Middle East Oil, Gas and Geosciences Show

Manama, Bahrain
19 - 21 February 2023

Volume 1 of 6

ISBN: 978-1-7138-7092-0
# TABLE OF CONTENTS

## VOLUME 1

### PRODUCTION MANAGEMENT I

- Laboratory Study on the Efficiency of Polymer-Based Foamed Gel for Conformance Control in High Temperature Reservoirs ................................................................. 1  
  
  *Noorah Almulhim, Abeer Alarawi*

- New Generation Downhole Sand Detection Technology Leading to Confident Reservoir Sand Management and Cost-Effective Remedial Opportunities ......................................................... 12
  
  *Ravi Kurma, Wuroud M Kh Al-Fadhli, Hazim Ayyad, Majid Mehraj, Abdulaziz Alajmi*

- Delaying Multiphase Pump Gas-Lock in High-GVF Flows Using High-Speed Operation ......................... 25
  
  *Chidirim Ejim, Jinjiang Xiao, Woon Lee, Wilson Zabala*

- Power of 6 Sigma to Overcome Chronic Business Pain Area ................................................................. 37
  
  *Adil Albusafi, Farah Albalush, Mohammed Alshuily, Najim Albalushi, Maadh Alrahamdi, Ashraf Alhinai, Ali Alsahlani, Houd Alsalhi, Yousuf Alkiumi, Nayakam Ram, Jitin Muhammed, Somaya Maghdari*

- Intelligent Downhole Identification and Control are Key to a Successful Water Conformance Strategy .......................... 50
  
  *Mohammed Omer, Francisco E. Fragachan, Miguel J. Duarte, Alfredo A. Alvarez*

### GEOMECHANICS MODELLING I

- Automated Geomechanics Modelling Workflow Supports Real-Time Decision Making and Risk Mitigation in Challenging Horizontal Wells ................................................................. 63
  
  *Arnott Dorantes, Nata Franco, Rawan AlSameen, Syed Mohamed Amer, Florian Karpfinger, Mauricio Corona, Mansoor Abdul Kader*

- Effects of Temperature and Rate-Dependent Mud Cake Buildup on Wellbore Stability in Multi-Permeability Formations ......................................................................................... 75
  
  *Chao Liu, Dung T. Phan, Younane N. Abousleiman*

- Drilling with 3d Geomechanical Modeling - Efficient Simulation Method ................................................... 85
  
  *Hamad Al-Hamad, AlSamhan Sarah, Meqdad Al-Naqi, Abdulaziz Sajer, Assef Hussein, Qinglai Ni, Surej Kumar*

- New Numerical Method for Sand Production Propensity Estimation .......................................................... 97
  
  *Surej Kumar Subbiah, Assef Mohammad-Hussein, Ariffin Samsuri, Mohd Zaidi Jaafar, Ying Ru Chen, Andrew Pearce, Rajeev Ranjan Kumar, Rajendra Nath Paramanathan, Lex de Groot*

- Stability Analysis for Sidetracked Wells in Poro-Elastoplastic Formations ............................................. 117
  
  *Denis Sabitov, Hussain AlBahrani, Osman Hamid*

- Shale and Carbonate Wellbore Stability Charts for Drilling Operations .................................................... 129
  
  *Ahmed Al Ajmi, Bilal Shaheed, Adel Al Ajmi, Hamoud Al-Hadrani, Mohammed Al-Aamri*

- A Workflow to Estimate Critical Drawdown Pressure Utilizing 1-D Geomechanics Modelling ................... 152
  
  *Ammar Qatari*
PRODUCTIVITY ENHANCEMENT I

Novel Carbon Dioxide (CO2) Foamed Fracturing Fluid, an Innovative Technology to Minimize Carbon Footprint .......................................................... 159

Mathew M. Samuel, Ziad Al-Jalal, Nurlan Nurlybayev, Mohammad Farouk, Zhijun Xiao, Cheng Kang Kang, Li Huanming

