Table of Contents

MONDAY, SEPTEMBER 13

Opening General Session – Dam Safety, Beyond Engineering (Presentations Only)

Welcome

Bill McCormick, President, ASDSO

Tennessee Welcome

David Salyers, P.E., Commissioner, Tennessee Department of Environment and Conservation

Managing weather and climate risks: Ensuing opportunities for reducing consequences

Roger S. Pulwarty Ph.D., Senior Scientist, NOAA Ocean and Atmospheric Research, Earth System Research Laboratory Physical Sciences Division

The Waverly, TN Extreme Rainfall-How Unusual Was This Event and Does it Change PMP

Bill Kappel, and Doug Hultstrand, Applied Weather Associates, LLC

Concurrent Session 1 - Emergency Management

Next Steps in Emergency Planning: Getting to Know Your First Responders...1

Stephen Jamieson, P.E., W. W. Wheeler & Associates, Inc.

Effective Emergency Exercise Planning Practices...2

Alicia Baehr and Kelly Strife, Gannett Fleming

Edenville Dam Failure – Overview of the Event and Emergency Response...12

Paul Perri, P.E., PMP and Troy Naperala, P.E., AECOM; and Dan DeVaun, P.E., MI Department of Environment, Great Lakes, and Energy

Concurrent Session 2 - Lessons to Be Learned from Dam Failures Part 1

Analysis of Forensic Investigation Approaches for Dam Failures and Incidents...24

Nathaniel Gee, P.E., Tennessee Valley Authority; Mark Baker, P.E., DamCrest Consulting; Lee Mauney, P.E., CFM, HDR

The Next Chapter of DamFailures.org...25

Gregory L. Richards, P.E., CFM, Gannett Fleming, Inc.

Cause and Consequence of the Fujinuma Dam Failure during the 2011 Tohoku Earthquake...26

Paul Risher, P.E., HDR

Concurrent Session 3 - Focus on Construction of Gates and Valves

Efficient Rehabilitation of Five (5) 33 Ton Radial (Tainter) Gates at Eucha Dam, OK...27

Daniel A Keithline, P.E., S.E., Jim Umdenstock, P.E., and Zach McCall, Keithline Engineering Group, PLLC

Designing for the Underwater Construction of Inlets at Loch Lomond Reservoir...39

Gregory Reichert, P.E., and Idit Zarchi, P.E., AECOM; Shawna Von Stockhausen, P.E., Mott MacDonald; Isidro Rivera, P.E., City of Santa Cruz Water Department; Peter Dworetzky, Vortex Marine Construction and Drill Tech Drilling & Shoring

Early Contractor Involvement And Construction For The Lake Vermilion Dam Tainter Gate Replacement Project...51

Daylon Hutton and Lewis Rounds, P.E., Ballard Marine Construction; Lance Langer, P.E., Aqua Illinois; Charles Johnson, P.E., S.E., and Robert Indri, Schnabel

Concurrent Session 4 - Hands-On Hydrology

Applying Hydraulic Modeling to Paleoflood Analysis of the Stones River near Nashville, TN...61

Kevin Dodd, P.E., US Army Corps of Engineers

A Comparison of Deterministic Regional Extreme Precipitation Study PMP Inflow Design Flood with Probabilistic Precipitation for Two High-Elevation Colorado Dams...72

Cameron Carpenter, P.E., Dai Thomas, P.E., Ph.D., and Vicki Scharnhorst, P.E., Tetra Tech; Mark Perry, P.E., Colorado Dam Safety; Taylor Scott, P.E., and Eric Eisinger, P.E., Colorado Parks and Wildlife

Concurrent Session 5 - Low Head Dams - High Impact Programs

How State Dam Safety Officials Can Positively Impact Low head Dam Safety Without Negatively Impacting Their Programs...84

Bill McCormick, P.E., P.G., Colorado Dam Safety

Effective Partnerships are Critical for Successful Low Head Dam Rehabilitation, A Colorado Case Study...85

Brian C. McCormick, P.E., CFM, and Ronald Sanchez, P.E., Colorado Springs Utilities; Rick Kienitz, Aurora Water; Thomas Hankins, Homestake Project

Solutions for Improving Public Safety at Low Head Dams...94

Paul G. Schweiger, P.E., CFM, Gannett Fleming, Inc.

