

# **Annual Modeling and Simulation Conference (ANNSIM 2021)**

Simulation Series Volume 53 Number 2

Online

19 – 22 July 2021

**Editors:**

**Cristina Ruiz Martin**

**Maria Julia Blas**

**Alonso Inostrosa Psijas**

ISBN: 978-1-7138-3140-2

**Printed from e-media with permission by:**

# TABLE OF CONTENTS

|                                                                                                                             |     |
|-----------------------------------------------------------------------------------------------------------------------------|-----|
| MODEL-BASED MONITORING AND STATE ESTIMATION FOR DIGITAL TWINS: THE KALMAN FILTER.....                                       | 1   |
| <i>Hao Feng, Cláudio Gomes, Peter Gorm Larsen, Alexandros Iosifidis</i>                                                     |     |
| VARIABILITY MODELING AND SIMULATION USING MULTIPLE SIMULATORS.....                                                          | 3   |
| <i>Thorsten Pawletta, Hendrik Folkerts, Christina Deatcu</i>                                                                |     |
| SIMULATION-BASED EVALUATION OF MODEL SENSITIVITIES IN FINISHED VEHICLE LOGISTICS.....                                       | 5   |
| <i>Kerstin Herrmann, Sebastian Risse, Tilo Weller</i>                                                                       |     |
| A NOVEL ROUTING PROTOCOL FOR WIRELESS AD HOC NETWORKS BASED ON THE BEHAVIOR OF SLIME MOLD PHYSARUM POLYCEPHALUM .....       | 17  |
| <i>Hudson Devoe, Nick Gilmet, Hala Elaarag</i>                                                                              |     |
| APPLICATION OF 3D PRINTING IN THE DEVELOPMENT OF LUMBAR PUNCTURE AND EPIDURAL SIMULATORS.....                               | 29  |
| <i>Lori Lioce, Kim Budisalich, Cooper Gunter, Marquis Myler, Gary Maddux, Ishella Fogle, Bernard Schroer</i>                |     |
| VALIDITY FRAME SUPPORTED DIGITAL TWIN DESIGN OF COMPLEX CYBER-PHYSICAL SYSTEMS.....                                         | 41  |
| <i>Bert Van Acker, Joost Mertens, Paul De Meulenaere, Joachim Denil</i>                                                     |     |
| COMPARATIVE ANALYSIS OF ELLIPTIC CURVE AND LATTICE BASED CRYPTOGRAPHY .....                                                 | 53  |
| <i>Amanda Davenport, Sachin Shetty</i>                                                                                      |     |
| SYNTHESIZING CO-SIMULATION ALGORITHMS WITH STEP NEGOTIATION AND ALGEBRAIC LOOP HANDLING.....                                | 62  |
| <i>Simon Hansen, Cláudio Gomes, Jaco Van De Pol, Peter Gorm Larsen</i>                                                      |     |
| MODELING PANDEMIC RESPONSE FOR POPULATIONS EQUIPPED WITH CONTACT-CHAIN CAPABLE WEARABLE DEVICES .....                       | 74  |
| <i>Joshua Fryer, Paulo Garcia</i>                                                                                           |     |
| TOWARDS A CATEGORICAL SEMANTICS OF DEVS .....                                                                               | 86  |
| <i>Jean-Pierre Müller</i>                                                                                                   |     |
| USE OF SHAPLEY ADDITIVE EXPLANATIONS IN INTERPRETING AGENT-BASED SIMULATIONS OF MILITARY OPERATIONAL SCENARIOS.....         | 98  |
| <i>Lynne Serre, Maude Amyot-Bourgeois, Brittany Astles</i>                                                                  |     |
| THE EFFECT AND SELECTION OF SOLUTION SEQUENCE IN CO-SIMULATION .....                                                        | 110 |
| <i>Emin Inci, Cláudio Gomes, Casper Thule, Kenneth Lausdahl, Jan Croes, Wim Desmet, Peter Gorm Larsen</i>                   |     |
| COMBINING CLINICAL AND SOCIAL DETERMINANTS TO IMPROVE DOD/VETERAN WELL-BEING: THE SERVICE MEMBER VETERAN RISK PROFILE ..... | 122 |
| <i>Richard Hartman, Mark Oxley</i>                                                                                          |     |

