Session Index

- Plenary

[PL_01](#) ***Progress in NVH Technology for Future Mobility***
Jaeheon Kim (Hyundai Motor Group) 1

[PL_02](#) ***Current trends in urban soundscape research***
Catherine Gustavino (McGill University, Canada) 9

- Keynote

[KL_01](#) ***Spatial Hearing and Virtual Auditory Display***
Bosun Xie (South China University of Technology, China),
Michelle C. Vigeant (Penn State University, USA) 21

[KL_02](#) ***Acoustic Black Hole***
Wonju Jeon (KAIST, Korea),
Mikhail A. Mironov (Andreyev Acoustics Institute, Russia) 42

[KL_03](#) ***Floor impact sound transmission and control***
Berndt Zeitler (University of Applied Sciences Stuttgart, Germany),
Atsuo Hiramitsu (Building Research Institute, Japan) N/A

Session Index

Area 1 Acoustic Materials

Session 1. Advances in Acoustic Materials

- [1.1.202](#) ***A Time-domain Finite Volume Method approach for the Simulation of Sound Propagation in Porous Medium***
Rui Zhang (Harbin Engineering University), Pingjian Ming (Harbin Engineering University), Wenping Zhang, (Harbin Engineering University), Xiaochen Zhao (Harbin Engineering University) 53
- [1.1.215](#) ***Broadband duct noise control by smart plate with piezoelectric elements***
Xiang Liu (The University of Hong Kong), Chunqi Wang (HKU-Zhejiang Institute of Research and Innovation), Lixi Huang (The University of Hong Kong) 63
- [1.1.775](#) ***Experimental Study on the Sound Insulation Performance of Periodic Parallel Helmholtz Structure***
Xiaoling Gai (Environment Noise and Vibration), Xianhui Li (Environment Noise and Vibration), Tuo Xing (Environment Noise and Vibration), Zenong Cai (Environment Noise and Vibration), Fang Wang (Environment Noise and Vibration), Bin Zhang (Environment Noise and Vibration) 71
- [1.1.808](#) ***Experimental Investigation of Nonwoven-based Sound Insulation Tube-like Structure***
Fang (Environment Noise and Vibration), Wang (Environment Noise and Vibration), Xianhui Li (Environment Noise and Vibration), Xiaoling Gai (Environment Noise and Vibration), Zenong Cai (Environment Noise and Vibration), Tuo Xing (Environment Noise and Vibration) 76
- [1.1.830](#) ***Sound absorption of external intubation Helmholtz resonance structure***
Tuo Xing (Environment Noise and Vibration), Xianhui Li (Environment Noise and Vibration), Xiaoling Gai (Environment Noise and Vibration), Fang Wang (Environment Noise and Vibration), Zenong Cai (Environment Noise and Vibration), Xiwen Guan (Environment Noise and Vibration) 83
- [1.1.912](#) ***Experimental and numerical modelling of Helmholtz Resonator with angled neck aperture***
Denilson Ramos (Federal University of Santa Maria), Luís Godinho (University of Coimbra), Paulo Amado-Mendes (University of Coimbra), Paulo Mareze (Federal University of Santa Maria) 89
- [1.1.926](#) ***Acoustic absorption properties of granular silica aerogels***
Amrutha Dasyam (Wichita State University), Ola Khaleel (Wichita State University), Bhisham Sharma (Wichita State University) 100
- [1.1.950](#) ***Innovative Electrospun Polyvinylpyrrolidone Based Materials For Soundproofing***
Jessica Passaro (University of Naples Federico II), Aurelio Bifulco (University of Naples Federico II), Francesco Marulo (University of Naples Federico II), Aniello Costantini (University of Naples Federico II), Francesco Branda (University of Naples Federico II) 111
- [1.1.951](#) ***Experimental investigation on performance of composite acoustic cement panel using recycled SMB waste***
S R Viswanath Mantha (National Institute of Technology Karnataka), Sharnappa Joladarashi (National Institute of Technology Karnataka), Ch V S N Reddi (Aditya Engineering College), S R Viswanath Mantha (Vignans Institute of Information Technology) 116
- [1.1.1004](#) ***Applications of Lightweight Thermoplastic Sound Absorptive Panels***
Xin Yan (University of Kentucky), D. W. Herrin (University of Kentucky) 132

Session 2. Porous Materials Measurement and Modeling

- [1.2.179](#) ***Methodology for microstructure based fluid-acoustic property estimation of porous material***
Sung Soo Yang (Seoul National University), Yeon June Kang (Seoul National University), Hyeong Rae Lee (Hyundai Motor Group), Seong Je Kim (Hyundai Motor Group), Jung Wook Lee (Hyundai Motor Group) 138

- [1.2.265](#) **Acoustic properties of Dash Insulation Pad with light-weight heavy layer filled with TEMs**
Min-Ji Yu (DAEHAN SOLUTION Co., LTD), Sang-Min Kim (DAEHAN SOLUTION Co., LTD), Jang-Seok Park (DAEHAN SOLUTION Co., LTD) 146
- [1.2.654](#) **Optimization of sound absorption coefficient of polyurethane foam by graphene oxide impregnation: simulation-based prediction & experimental verification**
Jaehyung Kim (Kyung Hee University), Yujin Shin (Kyung Hee University), Inhwa Jung (Kyung Hee University), Juhyun Jeon (Seoul National University), Yeon June Kang (Seoul National University) 155
- [1.2.787](#) **Scattering of acoustic waves in air and water filled 3D stereo-lithographical (STL) porous rigid materials**
Haydar Aygun (London South Bank University) 164
- [1.2.924](#) **Criteria for the selection of porous cores for thermoacoustic applications**
Fabio Auremma (Tallinn University of Technology), Marialuisa Napolitano (University of Naples, Federico II), Elio Di Giulio (University of Naples, Federico II), Raffaele Dragonetti (University of Naples, Federico II) 171
- [1.2.935](#) **Acoustic properties of porous concrete - Experiments and modelling**
Laura Lourenço de Sousa (Univ. of Coimbra), Luís Pereira (Univ. of Coimbra), Luís Godinho (Univ. of Coimbra), Paulo Amado Mendes (Univ. of Coimbra) 179
- [1.2.975](#) **Sound absorption of double porosity material backed with air cavity**
Xuewei Liu, (Xi'an Jiaotong University) 190

Session 3. Acoustic Metamaterials

- [1.3.278](#) **Metasurface using multiple perforated panels in a coiled arrangement**
Zhibo Wang (The Hong Kong Polytechnic University), Weiping Yang (The Hong Kong Polytechnic University), Yat Sze Choy (The Hong Kong Polytechnic University) 199
- [1.3.296](#) **Full scale metamaterial window for building application**
Gioia Fusaro (University of Sheffield), Xiang Yu (A*Star, Singapore), Fangsen Cui (A*Star, Singapore), Jian Kang (University College) 207
- [1.3.330](#) **Experimental Study of Acoustic Metamaterial Duct Silencer Carrying Low Speed Flows**
Racer K.H. LAM (The Hong Kong Polytechnic University), Randolph C.K. LEUNG (The Hong Kong Polytechnic University), Garret C.Y. LAM (The Hong Kong Polytechnic University), Leo M.T. NG (The Hong Kong Polytechnic University) 215
- [1.3.408](#) **Noise Improvement of Air Conditioning Accumulator Using Acoustic Metamaterials**
Minkyu Kim (LG Electronics), Sunhwa Park (LG Electronics), Mijeong Shin (LG Electronics), Youngsu Jeong (LG Electronics) 230
- [1.3.415](#) **Curved metasurface for perfect absorption of sound**
Jiwan Kim (Korea Advanced Institute of Science and Technology), Wonju Jeon (Korea Advanced Institute of Science and Technology) 238
- [1.3.419](#) **Acoustic metasurface for broadband sound absorption via multiple hybrid resonances**
Hyeonbin Ryoo (Korea Advanced Institute of Science and Technology), Wonju Jeon (Korea Advanced Institute of Science and Technology) 243
- [1.3.421](#) **Acoustic metalens with broadband high transmission under consideration of visco-thermal losses and elastic deformation**
Chankyu Kim (Korea Advanced Institute of Science and Technology), Wonju Jeon (Korea Advanced Institute of Science and Technology) 247

- [1.3.423](#) ***Perfect sound-absorbing metasurface using Helmholtz resonators with non-uniformly partitioned cavities by membranes***
Eunji Choi (Korea Advanced Institute of Science and Technology), Wonju Jeon (Korea Advanced Institute of Science and Technology) 252
- [1.3.449](#) ***Analysis of the Band gap using Serpentine spring***
Junmin Yu (Gwangju Institute of Science and Technology), Jaesoon Jung (Technical University of Denmark), Semyung Wang (Gwangju Institute of Science and Technology) 256
- [1.3.469](#) ***Effect of steady and unsteady flows on the bandgap characteristics of phononic crystal***
Tae Seok Oh (Korea Advanced Institute of Science and Technology), Wonju Jeon (Korea Advanced Institute of Science and Technology) 263
- [1.3.479](#) ***Investigation on the sound insulation properties of perforated plates with membrane cell and mass blocks***
Yang Yuqi (South China University of Technology), Wang Hongwei (South China University of Technology), Yu Xiu (South China University of Technology) 268
- [1.3.503](#) ***Experimental validation of acoustic metamaterials noise attenuation performance for aircraft cabin applications***
Sebastian Ghinet (National Research Council Canada), Patrick Bouche (Mecanum Inc.), Thomas Padois (Ecole de Technologie Supérieure de Montreal), Louis Pires (Ecole de Technologie Supérieure de Montreal), Olivier Doutres (Ecole de Technologie Supérieure de Montreal), 274
- [1.3.539](#) ***An active acoustic metamaterial based on the principle of local resonance***
Yunong Yang (China Ship Development and Design Center), Qing Wang (China Ship Development and Design Center) 285
- [1.3.554](#) ***Highly anisotropic pentamode materials for low frequency water sound insulation***
Binghao Zhao (Beijing Institute of Technology), Mingye Zheng (Beijing Institute of Technology), Gengkai Hu, (Beijing Institute of Technology) 292
- [1.3.639](#) ***Acoustic Meta-lens: Computational Simulation and Underwater Experiments by a Three-dimensional Flat Acoustic Luneburg Lens***
Gunn Hwang (Electronics and Telecommunications Research Institute), Jung-Woo Kim (Mokpo National Maritime University), Seong-Jin Lee (Mokpo National Maritime University), Sang-Hoon Kim (Mokpo National Maritime University) 297
- [1.3.715](#) ***Design of frequency bandgaps in 3D woodpile metamaterials***
Eunho Kim (Jeonbuk National University), Yeongtae Jang (Jeonbuk National University) 303
- [1.3.759](#) ***Metamodeling and optimisation of a sonic crystal-based noise attenuation device***
Luana Georgiana Stoica (University of Roma Tre), Alessandro Di Marco (University of Roma Tre), Paola Gori (University of Roma Tre) 308
- [1.3.764](#) ***Acoustic impedance of a folded rectangular cross shape cavity***
Naser Sharafkhani (University of Technology Sydney), Xiaojun Qiu (University of Technology Sydney), Dongbin Wei (University of Technology Sydney) 319
- [1.3.784](#) ***Enhancing muffler transmission loss using periodicity***
Vitor F. Almeida (Tecumseh do Brasil LTDA), José R. F. Arruda (University of Campinas) 325
- [1.3.816](#) ***Side-branch resonator based acoustic metasurface for achromatic reflections at multiple frequencies***
Yubin Oh (Chungnam National University), Joong Seok Lee (Chungnam National University) 336

[1.3.945](#) ***A detailed review study on acoustic Meta-materials***

V Simhachalam Naidu (Jawaharlal Nehru Technological University Kakinada), K Meera Saheb (Jawaharlal Nehru Technological University Kakinada), Ch V S N Reddi (Aditya Engineering College) 340

[1.3.962](#) ***Characterization of the acoustic properties of complex shape metamaterials***

Tenon Charly Kone (National Research Council Canada), Sebastian Ghinet (National Research Council Canada), Thomas Dupont (École de Technologie Supérieure), Raymond Panneton (Université de Sherbrooke), Grewal Anant (National Research Council Canada), Wickramasinghe Viresh (National Research Council Canada) 347

[1.3.967](#) ***Analysis of phononic crystals with uncertainty in the parameters using extended plane wave expansion***

Marcela Rodrigues Machado (University of Brasília), Edson Jansen Pedrosa Miranda Junior (Federal Institute of Maranhão), José Maria Campos do Santos (University of Campinas) 357

Session 4. Microperforated Panels

[1.4.157](#) ***Effect of axially segmented liner distribution on sound attenuation in a flow duct***

Penglin Zhang (Shanghai Jiao Tong University), Yu Huang (Shanghai Jiao Tong University), Cheng Yang (Shanghai Jiao Tong University) 366

[1.4.518](#) ***Sound Transmission of Mufflers Lined with Micro-perforated Panel Absorbers with Parallel-arranged Cavities of Different Depths***

Huading Lou (Southeast University), Yuchen Zhao (Southeast University), Mengzhu Li (China State Shipbuilding Corporation (CSSC) Systems Engineering Research Institute), Yu Fu (China State Shipbuilding Corporation (CSSC) Systems Engineering Research Institute), Jianhua Wang (China State Shipbuilding Corporation (CSSC) Systems Engineering Research Institute), Hequn Min (Southeast University), 379

[1.4.670](#) ***A composite sound-absorbing structure with low-frequency, broadband, and incident direction-insensitive characteristics***

Mingyue Yang (Shanghai Marine Diesel Engine Research Institute), Beibei Xu (Shanghai Marine Diesel Engine Research Institute), Jinyan Zhu (Shanghai Marine Diesel Engine Research Institute), Deshu Ma (Shanghai Marine Diesel Engine Research Institute), Xiaojian Zhu (Shanghai Marine Diesel Engine Research Institute), Xiaole Wang (Shanghai Jiao Tong University) 390

[1.4.762](#) ***Micro-capillary plate absorbers for broadband dissipation in the low frequency range***

Teresa Bravo (Instituto de Tecnologías Físicas y de la Información (ITEFI)), Cédric Maury (Ecole Centrale Marseille) 398

[1.4.788](#) ***Three-dimensional MPP space absorbers: An overview of the project and recent development***

Midori Kusaka (Kobe University), Kimihiro Sakagami (Kobe University), Takeshi Okuzono (Kobe University), Shigeyuki Kido (NC Industry Co., Ltd.), Daichi Yamaguchi (NC Industry Co., Ltd.) 410

Session 5. Sound Absorbers and Diffusors

[1.5.332](#) ***Random incidence sound absorption of a shunt loudspeaker array***

Pengju Zhang (Nanjing University), Chaonan Cong (China Jiliang University), Jiancheng Tao (Nanjing University), Xiaojun Qiu (University of Technology Sydney) 421

[1.5.466](#) ***Sound insulation characteristics of a layered structure using perforated honeycomb panel***

Kyungsoo Kong (The University of Tokyo), Naohisa Inoue (Maebashi Institute of Technology), Tetsuya Sakuma (The University of Tokyo) 428

- [1.5.471](#) ***Geometric shape effects of cavity and neck on acoustic absorption performance of Helmholtz resonator with extended neck***
Ziyan Jiang (The Hong Kong University of Science and Technology), Jingwen Guo (The Hong Kong University of Science and Technology), Yi Fang, Qian Liu (The Hong Kong University of Science and Technology), Xin Zhang (The Hong Kong University of Science and Technology), Guocheng Zhou (AVIC Aerodynamics Research Institute), Bao Chen (AVIC Aerodynamics Research Institute) 436
- [1.5.725](#) ***Acoustic design of ordinary rooms using absorbers and diffusers***
Emma Arvidsson (Lund University), Delphine Bard Hagberg (Lund University), Erling Nilsson (Ecophon), Ola Karlsson (Ecophon) 446
- [1.5.758](#) ***Egg cartons used as sound absorbing systems***
Gino Iannace (Università della Campania Luigi Vanvitelli), Umberto Berardi (Ryerson University), Giuseppe Ciaburro (Università della Campania Luigi Vanvitelli), Amelia Trematerra (Università della Campania Luigi Vanvitelli) 457
- [1.5.796](#) ***Investigation of the Sound Absorption of Folded Curtain***
Zenong Cai (Beijing Municipal Institute of Labour Protection), Xianhui Li (Beijing Municipal Institute of Labour Protection), Xiaoling Gai (Beijing Municipal Institute of Labour Protection), Tuo Xing (Beijing Municipal Institute of Labour Protection), Fang Wang (Beijing Municipal Institute of Labour Protection), Xiwen Guan (Beijing Municipal Institute of Labour Protection), 465
- [1.5.867](#) ***An innovative, cost efficient, flame resistant, nonwoven noise control material***
Nurkan Turkdogru Gurun (Aearo Technologies LLC), Liyun Ren (3M Center), Daniel Zillig (3M Center), Fredrick Vance (Aearo Technologies LLC), Katya Newman (3M Center), Zhiming Luo (Aearo Technologies LLC) 471
- [1.5.907](#) ***The energy thresholds of nonlinear sound absorbers***
Yang, min (Beijing Municipal Institute of Labor Protection), Li, Xianhui (Beijing Municipal Institute of Labor Protection), Xing, Tuo (Beijing Municipal Institute of Labor Protection) 480
- [1.5.943](#) ***Comparative Study on Sound Absorption Coefficient of Various Jute Composite Materials***
B Somi Naidu (National Institute of Technology Karnataka, Surathkal), Jeyaraj Pitchaimani (National Institute of Technology Karnataka, Surathkal), V S N Reddi Chintapalli (Aditya Engineering College), B Somi Naidu (Vignans Institute of Information Technology) 486
- [1.5.952](#) ***Influence of depth variation on ultra-thin diffusers***
Georgina Lizaso (Universidad Nacional de Lanús), Nicolás Casais Dassie (Universidad Nacional de Lanús), Lucas Landini (Universidad Nacional de Lanús), Jorge Petrosino (Universidad Nacional de Lanús) 502
- [1.5.982](#) ***Experiment and estimation of the sound absorption coefficient of a pin holder structure***
Takamasa Satoh (FUKOKU Co., Ltd.), Shuichi Sakamoto (Niigata University), Isami Nitta (Niigata University), Kota Akamine (Niigata University), Shunsuke Unai (Niigata University), Takunari Isobe (Niigata University), Kenta Iizuka (Niigata University) 510

Session 6. Additive Manufacturing for Acoustic Applications

- [1.6.135](#) ***Dynamic mechanical analysis of FFF printed parts in ABSplus***
Manuel Bopp (Institute of Product Engineering at KIT), Matthias Behrendt (Institute of Product Engineering at KIT) 520
- [1.6.955](#) ***Experimental visualization of sound of a 3D printed labyrinthine type metamaterial***
Grzegorz Szczepański (Central Institute for Labour Protection), Leszek Morzyński (Central Institute for Labour Protection), Adam Świdziński (Central Institute for Labour Protection) 535

Session 7. Recent advances in measurement of sound absorption

- [1.7.263](#) **Bayesian microphone position estimation for the transfer function tube method of acoustic impedance measurements**
Mallory Peskens (Rensselaer Polytechnic Institute), Cameron Fackler (Rensselaer Polytechnic Institute), Ning Xiang (Rensselaer Polytechnic Institute) 543
- [1.7.493](#) **A method for measuring the angle-dependent absorption coefficient and surface impedance in situ**
Mélanie Nolan (Technical University of Denmark), Erling Nilsson (Saint-Gobain Ecophon) 552
- [1.7.535](#) **A discussion on the mechanism of sound absorption measurement method based on the ensemble averaging technique**
Toru Otsuru (Oita University), Reiji Tomiku (Oita University), Noriko Okamoto (Oita University), Siwat Lawanwadeekul (Graduate School of Oita University), Noriaki Sakamoto (Graduate School of Oita University) 562
- [1.7.772](#) **Design of a new Sound Field Analysis Recorder (SOFAR) for isotropy quantification in reverberation chambers**
Peter D'Antonio (RPG Acoustic Systems, LLC), Mélanie Nolan (Technical University of Denmark), Efrén Fernández-Grande (Saint-Gobain Ecophon) 568
- [1.7.869](#) **Influence of edge diffraction on the in situ measurement of impedance using microphone arrays**
Eric Brandão (Federal University of Santa Maria), Efrén Fernández-Grande (Technical University of Denmark) 577

Area 2 Active Control of Sound & Vibration

Session 1. Recent advances in algorithms, softwares and hardwares for active control, and their applications

- [2.1.128](#) **Current-saving sampling framework for the embedded implementation of positive position feedback**
Gergely Takács (Slovak University of Technology in Bratislava), Erik Mikuláš (Slovak University of Technology in Bratislava), Martin Vr̃čan (Slovak University of Technology in Bratislava), Martin Gulán (Slovak University of Technology in Bratislava) 589
- [2.1.144](#) **Rendering high-fidelity vibrotactile feedback on a plate via optimization of actuator driving signals**
Sangwon Park (Yonsei University), Dongjoon Kim (Yonsei University), Wheejae Kim (Yonsei University), No-Cheol Park (Yonsei University) 600
- [2.1.177](#) **Active damping of room eigenmodes**
Nikolay Kanev (Andreyev Acoustics Institute) 608
- [2.1.207](#) **Improving robustness against head movement for an active headrest with virtual sensing**
Hongyu Chen (Nanjing University), Haishan Zou (Nanjing University), Jiancheng Tao (Nanjing University) 618
- [2.1.225](#) **Active headrest of an electric vehicle combined with the FxLMS algorithm and the remote microphone technique**
Zeqiang Zhang (Institute of Acoustics, Chinese Academy of Sciences), Ming Wu (Institute of Acoustics, Chinese Academy of Sciences), Rong Han (Institute of Acoustics, Chinese Academy of Sciences), Chen Gong (Institute of Acoustics, Chinese Academy of Sciences), Jun Yang (Institute of Acoustics, Chinese Academy of Sciences) 630
- [2.1.233](#) **Uniform active noise control based on Nelder–Mead algorithm**
Kexun Chi (Institute of Acoustics, Chinese Academy of Sciences), Ming Wu (Institute of Acoustics, Chinese Academy of Sciences), Xin Fang (Institute of Acoustics, Chinese Academy of Sciences), Chen Gong (Institute of Acoustics, Chinese Academy of Sciences), Rong Han (Institute of Acoustics, Chinese Academy of Sciences), Jun Yang (Institute of Acoustics, Chinese Academy of Sciences) 640
- [2.1.284](#) **Robust active control of snoring noise**
Yu Tang (Southwest Jiaotong University), Hongwei Zhang (Southwest Jiaotong University) 648

- [2.1.291](#) ***Experimental Verification of CPU-GPU Architecture for ANC Algorithms***
Yeongseok Kim (Korea Advanced Institute of Science and Technology), Youngjin Park (Korea Advanced Institute of Science and Technology) 659
- [2.1.303](#) ***Evaluation of Real-Time Development Platforms for the Implementation of Multi-channel ANC System***
Valiantsin Belyi (Nanyang Technological University), Woon-Seng Gan (Nanyang Technological University) 666
- [2.1.306](#) ***A Study on Subband ANC System Considering Masking for Reducing Speech Signal***
Yusuke MAKIYAMA (Kansai University), Yoshinobu KAJIKAWA (Kansai University) 676
- [2.1.310](#) ***Horizontal vibration response control of non-structure elements using gyro-stabilizer***
Yoon Soungcheol (Yonsei Univ.), Park Sangkyu(Yonsei Univ.) 681
- [2.1.347](#) ***Real-time Implementation of Global Active Noise Control with Acoustic Power minimization***
Ikchae Jeong (KAIST), Youngjin Park (KAIST) 688
- [2.1.351](#) ***Long range fire detection using a parabolic sound reflecting plate based on sound field variation***
Dae-Woong Jang (Secuworks Co., Ltd.), Min-Hong Ahn (Secuworks Co., Ltd.), Seung-Hoon Park (Secuworks Co., Ltd.), Sang-Woo Lee (Secuworks Co., Ltd.), Seung-Joo Kim (Secuworks Co., Ltd.), Ju-Cheol Lee (Secuworks Co., Ltd.), Yi-Gyeong Kim (Electronics and Telecommunications Research Institute (ETRI)), Kang-Ho Park (Electronics and Telecommunications Research Institute (ETRI)) 692
- [2.1.354](#) ***Experimental study on non-contact active vibration control of elastic shaft possessing initial deformation by using a magnetic bearing***
Toru Watanabe (Nihon University), Mitsutaka Nemoto (Nihon University) 700
- [2.1.355](#) ***Validation and performance analysis of a parameterizable normalized feedback FxLMS architecture for FPGA platforms***
Johannes Timmermann (Helmut-Schmidt-University / University of the Federal Armed Forces Hamburg), Alexander Klemd (Helmut-Schmidt-University / University of the Federal Armed Forces Hamburg), Jonas Hanselka (Helmut-Schmidt-University / University of the Federal Armed Forces Hamburg), Delf Sachau (Helmut-Schmidt-University / University of the Federal Armed Forces Hamburg), Bernd Klauer (Helmut-Schmidt-University / University of the Federal Armed Forces Hamburg) 705
- [2.1.434](#) ***An experimental study on the active noise control using a parametric array loudspeaker***
Jiaxin Zhong (University of Technology Sydney), Tong Xiao (University of Technology Sydney), Benjamin Halkon (University of Technology Sydney), Ray Kirby (University of Technology Sydney), Xiaojun Qiu (University of Technology Sydney) 714
- [2.1.520](#) ***An experimental study on the feasibility of applying active ventilation windows to reduce traffic noise***
Shuping Wang (University of Technology Sydney), Xiaojun Qiu (University of Technology Sydney), Jacob Chia-chun Liu (Tamkang University) 721
- [2.1.527](#) ***Development and Application of Dual Form Conic Formulation of Multichannel Active Noise Control Filter Design Problem in Frequency Domain***
Yongjie Zhuang (Purdue University), Yangfan Liu (Purdue University) 728
- [2.1.576](#) ***Full-scale experiments on the active noise control in high-speed train carriage***
Haishan Zou (Nanjing University), Chaohui Zhou (Nanjing University), Jinpei Xue (Nanjing University), Jun Wang (Nanjing University), Shangshuai Jia (CRRC Tangshan CO. Ltd.), Tieli Han (CRRC Tangshan CO. Ltd.) 740
- [2.1.611](#) ***Sound leakage investigation of ANC headphones using particle velocity sensors***
Fanyu Meng (Microflown Technologies), Anbo Yu (HT Acoustics), Dani Fernandez (Microflown Technologies) 750