Flowback Enhancer for Acidizing Fluid Systems to Stimulate Gaseous Carbonate Reservoirs ............... 181

Rajesh K. Saini, Mohammed A. Sayed

Well Productivity Optimization with Tailored Hole Spacing in Smart Liners ........................................... 200

Kristian Mogensen

Hydrolysis-Promoted Polymerization of Furfuryl Alcohol: Selective Method for Mitigating Excess Water Production in Oil Wells ........................................................................................................ 215

Amy J. Cairns, Rajesh K. Saini, Fakuen F. Chang

Counting the Effect of Crude Oils: Towards Increasing the Efficiency of Carbonate Matrix Acidizing .......... 228

Mohammed Al Hamad, Mustapha Farhan Abbad, Farhan Ali, Nader AlOtaibi, Azizah AlRadhwain, Mohammed AlQuisom, Wael Abdallah

A Novel Clay Control and Conductivity Approach in Water Sensitive Tight Oil Reservoirs in China During Proppant Fracturing .............................................................. 239

Zichao Wang, Wendi Zhang, Changhong Wu, Shunyao Song, Xuewei Liu

INTEGRATED OPERATIONS

Technological and Engineering Evolution to Successfully Drill Long and Highly Deviated S-shape Wells .................................................................................. 255

Mohammed Aljuzayri, Sarvodaya Bansal, Daria Ponomareva, Nata Franco, Mauricio Corona, Jesus Levario

Process of Releasing a Stuck String Using Static Dissolvable Coating Layers ........................................... 269

Ibrahim Althowiqeb

Operational and Logistical Optimizations in Large Offshore Matrix Acid Stimulations .......................... 274

A. A. Saleh, R. Bukhamseen, A. A. Jaber, A. H. Almazrou

Multidiscipline Well Construction Process Integrates Advanced Engineering Design and MSF Technologies to Deliver Arabian Gulf Trilateral Well ...................................................... 289

Opeyemi Adewuya, Mahmoud Alqurashi, Rommel Urbina-Arias, Faisal Alodah

A Unique Fracturing Solution in Water-Sensitive Tight Gas Formations .................................................. 321

Tianjun Yu, Yongbo Cao, Ming Li, Junfeng Wang, Jie Zhang, Yuan Liu, Yin Luo, Haihua Yang, Taiji Wang, Andrew Fendt, Peiwu Liu

Drilling Monitoring System: Mud Motor Condition and Performance Evaluation .................................... 332

Alexis Koulidis, Mohammed Abdullatif, Shehab Ahmed

ARTIFICIAL LIFT TECHNOLOGIES & OPTIMIZATION

Performance Envelope of a High-Speed High-GVF Helico-Axial Pump .................................................. 347

Chidirim Ejim, Jinjiang Xiao, Woon Lee, Wilson Zabala
Thermal Investigation of ESP Motor Temperature Rise with Focus on Heavy Oil Applications ...................... 358
Kamyar Najmi, Ricardo Teves, Nahun Zarate Guzman, David Zhu, Howard Thompson, Shawn Gunter

Reshaping Workover Operations in Kuwait Forever: The First Deployment of Wireline Deployed Pump in South East Field in Kuwait ................................................................. 371

Progressing Cavity Pump (PCP) Hydraulic Driveheads Implementation in Non-electrified Mature Oil Field - Reliability and Production Enhances .............................................................................................................. 389
Marco Iguaran, Leonardo Suarez, Henrry Vidal, Ariel Nicoletti, Alberto Munoz, Francisco Nercesian, Marcos Dapino, Luis Martini

Review of Electrical Motor Technologies for ESP Applications ........................................................................ 396
Chris Wrighton, Alexandru Vlad Rusu, Matteo Lacchetti, Alexander Smith

Well Monitoring New Concept Based on Artificial Lift Power Indicators, Identifying Failures and Minimizing Energy Consumption Costs Due to System Inefficiency ................................................. 413
Pablo Cortia, Victor Devincenti, Maivy Orozco

