CONTENTS

PREFACE

I Microstructure and Mixture Design

- 1. Influence of fine aggregates on the properties of ultra-high performance concrete** 2
Xueyang Ji, Binbin Li, kai Liu, Xiaopeng Kang
- 2. How to design low carbon footprint ultra-high performance concrete (UHPC)** 9
R. Yu, D.Q. Fan, Z.H. Shui, Q.L. Song, X.P. Wang
- 3. A novel design approach of UHPC by implanting steel fibres into particle dense packing model** 21
Dingqiang Fan, Rui Yu, Zhonghe Shui
- 4. Estimation of the reaction degree of silica fume in cement-silica fume binary UHPC pastes** 34
Hao Pan, Wei She, Jianzhong Liu, Jiaping Liu
- 5. Study on the compound proportion of early strength agents for non-steam curing concrete** 43
Peng Zhao, Lei Qin, Lizhi Zhou
- 6. Feasibility analysis on application of mixed waste glass as aggregate in the design of ultra-high performance concrete (UHPC)** 50
Rui Zhong, Jingquan Wang, Yuqing Hu
- 7. Microstructure and micro-zone compositions of interfacial transition zone between steel fiber and cement matrix** 56
Zhenyu Pi, Huigang Xiao, Xianzhang Dong, Rui Liu, Hui Li

II Rheological Properties and Volume Stability

- 8. The influence of rheological properties on the layer deformation in extrusion and deposition of 3d printed mortar** 66
Zifan Geng, Zhuoheng Bao, and Zhicong Deng
- 9. Influence on the workability and rheological properties of ultra-high performance concrete (UHPC) by ultrafine clay** 75
Zhenchuan Liu, Tao Zhu, Shengjun Ban, Jianhu Lang, Xiaobo Zheng

10. Evaluating decrement of water flux from crack self-closure in concrete	85
Sailong Hou, Caijun Shi, Kai Li, Zemei Wu	
11. Internal curing of superabsorbent polymer (SAP) in ultra-high strength concrete with cement-silica fume-slag binder	95
Jianhui Liu, Caijun Shi	
12. Autogenous shrinkage of UHPC with SRPCA	105
Guo Yang, Hao Wang, Disheng Xu, Zhangli Hu, Jiaping Liu	
13. Effect of Nano-Tio2 on the properties of white UHPC	112
R. Ma, W. Zhang, A.G. Wang, D.S. Sun	
14. Effects of superabsorbent polymer combined with expansive agent on shrinkage of ultra-high performance concrete	119
ChenYang, Wang Wenbin, Zheng Xiaobo, Liu Jianzhong, Liu Jiaping	
15. Effect of micro- and nano-particle on rheological properties of cement-based materials with low water-binder ratio	127
Xin Zheng, Jianzhong Liu, Juyu Xi, Xiaobo Zheng, Xinwen Zhou, Fangyu Han	

III Fiber Reinforcement and Mechanical Properties

16. Mechanical performance and environmental assessment of ultra-high performance concrete with recycled sand	137
H. Chu, J. Qin, L. Gao, F. Wang, J. Tang, J. Jiang	
17. Effect of curing temperature on the mechanical property and hydration of UHPC	145
Wen Yang, Yaoling Luo, Yuxin Gao, Yuhao Xie, Xinyi Yan	
18. Prediction of elastic modulus of ultra-high performance concrete	156
Xue Ouyang, Caijun Shi, Zemei Wu	
19. Study of damage of ultra-high performance concrete under load-temperature coupling action	163
XIA Xizhi, LIU Zhiyong	
20. Experimental study on the effects of steel fiber to UHPC compressive strength	177
J. YANG, B.C. CHEN, C. LI, Q. W. HUANG	
21. The influence of fiber orientation on flexural behavior of steel fiber reinforced cementitious composites	185
Wei Luansu, She Wei, Mu Ru, Xing Peng	