- [2.1.679](#) **Active Noise Control based on the Momentum Multichannel Normalized Filtered-x Least Mean Square Algorithm**
Dongyuan Shi (Nanyang Technological University), Woon-Seng Gan (Nanyang Technological University), Bhan Lam (Nanyang Technological University), Shulin Wen (Nanyang Technological University), Xiaoyi Shen (Nanyang Technological University) 761
- [2.1.694](#) **Research on the cancellation of background reflected sound field based on parametric array loudspeaker**
Ma Zhongcheng (Dalian Scientific Test & Control Technology Institute), Duan Lijing (Dalian Scientific Test & Control Technology Institute), Lv Lianghao (Dalian Scientific Test & Control Technology Institute), Yang Baoshan (Dalian Scientific Test & Control Technology Institute), An Tiansi (Dalian Scientific Test & Control Technology Institute) 772
- [2.1.706](#) **Convergence behavior analysis of FxLMS algorithm with different leaky term**
Shulin Wen (Nanyang Technological University), Woon-Seng Gan (Nanyang Technological University), Dongyuan Shi (Nanyang Technological University) 780
- [2.1.895](#) **Transfer function variation of the secondary path of a compact ANC system in an open duct**
Baicun Chen (Nanjing University), Jiancheng Tao (Nanjing University), Xiaojun Qiu (University of Technology Sydney) 792
- [2.1.937](#) **Analysis and development of an active noise control system for the cancellation of noise produced by the reactors of electric stations**
Chiara Bartalucci (University of Florence), Francesco Borchì (University of Florence), Monica Carfagni (University of Florence), Libero Paolucci (University of Florence) 801

Session 3. Active structural acoustic control

- [2.3.127](#) **A time-domain delay-free rescaling block filtered-x LMS algorithm with output constraint for sinusoidal reference signals**
Lei Luo (Chongqing University) 811
- [2.3.208](#) **Reference signal purification via blind source separation for multi-channel virtual sound barrier system**
Jinpei Xue (Nanjing University), Feng Niu (Nanjing University), Kai Chen (Nanjing University), Jing Lu (Nanjing University) 819
- [2.3.229](#) **Use of Transform Domain Least Mean Square Algorithm in Active Noise Control for Music Noise Reduction**
Jaseung Lee (Gwangju Institute of Science and Technology), Onyu Jeon (Gwangju Institute of Science and Technology), Homin Ryu (Gwangju Institute of Science and Technology), Semyung Wang (Gwangju Institute of Science and Technology), Youngeun Cho (LG Electronics) 826
- [2.3.295](#) **Optimization of multichannel feedback filters in an active noise control headrest**
Chaohui Zhou (Nanjing University), Haishan Zou (Nanjing University), Xiaojun Qiu (University of Technology Sydney), Jing Lu (Nanjing University) 838
- [2.3.304](#) **Experimental Simulation of Adaptive Noise Control System Using Window-Speaker for Boat Noise**
Haruki Fukatsu (Shibaura Institute of Technology), Kenji Muto (Shibaura Institute of Technology) 846
- [2.3.314](#) **An Investigation into the Effect of Uncertainty on Active Acoustic Cloaking**
Charlie House (University of Southampton), Jordan Cheer (University of Southampton), Steve Daley (University of Southampton) 851
- [2.3.339](#) **Feedback active noise control system combined with simplified period aware linear prediction method and modified-error method for reducing MR-noise**
Marori YOSHIOKA (Ritsumeikan University), Soshi AOKI (Ritsumeikan University), Kenta IWAI (Ritsumeikan University), Takanobu Nishiura (Ritsumeikan University) 861

- [2.3.722](#) ***Analysis of Model Based Virtual Sensing Techniques for Active Noise Control***
Daniel Plewe (Technical University of Denmark), Finn T. Agerkvist (Technical University of Denmark), Eflen Fernandez Grande (Technical University of Denmark), Jonas Brunsog (Technical University of Denmark) 872
- [2.3.773](#) ***Perceptual Filter Optimization for Active Acoustic Equalization***
Johannes Fabry (RWTH Aachen University), Peter Jax (RWTH Aachen University) 884

Session 4. Smart Materials

- [2.4.172](#) ***Development of a new active vibration controller based on virtual tuned-mass-damper analogy for structures subjected to harmonic disturbances***
Moon K. Kwak (Dongguk University), Soo-Min Kim (Dongguk University) 892
- [2.4.638](#) ***Simulation of Adaptive Control of Radiated Sound Power in Front of a Plate***
Mehran Hajilou (Helmut-Schmidt-University / University of the federal armed forces Hamburg), Delf Sachau (Helmut-Schmidt-University / University of the federal armed forces Hamburg) 904
- [2.4.682](#) ***Vibration damping of elastically mounted windows for noise reduction in construction vehicles***
Bernhard Heinemann (Helmut-Schmidt-Universität/Universität der Bundeswehr Hamburg), Sergej Jukkert (Helmut-Schmidt-Universität/Universität der Bundeswehr Hamburg), Delf Sachau (Helmut-Schmidt-Universität/Universität der Bundeswehr Hamburg) 916
- [2.4.1010](#) ***Active control of acoustic wave characteristics using a double-layered piezoelectric acoustic metamaterial system***
Xiaolei Hu (Shanghai Jiao Tong University), Jingjing Ding (Shanghai Jiao Tong University), Limin Gu (Shanghai Jiao Tong University), Zhenyu Huang (Shanghai Jiao Tong University) 923
- [2.5.81](#) ***A new approach for an induced coagulation of particulate matter through thermo-acoustic agglomeration***
Siu-Kai Lai (The Hong Kong Polytechnic University), Yiting Zhang (The Hong Kong Polytechnic University), Jerry Chik-Wai Yu (The Hong Kong Polytechnic University), Yuguo Li (The University of Hong Kong) 933
- [2.5.186](#) ***Method for Elasto-plastic Seismic Time History Analysis of Piping System that imitate Internal Fluids as Acoustic Elements***
Chang Kyun Lee (Yonsei University), Sangjeung Lee (Yonsei University), EunHo Lee (Yonsei University), No-Cheol Park (Yonsei University) 943
- [2.5.581](#) ***Electromagnetic energy harvesting from ambient vibration using permanent magnet linear oscillator***
Kiichi Taguchi (Meiji University), Yoshinobu (Meiji University), Aoshima Akira Saito (Meiji University) 953
- [2.5.822](#) ***Vibration and wave propagation control in a smart metamaterial beam with periodic arrays of shunted piezoelectric patches***
Braion Barbosa de Moura (University of Brasília), Matheus Canêdo Ribeiro Borges (University of Brasília), Marcela Rodrigues Machado (University of Brasília) 958

Area 3 Aircraft Noise

Session 1. Advances in Aircraft Noise

- [3.1.243](#) ***Numerical analysis of Sonic Boom Noise Based on Aerological Observation Data Under the Mach Cutoff Condition***
Takao Tsuchiya (Doshisha University), Masashi Kanamori (JAXA Chōfu Aerospace Center) 969
- [3.1.327](#) ***A study on the correlation between aircraft noise units and weather conditions using automatic noise measurement data***
Sang Bong Lim (Yonsei Univ), Su Eun Choi (Yonsei Univ), Seunghyeon Yang (Yonsei Univ), Sangkyu Park (Yonsei Univ) 979

[3.1.363](#) ***Investigation of Bolt Loosening in Super-alloy Thermal Protection System Panel using High-speed Digital Image Correlation***

Vinh Tung Le (Konkuk University), Nam Seo Goo (Konkuk University) 990

Session 4. Airframe Noise

[3.4.131](#) ***Experimental investigation of the four-wheel landing gear noise in large-scale configurations***

Kun Zhao (China Aerodynamics Research and Development Centre), Ronping Zhang (China Aerodynamics Research and Development Centre); Qingyuan Cao (China Aerodynamics Research and Development Centre), Victor Kopiev (Central Aerohydrodynamic Institute), Ivan Belyaev (Central Aerohydrodynamic Institute) 997

[3.4.515](#) ***Numerical simulation and noise reduction design of outlet valve pipe cavity***

Yingzhe Zhang (Beijing Aircraft Technology Research Institute of Commerical Aircraft Corporation of China, Ltd.), Yifeng Sun (Shanghai Aircraft Design & Research Institute of Commerical Aircraft Corporation of China, Ltd.), Xiao Song (Shanghai Aircraft Design & Research Institute of Commerical Aircraft Corporation of China, Ltd.), Incheol Lee (Beijing Aircraft Technology Research Institute of Commerical Aircraft Corporation of China, Ltd.), Peiqing Liu (Beihang University) 1007

[3.4.858](#) ***Experimental study on wall-mounted airfoil noise reduction***

Fan Tong (China Aerodynamics Research and Development Center), Yong Wang (China Aerodynamics Research and Development Center), Zhengwu Chen (China Aerodynamics Research and Development), Ben Huang (China Aerodynamics Research and Development Center) 1019

Session 5. Airport Community Noise

[3.5.502](#) ***Revision of the guidance manual for the measurement and evaluation of aircraft noise in Japan***

Ichiro Yamada (Organization of Airport Facilitation), Naoaki Shinohara (Organization of Airport Facilitation) 1027

[3.5.545](#) ***Latest trends in noise issues related with the progress in airport and air transportation in Japan***

Naoaki SHINOHARA (Organization of Airport Facilitation) 1033

[3.5.624](#) ***Complementation of Airport Noise Maps with audio listening***

Vitor Rosão (SCHIU, Vibration and Noise Engineering), Ekim Bakirci (Frekans Acoustics), Ana Roque (SCHIU, Vibration and Noise Engineering) 1042

[3.5.643](#) ***Assessment of en-route noise by simulated scenarios for future urban air traffic***

Michael Bauer (MUNICH AEROACOUSTICS) 1054

[3.5.730](#) ***Does the community response to noise change? A follow-up investigation on the impact of aircraft noise around Tan Son Nhat Airport after 11 years***

Thu Lan Nguyen (Shimane University) Bach Lien Trieu (Shimane University), Wei Zhang (Shimane University), Yasuhiro Hiraguri (Kindai Universit), Makoto Morinaga (Defense Structure Improvement Foundation), Takashi Morihara (Ishikawa College), Takashi Yano (Kumamoto University) 1061

[3.5.742](#) ***WECPNL Analysis of Helicopter Noise Evaluation Unit Using Mobile Sound Level Meter***

Ming Zhang (Wonkwang University), Byoung-Sam Kim (Wonkwang University), Hongjie Ji (Wonkwang University) 1073

[3.5.778](#) ***The case for a design-led, end-user focused airport noise management process.***

Graeme Heyes (Manchester Metropolitan University), Jack Shepperd (A Good Design Studio) 1085

[3.5.870](#) ***Noise Level Analysis by Aircraft Type in Service in Korea: Case Study of Gimhae Airport***

Jae Sik Park (The Korea Transport Institute), Sung Yeoul Oh (The Korea Transport Institute), Hong Woo Shin (The Korea Transport Institute), Sang Kyu Park (Yonsei University) 1095

[3.5.873](#) ***Survey of international approaches to aircraft noise abatement strategies***

Eoin A. King (University of Hartford), Paul E. Slaboch (University of Hartford), Sean Bradley (University of Hartford), Montasim Chowdhury (University of Hartford) 1 1 0 3

Session 6. Aero-engine Noise (Fan Noise)

[3.6.270](#) ***Verification of liner panel designs based on impedance deduced by direct methods***

Yo Murata (The University of Tokyo), Hirofumi Daiguji (The University of Tokyo), Tatsuya Ishii (Japan Aerospace Exploration Agency), Kenichiro Nagai (Japan Aerospace Exploration Agency), Hideshi Oinuma (Japan Aerospace Exploration Agency) 1 1 1 1

[3.6.630](#) ***Study on methodologies to locate sound sources in the circular duct by using an out-duct placed microphone array***

Shichun Huang (China Aerodynamics Research and Development Center), Li Yan (Shanghai Jiao Tong University), Liang Yu (Shanghai Jiao Tong University), Weikang Jiang (Shanghai Jiao Tong University) 1 1 2 3

[3.6.741](#) ***The effect of intake length on aerodynamic characteristics under inlet distortion***

Hiroki Naruse (Tokyo University of Science), Tatsuya Ishii (Japan Aerospace Exploration Agency), Hideshi Oinuma (Japan Aerospace Exploration Agency), Shinya Kusuda (IHI Corporation), Yoshinori Ooba (IHI Corporation), Karin Hirakawa (IHI Corporation), Hitoshi Ishikawa (Tokyo University of Science) 1 1 3 1

[3.6.823](#) ***A non-reflective boundary condition for prediction of acoustic tones in turbomachinery using computational fluid dynamics for non-uniform flows in 3-D***

Kamran Zaabar (University of Southampton), Alexander Wilson (University of Southampton) 1 1 4 2

Area 4 Building & Room Acoustics

Session 1. Advances in Architectural Acoustics and Building Noise and Vibration

[4.1.94](#) ***Empirical models for artificial and natural rainfall to assess rain noise inside buildings and cars***

Carl Hopkins (University of Liverpool), Yicheng Yu (University of Liverpool) 1 1 5 4

[4.1.152](#) ***Acoustic integration in BIM models***

Angela Lorenzo del Moral (IDOM) 1 1 6 2

[4.1.317](#) ***Proposition and recommendations on a source localization method for popping noise in large window frames based on the analysis of lamb waves propagation***

Stéphane Lesoinne (Belgian Building Research Institute), Charlotte Crispin (Belgian Building Research Institute), Vincent Detremmerie (Belgian Building Research Institute), Christophe Galloy (Belgian Building Research Institute) 1 1 7 0

[4.1.805](#) ***A formulation of time-domain FEM for room acoustic simulations with frequency-dependent locally-reacting impedance boundary***

Takumi Yoshida (Hazama Ando Corporation), Takeshi Okuzono (Kobe University), Kimihiro Sakagami (Kobe University) 1 1 7 8

Session 2. Acoustic Regulations/Enforcement and Classification for New, Existing and Retrofitted Buildings

[4.2.90](#) ***Measurement of absorption coefficients to ISO354 using tall sources and microphones***

Stephen Dance (London South Bank University), Douglas Shearer (London South Bank University) 1 1 8 6

[4.2.337](#) ***Classification scheme of floor impact sound insulation by rubber ball***

JeongHo Jeong (Fire Insurers Laboratories of Korea), YongHee Kim (Korea Conformity Laboratories), JongKwan Ryu (Chonnam National University), KyoungHo Kim (KCC) 1 1 9 1

- [4.2.640](#) ***In-situ investigation of multi-perforated gypsum boards in an apartment living space for reduction of heavy-weight impact noise***
Yong Hee Kim (Korea Conformity Laboratories (KCL)), So Young Kim (Korea Conformity Laboratories (KCL)), Sung Ho Park (Sinho Industry), Hye Mi Lee (USG Boral Korea Co., Ltd.) 1195
- [4.2.847](#) ***Considerations on the determination of measurements uncertainties values in laboratory airborne sound insulations measurements***
Sónia Antunes (Laboratório Nacional de Engenharia Civil), Jorge Patrício (Laboratório Nacional de Engenharia Civil), Julieta António (Itecons/University of Coimbra), Ana Falcão (CCDR/Norte) 1204
- [4.2.855](#) ***Improvements in acoustic insulation of new flats in Pamplona (Spain) after the approval of the current Spanish Technical Building Code***
Miguel Arana (Public University of Navarre), Ricardo San Martin (Public University of Navarre), Iñaki Nagore (ID Ingeniería Acústica), David Pérez (ID Ingeniería Acústica) 1213
- [4.2.903](#) ***Verification of sound insulation performance of housing by field measurements and/or calculations - a case study***
Ayca Sentop Dümen (Istanbul Bilgi University), Birgit Rasmussen (Aalborg University Copenhagen) 1219
- [4.2.963](#) ***The Italian classification scheme of buildings – application to apartments and schools***
Patrizio Fausti (University of Ferrara), Antonino Di Bella (University of Padua), Andrea Santoni (University of Ferrara), Fabio Scamoni (National Research Council of Italy), Simone Secchi (University of Florence), Giovanni Semprini (University of Bologna) 1227
- [4.2.964](#) ***Acoustics Ventilation and Overheating: Residential Design Guide***
Jack Harvie-Clark (Apex Acoustics), Anthony Chilton (Max Fordham) 1238
- [4.2.972](#) ***A proposal for a new classification scheme for dwellings in Brazil***
Marcos Holtz (HARMONIA), Davi Akkerman (HARMONIA), Carolina Monteiro (HARMONIA) 1247
- [4.2.987](#) ***Encouraging acoustic renovation of housing in Denmark by extending acoustic classification with two lower classes E and F for old housing***
Birgit Rasmussen (Aalborg University Copenhagen) 1257

Session 3. Impact and Structure borne Noise in Buildings

- [4.3.169](#) ***Re-considering the impedance method used to predict impact sound insulation from heavy impacts***
Susumu HIRAKAWA (University of Liverpool), Carl HOPKINS (University of Liverpool) 1265
- [4.3.353](#) ***Improvement for Management System of the Floor Impact Sound Insulation Performance in Apartment House***
Kyoung Min Kim (Korea Environment Institute), Young Min Park (Korea Environment Institute) 1275
- [4.3.364](#) ***Investigation of children's running for development of new floor impact source model***
Suhong Kim (Chonnam National University), Minjeong Song (Chonnam National University), Songmi Lee (Chonnam National University), Jeonghun Kim (Chonnam National University), Hansol Song (Chonnam National University), Jongkwan Ryu (Chonnam National University) 1279
- [4.3.426](#) ***A subjective study of source types and rating methods for impact sounds in buildings***
Markus Müller-Trapet (National Research Council Canada), Konstantin Möller (University of Applied Sciences (HFT) Stuttgart), Young-Ji Choi (Kangwon National University), Berndt Zeitler (University of Applied Sciences (HFT) Stuttgart) 1285

- [4.3.568](#) **Structure borne noise induced by railway operation and maintenance in over-track buildings on metro depot**
Lei He (Beijing Municipal Institute of Labour Protection), Yanan Wu (Beijing Municipal Institute of Labour Protection), Yubin Wu (Beijing Municipal Institute of Labour Protection), Ruixiang Song (Beijing Municipal Institute of Labour Protection), Dan Wu (Beijing Municipal Institute of Labour Protection), Qiong Wu (Beijing Municipal Institute of Labour Protection) 1 2 9 3
- [4.3.673](#) **Numerical simulation of floor impact sound by using finite-difference time-domain method**
Takumi Asakura (Tokyo University of Science) 1 2 9 9
- [4.3.729](#) **Laboratory impact noise measurements below 50 Hz**
Wayland Dong (Veneklasen Associates, Inc.), John LoVerde (Veneklasen Associates, Inc.) 1 3 0 9
- [4.3.737](#) **Effect of spatial distribution of floor impact sound on annoyance response for older and young adults**
Hiroshi Sato (National Institute of Advanced Industrial Science and Technology (AIST)), Susumu Hirakawa (National Institute of Advanced Industrial Science and Technology (AIST)/Building Research Institute), Manabu Chikai (National Institute of Advanced Industrial Science and Technology (AIST)), Jeffrey Mahn (National Research Council Canada), Markus Mueller-Trapet (National Research Council Canada), Iara Batista da Cunha (National Research Council Canada) 1 3 1 5
- [4.3.738](#) **Impact noise annoyance amongst seniors aging in place**
Jeffrey Mahn (National Research Council Canada), Markus Mueller-Trapet (National Research Council Canada), Iara Batista da Cunha (National Research Council Canada), Hiroshi Sato (National Institute of Advanced Industrial Science and Technology (AIST)), Susumu Hirakawa (National Institute of Advanced Industrial Science and Technology (AIST)/Building Research Institute), Manabu Chikai (National Institute of Advanced Industrial Science and Technology (AIST)) 1 3 1 9
- [4.3.790](#) **Countermeasure against floor impact sound by heavy impact source of box floor structure**
Ryuta Tomita (Nihon University), Takuya Okaniwa (Nihon University), Kyoko Abe (Freelance Researcher) 1 3 2 3
- [4.3.821](#) **Key parameters for impact and airborne noise control in wood buildings**
Lin Hu (FPInnovations), Christian Dagenais (FPInnovations), Cheng Qian (FPInnovations), Sylvain Gagnon (FPInnovations) 1 3 3 2
- [4.3.841](#) **A standardized measurement method to measure the vibration reduction index improvement by adding resilient strips at a wall-floor junction: preliminary exercise**
Charlotte Crispin (Belgian Building Research Institute), Arne Dijkmans (Belgian Building Research Institute) 1 3 4 2
- [4.3.882](#) **Experimental study on floor impact sound reduction by double ceiling system with cross laminated timber panels**
Yusuke Kasai (General Building Research Corporation of Japan), Manabu Tanaka (General Building Research Corporation of Japan), Tsuyoshi Murakami (General Building Research Corporation of Japan) 1 3 5 4
- [4.3.914](#) **Investigation of non-acoustical factors affecting annoyance by floor impact noise through a survey**
Jeonghun Kim (Chonnam National University), Hansol Song (Chonnam National University), Songmi Lee (Chonnam National University), Suhong Kim (Chonnam National University), Jongkwan Ryu (Chonnam National University), Jungjoong Kim (Hwankyong Acoustic Research Institute) 1 3 6 4
- [4.3.1007](#) **A semi-analytical approach for soil-pile interaction to be used in structure-borne noise problems.**
Kenny F. Conto (Universitat Politècnica de Catalunya), Hassan Liravi (Universitat Politècnica de Catalunya), Arnau Clot (Universitat Politècnica de Catalunya), Robert Arcos (Universitat Politècnica de Catalunya) 1 3 7 0

Session 4. Ventilation Enabling Sound Insulation Devices for Building Applications

- [4.4.333](#) ***An evaluation of noise reduction performance and VR application for baffle type acoustic windows in Hong Kong***
HUNG, Wan-choi, Tim (Environmental Protection Department), LAI, Chi-ting, Jamie (Environmental Protection Department), CHEUNG, Ka-man, Carmen (Environmental Protection Department), LEE, Chee-kwan (Environmental Protection Department), TSANG, Sai-wing, Terence (Environmental Protection Department) 1382
- [4.4.510](#) ***State-of-the-art of noise control in openings for natural ventilation and its applicability to the comfort in regions of tropical climate***
Laís de Gusmão Coutinho (Faculdade de Arquitetura e Urbanismo da Universidade de São Paulo), Ranny Loureiro Xavier Nascimento Michalski (Faculdade de Arquitetura e Urbanismo da Universidade de São Paulo), Alessandra Rodrigues Prata Shimomura (Faculdade de Arquitetura e Urbanismo da Universidade de São Paulo) 1393
- [4.4.594](#) ***Two-dimensional acoustic analysis of a flute-like silencer***
Xiaochen Zhao (Harbin Engineering University), Xinyu Zhang (Harbin Engineering University), Lianghu Meng (Henan Diesel Engine Industry Co., Ltd), Peng Lu (Shanghai Marine Diesel Engine Research Institute) 1405
- [4.4.598](#) ***Investigation of low frequency duct noise reflector using shunted speakers***
Shang Li (Harbin Engineering University), Xinyu Zhang (Harbin Engineering University), Xiaochen Zhao (Harbin Engineering University) 1412
- [4.4.650](#) ***In-situ measurement and prediction of traffic noise transmission loss across a residential flat unit façade installed with two plenum windows***
Shiu-Keung Tang (The Hong Kong Polytechnic University), Xiaolong Li (The Hong Kong Polytechnic University) 1420
- [4.4.802](#) ***Measurement methods of acoustics properties for alternative ventilation ducts***
Zekic, Suzana (Imtech Engineering Services London & South), Gomez-Agustina, Luis (London South Bank University), Aygun, Haydar (London South Bank University), Chaer, Issa (London South Bank University) 1428
- [4.4.857](#) ***An experimental study on multiple staggered natural ventilation sound insulation windows for sound enclosures***
Tian Qiu (Suzhou Foreign language school) 1437

Session 5. Acoustics and Vibration of Light-weight Construction

- [4.5.831](#) ***External timber frame walls – Effects of façade type, internal linings and construction details on measured sound insulation***
Bernd Nusser (Holzforschung Austria), Christian Lux (Holzforschung Austria) 1446
- [4.5.880](#) ***Sound Flanking Considerations in Composite Mass Timber Structures***
Adam Collins (Stantec) 1452
- [4.5.902](#) ***Multi-storey wooden buildings: an overview of European Projects and the BIGWOOD project presentation***
Marco Caniato (Free University of Bozen), Arianna Marzi (Free University of Bozen), Andrea Gasparella (Free University of Bozen) 1458
- [4.5.904](#) ***Experimental investigations on airborne sound insulation of vacuum insulating glazing (VIG)***
Christian Lux (Holzforschung Austria), Bernd Nusser (Holzforschung Austria), Peter Schober (Holzforschung Austria) 1464

Session 6. Sound Insulation Measurement and Prediction

- [4.6.185](#) ***A calculation method for air noise blocked by a sound insulation component***
Zong Wang (China Ship Development and Design Center), Lejia Chen (China Ship Development and Design Center) 1476

