Volume 12048

Proceedings of SPIE 0277-786X, V. 12048

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Health Monitoring of Structural and Biological Systems XVI*, edited by Paul Fromme, Zhongqing Su, Proc. of SPIE 12048, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

MONDAY PLENARY SESSION

12048 02 **Twenty-five years of evolution of SHM technologies (Plenary Paper)** [12048-501]

GUIDED WAVES I: SHM AND SENSORS

12048 03 **Exploring and manipulating guided wave features for structural health monitoring (Keynote Paper)** [12048-1]

12048 04 **Manipulating elastic waves via engineered spatial curvature profiles** [12048-2]

12048 05 **Excitation and sensing of Lamb waves in very thin metals and nuclear cladding material using fully non-contact PL-SLDV system** [12048-3]

12048 06 **Guided waves based damage detection based on quadrant area using optical fiber sensors** [12048-35]

12048 07 **Studying the effect of strain induced birefringence on the sensitivity of FBG sensors for guided wave measurements** [12048-36]

12048 08 **Numerical investigation of piezoelectric composite transducers for active sensing of concrete structures** [12048-34]

GUIDED WAVES II: AI AND MODELLING FOR SHM

12048 09 **Numerical modeling of guided-wave acoustic emission from weld cracking: butt welds, T-joints, and precracks** [12048-12]

12048 0A **Numerical modelling of wave propagation in optical fibre using frequency domain spectral element method** [12048-14]

12048 0B **On the frequencies for structural health monitoring in plates with asymmetrical damage: an analytical approach** [12048-15]

12048 0C **A 1-dimensional convolutional autoencoder (1D-CAE) assisted 'feature learning' for damage diagnosis in CFRP plate using Lamb waves** [12048-11]

GUIDED WAVES III: SHM OF COMPOSITES

- 12048 OD **Recent advancements on autonomous Lamb wave-based nondestructive inspection** [12048-6]
- 12048 OE **Nondestructive analysis of composite structure subjected to impact damage conditions** [12048-4]
- 12048 OF **Damage assessment in composite panel based on non-contact elastic wave excitation and sensing** [12048-7]

MONITORING OF AEROSPACE AND COMPOSITE STRUCTURES

- 12048 OG **Effect of material anisotropy on guided wave propagation and scattering in CFRP laminates** [12048-5]
- 12048 OH **Electro-mechanical impedance structural health monitoring as an integral component of a flight recorder for space vehicles** [12048-79]

PHONONIC CRYSTALS AND ACOUSTIC/ELASTIC METAMATERIALS II

- 12048 OI **Phase-shift analysis of locally resonant piezoelectric metasurface** [12048-22]

PHONONIC CRYSTALS AND ACOUSTIC/ELASTIC METAMATERIALS III

- 12048 OJ **Wave propagation in meta-sandwich beams** [12048-31]
- 12048 OK **A magnetic fluid-solid interactive metamaterial for tunable elastic wave control** [12048-50]

SHM FOR ADDITIVE MANUFACTURED DEVICES

- 12048 OL **Comparison of the thermal influence on two additive manufactured polymers with fiber Bragg grating sensor** [12048-37]
- 12048 OM **Ultrasonic inspection of additively manufactured metallic components using bulk and guided waves** [12048-38]
- 12048 ON **Ultrasonic testing of metallic alloy specimens with application to additive manufacturing** [12048-39]
- 12048 OO **Lamb-wave propagation characteristics and damage imaging in additively manufactured plates** [12048-40]

12048 OP **The thermal influence on additive manufactured composite with fiber Bragg grating sensor**
[12048-41]

SHM FOR MEDICAL AND BIOMEDICAL APPLICATIONS

12048 OQ **Visualization and analysis of the scattering of high-intensity focused ultrasound at bone phantoms** [12048-60]

12048 OR **Nondestructive ultrasonic quality testing of endovascular devices** [12048-61]

12048 OS **Non-destructive evaluation of the medical device packages using the terahertz time-domain spectroscopy** [12048-62]

12048 OT **Toward early damage detection of total knee arthroplasty implants via convolutional neural networks** [12048-63]

RECENT ADVANCES IN NONLINEAR ULTRASONICS-BASED NDE AND SHM

12048 OU **Nonlinear ultrasonic assessment of damage in cast iron components** [12048-43]

12048 OV **Inspection of steel tube welded joint using nonlinear ultrasonic technique** [12048-42]

12048 OW **Nonlinear electro-mechanical impedance spectroscopy for fatigue crack monitoring**
[12048-45]

12048 OX **SPC non-linear ultrasonic technique for detecting adhesion defects in FRCM reinforcements for masonry constructions** [12048-48]

OPTICAL SENSING AND MACHINE LEARNING FOR SHM AND NDE

12048 OY **Artificial intelligence-based approach to estimate relative deflection of railroad ties using airborne ultrasonic testing** [12048-55]

12048 OZ **A sensor-based calibration system for three-dimensional digital image correlation** [12048-54]

12048 10 **Automated and lightweight feature detection and matching towards real-time SHM of large structures** [12048-58]

12048 11 **Research on structural torsion deformation monitoring based on machine vision** [12048-59]

SENSORS AND SIGNAL PROCESSING FOR SHM

- 12048 12 **Non-bonded piezo sensor configuration for strain modal analysis based SHM** [12048-87]
- 12048 13 **Sensor network based damage detection of structures using weight function in electromechanical impedance method** [12048-88]
- 12048 14 **A spiropyran-based photochromic webbing for ultra-violet light damage sensing** [12048-89]
- 12048 15 **Active sensing acousto-ultrasound SHM via stochastic time series models** [12048-92]

MODELING AND DETECTION SENSITIVITY OF SHM

- 12048 16 **A rapid acoustic source localization technique in early warning of building material damage- a numerical study** [12048-67]
- 12048 17 **Assessing risk due to small sample size in probability of detection analysis using tolerance intervals** [12048-70]
- 12048 18 **NDT methods for damage detection in steel bridges** [12048-77]

CIVIL INFRASTRUCTURE MONITORING

- 12048 19 **A review about recent bridge health monitoring programs in the United States** [12048-71]
- 12048 1A **Mobile structural health monitoring using quadruped robots** [12048-72]
- 12048 1B **System identification and damage assessment of benchmark model D** [12048-73]
- 12048 1C **A novel vibration-based method to measure stress in rails** [12048-74]
- 12048 1D **Finite element model analysis of an under-supported truss bridge** [12048-76]
- 12048 1E **Numerical simulation of the temperature effects on natural frequencies of a long-span suspension bridge** [12048-78]
- 12048 1F **Deep learning-based unsupervised methods for real-time condition monitoring of structures: a state-of-the-art survey** [12048-91]