Switched Reluctance Motor Operation Using Three Conductor Electric Submersible Pump Cable............... 432
Robert Adams, Jinjiang Xiao, Jonathan Harrist, Max Deffenbaugh

MIDSTREAM GAS I

Bahrain LNG Import Terminal (BLNGIT) Project: 1st LNG Commissioning Cargo and Integration of Imported Regasified LNG (RLNG) with Domestic Khuff Gas in the Existing Distribution Network .................................................................................................................. 440
Fawaz A. Aziz AlKhunaizi, Muni Shankar Prudhvi, Anwar Mohamed

Michael Crawshaw, William Brundick, Michael Juncker, Kristina Barbuto, Alyn Jenkins, Sooi Kim Lim

NGL Process Optimization at Khurais Producing Facility to Maximize NGL Recovery and Minimize H2S Content through HYSYS Simulations ............................................................................. 466
Hatem A. Bajualifer, Ashiff Khan, Ahmad M. Hawawi, Kamarul A. Amminudin

Effective Method for Decontamination of Compromised Slug Catcher: Case Study .................................. 476
Giselle Braganza, Joel Gomes

4TH INDUSTRIAL REVOLUTION I

Zeeshan Tariq, Bicheng Yan, Shuyu Sun

Toward Combining Multi Seismic Attributes, A Novel Machine Learning Approach .................................. 502
Mustafa Alshuaia
A Comparison of Machine Learning Algorithms for Rate of Penetration Prediction for Directional Wells.......................... 522
Chengxi Li, Peng Cheng, Chris Cheng

Oil Pipeline Leak Detection Using Deep Learning: A Review on POC Implementation ............................... 533
Ahmed AlAzri, Sultan Alkaabi, Saud AlZakwani, Fadhil Altamimi, Maadh AlMamari, Mohammed AlSulaimani

Machine Learning for Prediction of CO2 Minimum Miscibility Pressure ................................................................. 544
Muzammil Shakeel, Mohammad Rasheed Khan, Shams Kalam, Rizwan Ahmed Khan, Shirish Patil, Usman Anjum Dar

A Data-Driven Model for Bound Fluid Prediction in Carbonate Reservoirs......................................................... 555
Ali Alshuwaikhat, Ghadah Albalawi, Laila Alshammasi, Yacine Meridi

Collaborating in the Metaverse for Successful Subsurface Reservoir Characterization.............................. 566
Philip Norlund, D’Angelo David

UR RESERVOIR ENGINEERING

Analyzing Discrepancies in PTA and RTA for Accurate Flow Regime Identification and Fracture Geometry Estimation – An Example from a Highly Heterogeneous Unconventional Sandstone Reservoir ................................................................. 575
Tayyar Altayyar, Abdulrahman Alowaid

Comparison of Analytical Model Versus Numerical Model in Estimating EUR of Well Drilled and Completed in Unconventional Source Rock ........................................................................................................... 586
Rabah Mesdour, Faisal Almalki, Qarni Mohammed, Dossary Mohammed, Albassam Mohamed

Numerical Simulation of Production Declines in Tight Naturally Fractured Carbonate Reservoirs ......... 600
Raphael Altman, Roberto Tineo, Mostafa Afifi

A Two-Phase Transfer Function for Simulation of Fractured Ultratight Gas-Condensate Reservoirs .......... 609
Mohammed Samir Raslan, Anuj Gupta, Harun Ates, Kristian Jessen

Integrated Fracture and Reservoir Model for Well Spacing Optimization in Unconventional Reservoirs With 3D Natural Fractures .................................................................................................................... 628

The Optimum Cluster Interference Percentage in Multi-Stage Fractured Wells ............................................. 645
Ahmed Farid Ibrahim