- [4.6.407](#) ***Experimental study on low-frequency sound insulation of wooden house facades***
Jinyu Liu (The University of Tokyo), Naohisa Inoue (Maebashi Institute of Technology), Tetsuya Sakuma (The University of Tokyo), Yoshifumi Kanetsuki (YKK AP Inc.), Kou Akimitsu (YKK AP Inc.), Yohei Tsukamoto (YKK AP Inc.) 1482
- [4.6.412](#) ***Sound Insulation Performance of Laminated Glass according to Temperature***
Gug-Gon Song (Korea Conformity Laboratories (KCL)), So-Young Kim (Korea Conformity Laboratories (KCL)), Yong-Hee Kim (Korea Conformity Laboratories (KCL)), Yong-Jin Yoon (Korea Conformity Laboratories (KCL)) 1493
- [4.6.687](#) ***Effect of temperature condition on sound insulation performance of laminated gypsum boards with adhesive***
Satoshi Sugie (Kobayasi Institute of Physical Research), Ryuma Nitta (Kobayasi Institute of Physical Research), Emi Toyoda (Kobayasi Institute of Physical Research) 1499
- [4.6.698](#) ***Effects of stud properties and spacing on acoustical performance of single stud walls***
Wayland Dong (Veneklasen Associates, Inc.), John LoVerde (Veneklasen Associates, Inc.), Benjamin Shafer (PABCO Gypsum) 1505
- [4.6.727](#) ***Investigation of methods to evaluate acoustical effects of top-of-wall joints***
Wayland Dong (Veneklasen Associates, Inc.), John LoVerde (Veneklasen Associates, Inc.), Chris Kezon (Veneklasen Associates, Inc.), Peter Schulze (Hilti, Inc.), Matthew Winston (Hilti, Inc.) 1512
- [4.6.780](#) ***Comparison of standard software predictions of the sound insulation in CLT and concrete buildings with field measurements***
Christian Simmons (Luleå university of Technology and Simmons akustik och utveckling) 1521
- [4.6.803](#) ***Numerical simulation on low-frequency sound transmission of composite walls between reverberation rooms***
Yu Aida (Haseko Corporation), Naohisa Inoue (Maebashi Institute of Technology), Tetsuya Sakuma (The University of Tokyo) 1528
- [4.6.828](#) ***Study on the sound transmission through circular aperture array with viscous and thermal effect***
Rui Zhang (Hefei University of Technology), Jiazhu Li (Hefei University of Technology), Jian Chen (Hefei University of Technology), Chengping Zhong (Jiangling Motors Co., LTD), Mingzhun Lei (Chinese Academy of Sciences) 1538
- [4.6.839](#) ***Enhancing noise control in an acoustic cavity using mis-tuned embedded Resonators and Quarter wave tubes***
Chintapalli V S N Reddi (Aditya Engineering College (Autonomous)), Palla Anusha (Vignan's Institute of Information Technology (Autonomous)) 1547
- [4.6.949](#) ***Construction of small twin reverberation chamber for measurement of sound transmission loss***
Ch V S N Reddi (Aditya Engineering College), B Somi Naidu (Vignan's Institute of Information Technology) 1558
- [4.6.953](#) ***FE-based approach to compute the sound transmission loss of building partitions***
Andrea Santoni (University of Ferrara – Engineering Department), Patrizio Fausti (University of Ferrara – Engineering Department), Paolo Bonfiglio (Materiacustica s.r.l.) 1570

Session 7. Performance Hall and Auditorium Acoustics

- [4.7.467](#) ***Acoustic effects of orchestra shell parameters on the auditorium and stage in a multifunctional theater***
Chen Song (Southeast University), Hequn Min (Southeast University) 1578
- [4.7.505](#) ***The Need of Silence in Concert Halls and The Impact on Building Design.***
José Augusto Nepomuceno (Acústica & Sônica) 1588
- [4.7.516](#) ***The Proposition of Optimum Reverberation Time Curve for Korean Traditional Music Halls***
A Yeong JEONG (Korea Institute of Civil Engineering and Building Technology), Jae Soo KIM (Wonkwang University), Jin O PARK (Korea Institute of Civil Engineering and Building Technology) 1596

[4.7.824](#) ***The acoustics of the “Montevergine” Abbey Church***
Amelia Trematerra (Università della Campania Luigi Vanvitelli), Giuseppe Ciaburro (Università della Campania Luigi Vanvitelli), Maurizio Abeti (Università Mercatorum) 1608

[4.7.956](#) ***The Vaccaj theatre of Tolentino (Italy): acoustical characterization of a small Italian opera house***
Antonio Iannotti (Università di Camerino (Italy)), Nicola Pinto (Università di Camerino (Italy)) 1618

[4.7.978](#) ***Acoustic adaptation of multipurpose environments of historic buildings***
Rodrigo L. C. Françalacci (Universidade Estadual de Campinas -UNICAMP), Stelamaris R. Bertoli (Universidade Estadual de Campinas -UNICAMP) 1628

Session 8. Acoustics in Indoor Spaces

[4.8.95](#) ***Ambient noise inside airport terminals: a detailed survey of the background noise at Amsterdam Airport Schiphol***
Sander Jeroen van Wijngaarden (Embedded Acoustics), Remco Atsma (Amsterdam Airport Schiphol) 1640

[4.8.254](#) ***A support method for the initial acoustical assessment of shopping spaces in building design***
Elzbieta Nowicka (Instytut Techniki Budowlanej) 1648

[4.8.312](#) ***Social survey on the acoustic performance of music practice rooms in the Universities***
Youngsun Kim (Seoul National University), JeongHo Jeong (Fire Insurers Laboratories of Korea), Mina Kim (Music Bridge International) 1655

[4.8.324](#) ***Prediction and reduction of alarm sound propagated through elevator shaft and escape stairways***
JeongHo Jeong (Fire Insurers Laboratories of Korea) 1662

[4.8.362](#) ***Field study of signal and guide sound for the elderly in subway station***
Hansol Song (Chonnam National University), Jeonghun Kim (Chonnam National University), Songmi Lee (Chonnam National University), Suhong Kim (Chonnam National University), Jongkwan Ryu (Chonnam National University) 1670

[4.8.387](#) ***Recent advances in sound particle methods***
Thomas Judd (SoundPLAN GmbH), Jochen Schaal (SoundPLAN GmbH) 1677

[4.8.448](#) ***Acoustic Coupling Effects between Corridors and Patient Rooms for Healthcare Building Design***
Ke Xu (Southeast University), Hequn Min (Southeast University) 1687

[4.8.498](#) ***The Effects of the Hanging Absorber Ceiling Shapes on the Acoustics Condition in an Open Plan Office***
Yenni Khaliddazia (Bandung Institute of Technology), Joko Sarwono (Bandung Institute of Technology), Anugrah Sabdono Sudarsono (Bandung Institute of Technology), Nurul Hidayah (Bandung Institute of Technology) 1696

[4.8.609](#) ***Ensemble averaged absorption characteristics of materials using an in-situ technique: investigations on influence of wind-induced noise***
Nobuyoshi Horiike (The University of Kitakyushu), Noriko Okamoto (Oita University), Toru Otsuru (Oita University), Reiji Tomiku (Oita University) 1697

[4.8.713](#) ***Finite element sound field analysis in rooms with curved surface***
Reiji Tomiku (Oita University), Toru Otsuru (Oita University), Noriko Okamoto (Oita University), Shun Iwamoto (Oita University) 1703

[4.8.714](#) ***Comparison between ensemble averaged absorption characteristics of materials using an in-situ technique and those of conventional methods***
Noriko Okamoto (Oita University), Toru Otsuru (Oita University), Reiji Tomiku (Oita University), Kaho Ito (The University of Kitakyushu), Nobuyoshi Horiike (The University of Kitakyushu) 1711

- [4.8.757](#) ***Acoustic design of the extended 2nd passenger terminal at Incheon International Airport***
Chan-Hoon Haan (Chungbuk National University), Chan-Jae Park (Chungbuk National University) 1717
- [4.8.768](#) ***Design and simulation of integral modelling used in thermal acoustic evaluation in occupied spaces***
Eusébio Z. E. Conceição (University of Algarve), M^a Inês L. Conceição (University of Lisbon), M^a Manuela J. R. Lúcio (University of Algarve) 1726
- [4.8.878](#) ***Sound insulation level in residential buildings in Brazil and noise annoyance inside homes***
Marcelo de Mello Aquilino (IPT - Technological Research Institute of the State of São Paulo), Cristina Yukari Kawakita Ikeda (IPT - Technological Research Institute of the State of São Paulo) 1735
- [4.8.900](#) ***A basic study of a voice evacuation guidance system in virtual space using precedence effect***
Yasuto Muto (Nihon University), Ayumu Osumi (Nihon University), Youichi Ito (Nihon University) 1742
- [4.8.923](#) ***A study case applying a method to retrieve complex surface impedances from statistical absorption coefficients aiming room acoustics simulation using Boundary Element Method***
Murilo C. Soares (Federal University of Santa Maria (UFSM)), Eric Brandão (Federal University of Santa Maria (UFSM)), Roberto A. Tenenbaum (Federal University of Santa Maria (UFSM)), Luiz Augusto T. F. Alvim (Federal University of Santa Maria (UFSM)) 1750
- [4.8.1016](#) ***Acoustic Characterization of a Neoclassical Museum: São Paulo Pinacoteca***
Marseille Barbo (Federal University of Santa Maria), Eric Brandão (Federal University of Santa Maria), Viviane S.G. Melo (Federal University of Santa Maria) 1762

Session 9 Acoustics in Schools

- [4.9.257](#) ***Room acoustic quality to support inclusion in schools***
Mai-Britt Beldam (Saint-Gobain Ecophon), Colin Campbell (Saint-Gobain Ecophon), Anna Karlsson Lejon 1771
- [4.9.577](#) ***Questionnaire survey and analysis on the noise status of graduate dorms in South China University of Technology***
Hong wei Wang (South China University of Technology), Wei Xiong (South China University of Technology), Junli Cai (South China University of Technology) 1783
- [4.9.644](#) ***The accuracy of reverberation time prediction for general teaching spaces***
Ilaria Fichera (Cundall) 1790
- [4.9.723](#) ***Evaluation acoustic quality in lecture halls using onsite measurements and survey questionnaire***
Hussein M Elmehdi (University of Sharjah), Monica Sanjinez (University of Sharjah) 1801
- [4.9.818](#) ***Speech intelligibility inside primary classrooms: a virtual reality laboratory test***
Pellegrino Rossana (University of Campania "Luigi Vanvitelli"), Masullo Massimiliano (University of Campania "Luigi Vanvitelli"), Maffei Luigi (University of Campania "Luigi Vanvitelli") 1808
- [4.9.898](#) ***Speech recognition assessment in Italian pediatric schools using close-set speech tests: a case of study***
Fabio Serpilli (Università politecnica delle Marche), Valter Lori (Università politecnica delle Marche), Samantha Di Loreto (Università politecnica delle Marche) 1820
- [4.9.930](#) ***Calculation of activity noise levels in classrooms by using a Gaussian mixture model***
Shiva Hadavi (Concordia University), Joonhee Lee (Concordia University) 1831
- [4.9.934](#) ***Impact of the use of curtains on the spatial distribution of early decay time in Brazilian classrooms***
Cristina Yukari Kawakita Ikeda (Institute for Technological Research – IPT), Fulvio Vittorino (Institute for Technological Research – IPT), Rosaria Ono (Faculty of Architecture and Urbanism of the University of São Paulo - FAUSP) 1837

Session 10. Green Building Acoustics

- [4.10.383](#) ***Adoption of Acoustic Window for Public Housing Development in Hong Kong***
Stephen Y.C. Yim (Hong Kong Housing Authority), Rudolf Y.C. Lee (Hong Kong Housing Authority), Carmen K.M. Cheung (Environmental Protection Department) 1844
- [4.10.655](#) ***Noise exposure 'the new secondhand smoke' - How is it addressed in building certification schemes***
P van Dort (Rockfon) 1853
- [4.10.767](#) ***Development and characterization of sound-absorbing materials produced from agricultural wastes in Saudi Arabia***
Gino Iannace (Università della Campania Luigi Vanvitelli), Mohamed Ali (King Saud University), Umberto Berardi (Ryerson University), Giuseppe Ciaburro (Università della Campania Luigi Vanvitelli), Abdullah Alabdulkarem (College of Engineering), Abdullah Nuhaith (King Saud University), Khaled Al-Salem (King Saud University) 1858
- [4.10.810](#) ***A comparative performance simulation of natural and synthetic sound absorbers in room acoustic applications***
Manish Raj (Indian Institute of Technology Delhi), Shahab Fatima (Indian Institute of Technology Delhi), Naresh Tandon (Indian Institute of Technology Delhi) 1865
- [4.10.811](#) ***Organic waste as absorbent materials***
Iannace, Ginob (Università degli Studi della Campania Luigi Vanvitelli), Berardi Umberto (Ryerson University), Bravo-Moncayo, Luis (Universidad de Las Américas), Ciaburro, Giuseppe (Università degli Studi della Campania Luigi Vanvitelli), Puyana-Romero, Virginia (Universidad de Las Américas) 1873

Session 11. Sound Masking in Open Plan Offices

- [4.11.853](#) ***Open-plan offices with room-high sound screens and small amount on collaborative work – Effects of sound masking***
Tobias Renz (Renz Solutions GmbH) 1883
- [4.11.893](#) ***Relationship between non-acoustical factors and satisfaction with speech privacy in open-plan office***
Songmi Lee (Chonnam National University), Hansol Song (Chonnam National University), Jeonghun Kim (Chonnam National University), Suhong Kim (Chonnam National University), Jongkwan Ryu (Chonnam National University) 1895

Session 12. Multistory Buildings Acoustics

- [4.12.996](#) ***Air-conditioning condenser-compressor noise in multi-story residential apartment buildings***
Jack B Evans (JEAcoustics / Engineered Vibration Acoustic & Noise Solutions), Chad N Himmel (JEAcoustics / Engineered Vibration Acoustic & Noise Solutions) 1901

Area 5 Environmental Noise

Session 1. Advances in Environmental Noise

- [5.1.325](#) ***Application of simple visualization system for analysing direction of sound sources by 3D microphones***
Yoshiharu Soeta (National Institute of Advanced Industrial Science and Technology (AIST)), Kiyoshi Yoshioka (SATO KOGYO Co., Ltd), Yu Aida, Yutaka Onishi (HASEKO Corporation), Kazuhiro Hirasawa (CAE Solutions), Yasutaka Ueda (HAZAMA ANDO CORPORATION) 1913
- [5.1.761](#) ***Development of Low Noise Road Surfacing on Local Roads in Hong Kong***
Karen LEONG (Environmental Protection Department), Alvin TSE (Environmental Protection Department), Wai CHAU (Environmental Protection Department), CK LEE (Environmental Protection Department), Terence TSANG (Environmental Protection Department) 1921

Session 2. Environmental Noise legislation and Policy

[5.2.856](#) **Noise pollution in São Paulo: actions towards public policies**

Priscila Wunderlich (ProAcústica - Brazilian Association for Acoustical Quality), Marcos Holtz (ProAcústica - Brazilian Association for Acoustical Quality), Juan Frías Pierrard (ProAcústica - Brazilian Association for Acoustical Quality) 1927

[5.2.874](#) **A balanced approach to aircraft noise management: An update on the curious case of Dublin Airport's new runway**

Eoin A. King (University of Hartford) 1938

[5.2.892](#) **A new curriculum for acoustics experts developed in the frame of the Erasmus+ "Noise Training" project**

Chiara Bartalucci (University of Florence), Francesco Borchì (University of Florence), Monica Carfagni (University of Florence), Lapo Governi (University of Florence), Raffaella Bellomini (Vie en.ro.se Ingegneria S.r.l.), Sergio Luzzi (Vie en.ro.se Ingegneria S.r.l.), Nilgün Akbulut Çoban (Antalya Provincial Directorate of Environment and Urbanization), César Asensio (Universidad Politécnica de Madrid) 1945

[5.2.928](#) **Evaluation of the impact of vehicle traffic noise in communities: Comparative study on three highways in Brazilian northeastern**

Luciana da Rocha Alves (Federal University of Rio Grande do Norte), Tamáris da Costa Brasileiro Meneses (Federal University of Rio Grande do Norte), Débora Nogueira Pinto Florêncio (Federal University of Rio Grande do Norte), Virgínia Maria Dantas de Araújo (Federal University of Rio Grande do Norte), Bianca Carla Dantas de Araújo (Federal University of Rio Grande do Norte) 1953

Session 3. Communicating with the Community

[5.3.801](#) **Free sound knowledge: how you (or your students) can contribute to Wiki4YearOfSound2020**

Thais C. Morata (National Institute for Occupational Safety and Health (NIOSH)), Alexandre A. P. Montilha (Bauru School of Dentistry – University of São Paulo FOB/USP), Maria Aparecida A. M. Machado (Bauru School of Dentistry – University of São Paulo FOB/USP), Fernanda Zucki (Federal University of Santa Catarina) 1965

Session 4. Noise Barriers

[5.4.97](#) **Investigation of a smart noise barrier for dual active and passive control of construction noise**

Siu-Kai Lai (The Hong Kong Polytechnic University), Yiting Zhang (The Hong Kong Polytechnic University), Jiamei Wang (The Hong Kong Polytechnic University), Shao-Yuan Leu (The Hong Kong Polytechnic University), Jian-Qiao Sun (University of California) 1970

[5.4.106](#) **Cymatics as a Tool for Noise Reduction in an Urban External Environment**

Eishita Vasdev (Sushant School of Art and Architecture), Himanshu Sanghani (Sushant School of Art and Architecture) 1980

[5.4.328](#) **Evaluation of stone impact resistance of laminated glass used for transparent soundproof panels in road noise barriers**

Taesun CHANG (Korea Expressway Corporation Research Institute), Chulhwan KIM (Korea Expressway Corporation Research Institute), Hyun-min JANG (Korea Conformity Laboratories) 1992

[5.4.329](#) **Numerical study on performance of noise barriers with opened tubes at the edge**

Takashi Ishizuka (SHIMIZU Corporation) 1998

[5.4.350](#) **Estimation Method for Acoustic Performance of Noise Reducing Devices on the Noise Barrier Considering the Source Characteristics**

Chulhwan KIM (Korea Expressway Corporation Research Institute), Taesun CHANG (Korea Expressway Corporation Research Institute), Junho CHO (Railway Transportation Department of Woosong College) 2005

[5.4.556](#) ***A case study on the effectiveness of acoustic performance and parallel-setting-up of a transparent standardized composite structure sound barrier***
Jiping Zhang (Zhejiang Research and Design Institute of Ecological Environment), Hong Zhu (Zhejiang Research and Design Institute of Ecological Environment), Jiarong Sun (Zhejiang Research and Design Institute of Ecological Environment), Mingzhu Xu (Zhejiang Research and Design Institute of Ecological Environment), Zheming Wang (Zhejiang Research and Design Institute of Ecological Environment) 2012

[5.4.838](#) ***Acoustic performance of noise barriers based on sonic crystals***
Jan Radosz (Central Institute for Labour Protection – National Research Institute) 2024

[5.4.851](#) ***Investigate the effect of the active noise barrier on the reduction of noise level at the shadow zone and the neighboring building***
Shahin Sohrabi (Universitat Politècnica de Catalunya (UPC)), Teresa Pàmies Gómez (Universitat Politècnica de Catalunya (UPC)), Jordi Romeu Garbí (Universitat Politècnica de Catalunya (UPC)) 2030

[5.4.994](#) ***Sound insulation measurements on noise barriers across their entire extension: a preliminary study***
Paolo Guidorzi (University of Bologna), Massimo Garai (University of Bologna) 2040

Session 5 Noise from Recreation Activities

[5.5.820](#) ***The sound of Indonesian cities***
Christina E. Mediatika (Petra Christian University), Anugrah S. Sudarsono (Institut Teknologi Bandung), Sentagi S. Utami (Universitas Gadjah Mada), Isnen Fitri (Universitas Sumatera Utara), Rizka Drastiani (Universitas Sriwijaya), MI Ririk Winandari (Universitas Trisakti), Akbar Rahman (Universitas Lambung Mangkurat), Asniawaty Kusno (Hasanudin University), NW Meidayanti Mustika (Universitas Warmadewa), Yuliana B. Mberu (Universitas Katolik Widya Mandira) 2050

Session 6. Noise Mapping: Advanced Methods

[5.6.633](#) ***Overview of the NoiseModelling open-source software version 3 and its applications.***
Pierre Aumond (Univ Gustave Eiffel), Nicolas Fortin (Univ Gustave Eiffel), Arnaud Can (Univ Gustave Eiffel) 2057

Session 7. Urban Sound Planning

[5.7.734](#) ***Urban sound design for all***
Dick Botteldooren (WAVES & GASP, Ghent University) 2064

Session 8. Audiovisual Interactions in Environmental Noise Perception

[5.8.674](#) ***Effect of visual stimuli on the subjective impression of pass-by sound transmitted into low-rise residential building***
Takumi Asakura (Tokyo University of Science), Riku Hashimoto (Tokyo University of Science) 2070

[5.8.997](#) ***Audiovisual Perception of Nursing Students in an ICU Virtual Environment***
Sentagi Sesotya Utami (Universitas Gadjah Mada), Nico Saut Gabriel Sitorus (Universitas Gadjah Mada), R Sugeng Joko Sarwono (Institut Teknologi Bandung), Nur Chayati (Master of Nursing Universitas Muhammadiyah Yogyakarta), Zulfi Aulia Rahman (Universitas Gadjah Mada) 2079

Session 9. Outdoor and Urban Sound Propagation

[5.9.308](#) ***Measurement On The Directivity Of Road Traffic Noise***
Jie YANG (Beijing Municipal Institute of Labour Protection), Ruixiang SONG (Beijing Municipal Institute of Labour Protection), Lijuan ZHANG (Nuclear and radiation safety center), Hougui ZHANG (Beijing Municipal Institute of Labour Protection) 2089

- [5.9.431](#) ***Impact prediction and noise prevention analysis of composite noise in residential community based on Cadna / A software***
Wei Xiong (South China University of Technology), Hongwei Wang (South China University of Technology) 2095
- [5.9.473](#) ***Long-term experiments on influences of ground surface and meteorological conditions on outdoor sound propagation using an unattended impulse response measurement system***
Takatoshi Yokota (Kobayasi Institute of Physical Research), Koichi Makino (Kobayasi Institute of Physical Research), Genki Iizumi (Hokkaido Research Organization), Takuya Tsutsumi (Hokkaido Research Organization) 2102
- [5.9.927](#) ***Comparative study of urban noise between neighborhoods in João Pessoa, Brazil based on sound mapping***
Tamáris Brasileiro-Meneses (Federal University of Rio Grande do Norte - UFRN), Renato Araújo (Federal University of Paraíba - UFPB), Kalina Araújo (Federal University of Paraíba - UFPB), Ana Beatriz Pinto (Federal University of Paraíba - UFPB), Juliana Magna da Silva Costa Morais (Federal University of Paraíba - UFPB), Bianca Carla Dantas de Araújo (Federal University of Rio Grande do Norte - UFRN) 2109
- [5.9.983](#) ***Extension of weather influence modeling of ground acoustic properties to various ground surface types***
Yumi Kurosaka (Niigata University), Takuya Oshima (Niigata University) 2120
- [5.9.1005](#) ***Comparison of flow resistivity values of ground soil obtained by direct measurements and estimations by in-situ acoustic measurements***
Takuya Oshima (Niigata University), Masato Tsukahara (Niigata University), Yumi Kurosaka (Niigata University) 2131
- [5.9.1011](#) ***Influence of the traffic flow in urban noise pollution***
Simona Domazetovska (University Ss Cyril and Methodius in Skopje), Maja Anachkova (University Ss Cyril and Methodius in Skopje), Viktor Gavriloski (University Ss Cyril and Methodius in Skopje), Zlatko Petreski (University Ss Cyril and Methodius in Skopje) 2140

Session 10. Environmental management Through Monitoring

- [5.10.346](#) ***A Study on Noise Measuring Heights for Highway Roadside Measurements***
Hyejin KANG (Korea Expressway Corporation Research Institute), Chulhwan KIM (Korea Expressway Corporation Research Institute) 2149
- [5.10.733](#) ***Opportunistic method for road surface noise labelling: data cleaning***
Wout Van Hauwermeiren (Ghent University), Dick Botteldooren (Ghent University), Karlo Filipan (ASAsense cv), Bert De Coensel (ASAsense cv) 2156
- [5.10.832](#) ***Study of the noise variability recorded by monitoring stations in Chilean cities***
Guillermo Rey Gozalo (Universidad Autónoma de Chile), Enrique Suárez (Universidad Austral de Chile), Jorge P. Arenas (Universidad Austral de Chile), Juan Miguel Barrigón Morillas (Universidad de Extremadura), David Montes González (Universidade de Coimbra), Camila Oyarzún Toledo (Universidad Austral de Chile), Diego Vergara Elgueda (Universidad Austral de Chile), Leonel Molina Alvarado (Universidad Austral de Chile), Fausto Espinoza (Universidad Austral de Chile) 2163

Session 11. Green & Natural Means for Noise Control

- [5.11.275](#) ***Influence of stand characteristics on the acoustic forest floor effect***
Timothy Van Renterghem (Ghent University), Floris Huyghe (Ghent University), Kris Verheyen (Ghent University) 2172
- [5.11.444](#) ***Sensitive Risk Assessment and Planning Protection Policies of noise pollution for egret***
Tian-yi Deng (Tianjin University), Ke Zhang (Tianjin University), Jian Zeng (Tianjin University), Meng Zhang (Hebei Agricultural Univ), Si-yuan Ding (Tianjin University) 2178
- [5.11.629](#) ***Noise mitigation due to vegetation lines alongside major roads? An investigation of the acoustic effect of vegetation and its influence on the perceived noise annoyance***
Martin Czuka (AIT Austrian Institute of Technology), Christian Kirisits (ZT Kirisits), Bernhard Baumgartner (AIT Austrian Institute of Technology) 2188