Concurrent Session 6 - Grab N Go

The One Where all the PFMA's are Virtual - Lessons Learned from Dam Safety Reviews during the COVID-19 Pandemic...95

Cory Miyamoto, P.E., Isabelle Rawlings, P.E., and Chris Slack, P.G., C.E.G., GEI Consultants, Inc.; Aimee Corn, P.E., Pacific Gas & Electric Company / Gannett Fleming; Ben Fontana, P.E., Pacific Gas & Electric Company

Hydraulic design of a non-traditional outlet works alignment...96

Nicholas Koutsunis, P.E., Jake Allgeier, P.E., Adam Connelly, P.E., and Dana Moses, D.WRE, P.E., P.H., US Army Corps of Engineers

Rebuilding of Semmes Lake Dam...97

Kurt A. Heckendorf, P.E., Mitchell H. Hall, P.G., PMP, and Edward F. Dunlop, P.E., US Army Corps of Engineers

Evaluation of Forecast Accuracy for Water Management in the Cumberland River Basin...107
David Bogema, P.E., and Austin Auld, EIT, US Army Corps of Engineers

Concurrent Session 7 - Foundation Treatments

Construction of a Deep Slurry Cutoff Wall for the Sacramento River East Levee Program...120
Louay Owaitat and Tino Maestas, P.E., Odin Construction Solutions; Allan Frappier, P.E., and Jose Gomez, P.E., US Army Corps of Engineers; Daniel Jabbour, P.E., and Mark Stanley, G.E., HDR

Micropile Underpinning Of The Historic Prairie Du Sac Dam Spillway - Support For The Next 100 Years...132
Eleanor Bloom, P.E., and Jerry Krueger, P.E., GEI Consultants, Inc.

Increasing Safety of Drilling in Earth Embankment Dams Using a Hybrid Drill Rig for Logan Martin Dam...144
Eric E Manning, P.E., Southern Company; Bobby E. Williams, P.E., Tri L Engineering; Robert Rennie, P.Eng., MEDATech

Concurrent Session 8 - Case Studies in Hydrology and Hydraulics

Cumberland Levee Failure and Actions to Restore It...145
David Blackmore, P.E., Ephraim (Eaf) Redden, P.E., and D. Wade Anderson, P.E., US Army Corps of Engineers; Clif B. Warren, P.E., Olsson, Inc.

Remote Underwater Inspection Technologies For Comprehensive Assessments Of Dam Structures - Case Study Deer Creek Dam (Utah) - Provo River Water Users Association (PRWUA)...157
Scott Waite, ASI Marine; and Sam Fankhauser, AE2S

Getting Creative to Reduce the Risk of Hazard Creep...158
John Petersen, P.E., and Jake Miriovsky, P.E., JEO Consulting Group, Inc.

TUESDAY, SEPTEMBER 14

General Session – Edenville Dam Failure – Overview of the Event and Emergency Response (Presentation Only)

John W. France, P.E., JWF Consulting; Jenifer Boyer, PEM, Midland County Office of Emergency Management; Lucas A. Trumble, P.E., Michigan Department of Environment, Great Lakes, and Energy (EGLE); Paul Risher, P.E., and Lee Mauney, CFM, P.E., HDR Engineering

Concurrent Session 9 - Public Safety at Dams: Reducing Consequences Around Dams

Professional, Civic, And Private Partnerships To Improve Public Safety At Low-Head Dams...159
Brian Crookston, Ph.D., P.E., Utah Water Research Laboratory; Manuela Johnson, Indiana Dept. of Homeland Security; Rollin H. Hotchkiss, Brigham Young University

Using Deep Learning and Aerial Imagery to Identify Low-Head Dams...160
Sunandan Chakraborty and Marianne Cardwell, Indiana University-Purdue University Indianapolis; Brian Crookston, Ph.D., P.E., Utah Water Research Laboratory; Rollin H. Hotchkiss, Ph.D., P.E. D.WRE, Brigham Young University; and Manuela Johnson, IN Department of Homeland Security

Signage Around Dams: Leading Practices to Energize Your Public Safety Sign Program...161
Paul Meeks, Worthington

Concurrent Session 10 - Spillway Failure Modes

The Many Ways Spillways Can Contribute to Dam Failures and Incidents...162
Mark Baker, P.E., DamCrest Consulting; Dusty Myers, P.E., Eagle Creek Renewable Energy; Paul G. Schweiger, P.E., CFM, and Gregory L. Richards, P.E., CFM, Gannett Fleming, Inc.; Douglas Johnson, P.E., Federal Energy Regulatory Commission; Lee Mauney, P.E., HDR

Spillways - Can We Make a Joint Decision?...175
Amanda L Lopez, P.E., AECOM

Assessing Uplift at Existing Spillway Chutes in a Post Oroville World...187
Frederick Lux and Keil Neff, Stantec; and John Trojanowski, Trojanowski Dam Engineering