Upscaling of Discrete Fracture Characterization to Dual-Porosity Models Using an Advanced Transfer Function ........................................................................................................................................... 658
Mohammed Samir Raslan, Anuj Gupta, Harun Ates, Kristian Jessen

Unconventional Reservoir Modeling with Complex Hydraulic-Natural Fracture Networks Using a Parallel Reservoir Simulator Coupled with Embedded Discrete Fracture Model ......................................................... 678
Shuang Zheng, Harun Ates, Anuj Gupta, Paul Crompton
ADVANCEMENT AND COMPLETION & DRILLING

Solving the Low Injectivity Challenges in Hydraulic Fracturing Tight Gas Reservoirs - Case Histories Review .................................................................................................................................. 697
  Alexey Yudin, Nurlan Nurlybayev, Ziad Al-Jalal

VOLUME 2

Achieving Well Cleanup and Zero Routine Flaring Utilizing Existing Flowline and Extended RTP ............. 708
Abdulmajeed Aldughaiter, Saleh Marri, Muhammed Albuali

Restoring Well Integrity: The Innovative Design of Thermally Activated Resin in a Sour Environment ........................................................................................................................................ 715
Danish Ahmed Khan, Manuel Centeno Acuna, Salah Islam Hasan, Lizeth Merino, Pablo Chica, Ahmed Mudheher Hussein, Abdulqawi Al Fakih, Rasha Alo, Svein Normann

PRODUCTIVITY ENHANCEMENT II

First Application in Oman of New Single Stage Retarded Sandstone Matrix Acidizing ......................... 724
Hajir Qassabi, Andika Putra Rafiansyah, Johnny Falla, Ahmed Al-Yaaribi, Saleh Al-Razeiqi

CO2 Foamed Fracturing Fluids for High Temperature Hydraulic Fracturing ............................................. 738
Prasad Karadkar, Bader Harbi, Ataur Malik, Mohammed Alsakkaf, Safyan Khan

Addressing Hydraulic Fracturing Performance Challenges in HPHT Well with New Fluid System and Comprehensive Fracturing Study Utilizing Full 3D Simulator ......................................................... 748
Nurlan Nurlybayev, Ziad Al-Jalal, Mathew Samuel, Mohammad Farouk, Mustafa Ghazwi, Ali Yaseen, Raja Jalil Muhammad

An Integrated Experimental Method to Study Multistage Alternating Injection Acid Fracturing in Limestone Formation ....................................................................................................................................... 758
Yonglin Ren, Da Wang, Puyong Feng, Jun Chen, Shangqi Shao, Wanchun Zhang, Bo Cui

Carbonate Matrix Stimulation with Pickering Emulsified Acid Studied by Large-Scale Radial Flow Experiments .................................................................................................................................. 774
Moustafa Aly, Gallyam Aidagulov, Abdullah Sultan, Devon Gwaba, Mustapha Abbad

NUMERICAL MODELLING AND SIMULATION

Reservoir Simulation Evaluation of Cyclic Steam Stimulation Strategies in Tayarat Carbonate Heavy Oil Reservoir .................................................................................................................................. 796
Solomon Evro, Adnan Alshamali, Fahad Al-Faresi, Al-Qattan Mishari, Nejoud Al-Ostad, Galina Krasnova, Latifa Hayat, andana Saresh, Hasan Mandani, Carlos Jimenez, Sher Ali

Fracture Characterization and Modeling in Dual Media Systems and its Impact on Reservoir Connectivity and Well Productivity .......................................................................................................................... 813
Abdulrahim K. Al Mulhim, Mohammed H. Alnasser, Hassan H. Hamam, Marko Maucecc

An Integrated Ensemble Based Prediction Approach to Quantify and Propagate Uncertainties of Naturally Fractured Carbonate Reservoirs .......................................................................................... 828
Mohammed Abd-Allah, Ahmed Abdelrahman
Pattern Recognition-Driven Automatic Drainage Region Mapping to Accelerate Reservoir Simulations