Session 12. Wind Turbine Noise Perception

- [5.12.470](#) ***A method to generate a database of source labelled environmental noise samples using open noise data and to quantify wind turbine noise in it.***
Thileepan Paulraj (University of Vaasa), Petri Välisuo (University of Vaasa) 2197
- [5.12.883](#) ***Perceived sleep acceptability of broadband amplitude-modulated wind farm noise***
Mahmoud Alamir (Flinders University), Branko Zajamsek (College of Medicine and Public Health), Kristy Hansen (Flinders University) 2209

Area 6 Flow Induced Noise & Vibration

Session 1. Flow Induced Noise and Vibration: General

- [6.1.112](#) ***Structural vibration analysis of multiple beams in the viscous fluid by using spectral element method***
Wonseok Yang (Korea National University of Transportation), Junhong Park (Hanyang University) 2216
- [6.1.129](#) ***Aeroelastic analysis of airfoils at proximity with structural coupling***
Kailash Dhital (Korea Advanced Institute of Science and Technology), Jae-Hung Han (Korea Advanced Institute of Science and Technology), Anh Tuan Nguyen (Le Quy Don Technical University) 2220
- [6.1.140](#) ***Research on Flow Noise of Underwater Vehicle***
Tiancheng Miao (China Ship Development and Design Center) 2230
- [6.1.231](#) ***Wind Induced Noise inside a microphone's port of a two-way radio***
Wan Masrurah Hairudin (Universiti Sains Malaysia(USM)), Norilmi Amilia Ismail (Universiti Sains Malaysia (USM)) 2237
- [6.1.250](#) ***Aeroelastic Analysis of Two-Dimensional Tandem Wing using Vortex Lattice Method***
Hyeon-Ho Yang (Korea Advanced Institute of Science and Technology), Kailash Dhital (Korea Advanced Institute of Science and Technology), Jae-Hung Han (Korea Advanced Institute of Science and Technology) 2248
- [6.1.763](#) ***Aeroacoustic characterization of micro-perforated liners under a low-speed turbulent boundary layer***
Cédric Maury (Aix Marseille Univ), Teresa Bravo (Consejo Superior de Investigaciones Científicas (CSIC)) 2258
- [6.1.969](#) ***Experimental and numerical investigation into effects of weather-strip on transmission of wind noise through side-window of automobile***
Sangheon Lee (Pusan National University), Songjune Lee (Pusan National University), Cheolung Cheong (Pusan National University), Hyerin Kwon (DRB Holding co.,Ltd.), Changman Seo5 (DRB Holding co.,Ltd.) 2267

Session 2. Fan and turbomachinery noise

- [6.2.96](#) ***An Experimental Investigation on the Noise Reduction of a Linear Cascade with Serrated Trailing-edge based on Linear Microphone Array Measurements***
Kangshen Xiang (Northwestern Polytechnical University), Liang Ji (Northwestern Polytechnical University), Lin Li (Northwestern Polytechnical University), Luqin Mao (Northwestern Polytechnical University), Weiyang Qiao (Northwestern Polytechnical University) 2275
- [6.2.201](#) ***Simulation study on the time-invariant air-flow characterization of centrifugal fan***
Kong-cheng ZUO (China Aerodynamics Research and Development Centre), Yong WANG (China Aerodynamics Research and Development Center), Xie ZHENG (China Aerodynamics Research and Development Center) 2285
- [6.2.261](#) ***Resabtors – Reducing fan and flow noise in HVAC applications***
Berend Linke (Umfotec GmbH), Ingo Krebs (Umfotec GmbH), Ralf Buck (Umfotec GmbH) 2295

- [6.2.736](#) ***On a new approach for numerical modeling of the quadcopter rotor sound generation and propagation***
Sergey Timushev (Moscow Aviation Institute), Dmitry Klimenko (Moscow Aviation Institute), Andrey Aksenov (TESIS Ltd.), Vladimir Gavriluk (TESIS Ltd.), Jiawen Li (School of Astronautics Beihang University (BUAA)) 2307
- [6.2.760](#) ***Noise emission prediction of small scale twin pushing propellers through surrogate models***
Alessandro Di Marco (Roma TRE University), Elisa de Paola (Roma TRE University), Roberto Camussi (Roma TRE University), Nicola Paletta (IBK Innovation GmbH & Co.), Carlo Aquilini (Airbus Defence and Space) 2317
- [6.2.894](#) ***Improvement in Aerodynamic and Aeroacoustic Performances of Axial-Flow Fan in Outdoor Unit of Air-conditioner Using Two-Dimensional Cascade Analysis***
Seo Yoon Ryu (Pusan National University), Cheolung Cheong (Pusan National University), Jong Wook Kim (LG Electronics), Byung Il Park (LG Electronics) 2327

Session 3. Flow Induced Noise and Vibration: Computational Methods

- [6.3.115](#) ***Vibroacoustic modeling of elastic plates excited by turbulent boundary layer***
Xiaoji Song (Harbin Engineering University), Guoyong Jin (Harbin Engineering University), Tiangui Ye (Harbin Engineering University) 2337
- [6.3.217](#) ***Acoustic Performance of Silencer Based on Temperature Field and Sound Field Coupling***
Kai Qi (Research Institute of Power Engineering Technology), Xinyu Zhang (Research Institute of Power Engineering Technology), Wenping Zhang (Research Institute of Power Engineering Technology) 2346
- [6.3.228](#) ***Study of Acoustic Propagation in Pipeline with Temperature Gradient***
Rui Hu (Harbin Engineering University), Xinyu Zhang (Harbin Engineering University), Wenping Zhang (Harbin Engineering University) 2355
- [6.3.335](#) ***Flow induced noise reduction design of airfoils with spanwise riblet surface***
Zhigao Dang (Northwestern Polytechnical University), Zhaoyong Mao (Northwestern Polytechnical University) 2363
- [6.3.430](#) ***Minimizing Automotive HVAC Blower Fan Noise using a Lattice Boltzmann based Method and Leveraging a Cloud-based Automated Optimization Workflow***
Minsuk Kim (Dassault Systèmes SIMULIA), Adrien Mann (Dassault Systèmes SIMULIA), Christopher Lee (Dassault Systèmes SIMULIA), Zen Sugiyama (Dassault Systèmes SIMULIA) 2369
- [6.3.817](#) ***Optimization design of high-speed impeller for high-performance and low-noise cordless vacuum cleaner***
Kunwoo Kim (Pusan National University), Seo-yoon Ryu (Pusan National University), Cheolung Cheong (Pusan National University), Jinman Jang (LG Electronics), Seongjin Seo (LG Electronics), Cheolmin Jang (LG Electronics) 2380
- [6.3.938](#) ***Research on the fluid structure coupled vibration characteristics of a cantilevered curved pipe***
Yingdong Zhou (China Ship Development and Design Center), Jize Zhong (China Ship Development and Design Center), Changlin Qiu (China Ship Development and Design Center), Chunxu Wang (China Ship Development and Design Center), Du Shen (China Ship Development and Design Center), Xiaojie Yan (China Ship Development and Design Center), Xiaoming Fu (China Ship Development and Design Center), Qibin Sun (China Ship Development and Design Center) 2388

Session 4. Flow Induced Noise and Vibration: Experiments

- [6.4.139](#) ***Influence of round corners on vortex-acoustic coupling flow inside coaxial side-branches***
Ma Hongyu (China Ship Development and Design Center), Wang Peng (Shanghai Jiao Tong University) 2399
- [6.4.163](#) ***Simulation and Experimental Study on Flow-Induced Noise of Underwater Wing Structure***
Qiang Gong (China Ship Development and Design Center), Jishi Xiong (China Ship Development and Design Center) 2409

- [6.4.929](#) ***The optimized design and verification of single/double-flow jet noise scale model test rig***
Yingdong Zhou (China Ship Development and Design Center), Jize Zhong (China Ship Development and Design Center), Changlin Qiu (China Ship Development and Design Center), Du Shen (China Ship Development and Design Center) 2419

Session 5. Jet Noise

- [6.5.123](#) ***Psychoacoustic optimisation of aircraft noise – challenges and limits***
Christian DREIER (RWTH Aachen University), Michael VORLÄNDER (RWTH Aachen University) 2431
- [6.5.524](#) ***Empirical prediction of noise from subsonic dual-stream jets using the concept of two components of single-stream jet noise***
Incheol Lee (Beijing Aircraft Technology Research Institute of Commercial Aircraft Corporation of China, Ltd), Yingzhe Zhang (Beijing Aircraft Technology Research Institute of Commercial Aircraft Corporation of China, Ltd), Dakai Lin (Beijing Aircraft Technology Research Institute of Commercial Aircraft Corporation of China, Ltd) 2439
- [6.5.747](#) ***Empirical prediction of noise from subsonic single-stream jets using the concept of two broadband components***
Incheol Lee (Beijing Aircraft Technology Research Institute of Commercial Aircraft Corporation of China, Ltd), Yingzhe Zhang (Beijing Aircraft Technology Research Institute of Commercial Aircraft Corporation of China, Ltd), Dakai Lin (Beijing Aircraft Technology Research Institute of Commercial Aircraft Corporation of China, Ltd) 2451

Session 6. Aeroacoustics

- [6.6.165](#) ***Experimental study on instability tonal noise reduction using trailing edge gradient porous materials***
Yong Wang (China Aerodynamics Research and Development Center), Qing-Ren Lai (China Aerodynamics Research and Development Center), Yong Liang (China Aerodynamics Research and Development Center), Yu-Bao Song (China Aerodynamics Research and Development Center), Xie Zheng (China Aerodynamics Research and Development Center) 2463
- [6.6.218](#) ***Investigation of acoustic sources in the unsteady flow using spectral acoustic analogy***
Feng Feng (China Academy of Aerospace Aerodynamics) 2471
- [6.6.242](#) ***Surrogate-based optimization for airfoil trailing-edge noise reduction using morphed trailing-edge shapes***
Chen Liu (University of California), Seongkyu Lee (University of California) 2509
- [6.6.293](#) ***Aeroacoustic characteristics of metasurfaces with stair-stepping honeycomb structures covered by perforated panels***
Yi Fang (Hong Kong University of Science and Technology), Qian Liu (Hong Kong University of Science and Technology), Jingwen Guo (Hong Kong University of Science and Technology), Ziyang Jiang (Hong Kong University of Science and Technology), Han Wu (Hong Kong University of Science and Technology), Siyang Zhong (Hong Kong University of Science and Technology), Xin Zhang (Hong Kong University of Science and Technology) 2519
- [6.6.425](#) ***A rotor blade aeroacoustics test platform at HKUST***
Han Wu (The Hong Kong University of Science and Technology), Weijie Chen (The Hong Kong University of Science and Technology), Ryu Fattah (The Hong Kong University of Science and Technology), Jingwen Guo (The Hong Kong University of Science and Technology), Yi Fang (The Hong Kong University of Science and Technology), Siyang Zhong (The Hong Kong University of Science and Technology), Xin Zhang (The Hong Kong University of Science and Technology) 2528
- [6.6.442](#) ***Assessing airfoil tonal noise reduction potential using flow-induced vibration of an elastic panel at various angles of attack***
Arif Irsalan (The Hong Kong Polytechnic University), Garret C. Y. Lam (The Hong Kong Polytechnic University), Randolph C. K. Leung (The Hong Kong Polytechnic University) 2537

- [6.6.776](#) ***Aerofoil tonal noise reduction using serrated trailing edges***
Matthieu B. R. Gelot (University of Southampton), Jae Wook Kim (University of Southampton) 2552
- [6.6.791](#) ***Numerical Study of Aerodynamic Sound and Spatial Coherence Lengths for Circular Cylinders in Sub Critical Flow Regime***
Joemon Jacob (Indian Institute of Technology), Bhattacharya S.K. (Indian Institute of Technology) 2561
- [6.6.825](#) ***Investigation into effects of blade inlet/outlet angles and trailing edge shape on flow and noise performances of circulating centrifugal fan in clothes dryer***
Jinho Choi (Pusan National University), Seo-yoon Ryu (Pusan National University), Cheolung Cheong (Pusan National University), Jinman Jang (LG Electronics), Seongjin Seo (LG Electronics), Cheolmin Jang (LG Electronics) 2570

Area 7 Industrial Noise

Session 1. Industrial Noise Case Studies and Innovations

- [7.1.120](#) ***Numerical modelling assessment of radiated sound power by acoustic radiation efficiency parameter.***
Michal Kozupa (ABB Power Grids Poland Sp. z o.o.), Magdalena Matys (ABB Power Grids Poland Sp. z o.o.) 2577
- [7.1.985](#) ***Development and validation of spreadsheet tools for noise path characterization***
D. W. Herrin (University of Kentucky), Srinivasa Ippili (University of Kentucky), Keyu Chen (University of Kentucky), Xin Hua (University of Kentucky), Bryan Beamer (National Institute for Occupational Safety and Health (NIOSH)), David Copley (Caterpillar Corp.) 2588

Session 2. Industrial Noise Modelling

- [7.2.491](#) ***Non-constant noise calculation using the room response function***
Alexander Antonov (Tambov State Technical University), Vladimir Ledenev (Tambov State Technical University), Nataliya Merkushev (Tambov State Technical University), Tatyana Nevenchannaya (Moscow Polytechnic University), Igor Shubin (Research Institute of Building Physics), Ilya Tsukernikov (Research Institute of Building Physics) 2600
- [7.2.626](#) ***Equivalent linear modeling of a human head including the characteristics of simulator to evaluate a bone-conduction device***
Chan-Jung Kim (Pukyong National University), Byung-Tak Kim (Pukyong National University), Seon-Jin Kim (Pukyong National University), Inpil Kang (Pukyong National University), Jeong-Hyun Sohn (Pukyong National University), Moon-Cheol Yoon (Pukyong National University) 2606

Session 3. Machinery, Manufacturing, and Mining Noise

- [7.3.588](#) ***Electromagnetic noise and vibration generated by induction motors***
Takumi Namatame (Meiji University), Tatsuya Suzuki (Meiji University), Akira Saito (Meiji University) 2609
- [7.3.675](#) ***Effects of centroid bias on piston secondary motion***
Wang Chuang (Harbin Engineering University), Yipeng Cao (Harbin Engineering University), Yiming Ma (Harbin Engineering University) 2615

Session 4. Power Generation Facilities and Equipment

- [7.4.126](#) ***Contribution of Individual Windings to Overall Load-Controlled Noise and Vibrations of Power Transformers using Coupled Multiphysics FEM-BEM Simulations***
Bruno Bošnjak (Hyundai Electric Switzerland AG), Dariusz Nowak (Hyundai Electric Switzerland AG), Robert Sitar (Hyundai Electric Switzerland AG), Chang Hoon Ahn (Hyundai Electric & Energy Systems Co.) 2622

Session 5. Large Silencers

- [7.5.668](#) ***Acoustic optimization design and experimental verification of marine diesel engine exhaust system***
Wang, Duyong (Shanghai Marine Diesel Engine Research Institute), Xu, Beibei (Shanghai Marine Diesel Engine Research Institute), Xia, Meng (Shanghai Marine Diesel Engine Research Institute), Zhang, Zhengyao (Shanghai Marine Diesel Engine Research Institute), Zhu, Xiaojian (Shanghai Marine Diesel Engine Research Institute) 2632
- [7.5.881](#) ***Acoustic Reciprocity of Large Three-Port Silencers***
H. Zhou (University of Kentucky), P. Wang (University of Kentucky), T. W. Wu (University of Kentucky) 2639

Session 6. Wind Turbine

- [7.6.635](#) ***WIND Power Noise Systematically Misjudged in Sweden***
Thomas Lagö (Qirra Sound Technologies Europa AB), Bertil Persson (Bertil Persson Betongteknik AB) 2648

Area 8 Noise & Health

Session 1. Advances in Noise & Health

- [8.1.197](#) ***Noise health impact assessment in Korea***
Hyosung Sun (Korea Environment Institute), Byungkwon Lee (Korea Environment Institute) 2657
- [8.1.686](#) ***Causal analysis of complaint behaviours due to environmental noises***
Shigenori Yokoshima (Kanagawa Environmental Research Center), Makoto Morinaga (Defense Structure Improvement Foundation), Takashi Yano (Kumamoto University) 2661
- [8.1.852](#) ***Evidence Relating to Environmental Noise Exposure and Annoyance, Sleep Disturbance, Cardio-Vascular and Metabolic Health Outcomes in the Context of IGCB (N): A Scoping Review of New Evidence regarding sources other than transport noise***
Irene van Kamp (National Institute for Public Health and the Environment), Sendrick Simon (National Institute for Public Health and the Environment), Hilary Notley (UK Department for the Environment), Christos Baliatsas (Netherlands institute for health services research), Elise van Kempen (National Institute for Public Health and the Environment) 2667

Session 2. WHO Guidelines and policy implications

- [8.2.590](#) ***The impact of the WHO Environmental Noise Guidelines (2018) in The Netherlands***
Dik Welkers (National Institute for Public Health and the Environment) 2679
- [8.2.1018](#) ***Revision of Swiss noise exposure limits in the wake of the WHO environmental noise guidelines: methodology matters***
Mark Brink (Federal Office for the Environment), Hans Boegli (Federal Office for the Environment), Urs Walker (Federal Office for the Environment), Jürg Artho (Social Research Unit, University of Zurich), Jean-Marc Wunderli (Laboratory for Acoustics / Noise Control), Martin Rööslü (Swiss Tropical and Public Health Institute), Georg Thomann (Office for Nature and the Environment) 2684

Session 3. Noise at Work; Occupational Noise; Hearing Conservation; Hearing Protector

- [8.3.428](#) ***Noise pollution at construction sites: occupational noise generated by portable power tools***
Adriano A R Barbosa (Federal Institute of Sao Paulo (IFSP)), Marcin Butlewski (Poznan University of Technology (PUT)) 2691

- [8.3.586](#) ***Effects of vibrator placement and ambient noise on perception of bone-conducted sound during earplugging***
Taishi Shinobu (Chiba Univ.), Sho Otsuka (Chiba Univ.), Seiji Nakagawa (Chiba Univ.) 2699
- [8.3.600](#) ***Auditory risk for impulsive sounds using the AHAH model for impulsive sounds with stylized signals, measurements and by applying hearing protection***
Frits van der Eerden (TNO), Frank van den Berg (TNO) 2704
- [8.3.809](#) ***Verifying the attenuation of earplugs in an auto parts factory in China***
Wei Gong (National Institute for Occupational Safety and Health (NIOSH)), Thais C. Morata (National Institute for Occupational Safety and Health (NIOSH)) 2714
- [8.3.844](#) ***EVALUATION OF NOISE EXPOSURE AND NOISE-INDUCED HEARING LOSS IN JUDICIAL TRANSCRIBERS***
Małgorzata Zamojska-Daniszevska (Nofer Institute of Occupational Medicine), Małgorzata Pawlaczyk-Łuszczynska (Nofer Institute of Occupational Medicine), Adam Dudarewicz (Nofer Institute of Occupational Medicine), Kamil Zaborowski (Nofer Institute of Occupational Medicine) 2721
- [8.3.845](#) ***Otoacoustic emissions in call centre operators***
Małgorzata Pawlaczyk-Łuszczynska (Nofer Institute of Occupational Medicine), Małgorzata Zamojska-Daniszevska (Nofer Institute of Occupational Medicine), Kamil Zaborowski (Nofer Institute of Occupational Medicine), Adam Dudarewicz (Nofer Institute of Occupational Medicine) 2730
- [8.3.846](#) ***HEARING THRESHOLD LEVEL IN WORKERS EXPOSED TO NOISE OF ULTRASONIC WELDING DEVICES***
Adam Dudarewicz (Nofer Institute of Occupational Medicine), Małgorzata Zamojska-Daniszevska (Nofer Institute of Occupational Medicine), Kamil Zaborowski (Nofer Institute of Occupational Medicine), Małgorzata Pawlaczyk-Łuszczynska (Nofer Institute of Occupational Medicine) 2742
- [8.3.854](#) ***Noise assessment at office workplaces – Rating level and statistical analysis of sound pressure level measurements***
Tobias Renz (Renz Solutions GmbH) 2749
- [8.3.917](#) ***EXPOSURE TO NOISE AT THE WORKPLACE OF FITNESS INSTRUCTORS AND ITS IMPACT ON THEIR HEARING***
Kamil Zaborowski (Nofer Institute of Occupational Medicine), Adam Dudarewicz (Nofer Institute of Occupational Medicine), Małgorzata Pawlaczyk-Łuszczynska (Nofer Institute of Occupational Medicine), Anna Wolniakowska (Nofer Institute of Occupational Medicine), Mariola Sliwinska-Kowalska (Nofer Institute of Occupational Medicine) 2760

Session 4. Physiological Acoustics/ Hearing mechanism

- [8.4.361](#) ***Effects of spiral geometry of cochlea in hearing sensitivity and audible frequency band inferred from motions of basilar membrane***
Dooho Lee (Dongueui University), Youn-Young Park (Dongueui University) 2768
- [8.4.572](#) ***Effect of Mental Fatigue on Medial Olivocochlear Reflex***
Yuto Suzuki (Chiba Univ.), Sho Otsuka (Chiba Univ.), Seiji Nakagawa (Chiba Univ.) 2772
- [8.4.592](#) ***Effect of Expectation of Stimulus intensity on Medial Olivocochlear Bundle Reflex***
Sho Otsuka (Chiba Univ.), Seiji Nakagawa (Chiba Univ.) 2777

Session 5. Acoustics and noise in hospitals and healthcare facilities: experience and impact on patients, staff and community well-being

- [8.5.104](#) ***Room acoustics in dementia care affect staff and patients.***
Mai-Britt Beldam (Saint-Gobain Ecophon), Rasmus Qupersimat Jørgensen (Technical University of Denmark), Cheol-Ho Jeong (Technical University of Denmark), Birgit Dietz (Technischen Universität München) 2782

[8.5.191](#) **Noise levels measured in Danish dental clinics**
Cheol-Ho Jeong (Technical University of Denmark), Nina Yazdanyar (Technical University of Denmark) 2794

[8.5.786](#) **Noise and Clinical Risk Management: Influence on Performance and Communication**
Silvester Siegmann (Heinrich Heine-University Duesseldorf), Renate Schmook (Heinrich Heine-University Duesseldorf), Gerd Notbohm (Heinrich Heine-University Duesseldorf) 2802

[8.5.958](#) **City hospitals in Turkey: a review of acoustical criteria and design principles**
Zeynep Bora Özyurt (Bursa Uludağ University), Merve Eşmebaşı (MEZZO Stüdyo Ltd), Zühre Sü Gül (Bilkent University) 2814

Session 6. Noise and health in children

[8.6.613](#) **Do we need different metrics to predict the effects of aircraft noise on children's well-being and health?**
Jan Spilski (University Kaiserslautern), Kirstin Bergström (University Kaiserslautern), Ulrich Möhler (Moehler + Partner Engineers), Thomas Lachmann (University Kaiserslautern), Maria Klatte (University Kaiserslautern) 2826

Session 7. New evidence on Mental health, cognitive effects and cardiovascular effects

[8.7.731](#) **Investigation on the association between aircraft noise and general health of residents living near Tan Son Nhat Airport**
Bach Lien Trieu (Shimane University), Thu Lan Nguyen (Shimane University), Wei Zhang (Shimane University), Yasuhiro Hiraguri (Kindai University), Makoto Morinaga (Defense Facilities Environment Improvement Association), Takashi Morihara (Ishikawa College), Takashi Yano (Kumamoto University), Yosiaki Sasazawa (University of the Ryukyus) 2833

[8.7.992](#) **Perception of neighbour noise and self-reported psychometric status**
Sang Hee Park (Korea Institute of Civil Engineering and Building Technology), Hye Kyung Shin (Korea Institute of Civil Engineering and Building Technology), Kyoung Woo Kim (Korea Institute of Civil Engineering and Building Technology) 2845

Session 8. Standardization for noise and health research (exposure, non acoustic, and health)

[8.8.451](#) **The Investigation on subjective annoyance of typical noise in urban living environment and the preliminary study on the applicability of A, Z and G weighting network in noise evaluation**
Qikun Wang (Tianjin Chengjian University), Wei Li (Tianjin Chengjian University), Chao Cai (Tianjin Chengjian University), Yanan Xu (Tianjin Chengjian University) 2853

[8.8.1015](#) **The influence analysis fo current noise in urban living environment based on subjective comfort survey**
Yanan Xu (Tianjin Chengjian University), Chao Cai (Tianjin Chengjian University), Yan Wang (Tianjin Chengjian University), Qikun Wang (Tianjin Chengjian University) 2864

Session 9. Planning and building for quality of life

[8.9.901](#) **Acoustic comfort for living spaces: designing interactive and supportive environments dedicated to people with autism**
Federica Bettarello (University of Trieste), Marco Caniato (Free University of Bozen), Giuseppina Scavuzzo (University of Trieste), Andrea Gasparella (Free University of Bozen) 2875

[8.9.909](#) **A critical overview on the sensory perception related to people affected by Autism Spectrum Disorder**
Marco Caniato (Free University of Bozen), Arianna Marzi (Free University of Bozen), Andrea Gasparella (Free University of Bozen) 2881

Area 9 Psychoacoustics

Session 1. Advances in Psychoacoustics

[9.1.401](#) ***Progress in Roughness Calculation***

Roland Sottek (HEAD acoustics GmbH), Julian Becker (HEAD acoustics GmbH), Thiago Lobato (HEAD acoustics GmbH) 2887

[9.1.677](#) ***Sensation-growth equations for non-zero threshold sensation, evaluated using non-traditional, bounded Fechnerian integration, for Fechner's Law, Ekman's Law and for Ekman's Law, using 12 different Weber Fractions***

Lance Nizami (Independent Research Scholar) 2899

Session 2. Psychoacoustics in Noise Evaluation

[9.2.93](#) ***Objective evaluation of noise in electric vehicles during acceleration based on psychoacoustics***

