

2022 Banff Pork Seminar

Advances in Pork Production Volume 33

Online
5-7 January 2021

Editors:

Michael K. Dyck
Ben Willing
Ashley Steeple

ISBN: 978-1-7138-5756-3

Printed from e-media with permission by:

Table of Contents

4	❖	Preface
5	❖	2022 BPS Advisory Committee
6	❖	List of Sponsors
8	❖	Index of Advertisers
9	❖	Program of the 2022 Banff Pork Seminar
11	❖	Table of Contents

Plenary Sessions

21	❖	Global Pork Market Driven by Covid-19, ASF, & Rising Input Costs <i>Brett Stuart</i>
31	❖	Positioning Canadian Pork in a Post Covid-19 Environment <i>Trevor Sears</i>
38	❖	Fake Invisible Catastrophes & Threats of Doom <i>Patrick Moore</i>
42	❖	Successful Strategies Used to Prepare for African Swine Fever (ASF) in Canada <i>Christa Arsenault</i>
54	❖	Views of an Agricultural Immigrant <i>Vincent ter Beek</i>

Breakout Sessions

1. Water Quality

63	❖	Water Quantity & Quality On-Farm Assessment <i>Susan Watkins</i>
----	---	--

- 71 ❖ **Identifying What's In Your Water & How to Improve It**
Martine Giguere

2. Feeding

- 87 ❖ **Precision Nutrition & Feeding Enabled by Technology**
Brent Frederick

- 95 ❖ **Reducing Feed Cost in Grow-Finish: Alternative Feedstuffs & Production Strategies**
Eduardo Beltranena

3. Human Resources

- 107 ❖ **Love the Ones You're With: The Secret to Employee Retention**
Dennis Robles

- 116 ❖ **When Stress is More Than a Season**
Lesley Kelly

4. Innovators

- 225 ❖ **Disease-causing *Brachyspira hamptonii* efficiently harvests iron, likely outcompeting beneficial bacteria**
Hannah Burlet

- 233 ❖ **Immunological evaluation of an autogenous vaccine used in sows to protect piglets against *Streptococcus suis* infections**
Alison Jeffery

- 239 ❖ **The effect of limiting dietary non-essential amino acids on lysine requirement for protein deposition in growing pigs**
Carley Camire

5. Management & Production

- 124 ❖ **Benchmarking Production Trends & Mortality**
Greg Bilbrey
- 136 ❖ **Are Your Piglets Ready to Fly the Coup? Setting Your Pigs up For a Successful Weaning, and On & Off the Sow Farm**
Jessica Law
- 142 ❖ **Impact of Wean Age on Reproduction & Grow Finish Performance**
Brady McNeil

6. Sow Productivity

- 151 ❖ **Have You Hit a Farrowing Rate of 95% This Year?**
Jean-Philippe Martineau & Dan Bussieres
- 159 ❖ **Nutrition as it Relates to Increased Sow Productivity: The value of Fat in Lactation Diets**
Erin Holmes
- 168 ❖ **The Impact of Reproductive Technologies on Breeding Herd Efficiency**
Kilby Willenburg

7. Welfare

- 180 ❖ **Conversion to Loose Sow Housing: Polar Pork Farms Experience**
Daryl Possberg
- 184 ❖ **The Code of Practice Five Year Review: Implications for Future Code Revisions**
Yolande Seddon

8. Health

- 194 ❖ **Applications of Next Generation Sequencing to Inform Disease Management Decisions for Livestock**
Maria Clavijo
- 205 ❖ **Poop, Blood, Spits & Others: The art of Sampling Pigs**
Karine Talbot
- 214 ❖ **Vaccine Program & On-Farm Application: How to Get the Most Out of Your Event**
Cordell Young
- 224 **Abstracts: Best of Current Research**

ABSTRACTS: Best of Current Research

Microbiology and Immunology

- 224 ❖ Pig fecal microbiota during early stages of production *Maddison Arsenault, Brandon Lillie, Khurram Nadeem, Ehsan Khafipour and Vahab Farza*
- 225 ❖ Disease-causing *Brachyspira hampsonii* efficiently harvests iron, likely outcompeting beneficial bacteria
Hannah Burlet and Matheus Costa
- 226 ❖ Ear-tip necrosis is not associated with virus, likely due to bacterial infection
Matheus O. Costa, John C. S. Harding and Roman Nosach
- 227 ❖ Artificial intelligence for Enzootic Pneumonia and Atrophic Rhinitis lesions evaluation
Mike DeGroot, Ramon Jorda and Irene Galé
- 228 ❖ *Bordetella bronchiseptica*, new detection techniques for a re-emergent bacterial pathogen in an antibiotic reduction scenario
Mike DeGroot and Irene Galé
- 229 ❖ Coinfections between virulence factors of *Escherichia coli* and *Clostridium perfringens* type C in Canada
Mike DeGroot, Oriol Boix and Daniel Angelats
- 230 ❖ Post-weaning diarrhea in newly weaned pigs challenged with enterotoxigenic *E. coli*
Arndt, E., Hanna, H., Amezcua, M., Friendship, R. Farzan, A.
- 231 ❖ A challenge study to investigate the association between nursery diet complexity and *S. suis* disease
Hanna, E., Arndt, E., Amezcua, R., Friendship, R., Farzan, A.
- 232 ❖ Early-life florfenicol administration has only temporary effects on the pig gut microbiome
Devin B. Holman and Katherine E. Gzyl
- 233 ❖ Immunological evaluation of an autogenous vaccine used in sows to protect piglets against *Streptococcus suis* infections *Alison Jeffery, Mélina Gilbert, Lorelei Corsaut, Simon Cloutier, Marie-Christine Frenette, Charles Surprenant, Marcelo Gottschalk and Mariela Segura*