|                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------|-----|
| MODELING REAL-TIME APPLICATION PROCESSOR SCHEDULING FOR FOG<br>COMPUTING .....                                           | 133 |
| <i>Mani Sharifi, Abdolreza Abhari, Sharareh Taghipour</i>                                                                |     |
| MADES: A UNIFIED FRAMEWORK FOR INTEGRATING AGENT-BASED SIMULATION<br>WITH MULTI-AGENT REINFORCEMENT LEARNING.....        | 145 |
| <i>Xiaohan Wang, Lin Zhang, Chun Zhao, Yuanjun Laili, Kunyu Xie, Han Lu</i>                                              |     |
| INTRODUCTION TO DIGITAL TWIN ENGINEERING .....                                                                           | 157 |
| <i>Hao Feng, Cláudio Gomes, Casper Thule, Kenneth Lausdahl, Alexandros Iosifidis, Peter Larsen</i>                       |     |
| X LANGUAGE: AN INTEGRATED INTELLIGENT MODELING AND SIMULATION<br>LANGUAGE FOR COMPLEX PRODUCTS .....                     | 169 |
| <i>Lin Zhang, Fei Ye, Yuanjun Laili, Kunyu Xie, Pengfei Gu, Xiaohan Wang, Chun Zhao, Xuesong Zhang, Minjie Chen</i>      |     |
| OPPORTUNITIES AND CHALLENGES IN DEVELOPING COVID-19 SIMULATION<br>MODELS: LESSONS FROM SIX FUNDED PROJECTS .....         | 180 |
| <i>Philippe Giabbanelli, Jennifer Badham, Brian Castellani, Hamdi Kavak, Vijay Mago, Ashkan Negahban, Samarth Swarup</i> |     |
| A RISK ESTIMATION SYSTEM TO PREDICT POSTPARTUM CIGARETTE SMOKING<br>RELAPSE.....                                         | 192 |
| <i>Minsik Hong, Jerzy Rozenblit, Alicia Allen, Uma Nair, Sharon Allen</i>                                                |     |
| ARE WE MODELING THE EVIDENCE OR OUR OWN BIASES? A COMPARISON OF<br>CONCEPTUAL MODELS CREATED FROM REPORTS .....          | 203 |
| <i>Alexander Freund, Philippe Giabbanelli</i>                                                                            |     |
| A NOVEL HYBRID AUTOMATON FRAMEWORK FOR MULTI-PHASE EPIDEMIC<br>MODELLING .....                                           | 215 |
| <i>Eva Navarro, Nurdan Cabukoglu</i>                                                                                     |     |
| TOWARDS APPLICATIONS OF THE "SURGICAL GPS" ON ORTHOPEDIC SPINAL<br>PROCEDURES .....                                      | 227 |
| <i>Austin Tapp, Ava Maghouli, Michel Audette</i>                                                                         |     |
| METAMORPHIC TESTING FOR HYBRID SIMULATION VALIDATION.....                                                                | 239 |
| <i>Mohammed Farhan, Caroline Krejci, Megan Olsen, M S Raunak</i>                                                         |     |
| SEARCHING FOR LARGE-ORDER MULTIPLE RECURSIVE GENERATORS.....                                                             | 251 |
| <i>Kenneth Pasiyah, Lih-Yuan Deng, Dale Bowman, Ching-Chi Yang</i>                                                       |     |
| EXTENDING RC4 TO CONSTRUCT SECURE RANDOM NUMBER GENERATORS.....                                                          | 263 |
| <i>Lih-Yuan Deng, Dale Bowman, Ching-Chi Yang, Henry Lu</i>                                                              |     |
| COLOR PETRI NETS FRAMEWORK FOR MODEL-DRIVEN SYSTEM DESIGN AND<br>ENGINEERING .....                                       | 275 |
| <i>Vijay Gehlot</i>                                                                                                      |     |
| A WEB BASED MODELING AND SIMULATION ENVIRONMENT TO SUPPORT THE<br>DEVS SIMULATION LIFECYCLE .....                        | 277 |
| <i>Bruno St-Aubin, Jon Menard, Gabriel Wainer</i>                                                                        |     |