Kun Qian (Tsinghua University), Zhicao Hou (Tsinghua University), Dengke Sun (China University of Mining & Technology-Beijing), Peibao Wu (Tsinghua University), Rongkang Luo (Tsinghua University), Kunying Kuang (China University of Mining & Technology-Beijing) 2915

[9.2.148](#) ***Evaluation of subjective impressions of footstep noise from combinations of high-heeled shoes and flooring materials***

Ki-Hong Kim (Surugadai University) 2924

[9.2.320](#) ***Measurement of air-, bone- and teeth- conducted threshold levels by pure tone audiometry***

Tomomi Yamada (Osaka University), Hazuki Maezono (Osaka University), Kazunori Nozaki (Osaka University), Mikako Hayashi (Osaka University), Takanori Matsui (Osaka University), Masayuki Takada (Kyushu University), Annemie Van Hirtum (Alpes University) 2932

[9.2.360](#) ***Evaluation of tire-pattern noise for better impression***

Takeo Hashimoto (Seikei University), Shigeko Hatano (Seikei University), Sung Hwan Shin 2937

[9.2.429](#) ***Tonality benchmark analysis for electric vehicle interior noise***

Florian Doleschal (Otto von Guericke University Magdeburg), Jan Hots (Otto von Guericke University Magdeburg), Jesko Verhey (Otto von Guericke University Magdeburg), Arne Oetjen (Carl von Ossietzky University Oldenburg), Sebastian Schneider (Otto von Guericke University Magdeburg), Hermann Rottengruber (Otto von Guericke University Magdeburg) 2946

[9.2.446](#) ***Surveys on sonic environment and inhabitants' awareness around childcare facilities***

Hiroko Kataoka (Kyushu University), Masayuki Takada (Kyushu University), Shin-ichiro Iwamiya (Nihon University) 2955

[9.2.488](#) ***Subjective evaluation on the effect of tonal components contained in environmental noises***

Miki Yonemura (the University of Tokyo), Hyojin Lee (the University of Tokyo), Shinichi Sakamoto (the University of Tokyo), 2967

[9.2.507](#) ***A laboratory investigation into the oppressive or vibratory feeling to low-frequency pure-tone***

Makoto Morinaga (Defense Structure Improvement Foundation), Shigenori Yokoshima (Kanagawa Environment Research Center), Koichi Makino (Kobayasi Institute of Physical Research), Tomohiro Kobayashi (Kobayasi Institute of Physical Research), Sakae Yokoyama (Kobayasi Institute of Physical Research) 2975

[9.2.625](#) ***Effects of parameters of HVAC noise on subjective preference and intellectual productivity***

Seiji Nakagawa (Chiba Univ), Haruki Nakajima (Chiba Univ), Sho Otsuka (Chiba Univ) 2981

[9.2.653](#) ***Sound quality evaluation in the VIP lounge of an EMU train based on psychoacoustic parameters***

Kun Qian (Tsinghua University), Zhicao Hou (Tsinghua University), Qiang Sun (CRRC Changchun Railway Vehicles Co., Ltd), Yang Gao (CRRC Changchun Railway Vehicles Co., Ltd), Ruixue Liu (Tsinghua University), Dengke Sun (China University of Mining & Technology-Beijing) 2987

Session 3. Psycho-acoustics Multisensory Perception and Interaction

[9.3.389](#) ***Effects of noise on overhead crane operators' performances under mental fatigue, in a virtual reality crane simulator***

Massimiliano Masullo (Università degli Studi della Campania "Luigi Vanvitelli"), Roxana Adina Toma (Università degli Studi della Campania "Luigi Vanvitelli"), Aniello Pascale (Università degli Studi della Campania "Luigi Vanvitelli"), Luigi Maffei (Università degli Studi della Campania "Luigi Vanvitelli"), Gennaro Ruggiero (Università degli Studi della Campania "Luigi Vanvitelli") 2998

[9.3.800](#) ***Using Eye Tracking to Investigate the Audio-Visual Effect of Landscape Perception: A Research Review***

Jian Li (Università degli Studi della Campania "Luigi Vanvitelli"), Massimiliano Masullo (Università degli Studi della Campania "Luigi Vanvitelli"), Luigi Maffei (Università degli Studi della Campania "Luigi Vanvitelli") 3007

[9.3.850](#) ***Preliminary qualification of a small audio-visual dataset for a multisensory study on urban parks***

Massimiliano Masullo (Università degli Studi della Campania "Luigi Vanvitelli"), Luigi Maffei (Università degli Studi della Campania "Luigi Vanvitelli"), Federico Cioffi (Università degli Studi della Campania "Luigi Vanvitelli"), Alice Palmieri (Università degli Studi della Campania "Luigi Vanvitelli"), Adriana Galderisi (Università degli Studi della Campania "Luigi Vanvitelli"), Jian (Università degli Studi della Campania "Luigi Vanvitelli"), Aniello Pascale (Università degli Studi della Campania "Luigi Vanvitelli"), Tina Ianchini (Università degli Studi della Campania "Luigi Vanvitelli"), Gennaro Ruggiero (Università degli Studi della Campania "Luigi Vanvitelli"), Francesco Ruotolo (Università degli Studi della Campania "Luigi Vanvitelli"), Mariachiara Rapuano (Università degli Studi della Campania "Luigi Vanvitelli") 3019

[9.3.1012](#) ***Developing a Multivariate Model to Predict the Perception of Residents' Perceived Noise Annoyance through High-Rise Building Windows***

Chi Kwan Chau (the Hong Kong Polytechnic University), Wai Kit Chung (the Hong Kong Polytechnic University), Massimiliano Masullo (Università degli Studi della Campania "Luigi Vanvitelli"), Aniello Pascale (Università degli Studi della Campania "Luigi Vanvitelli") 3030

Session 4. Spatial Hearing

[9.4.410](#) ***Auditory distance perception cues in a small enclosed space: numerical simulation and psychoacoustical evaluation***

Linda Liang (South China University of Technology), Guangzheng Yu (South China University of Technology) 3042

[9.4.669](#) ***The Behavioral Test and Measurements of the Artificial Head's Responses Involving the Short Sounds with the Gaussian Envelope***

Karolina Martinson (The Institute of Nuclear Physics Polish Academy of Sciences), Piotr Zieliński (The Institute of Nuclear Physics Polish Academy of Sciences), Tadeusz Kamisiński (AGH University of Science and Technology) 3049

[9.4.719](#) ***Is wearing active-noise-cancelling headphones in open space offices beneficial for cognitive performance and employee satisfaction? Results of two laboratory studies.***

Benjamin Johannes Mueller (Fraunhofer-Institute for Building Physics), Andreas Liebl (Hochschule Döpfer University of Applied Sciences), Noemi Martin (Fraunhofer-Institute for Building Physics) 3054

[9.4.765](#) ***The effect of binaural recording devices on speech intelligibility evaluation in rooms***

Yuhe Yao (South China University of Technology), Jiecheng Zhu (South China University of Technology), Jue Wang (South China University of Technology), Yongchang Mei (South China University of Technology), Jingyu Tan (South China University of Technology), Yuying Guo (South China University of Technology), Jianxin Peng (South China University of Technology) 3066

[9.4.795](#) ***Benefit from spatial release from masking for native and non-native listeners in simulated room acoustics***

C. T. Justine Hui (University of Auckland), Eugena Au (University of Auckland), Shirley Xia (University of Auckland), Yusuke Hioka (University of Auckland), Catherine I. Watson (University of Auckland), Hinako Masuda (Seikei University) 3072

Area 10 Sound Quality & Product Noise

Session 1. Advances in Sound Quality & Product Noise

[10.1.651](#) ***Analysis of drivers' horn use factors at intersections in an urban area of Taiwan***

Masayuki Takada (Kyushu University), Kazuma Hashimoto (Kyushu University), Tamaki Inada (Kyushu University), Ki-Hong Kim (Surugadai University), Yoshinao Oeda (Kyushu University), Yu Chang Lin (National Taipei University of Technology), Wei Lin (Feng Chia University), Fang-Yi Huang (Feng Chia University) 3083

[10.1.877](#) ***Use of "Beamforming" as a tool to assist the development of acoustic products***

Marcelo de Mello Aquilino (IPT - Technological Research Institute of the State of São Paulo), Cristina Yukari Kawakita Ikeda (IPT - Technological Research Institute of the State of São Paulo) 3095

Session 2. Buy Quiet

[10.2.241](#) ***Developing a simple tool noise comparison procedure for use in a Buy Quiet program***

Hannah Speaks (National Institute for Occupational Safety and Health (NIOSH)), Bryan Beamer (National Institute for Occupational Safety and Health (NIOSH)) 3100

Session 3. Consumer Product Noise

[10.3.875](#) ***The evolution of noise from household appliances in the last 30 years in Brazil***

Marcelo de Mello Aquilino (IPT - Technological Research Institute of the State of São Paulo), Cristina Yukari Kawakita Ikeda (IPT - Technological Research Institute of the State of São Paulo) 3109

[10.3.947](#) ***Numerical & Experimental Investigation of Low Frequency Tyre Impact Noise and Possible Applications on Tyre Performances***

Mihar Ved (Apollo Tyres Global R&D B.V.), Bharatkumar Makwana (Apollo Tyres Global R&D B.V.) 3117

Session 6. Product Sound Quality

[10.6.237](#) ***Modelling and analysis of subjective evaluation of sound quality of the construction vehicle noise***

Fei Xue (Nanjing Research Institute of Electronics Technology), Beibei Sun (Southeast University) 3123

[10.6.402](#) ***AI-SQ Metrics: Artificial Intelligence in Sound Quality Metrics***

Roland Sottek (HEAD acoustics GmbH), Thiago Henrique Gomes Lobato (HEAD acoustics GmbH) 3135

[10.6.475](#) ***Hybrid multi-channel system in automotive audio***

Hang Zhang (Nanjing University), Zhibin Lin (Nanjing University) 3144

[10.6.645](#) ***Automotive Door Closure Sound Quality: Model, Target Definition and Identification of Countermeasure for Performance Improvement***

Jinyan Bi (GAC R&D Center), Chao Ren (GAC R&D Center), Rabah Hadjit (Hottinger Brüel & Kjær), Bret Engels (Hottinger Brüel & Kjær), Haibin Zhang (Hottinger, Brüel & Kjær China) 3156

[10.6.665](#) ***Relation between Preference of Road Noise and Loudness Distribution***

Jae-Ho Yang (Kookmin University), Sung-Hwan Shin (Kookmin University), Eun-Jun Han (Hyundai Motor Company) 3166

[10.6.691](#) ***Sound quality characteristics of refrigerators***

Esra Tuze (Arçelik), Koray Erdogan (Arçelik), Mehmet Onur Cetin (Arçelik) 3172

Session 7. Sound and Multisensory Perception and Interaction

[10.7.607](#) ***Perceived immersion and powerfulness of a vehicle driving simulator in different reproduction configurations***

Eun Soo Jo (Hyundai Motor Group), Dong Chul Park (Hyundai Motor Group), Juan Camilo Gil-Carvajal (Technical University of Denmark), Technical University of Denmark (Technical University of Denmark), Wookeun Song (Brüel & Kjær Sound and Vibration Measurement A/S) 3182

Area 11 Soundscape

Session 1. Advances in Soundscape

- [11_1_176](#) ***Soundscape assessment: towards a validated translation of perceptual attributes in different languages***
Francesco Aletta (University College London), Tin Oberman (University College London), Östen Axelsson (Stockholm University), Hui Xie (Chongqing University), Yuan Zhang (Shenyang Jianzhu University), Siu-Kit Lau (National University of Singapore), Shiu-Keung Tang (The Hong Kong Polytechnic University), Kristian Jambrošić (University of Zagreb), Bert De Coensel (Ghent University), Kirsten van den Bosch (University of Groningen), Pierre Aumond (University Gustave Eiffel), Catherine Guastavino (McGill University), Catherine Lavandier (CY Cergy Paris University), André Fiebig (Technical University of Berlin), Brigitte Schulte-Fortkamp (Technical University of Berlin), Joko Sarwono (Bandung Institute of Technology), Anugrah Sudarsono (Bandung Institute of Technology), Arianna Astolfi (Polytechnic Institute of Turin), Koji Nagahata (Fukushima University), Jin-Yong Jeon (Hanyang University), Hyun-In Jo (Hanyang University), Julia Chieng (Universiti Putra Malaysia), Woon-Seng Gan (Nanyang Technological University), Joo-Young Hong (Nanyang Technological University), Bhan Lam (Nanyang Technological University), Zhen-Ting Ong (Nanyang Technological University), Pablo Kogan (University of Chile), Enrique Suárez Silva (Austral University of Chile), Jerónimo Vida Manzano (University of Granada), Papatya Nur Dökmeçi Yörükoğlu (Çankaya University), Thu Lan Nguyen (Shimane University), Jian Kang (University College London) 3189
- [11_1_251](#) ***Not all perceptual attributes for soundscape assessment have stable meaning in the appraisal space***
Koji Nagahata (Fukushima University) 3199
- [11_1_794](#) ***User Assessments of Living Soundscapes in a Tropical Urban City, Exploring Subjective Perceptions and Objective Audio-visual Components Collected with Mobile Application Technology***
Yoshimi Hasegawa (National University of Singapore), Siu-Kit Lau (National University of Singapore), Antonella Radicchi (Technical University of Berlin) 3209
- [11_1_866](#) ***Soundscape: Impact of COVID-19 upon the understanding of our acoustic environments. Why „silence“ is so much more complicated.***
Brigitte Schulte-Fortkamp (HEAD Genuit Foundation) 3218
- [11_1_868](#) ***Randomized clinical trial in soundscape research***
Arezoo Talebzadeh (Toronto Rehabilitation Institute), Andrea Iaboni (Toronto Rehabilitation Institute), Paul Devos (Ghent University), Dick Botteldooren (Ghent University), Dominique Van de Velde (Artevelde University College), Patricia De Vriendt (Artevelde University College) 3222
- [11_1_887](#) ***Basic Study on Visualization of Environmental Sound Using Smart Glass to Support Hearing-impaired Persons***
Masafumi Nakaya (Tokyo University of Science), Takumi Asakura (Tokyo University of Science) 3231
- [11_1_905](#) ***Using the soundscape approach for managing urban quiet areas***
André Fiebig (Technische Universität Berlin) 3239
- [11_1_916](#) ***Factors that affect individual differences in soundscape evaluations***
Ming Yang (HEAD acoustics GmbH), Maxim Emelin (Bauman Moscow State Technical University), Andreas Herweg (HEAD acoustics GmbH) 3247
- [11_1_948](#) ***Soundscape, engagement and planning practices within airport expansion projects in the UK***
Lisa Lavia (Heriot-Watt University), Caroline Brown (Heriot-Watt University), Sarah R. Payne (Heriot-Watt University) 3255

Session 2. Apps, Social Media and Virtual Reality as Soundscape Evaluation

[11.2.450](#) ***Virtual, augmented and mixed reality tools in soundscape evaluation and design***
Bhan Lam (Nanyang Technological University), Yi Xian Tan (Nanyang Technological University), Joey Heng (Nanyang Technological University), Joo Young Hong (Singapore University of Technology and Design), Zhen-Ting Ong (Nanyang Technological University), Woon-Seng Gan (Nanyang Technological University) 3 2 6 7

[11.2.636](#) ***Participative and interdisciplinary data collection for the study of urban soundscapes.***
Pierre Aumond (Univ Gustave Eiffel), Claire Guiu (Université de Nantes), Christèle Allès (Université de Nantes), Arnaud Can (Univ Gustave Eiffel) 3 2 7 9

Session 3. Indoor Soundscapes

[11.3.85](#) ***A comparative study on soundscapes in real (RE) and virtual (VE) open office environments.***
Semiha Yilmazer (Bilkent University), Zekiye Şahin (Bilkent University) 3 2 8 7

[11.3.86](#) ***The effect of soundscape on memory performance in a wayfinding task in a virtual outpatient polyclinic***
Semiha Yilmazer (Bilkent University), Donya Dalirnaghadeh (Bilkent University) 3 3 0 6

[11.3.497](#) ***Noise Identification in Passenger Train and It's Relation to Passenger Perception***
Nurul HIDAYAH (Institut Teknologi Bandung), Joko SARWONO (Institut Teknologi Bandung), Anugrah Sabdono SUDARSONO (Institut Teknologi Bandung) 3 3 1 6

Session 4. Noise Control Measures for Quiet Zones, Parks and Recreational Areas

[11.4.147](#) ***Mapping the Tourism Transportation Noise Exposure To Natural Quiet and predicting potential effects on the threatened Black-Necked Cranes in Dashanbao Protected Areas***
Xiaoqing XU (Tongji University), Jinjie FENG (Tongji University) 3 3 2 5

[11.4.248](#) ***Effect of acoustic environment on mental feelings of residential living nearby the traffic road***
Lei Li (Harbin Institute of Technology), Yue Wu (Harbin Institute of Technology), Shanshan Zhang (Harbin Institute of Technology) 3 3 3 1

[11.4.599](#) ***Comparisons of Soundscape at Inland and Coastal Public Spaces in China***
Wei Zhao (Harbin Institute of Technology), Jian Kang (Harbin Institute of Technology), Hongpeng Xu (Harbin Institute of Technology) 3 3 3 8

[11.4.833](#) ***Road traffic noise in Monfragüe National Park***
Guillermo Rey Gozalo (Universidad de Extremadura), David Montes González (Universidad de Extremadura), Juan Miguel Barrigón Morillas (Universidad de Extremadura), Javier Pérez-González (Universidad de Extremadura), Sebastián J. Hidalgo de Trucios (Universidad de Extremadura) 3 3 4 4

Session 5. Soundscape in Architecture, Urban Planning and Landscape

[11.5.227](#) ***Understanding urban soundscape through soundscape composition***
Anugrah Sabdono Sudarsono (Institut Teknologi Bandung), Joko Sarwono (Institut Teknologi Bandung), Ranti Dwitassia (Institut Teknologi Bandung) 3 3 5 3

[11.5.377](#) ***Effect of visual characteristics of residential areas on soundscape in high density cities in China***
Bo Gao (Harbin Institute of Technology), Qi Meng (Harbin Institute of Technology), Jian Kang (University College London (UCL)) 3 3 6 1

[11.5.433](#) ***The Soundscape Descriptor in Historic District of Jakarta***
Djimantoro, Michael Isnaeni (Institut Teknologi Bandung), Martokusumo, Widjaja (Institut Teknologi Bandung), Poerbo, Heru Wibowo (Institut Teknologi Bandung), Sarwono, Joko (Institut Teknologi Bandung) 3 3 7 3

[11.5.483](#) ***Guidelines for soundscape mapping and urban soundscape design derived from the imaginaries of digital native users***
Jean-Dominique Polack (Sorbonne Université), Philippe Taupin (Centre de pilotage du Groupe PSA), Jin Yong Jeon (Hanyang University), Hyun In Jo (Hanyang University) 3 3 8 1

- [11_5_548](#) **Combined effects of conversational speech and physical environment perception on acoustic comfort in urban public spaces**
Xinxin Ren (Dalian University of Technology), Shan Du (Dalian University of Technology), Qi Li (Dalian University of Technology) 3391
- [11_5_829](#) **Effect of dynamic visual form on sound preference of waterscape**
Xiaoyin Yang (Harbin Institute of Technology), Jian Kang (University College London) 3405
- [11_5_871](#) **The sound's dynamics in street markets during the Covid-19 pandemic: a case study at Tabuleiro Market, Maceió-AL, Brazil**
Jordana Teixeira da Silva (Federal University of Alagoas), Ana Caroline Araújo Ferreira da Silva (Federal University of Alagoas), Elisabeth de Albuquerque Cavalcanti Duarte Gonçalves (Federal University of Alagoas), Poliana Lopes de Oliveira (Federal University of Santa Catarina), Maria Lucia Gondim da Rosa Oiticica (Federal University of Alagoas) 3410
- [11_5_939](#) **Understanding City Park Soundscape Through ISO/TS 129132:2018 Sound walk (Method B) In Association With Landscape Elements**
Banu Chitra (School of Planning and Architecture), Minakshi Jain (School of Planning and Architecture), Faiz Ahmed Chundeli (School of Planning and Architecture) 3422
- [11_5_973](#) **To listen, to feel and to live in a noble area of a coastal city with vertical densification, the before and the during, time of Covid-19. Case study: Neighbourhood of Ponta Verde, Maceió-AL.**
Stella Rosane da Silva Oliveira (Federal University of Alagoas), Arthur Douglas Silva Martins (Federal University of Alagoas), Ellen Dyanne Caetano Saraiva (Federal University of Alagoas), Mariana Souza Barbosa (Federal University of Alagoas), Maria Lucia Gondim da Rosa Oiticica (Federal University of Alagoas) 3430
- [11_5_979](#) **The acoustic dimension of squares: the potentiality of soundgardens**
Victor Valadares Mourthé (Federal University of Minas Gerais), Márcia Maria Soares (State University of Minas Gerais ED/UEMG) 3441

Session 6. Soundscape, Health, Quality of Life

- [11_6_188](#) **Three sound installation prototypes for enhancing the quality of human life in public urban soundscapes**
Jordan Lacey (RMIT University) 3452
- [11_6_463](#) **The Intention to Protect the Grand Song of the Dong Ethnic Group Based on the Planned Behavior Theory Model**
LI Jing (Capital Normal University), LIU Aili (Capital Normal University), WU Lan (Capital Normal University), TANG Huimei (Capital Normal University), DENG Zhiyong (Capital Normal University) 3459
- [11_6_566](#) **Factors influencing audio-visual comfort evaluation in the metro commercial space**
JingWen Tao (Harbin Institute of Technology), YaoWu Wang (Harbin Institute of Technology), Lei Yu (Harbin Institute of Technology), Jian Kang (University College London), Tian Li (Tongji Architectural Design (Group) Co, Ltd) 3473
- [11_6_721](#) **Urban environment soundscape evaluation: Milan case study of noise events perceptions by citizens**
Rosa Ma Alsina-Pagès (Grup de recerca en Tecnologies Mèdia), Ferran Orga (Grup de recerca en Tecnologies Mèdia), Marc Freixes (Grup de recerca en Tecnologies Mèdia), Roger Mallol (Grup de recerca en Tecnologies Mèdia), Francesco Aletta (University College London (UCL)), Andrew Mitchell (University College London (UCL)), Jian Kang (University College London (UCL)), Maria Foraster (ISGlobal) 3486
- [11_6_862](#) **Associations between soundscape restorativeness and self-reported well-being in different urban parks**
Xingyue Fang (Northwest A&F University), Jingrong Liu (Northwest A&F University), Yuchen Zhang (Northwest A&F University), Tian Gao (Northwest A&F University), Ling Qiu (Northwest A&F University) 3494
- [11_6_863](#) **Associations between perceived occurrences of different sounds and perceived restorativeness in urban parks**
Xingyue Fang (Northwest A&F University), Ling Qiu (Northwest A&F University), Tian Gao (Northwest A&F University) 3501

Session 8. Soundscape Preservation

- [11_8_246](#) **A case study on soundscape mapping for the historical and ethnic village of DONG Nationality in Zhaoxing County**
BAI Danfeng (Capital Normal University), DONG Kexin (Capital Normal University), TONG Kaicheng (Capital Normal University), DENG Zhiyong (Capital Normal University), LIU Aili (Capital Normal University) 3509
- [11_8_262](#) **The soundscape reconstructions of the early 20th century vendor cries in streets of Istanbul and Naples with two 3D sound spatialization approaches**
Hasan Baran Firat (Università della Campania Luigi Vanvitelli), Massimiliano Masullo (Università della Campania Luigi Vanvitelli), Luigi Maffei (Università della Campania Luigi Vanvitelli), Can Karadoğan (Istanbul Technical University) 3517
- [11_8_814](#) **A methodology for the historically informed soundscape**
Hasan Baran Firat (Università degli Studi della Campania "Luigi Vanvitelli"), Massimiliano Masullo (Università degli Studi della Campania "Luigi Vanvitelli"), Luigi Maffei (Università degli Studi della Campania "Luigi Vanvitelli") 3529
- [11_8_911](#) **New descriptors for capturing perceptions within historic soundscapes**
Pamela Jordan (University of Amsterdam), André Fiebig (Technische Universität Berlin) 3541
- [11_8_944](#) **Sounds as an expression of urban vitality: changes in the neighborhood's soundscape affected by technological disaster in Maceió - AL, Brazil**
Maria Lucia Gondim da Rosa Oiticica (Federal University of Alagoas), Poliana Lopes de Oliveira (Federal University of Santa Catarina), Jordana Teixeira da Silva (Federal University of Alagoas), Arthur Douglas Silva Martins (Federal University of Alagoas), Elisabeth de Albuquerque Cavalcanti Duarte Gonçalves (Federal University of Alagoas), Selma Patrícia Bandeira Mendes Costa (Federal University of Alagoas) 3549

Session 9. Soundscape evaluations and indicators

- [11_9_255](#) **Soundscape assessment methods: Compatibility of questionnaires and narrative interview based on ISO 12913-2**
Hyun In Jo (Hanyang University), Rosa Seo (Hanyang University), Jin Yong Jeon (Hanyang University) 3561
- [11_9_272](#) **Soundscape assessment with classification of human perception to sound environment**
Jin Yong Jeon (Hanyang University), Hyun In Jo (Hanyang University) 3571
- [11_9_392](#) **Red Soundscape Index (RSI): An index with the potential to assess soundscape quality**
Xinhao Cao (Harbin Institute of Technology), Qi Meng (Harbin Institute of Technology), Jian Kang (University College London (UCL)) 3579
- [11_9_485](#) **Crossing professional habits for plural analysis of urban soundscapes**
Jean-Dominique Polack (Sorbonne Université), Elise Geisler (Agrocampus Ouest), Nathalie Gourlot (Atelier de recherche Politopie), Thea Manola (Ecole Nationale d'Architecture de Grenoble), Antoine Perez-Munoz (BruitParif), Silvère Tribout (Université Grenoble) 3592
- [11_9_508](#) **Soundscape characterization in outdoor public spaces in urban high-rise residential blocks**
Guofeng Zhu (Tianjin University), Jian Kang (Tianjin University), Hui Ma (Tianjin University), Chao Wang (Tianjin University) 3603
- [11_9_708](#) **Identification of Acoustic Index for Revealing The Characteristics of The Lowland Forest Ecosystem of Alas Purwo**
Sentagi Sesotya Utami (Universitas Gadjah Mada), Hanifah (Universitas Gadjah Mada), Susilo Hadi (Universitas Gadjah Mada) 3610