Concurrent Session 11 - The Truth About Consequences

Understanding and Estimating Indirect Flood Fatalities...188
Jason Needham, P.E., and Jesse Morrill-Winter, US Army Corps of Engineers

Sampling HEC-LifeSim results to support risk-informed decisions associated with defining and reducing spillway risk...189
Andrew Verdin, Ph.D., Keil Neff, Ph.D., P.E., and Michelle Meehan, P.E., Stantec

Uncertainties in Estimating the Potential Life Safety Consequences from Dam Failures...197
Martin W. McCann, Jr. Ph.D., and Bo Andre Lundqvist, Jack R. Benjamin and Associates, Inc.; Zach Ruby and Brandon Little, Grant County Public Utilities District

Concurrent Session 12 - Creative Solutions to Organic Challenges

A Geosynthetic Solution to Uncooperative Geology at Cabresto Dam...213
Sushil K. Chaudhary, D.Eng., P.E., and Charles N. Thompson, P.E., New Mexico Office of the State Engineer; Robert J. Huzjak, P.E., and J. Douglas Neighbors, P.E., RJH Consultants, Inc.

Karst Topography, Excessive Seepage, and Mitigation Design for Robinson Lake Dam Rehabilitation...227
Zachary P. Mickel, P.E., John P. Briand, P.E., Stephen L. Whiteside, P.E., E. Onur Tastan, Ph.D., P.E., and David Mason, P.E., CDM Smith; and Paul Holzen, P.E., City of Franklin, TN

Flora, Fauna and Embankment Dams...238
Keith Mills, P.E., G.E., Oregon Water Resources Department

Concurrent Session 13 - Vulnerability and Risk Analysis

Selecting the Appropriate Risk Analysis Method for Dam Projects...248
Julie Heitland, P.E., and Jennifer Williams, P.E., AECOM; Jason Anderson, US Army Corps of Engineers

Semi-Quantitative Risk Analysis for a Canal Structure...268

Dean Durkee, Ph.D., P.E., and Matthew Balven, P.E., Gannett Fleming, Inc.; Thomas Westover, P.E., Cornforth Consultants, Inc.; Mark Zinniker, P.E., Eugene Water & Electric Board

Small Dams with A Big Impact - How Risk Informed Decision-Making Helped Inform A Cost-Effective Path Forward for Risk Reduction for A Portfolio of Small Dams...277

Jonathan Harris, Schnabel; Peter Hansen, WI Valley Improvement Co.

Concurrent Session 14 - The Seismic Session

Simplified Seismic Analysis Procedure for Montana Dams...283

Leslie F. Harder, Ph.D., P.E., G.E., Krishnan Athipotta Variam, EIT, Christopher Krivanec, P.E., G.E., and Mark Stanley, P.E., G.E., D.GE, HDR; Michele Lemieux, P.E., MT Department of Natural Resources & Conservation

Ghost Hawk Dam Seismic Assessment: Evaluating Seismic Risk on a Low Consequences, Small Dam...316

Allison Knaak, Ph.D, Managed Business Solutions, LLC; Christopher Krage, Ph.D., P.E., GEI Consultants

Seismic Vulnerability Assessment Procedures for Feather River West Levee System...325

Leslie F. Harder, Ph.D., P.E., G.E., Christopher Krivanec, P.E., G.E., Mark Stanley, P.E., G.E., HDR; Michael Hughes, P.E., and Richard A. Millet, P.E., G.E., AECOM; Michael Bessette, P.E., Sutter Butte Flood Control Agency

Concurrent Session 15 - Lessons to Be Learned from Dam Failures Pt 2

1911 Dells and Hatfield Dam Failures...362

Dusty Myers, P.E., and Jereme Klassy, Eagle Creek Renewable Energy; Jonathan Pittman, P.E., Schnabel Engineering

Every Tree, House, and Object In Its Path, The Schaeffer Dam Failure...363

L. Clint Brown, P.E., and Dylan Hoehn, P.E., Engineering Analytics

The 70th Anniversary of Montana's Vaux Dam Failures...364

Jonathan Pittman, P.E., Schnabel Engineering

In the Still of the Night: The Failure of South Davis County Reservoir No. 1...365

Everett W. Taylor, P.E., Utah Dam Safety

Hurricane Irene (2011) - Ten Years Later...366

Cory Miyamoto, P.E., and Lee Wooten, P.E., GEI Consultants, Inc.

