2021 IEEE 29th International Requirements Engineering Conference (RE 2021)

Virtual Conference
20-24 September 2021
Welcome from the RE 2021 Organizers ........................................................................................................... xiii
Organizing Committee ........................................................................................................................................... xvi
Program Committees ........................................................................................................................................... xviii

Research Papers

What’s up with Requirements Engineering for Artificial Intelligence Systems? ................................. 1
Khlood Ahmad (Deakin University, Australia), Muneera Bano (Deakin University, Australia), Mohamed Abdelrazek (Deakin University, Australia), Chetan Arora (Deakin University, Australia), and John Grundy (Monash University)

Non-Functional Requirements for Machine Learning: Understanding Current Use and Challenges in Industry ........................................................................................................................................... 13
Khan Mohammad Habibullah (University of Gothenburg, Sweden) and Jennifer Horkoff (University of Gothenburg, Sweden)

What Can Open Domain Model Tell Us About the Missing Software Requirements: A Preliminary Study ........................................................................................................................................... 24
Ziyan Zhao (Beihang University, China), Li Zhang (Beihang University, China), and Xiaoli Lian (Beihang University, China)

Rodrigo Falcão (Fraunhofer IESE, Germany), Karina Villela (Fraunhofer IESE, Germany), Vaninha Vieira (Federal University of Bahia, Brazil), Marcus Trapp (Fraunhofer IESE, Germany), and Igor Lopes de Faria (Federal University of Bahia, Brazil)

Perspectives on Regulatory Compliance in Software Engineering ......................................................... 46
Evelyn Kempe (University of Maryland, Baltimore County, USA) and Aaron Massey (University of Maryland, Baltimore County, USA)

Agile Teams’ Perception in Privacy Requirements Elicitation: LGPD’s Compliance in Brazil .............. 58
Edna Dias Canedo (University of Brasilia (UnB), Brazil), Angelica Toffano Seidel Calazans (University center – UniCEUB, Brazil), Anderson Jefferson Cerqueira (University of Brasilia (UnB), Brazil), Pedro Henrique Teixeira Costa (University of Brasilia (UnB), Brazil), and Eloisa Toffano Seidel Masson (University center – UniCEUB, Brazil)
Ambiguity and Generality in Natural Language Privacy Policies ........................................ 70
Mitra Bokaei Hosseini (St. Mary’s University, USA), John Heaps
(University of Texas at San Antonio, USA), Rocky Slavin (University of
Texas at San Antonio, USA), Jianwei Niu (University of Texas at San
Antonio, USA), and Travis Breaux (Carnegie Mellon University, USA)

Towards Achieving Trust Through Transparency and Ethics ........................................... 82
David Kwan (York University, Canada), Luiz Marcio Cysneiros (York
University, Canada), and Julio Cesar Sampaio do Prado Leite
(Pontificia Universidade Catolica, Brazil)

Baraa Zieni (University of Leicester, UK) and Reiko Heckel (University
of Leicester, UK)

The Rise and Fall of COVID-19 Contact-Tracing Apps: When NFRs Collide with Pandemic .......... 106
Muneera Bano (Deakin University, Australia), Chetan Arora (Deakin
University, Australia), Didar Zooghi (University of Technology Sydney,
Australia), and Alessio Ferrari (ISTI, CNR, Pisa University, Italy)

The Role of Linguistic Relativity on the Identification of Sustainability Requirements: An
Empirical Study ..................................................................................................................... 117
Yen Dieu Pham (University of Hamburg, Germany), Abir Bouraffa
(University of Hamburg, Germany), Marleen Hillen (University of
Hamburg, Germany), and Walid Maalej (University of Hamburg, Germany)

Mining Reddit as a New Source of User Feedback for Software Requirements .......................... 128
Tahira Iqbal (University of Tartu, Estonia and LMU, Germany), Moniba
Khan (NUST, Pakistan), Kuldar Taveter (University of Tartu, Estonia),
and Norbert Seyff (FHNW, Switzerland and University of Zurich,
Switzerland)

Classifying User Requirements from Online Feedback in Small Dataset Environments Using
Deep Learning ..................................................................................................................... 139
Rohan Reddy Mekala (Fraunhofer USA Center Mid-Atlantic, USA), Asif
Irfan (Fraunhofer USA Center Mid-Atlantic, USA), Eduard C. Groen
(Fraunhofer IESE, Germany; Utrecht University, the Netherlands), Adam
Porter (Fraunhofer USA Center Mid-Atlantic, USA), and Mikael Lindvall
(Fraunhofer USA Center Mid-Atlantic, USA)