Ahmed Shubbar, Marko Maucec, Babatunde Moriwawon

CARBON FOOTPRINT MANAGEMENT

Life Cycle Assessment of Deployment of Liner Hanger vs Long String

Naeem Minhas, Alexis Davis, Hussain Sharrofna, Sathish Kalaimani, Parvez Khan, Faisal Abdelrahim, Lee Robinson

Successful Accelerated Reduction of CO2 Emissions through a Statistical Approach

Ahmed Al Salmi, Sara Al Balushi, Yousuf Al Zaabi

Well Design Re-Engineering: First Level of Emission Footprint Optimization

Aleksandr Nifantov, Alexey Ruzhnikov

GEOMECHANICS MODELLING II

An Algorithm for Consistent Mechanical Earth Model Parameters Determination: Applications in Wellbore Stability and Hydraulic Fracturing Modeling

Hussain AlBahrani, Yara Alkhaldi

Fully Coupled Hydromechanical Approach for Flow in Fractured Rocks Using Darcy-Brinkman-Biot

Xupeng He, Zhen Zhang, Marwa AlSinan, Hyung Kwak, Hussein Hoteit

Maintaining Structural Integrity for New Well Design

Danish Ahmed Khan, Manuel Centeno Acuna, Yousif Bajer Al-Asadi, Slimane Sebbane, Hoory Tossonian, Pablo Chica, Ahmed Mudheher Hussein

Development of the 2D 3D Plastic Volumetric Strain Around a Borehole Using Elastoplastic and Thermo-Elastoplastic Modeling Approaches

Osman Hamid, Rowa Tawfiq

Role of Geomechanical Modeling and Analysis in Sand Management and Control

Hadi Ashtiani Abdi, Wassem Alward

UNCONVENTIONAL RESERVOIRS CHARACTERIZATION I

Chemical Reaction Equilibrium Theory - A Novel Approach to Estimate Shale Reservoir Fluid Compositions

Rasmus Risum Boesen, Sukit Leekumjorn, Christian Agger, Henrik Sørensen

Investigation of Thermal Fracturing and Permeability Enhancement in Tight and Shale Rocks During In-Situ Heating

Zijian Wei, James Sheng, Yicheng Zhou

A Novel Well Log Data Quality Prescriptive Framework for Enhancing Well Log Data Quality Interpretation

Klemens Katterbauer, Abdallah Al Shehri

Integrating Petrophysical and Geochemical Measurements of Drill Cuttings for Enhanced Formation Evaluation

Hasan Kesserwan, Guodong Jin, Shouxiang Ma, Saleh Alofi
Reservoir Quality and Maturity Indicators Using Image-Based and Bulk Rock Characterization

Shannon Eichmann, David Jacobi, Poorna Srinivasan, Jennifer Rodriguez

PERFORATION TECHNOLOGIES

Perforating for Stimulation: Techniques, Challenges, Considerations, and Efficient Workflows

Abdul Muqtadir Khan, Abdullah Binziad, Abdullah Alsubaii, Danish Ahmed, Abdulmajeed Alotaibi

Key Success Factor for High Power Laser Deployment: Strategy and Execution

Sameeh Batarseh, Damian Pablo San Roman Alerigi, Abdullah Al Harith

Perforation Design and Gun Selection Workflow – A Successful Case History for Deep Penetrating Gun

Ayman Samy, Jim Gilliat, Ruslan Khalilov, Nariman Pashayev, Rufat Mammadov, Akbar Akbarov, Elmar Bahalov, Maarif Allahverdiyev

Implementing a Novel Organic Acid Matrix Stimulation to Successfully Remove Formation Damage: Case Studies, Iraq and Ecuador Oilfields

Jhonny Alvarez, Xavier Alarcon, Jonnathan Tellez

WELL CONTROL

Not Just for Drilling! Utilization of MPD Technology for Unplanned Events Like Extensive Ballooning in Highly Elastic Formation, Off-Bottom Well Control with a Tapered Drill-String and Freeing Stuck-Pipe, Thinking Out of the Box, A Case Study