Concurrent Session 16 - A Year in the Life of a State Dam Safety Program Part I

The Next Generation of Hydrologic Design Guidelines for New Mexico Dams...367

Amanda Hess, P.E., CFM, Gregory L. Richards, P.E., CFM, Seth Thompson, and Paul G. Schweiger, P.E. CFM, Gannett Fleming, Inc.; Charles Thompson, P.E., Sushil Chaudhary, D.Eng., P.E.; David Heber, P.E., Bud Brock, P.E., and James Head, P.E., Dam Safety Bureau, New Mexico Office of the State Engineer

The Worst Fire Season in Colorado History: Its Impact on Dams...378

Kallie Bauer, P.E., Dana Miller, P.E., and Jackie Blumberg, P.E., Colorado Department of Natural Resources - Dam Safety

We're Never Getting a "I never heard from you!" Lecture Again!!!!...390

Jill Stewart, P.E., John McCain, P.E., and Chuck Owens, South Carolina Department of Health and Environmental Control

Concurrent Session 17 - Raining on Tuesday

Quantification of Uncertainty Related to PMP Parameters...391

Bill Kappel and Doug Hultstrand, Ph.D., Applied Weather Associates

Hoopes Dam: Using Site-Specific Meteorological Studies to Refine Dam Safety Design for a Small Watershed...399

Jeff Blass, P.E., and Scott Jones, P.E., Ph.D., AECOM; and Matt Demo, P.E., City of Wilmington, Delaware Department of Public Works

Evaluation of Quantitative Precipitation Forecasts for Water Management in the Cumberland River Basin...408

David Bogema, P.E., and Gabriel Wagner, US Army Corps of Engineers

Concurrent Session 18 - Stand by Your Data

Data Management and Delivery for Dam Safety Modifications: Effective Design and Implementation to Deliver Real-time Engineering Verifications and Construction Quality Management...417

Laurel E. Robison, P.G., Jessica S. Hinton-Buffaloe, and Georgette Hlepas, P.E., M.E., Ph.D., US Army Corps of Engineers

A Comprehensive Construction Data Management Program for the Center Hill Dam Auxiliary Reinforcing Berm...429

Jessica Hinton-Buffaloe and Mark Elson, P.G., US Army Corps of Engineers

Using 3D Virtual Models to Optimize Dam Rehabilitation Planning and Design...441

Nicole Mathis, EI, Frederic Snider, and J. Hawkins Gagnon, P.G., Schnabel Engineering

Concurrent Session 19 – Dam Safety Career Panel

Dam Safety Career Panel 2021- A panel of Dam Safety Professionals discuss their career, what they did right, wrong and the lessons learned from both...442

Nathaniel Gee, P.E., Tennessee Valley Authority; Brian Crookston, Ph.D., Utah State University; Jennifer Dodd, P.E., Tennessee Valley Authority; Eric Halpin, P.E., Halpin Consulting LLC; John Roche, P.E., Maryland Department of the Environment Division; Steve Verigin, P.E., GEI Consultants; and Jennifer Williams, P.E., AECOM

Concurrent Session 20 - Drilling and Subsurface Exploration

Subsurface Exploration and Foundation Design of the Center Hill Dam RCC Berm...462

Mark S. Elson, P.G., US Army Corps of Engineers

Site Characterization - The Dam Key To Success...463
Justin Stoeber, P.E., AECOM

Challenging Geologic Investigations for the First Large New Dam in 21st Century California...464
David T. Simpson, P.G., C.E.G., AECOM

Concurrent Session 21 - Blue Ribbon Case Studies

Tilting Floodwalls in Covington, Kentucky...477
Terry M. Sullivan, US Army Corps of Engineers Risk Management Center

Talk About Your Hands Stuck...493
Chris Goodwin P.E., Ayres

Concurrent Session 22 - Hydrologic Analysis

Stochastic Weather Generation for Hydrologic Analysis for Critical Design Infrastructure...494
Doug Hultstrand, Ph.D., Bill Kappel, and Kristi Steinhilber, Applied Weather Associates; Peter Campbell, P.Eng., TransAlta

Variation of the NRCS Peak Rate Factor Within a Watershed...501
Michael Horst, Ph.D., P.E., The College of New Jersey

Monitoring Spillway Lift Joints for Modified Loading...513
William Stiller, P.E., HDR; Bradley T. Keaton, P.E., Duke Energy

Concurrent Session 23 - Dam Safety

Rapid risk screening tools to support risk quantification at portfolio scales...522
Jonathan Quebbeman, Shaun Carney, and Katie van Werkhoven, RTI International