- [11_9_925](#) **A preliminary investigation on soundscape perception based on a soundwalk through open spaces of Matsue City, Japan.**
Honda Kazumasa (Shimane University), Bach Lien Trieu (Shimane University), Thu Lan Nguyen (Shimane University), Wei Zhang (Shimane University) 3620
- [11_9_1017](#) **A deep learning approach for modelling perceptual attributes of soundscapes**
Kenneth Ooi (Nanyang Technological University), Jooyoung Hong (Singapore University of Technology and Design), Bhan Lam (Nanyang Technological University), Zhen-Ting Ong (Nanyang Technological University), Woon-Seng Gan (Nanyang Technological University) 3632

Session 10. Indoor soundscape, Perception and Design

- [11_10_134](#) **Five questions on the indoor soundscape approach for regenerative buildings**
Simone Torresin (University of Trento), Rossano Albatici (University of Trento), Francesco Aletta (University College London), Francesco Babich (Institute for Renewable Energy), Ethan Bourdeau (International WELL Building Institute), Jack Harvie-Clark (Apex Acoustics Ltd), Jian Kang (University College London), Lisa Lavia (Heriot-Watt University), Antonella Radicchi (Technical University Berlin) 3642
- [11_10_249](#) **Sound matters while enjoying movies; a soundscape study of visually impaired people**
Christina E. Mediatika (Petra Christian University), Anugrah S. Sudarsono (Institut Teknologi Bandung) 3651
- [11_10_259](#) **Effect of visual environment on auditory perception in the public spaces of shopping malls**
Fashu Yi (Harbin Institute of Technology), Jian Kang (University College London) 3661
- [11_10_567](#) **A taxonomy of indoor acoustic environments and sound source preference in shopping centres**
Uğur Beyza ERÇAKMAK (Çankaya University), Papatya Nur DÖKMECİ YÖRÜKOĞLU (Çankaya University) 3667
- [11_10_693](#) **Emotions elicited by indoor sound sources in wooden residential buildings**
Frescura Alessia (University of Liverpool), Pyoung-Jik Lee (University of Liverpool) 3676
- [11_10_848](#) **Acoustic perception evaluation in buildings recorded with binaural audio and point of view video - the APEAL Method**
Jack Harvie-Clark (Apex Acoustics Ltd), Rebecca Romeo Pitone (Apex Acoustics Ltd) 3687

Area 12 Signal Processing, Measurements, General Modeling and Model Validation

Session 1. Advances in Signal Processing

- [12_1_744](#) **Estimation of the Noise and Reverberation Covariance Matrices with Application in Speech Enhancement using the Multichannel Wiener Filter**
Fan-Jie Kung (National Tsing Hua University), Mingsian R. Bai (National Tsing Hua University) 3699
- [12_1_860](#) **Design of a constant beamwidth beamformer for the length-limited parametric array loudspeaker**
Jiangnan Liang (University of Electronic Science and Technology of China), Jiacheng Gou (University of Electronic Science and Technology of China), Ruyu Bai (University of Electronic Science and Technology of China), Chuang Shi (University of Electronic Science and Technology of China) 3710
- [12_1_861](#) **Beampattern design for the parametric array loudspeaker using mixed Gaussian directivity method**
Jiacheng Gou (University of Electronic Science and Technology of China), Jiangnan Liang (University of Electronic Science and Technology of China), Ruyu Bai (University of Electronic Science and Technology of China), Chuang Shi (University of Electronic Science and Technology of China) 3717

Session 2. Acoustical Holography/Beamforming/Microphone Array

- [12_2_192](#) **A subspace inverse method for the separation and localization of distributed aerodynamic noise sources**
Xingjian Pan (Shanghai Jiao Tong University), Weikang Jiang (Shanghai Jiao Tong University) 3725
- [12_2_204](#) **Microphone arrays for acoustic direction of arrival analysis: Model-based approaches**
Ning Xiang (Rensselaer Polytechnic Institute) 3734
- [12_2_375](#) **Simulation and experimental study of noise source identification and sound power estimation based on spiral array**
Wang Qian (Research Institute), Yue Shu (Northwestern Polytechnical University), Hou Hong (Northwestern Polytechnical University) 3743
- [12_2_422](#) **Joint sensing methods to reconstruct acoustic fields over space**
Samuel A. Verburg (Technical University of Denmark), Efrén Fernández-Grande (Technical University of Denmark) 3751
- [12_2_462](#) **A real-time acoustical holography method based on adaptive filter algorithms**
Dan Ding (Beijing Ancsonic Technology Co.,Ltd, China), Yifan Liu (Beijing Ancsonic Technology Co.,Ltd, China), Yinhai Xu (Beijing Ancsonic Technology Co.,Ltd, China) 3759
- [12_2_514](#) **On the denoising of non-Gaussian noise in the acoustic array measurement**
Liang Yu (Shanghai Jiao Tong University), Cong Li (Shanghai Hangyi Research Institute of High-tech Development), Jerome Antoni (Université de Lyon), Zhifei Chen (Chinese Academy of Sciences), Weikang Jiang (Shanghai Jiao Tong University) 3771
- [12_2_541](#) **Convolutional sparse formulation of the sound field in an enclosure**
Manuel Hahmann (Technical University of Denmark), Samuel Arturo Verburg-Riezu (Technical University of Denmark), Efrén Fernández-Grande (Technical University of Denmark) 3779
- [12_2_562](#) **Extended vector-based EB-ESPRIT using additional constraints for increasing the maximum number of detectable sources**
Byeongho Jo (Korea Advanced Institute of Science and Technology), Franz Zotter (University of Music and Performing Arts), Jung-Woo Choi (Korea Advanced Institute of Science and Technology) 3788
- [12_2_569](#) **Introduction to a new 3 dimensional method to visualize sound directivity based on a moving microphone array and Beam Forming**
Benjamin Vorrhein (gfai tech GmbH), Michael Kerscher (gfai tech GmbH), Gunnar Heilmann (gfai tech GmbH), Dirk Doebler (GFaI e.V.), Andy Meyer (GFaI e.V.) 3798
- [12_2_593](#) **Sound source localization and diagnosis from multiple acoustic images**
Lucas Carneiro (Université de Sherbrooke (GAUS)), Alain Berry (Université de Sherbrooke (GAUS)) 3805
- [12_2_998](#) **Sound source localization based on Gaussian mixture models using ITD with diffuseness mask in a neck-band microphone array module**
Sang Hun Park (Sogang University), Hyung-Min Park (Sogang University), Yi-Gyeong Kim (Electronics and Telecommunication Research Institute (ETRI)), Sung Q Lee (Electronics and Telecommunication Research Institute (ETRI)), Kang-Ho Park (Electronics and Telecommunication Research Institute (ETRI)) 3817

Session 4. Computational Acoustics

- [12_4_322](#) **Vibrational analysis of rectangular thin layer using Fourier sine series as the auxiliary function**
Guoming Deng (Tongji University), Jianwang Shao (Tongji University), Songlin Zheng (Tongji University), Xian Wu (Tongji University) 3825
- [12_4_834](#) **Why the bundengan is a personal musical instrument**
Gea Oswah Fatah Parikesit (Universitas Gadjah Mada) 3837

Session 5. Modeling and Numerical Simulation

- [12.5.67](#) **Dynamic Topology Optimization Research of Stiffened Plate Structures Based on the BESO Method**
Xiaoyan Teng (Harbin Engineering University), Yuedong Han (Harbin Engineering University), Xudong Jiang (Harbin Engineering University) 3844
- [12.5.70](#) **Research on Dynamic Stiffness Topology Optimization Based on Equivalent Static Load**
Xiaoyan Teng (Harbin Engineering University), Nan Liu (Harbin Engineering University), Xudong Jiang (Harbin Engineering University) 3856
- [12.5.159](#) **Analytical and numerical investigation of sound radiation from traffic tunnels**
Weiping Yang (The Hong Kong Polytechnic University), Yatsze Choy (The Hong Kong Polytechnic University) 3869
- [12.5.236](#) **Parametric study on the acoustical transmission loss of U-shaped corrugated pipes**
Fei Xue (Nanjing Research Institute of Electronics Technology), Beibei Sun (Nanjing Research Institute of Electronics Technology) 3880
- [12.5.342](#) **Visualization of demodulated sound based on sequential acoustic-ray-tracing for parametric array loudspeakers in three-dimensional space**
Makoto Shimokata (Ritsumeikan University), Masato Nakayama (Osaka Sangyo University), Takanobu Nishiura (Ritsumeikan University) 3891
- [12.5.356](#) **Influence of parameters of small gaps regarding sound transmission and ANC-performance - a numerical simulation**
Michael Sandner (Helmut-Schmidt-University), Delf Sachau (Helmut-Schmidt-University) 3903
- [12.5.414](#) **A modelling approach to identify the influences of relevant system parameters on drive train vibrations**
Carolin Sturm (Karlsruhe Institute of Technology), Thomas Gwosch (Karlsruhe Institute of Technology), Sven Matthiesen (Karlsruhe Institute of Technology) 3915
- [12.5.549](#) **Analysis on the space mechanical properties of the satellite borne multi-materials composite type microstrip antenna**
Li Shen (Nanjing Research Institute of Electronics Technology), Zhangyi Liu (Nanjing Research Institute of Electronics Technology) 3925
- [12.5.604](#) **Forced Vibration Analysis of a Fibre-Reinforced Polymer Laminated Beam using the Green Function Method**
Xuan Li (The University of Nottingham Ningbo China), Dunant Halim (The University of Nottingham Ningbo China), Xiaoling Liu (The University of Nottingham Ningbo China) 3937
- [12.5.704](#) **A Lambda-shaped piezoelectric energy harvester for highly efficient vibration energy harvesting**
HAITAO QING (Hanyang University), Hong Hee Yoo (Hanyang University) 3945
- [12.5.769](#) **Development of an integrated numerical model of the thermo-physiological and biomechanical human system applied in occupied spaces**
Eusébio Z. E. Conceição (University of Algarve), M^a Inês L. Conceição (University of Lisbon), M^a Manuela J. R. Lúcio (University of Algarve) 3951
- [12.5.849](#) **Numerical evaluation of visco-thermal losses using the method of fundamental solutions**
Matheus Duarte Veloso (Univ. of Coimbra), Luis Godinho (Univ. of Coimbra), Paulo Amado Mendes (Univ. of Coimbra), Javier Redondo Pastor (Universitat Politècnica de València) 3959
- [12.5.918](#) **Numerical and experimental analysis of a hemicylinder diffuser and the influence of normalization procedures on the diffusion coefficient**
Luiz Augusto Turella Ferraz Alvim (Federal University of Santa Maria), Eric Brandão (Federal University of Santa Maria), Peter D'Antonio (RPG Acoustical Systems, LLC), Rinaldi Petrolli (REDI Acoustics, LLC) 3968

Session 6. Signal Identification and Separation

- [12_6_92](#) **Coupler tracking algorithm for a wheeled train uncoupling robot based on gaussian particle filter combined with improved particle swarm optimization**
Jianjun Yao (Harbin Engineering University), Fengqi Liu (Harbin Engineering University), Mei Yu (Harbin Engineering University), Yu Geyang (Harbin Engineering University), Wu Yang (Harbin Engineering University), Wang Xiao (Harbin Engineering University) 3979
- [12_6_141](#) **An underwater wideband signal DOA estimation method based on common frequency domain sparse dictionary**
Daqian He (China Ship Development and Design Center), Congying Wang (China Ship Development and Design Center), Xirui Peng (China Ship Development and Design Center), Tiancheng Miao (China Ship Development and Design Center) 3991
- [12_6_253](#) **A sharp acoustic focus via artificial iterative phase conjugate planar array**
Xiangtao Zhao (Department of underwater weaponry and chemical defense) 4010
- [12_6_382](#) **High-Gain Detection for Underwater Acoustic Beacon Signals Using Envelope Spectrum of Multi-Pulse**
Wenhui Yu (Southeast University), Shuai Yao (Southeast University), Shiliang Fang (Southeast University), Yanan Xu (Hangzhou Applied Acoustic Research Institute) 4017
- [12_6_384](#) **Acoustical Monitoring of Electrical Discharges**
Peter Holstein (SONOTEC GmbH), Karsten Fuchs (TU Ilmenau), Steffen Seitz (TU Ilmenau), Frank Berger (TU Ilmenau), Nicki Bader (SONOTEC GmbH), Steffen Moeck (SONOTEC GmbH), Dirk Döbler (GfAI – Society for the Advancement of Applied Computer Science) 4026
- [12_6_490](#) **Texture analysis of ship wake image based on gray level co-occurrence matrix**
Wenjing Cao (Southeast University), Shiliang Fang (Southeast University) 4034
- [12_6_526](#) **A Space-time-frequency Joint Detection Method of Line-spectrum Components in Underwater Acoustic Signals**
Zihan Shen (Southeast University), Xinwei Luo (Southeast University) 4041
- [12_6_529](#) **Underwater acoustic feature extraction based on restricted Boltzmann machine**
Yulin Feng (Southeast University), Xinwei Luo (Southeast University) 4053
- [12_6_552](#) **Investigation on Wavelet Basis Function of DNN-based Time Domain Audio Source Separation Inspired by Multiresolution Analysis**
Shihori Kozuka (The University of Tokyo), Tomohiko Nakamura (The University of Tokyo), Hiroshi Saruwatari (The University of Tokyo) 4065
- [12_6_557](#) **Spectrogram Features Detection Based on Convolutional Neural Network with Rich Convolution Features**
Ningjie Zhang (Southeast University), Xinwei Luo (Southeast University) 4075
- [12_6_582](#) **Study on signal processing of acoustic environment recognition for acoustic detection technology**
Dong-Jun Shin (LIG Nex1), Heung-Tae Kim (LIG Nex1), Sung-Hwan Yim (LIG Nex1), Hyu-Sang Kwon (Korea Research Institute of Standards and Science (KRISS)) 4087
- [12_6_799](#) **Spatial and frequency characterization of the noise generated by the propellers of Unmanned Aerial Vehicles (UAV) in acoustic localization tasks**
Lara del Val (University of Valladolid), Alberto Izquierdo (University of Valladolid), Juan J. Villacorta (University of Valladolid) 4095
- [12_6_804](#) **Experimental study on echo acquisition based on the correlation of low frequency reverberation**
Baoshan Yang (Dalian Scientific Test and Control Technology Institute), Zhongcheng Ma (Science and Technology on Underwater Test and Control Laboratory), Lingguo Zhu (Harbin Engineering University), Wenzhang Liu (Harbin Engineering University) 4105

Session 7. Measurements & Standards

- [12.7.223](#) **Filtering the reflection waves from wedges of an anechoic chamber for microphone free-field sensitivity calibration**
Yen-Chun Huang (ITRI/CMS), Shu-Fen Kuo (ITRI/CMS), Tsung-Hsien Tu (ITRI/CMS) 4113
- [12.7.247](#) **A simplified sound directivity measuring method based on the Chinese traditional pentatonic scale for the small Pipa of Dong Nationality**
DENG Zhiyong (Capital Normal University), TONG Kaicheng (Capital Normal University), ZHONG Jingle (Capital Normal University), JIA Luyao (Capital Normal University), BAI Danfeng (Capital Normal University), LIU Aili (Capital Normal University) 4124
- [12.7.268](#) **A development of real time reproduction system of the three dimensional visual image and binaural sound - Application to the noise measurement-**
Yohji Ishi (Kobayasi Institute of Physical Research), Tetsuya Doi (Kobayasi Institute of Physical Research) 4128
- [12.7.608](#) **Vibration Sensor Placement for Delamination Detection in a Beam Structure based on the Vibration-based Chaotic Oscillator Method**
Xuan Li (The University of Nottingham Ningbo China), Dunant Halim (The University of Nottingham Ningbo China), Xiaoling Liu (The University of Nottingham Ningbo China) 4135
- [12.7.676](#) **Calibration and uncertainty evaluation of the devices for audiometry**
Wan-Ho Cho (Korea Research Institute of Standards and Science) 4145
- [12.7.954](#) **A Good Practice Guide for Vibration Assessment in the System of Environmental Impact Assessment (SEIA) in Chile**
Nicolás A. Bastián-Monarca (Acústica Austral), Jorge P. Arenas (Universidad Austral de Chile.), Camilo Padilla (Environmental Noise) 4151
- [12.7.957](#) **A comparison of the two and four microphone methods for deriving the characteristic acoustic properties of porous materials**
Amulya Lomte (Wichita State University), Brittany Wojciechowski (Wichita State University), Bhisham Sharma (Wichita State University) 4163
- [12.7.1006](#) **Raspberry Pi: A Low-cost Embedded System for Sound Pressure Level Measurement**
William D'Andrea Fonseca (Federal University of Santa Maria), Leonardo Jacomussi (Federal University of Santa Maria), Paulo Henrique Mareze (Federal University of Santa Maria) 4175

Session 8. Spatial Audio

- [12.8.146](#) **Spatial hearing and virtual auditory display (keynote speakers)**
Bosun Xie (South China University of Technology), Michelle C. Vigeant (The Pennsylvania State University) 4187
- [12.8.283](#) **Performance analysis of room impulse response reshaping using binaural method**
Jun Zhu (South China University of Technology), Dan Rao (South China University of Technology) 4208
- [12.8.298](#) **Oral-binaural room impulse responses measured on singers in various halls**
Munhum Park (King Mongkut's Institute of Technology Ladkrabang) 4215
- [12.8.340](#) **3-D Sound Image Panning Based on Spherical Harmonics Expansion for 22.2 Multichannel Audio**
Hiromu Suzuki (Ritsumeikan University), Kenta Iwai (Ritsumeikan University), Takano Nishiura (Ritsumeikan University) 4222
- [12.8.341](#) **Evaluation on multichannel surround sound system with parametric loudspeakers for sharpness of sound images**
Naoto Shimada (Ritsumeikan University), Kenta Iwai (Ritsumeikan University), Masato Nakayama (Osaka Sangyo University), Takano Nishiura (Ritsumeikan University) 4233

- [12.8.343](#) **Sound image design in the elevation angle based on parametric head-related transfer function for 5.1 multichannel audio**
Chiharu Shoda (Ritsumeikan University), Kenta Iwai (Ritsumeikan University), Takanobu Nishiura (Ritsumeikan University) 4 2 4 5
- [12.8.357](#) **Personal sound field manipulation in the wearable audio device**
Se-Woon Jeon (Korea Advanced Institute of Science and Technology), Jung-Woo Choi (Korea Advanced Institute of Science and Technology) 4 2 5 6
- [12.8.378](#) **A low cost loudspeaker array for personal audio with enhanced vertical directivity**
Daniel Wallace (University of Southampton), Jordan Cheer (University of Southampton) 4 2 6 4
- [12.8.437](#) **Personal audio systems in car cabin using loudspeaker array based on measured transfer functions with spectral smoothing**
Yefeng Cai (Colsonic Electronics Co., Ltd), Chao Ye (Colsonic Electronics Co., Ltd), Dengyong Ma (Colsonic Electronics Co., Ltd), Yongsheng Mu (Colsonic Electronics Co., Ltd), Jianming Zhou (Suzhou SONAVOX Electronics Co., Ltd), Guoqiang Chai (Suzhou SONAVOX Electronics Co., Ltd) 4 2 7 2
- [12.8.707](#) **The IHA database of human geometries including torso, head and complete outer ears for acoustic research**
Reinhild Roden (Institut für Hörtechnik und Audiologie), Matthias Blau (Institut für Hörtechnik und Audiologie) 4 2 7 8
- [12.8.999](#) **Two and three-dimensional sparse models for compressed sensing in multiple sound zones**
Leny Vinesla (Institute for Digital Technologies), Hyun Lim (Institute for Digital Technologies), Ahmet Kondoz (Institute for Digital Technologies) 4 2 9 0

Session 9. Signal processing for very high-frequency sound

- [12.9.338](#) **Virtual sound source construction based on wave field synthesis using multiple parametric array loudspeakers**
Shiori Sayama (Ritsumeikan University), Masato Nakayama (Osaka Sangyo University), Takanobu Nishiura (Ritsumeikan University) 4 2 9 9
- [12.9.699](#) **Investigation on VHF sounds in the ears project Japan - part1**
Mari Ueda (Kanagawa Institute of Technology), Rikuo Harada (Kanagawa Institute of Technology), Riku Kiriya (Kanagawa Institute of Technology), Masaaki Hiroe (Kobayasi Institute of Physical Research), Hideyuki Hasegawa (Toyama University), Kentaro Nakamura (Tokyo Institute of Technology), Syo Kanzaki (Keio University) 4 3 1 1
- [12.9.700](#) **Investigation on VHF sounds in the ears project Japan - part2**
Masaaki Hiroe (Kobayasi Institute of Physical Research), Rikuo Harada (Kanagawa Institute of Technology), Riku Kiriya (Kanagawa Institute of Technology), Hideyuki Hasegawa (Toyama University), Nakamura Kentaro (Tokyo Institute of Technology), Ueda Mari (Kanagawa Institute of Technology) 4 3 1 6

Area 13 Underwater & Maritime Acoustics

Session 1. Advances in Underwater & Maritime Acoustics

- [13.1.210](#) **Underwater target classification based on probabilistic neural network**
Zixu Wen (Southeast University), Ning Han (Southeast University) 4 3 2 4

Session 2. Ships and Offshore Structures Noise

- [13.2.941](#) **The control and test of underwater radiated noise of a scientific research ship with VSP**
Mingwei Fan (China Ship Development and Design Center), Qiang Wei (China Ship Development and Design Center), Zhiqiang Xie (China Ship Development and Design Center), Yong Liu (China Ship Development and Design Center) 4 3 3 2

Session 4. Vibroacoustics and marine applications

[13.4.258](#) ***Study on Recovering the Free and Far field Radiation Acoustic Characteristics of An Underwater Box***
Wei Lin (Dalian University of Technology), Sheng Li (Dalian University of Technology), Chengpeng Liu (China Classification Society Guangzhou Branch) 4 3 4 0

[13.4.915](#) ***Effects of perturbation frequency on nonlinear vibration isolation system***
Wanjing Dong (Huazhong Agricultural University) 4 3 4 9

Session 6. Underwater noise control

[13.6.138](#) ***Numerical Investigation of The Submarine Sail With Different Aspect Ratio For Acoustic Target Strength Reduction***
Yangbin Sun (China Ship Development and Design Center) 4 3 5 6

[13.6.219](#) ***Experimental investigations on the hydraulic leveraged dynamic anti-resonance vibration isolator under base excitation***
Ningyuan Duan (Shanghai Jiao Tong University), Haiting Yu (Shanghai Jiao Tong University), Xinxing Ma (Shanghai Jiao Tong University), Zhenguo Zhang (Shanghai Jiao Tong University), Hongxing Hua (Shanghai Jiao Tong University) 4 3 6 3

[13.6.710](#) ***Boundary detection of nonlinear chaotic vibration responses***
Wanjing Dong (Huazhong Agricultural University), Kun Xie (Huazhong Agricultural University), Wencheng Li (Huazhong Agricultural University) 4 3 7 2

Session 7. Underwater flow induced noise

[13.7.158](#) ***Unsteady hydrodynamics and vibro-acoustic responses for a pump-jet propelled suboff under distributed pulsation force***
Shuaikang Shi (Shanghai Jiao Tong University), Yuxi Chen (Marine Design and Research Institute of China), Zhiwei Su (Shanghai Jiao Tong University), Xiuchang Huang (Shanghai Jiao Tong University), Hongxing Hua (Shanghai Jiao Tong University) 4 3 8 0

[13.7.376](#) ***Numerical Prediction of Tip Vortex Cavitation Noise Of Underwater Propellers Using RANS Solver, Bubble Dynamics And Acoustic Analogy***
Garam Ku (Pusan National University), Cheolung Cheong (Pusan National University), Hanshin Seol (Korea Research Institute of Ships and Ocean Engineering), Ilryong Park (Dong-Eui University) 4 3 9 0

[13.7.397](#) ***The method to suppress the hydrodynamic noise from a sail hull model by the suction technique***
Yongwei Liu (Harbin Engineering University), Shiting Fei (Harbin Engineering University), Dejiang Shang (Harbin Engineering University) 4 3 9 6

[13.7.400](#) ***The method to suppress the hydrodynamic noise from a sail hull model by the dimples***
Shiting Fei (Harbin Engineering University), Yongwei Liu (Harbin Engineering University), Dejiang Shang (Harbin Engineering University) 4 4 0 8

[13.7.596](#) ***Numerical studies on surface pressure fluctuations of the DARPA Suboff model***
Hao Tan (Harbin Engineering University), Xiaochen Zhao (Harbin Engineering University), Wenping Zhang (Harbin Engineering University) 4 4 2 0

[13.7.913](#) ***Numerical investigation of cavitation noise of the submarine propellers using DDES technique and quadrupole corrected FW-H equation***
Cho, Junghoon (Pusan National University), Ku, Garam (Pusan National University), Cheong, Cheolung (Pusan National University), Seol, Hanshin (Korea Research Institute of Ships & Ocean Engineering) 4 4 2 8