- 234 ❖ PRRS virus detection in dust collected with alternative aerosol collection tools
Christian Klopfenstein, Claudia Coulombe, Chantale Provost, Frédéric Fortin, Marie-Claude Poulin and Carl A. Gagnon
- 235 ❖ Rapid, efficient and safe FTA card-based serotyping of *Actinobacillus pleuropneumoniae*
Oliver W. Stringer, Yanwen Li, Janine T. Bossé and Paul R. Langford
- 236 ❖ Why is there no vaccine for Swine Dysentery? B-cells: the missing link
Christine T. Yang, D.G. Ruwini Sulochana Kulathunga and Matheus O. Costa
- 237 ❖ Implementation of prescription-platform vaccines for emerging and highly variable pathogens of swine
A. Young, Ph.D and A. Petersen, M.S
- 238 ❖ A preliminary comparison of fecal microbiomes from early life to a week post weaning in commercial pigs across Canada
B. McCuaig, L. McCarthy, M. Arsenault, T. Prisnee, J. Harding, B. Lillie, V. Farzan, B. Willing, M. Links and A. Van Kessel

Nutrition

- 239 ❖ The effect of limiting dietary non-essential amino acids on lysine requirement for protein deposition in growing pigs
Carley M. Camire (BScH), Lucas A. Rodrigues (DVM, MSc), Josiane C. Panisson (PhD), Anna K. Shoveller (PhD), Daniel A. Columbus (PhD)
- 240 ❖ Soybean meal-based diets, effects on growth performance and health in nursery pigs
Amezcuca, R., Arndt, E., Hanna, E., Friendship, R. and Farzan, A.
- 241 ❖ Effects of dietary supplementation with spray dried plasma, dried intestinal hydrolysates or bovine colostrum on the growth and intestinal health of weanling pigs
Luca Lo Verso, Philippe Tanguay, Marie-Pierre Létourneau Montminy and Frédéric Guay
- 242 ❖ Effects of feeding mid or zero tannin faba bean on energy, protein and amino acid, digestibility in growing pigs
P.W. Nyende, E. Beltranena, and R.T. Zijlstra

- 243 ❖ Effect of nursery dietary protein source and functional amino acid supplementation on the response of pigs to a subsequent Salmonella challenge
Lucas A. Rodrigues, Josiane C. Panisso, Andrew G. Van Kessel and Daniel A. Columbus
- 244 ❖ Effect of functional amino acid supplementation in nursery diets on the response of low and normal birth weight piglets to a subsequent Salmonella challenge
Lucas A. Rodrigues, Josiane C. Panisson, Andrew G. Van Kessel and Daniel A. Columbus
- 245 ❖ Acid-binding capacity of feed in swine nutrition
L.F. Wang, J.R. Bergstrom, J.D. Hahn, M.G. Young and R.T. Zijlstra

Sow & Piglet

- 246 ❖ Maternally derived antibodies test – MDA TT: tool to evaluate the colostrum intake
Mike DeGroot, Joaquin Miguel, Irene Galé
- 247 ❖ Evaluating piglet welfare after long and short transport using behavioural measures
H.R. Golightly, J. Brown, R. Bergeron, Z. Poljak, and T.L. O’Sullivan
- 248 ❖ Examining sow anemia and the incidence of stillbirths
Sarah V. Hill, Maria Amezcua, Eduardo Ribeiro, Terri O’Sullivan and Robert M. Friendship
- 249 ❖ Does feeding time affect farrowing time in sows?
Josiane C. Panisson (PhD), Hyatt Frobose (PhD), Jennifer Brown (PhD) and Daniel A. Columbus (PhD)
- 250 ❖ Effects of heat lamp location and piglet placement at birth on body temperature, suckling behaviors and survival
Aridany Suarez-Trujillo, Alicia Denton, Alton Holstine, Kara Stewart

Meat Quality

- 251 ❖ Influence of carbohydrate rich co-products and fiber on growth performance and fat quality in finishing pigs
Ferial Amira Slim, Luca Lo Verso and Frédéric Guay

- 252 ❖ Genome-wide association analyses (GWA) for carcass and meat quality traits in pigs using imputed whole-genome sequence (WGS)
Marzieh Heidaritabar, Abe Huisman, Marco Bink, Patrick Charagu and Graham Plastow
- 253 ❖ Pork meat and belly qualities as influenced by feed efficiency selection in a sire and a dam line
A. Saikia, G. Mejicanos, J. Rothy, E. Rajendiran, C. Yang, M. Nyachoti, H. Lei, E. Knol, R. Bergsma, Y. Wu, S. Jin and A. Rodas-Gonzalez