Before the Breach: Programmatic Dam Failure Modeling in Georgia...523
Patrick Miles, P.E., Freese and Nichols, Inc.; Tom Woosley, P.E., and David Griffin, P.E., Safe Dams Program, Georgia Department of Natural Resources

Utilizing Scanning and UAV Technologies in Small Dam Operations and Monitoring...535
Boris E. Slogar, P.E., and David G. Lautenschleger, P.S., GISP, MGIS, Muskingum Watershed Conservancy District

WEDNESDAY, SEPTEMBER 15

Concurrent Session 24 - Slightly Related Papers That Mostly Intersect At Dam Security

Public Dissemination of USACE Inundation Maps and Risk Information...547
Rebecca Ragon, Michelle Carey, and Amanda Sutter, US Army Corps of Engineers

Dam Disaster in World War II - Destruction of the Dnieper Hydroelectric Station in 1941...548
Cory Miyamoto, P.E., GEI Consultants, Inc.; and Gregory L. Richards, P.E., CFM, Gannett Fleming, Inc.

Concurrent Session 26 - You, Me & CFD

Designing or Evaluating a Spillway? The Approach Matters!...549
Benjamin Israel-Devadason P.E., CFM, Seth D. Thompson, E.I.T., and Paul G. Schweiger, P.E., CFM.,
Gannett Fleming, Inc.

Evaluation of Step Edge Geometry on Energy Dissipation of Stepped Chutes: An Informative Comparison...565
Dana W Moses, P.E., PH, D.WRE, PMP, US Army Corps of Engineers; Brian Crookston, Ph.D., P.E.,
Utah State University; Christopher Thornton, Ph.D., P.E., Colorado State University

*A case study for using computational fluid dynamics (CFD) modeling to support labyrinth spillway design
at Hingham Dam, Sheboygan County, WI...579*
Adam Schneider, P.E., and Matthew Hickox, P.E., CFM, Ayres Associates

Concurrent Session 27 - Foundation Grouting

Permeation Grouting at Stafford Dams #3 and #4 - Lessons Learned from Procurement to Completion...580
David R. Caouette, P.E., Pare Corporation; James Myers, P.E., Keller - North America

3D Visual Dam Grouting Modeling...589
Brian Irsch, P.G., Schnabel Engineering

Understanding Modern Dam Foundation Grouting and Cutoff Wall Fundamentals, A Place To Start...590
Robert Waddell, P.E., AECOM; Cyril Bou-Sleiman, Bauer Foundation Corp.

Concurrent Session 28 - Risk Communication

Fake vs. Fact: The Power of Social Media During a Dam Crisis...609
Jes Gearing, Gannett Fleming, Inc.

Coordinated and Effective Planning for Dam-Related Emergencies - The Dam Owner's Perspective...610
Preston Wilson, FEMA National Dam Safety Program; Bill White, Safety, Security, & Training City of San
Diego Public Utilities Department

Dam Safety Engineers Need Business Understanding With New ODSP Audit Requirements...611
Nicholas M. Ciomei, P.E., Russ Sanford, Kleinschmidt Associates

Concurrent Session 29 - A Year in the Life of a State Dam Safety Program Part 2

*Leveraging the University Connection - How Dam Safety Programs Can Find Valuable Partners in
Innovation Right in Their Own Backyards...620*
John M. McCain, P.E., South Carolina Department of Health and Environmental Control; Richard
Matthews, Alexander Loaiza, Harrison Prickett, and Richard Marini, University of South Carolina -
Department of Mechanical Engineering

Missouri's Regulated Dam Inventory: Lessons Learned...621

Ryan P. Stack, P.E., and Joseph P. Wilson, P.E., P.H., D.FE, Missouri Dam and Reservoir Safety Program

New York State Department of Environmental Conservation Dam Hazard Screenings: Evaluations to Assess Hazard Creep and Drive Risk-Informed Prioritization of Funding...634

David M. Railsback, P.E., and Zachary Baum, P.E., Schnabel Engineering; Jennifer Everleth, P.E., New York State Department of Environmental Conservation

Concurrent Session 30 - Innovations that Work

New Emerging Fiber Optic Sensor Technologies for Levee and Dam, Predictive Maintenance, Safety, and Security Applications...637

Terry Tamutus and Laval Tamutus, Structural Monitoring Solutions

Field Compaction of Silty Sand Tailings...643

Elliott Drumright, P.E., and Lisa Yenne, P.E.; Ronald Hickman, Freeport-McMoRan

Challenges of Managing Risk for Tailings Dams Under a Water Dam Regulatory Framework...652