22. **Characteristics of ductility enhancement of concrete by a macro polypropylene** 192
Zhu Hongbo, Zhou Haiyun, Gou Hongxiang
23. **Experimental research on basic mechanical properties of ultra-high performance concrete mixed with fiber** 205
LI Fuhai, JIANG YiLin, TANG Huiqi, WEN Tao, FENG Li, GAO Hao, CHEN Zhao
24. **Effect of steel fiber addition on ultra high performance concrete flexural toughness** 211
Zhu Congxiang, Xu Jun, Ge Chen
25. **Effect of hybrid steel fiber on the static mechanical properties of eco-friendly UHPC containing aeolian sand** 218
Liguo Wang, Taotao Feng, Lanxin Wang, Fengjuan Wang, Jinyang Jiang
26. **Effects of hybrid steel fiber content and proportion on fresh and mechanical properties of UHPC** 225
Mingliang Zhao, Xinwen Zhou, Fangyu Han, Jin Lv, Jianzhong Liu

IV Behaviors of Elements and Structures

27. **Static and fatigue equi-biaxial flexural behavior of R-UHPFRC thin slab-like elements** 238
Xiujiang Shen, Eugen Brühwiler, Xudong Shao
28. **Numerical analysis on torsional capacities of prestressed ultra-high performance concrete rectangular beams** 249
Y. S. LI, J. Z. SU, B. C. CHEN
29. **Research review of precast structure connected by UHPC material** 257
XIONG Xueyu, HE Linyi, ZHANG Yifang, BAO Lianjin, DONG Zhen
30. **Effect of concrete strength on the shear performance of UHPC deep beam** 264
J. ZHOU, B. CHEN, J. SU
31. **Bond behavior of GFRP bars in ECC with short embedded length** 273
L.F. Zhang, Y. Zheng, S.W. Hu

V New Structures and Specification

32. **Experimental study on performance of UHPC columns reinforced with CFRP and steel bars subjected to cyclic lateral load** 279
Rui Hu, Zhi Fang, Wenchang Fang

33. **Experimental study on flexural behaviors of segmental PU-RC composite box girders** 286
Y. C. CHEN, J. Z. SU, Z. H. CHEN, F. Z. GUO, B. C. CHEN
34. **Experimental Study on Performance of Lap-Spliced CFRP Bars in UHPC** 294
Jiaxing Chen, Zhi Fang, Xiao Chen
35. **Experimental and numerical study on a new precast UHPC beam-column joint** 302
Ziyu Zhang, Ran Ding, Jiansheng Fan
36. **Research and application for a steel deck pavement maintenance with hybrid fiber reinforced lightweight aggregate concrete and shear studs** 310
Jun Fu, Qingjun Ding, Zheshi Wang, Dawei Jia
37. **Technical requirements for core concrete material of the UHSC-filled steel tube** 318
L. Li, B.C. Chen, J.P. Liu, J.G. Wei, W. Huang

VI Casting Performance and Application

38. **Comparative studies of the effect of ultra-high performance concrete and normal concrete as repair materials on bond strength** 332
S. Feng, H. Xiao, H. Li
39. **Performance of a steel bridge deck pavement structure with ultra-high performance concrete based on resin bonding** 344
Hui Zhang, Peiwei Gao, Lei Cui, Youqiang Pan, Kuan Li
40. **Factors affecting bond between old and new ultra high performance concrete (UHPC)** 357
K. W. Lu, Y. M. Yao, M. D. Wang, J. Q. Wang
41. **Effect of cement type and casting technology on frost resistance of runways concrete in deicing solution** 365
Longxin Gao, Yong Lai, Yingchen Zhang, Huigui Zhang, Wuman Zhang
42. **Experimental study on vibration protocols of prefabricated coarse aggregate UHPC pavement** 373
Canhui Zhao, Kangkang Wang, Kailai Deng, Bing Cui