Session 8. Modelling, measurement and mitigation

- [13_8_162](#) ***The effects of the sail on acoustic scattering characteristics of the underwater structure***
Xirui Peng (China Ship Development and Design Center) 4 4 3 4
- [13_8_183](#) ***Vibration control of a fluid-conveying pipes using receptance method***
Lin Zhang (Huazhong University of Science and Technology), Tao Zhang (Huazhong University of Science and Technology), Tianyun Li (Huazhong University of Science and Technology), Ouyang Huajiang (University of Liverpool) 4 4 4 1
- [13_8_331](#) ***Estimation of underwater sound power using linear array beamforming***
Shu Yue (Northwestern Polytechnical University), Hong Hou (Northwestern Polytechnical University) 4 4 4 8
- [13_8_368](#) ***A multi-task sparse feature learning method for underwater acoustic target recognition based on two uniform linear hydrophone arrays***
Xiangyang Zeng (Northwestern Polytechnical University), Chenxiang Lu (Northwestern Polytechnical University), Yao Li (Systems Engineering Research Institute of CSSC) 4 4 5 6
- [13_8_440](#) ***Combined separation and classification of two types of coexistent ship radiated noise based on trained ideal ratio mask and cepstral features***
Chenxiang Lu (Northwestern Polytechnical University), Xiangyang Zeng (Northwestern Polytechnical University) 4 4 6 4

Session 9. Underwater Acoustic Communication

- [13_9_83](#) ***Accurate Carrier Frequency Estimation of Phase Coded Signals Using Frequency Shifting and Measurement of Spectrum Leakage in Fourier Interpolation Algorithms***
Yangjie Wei (Southeast University), Shiliang Fang (Southeast University), Xiaoyan Wang (Southeast University), Chuanqi Zhu (Southeast University) 4 4 7 1
- [13_9_703](#) ***Underwater acoustic vector communication using particle velocities in shallow water***
Kang-Hoon Choi (Hanyang University), Jee Woong Choi (Hanyang University), Sunhyo Kim (Korea Institute of Ocean Science and Technology), Peter H. Dahl (University of Washington, Seattle) 4 4 8 3

Session 10. Underwater Bio-Acoustics

- [13_10_441](#) ***Properties of echolocation click sound of narrow-ridged finless porpoise (neophocaena asiaorientalis) inhabiting the west coast of Korea***
Young Geul Yoon (Hanyang University), Dong-Gyun Han (Hanyang University), Jee Woong Choi (Hanyang University), Seulgi Choi (National Institute of Fisheries Science), Hawsun Sohn (National Institute of Fisheries Science) 4 4 8 7

Area 14 Vehicles Noise & Vibration

Session 1. Advances in Vehicles Noise & Vibration

- [14_1_82](#) ***A Case Study on Road Noise Sound Characteristic Identification and Improvement in a Sedan Based on Binaural Transfer Path Analysis***
JianXin Dong (Beijing Automotive Co., Ltd R&D Center), Lie Wu2 (Beijing Automotive Co., Ltd R&D Center), Ming Liu (Beijing Automotive Co., Ltd R&D Center), HuiMin Zhuang (Beijing Automotive Co., Ltd R&D Center), Chao Ma (Beijing Automotive Co., Ltd R&D Center), ChuanXu Kong (China Automotive Technology and Research Center Co., Ltd.) 4 4 9 1
- [14_1_145](#) ***Stochastic Simulation Methodology – Accounting Variability Of Key Parameters Affecting Squeak And Rattle Performance***
Parmar Azan M (Altair Engineering), Chandan Ravi B R (Altair Engineering), Hari Krishna Mungara (Altair Engineering) 4 5 0 8

- [14.1.156](#) ***Advancements in assessment & mathematical optimization for squeak phenomena***
Chandan Ravi B R (Altair engineering India Pvt Ltd), K V Manoj (Altair engineering India Pvt Ltd), Hari Krishna Mungara (Altair engineering India Pvt Ltd) 4 5 2 1
- [14.1.187](#) ***Frequency response function-based transfer path analysis using virtual parameters***
Jun Gu Kim (Seoul National University), Yeon June Kang (Seoul National University), Hansol Park (Seoul National University), Kyoung-Uk Nam (Hyundai Motor Group) 4 5 3 1
- [14.1.297](#) ***A Study on the Total Backlash Influence Factors of the Automatic Transmissions for the Vehicle Tip-In Shock***
Hyun Ku Lee (Hyundai Motor Company), Moo Suk Kim (Hyundai Motor Company), Sa Man Hong (Hyundai Motor Company), Youn Soo Im (Hyundai Motor Company), Dong Kyu Yoo (Hyundai Motor Company), Geum Muk Chae (Hyundai Motor Company) 4 5 3 9
- [14.1.311](#) ***A Study for the Multi-Plate Clutches Noise Evaluation Method in the Torque Converter***
Sa Man Hong (Hyundai Motor Company), Hyun Ku Lee (Hyundai Motor Company), Moo Suk Kim (Hyundai Motor Company), Youn Soo Im (Hyundai Motor Company), Dong Kyu Yoo (Hyundai Motor Company), Geum Muk Chae (Hyundai Motor Company) 4 5 4 8
- [14.1.454](#) ***VIBRATION CHARACTERISTICS OF TWO DAMPER IN CV JOINT DRIVE SHAFT***
Kang Hyun An (Inha University), Sang Kwon Lee (Inha University), Jeong Hyeon Cho (Hyundai Wia), Jun Baek Jeong (Hyundai Wia) 4 5 5 7
- [14.1.589](#) ***NVH analysis of fuel cell with consideration of driving maneuvers in FCV***
Zequn Nan (IPEK – Institute of Product Engineering at Karlsruhe Institute of Technology (KIT)), Matthias Behrendt (IPEK – Institute of Product Engineering at Karlsruhe Institute of Technology (KIT)), Manuel Petersen (IPEK – Institute of Product Engineering at Karlsruhe Institute of Technology (KIT)), Albert Albers (IPEK – Institute of Product Engineering at Karlsruhe Institute of Technology (KIT)) 4 5 6 2
- [14.1.695](#) ***Advanced Diagnostics Simulations Approach For Random Response Analysis To Analyze Road NVH Characteristics***
Azan Parmar M (Altair Engineering), Hari Krishna Mungara (Altair Engineering), Atul R Miskin (Altair Engineering), Uma Maheswar Rao Himakuntla (Altair Engineering) 4 5 7 4
- [14.1.696](#) ***Stochastic Simulations For Prediction Of NVH Performance And Robustness Due To Variability In Wheel/Tire Imbalance Forces***
Azan Parmar M (Altair Engineering), Atul R Miskin (Altair Engineering), Uma Maheswar Rao Himakuntla (Altair Engineering), Hari Krishna Mungara (Altair Engineering) 4 5 8 7

Session 2. Acoustics of Electric Vehicles

- [14.2.386](#) ***Simulation Diagnostics Approach For Source Identification And Quantification In NVH Development Of Electric Motors***
Atul R Miskin (Altair Engineering), Uma Maheswar Rao Himakuntla (Altair Engineering), Kudumbur Kiran Achary (Altair Engineering), Parmar Azan M (Altair Engineering), Hari Krishna Mungara (Altair Engineering), Raghavendra Rao (Altair Engineering) 4 6 0 0
- [14.2.418](#) ***Acoustic encapsulation of electric motors and gearboxes using a combination of FEM-BEM-PEM approaches***
Marc Anciant (ESI Group), Lassen Mebarek (ESI Group), Willem Van Hal (ESI Software GmbH), Massimiliano Calloni (ESI Group), Kamel Amichi (ESI Group) 4 6 1 3
- [14.2.646](#) ***Interactive Sound Quality Evaluation of an EV Virtual Prototype***
Rabah Hadjit (Hottinger Brüel & Kjær), Travis Histed (Romax Technology Inc.), Sanket Joshi (Romax Technology Inc.), Alexis Talbot (Hexagon MSC Software), Jeremy Charbonneau (Hexagon MSC Software) 4 6 2 8

Session 3. Aerodynamics and Flow Induced Vehicle Noise

- [14_3_570](#) ***Prediction and analysis of vehicle interior noise according to incompressible and compressible external surface pressure fluctuations due to external flow***
Lee, Songjune (Pusan National University), Cheong, Cheolung (Pusan National University) 4 6 3 8
- [14_3_886](#) ***Numerical investigation into generation mechanism of whistle sound due to narrow folding-gap flow of automobile side-mirror***
Kwon-Gi Lee (Pusan National University), Song-June Lee (Pusan National University), Sang-Heon Lee (Pusan National University), Cheolung Cheong (Sung-Nam Rim (Hyundai Motor Company)), Seong-Ryong Shin (Hyundai Motor Company) 4 6 4 5

Session 4. Body Structure NVH

- [14_4_168](#) ***Engine mount response improvement using hybrid modeling***
Seong ho Kang (Seoul National University), Yeon June Kang (Seoul National University), Seoung jun Kim (Hyundai Motor Group), Hyung jun Ju (Hyundai Motor Group) 4 6 5 7
- [14_4_170](#) ***Moment - based experimental method for the improvement of transfer path analysis accuracy***
Kyoung Jun Hong (Seoul National University), Yeon June Kang (Seoul National University), Kyoung Uk Nam (Hyundai Motor Group) 4 6 6 6
- [14_4_175](#) ***A simplified model for the vibration analysis of an elastically coupled system based on the wave propagation approach***
Hee Soo Pyo (Seoul National University), Hansol Park (Seoul National University), Yeon June Kang (Seoul National University) 4 6 7 5
- [14_4_221](#) ***Study for Dynamic Characteristics of Antenna Gimbal Stabilization System on the tracked vehicle***
Sock Kyu Lee (LIGNex1 Co., Ltd.), Kwang Sik Jung (LIGNex1 Co., Ltd.), Eui Bong Jeong (LIGNex1 Co., Ltd.) 4 6 8 7
- [14_4_285](#) ***Numerical analysis of influencing factors on von-Mises stress of broadband random vibration based on finite element method***
Changwu Wang (Nanjing Research Institution of Electronic Technology), Fei Xue (Nanjing Research Institution of Electronic Technology) 4 6 9 3
- [14_4_301](#) ***A Study on Natural Frequency Characteristic of the Side Member as a Vibration Transfer Path of the Vehicle***
Moo Suk Kim (Hyundai Motor Company), Hyun Ku Lee (Hyundai Motor Company), Sa Man Hong (Hyundai Motor Company), Youn Soo Im (Hyundai Motor Company), Jong Bum Lee (Hyundai Motor Company), Dong Kyu Yoo (Hyundai Motor Company), Geum Muk Chae (Hyundai Motor Company) 4 7 0 5
- [14_4_344](#) ***An Analysis of Road Impact Booming on a FR Vehicle using Transfer Path Analysis and Experimental Test Models***
Moon Seok Lee (Hyundai), Heung Gi Kim (Hyundai), Hyun-Uk Kim (Hyundai), Dong Hyun Kim (Hyundai) 4 7 1 2
- [14_4_612](#) ***Modal Analysis of a Single-Lap Joint under Dynamic Loading***
Sanjeev Shaan (Loughborough University), Heaton Niall L. (Loughborough University), O'Boy Dan J. (Loughborough University), Cunningham Paul R. (Loughborough University), Fisher Steve (Jaguar Land Rover Limited) 4 7 2 0
- [14_4_897](#) ***The critical nonlinear characteristics near stable boundary of the air spring suspension system***
Wanjing Dong (Huazhong Agricultural University) 4 7 3 0

Session 5. Exterior Noise in Vehicles

- [14_5_536](#) ***A study on vehicle exterior noise evaluation method considering building acoustic performance and sound quality***
Masao Ishihama (Kanagawa University) 4 7 3 8
- [14_5_716](#) ***A semi-circular microphone array configuration for indoor pass-by noise sound synthesis***
Mansour Alkmim (Siemens Digital Industries Software), Jacques Cuenca (Siemens Digital Industries Software), Laurent De Ryck (Siemens Digital Industries Software), Karl Janssens (Siemens Digital Industries Software), Nikolaos Kournoutos (University of Southampton Faculty of Physical Sciences and Engineering), Athanasios Papaioannou (University of Southampton Faculty of Physical Sciences and Engineering), Jordan Cheer (University of Southampton Faculty of Physical Sciences and Engineering), Wim Desmet (KU Leuven, Department of Mechanical Engineering, division LMSD) 4 7 4 9

Session 6. Interior Noise in Vehicles

- [14_6_133](#) ***Estimation of rattle noise from an electric power steering system***
Yoshihiro Sato (Core Technology R&D Center, NSK Ltd.), Nobuyuki Iwatsuki (Tokyo institute of Technology) 4 7 5 6
- [14_6_171](#) ***Panel contribution analysis of vehicle components using statistical energy analysis model***
Ju Hyun Jeon (Seoul National University), Yeon June Kang (Seoul National University), Chi Sung Oh (Hyundai Motor Group), Kang Duck Ih (Hyundai Motor Group) 4 7 6 2
- [14_6_222](#) ***Evaluation method for the development of passenger cabin shell-structure body components with regard to acoustically efficient lightweight design***
Meike Kollmannthaler (Technische Universität Braunschweig), Sabine C. Langer (Technische Universität Braunschweig) 4 7 7 0
- [14_6_685](#) ***Interior Noise Effect Evaluation by Driving Condition***
Yoon-sang Yang (Daehan Solution Co., LTD.), Hyung-kyu Mo (Daehan Solution Co., LTD.), Seung-Lee (Daehan Solution Co., LTD.) 4 7 8 2

Session 7. Tire-Pavements Noise

- [14_7_199](#) ***Profile effect on cavity noise reduction in FE simulation***
HyunUk Kim (Hankook Tire & Technology), YoungHun Kim (Hankook Tire & Technology) 4 7 8 7
- [14_7_216](#) ***Numerical Simulation of Close-Proximity (CPX) Tyre/Road Noise Measurement Trailer Enclosure Acoustics Design***
Dong Fang LI (The Hong Kong Polytechnic University), Randolph Chi Kin LEUNG (The Hong Kong Polytechnic University), Horus Yui Ho CHAN (The Hong Kong Polytechnic University), Wing Tat HUNG (The Hong Kong Polytechnic University) 4 7 9 5
- [14_7_277](#) ***Design and analysis of an acoustic structure to restrain tire cavity resonance noise***
Zongnan Wang (Beihang University), Xiandong Liu (Beihang University), Yingchun Shan (Beihang University), Tian He (Beihang University) 4 8 1 1
- [14_7_292](#) ***Mechanism and simulation of reducing tire cavity of reducing tire cavity resonance noise by using the special-shaped inner profile tire***
Qizhang Feng (Beihang University), Xiandong Liu (Beihang University), Zongnan Wang (Beihang University), Yingchun Shan (Beihang University), Wei Zhao (Beihang University) 4 8 2 1
- [14_7_413](#) ***Acoustic optimization of asphalts using Acoustic Void Content Analysis AVCA on drill cores***
Felix Schlatter (Grolimund + Partner AG), Erik Bühlmann (Grolimund + Partner AG) 4 8 3 3

- [14.7.416](#) ***Can CPX method evaluate truck tyre noise ? A first approach using standardized light truck test tyre***
Joël Lelong (Univ Gustave Eiffel), Fabienne Anfosso Lédée (Univ Gustave Eiffel) 4 8 4 5
- [14.7.427](#) ***Investigation of the Split in the Fundamental Air-Cavity Mode of Loaded Tires***
Won Hong Choi (Ray W. Herrick Laboratories School of Mechanical Engineering Purdue University), J. Stuart Bolton (Ray W. Herrick Laboratories School of Mechanical Engineering Purdue University) 4 8 5 5
- [14.7.457](#) ***Prediction of tyre pattern noise based on artificial neural network***
Hwajin Lee (Inha University), SangKwon Lee (Inha University), YoungSam Yoon (Hyundai Motor Company), SungWook Hwang (Nexen Tire Company), SungDae Kim (Hyundai Motor Company), KiHo Yum (Hyundai Motor Company) 4 8 6 7
- [14.7.616](#) ***Long-term study of the effectiveness of rubberized asphalt in reducing tire-pavement noise***
Paul R. Donavan (Illingworth & Rodkin, Inc.), Carrie J. Janello (Illingworth & Rodkin, Inc.) 4 8 7 3
- [14.7.637](#) ***The balance between practicality and uncertainty in the SPB method: How many heavy vehicles do we need to measure?***
Luc Goubert (Belgian Road Research Centre), Ulf Sandberg (Swedish National Road and Transport Research Institute (VTI)) 4 8 8 5
- [14.7.648](#) ***Traveling wave mode based modal analysis method developed for vibration study of circular structures such as automotive tires***
T S Indraneel (University of Cincinnati), Jay Kim (University of Cincinnati) 4 8 9 4
- [14.7.695](#) ***Advanced Diagnostics Simulations Approach For Random Response Analysis To Analyse Road NVH Characteristics***
Azan Parmar M (Altair Engineering), Hari Krishna Mungara (Altair Engineering), Atul R Miskin (Altair Engineering), Uma Maheswar Rao Himakuntla (Altair Engineering) 4 9 0 3
- [14.7.749](#) ***Evaluation of Noise Reduction of Korean Low-Noise Pavements – Part 2: Issues regarding the application of the CPX method***
Ulf Sandberg (Swedish National Road and Transport Research Institute (VTI)), Hyunjin Kim (Poinix Inc.) 4 9 1 5
- [14.7.806](#) ***Evaluation of Noise Reduction of Korean Low-Noise Pavements – Part 1: Measurements and Results of the CPX method***
Hyun Chae (Chung-Ang University), Jae-Eung Lee (Chung-Ang University), Byungchae Kim (Poinix Inc.), Gyeongwon Chae (Poinix Inc.), Hyunjin Kim (Poinix Inc.), Weesang Hwang (Poinix Inc.) 4 9 2 7

Session 8. Vehicle Active Noise Control

- [14.8.167](#) ***A study on optimal selection of reference accelerometers for active road noise control***
Tongmin Kim (Seoul National University), Chemali Elias (Seoul National University), Yeon June Kang (Seoul National University), Munhwan Cho (HYUNDAI MOTOR GROUP), Chisung Oh (HYUNDAI MOTOR GROUP), Joongkwan Kim (HYUNDAI MOTOR GROUP) 4 9 3 7
- [14.8.193](#) ***A comparison of the noise reduction performance of two virtual sensing method***
Jin Zhang (ISVR, University of Southampton), Stephen Elliott (ISVR, University of Southampton), Jordan Cheer (ISVR, University of Southampton) 4 9 4 5
- [14.8.720](#) ***Application of local active control for HVAC system noise in an electric vehicle***
Yuri Adson Ribeiro Silva (NIO Co. Ltd.), Jianfeng He (NIO Co. Ltd.), Jinxiang Song (NIO Co. Ltd.), Oren Kniaz (Silentium Ltd.) 4 9 5 5
- [14.8.1022](#) ***Active road noise control in a car cabin using structure-borne sound***
Young-Sup Lee (Incheon National University), Eunsuk Yoo (Namyang R&D Center), Chasub Lim (Namyang R&D Center), Seokhoon Ryu (Incheon National University) 4 9 6 4

Session 10. Sound Design of E-Vehicles & next-generation vehicles

[14_10_564](#) ***Influence of information cognition by separation of visual and auditory information positions: A case of information presentation for a driver in a vehicle cockpit***

Kiichi NAKA (Kyushu University), Katsuya YAMAUCHI (Kyushu University), Nobuaki TANOUE (Pioneer Corporation), Ayumu KAWATA (Pioneer Corporation) 4 9 6 8

[14_10_632](#) ***Sound Quality of interior Active Sound enhancement***

Jeroen Lanslots (Siemens Digital Industries Software), Laurent De Ryck (Siemens Digital Industries Software), Agnieszka Oltarzewska (Siemens Digital Industries Software), Markus Bodden (Neosonic), Torsten Belschner (Neosonic) 4 9 7 4

[14_10_647](#) ***Engineering Process for the Development, Validation and Homologation of the Acoustic Vehicle Alerting System for Electric Vehicles***

Rabah Hadjit (Hottinger Brüel & Kjær), Graham Franks (Hottinger Brüel & Kjær) 4 9 8 6

[14_10_756](#) ***Adjustment of soft sounds in cars for multisensory harmony***

Michael Haverkamp (Ford Werke GmbH) 4 9 9 3

[14_10_876](#) ***The Noise Issues of Urban Air Mobility Industries and The Research Activities of KARI***

Kihoon Chung (Korea Aerospace Research Institute), Seongyong Wie (Korea Aerospace Research Institute), Changjeon Hwang (Korea Aerospace Research Institute) 5 0 0 5

Area 15 Railroad Noise

Session 3. Wheel/rail noise

[15_3_513](#) ***Analysis of Perforated Sound Absorptive Structure of Trackside Sound Barrier***

Xinwen Yang (Tongji University), Dingwei Qian (Tongji University), Zhao Zhang (Tongji University), Zhijun Zhao (Tongji University) 5 0 1 3

Session 4. Structure-borne Noise, Squeal Noise

[15_4_381](#) ***Experimental study on curve squeal noise with a running train***

Yasuhiro SHIMIZU (Railway Technical Research Institute), Takeshi SUEKI (Railway Technical Research Institute), Tsugutoshi KAWAGUCHI (Railway Technical Research Institute), Toshiki KITAGAWA (Railway Technical Research Institute), Hiroyuki KANEMOTO (Railway Technical Research Institute), Masahito KUZUTA (Railway Technical Research Institute) 5 0 2 1

[15_4_435](#) ***A numerical model to study the effects of low temperatures on bridge-borne noise in railways***

Liuchong Wang (Southwest Jiaotong University), Ping Wang (Southwest Jiaotong University), Caiyou Zhao (Southwest Jiaotong University) 5 0 3 2

Session 5. Ground-borne Noise

[15_5_781](#) ***Uncertainty assessment of a model to predict the vibration induced by train traffic in tunnels***

Eduardo Latorre Iglesias (Universidad Politécnica de Madrid), Robert Arcos (Universitat Politècnica de Catalunya) 5 0 4 2

[15_5_782](#) ***A coupled 2.5D FEM-SBM methodology for underground railway-induced ground-borne vibration problems***

Hassan Liravi (Universitat Politècnica de Catalunya (UPC)), Robert Arcos (Universitat Politècnica de Catalunya (UPC)), Arnau Clot (Universitat Politècnica de Catalunya (UPC)) 5 0 5 0

[15_5_793](#) ***VIBWAY: A prediction toolbox for railway induced ground-borne vibrations***

Behshad Noori (AV Ingenieros), Robert Arcos (Politécnica de Catalunya (UPC)), Arnau Clot (Politécnica de Catalunya (UPC)), Joan Cardona (AV Ingenieros), Jordi Romeu (Politécnica de Catalunya (UPC)) 5 0 5 8

[15_5_931](#) ***Efficiency of isolated concrete blocks applied in railways slab tracks as mitigation measures for railway-induced ground-borne vibration in tunnels***

Robert Arcos (Politécnica de Catalunya), Hassan Liravi (Politécnica de Catalunya), Dhananjay Ghangale (Politécnica de Catalunya), Jordi Romeu (Politécnica de Catalunya) 5066

Session 6. High Speed Train Noise

[15_6_294](#) ***Sound sources and measures of aerodynamic noise generated from bogies of Shinkansen train***

Toki Uda (Railway Technical Research Institute), Mariko Akutsu (Railway Technical Research Institute), Toshiki Kitagawa (Railway Technical Research Institute) 5072

[15_6_336](#) ***Study on pressure fluctuation from Shinkansen vehicles in open section***

Mariko Akutsu (Railway Technical Research Institute), Toki Uda (Railway Technical Research Institute), Toshiki Kitagawa (Railway Technical Research Institute), Yusuke Wakabayashi (East Japan Railway Company) 5081

Session 7. Interior Noise, Sound Barrier

[15_7_326](#) ***Determination of in-situ sound insulation for interior noise prediction in railway vehicles***

Hyung-Suk Jang (Hyundai-Rotem Company), Jaehwan Kim (Hyundai-Rotem Company), Jonghwan Kim (Hyundai-Rotem Company), Byunghee Kim (Hyundai-Rotem Company) 5090

[15_7_680](#) ***Sound transmission optimisation for windows and its influence on interior noise of train in tunnel reverberation sound field***

Dan Yao (Southwest Jiaotong University), Jie Zhang (Sichuan University), Xinbiao Xiao (Southwest Jiaotong University), Xiaozhen Sheng (Shanghai University of Engineering Science) 5095

[15_7_993](#) ***Analysis of interior noise of metro vehicles in tunnel***

Qingsong Feng (East China Jiaotong University), Hao Zhou (East China Jiaotong University), Yanming Chen (East China Jiaotong University), Ling Zhang (East China Jiaotong University), Xinwei Luo (Guangzhou Metro Design and Research Institute Co.Ltd) 5107

Session 8. Prediction, Measurements, Monitoring

[15_8_358](#) ***Optimization of the balancing weight and the rubber mount of air compressor for urban rapid transit***

Uyeup Park (Hongik University), Jun-Heon Lee (Hongik University), Kwanju Kim (Hongik University) 5118

Area 16 Transportation Noise

Session 1. Advances in Transportation Noise

[16_1_108](#) ***Experimental Assessment of Noise in Public Transportation System in the Metropolitan Region of São Paulo on Business Trips***

Moura, Luís Renato (Instituto de Pesquisas Tecnológicas de São Paulo), Akutsu, Maria (Instituto de Pesquisas Tecnológicas de São Paulo), Aquilino, Marcelo de Mello (Instituto de Pesquisas Tecnológicas de São Paulo) 5125

Session 2. Road traffic noise

[16_2_349](#) ***Study on Road Traffic Noise Reduction Method in Apartment***

Kyoung Min Kim (Korea Environment Institute), Young Min Park (Korea Environment Institute), Sung Yong Park (Korea Land & Housing Corporation), Yeong-Sik Kang (Korea Land & Housing Corporation), Won-Hyung Park (Korea Land & Housing Corporation), Tae Ryaug Choung (Noise Vibration Team Corporation), Hyung-Joon Chun (Noise Vibration Team Corporation) 5137

[16_2_409](#) ***Large-scale application of low-noise pavements and their integration in the planning, construction and maintenance process of road infrastructures***

