deible, Technical Manager; and Joe Kudritz, P.E., Michael Baker International; and Ed Raptosh, Civil Engineer Manager, Pennsylvania DCNR

Modeling of a Variable Radius Concrete Arch Dam Using Unmanned Aerial System Photogrammetry...997

Ryan Coppersmith, Senior Geologist, Coppersmith Consulting Inc.; and Tim Truong, P.E., PMP, Chief Dam Safety Engineer, Yuba County Water Agency

Overview of California Dam Safety Inundation Map Program...998

Murari Paudel, Ph.D., P.E., Supervising Engineer Specialist (Water Resources); Phu Huynh, P.E., Supervising Engineer (Water Resources); and Ariya Balakrishnan, Ph.D., P.E., G.E., Principal Engineer, CA Department of Water Resources, Division of Safety of Dams

Permeability of Cutoff Wall Seepage Barriers in Earthen Dams: A Case Study of East Branch Dam Safety Modification...999

Carolyn Marie Wehner, E.I.T., Engineer, US Army Corps of Engineers

Piezometer Testing and Evaluation at the Youghiogheny River Dam...1012

Harold B. Russell, Ph.D., P.E., Geotechnical Engineer; and Paul Zinnecker, P.E., Geotechnical Engineer, US Army Corps of Engineers

Pyramid Dam Emergency Spillway: Comprehensive geologic and geotechnical investigation to quantify rock erodibility for an unlined emergency spillway...1027

Michael Buga, P.G., CEG, Senior Geologist; Eduard Egov, P.E., Dams and Hydraulic Structures Inspection Lead; and Dawning Wu, EIT, Water Resources Recovery Facility Process EIT, HDR Engineering; Olivia M. Virgadamo, P.E., Supervising Engineer, Project Manager; Mark Pagenkopp, CEG, Senior Engineering Geologist; Brad von Dessonneck, P.G., CEG, Engineering Geologist, CA Department of Water Resources; and David Trench, P.G., CEG, Senior Geologist, InfraTerra

Repurposing the Indianford Powerhouse to Improve Project Discharge Capacity...1026

Jeffrey A. Anderson, P.E., Project Engineer, Water Resources, Mead & Hunt, Inc.

Screening Technique to Identify Risky Emergency Spillways...1035

Sanjeeta Ghimire, Doctorate Student; and Joseph Schulenberg, Assistant Professor, University of Illinois at Chicago

Shear Key Excavation Stability Analysis at a Slopewash Section of B.F. Sisk Dam...1056

Kevin Zeh-Zon Lee, Ph.D., P.E., Civil Engineer; David M. Weidinger, P.E., Civil Engineer; Tonya J. Hart, P.E., Supervisory Civil Engineer; Derek T. Wittwer, P.E., Supervisory Civil Engineer; and David R. Gillette, Ph.D., P.E., Civil Engineer, Bureau of Reclamation

Strain-based Approach for Stability Analysis of Earthen Embankments...1074

Rowshon Jadid, Graduate Student; Brina M. Montoya, Associate Professor; and Mohammed A. Gabr, Professor, North Carolina State University

Unsaturated soil model effects on the propagation of the saturated zone in levees during flooding...1083

Prince Turkson, Graduate Teaching Assistant; Daniel R. VandenBerge, Assistant Professor; and Elizabeth R. Boeglin, Undergraduate Student, Tennessee Technological University

Use of Tractive Force Methods for Determining Railroad Bed Instability and Assessing Corresponding Flood Risks...1084

Jeffrey Blass, Dams Project Manager; and G. Michael McIntyre, P.E., Dams Practice Leader, Southeast Region, AECOM