Unsupervised Topic Discovery in User Comments ................................................................... 150
Christoph Stanik (Universität Hamburg, Germany), Tim Pietz
(Universität Hamburg, Germany), and Walid Maalej (Universität Hamburg,
Germany)

From Screenplays to Podcasts – New Perspectives on Improving Requirements Communication in
Interdisciplinary Teams ........................................................................................................... 162
Anne Hess (Fraunhofer IESE, Kaiserslautern, Germany), Jill Tamanini
(Fraunhofer IESE, Kaiserslautern, Germany), and Sven Storck
(Fraunhofer IESE, Kaiserslautern, Germany)

Automated Traceability for Domain Modelling Decisions Empowered by Artificial Intelligence..... 173
Rijul Saini (McGill University, Canada), Gunter Mussbacher (McGill
University, Canada), Jin L.C. Guo (McGill University, Canada), and
Jörg Kienzle (McGill University, Canada)
Design Decisions in the Construction of Traceability Information Models for Safe Automotive Systems
Jan-Philipp Steghöfer (Chalmers University of Technology, University of Gothenburg, Sweden), Björn Koopmann (OFFIS e.V., Germany), Jan Steffen Becker (OFFIS e.V., Germany), Mikaela Törnlund (Chalmers University of Technology, University of Gothenburg, Sweden), Yulla Ibrahim (Chalmers University of Technology, University of Gothenburg, Sweden), and Mazen Mohamad (Chalmers University of Technology, University of Gothenburg, Sweden)

Exploring Explainability: A Definition, a Model, and a Knowledge Catalogue
Larissa Chazette (Leibniz University Hannover, Germany), Wasja Brunotte (Leibniz University Hannover, Germany), and Timo Speith (Saarland University, Germany)

On the Impact of Using Different Templates on Creating and Understanding User Stories
Catarina Gralha (NOVA LINCS, Universidade NOVA de Lisboa, Portugal), Rita Pereira (NOVA LINCS, Universidade NOVA de Lisboa, Portugal), Miguel Goulão (NOVA LINCS, Universidade NOVA de Lisboa, Portugal), and João Araujo (NOVA LINCS, Universidade NOVA de Lisboa, Portugal)

On the Role of User Feedback in Software Evolution: A Practitioners’ Perspective
Simon van Oordt (Vrije Universiteit Amsterdam, the Netherlands) and Emitza Guzman (Vrije Universiteit Amsterdam, the Netherlands)

From Ideas to Expressed Needs: an Empirical Study on the Evolution of Requirements During Elicitation
Sourav Debnath (Kennesaw State University, USA), Paola Spoletini (Kennesaw State University, USA), and Alessio Ferrari (CNR-ISTI, Italy)

Environment-Driven Abstraction Identification for Requirements-Based Testing
Zedong Peng (University of Cincinnati, USA), Prachi Rathod (University of Cincinnati, USA), Nan Niu (University of Cincinnati, USA), Tanmay Bhoomik (Mississippi State University, USA), Hui Liu (Beijing Institute of Technology, China), Lin Shi (Institute of Software Chinese Academy of Sciences, China), and Zhi Jin (Peking University, China)

A Survey of Instructional Approaches in the Requirements Engineering Education Literature
Marian Daun (The Ruhr Institute of Software Engineering, University of Duisburg-Essen, Germany), Alicia M. Grubb (Smith College, USA), and Bastian Tenbergen (State University of New York at Oswego, USA)

Industrial Innovation Papers
DDE Process: A Requirements Engineering Approach for Machine Learning in Automated Driving
Ran Zhang (Robert Bosch GmbH, Germany), Andreas Albrecht (Robert Bosch GmbH, Germany), Jonathan Kausch (Robert Bosch GmbH, Germany), Henrik J. Putzer (fortiss GmbH, Germany), Thomas Geipel (Robert Bosch GmbH, Germany), and Prashanth Halady (Robert Bosch GmbH, Germany)
RASAECO: Requirements Analysis of Software for the AECO Industry ............................... 280
Marko Ristin (Zurich University of Applied Sciences (ZHAW), Switzerland), Dag Fjeld Edvardsen (Catenda AS, Norway), and Hans Wernher van de Venn (Zurich University of Applied Sciences (ZHAW), Switzerland)

Evaluation of a Stakeholder Satisfaction-Oriented Method for Prioritising Change Requests .......... 291
Roman Schmid and Samuel Fricker (University of Applied Sciences Northwestern Switzerland (FHNW), Switzerland; Blekinge Institute of Technology (BTH), Sweden)