Tina Saurer (Grolimund + Partner AG), Erik Bühlmann (Grolimund + Partner AG), Dejan Milo (Kanton Aargau) 5141

- [16.2.779](#) **Road traffic noise levels before and on Covid-19 Pandemic in Belo Horizonte City, Minas Gerais, Brazil**
Victor Mourthé Valadares (Universidade Federal de Minas Gerais), Luiza Silva Metzker (Federal University of Ouro Preto) 5153
- [16.2.836](#) **Microphone position relative to building façades for in situ measurements**
David Montes González (Universidad de Extremadura), Juan Miguel Barrigón Morillas (Universidad de Extremadura), Guillermo Rey Gozalo (Universidad de Extremadura), Pedro Atanasio Moraga (Universidad de Extremadura), Luís Godinho (Universidade de Coimbra) 5165
- [16.2.1008](#) **Comparing CRTN and CNOSSOS-EU calculation methods in the Irish context**
Jon Paul Faulkner (University College Dublin), Enda Murphy (University College Dublin), Henry Rice (Trinity College Dublin), John Kennedy (Trinity College Dublin) 5173

Session 4. Traffic Noise and Barriers

- [16.4.468](#) **SOPRANOISE: EU Research on new techniques to characterize Noise Barriers acoustic performances**
Jean-Pierre Clairbois (A-Tech / Acoustic Technologies), Massimo Garai (University of Bologna), Wolfram Bartolomeaus (Federal Highway Research Institute), Michael Chudalla (Federal Highway Research Institute), Fabio Strigari (Federal Highway Research Institute), Marco Conter (AIT Austrian Institute of Technology), Andreas Fuchs (AIT Austrian Institute of Technology), Christophe Nicodeme (ERF) 5179

Area 17 Vibro-Acoustics

Session 1. Vibro-Acoustics: General

- [17.1.102](#) **Wave motion in preloaded media. Analytical continuation of dispersion diagram**
Andrey Korolkov (M.V.Lomonosov Moscow State University), Andrey Shanin (M.V.Lomonosov Moscow State University) 5188
- [17.1.103](#) **Asymptotical study of two-layered discrete waveguide with a weak coupling**
Andrey Korolkov (M.V.Lomonosov Moscow State University), Andrey Shanin (M.V.Lomonosov Moscow State University), Kseniia Kniazeva (M.V.Lomonosov Moscow State University) 5196
- [17.1.203](#) **Virtual experimental study on sound prediction in multiple connected spaces by surface coupling approach**
Liangfen DU (National University of Singapore), Goran Pavić (Institut National des Sciences Appliquées de Lyon), Siu-Kit Lau (National University of Singapore), Siew Eang Lee (National University of Singapore) 5208
- [17.1.232](#) **Free vibration analysis of coupled conical-cylindrical shells based on the dynamic stiffness method**
Linghua Tian (Harbin Engineering University), Guoyong Jin (Harbin Engineering University), Tianguai Ye (Harbin Engineering University) 5218
- [17.1.279](#) **Estimation of the force and the noise generated by the random impact**
Yuya Nagashima (Tokyo institute of technology), Ikuma Ikeda (Tokyo institute of technology), Nobuyuki Iwatsuki (Tokyo institute of technology) 5228
- [17.1.300](#) **The presence of Helmholtz resonance modulates the modes of circular membrane**
Kajornpop Toboonchuay (King Mongkut's Institute of Technology Ladkrabang), Munhum Park (King Mongkut's Institute of Technology Ladkrabang) 5240
- [17.1.345](#) **A low-noise bio-inspired piezoelectric MEMS directional microphone for noise monitoring**
Ashiqur Rahman (Korea University of Technology and Education), Byungki Kim (Korea University of Technology and Education) 5246
- [17.1.681](#) **Waveguide for shortening the minimum detectable distance of a proximal ultrasonic sensor**
Jae Hyuck An (Soongsil University), In Jae Heo (Soongsil University), Sung Gu Lim (Soongsil University), Jin Oh Kim (Soongsil University) 5251

- [17_1_770](#) **Acoustic radiation from flexible cylindrical shell structure of a vibration isolation system**
Lu Dai (Wuhan Second Ship Des. & Res. Ins.), Xingsheng Lao (Wuhan Second Ship Des. & Res. Ins.), Jun Wu (Wuhan Second Ship Des. & Res. Ins.) 5255
- [17_1_815](#) **Dynamic and noise characteristics of the helical gear system by helix angles using the transfer matrix**
Chan IL Park (Gangneung-Wonju National University) 5261
- [17_1_842](#) **Fantastic Vibroacoustic Resources and Where to Find Them**
Stephen A. Hambric (Penn State University) 5265
- [17_1_884](#) **Dynamic correlation of diesel engine exhaust system containing rubber hose using component mode synthesis**
Taeyoung Yoon (Korea University), Seongho Yoon (Korea University), Sungsoo Na (Korea University) 5275
- [17_1_976](#) **Determination of Acoustic Blocked Sources in a Ventilation Duct**
Keyu Chen (BorgWarner), D. W. Herrin (University of Kentucky) 5283

Session 2. Acoustic Black Holes

- [17_2_181](#) **Research of broadband energy harvesting based on two-dimensional acoustic black hole**
Gang Yao (Nanjing University of Aeronautics & Astronautics), Hongli Ji (Nanjing University of Aeronautics & Astronautics), Jinhao Qiu (Nanjing University of Aeronautics & Astronautics) 5288
- [17_2_214](#) **An Alternative Acoustic Black Hole Thickness Profile For Enhanced Structural Damping in a Plate**
Li Ma (The Hong Kong Polytechnic University), Li Cheng (The Hong Kong Polytechnic University) 5296
- [17_2_267](#) **Study on energy propagation and noise radiation in plates containing the array of acoustic black holes**
Xiandong Liu (Beihang University), Jiakai Yuan (Beihang University), Haoming Liang (Beihang University), Zongnan Wang (Beihang University) 5308
- [17_2_398](#) **On the potential of a functionally graded acoustic black hole using multi-material additive manufacturing**
Jordan Cheer (University of Southampton), Steve Daley (University of Southampton) 5318
- [17_2_474](#) **Wave-based analysis on cut-on frequency of curvilinear acoustic black holes**
Jae Yeon Lee (Korea Advanced Institute of Science and Technology), Wonju jeon (Korea Advance Institute of Science and Technology) 5325
- [17_2_522](#) **Flexural band gaps in periodic plates with 2D Acoustic black holes**
Liling Tang (Northwestern Polytechnical University), Li Cheng (The Hong Kong Polytechnic University), Kean Chen (Northwestern Polytechnical University) 5330
- [17_2_534](#) **Vibration damping of thin structures using surface-attached spiral acoustic black holes**
Seongmin Park (Korea Advanced Institute of Science and Technology), Jae Yeon Lee (Korea Advanced Institute of Science and Technology), Wonju Jeon (Korea Advanced Institute of Science and Technology) 5339
- [17_2_649](#) **Minimisation of the reflection coefficient in a beam using an active acoustic black hole**
Kristian Hook, (University of Southampton), Jordan Cheer (University of Southampton), Stephen Daley (University of Southampton) 5343
- [17_2_750](#) **A Fully Coupled Electromechanical Model for a PZT-coated Acoustic Black Hole Beam**
Linli ZHANG (The Hong Kong Polytechnic University), Li CHENG (The Hong Kong Polytechnic University) 5351
- [17_2_827](#) **A new type of two-dimensional acoustic black hole-based vibration absorber**
Ning Wang (Nanjing University of Aeronautics and Astronautics), Hongli Ji (Nanjing University of Aeronautics and Astronautics), Chao Zhang (Nanjing University of Aeronautics and Astronautics), Yang Lu (Nanjing University of Aeronautics and Astronautics), Jinhao Qiu (Nanjing University of Aeronautics and Astronautics), Li Cheng (Hong Kong Polytechnic University) 5363

Session 3. Application of Vibro-acoustics Methods to Noise Control Treatment

- [17_3_200](#) ***Limits on the use of electromagnetic shunt damper in control sound transmission through double-plate structures***
Qibo Mao (Nanchang HangKong University), Ran Xie (Nanchang HangKong University), Longxuan Hu (Nanchang HangKong University) 5374
- [17_3_287](#) ***Vibration reduction of plate structures via various damping treatment***
Song Yubao (China Aerodynamics Research and Development Center), Chen Shengbing (China Aerodynamics Research and Development Center), Tang Daofeng (China Aerodynamics Research and Development Center), Wang Yong (China Aerodynamics Research and Development Center), Zhang Hao (China Aerodynamics Research and Development Center) 5386
- [17_3_465](#) ***Analysis of the Effect of the Ship Vibration on the On-board Equipment***
Donghun SON (LIGNEX1), Joon KIM (LIGNEX1) 5397
- [17_3_889](#) ***Influence of structural parameters on acoustic performance of shell and tube heat exchanger***
GONG Jingfeng (HUANG Jing Wuhan University of Science and Technology), JIANG Zhiyuan (HUANG Jing Wuhan University of Science and Technology), GUI Chiran (HUANG Jing Wuhan University of Science and Technology), HUANG Jiahao (HUANG Jing Wuhan University of Science and Technology) 5409

Session 4. Holographic Identification of Vibro-acoustics Noise Sources

- [17_4_995](#) ***Analysis of noise emitted by an engine using an innovative 3D microphone positioning system***
Paolo Guidorzi (University of Bologna), Luca Barbaresi (University of Bologna), Massimo Garai (University of Bologna), Monica Giovannucci (Toyota Material Handling Manufacturing Italy Spa), Tommaso Piazza (Toyota Material Handling Manufacturing Italy Spa), Tommaso Peggio (Toyota Material Handling Manufacturing Italy Spa) 5424

Session 5. Inverse Approaches in Vibro-Acoustics

- [17_5_305](#) ***Elimination of bending wave reflection from the boundary of a panel speaker using an actuator array***
Ki-Ho Lee (Korea Advanced Institute of Science and Technology), Jeong-Guon Ih (Korea Advanced Institute of Science and Technology) 5435

Session 6. Numerical Methods in Vibro-acoustics

- [17_6_116](#) ***Isogeometric free vibration analysis of multi-directional functionally graded circular and annular plates with variable thickness***
Saifeng Zhong (Harbin Engineering University), Guoyong Jin (Harbin Engineering University), Donghui Yuan (Harbin Flying College of Airforce), Tianguai Ye (Harbin Engineering University) 5439
- [17_6_494](#) ***Methods for improving the mid-frequency acoustic simulation of a lightly damped plate***
Janos Kun (Szechenyi Istvan University), Marcell Treszkai (Szechenyi Istvan University), Tamas Turcsik (Audi Hungaria Zrt.), Daniel Feszty (Szechenyi Istvan University) 5449
- [17_6_501](#) ***A semi-analytic method for vibro-acoustic responses of functionally graded cylindrical shells***
Kun Xie (Huazhong Agricultural University), Meixia Chen (Huazhong University of Science and Technology), Wencheng Li (Huazhong Agricultural University), Wanjing Dong (Huazhong Agricultural University) 5462
- [17_6_553](#) ***Vibroacoustic characteristics of a damped box-type structure***
Can Nerse (Gwangju Institute of Science and Technology), Semyung Wang (Gwangju Institute of Science and Technology) 5474
- [17_6_792](#) ***Effects of higher-order wave modes on periodic array of circular Helmholtz resonators***
Brenno Victor Lima Campos (University of Campinas), Adriano Mitsuo Goto (University of Campinas), José Maria Campos Dos Santos (University of Campinas) 5482

- [17.6.859](#) ***Experimental validation of a hybrid FE-SEA-experimental model***
Arnau Clot-Razquin (University of Cambridge), Joshua W. R. Meggitt (University of Salford), Robin S. Langley (University of Cambridge), Andy T. Moorhouse (University of Salford), Andrew S. Elliott (University of Salford) 5493
- [17.6.908](#) ***An effective time domain numerical model for the prediction of ground-borne vibrations induced by pile driving***
Tales Vieira Sofiste (University of Coimbra), Luís Manuel Cortesão Godinho (University of Coimbra), Pedro Alves Costa (University of Porto), Delfim Soares Júnior (Federal University of Juiz de Fora) 5505
- [17.6.920](#) ***Numerical modelling of ground-borne noise and vibrations in buildings induced by pile driving***
Aires Colaço (University of Porto), Pedro Alves Costa (University of Porto), Cecília Mont'Alverne Parente (Mota-Engil Engenharia e Construção, S.A.), António Silva Cardoso (University of Porto) 5516

Session 7. Uncertainty and Variability in Vibro-Acoustics

- [17.7.379](#) ***Stochastic dynamic characteristics of a flexible rotor with rubbing fault***
Xinxing Ma (Shanghai Jiao Tong University), Zhenguo Zhang (Shanghai Jiao Tong University), Ningyuan Duan (Shanghai Jiao Tong University), Hongxing Hua (Shanghai Jiao Tong University) 5528
- [17.7.885](#) ***The effect of geometrical variability on the sound absorption performance of meta-poro-elastic systems with small mass inclusions***
Sepide Ahsani (Katholieke Universiteit Leuven), Lucas Van Belle (Katholieke Universiteit Leuven), Claus Claeys (Katholieke Universiteit Leuven), Wim Desmet (Katholieke Universiteit Leuven), Elke Deckers (Katholieke Universiteit Leuven) 5537

Session 8. Vibro-Acoustics Experiments

- [17.8.101](#) ***Transient processes in a thin elastic plate loaded with air***
Mikhail A. Mironov (Andreyev Acoustic Institute), Andrey Korolkov (M.V.Lomonosov Moscow State University), Andrey Shanin (M.V.Lomonosov Moscow State University), Kseniia Kniazeva (M.V.Lomonosov Moscow State University) 5549
- [17.8.495](#) ***Design of acoustic cavity test apparatus for validation of mid-frequency response of a plate-cavity system***
Janos Kun (Szechenyi Istvan University), Tamas Turcsik (Audi Hungaria Zrt.), Daniel Feszty, (Szechenyi Istvan University) 5561
- [17.8.1014](#) ***Experimental study of targeted energy transfer inside 3d acoustic cavity coupled by a nonlinear membrane absorber***
Jianwang Shao (Tongji University), Tao Zeng (Tongji University), Chang Jin (Tongji University), Xian Wu (Tongji University) 5572

Session 9. Vibro-Acoustics of Composite Panels

- [17.9.269](#) ***Research on controllability and observability of a damped plate's complex modes***
Jiang Liu (Dalian University of Technology), Sheng Li (Dalian University of Technology) 5582

Session 10. Nonlinear Vibro-Acoustics

- [17.10.489](#) ***Estimation and study of drum brake noise using a comprehensive nonlinear vibroacoustic model***
Ramesh, Ananthapadmanabhan (Indian Institute of Technology Tirupati), Sundar, Sriram (Indian Institute of Technology Tirupati) 5594
- [17.10.783](#) ***Comparative study of transient forces as a source of structure-borne noise on two and four-wheeler drum brakes***
Akash Yella (Indian Institute of Technology Tirupati), Sriram Sundar (Indian Institute of Technology Tirupati) 5604

Session 11. Vibro-Acoustics of Metamaterials

- [17_11_234](#) ***Programmable metamaterial with digital circuits for isolation of low-frequency vibration transmission***
Kaijun Yi (Beijing Institute of Technology), Gael Matten (FEMTO-ST Institute), Morvan Ouisse (FEMTO-ST Institute), Emeline Sadoulet-Reboul (FEMTO-ST Institute), Manuel Collet (Ecole Centrale de Lyon) 5616
- [17_11_288](#) ***The attenuation performance of elastic waves in three-dimensional periodic lattice***
Jingru Li (Hainan University), Maolong Xia (Jiangsu University of Science and Technology), Yanbing Zhang (Naval University of Engineering) 5620
- [17_11_606](#) ***The modified Plane Wave Expansion method for membrane-type metamaterial equipped with piezoelectric material membrane***
Cong Gao (University of Nottingham Ningbo China), Dunant Halim (University of Nottingham Ningbo China), Xiaosu Yi (University of Nottingham Ningbo China) 5628
- [17_11_610](#) ***Elastic metamaterial with hexagonal prism inclusion for flexural vibration control of a thin plate structure***
Cong Gao (University of Nottingham Ningbo China), Dunant Halim (University of Nottingham Ningbo China), Xiaosu Yi (University of Nottingham Ningbo China) 5637
- [17_11_774](#) ***Evanescence modes in piezomagnetic phononic structures***
Edson Jansen Pedrosa de Miranda Jr. (Federal Institute of Maranhão (IFMA)), José Maria Campos Dos Santos (University of Campinas) 5645
- [17_11_826](#) ***Optimisation based design of a metamaterial foam core sandwich panel with in-core resonators***

- [17_11_1021](#) ***Coherent Super Decay by Membrane-type Tuned Mass Dampers***
Ka Yan Au-Yeung (Hong Kong University of Science and Technology), Zhiyu Yang (Hong Kong University of Science and Technology) 5661

Area 18 Artificial Intelligence for Noise/Vibration Engineering

Session 1. Advances in AI & Noise/Vibration Engineering

- [18_1_990](#) ***Near-field Acoustic Holography analysis with Convolutional Neural Networks***
Marco Olivieri (Politecnico di Milano), Mirco Pezzoli (Politecnico di Milano), Raffaele Malvermi (Politecnico di Milano), Fabio Antonacci (Politecnico di Milano), Augusto Sarti (Politecnico di Milano) 5670
- [18_1_991](#) ***Vibrational modal shape interpolation through convolutional auto encoder***
Chiara Campagnoli (Politecnico di Milano), Mirco Pezzoli (Politecnico di Milano), Fabio Antonacci (Politecnico di Milano), Augusto Sarti (Politecnico di Milano) 5682

Session 2. Vibration-based Diagnosis with AI

- [18_2_211](#) ***Fault Diagnostic of Drain Pump Based on AI SVM***
Sunhwa Park (LG Electronics), Mijeong Shin (LG Electronics), Byoungah Ahn (LG Electronics) 5690
- [18_2_659](#) ***Frequency-driven Convolutional Neural Network for Enhancing Noise-Robustness of Bearing Fault Detection***
Soo Young Lee (The Pohang University of Science and Technology), Yunseob Hwang (The Pohang University of Science and Technology), Seungchul Lee (The Pohang University of Science and Technology), 5698
- [18_2_678](#) ***New Way of Detecting Vibration of Mechanical Systems by Explainable Deep Learning***
Hyunsuk Huh (Pohang University of Science and Technology), Soo Young Lee (The Pohang University of Science and Technology), Seungchul Lee (The Pohang University of Science and Technology), Kyung Ho Sun (Korea Institute of Machinery and Materials), Joon Ha Jung (Korea Institute of Machinery and Materials) 5709

Session 3. AI-based Prediction and Modeling

- [18_3_178](#) ***ISO 8608-based pavement roughness classification with artificial neural networks using suspension vibration measurements***
Yun Seol Park (Seoul National University), Ju Hyun Jeon (Seoul National University), Yeon June Kang (Seoul National University) 5714
- [18_3_615](#) ***Compressed Air Leakage Detection Using Acoustic Emissions with Neural Networks***
David Johnson (Fraunhofer Institute for Digital Media Technology (IDMT)), Jakob Kirner (Fraunhofer Institute for Digital Media Technology), Sascha Grollmisch (Fraunhofer Institute for Digital Media Technology), Judith Liebetrau (Fraunhofer Institute for Digital Media Technology) 5725
- [18_3_660](#) ***Acoustic Source Localization for Single Point Source using Convolutional Neural Network and Weighted Frequency Loss***
Soo Young Lee (The Pohang University of Science and Technology (POSTECH)), Seungchul Lee (The Pohang University of Science and Technology (POSTECH)), Jiho Chang (Korea Research Institute of Standards and Science) 5737
- [18_3_819](#) ***Experimental force reconstruction using a neural network and simulated training data***
Tyler Dare (The Pennsylvania State University) 5745

Session 4. Application of AI in Vibration and Noise Control

- [18_4_321](#) ***Artificial intelligence (AI) speaker made of bio-inspired piezoelectric MEMS directional microphone for voice differentiation in a directional range of 0°-360°***
Ashiqur Rahaman (Korea University of Technology and Education), Byungki Kim (Korea University of Technology and Education) 5752
- [18_4_656](#) ***Attention-Based LSTM Network for Unknown Road Input Estimation and Sensor Selection for Applications in Vehicle Suspension Control***
GyuWon Kim (Pohang University of Science and Technology), Seungchul Lee (Pohang University of Science and Technology) 5757
- [18_4_666](#) ***An overview of deep learning techniques for fault detection using vibration signal***
Bayu Adhi Tama (Pohang University of Science and Technology (POSTECH)), Soo Young Lee (Pohang University of Science and Technology (POSTECH)), Seungchul Lee (Pohang University of Science and Technology (POSTECH)) 5764

Session 6. Analysis and optimization for practical noise and vibration applications

- [18_6_245](#) ***Method for estimating interaural time differences based on cochlea filter bank and EUZ auditory model in noisy environment***
Gyeong-Tae Lee (Korea Advanced Institute of Science and Technology), Yong-Hwa Park (Korea Advanced Institute of Science and Technology) 5770
- [18_6_334](#) ***Effect of Reverberation on Phonemes in Automatic Speech Recognition under Reverberant Environment***
Hyeonuk Nam (Korea Advanced Institute of Science and Technology), Yong-Hwa Park (Korea Advanced Institute of Science and Technology) 5782
- [18_6_404](#) ***Experimental validation of a locally resonant metamaterial plate***
Javier Hernan Vazquez Torre (Technical University of Denmark), Jonas Brunskog (Technical University of Denmark), Vicente Cutanda Henriquez (Technical University of Denmark), In-Jee Jung (Korea Advanced Institute of Science and Technology), Jeong-Guon Ih (Korea Advanced Institute of Science and Technology) 5795
- [18_6_405](#) ***Optimum placement of resonators on a thin panel for the spectrally smooth sound radiation***
Jaesoon Jung (Technical University of Denmark), Cheol-Ho Jeong (Technical University of Denmark), Jakob S. Jensen (Technical University of Denmark) 5805

- [18_6_406](#) ***Stochastic sensitivity analysis of a panel speaker structure with a locally resonant material***
Jonghyun Kim (Korea Advanced Institute of Science and Technology), Jaesoon Jung (Technical University of Denmark), Ikjin Lee (Korea Advanced Institute of Science and Technology) 5812
- [18_6_439](#) ***Human Auditory System Inspired Neural Network for Text-Independent Speaker Recognition***
Seong-Hu Kim (Korea Advanced Institute of Science and Technology), Yong-Hwa Park (Korea Advanced Institute of Science and Technology) 5820
- [18_6_453](#) ***Towards large-scale acoustic shape optimization for industrial applications using the Boundary Element Method***
Peter Risby Andersen (GN Audio A/S & Jabra), Junghwan Kook (GN Audio A/S & Jabra), Vicente Cutanda Henríquez (Technical University of Denmark), Niels Aage (Technical University of Denmark) 5826
- [18_6_456](#) ***A numerical study of the effect of viscothermal losses on an acoustic black hole***
Vicente Cutanda Henríquez, (Technical University of Denmark José), Sánchez-Dehesa (Universitat Politècnica de València) 5837
- [18_6_543](#) ***Optimization of the Performance of Small Speaker Systems with Passive Radiators***
Daniel Gert Nielsen (Technical University of Denmark), Gyeong-Tae Lee (KAIST), Yong-Hwa Park (KAIST), Jakob Søndergaard Jensen (Technical University of Denmark), Finn Thomas Agerkvist (Technical University of Denmark) 5842
- [18_6_1020](#) ***Multiple target frequencies filtering by using phononic crystals with structural hierarchy***
Ki Yong Lee (Korea Advanced Institute of Science and Technology), Wonju Jeon (Korea Advanced Institute of Science and Technology) 5854

Session 7. Vibroacoustics for Medical Solutions

- [18_7_393](#) ***Artificial Intelligence Approach for Detecting Pathological Voice***
Juhyeong Jeon (Pohang University of Science and Technology), Seungchul Lee (Pohang University of Science and Technology), HyunBum Kim (The Catholic University of Korea), Yeon Jae Han (The Catholic University of Korea), YoungHoon Joo (The Catholic University of Korea), Sun Im (The Catholic University of Korea) 5858
- [18_7_443](#) ***Intraocular Pressure Estimation Method Based on Eye Vibration Responses***
Deukha Kim (Hanyang University), Youngbeen Chung (Hanyang University), Junhong Park (Hanyang University), Jin Yong Jeon (Hanyang University), Won June Lee (Hanyang University Hospital) 5863
- [18_7_530](#) ***Determination of pneumonia symptoms through acoustic analysis of cough sound and machine learning***
Youngbeen Chung (Hanyang University), Jie Jin (Hanyang University), Sang-Heon Kim (Hanyang University Hospital), Hyun Lee (Hanyang University Hospital), Jin Yong Jeon (Hanyang University), Junhong Park (Hanyang University) 5866
- [18_7_531](#) ***Prediction of urinal flowrate by using urinary acoustic signals based on LSTM neural network***
Jie Jin (Hanyang University), YoungBeen Chung (Hanyang University), WanSeung Kim (Hanyang University), JinYong Jeon (Hanyang University), JeongGyu Ho (Hanyang University Seoul Hospital), JungKi Jo (Hanyang University Seoul Hospital), JunHong Park (Hanyang University) 5870
- [18_7_1013](#) ***Development of fetal heart monitoring system***
Hyeong Geun Jo (Hanyang University), Beom Hoon Park (Hanyang University), Kwan Kyu Park (Hanyang University), Jeong-Kyu Hoh (Hanyang University) 5874

Additional Paper:

Band frequency selective enhancement of sound absorption in a thin porous layer with a reactive metasurface

Joong Seok Lee, Jun Hyeong Park, Pyung Sik Ma, Yoon Young Kim 151
