# Table of Contents

## 2021 IEEE 12th International Conference on Mechanical and Intelligent Manufacturing Technologies (ICMIMT 2021)

Preface..... ix

Committees ..... x

### ✧ **Materials Science and Engineering**

An In-depth Study of Optimization of Glass-Epoxy Unidirectional Fiber-Reinforced Laminated Composites Under Mechanical Loading ..... 1

*Junho Park, Christopher Chou*

Analysis of defect formation during rotary friction welding of titanium alloy ..... 7

*MC Zulu, PM Mashinini*

Preparation of Carbon Fibre Reinforced Copper Matrix Composite using Electroplating in Laboratory for Electrical Power Applications ..... 12

*Ruoyu Xu, Mingyu Zhou, Yi Ding, Xuejun Wang, Yu Han, Haitian Wang, Chenwei Zhang, Werner Hufenbach*

Study of Microstructure and Hardness of Austenitic Stainless Steel 309L Multipass Weld Beads..... 19

*Kevin Mogano, Daniel Madyira*

Analysis of Solid Rocket Motor Materials..... 25

*Hexiang Zhang*

Microstructural Characteristics and Hardness Property of Laser Cladded Ti and TiB<sub>2</sub> Nanocomposites on Steel Rail ..... 30

*V. I. Aladesanmi, O.S Fatoba, T. C. Jen, E.T. Akinlabi*

Analysis of Buckling and Characteristics in Wings of Aircraft..... 36

*Zichun Zeng*

Python Data Analysis and Regression Plots of Wear and Hardness Characteristics of Laser Cladded Ti and TiB<sub>2</sub> Nanocomposites on Steel Rail ..... 40

*V. I. Aladesanmi, O.S Fatoba, T. C. Jen, E.T. Akinlabi*

|                                                                                                                                     |    |
|-------------------------------------------------------------------------------------------------------------------------------------|----|
| Factors for optimizing time performance of Modular Construction: a review and evidence from Huoshenshan Hospital construction ..... | 45 |
|-------------------------------------------------------------------------------------------------------------------------------------|----|

*Yao Tong*

|                                                                  |    |
|------------------------------------------------------------------|----|
| Seismic Behavior and Design of Precast Concrete Structures ..... | 49 |
|------------------------------------------------------------------|----|

*Tairan Li*

|                                                                                                                                       |    |
|---------------------------------------------------------------------------------------------------------------------------------------|----|
| Analysis of Geometrical Characteristics and Microstructural Evolution of Laser Deposited Titanium Alloy Based Composite Coatings..... | 53 |
|---------------------------------------------------------------------------------------------------------------------------------------|----|

*O. S Fatoba, T. C. Jen, B. A. Tadesse, E. A. Mekonen, E.T. Akinlabi*

|                                                                                                     |    |
|-----------------------------------------------------------------------------------------------------|----|
| Research on the Influence of Sector Angle and Flow Rate on Each Reactant Gas in MOCVD Reactor ..... | 59 |
|-----------------------------------------------------------------------------------------------------|----|

*Yang Shuntao, Li Zhiming, Feng Lansheng, Guo Runqiu, Li Hailing, Liu Changjiang, Li Yang, Fu Xiaoqian, Zhang Chunwei*

|                                                                            |    |
|----------------------------------------------------------------------------|----|
| Development of Program for Solving Plane Rigid Frame Based on MATLAB ..... | 64 |
|----------------------------------------------------------------------------|----|

*Zhixiang Li*

## ✧ **Mechanical Design and Processing**

|                                                                                                                                   |    |
|-----------------------------------------------------------------------------------------------------------------------------------|----|
| Machine Learning Based Predictive Modeling of Ball Nose End Milling using Exogeneous Autoregressive Moving Average Approach ..... | 68 |
|-----------------------------------------------------------------------------------------------------------------------------------|----|

*Vijaykumar S. Jatti, Ravi Sekhar, Pritesh Shah*

|                                                                                                 |    |
|-------------------------------------------------------------------------------------------------|----|
| A Framework for a Reconfigurable Welding Jig for Sheet Metal Panel Component of a Railcar ..... | 73 |
|-------------------------------------------------------------------------------------------------|----|

