

PORTS 2022

Port Planning and Development

Papers from Sessions of the 16th Triannual International
Conference

Honolulu, Hawaii, USA

18 – 21 September 2022

Editors:

Philip J. Erbland

Bryan N. Jones

ISBN: 978-1-7138-6203-1

Contents

Environmental

A Flood of Red Tape: Comparing the Floodplain Development Regulations of Port Cities.....1
Peter F. Brennan, Kaitlyn Frega, and Maximo L. Argo

A Probabilistic Framework for Climate Change in Design11
Jeffrey A. Oskamp, Johnny D. Martin, Eric D. Smith, and Andrew M. Forbes

An Innovative Case Study on Coastal Resilience: Tyndall Air Force Base (TAFB), Panama City, Florida23
Luce Bassetti, Nigel Pontee, and Jason Bird

Beneficial Reuse of Dredged Contaminated Sediments for Redevelopment of an Upland Cleanup Site32
Jessi Massingale, Corey Wilson, and Chris Hartman

Bulkhead Barrier Wall Design and Construction Considerations: The Gowanus Canal40
Kayla B. Newton and Matthew J. Page

Completing the Installation of 10 Megawatts of Photovoltaic Solar Power at the Port of Los Angeles.....53
Carlos C. Baldenegro

Conley Terminal Soil Reclamation and Reuse Program: A Story of Successful Contaminated Material Management.....63
Ileen Gladstone, Nhuy Hoang, and Chester Myers

Coupled Modeling Approach to Quantify Shoreline Erosion and Beach Morphology due to Passing Vessels.....78
A. Sharma, F. Salcedo, and S. Fenical

Port of Oakland: Developing the World’s First Fixed Track Mobile Shore Power Outlet System.....88
Nathan Tang, Edwin Draper, Tracy Fidell, Jennifer Lim, Matthew Trowbridge, and Sean McCaskill

Designing Ports for Rising Seas: PortMiami’s Approach to Staying Afloat.....97
Erica Harris, Justin Vandever, Philip Hadfield, and Helga Sommer

Development of New PIANC Guidance for the Beneficial Use of Dredged Material.....	108
Burton Suedel, Victor Magar, and Luca Sittoni	
Evaluating the Effects of Increased Dredge Depths on Existing Structures	119
Timothy D. Weeks and Jeff A. Fisher	
Fast-Track Integrated Environmental Cleanup and Maritime Terminal Redevelopment of Former Mill Site	130
N. Watson, E. Gerking, and D. Frazer	
Holistic Design of Resilient and Adaptive Waterfronts and Application in San Francisco	142
Luce Bassetti, Darren Milsom, and Brad Benson	
Innovative Approaches for Port-Led Advance Mitigation and Mitigation Banking	153
Dan Berlin	
Innovative Collection and Reporting for Marine Mammal Monitoring, Portsmouth Naval Shipyard Dry Dock 1	163
Alexander J. Pries, Kari Moore, Ian W. Trefry, and Douglas B. Stewart	
Keeping the Vision: A Small Port’s Journey to Comprehensive Remediation of a Wood Treating Site.....	171
Joshua C. Elliott and Laurie Olin	
Machine Learning Based Seagrass Growth Prediction for Mitigation and Habitat Assessment	181
Patrick McLaughlin, Abhishek Sharma, Arpit Agarwal, Scott Fenical, and Josh Carter	
Maryland Port Administration, Dundalk Marine Terminal: Resiliency for an Active RO/RO Terminal.....	191
John C. Schirmer and Steven W. Johnson	
Innovative Military Installation Resiliency Planning and Adaption Alternative Communications Techniques	202
Alex Viana and John Ouellette	
PIANC WG 175—A Practical Guide to Environmental Risk Management (ERM) for Navigation Infrastructure Projects.....	211
J. Lally, B. Suedel, K. Kane, R. Gardner, D. Moore, K. Allen, M. Vanwonderghem, A. Parry, and T. Bridges	
Planning for the Upper Mobile Bay Beneficial Use Wetland Creation Site.....	220
Mary Sullivan, Nick Cox, Meg Goecker, and Doug Otto	