Lucas deMelo, Ph.D., P.E., and Michael F. Houlihan, P.E., D.GE, and Joseph R. Kula, P.E., Geosyntec Consultants; David Williams, Ph.D, CPEng, School of Civil Engineering, The University of Queensland

Concurrent Session 31 - Geophysics Terrain, Tools and Techniques

The Application of Geophysics in a Karst Terrain for Designing Geotechnical Investigations...660

A Bruce Rogers, P.G., US Army Corps of Engineers

Insights into Spillway Condition Assessments Using Destructive and Nondestructive Techniques...661

Amir Abdolazadeh, Ph.D., P.Eng., Robert K. Green, P.E., G.E., and Theodore B. Feldsher, P.E, G.E, AECOM

Project Rx | How State-of-the Art Geophysical Tools Determined Project Limits and Reduced Geological Uncertainty...662

John P. Clark, P.E., City of Aurora, Aurora Water; Dan O'Connell, Ph.D., Vicki J. Scharnhorst, P.E., Jamey Turner, P.G., Will Levandowski, Ph.D., and Michelle Franke, E.I., Tetra Tech

Concurrent Session 32 - Lessons to Be Learned from Dam Failures Pt 3

1971 Failure of Lower San Fernando Dam, CA...676

Keith A. Ferguson, P.E., VP, PPA, D.GE, D.WRE, HDR; Lee Wooten, P.E., GEI Consultants, Inc.

Bayless Dam Failure: A Perfect Storm of Flawed Judgments and Decisions...705

Robert A. Kline, Jr., P.E., Gannett Fleming, Inc.

Concurrent Session 33 – Focus on the National Levee Safety Program

Alignment of the National Levee Safety Program and National Dam Safety Program by USACE & FEMA...724

Tammy Conforti, P.E., and Phoebe Percell, P.E., US Army Corps of Engineers; James Demby, P.E., and Suzanne Vermeer, P.E., Federal Emergency Management Agency

Concurrent Session 34 - The Erosion Experts

Unlined Rock Spillway Erodibility Analysis using Block Theory, High-Resolution Remote Sensing Data, and a 3D Computational Fluid Dynamics Model...725

Michael George, Cole Christiansen, and Ariel Rickel, BGC Engineering; Benjamin Israel-Devadason, Gannett Fleming, Inc.

Even well maintained earthen grass-lined spillways may not withstand significant storm events (Presentation Only)

Michael Chilson, Golder; Bernie Auld, Tennessee Valley Authority

Concurrent Session 35 - The Stability Geniuses

Stability Analysis of a 150-year-old Embankment Dam...726

Pedram Bemani, Ph.D., P.E., Mital Patel, P.E., Theodore Feldsher, P.E., G.E., Olivia Davis, P.E., and Mike Onnen, P.E., AECOM; Susan Hou, P.E., SFPUC

Pickwick Landing Dam South Embankment Seismic Upgrade Project...736

Jim Nickerson, P.E., GEI Consultants, Inc.; Bernie Auld, P.E., W. Brant Rutledge, P.E., and Ellen Money, P.E., Tennessee Valley Authority; Quincy Anderson, P.E., Barnard Construction

Insights into Rapid Drawdown Rate and Stability from Infinite Slope Analysis...737

Daniel R. VandenBerge, P.E., Ph.D., and Prince Turkson, Tennessee Technological University

Concurrent Session 36 – Developing a Technical Knowledge Base for Dam Safety Professionals

Developing a Technical Knowledge Base for Dam Safety Professionals...751

Jeremy Franz, P.E., Colorado Division of Water Resources; Technical Knowledge Base Task Force

Concurrent Session 37 - Advancements in Inundation and Evacuation Processes

Are Inundation Maps Good Enough Anymore?...776

Paul Shannon, P.E., and Duncan Gatenbee, P.E., Federal Energy Regulatory Commission