|                                                                                                                                                     |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| DATA-DRIVEN SIMULATION OF CONTAGIONS IN PUBLIC VENUES .....                                                                                         | 289 |
| <i>Stefano Guarino, Davide Torre, Massimo Bernaschi, Alessandro Celestini, Marco Cianfriglia, Enrico Mastrostefano, Lena Zastrow</i>                |     |
| MASSIVE GENERATION OF DATA WITH RANDOM VARIATES .....                                                                                               | 301 |
| <i>Peter Maurer</i>                                                                                                                                 |     |
| A MODELING AND SIMULATION PLATFORM FOR SPACE-BASED COMPARTMENTAL<br>MODELING OF PANDEMIC SPREAD.....                                                | 312 |
| <i>Román Cárdenas, Alonso Inostroza-Psijas, Gabriel Wainer</i>                                                                                      |     |
| A NEW DISCRETE-EVENT SIMULATION BASED APPROACH FOR VALIDATING<br>ACTUATION CONFLICT MANAGEMENT IN IOT SYSTEMS .....                                 | 324 |
| <i>Laurent Capocchi, Jean-Francois Santucci, Jean Yves Tigli, Thibault Gonnin, Stéphane Lavirotte, Gérald Rocher</i>                                |     |
| WHY HONOR CULTURE? LESSONS LEARNED FROM AN AGENT-BASED SIMULATION<br>MODEL.....                                                                     | 336 |
| <i>Kashif Zia, Alois Ferscha, Muhammad Shafi, Philippe Giabbanelli</i>                                                                              |     |
| GAUSSIAN PROCESS REGRESSION FOR AGGREGATE BASELINE LOAD FORECASTING.....                                                                            | 348 |
| <i>Kadir Amasyali, Mohammed Olama</i>                                                                                                               |     |
| OPTIMAL CONTROL OF A DISCRETE TIME STOCHASTIC MODEL OF EPIDEMIC<br>SPREADING IN ARBITRARY NETWORKS .....                                            | 358 |
| <i>Fabrizio Angaroni, Chiara Damiani, Giulia Ramunni, Marco Antoniotti</i>                                                                          |     |
| SIMULATION OF DISSEMINATION STRATEGIES ON TEMPORAL NETWORKS .....                                                                                   | 370 |
| <i>Luca Serena, Stefano Ferretti, Gabriele D'Angelo, Mirko Zichichi</i>                                                                             |     |
| A TUTORIAL INTRODUCTION TO COLORED PETRI NETS FRAMEWORK FOR MODEL-<br>DRIVEN SYSTEM DESIGN AND ENGINEERING .....                                    | 382 |
| <i>Vijay Gehlot</i>                                                                                                                                 |     |
| ELASTIC REGISTRATION OF MRI SCANS AND RGB-D IMAGES TO IMPROVE<br>SURGICAL PLANNING OF BREAST RECONSTRUCTION.....                                    | 394 |
| <i>Bernhard Schenkenfelder, Wolfgang Fenz, Stefan Thumfart, Gerhard Ebenhofer, Gernot Stuebl, David Lumenta, Gernot Reishofer, Josef Scharinger</i> |     |
| MODELING SPECTRUM DEPENDENT CHARACTERISTICS OF TRIPLE JUNCTION<br>SOLAR CELLS FOR SOLAR-POWERED AIRCRAFT.....                                       | 406 |
| <i>Daniel Ackermann, Nies Reininghaus, Andreas Bierig</i>                                                                                           |     |
| MODELING AND SIMULATION APPROACHES FOR CYBERSECURITY IMPACT<br>ANALYSIS: STATE-OF-THE-ART .....                                                     | 418 |
| <i>Alvi Jawad, Jason Jaskolka</i>                                                                                                                   |     |
| GENERATION OF REUSABLE SYNTHETIC POPULATION AND SOCIAL NETWORKS<br>FOR AGENT-BASED MODELING .....                                                   | 430 |
| <i>Na Jiang, Andrew Crooks, Hamdi Kavak, William Kennedy</i>                                                                                        |     |
| UNIFIED PROPERTY EVALUATIONS OF CONSTRAINED-DEVS MODELS FOR<br>SIMULATION AND MODEL CHECKING .....                                                  | 442 |
| <i>Soroosh Gholami, Hessam Sarjoughian</i>                                                                                                          |     |

|                                                                                                                                                                                                |     |