Port of Houston Emission Reduction Strategy and Business Case Analysis	229
Vijay Agrawal	
Port of Los Angeles' Resiliency in Capital Improvement Projects	239
Adrienne Fedrick Newbold, Bettina Kaes, Jeff Khouri, Richard Mast, and Justin Vandever	
Salmon Habitat Restoration Design and Permitting at Vigor Shipyards, Seattle	249
E. Murray, K. Snider, S. Stainer, and J. Cook	
Seattle Seawall Historic, Seismic, and Operational Challenges in Concert with Habitat Improvements	259
N. John Bingham, Emy Carpenter, Garry Horvitz, and Jim Shannon	
Terminal Wide Industrial Stormwater Treatment on a 200-Acre Container Terminal	272
Ellis Beckwith and Emily Jones	
Urban Waterfront Redevelopment Incorporating Sea Level Rise Considerations, Edmonds, Washington.....	284
Blaine McRae, Shannon Kinsella, and Paul Crocker	
Washington State Ferries Sea-Level Rise Study	296
Abigail Gertz, Aaron Porter, and Francis Salcedo	
Whatcom Waterway Cleanup in Phase 2 Areas	307
M. Woltman, K. Gross, and T. Wang	
<i>Equipment and Systems</i>	
Balance Crane—A New Type of STS Crane in Development	315
Kenton Lee, Simo Hoite, Lu Yan, and Anna Dix	
Eccentricity Coefficient in Berthing Energy Calculations	325
Julian Cajiao and Jon Phelan	
Design Challenges—Seward Marine Center, Arctic Research Vessel Berth in Seward, Alaska	336
M. R. Hasan and Jim Van Ness	
Digital Twins for Safe and Efficient Port Infrastructure Management	346
Barritt Lovelace, Ryan Hafer, and Bibhuti Aryal	
Maintaining the Historic Alaska Marine Highway System	356
Jordan T. Furlan and Robert C. Davies	

Port of Long Beach: Transforming Terminal Infrastructure and the Push to Zero Emissions366
Fred Patricio and Morgan Caswell

STS Crane Stowage Design: Key Considerations and Case Study378
Anna Dix, Erik Soderberg, and Tais Shiratsubaki

The Gò Công International Port and Landside Development.....390
Reece F. Shaw and Dang Nguyen Khang

Landside Connections

Ground Improvements for Georgia Ports' Mason Mega Rail Project400
Guoming Lin, Yanbo Huang, Christopher Novack, Oliver Himbert, Brad Woodall, Daniel Peavy, and Honor Hutton

Rail System Strategic Planning and Lessons Learned through Major Events409
Michael Leue, Kerry Cartwright, Shashank Patil, and Carlo Luzzi

Georgia Ports Authority's Mega Rail Project: Increasing Intermodal Capacity While Maintaining Intermodal Operations419
Daniel Peavy

Bigger Isn't Better—Managing Uncertainty to Phase the Pier B On-Dock Rail Support Facility.....429
Ronald Richardson, Nathan deSousa, and Try Khou

Navigation and Waterways

Analysis of the US Port Network Using AIS Data: Metrics for the Caribbean438
David L. Young, Marin M. Kress, Katherine F. Chambers, and Brandan M. Scully

Charleston Harbor Post 45 Deepening: A Success Story through Collaboration449
Edward H. Stehmeyer III and Jeremy R. Johnson

Designing a Yacht and Superyacht Marina for the Pacific Coast of Peru461
Daniel S. Natchez and Jack C. Cox

Jacksonville Harbor Dredged Material Management Long Term Assessment.....471
Jonathan T. Armbruster

Maryland Department of Transportation Maryland Port Administration's Innovative Reuse and Beneficial Use of Dredged Material Program481
Walter Dinicola and Kristen Keene