Utilizing HEC-LifeSim to Inform Evacuation Planning...777

Stephanie Owen, Woodrow Fields, and Jason Needham, US Army Corps of Engineers

How Important is High Resolution Surface Data in a Dam Failure Model?...787

Jordan Thole, P.E., CFM, Short Elliot Hendrickson, Inc

Concurrent Session 38 - More Blue-Ribbon Rehabilitation Case Studies

Brighton Dam Rehabilitation...788

Eric Wenz, P.E., Robert Pinciotti, P.E., and G. Michael McIntyre, P.E., AECOM

Woodhaven Dam Phase II Rehabilitation “Yes, Looks Matter”...800

Robert Pinciotti, P.E., and Brian Hall, P.E., AECOM

Recognizing the End of Useful Life on a Slab and Buttress Dam...812

Travis L Ford, P.E., SPRAT III, David Hernandez, EIT, and Dmitriy Kats, HDR

Poster-Lightning Talks

A Cost-Effective Approach to Remediating a Small Concrete Dam...824

John P. Osterle, A. Hans Hasnay, and Allan Estivalet, WSP USA

Climate Change, Water Levels, and Dam Safety: Post Failure Analysis of Two Michigan Dams...825

Sanjeeta Neupane Ghimire, Ph.D., and Joseph Schulenberg, Ph.D., P.E., University of Illinois at Chicago

Concrete Assessment using Non-Destructive Testing: New Technology...826

William A Horne P.E, NDT Corporation

Detecting Levee Erosion in Near Real-Time...827

Tom Ogden, High Sierra Electronics, Inc.; and Richard Marck, American River Flood Control District (Retired)

Field and meter-scale application of MICP to enhance resilience of flood defense structures...828

Pegah Ghasemi and Brina M. Montoya P.E., Ph.D., North Carolina State University

Flood-Control Dams of this Magnitude are Not Built Everyday Key Considerations for Design...837

David Hayson P.E., S.I., and Kyle Blakley P.E., Stantec Consulting Services Inc

Painting the Full Picture: Combining Flood Damage Reduction and Ecosystem Services Benefits for Dam Projects...851

Christi Fisher, P.E., USDA - NRCS; Zachary Herrmann, P.E., Houston Engineering, Inc. (HEI); and Katherine Sharpe, AICP, Gannett Fleming, Inc.

Probable Maximum Flood Conditions and Estimations...863

Emma Lyon, EIT, Utah State University

Proactive Assessments Leads To Effective Resolutions Of Dam Safety Concerns...864

T. Craig Barnett, P.E., Bryan A. Robbins, P.E., and Gregory A. Yankey, P.E., HDR

Seepage flow path identification for leakage detection and asset management at Belo Monte Dam in Brazil...873

Patrick Pires, PCP Engenharia; Ryan Blanchard, Michael Jessop, and Val O. Kofoed, P.E., Willowstick Technologies

On-Demand Presentations

20 Years of Dam Rehab - How We Made It Work in Virginia...874

Mathew Lyons, P.E., USDA – NRCS

A Tale of Two Models: A Comparison of Physical and Computational Fluid Dynamics (CFD) Models for Boiling Springs Site 1 Dam Rehabilitation Project...875

Sherry L. Hunt, Ph.D., E.I.T., Kem C. Kadavy, P.E., USDA - ARS Hydraulic Engineering Research Unit; Chris Stoner, P. E., and Valerie Glasgow, E.I.T., USDA - NRCS; Colin Young, P.E., and Tony Grubbs, P.E., Freese and Nichols, Inc.

Assessment of the SCS Watershed Model Using Data from the ARS Walnut Gulch Experimental Watershed, Tombstone AZ...876

Atiq Syed P.E., Ph.D., USDA – NRCS

Belci Dam Failure 1991...886

Eric Gross, Paul Kokoszka, and Teodor Strat, Federal Energy Regulatory Commission

Benefits of 3D Seepage Modeling with Unique Geotechnical Considerations...887

Chris J. Redell, P.E., US Army Corps of Engineers

Best Practices for Conducting Virtual Exercises...888

Ben Claggett, P.E., Bureau of Reclamation

Boltz Lake Dam, Kentucky - Successfully Using FEMA High Hazard Potential Dams (HHPD) Grant Program Funds to Identify and Mitigate Risk...899

Michelle Meehan, P.E., and Elliot Magoto, Stantec; Carey Johnson and Glen Alexander, KY Division of Water

Dam Safety Signage Guidance - Promoting Public Awareness and Preventing Loss of Life and Property...900

Diana Castro, P.E., CFM, Atkins; James Demby, P.E., and Gokhan Inci, Ph.D., P.E., P.Eng, PMP, Federal Emergency Management Agency

Disrupting the Attack Planning Cycle: What can you do? Security practices in the Dams Sector...901

Kate Schwartzer, PMP, Michelle Yeziarski, P.E., Jeffrey Evans, and Angelino Ferreira, P.E., Cybersecurity and Infrastructure Security Agency

Emergency Intervention Templates for Dam Incidents - What Actions to Take During an Emergency...913

