

Advances in Designing and Testing Deep Foundations

In Memory of Michael W. O'Neill

Geotechnical Special Publication Number 129

Austin, Texas, USA
24 – 26 January 2005

Editors:

C. Vipulanandan
F. C. Townsend

ISBN: 978-1-7138-5202-5

Printed from e-media with permission by:

Curran Associates, Inc.
57 Morehouse Lane
Red Hook, NY 12571

Some format issues inherent in the e-media version may also appear in this print version.

Contents

Selected Papers Authored by Michael W. O'Neill

- Side Resistance in Piles and Drilled Shafts (The Thirty-Fourth Karl Terzaghi Lecture)** N/A
Michael W. O'Neill
From *J. Geotech. and Geoenviron. Engrg.* Vol. 127, No. 1, January 2001, pp. 3–16.
Reproduced with permission.
- Innovative Load Testing of Deep Foundations** N/A
Michael W. O'Neill, Dan A. Brown, Frank C. Townsend, and Nariman Abar
From *Transportation Research Record No. 1569*, Design and Analysis of Foundations and Sand Liquefaction, Transportation Research Board, National Research Council, Washington, DC (1997) (pp 17–25). Reproduced with permission.
- Flexural Behavior of Drilled Shafts with Minor Flaws** N/A
Hazem Sarhan, Sami W. Tabsh, Michael O'Neill, Alaa Ata, and Carl Ealy
From *Deep Foundations 2002: An International Perspective on Theory, Design, Construction, and Performance* (Geotechnical Special Publication No. 116) (2002) (pp 1136–1150). Reproduced with permission.
- Construction Practices and Defects in Drilled Shafts** N/A
Michael W. O'Neill
From *Transportation Research Record 1331*, Integrity Testing of Foundations, Transportation Research Board, National Research Council, Washington, DC (1991) (pp 6–14). Reproduced with permission.
- Modeling Laterally Loaded ACIP Piles in Overconsolidated Clay** N/A
Michael W. O'Neill, Cumaraswamy Vipulanandan, and Khaled Hassan
From *New Technological and Design Developments in Deep Foundations* (Geotechnical Special Publication No. 100) (2000) (pp 471–485). Reproduced with permission.
- Review of Augered Pile Practice Outside the United States** N/A
Michael W. O'Neill
From *Transportation Research Record No. 1447*, Design and Construction of Auger Cast Piles, and Other Foundation Issues, Transportation Research Board, National Research Council, Washington, DC (1994) (pp 3–9). Reproduced with permission.
- Filed Rafts in Geotechnical Practice – An International Perspective** N/A
Michael W. O'Neill
From *28th Annual Conference on Deep Foundations: Deep Foundations in Compressible Soil and Rock* (2003). DFI. Reproduced with permission.

- Laboratory Modeling of Vibro-Driven Piles** N/A
 Michael W. O'Neill, Cumaraswamy Vipulanandan, and Daniel Wong
 From *J. Geotech. Engrg.* Vol. 116, No. 8, August 1990, pp. 1190–1209. Reproduced with permission.
- Modelling of Displacement Piles in Sand Using a Pressure Chamber** N/A
 C. Vipulanandan, D. Wong, M. Ochoa, and M. W. O'Neill
 From *Foundation Engineering* (1989) (pp 526–541) ASCE. Reproduced with permission.
- Analysis of Dynamic Laterally Loaded Pile in Clay** N/A
 Geoffrey W. Blaney and Michael W. O'Neill
 From *J. Geotech. Engrg.* Vol. 112, No. 9, September 1986, pp 827–839. Reproduced with permission.
- Experimental p - y Model for Submerged, Stiff Clay** N/A
 Todd W. Dumnivant and Michael W. O'Neill
 From *J. Geotech. Engrg.* Vol. 115, No. 1, January 1989, pp 95–114. Reproduced with permission.
- Driving Characteristics of Open-Toe Piles in Dense Sand** N/A
 Richard D. Raines, Oscar G. Ugaz, and Michael W. O'Neill
 From *J. Geotech. Engrg.* Vol. 118, No. 1, January 1992, pp 72–88. Reproduced with permission.
- Resistance Factors for Single Driven Piles from Experiments** N/A
 Gil L. Yoon and Michael W. O'Neill
 From *Transportation Research Record No. 1569*, Design and Analysis of Foundations and Sand Liquefaction, Transportation Research Board, National Research Council, Washington, DC (1997) (pp 47–54). Reproduced with permission.
- Response of Tension Piles to Simulated Seismic Motion in Saturated Fine Sand** N/A
 Michael W. O'Neill, Cumaraswamy Vipulanandan, and Mauricio Ochoa
 From *Transportation Research Record No. 1336*, Foundation Engineering: Seismic Design, Drilled Shafts, and Other Issues, Transportation Research Board, National Research Council, Washington, DC (1992) (pp 17–23). Reproduced with permission.
- Cyclic Lateral Loading of Large-Scale Pile Group** N/A
 Dan A. Brown, Lymon C. Reese, and Michael W. O'Neill
 From *J. Geotech. Engrg.* Vol. 113, No. 11, November 1987, pp 1326–1343. Reproduced with permission.
- Pile-Head Behavior of Rigidly Capped Pile Group** N/A
 Michael W. O'Neill and Richard A. Hawkins
 From *Transportation Research Record No. 884*, Piling, Transportation Research Board, National Research Council, Washington, DC (1982) (pp 1–7). Reproduced with permission.

Invited Papers

A Legacy of Mike W. O'Neill—Service	209
F. C. Townsend	
Piled Raft and Compensated Piled Raft Foundations for Soft Soil Sites	214
Harry G. Poulos	
Analysis of Laterally Loaded Pile Groups with Partial Pile Head Fixity	235
J. Michael Duncan, Michael D. Robinette, and Robert L. Mokwa	
From <i>Geo-Frontiers 2005</i> (2005) ASCE. Reproduced with permission.	
Practical Considerations in the Selection and Use of Continuous Flight Auger and Drilled Displacement Piles	251
Dan A. Brown	
From <i>Geo-Frontiers 2005</i> (2005) ASCE. Reproduced with permission.	
Advances in Auger Pressure Grouted Piles: Design, Construction and Testing	262
Tracy Brettmann and Willie NeSmith	
From <i>Geo-Frontiers 2005</i> (2005) ASCE. Reproduced with permission.	
Axial Compression Behavior of Augered Cast-in-Place (ACIP) Piles in Cohesionless Soils	275
Fred H. Kulhawy and Jie-Ru Chen	
From <i>Geo-Frontiers 2005</i> (2005) ASCE. Reproduced with permission.	
Axial Load-Displacement Relationship and CPT Correlation for ACIP Piles in Texas Gulf Coast Soils	290
C. Vipulanandan, Kenneth E. Tand, and S. Kaulgud	
Use of In Situ Tests to Design Drilled Shafts in Dense and Cemented Soils	309
Naresh C. Samtani and Jiann-Jong Liu	
From <i>Geo-Frontiers 2005</i> (2005) ASCE. Reproduced with permission.	
Modeling the Load-Displacement Behavior of Underreamed Footings in Jointed Clays Using FEM	324
Kenneth E. Tand and C. Vipulanandan	
Subject Index	345
Author Index	347