Modeling Structural Alternatives to Reduce Navigation Channel Shoaling in Waukegan Harbor, Illinois489
 L. Lin and Z. Demirbilek

Real-Time Vessel Navigation Simulations in Design of Naval Station Channel Reconfiguration499
 Gwen S. Lawrence, Eric D. Smith, and Jeffrey A. Oskamp

SMART Planning and Deep Draft Navigation: Houston Ship Channel Expansion Channel Improvement Project511
 Ashley Judith, Dana Cheney, Lori Brownell, and Richard Ruchhoeft

Stabilization of Dredged Sediments: Enabling Beneficial Re-Use Solutions in a Contaminated Port518
 Craig Dengate, Tom Gillespie, and Wijnand Udemá

Successful Implementation of Award-Winning FRP Monopiles for Jamestown-Scotland Ferry Terminals526
 Corey Sechler, Steve Shannon, and Andrew Loff

When a Breakwater Does Not Look Like a Breakwater by Emulating Nature.....536
 Jack C. Cox

Port Planning and Operations

21st Century Opportunities, Hazards, Roles, and Responsibilities Facing the Nation’s Water Resources546
 Joe D. Manous Jr. and Elizabeth Collins Burkhart

A Resilient Path for the Marine Transportation System: Hurricane Response and Recovery Recommendations.....557
 Katherine F. Chambers, Joshua H. Murphy, Jessamin A. Straub, Alejandra Enriquez, Emily Russ, and Kathryn McIntosh

Advanced Modeling Techniques Make the First and Last Miles the Best Miles at the Port of Long Beach565
 Beth Kulick, Rick Degman, and Mark Erickson

Coastal Practice for Flood Resiliency Projects574
 Xiao (Steven) Li and Abbas Sarmad

Evaluation of Accelerated Rail Corrosion at Bulk Terminal, Port of Long Beach Pier G Berths 212–214 Terminal.....582
 Todd Graham, Julia Wu Stephan, Scott Wyatt, Richard Lewis, and Ramanjit Brar

Green Ports—Sustainable Port Development	592
Patrick McCallum	
Inspection and Maintenance of Ferry Terminals: Risk Reduction and Cost Efficiency	601
Tony Bleasdale, Taylor Carr, Robert Seitz, and Carol Turner	
Seattle Multimodal Terminal at Colman Dock Project Capacity Management and Planning	612
Issac Ansingh and Kustaa Mansfield	
Maritime Planning at Smaller Scales	621
Thomas Ward and Hardik Gajjar	
NAVFAC Lessons Learned from Contingency Engineering of Ports and Piers in the Pacific AOR.....	632
Stephen Jones	
Planning Waterfront Emergency Response Facilities with the Future in Mind.....	644
Craig Lewis, Satish Chilka, and Magdalena Ryor	
Port Facilities’ Asset Management: Coping with Aging Infrastructure and Constrained Budgets in the Long Term	656
Henk Voogt	
Port of Los Angeles’ Public Access Investment Plan and Implementation for the LA Waterfront.....	664
Christine Honeybone, Dina Aryan-Zahlan, and Sue Lai	
Ports—A Key Resiliency Hub before, during, and after the Storm.....	674
Paul Tschirky and Steve Kral	
Small Ports in Transition Port of Woodland, WA.....	682
Jennifer Wray-Keene, Scott Keillor, and Sam Roberts	
Strategic Waterfront Infrastructure Investment Plan for Joint Base Pearl Harbor-Hickam.....	692
Daniel O’Connor and Daniel Stromberg	
Systematic Approach to Predicting Remaining Service Life of US Navy Piers	700
James P. Connolly, Alberto Sanchez, Henrik Dahl, Monica Martinez-Maruri, and Anne-Marie Langlois	
Port of Long Beach Traffic Management While Building New Gerald Desmond Bridge and Middle Harbor Container Terminal	712
Rajeev Seetharam, Theresa M. Dau-Ngo, and Peter Kim	

