

ACOUSTICS 2020

Proceedings of the Institute of Acoustics
Volume 42 Part 1

Online
5-9 October 2020

ISBN: 978-1-7138-2472-5

Printed from e-media with permission by:

Curran Associates, Inc.
57 Morehouse Lane
Red Hook, NY 12571

Some format issues inherent in the e-media version may also appear in this print version.

MONDAY 5 OCTOBER 2020

ENVIRONMENTAL NOISE – ROOM 1

Noise policy developments in Wales 1
Martin McVay, Joanne Smith, Welsh Government

Application of psychoacoustic metrics for the assessment of tonality of industrial sounds 7
Julija Smyrnova, The Environment Agency

A review of the implications of local planning authorities' noise guidance in Scotland 15
Ashley Leiper, Craig Cloy, EnviroCentre

NOISE AND VIBRATION ENGINEERING – ROOM 2

A review of noise exposure in UK call centres 23
Mat Tuora, Ian Rees, Adrian James Acoustics

Sound from domestic air source heat pumps: a case study 31
Matt Torjussen, noise.co.uk

Focusing of ground vibrations generated by trans-Rayleigh trains travelling with acceleration 43
Victor V Krylov, Loughborough University

Attenuating lateral vibration sources 51
Adam Fox, Dan Emery, Mason UK

Sound Distribution for safe-listening in entertainment venues a review of existing policies and regulations 59
Ken Liston, Nottingham Trent University; Ian M Wiggins, University of Nottingham

Construction: best practice for control of today's noise and HAV exposures 71
Emma Shanks, HSE

Regulatory expectations verse noise and vibration realities 83
Chris Steel, HSE

TUESDAY 6 OCTOBER 2020

BUILDINGS ACOUSTICS – ROOM 1

Prediction of rain noise in buildings using empirical models for artificial and natural rainfall 92
Carl Hopkins, Yicheng Yu, University of Liverpool

My thumb is on the bicycle pump – considerations for the venting of air cavities below structurally isolated floating floors 100
Ben Burgess, M Harrison, Buro Happold

The accuracy of reverberation time prediction for general teaching spaces 111
Ilaria Fichera, Cundall

Ventilative cooling in noisy environments: practical options for the UK 120
Nick Conlan, Jack Harvie-Clark, Apex Acoustics

The AVO Guide – worked examples 128
Anthony Chilton, Max Fordham; David Trew, Bickerdike Allen; Nick Conlan, Jack Harvie-Clark, Apex Acoustics

Acoustic metamaterials: noise and overheating in residential buildings 142
Matthew Brown, Andrew Bullmore, Hoare Lea; M Bacarese-Hamilton, M Atherton, Brunel University; L Chalmers, D Elford, Sonobex

PHYSICAL ACOUSTICS GROUP – ROOM 2

A study of the damaging effects of acoustic shock waves from a "controlled" explosion on nearby buildings 152
Gordon Hunter, Alok Bhattacharyya, Kingston University

A review of acoustic space filling curve metamaterials for jet engine inlets 159
Jennifer Glover, Daniel O'Boy, Loughborough University

Approximation of impedance in serial arrays of coupled Helmholtz resonators 168
A Dell, A Krynkina, University of Sheffield

WEDNESDAY 7 OCTOBER 2020

RAYELIGH MEDAL LECTURE

Vibro-acoustic analysis for system design in the presence of uncertainties 176
R S Langley, University of Cambridge

THURSDAY 8 OCTOBER 2020

SOUNDSCAPES – ROOM 1

An exploratory review of soundscape descriptor modelling for soundscape assessment and design practice 190
Yiyang Hao, Paul Johnson, Richard Cope, Bureau Veritas

Noise mapping and soundscapes 200
Peter Rogers, Sustainable Acoustics

Acoustic perception EvALuation of buildings – the APEAL method 211
Jack Harvie-Clark, Rebecca Romeo Pitone, Apex Acoustics

THURSDAY 8 OCTOBER 2020

POSTERS

Evaluation of the effectiveness of tool timers for estimation of daily exposure time to hand-arm vibration 222
Antonia Hawker, Chris Steel, Health & Safety Executive

Repeatability of the balloon pop sound source in a room 230
Luis Gomez-Agustina, Pedro Vazquez-Barrera, London South Bank University

Design strategies for linear semi-open plan classrooms: case study on improving the acoustic environment in a modern primary school 237
Shenzhi Su, CSP Acoustics

EARLY CAREERS GROUP – ROOM 2

What does the consultancy industry need from academia? A soundscape and planning perspective 247
Ashley Leiper, EnviroCentre

FRIDAY 9 OCTOBER 2020

SPEECH, HEARING AND BIOACOUSTICS - ROOM 1

Sound exposure of staff at a conservatoire 254
Stephen Dance, Doug Shearer, London South Bank University; Georgia Zepidou, AECOM

Can statistical language models be used to distinguish between different genres of news? 259
Gordon Hunter & Sabine Dreibe, Kingston University