*Ilesanmi Daniyan, Khumbulani Mpofu, Boitumelo Ramatsetse, Olasumbo Makinde*

|                                                                                    |    |
|------------------------------------------------------------------------------------|----|
| Research on precision picking technology of Aircraft Assembly Standard Parts ..... | 81 |
|------------------------------------------------------------------------------------|----|

*Yulong Lan, Guangku Xue, Ying Xie, Shiyong Liu, Jie Li, Yangbin Guo, Zhijun Peng*

|                                                                        |    |
|------------------------------------------------------------------------|----|
| Collaborative Optimization of Vehicle Chassis Integration System ..... | 85 |
|------------------------------------------------------------------------|----|

*Chenyu Wang, Xiaokai Chen, Guobiao Shi, Zifa Yang*

|                                                                                             |    |
|---------------------------------------------------------------------------------------------|----|
| Study on Vibration Reduction Indicator of Metal Bellows Using Finite Element Analysis ..... | 91 |
|---------------------------------------------------------------------------------------------|----|

*Yongqiang Lin, Jianrun Zhang, Dacheng Huang*

|                                                                |    |
|----------------------------------------------------------------|----|
| Structural Design of Twin Towers with Vibration Absorbers..... | 96 |
|----------------------------------------------------------------|----|

*Peng Liurui*

|                                                                                         |     |
|-----------------------------------------------------------------------------------------|-----|
| Analysis of radial compression performance of Poly (L-lactic acid) helical stents ..... | 103 |
|-----------------------------------------------------------------------------------------|-----|

*Jiaming Liu, Muqing Liu, Yuan Tian, Jie Cheng, Wentao Liu, Gutian Zhao*

|                                                                                          |     |
|------------------------------------------------------------------------------------------|-----|
| Finite Element Analysis of Plate Based on Linear and Quadratic Triangular Elements ..... | 109 |
| <i>Jianxun Xie, Jingyang Wu</i>                                                          |     |

## ✧ **Applied Mechanics and Friction**

|                                                                                               |     |
|-----------------------------------------------------------------------------------------------|-----|
| Fluid Forces as an Additional Source of Vibration in a Rotor-Stator Rub System (Part I) ..... | 115 |
| <i>Bernard Xavier Tchomeni Kouejou, Alfayo Anyika Alugongo</i>                                |     |

|                                                                                                           |     |
|-----------------------------------------------------------------------------------------------------------|-----|
| Theoretical and experimental study of friction torque of ball screw mechanism considering lubrication.... | 122 |
| <i>Min Wang, Bo Chai, Tiewei Sun</i>                                                                      |     |

|                                                                                                                                     |     |
|-------------------------------------------------------------------------------------------------------------------------------------|-----|
| Mechanical and microstructural behavior effect of 304 and 316L austenitic stainless during the rotary friction welding process..... | 128 |
| <i>Zamukwanda Vincent Gambu, Peter Madindwa Mashinini, Doctor Mukhawana</i>                                                         |     |

|                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------|-----|
| Experimental Study of the Impact of the Fluid Forces on Disturbances Induced by the Rotor-Stator Rubbing (Part II) ..... | 133 |
| <i>Bernard Xavier Tchomeni kouejou, Alfayo Anyika Alugongo</i>                                                           |     |

|                                                                                                      |     |
|------------------------------------------------------------------------------------------------------|-----|
| Effect of Process Parameters on the Joint Properties of Similar Friction Welded 316L Steel Rods..... | 139 |
| <i>Zamukwanda Vincent Gambu, Peter Madindwa Mashinini, Doctor Mukhawana</i>                          |     |

|                                                                                            |     |
|--------------------------------------------------------------------------------------------|-----|
| Dynamic Analysis of Vertical Rotor Mass-Visco Fluid System Enhancing Subsequent Rub .....  | 144 |
| <i>Desejo Filipeson Sozinando, Bernard Xavier Tchomeni kouejou, Alfayo Anyika Alugongo</i> |     |

|                                                                                   |     |
|-----------------------------------------------------------------------------------|-----|
| An Experimental Study of the Stress Wave Propagation in Heterogeneous Solids..... | 150 |
| <i>Xuanye Hu, Kangpei Meng, Q. M. Li</i>                                          |     |

|                                                                                         |     |
|-----------------------------------------------------------------------------------------|-----|
| Investigation of Mechanical Properties of Friction and Laser Welded Ti-6Al-4V rods..... | 158 |
| <i>T. D Tlale, P. M Mashinini, D. M Mukhawana</i>                                       |     |

