Contents

Page Title

Session: Ballast

- 1 **New IMO Convention on ships' ballast water management: need for creative engineering and global partnerships**
Dr J Matheickal, GEF-UNDP-IMO GloBallast Programme; Capt D Pughiuc, International Maritime Organization
- 12 **Computer aided ballast management**
K Reynolds, The Glosten Associates Inc, USA; R Tagg, Herbert Software Solutions Inc, USA
- 20 **Modelling the removal of contaminated ballast water**
Dr A Greig, Dr I Eames, University College London, UK; Dr J Tang, The Chinese University of Hong Kong, Hong Kong SAR; Dr Y Li, University of Hong Kong, Hong Kong SAR
- 29 **Electrolytic system for treatment of ballast water**
R Matousek, D W Hill, Severn Trent DeNora, USA; Prof R P Herwig, J R Cordell, University of Washington, USA
- 40 **Shipboard demonstration of chlorine dioxide on a Swedish flagged Ro/Ro containership and US flagged ITB bulker**
T Perlich, Ecochlor Inc, USA
- 48 **Ballast water treatment technology: the challenges ahead**
Dr A B Pandit, University of Mumbai, India; Dr V V Ranade, National Chemical Laboratory, India; Dr A C Anil, S S Sawant, D Ilangovan, R Madhan, National Institute of Oceanography, India; A Chatterjee, Government of India, India
- 55 **Practical Aspects of Ballast Water Treatment Efficacy and Compliance Testing**
Dr D Wright, University of Maryland, USA

Session: Alarms Human Interface

- 63 **Perception and management of risk - dependence on people and systems**
V Pomeroy, Lloyd's Register, UK
- 73 **Improving the design and management of alarm systems**
Prof B Sherwood Jones, Dr J Earthy, E Fort, D Gould, Lloyd's Register, UK
- 80 **Alarm management on merchant ships**
Ø Rødseth, MARINTEK, Norway; M Knight, R Storari, Carnival Corporation & plc, UK; H Foss, A R Tinderholt, Kongsberg Maritime AS, Norway

Session: Bilge and Waste

- 90 **Pyrolysis for solid waste treatment on Royal Navy platforms**
C Day, QinetiQ, UK; Lt Cdr I Cowper RN, Ministry of Defence, UK
- 106 **Factors affecting bilge water properties and oily water separator system performance**
H Alper, MYCELX Technologies Corporation, USA

Parallel Session A: Emissions

- 118** **On-board emissions monitoring - an environmental leap forward**
S Brown, Martek Marine Ltd, UK
- 126** **Fundamental study on NOx reduction for marine engines with direct water injection**
Prof Dr K Takasaki, Dr H Tajima, S Murakami, K Kume, Kyushu University, Japan
- 138** **An investigation of the performance of natural gas with rapeseed methyl ester pilot injections for marine diesel engine operation**
Dr K D H Bob-Manuel, Rivers State University of Science and Technology, Nigeria; Prof R J Crookes, Queen Mary College, University of London, UK

Parallel Session B: Hydrodynamics

- 149** **Inboard propeller cavitation: a practical guide and new performance model**
D MacPherson, HydroComp Inc, USA; C Turmelle, University of New Hampshire, USA
- 162** **Dynamics of ventilated propeller blade loading on thrusters**
Dr K Koushan Rolls-Royce/MARINTEK UTC, Norway
- 172** **US Navy hydrodynamic design - lessons learned**
D McCallum, McCallum Consulting, USA

Parallel Session C: Marine Engineering Systems and Equipment

- 195** **Experiences with electrically powered podded propulsion units on cruise ships**
J W Hopkins, UK
- 209** **The new generation of LNG carrier machinery**
B Thijssen, Wärtsilä Ship Power Solutions, Finland
- 221** **Electric propulsion for LNG carriers - current and future solutions**
P Manuelle, A Belkentaoui, V Sekula, C Jeand'heur, APC Power Conversion SAS, France

Parallel Session D: Propellers and Thrusters

- 232** **Tip rake: improved propeller efficiency and cavitation behaviour**
K P Vonk, Ir J T Ligtelijn, Wärtsilä Propulsion Netherlands BV, The Netherlands; Prof Dr Ir T van Terwisga, Technical University Delft, The Netherlands
- 240** **The use of non linear models in the analysis of CPP actuator behaviour**
J Bakker, Dr H Grimmelius, Delft University of Technology, The Netherlands; A Wesselink, Wärtsilä Propulsion Netherlands, The Netherlands
- 255** **Addressing thruster noise and vibration**
R Fischer, Noise Control Engineering Inc, USA

- 270 Full-scale comparison of a superferry performance fitted with both high skewed and CLT blades**
Dr G Pérez Gómez, J González Adalid, Sistemar SA, Spain; Dr A García Gómez, Dr J Masip Hidalgo, Dr R Quereda Laviña, L Pangusion, Canal de Experiencias Hidrodinámicas del Pardo, Spain; E Minguito Cardeña, NAVANTIA SA, Spain; P Beltrán, C Galindo, TSI SL, Spain; M Pérez Sobrino, Escuela Técnica Superior de Ingenieros Navales, Spain

Parallel Session E: Marine Engineering Systems and Equipment (contd)

- 287 Biomimetic approach to the design of marine antifouling coatings**
L Chambers, Prof F Walsh, Prof R Wood, University of Southampton, UK; K Stokes, Dstl, UK
- 296 "Cold ironing" - connecting marine and navy ships to the on-shore power supply**
Dr Y Khersonsky, IEEE, USA; D Paul, EarthTech Inc, USA; K Peterson, P2S Engineering Inc, USA
- 304 Wear mechanisms of a blade foot bearing on a controllable pitch propeller**
M Godjevac, Dr H Grimmeliuss, Delft University of Technology, The Netherlands; Prof D Stapersma, Royal Netherlands Naval College, The Netherlands; T van Beek, Wärtsilä Propulsion Netherlands, The Netherlands
- 315 Ship energy performance benchmarking/rating: methodology and application**
Dr Z Bazari, Lloyd's Register EMEA, UK

Parallel Session F: Ship Motion

- 326 Ventilation effects on cavitating wedges and struts**
S Gowing, Y Shen, NAVSEA Warfare Center, USA
- 334 On the relation between flow behaviour and the lateral force distribution acting on a ship in oblique motion**
Ir B van Oers, Delft University of Technology, The Netherlands; Ir S Toxopeus, MARIN, The Netherlands
- 346 Numerical optimisation of propeller/hull configurations at full scale**
Prof L Larsson, Dr B Regnström, FLOWTECH International AB, Sweden; K Han, Prof G Bark, N Bathfield, Chalmers University of Technology, Sweden
- 355 A particle-based 'Lagrangian' CFD tool for free-surface simulation**
D Muñoz, V Gonzalez, M Blain, Next Limit Technologies, Spain; J Valle, CEHIPAR, Spain; J C Díaz-Cuadra, NAVANTIA, Spain

Poster Session

- 370 A generalised mixed flow pump model for waterjets simulation**
Eng G Benvenuto, Ass Prof U Campora, Università di Genova, Italy
- 381 ODMCS modelling and simulation**
D Dave, Prof I Basu, Capt S Deshpande, Tolani Maritime Institute, India