Diana Castro, P.E., CFM, Atkins; James Demby, P.E., and Gokhan Inci, Ph.D., P.E., P.Eng, PMP, Federal Emergency Management Agency

Evaluation of Becker Penetration Test (BPT) Induced Vibration...914

Tianfei Liao, Ph.D., P.E., B. Philip Shull, P.E., Hawkins Gagnon, P.G., and Alex Rutledge, P.E., P.G., Schnabel Engineering

Greenbrier State Park Dam - Not Your Average Walk In The Park...924

Wesley Hollenbach, P.E., CFM; G. Michael McIntyre, AECOM; John Roche, P.E., MD Department of the Environment

Incorporating Regional Rainfall-Frequency into Flood Frequency using RMC-RRFT and RMC-BestFit...925
Allen Avance, P.E., Mikaela Mahoney, EIT, and Cole Haden Smith, P.E., US Army Corps of Engineers

Intelligent Wireless Remote Condition Monitoring for Dams (Poster-Lightning Talk)...941
Simon Brightwell, and Chris Gairns, Senceive

Influence of Sensitivity and Rate of Strength Loss on Seismic Deformations of a Levee...942
Tyler J. Oathes, and Ross W. Boulanger, Ph.D., P.E., University of California, Davis; and Steven Friesen, P.E., CA Department of Water Resources

Levee Operation & Maintenance: Risk Reduction at a Dynamic Site 1959 to Today (Poster-Lightning Talk)...953
Benjamin D. Girtain-Plowe, P.E., NY Department of Environmental Conservation

Low-head Dam Safety and Engineering Education...954
Kenneth R. Wright, Wright Water Engineers, Inc.

Modeling reservoir waves generated by seismic events using CFD...955
Bryan Heiner, Bureau of Reclamation

Potential Failure Modes Analysis, a Dam Owner's Perspective (Poster-Lightning Talk)...956
Stephen Kinsley, City of Columbus

Risk Analytics for Dam Monitoring: Changes in Millimetres and Moisture using Geospatial AI (Poster-Lightning Talk)...960
Camilla Braithwaite, Rezatec

Safety assessment of the Jucazinho RCC dam in Brazil: an investigation considering intraplate seismicity...961
Windson Bezerra de Aguiar, Natália Santos Aquino de Araújo, and Paulo Marcelo Vieira Ribeiro, Federal University of Pernambuco

The 1981 upstream slope failure at B.F. Sisk Dam: Narrative, cause, and remediation of a dam safety incident at one of California's largest reservoirs...973
David R Gillette, Ph.D., P.E., and Dom Galic, Ph.D., P.E., Bureau of Reclamation

Seminary Hill Reservoir Failure, Centralia WA, 1991...974
Douglas L. Johnson, P.E., Federal Energy Regulatory Commission

Site-Specific Seismic Hazard Analysis for Two Dams in Washington Utilizing NGA-Subduction Ground Motion Models...980
Mark Dober, AECOM; Roger Raeburn, PacifiCorp

Spillway Rehabilitation of a SW Idaho Dam...981
Manuel Rauhut, P.E., ID Department of Water Resources

Super Powered Flow! Characterization Of Hydraulic Erosion Capacity For A Concrete Lined Spillway...982
Carolyn Pearson, P.E., and Dana Moses, P.E., P.H., D.WRE, US Army Corps of Engineers

Tailings dams under the quantum microscope of public awareness...995
Charles F. Cobb, AK Department of Natural Resources; Mike Henderson, BGC Engineering; Sarah Shoemaker, US Forest Service

The Reservoir #2 Story - Over a Decade of Service...1005

Carlyn O'Reilly, P.E. and Gary Wantland, P.E., D.GE, Stantec Consulting Services Inc.; Shalina Odegard, Peace River Manasota Regional Water Supply Authority

The Story of a 1981 Tailings Dam Failure in Ages, Kentucky...1006

Rachel Barrows, P.E., Ben Webster, P.E., and Jon Keeling, P.E., Stantec

Using Dynamic Physical Modeling To Evaluate Unbalanced Emergency Closures Of A Bulkhead Gate & Hoist System...1015

Josh Mortensen, P.E., Bureau of Reclamation

What The Slab?! Risk Assessment of Erosion-based Failure Mode for a Concrete Lined Spillway...1026

Justin T. Pearce, P.G., C.E.G., Casey A. Cummins, P.E., Andrew D. Hill, P.E., Carolyn J. Pearson, P.E., Ross N. Wright, P.E., and Coty E. Young, P.E., US Army Corps of Engineers
