Contents

Page Title

Session: Ship Design

- 1 **Novel propulsion machinery solutions for ferries**
O Levander, Wärtsilä Corporation, Finland
- 19 **Innovative propulsion plants for large container ships to meet the steadily increasing power demand and record high fuel prices**
K Tigges, Siemens AG, Germany; Prof Dr C Gallin, Gallin Marine Consultants, Germany
- 36 **Power station on the poop deck**
K Daffey, S Loddick, Rolls-Royce, UK
- 49 **High speed video and hull pressure synchronisation to improve propeller design**
Ing G Hagesteijn, MARIN, The Netherlands
- 58 **IMO working group conceives regulations for the protection of fuel tanks**
H Bruhns, Germanischer Lloyd, Germany
- 69 **On the assessment of parametric roll in a random sea**
Dr J J Jensen, DTU, Denmark; Dr A S Olsen, FORCE Technology, Denmark

Session: LNG

- 78 **First principle based analysis procedure for strength assessment of membrane-type LNG containment system due to sloshing impact**
Dr Y Shin, J Kim, B Wang, American Bureau of Shipping, USA
- 92 **Strength of membrane type LNG cargo containment system under sloshing impact**
Prof J M Lee, Prof J K Paik, Prof M H Kim, J W Yoon, Pusan National University, Korea; I H Choe, Dr W S Kim, B J Noh, Hyundai Heavy Industries Co Ltd, Korea

Session: Propeller, Hull and Machinery Interaction

- 109 **Determination of hydrodynamic propeller forces and moments from measured deformations of line shafting**
C Andreau, Tecnicas/Bureau Veritas Group, France; R Ville, Bureau Veritas, France
- 121 **An enhanced method for propulsion shafting alignment taking into account variation in bearing offsets while in service**
Dr Y Song, D Shiraki, H Shihara, Y Nagayama, Nippon Kaiji Kyokai (ClassNK), Japan
- 129 **Application of the strain gauge alignment technique on slow-speed diesel propulsion shafting installations**
B Cowper, LamaLo Technology Inc, Canada; D Rickman, VTHalter Marine Inc, USA; D Sahr, Aker Philadelphia Shipyard, USA

Session: Human Factors

- 144 **Non-technical skills: the vital ingredient in world maritime technology?**
Prof M Barnett, C Pekcan, Southampton Solent University, UK; D Gatfield,
Warsash Maritime Centre, UK
- 155 **SeaSense - real time onboard decision support**
J K Nielsen, N H Pedersen, Dr J Michelsen, FORCE Technology, Denmark; Dr U
D Nielsen, J Baatrup, Prof J J Jensen, DTU, Denmark; E S Petersen, Lyngsø
Marine A/S, Denmark
- 171 **Design for the human factor; the move to goal based rules**
Prof B Sherwood Jones, Dr J Earthy, Lloyd's Register, UK
- 182 **Safety at sea - applying Pareto analysis**
R Ziarati, TUDEV, Turkey
- 187 **A regulatory approach to the human element**
Capt P Townsend, K Tatman, A Sillitoe, Maritime and Coastguard Agency, UK
- 199 **The role of the marine engineer in litigation**
M Allen, Curtis Davis Garrard, UK

Session: Shipbuilding, Repair and Conversion

- 204 **Application of knowledge based engineering methods for standardization
and quality assurance in ship structural design**
B Cowper, LamLo Technology Inc, Canada; D Rickman, VTHalter Marine Inc,
USA; D Sahr, Aker Philadelphia Shipyard, USA
- 215 **Non-commercial scientific and educational project "Virtual EduShip &
Ware" Technology for the safe and humane use of resources in the
hydrosphere and marine industry**
Prof V L Alexandrov, Admiralty Shipyards, Russia
- 220 **Analysis and modelling of current technologies in shiprepair and
conversion industry**
S Vacante, CETENA, Italy; A Sinha, SSA, UK

Session: Goal-based Standards and Ship Disposal

- 232 **The regulation of safety in a demanding world**
V Pomeroy, Lloyd's Register, UK
- 240 **A flexible approach to the application of risk-based methods to the
inspection of hull structures**
R Basu, A-K Lee, American Bureau of Shipping, USA
- 250 **DEMOLISHCON - The standard contract for recycling of ships**
T C Strand, BIMCO, Denmark

Poster Session

- 257 **Numerical prediction of air, temperature and gas concentration in
ventilated cargo holds**
A Brehm, Dr O El Moctar, Germanischer Lloyd AG, Germany

- 262** **Failure analysis of propulsion shafting coupling bolts**
Dr Y Song, H Shiihara, D Shiraki, Y Nagayama, Nippon Kaiji Kyokai (ClassNK),
Japan
- 270** **Unsteady RANS computation on a high skew propeller in behind condition**
R Mikkelsen, P Andersen, J A Michelsen, J N Sorensen, DTU, Denmark
- 276** **Innovations in the natural gas transportation**
J Romero, Polytechnic University of Madrid, Spain