Lessons Learned from Customizing and Applying ACTA to Design a Novel Device for Emergency Medical Care ................................................................. 302
Christoph Stanik (Universität Hamburg, Germany), Tim Puhlfürß (Universität Hamburg, Germany), Anne Mahler (University Medical Center Hamburg-Eppendorf, Germany), Phillip Brenya Sasu (University Medical Center Hamburg-Eppendorf, Germany), Wikhart Reip (University Medical Center Hamburg-Eppendorf, Germany), and Walid Maalej (Universität Hamburg, Germany)

CrowdRE in a Governmental Setting: Lessons from Two Case Studies ................................... 312
Jelle Wouters (Royal Netherlands Marechaussee, the Netherlands), Rob Janssen (Royal Netherlands Marechaussee, the Netherlands), Bas van Hulst (Royal Netherlands Marechaussee, the Netherlands), John van Veenhuizen (Royal Netherlands Marechaussee, the Netherlands), Fabiano Dalpiaz (Utrecht University, the Netherlands), and Sjaak Brinkkemper (Utrecht University, the Netherlands)

A Pipeline for Automating Labeling to Prediction in Classification of NFRs ................................. 323
Ranit Chatterjee (TCS Research, India), Abdul Ahmed (TCS Research, India), Preethu Rose Anish (TCS Research, India), Brijendra Suman (TCS Research, India), Prashant Lawhatre (TCS Research, India), and Smita Ghaisas (TCS Research, India)

Towards the Integration of Cybersecurity Risk Assessment into Model-Based Requirements Engineering ................................................................. 334
Douraid Naouar (IRISA – Univ. Bretagne-Sud, Vannes, France; Chair of Naval Cyber Defense, France), Jamal El Hachem (Univ. Bretagne-Sud, Vannes, France), Jean-Luc Voirin (Thales Airborne Systems, UK), Jacques Foisil (Thales Airborne Systems, UK), and Yoon Kermarrec (IMT Atlantique, Lab-STICC, France)

Refining User Stories via Example Mapping: An Empirical Investigation ................................... 345
Jasper Berends (Info Support, the Netherlands) and Fabiano Dalpiaz (Utrecht University, the Netherlands)

ELFIEP: Evolutionary Lifecycle Framework for Industrial Engineering Practice: A Ten Year Journey of Requirements Inspection Systems Design Methodology (RISDM) ................................. 356
Shinobu Saito (NTT Corporation Software Innovation Center, Japan) and Mikio Aoyama (Nanzan University, Japan)

Applying Model-Based Requirements Engineering in Three Large European Collaborative Projects: An Experience Report .................................................. 367
Andrey Sadovykh (Innopolis University - SOFTEAM, Russia, France), Dragos Truscan (Abo Akademi University, Finland), and Hugo Bruneliere (IMT Atlantique, France)
RE@Next! Papers

Representing Human Barriers in Requirements Engineering: The Case of Electronic Health Records ................................................................. 378
Meira Levy (Shenkar College of Engineering, Design and Art, Israel, University of Haifa, Israel), Michal Pauzner (Shenkar College of Engineering, Design and Art, Israel), and Irit Hadar (University of Haifa, Israel)

Towards a Typology of Questions for Requirements Elicitation Interviews ................................................. 384
Olesya Zaremba (York University, Canada) and Sotirios Liaskos (York University, Canada)

Text Mining for Standardized Quality Criteria of Natural-Language IT-Requirements ....................... 390
Erik Buchmann (Hochschule für Telekommunikation Leipzig, Germany) and Serda Hauser (Leipzig University, Germany)

Combining Risk and Variability Modelling for Requirements Analysis in SAS Engineering .......... 396
Denisse Muñante (SAMOVAR, Télécom SudParis, Institut Polytechnique de Paris, France), Anna Perini (Fondazione Bruno Kessler, Italy), Fitsum Meshesha Kifetew (Fondazione Bruno Kessler, Italy), and Angelo Susi (Fondazione Bruno Kessler, Italy)

Data-Driven Agile Requirements Elicitation Through the Lenses of Situational Method Engineering ................................................................. 402
Xavier Franch (Universitat Politècnica de Catalunya, Spain), Aron Henriksson (Stockholm University, Sweden), Jolita Ralyté (University of Geneva, Switzerland), and Jelena Zdravkovic (Stockholm University, Sweden)

Information on Potential Vulnerabilities for New Requirements: Does It Help Writing Secure Code? ................................................................. 408
Md Rayhan Amin (Mississippi State University, USA) and Tanmay Bhowmik (Mississippi State University, USA)

Posters and Tool Demos

Zoom4PF: A Tool for Refining Static and Dynamic Domain Descriptions in Problem Frames .......... 414
Shangfeng Wei (Guangxi Normal University, China), Zhi Li (Guangxi Normal University, China), Yilong Yang (Beihang University, China), and Hongbin Xiao (Guangxi Normal University, China)