Jamal uddin Muhammad, Abdallah Alzahrani

Successful Managed Pressure Drilling Application in a Challenging Well With Crossflow in Unconventional Field

Hua Zhang, Jamal uddin Muhammad, Naif Mutlaq Alhajri

Novel Shear Dependent Cement Slurry System, Tailored to Rescue and Cure Losses when ECD Management and LCM Pills Failed – A Case Study from Southern Iraq

Lucio Felipe Campana Barbosa, Javaid Iqbal

Unsung Attributes of Managed Pressure Drilling Technology that Qualify its Need for Every Producer Well to Be Drilled Mitigating Major Hazards

Jamal uddin Muhammad, Bilal Tariq

4TH INDUSTRIAL REVOLUTION II

Smart Algorithms for Determination of Interfacial Tension (IFT) between Injected Gas and Crude Oil – Applicable to EOR Projects

Shams Kalam, Mohammad Rasheed Khan, Muzammil Shakeel, Mohamed Mahmoud, Sidqi A. Abu-khamsin

Data-Driven Well Candidate Recognition Solution. Case Study in a Digital Oil Field in Abu Dhabi

Erismar Rubio, Nagaraju Reddicherla, Mayada Ali Sultan Ali, Mohamed Ali Attar

From Well to Field: Reservoir Rock Porosity Prediction from Advanced Mud Gas Data Using Machine Learning Methodology

Fatai Anifowose, Mokhles Mezghani, Saleh Badawood, Javed Ismail
Data-Driven Machine Learning Modeling of Mineral/CO2/Brine Wettability Prediction: Implications for CO2 Geo-Storage
Zeeshan Tariq, Muhammad Ali, Bicheng Yan, Shuyu Sun, Mohammad Khan, Nurudeen Yekeen, Hussein Hoteit

Application of Image Processing Techniques in Deep-Learning Workflow to Predict CO2 Storage in Highly Heterogeneous Naturally Fractured Reservoirs: A Discrete Fracture Network Approach
Zeeshan Tariq, Bicheng Yan, Shuyu Sun

Modeling While Drilling by Predicting Gamma Ray Ahead of Drill Bit Using Machine Learning
Rakan Alkheliwi, Yasser Ghamdi, Mohammed Alhussain

Oil-Water Relative Permeability Prediction Using Machine Learning
Sulaiman A. Alarifi

UR CHARACTERISATION II
Integrated Rock Physics Model to Predict Sweet Spots in an Unconventional Jurassic Carbonate Source Rock
Ammar Mohammed, Yazeed Altowairqi

Unveil the Significance of the Thin Laminated Carbonate Layer in Unconventional Reservoirs
Lei Zhang, Lipeng Wang, Liwei Jiang, Dongchu Shu, Yuanwei Pan, Qingshan Li, Yongjie Huang, Lizhi Wang, Yuan Liu, Peiwu Liu

Downhole Characterization of Clays and Formation Water Salinity Using Low Frequency Permittivity Dispersion
Wael Abdallah, Ping Zhang, Gong Li Wang, Shouxiang Mark Ma

WATER FLOODING
Microfluidics for Carbonate Rock IOR: Some Lessons From Fabrication, Operation and Image Analysis
Michael H.G. Duits, Duy Le-Anh, Subhash C. Ayirala, Mohammed B. Alotaibi, Han Gardeniers, Ali A. AlYousef, Frieder Mugele

In-line Partition Coefficient Measurement for Oil Field Tracers Utilizing Microfluidic Mixing Chip
Sehoon Chang, Gawain Thomas, Wei Wang

Gas Tracer Technology to Improve Reservoir Understanding and Evaluate EOR Strategy, a Pilot Study in Kuwait
Haya Al-Mayyan, Akshaya Pradhan, Khaled Ziyab, Marie Wurtz, Olaf Huseby, Peyman Nurafza, Tom Faulkner

