

Pipelines 2022

Planning and Design

Proceedings of Sessions of the Pipelines 2022 Conference

Indianapolis, Indiana, USA
31 July – 3 August 2022

Editors:

Shaoqing Ge
Jeffrey A. Shoaf

ISBN: 978-1-7138-5788-4

Printed from e-media with permission by:

Contents

Capital Planning

Lowering Risk through Data-Driven Capital Planning	1
Ryan B. Sidler	
One Company, One Culture—Citizens’ Consolidated Planning Approach to Maintain Pipeline Integrity	9
Becky Schaefer	
Risk-Based Asset Management Modeling for Project Prioritization and CIP Developments.....	16
Rajat K. Chakraborti, Jagjit Kaur, Jonathan M. Green, Phil Facer, Chris Williams, and Laurens van der Tak	

Construction Planning

Design-Build Teams Harness the Benefits of Early Engagement of Material Suppliers	26
K. Couture and W. Self	
Reciprocity in the Trenches—How Collaboration between Owner, Engineer, and Contractor Can Lead to a Successful Large Diameter Pipeline Project	34
Andre Garces, Tom Snyder, Michael Suarez, and Zac Bolen	
Staying Ahead of the Curve: Pre-Contract Best Practices for High Value Specialty Projects of Buried Pipelines.....	43
Alexandra Garcia Grover, Anna Pridmore, Mark Poppe, and Andy Williams	

Modeling and Analysis

Restoration Data Collection and Modeling for a Modified Cross-Section Close Fit Lining Trenchless Technology Application.....	51
Dan Koo, Jayong Koo, Taehyeon Kim, Kibum Kim, Jinseok Hyung, Sangbong Park, and Seolhee Park	
Steel Culvert Investigation from Field Testing to Design Equations	58
Yuchen Liu, Ian Moore, and Neil Hoult	

Oil and Gas Applications

Design and Characterization of Binary Nanofiller Reinforced Coating with Superior Protective Properties for Oil and Gas Pipelines66
 Xingyu Wang, Hong Pan, Matthew Perason, Zi Zhang, Fujian Tang, Qi Cao, Xi Chen, and Zhibin Lin

Front-End Planning for Pipeline Construction Projects.....76
 Ibukun Awolusi, Chinedu Okonkwo, Ayo’ Lahanmi, and Ayodeji Momoh

Trans Mountain Corporation Overcomes Numerous Challenges to Construct the Trans Mountain Expansion Project.....85
 Manjiri Khare, Rob Brown, Jim Murphy, and Biju Kochatt

Pipe Material

Are Life Cycle Assessments of Pipe Materials Really That Important?95
 Jay Parvez

Case Study—Major PCCP Failures in the West, Their Causes, and Why They Wouldn’t Happen Today102
 David Tantaean and Kevin Brown

Designing Installations with High Density Polyethylene: Open Cut Construction112
 Edward Alan Ambler and Peter Dyke

Fort Worth’s Twin 90-Inch Sewer Pipe Emergency Bank Stabilization.....121
 Robb Otey, Tony Sholola, and Nick Lester

Las Vegas Boulevard Waterline Replacement: Designing Water Infrastructure for a Highly Visible, Rapidly Changing Location130
 Aric L. Farnsworth and Ryan Pearson

Pipe Performance Curves: What Are They, and Why Their Contours Vary.....140
 Bob Walker

Planning

Planning a Water Meter Program with CLASS149
 Justin M. Burnett

Should Our Critical Assets Have an End of Life?156
 Clinton Loe, Greta Vladeanu, Craig M. Daly, and Logan Fesenmair-Black

Subsurface Utility Engineering in Practice: Scope of Service Focus166
 Ahmed Jalil Al-Bayati and Alexis Kinter

Rehabilitation and Renewal Applications

Construction Cost Comparison between Trenchless Cured-in-Place Pipe (CIPP) Renewal and Open-Cut Replacement for Sanitary Sewer Applications.....171
 Vinayak Kaushal, Mohammad Najafi, Ramtin Serajiantehrani, Mohammadreza Malek Mohammadi, and Salar Shirkhanloo

Exploration of Engineering Design Methods for Cementitious Spray Applied Liner Systems.....178
 Joseph R. Royer and John C. Matthews

Seismic

A Novel System for Assuring the Performance of Steel Water Pipelines in Ground Settlement Areas.....188
 Polynikis Vazouras, Brent D. Keil, Panos Dakoulas, Richard D. Mielke, and Spyros A. Karamanos

Application of SPF Large Displacement Type in Vancouver, Canada.....200
 H. Nakazono, N. Hasegawa, K. Taniguchi, and T. Imai

Prescriptive Approach to Design Buried Pipelines for Landslide Induced Permanent Ground Deformations.....210
 Sri Rajah

Reduction of Bending Moments on Hydraulic Structures in Seismic Areas.....224
 Luke Prinsloo and Chris C. Sundberg

Seismic Performance Classification of Hazard Resilient iPVC Pipeline Systems232
 Nicholas W. Berty, Brad P. Wham, Cory R. Ihnotic, Jessica L. Ramos, and Hailey-Rae Rose

Stiffener and Blowoff Design

Large Diameter, High Pressure Blowoff Design242
 Mike Lehrburger and Kyle LeBrasse

Retrofit of 60-Inch-Diameter Stainless Steel Tank-Inlet Riser Pipe with Stiffener Rings251
 Henry H. Bardakjian, Mark W. Bush, and Alissa Lockett

Thrust Restraint

Past, Present, and Future of Thrust Restraint of PCCP Pipelines with Tied Joints.....259
 Peter D. Nardini and Mehdi S. Zarghamee

Axial Elongation and Contraction of Buried Pipe due to Change in Temperature and Pressure.....267
 Mark C. Gemperline

Thrust Restraint of Buried Pipelines272
 Mehdi S. Zarghamee and Daniel P. Valentine

Trenchless and Tunneling Solutions

Challenges and Solutions for Carrier Pipe Design and Installation in Tunnels283
 Eric Engelskirchen, Rusty Gibson, Amanda Stubblefield, and Brian Glynn

Choosing the High Road: Large-Diameter Waterline Shallow Crossing versus Tunneling under the Storm Box293
 Nicholas Kallmyer and Harrison Steed

Digging into the Deep Tunnel Solution the Eagle Creek CSO Abatement Project300
 Olivia Hawbaker and Michael Miller

Large Pilot Tube Guided Bore in Downtown Jacksonville—A Solution for Challenging Ground Conditions.....309
 Christine Ellenberger, Arthur Bides, Andrew Bursey, and Timothy Schnell

Tel Aviv’s Third Sewage Transmission Line: Going Where No Pipeline Has Gone Before319
 Shalom Kfir and Amir Shalev