Putting Software Requirements Under the Microscope: Automated Extraction of Their Semantic Elements ................................................................. 416
Weize Guo (Beihang University, Beijing, China), Li Zhang (Beihang University, Beijing, China), and Xiaoli Lian (Beihang University, Beijing, China)

SusAF Welcomes SusApp: Tool Support for the Sustainability Awareness Framework ................. 418
Maike Basmer (Humboldt-Universität zu Berlin, Germany), Timo Kehrer (Humboldt-Universität zu Berlin, Germany), and Birgit Penzenstadler (Chalmers University of Technology and University of Gothenburg, Sweden; Lappeenranta-Lahtilahti University of Technology, Finland)
Co-AI: A Colab-Based Tool for Abstraction Identification .................................................. 420
Zedong Peng (University of Cincinnati, USA) and Nan Niu (University of Cincinnati, USA)

Smart3E: Enabling End Users to Express Their Needs for Smart Homes .................................. 422
Han Bian (East China Normal University, China), Xiaohong Chen (East China Normal University, China), Zhi Jin (Peking University, China), and Lin Liu (Tsinghua University, China)

DBRG: Description-Based Non-Quality Requirements Generator ............................................. 424
Mohamed Osama (Deakin University, Australia), Aya Zaki-Ismail (Deakin University, Australia), Mohamed Abdelrazek (Deakin University, Australia), John Grundy (Monash University, Australia), and Amani Ibrahim (Deakin University, Australia)

Impact of Organisational Culture on the Requirement Engineering Activities ............................. 426
Maria Spichkova (RMIT University, Australia), Tawfeeq Alsanoosy (Taibah University, Saudi Arabia), and James Harland (RMIT University, Australia)

DoMoBOT: A Modelling Bot for Automated and Traceable Domain Modelling .......................... 428
Rijul Saini (McGill University, Canada), Gunter Mussbacher (McGill University, Canada), Jin L.C. Guo (McGill University, Canada), and Jörg Kienzle (McGill University, Canada)

Analysing Privacy Conflicts in Web-Based Systems ...................................................................... 430
Peter Inglis (University of Glasgow, Scotland) and Inah Omoronyia (University of Glasgow, Scotland)

Human-Centric Elicitation of Context-Oriented Personal Data Categories: An Exploratory Study in an Educational Institution ................................................................. 432
Deepti Balaji Raykar (International Institute of Information Technology, India) and Varadharajan Sridhar (International Institute of Information Technology, India)

NFRNet: A Deep Neural Network for Automatic Classification of Non-Functional Requirements .. 434
Bing li (Guangxi Normal University, China), Zhi Li (Guangxi Normal University, China), and Yilong Yang (Beihang University, China)

ArTu: A Tool for Generating Goal Models from User Stories .................................................... 436
Tuğçe Güneş (Boğaziçi University, Turkey), Cahid Arda Öz (Boğaziçi University, Turkey), and Fatma Başak Aydemir (Boğaziçi University, Turkey)

A Tool for Security Requirements Recommendation Using Case-Based Problem Domain Ontology ..... 438
Ji-Wook Jung (Ajou University, South Korea), Sihn-Hye Park (Ajou University, South Korea), and Seok-Won Lee (Ajou University, South Korea)

ARF: Automatic Requirements Formalisation Tool ...................................................................... 440
Aya Zaki-Ismail (Deakin University, Australia), Mohamed Osama (Deakin University, Australia), Mohamed Abdelrazek (Deakin University, Australia), John Grundy (Monash University, Australia), and Amani Ibrahim (Deakin University, Australia)
CARO: A Conflict-Aware Requirement Ordering Tool for DevOps .................................................. 442
Mandira Roy (University of Calcutta, Kolkata, India), Novarun Deb
(Indian Institute of Information Technology, Vadodara, India.),
Agostino Cortesi (Ca’ Foscari University, Venice, Italy), Rituparna
Chaki (University of Calcutta, Kolkata, India), and Nabendu Chaki
(University of Calcutta, Kolkata, India)

The MobSTr Dataset – An Exemplar for Traceability and Model-Based Safety Assessment ..........444
Jan-Philipp Steghöfer (Chalmers University of Technology, University
of Gothenburg, Sweden), Björn Koopmann (OFFIS e.V., Oldenburg,
Germany), Jan Steffen Becker (OFFIS e.V., Oldenburg, Germany), Ingo
Stierand (OFFIS e.V., Oldenburg, Germany), Marc Zeller (Siemens AG,
Munich, Germany), Maria Bonner (Siemens AG, Nuremberg, Germany), David
Schmelter (Fraunhofer IEM, Paderborn, Germany), and Salome Maro
(Chalmers University of Technology, University of Gothenburg, Sweden)