Project Delivery

Cost Estimating and Cost Management for Marine Construction	723
Zachary D. Jenkins and Michael G. Deiters	
Hugh K. Leatherman Terminal—A Mega Project Success Nearly 20 Years in the Making.....	734
Edward (Butch) Weber, Andrew Thiess, Lucy Terza, and Edward H. Stehmeyer III	
Hugh K. Leatherman Terminal—Site Preparation, Surcharge Program, Utilities, and Foundation Design	745
Ryan Keiper, Edward (Butch) Weber, and Lucy Terza	
Hugh K. Leatherman Terminal—Transforming a Former Naval Facility into a Modern Container Terminal.....	756
Edward H. Stehmeyer III, Mark Messersmith, and Edward (Butch) Weber	
Hugh K. Leatherman Terminal—Wharf Extension Design Considering Phase 1 Lessons Learned.....	767
Craig M. McGillawee, Lucy M. Terza, and Ryan N. Keiper	
Port of Long Beach Middle Harbor Terminal: A Collaborative Approach to Port Project Delivery	779
Monique Lebrun, Cesar Larios, Ashebir Jacob, and Reza Alamir	
Recapitalization of a 30-Year-Old Dry Dock: Project Insights, Risk Management, and Team Building	789
Amy Hoffer, John McCoy, and Mike Bregel	
Toe Wall Design and Construction for Busy Container Berth Deepening.....	799
Jyotirmoy Sircar, Alfredo Rivera, and Leon Carrillo	

Terminal Planning and Design

Applying Lessons Learned for a New Battery Exchange Building at the Automated Middle Harbor Terminal	809
Kent A. Saylor and John E. Litzinger	
Completing the South Texas Gateway Terminal Permitting, Design, and Construction in 18 Months	818
Ted W. Trenkwalder, Chris Mills, Vince Kolbuck, Warren Stewart, and Michael O’Sullivan	
Design-Build Delivery of Cement Imports Dock Configured for Future Liquid Exports.....	828
Miguel Forero, V. K. Kumar, Jyotirmoy Sircar, Natasha Fudge, and Eileen Elizondo	

First Major US Offshore Wind Staging Terminal: Planning, Engineering, and Construction.....838
 Carsten Agerbæk, Joshua Singer, Matthew Trowbridge, and Elie Hasso

Geotechnical and Structural Adaptations for the Seismic Design of a New Ferry Terminal in Washington848
 Madan B. Karkee, Garry E. Horvitz, Michael B. Chamberlain, Andrew J. Gastineau, Andrew K. Bennett, and Todd Mooney

Historic Pier Restoration and Repurposing: Iconic City Pier Transformed to World Class Luxury Hotel859
 Jared M. Freeman

How US West Coast and Hawaii Ports Can Prepare for the Specialized Requirements of Floating Offshore Wind870
 Carly Willmott, Marc Percher, Brent Cooper, and Ted Trenkwalder

Large Scale Dry Bulk Terminal Expansion in the Heart of Vancouver, British Columbia.....885
 Jurgen Franke, Steve Yee, Kevin Wong, and Keith Arnstead

New Ferry Terminal Provides a Resilient Solution for a Needed Commuter Route.....893
 Craig Lewis, James Connolly, and Chad Mason

New Graving Dock Design Considerations and Challenges904
 Ajaya P. Malla, Carl Schulze, Christina Taborga, Layne Hazama, and Lauren Arizumi

Planning and Simulation of Large-Scale Container Terminal Consolidation for Smart Port Initiatives916
 Yu (Alan) Zhang, Ashebir Jacob, and Bart Vermeer

San Francisco Floating Fire Station 35: Overview and Lessons Learned.....926
 Erik Soderberg, Leah Olson, and Di Liu

Tsunami Design Approaches for Resilient Ferry Terminals936
 Chris Stearns, Hong Kie Thio, Jeremy Butkovich, Christopher Helland, Ali Shahbazian, and Aaron Porter