## ✧ **Advanced Manufacturing Engineering and Technology**

|                                                                           |     |
|---------------------------------------------------------------------------|-----|
| Using Layer-by-Layer Self-Assembly in the fabrication of thin films ..... | 165 |
| <i>Lokesh Sangabattula</i>                                                |     |

|                                                                                         |     |
|-----------------------------------------------------------------------------------------|-----|
| Design and Manufacture of A Delta Type Parallel Robot from the Study of Materials ..... | 169 |
| <i>Aruquipa A. Grover, Rojas S. Gabriel</i>                                             |     |

|                                                                                                                     |     |
|---------------------------------------------------------------------------------------------------------------------|-----|
| Research on Fast Change Temperature TCU in IC Manufacturing.....                                                    | 175 |
| <i>Shouzhen Rui, Nijing Pi, Maodong He, Mengjie He, Xiaokang Cao, Chunhui Dong, Ziyang Liu, Tao Feng, Xin Chang</i> |     |

|                                                                                                                                   |     |
|-----------------------------------------------------------------------------------------------------------------------------------|-----|
| Harnessing Industry 4.0 Technology to Improve Productivity in Manufacturing Industries: a Case of CNC Based Welding Factory ..... | 180 |
|-----------------------------------------------------------------------------------------------------------------------------------|-----|

*Adedotun Adetunla, Nelson Madonsela*

|                                                                                                                                 |     |
|---------------------------------------------------------------------------------------------------------------------------------|-----|
| Comparative Evaluation of Machine Learning Regressors for the Layer Geometry Prediction in Wire arc Additive manufacturing..... | 186 |
|---------------------------------------------------------------------------------------------------------------------------------|-----|

*Germán Omar Barrionuevo, Sergio Ríos, Stewart W. Williams, Jorge Andrés Ramos-Grez*

|                                                                                           |     |
|-------------------------------------------------------------------------------------------|-----|
| Optimization of P-GMAW parameters using Grey relational analysis and Taguchi method ..... | 191 |
|-------------------------------------------------------------------------------------------|-----|

*Jeyaganesh D., Aiman Ziout, Jaber Abu Qudeiri*

## ✧ **Mechanical and Electronic Engineering**

|                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------|-----|
| Experimental Investigation of Effects of Motor Speed on Isothermal Efficiency of Water Cooler Two-Stage Compressor ..... | 197 |
|--------------------------------------------------------------------------------------------------------------------------|-----|

*M. Pita, T. Gaonnwe*

|                                                                                                   |     |
|---------------------------------------------------------------------------------------------------|-----|
| Overview of Digital Twin Technology in Wind Turbine Fault Diagnosis and Condition Monitoring..... | 201 |
|---------------------------------------------------------------------------------------------------|-----|

*Obafemi O. Olatunji, Paul A. Adedeji, Nkosinathi Madushele, Tien-Chien Jen*

|                                                                   |     |
|-------------------------------------------------------------------|-----|
| Sealing Performance of Packer Element at Worn Casing Section..... | 208 |
|-------------------------------------------------------------------|-----|

*Jie-Li Wang, Bao-Kui Gao, Chao Ma, and Xing-Wang Chen*

|                                                                                           |     |
|-------------------------------------------------------------------------------------------|-----|
| Advances in Electrical Conductivity Calculation Method of Thermal Ionization Plasma ..... | 213 |
|-------------------------------------------------------------------------------------------|-----|

*Qijin Zhao, Baoquan Mao, Xianghua Bai, Yuying Yang, Rui Zhu, Chunlin Chen*

|                                                                                                                                |     |
|--------------------------------------------------------------------------------------------------------------------------------|-----|
| Application of Fuzzy Mamdani Model for Effective Prediction of Traffic Flow of Vehicles at Signalized Road Intersections ..... | 219 |
|--------------------------------------------------------------------------------------------------------------------------------|-----|

*Isaac O. Olayode, Lagouge K. Tartibu, Modestus O. Okwu*

|                                                                                                      |     |
|------------------------------------------------------------------------------------------------------|-----|
| Modeling of a mass absorber to suppress wind-induced vibrations of transmission line conductors..... | 225 |
|------------------------------------------------------------------------------------------------------|-----|

*Zakhele Mathews Zondi, Modify A.E. Kaunda*

|                                                                                                                                     |     |