MRDQA: A Deep Multimodal Requirement Document Quality Analyzer .....................................446
Ming Ye (ZTE, China), Jicheng Cao (ZTE, China), Shengyu Cheng (ZTE,
China), Dong Liu (ZTE, China), Shenghai Xu (ZTE, China), and Jinning
He (ZTE, China)

Enhancing NL Requirements Formalisation Using a Quality Checking Model ..........................448
Mohamed Osama (Deakin University, Australia), Aya Zaki-Ismail (Deakin
University, Australia), Mohamed Abdelrazek (Deakin University,
Australia), John Grundy (Monash University, Australia), and Amani
Ibrahim (Deakin University, Australia)

Pri-AwaRE: Tool Support for Priority-Aware Decision-Making Under Uncertainty ....................450
Huma Samin (Aston University, UK), Nelly Bencomo (Aston University,
UK), and Peter Sawyer (Aston University, UK)

RV-SLC: A Tool for Regression Validation of Safety and Liveness Constraints on Goal Models in DevOps Environment .......................................................... 452
Palak Ambade (Indian Institute of Information Technology, India),
Diptiben Solanki (Indian Institute of Information Technology, India),
and Novarun Deb (Indian Institute of Information Technology, India)

Unifying Behavior Driven Development Templates ................................................................. 454
Konstantinos Tsiilionis (KU Leuven, Belgium), Yves Wautelet (KU Leuven,
Belgium), Charlie Eaut (KU Leuven, Belgium), and Samedi Heng
(Universite de Liege, Belgium)

Doctoral Symposium

An Idea Generation Tool for Designing Behavior Change Games ............................................. 456
Karen Shanks (Glasgow Caledonian University, Scotland)

From Sustainability in Requirements Engineering to a Sustainability-Aware Scrum Framework .... 462
Peter Garscha (Johannes Kepler University Linz, Austria)

Human-Centric Requirements Engineering for Artificial Intelligence Software Systems ............468
Khlood Ahmad (Deakin University, Australia)

A Web Accessibility Requirements Framework for Agile Development .................................. 474
Darliane Goes de Miranda (NOVA University of Lisbon, Portugal)
Requirements Prioritization Based on Multiple Criteria Using Artificial Intelligence Techniques ................................................................. 480
Maria Isabel Limaylla Lunarejo (Universidade da Coruña, Spain)

Towards the Development of the Cybersecurity Concept According to ISO/SAE 21434 Using Model-Based Systems Engineering ............................................. 486
Sergej Japs (Fraunhofer IEM, Germany)

A Comprehensive Approach to Identifying key Stakeholders in Complicated Software Ecosystems ........................................................................................................ 492
Stephanie Lewellen (Maynooth University, Ireland)

Towards a Theory of Shared Understanding of Non-Functional Requirements in Continuous Software Engineering ................................................................. 498
Colin Werner (University of Victoria, Canada)

Tutorials

Agile Requirements Engineering: From User Stories to Software Architectures ................................................. 504
Fabiano Dalpiaz (Utrecht University, The Netherlands) and Sjaak Brinkkemper (Utrecht University, The Netherlands)

Software Sustainability Requirements: A Unified Method for Improving Requirements Process for Software Development ........................................................................... 506
Theresia Ratih Dewi Saputri (Universitas Ciputra Surabaya, Indonesia) and Seok-Won Lee (Ajou University, South Korea)

Requirements Reuse for Exploring Stakeholder Needs ................................................................................................. 508
Hermann Kaindl (TU Wien, Austria) and Mike Mannion (Glasgow Caledonian University, UK)

Requirements Engineering in the DevOps Era ...................................................................................................................... 510
Sébastien Mosser (Université du Québec à Montréal (UQAM), Canada) and Jean-Michel Bruel (University of Toulouse, IRIT, France)

Privacy Requirements Specification in Agile Software Development .................................................................................. 512
Mariana Peixoto (Universidade Federal de Pernambuco, Brazil), Carla Silva (Universidade Federal de Pernambuco, Brazil), Jéssyka Vilela (Universidade Federal de Pernambuco, Brazil), and Tony Gorschek (Blekinge Institute of Technology, Sweden)

Human Values in Requirements Engineering ..................................................................................................................... 514
Jon Whittle (Monash University Melbourne, Australia) and Waqar Hussain (Monash University Melbourne, Australia)

Author Index ........................................................................................................ 517