Improved Amott Tests Help Quantify Primary Driving Forces in Spontaneous Imbibition in Water-Wet and Oil-Wet Limestone Rock
Ksenia Kaprielova, Maxim Yutkin, Ahmed Gmira, Subhash Ayirala, Ali Yousef, Clayton Radke, Tadeusz Patzek

A Systematic and Comprehensive Approach for Characterizing Capillary Desaturation Curves in Low-Permeability Carbonate Rocks
Amaar Siyal, Shehzad Ahmed, Waleed AlAmeri, Emad W. Al-Shalabi
Advanced Research and Development in Unconventional Use of Tracer Technology for EOR and IOR: The Gen Z Tracers

Monalisa Chatterjee, Sean Toh, Ahmed Alshmakhy, Yann Bigno, Paul Hewitt

PRODUCTION MANAGEMENT II

Salinity and Temperature Effects on Oily Produced Water Treatment Using Polyaluminium Chloride

Limin Xu, Ming Han, Fahd AlGhunaimi, Mohammed Bataweel

Demulsification of Heavy Crude Oil Emulsion Driven by Natural Materials

Ahmad A. Adewunmi, Muhammad Shahzad Kamal, Afeez Gbadamosi, Shirish Patil

Water Management Challenges in Greater Burgan Field

Shaikha Alkandari, Omran Al-Zankawi, Zainab Alsaleh, Dunya Jaafar, Mariam Jasem, Anandan Mudvakkat, Junaid Khan, Ahmad Alaassar, Godo Perez, Nuran Rjabli

Data-Driven Decision Making Through Digital Field Data Visualization Dashboard and Automated Process

Huda AlAradi, Sayed Yaseen Rajab, Nasser Al-Mototeh, Ali Al-Anjawi, Mahindra Winuksa, Pajar Achmad, Ahcene Ladraa, Abdelouahab Baamara

Extended Well Testing Campaign in Extreme H2S Environment in SIMOP

Hesham Katamesh, Emad Hamdy

Enhanced Field Sustainable Oil Production Rate Forecast Using Integrated Asset Operating Model for Production Efficiency Improvement

Erismar Rubio, Nagaraju Reddicharla, Mayada Ali Sultan Ali, Mohamed Ali AL Attar, Rayner Samuel Davila, Avnish Kumar

Method to Operate Water Wells at Optimum Rates Utilizing Orifice Performance Curves

Mohammed Almannai, Muhammad Javed

WELL INTERVENTION I

Heavy Duty Robotic Fishing Allowed to Restore Injectivity in Critical Well – A Case Study

Juan Jose Nobile Blanco, Sudesh Prabhakaran, Shiwanshu Shiwan, Amitav Rout, David Ting

All Metal Wellbore Intervention Tools as an Alternative to Motors

Allan Pearson, Mark Luchak, Robert Curle

Innovative Coiled Tubing Hybrid Fiber Optics Technology Increases Operational Efficiency

Danish Ahmed, Mohammed Ahmed Kaki, Sajid Mehmood, Haitham S Saeed Aljuaydi

BOREHOLE STABILITY

Field Deployment of Nanomaterial Based Shale Inhibitors

Ashok Santra, Hasmukh Patel, Arthur Hale, Nicolas Osorio, Arfaj Mohammad, Ramaswamy Jothibusu, Elahbrouk Ehab
Deployment of an Eccentric Borehole Conditioning Tool Yields Significant Drilling Efficiency Improvements ................................................................. 1411

Michael James Bailey, Sion Llywelyn Roberts, Ahmed Suleiman, Ahmed Ismail

Minimizing Drill-String-Induced Wellbore Instability ......................................................................................... 1435

Soukat Kumar Das, Hussain Albahrani, Arpita Pal Bathija, Thomas Finkbeiner

Lost Circulation Material Design for Highly Inclined Or Horizontal Well Sections .................................. 1451

Kien Nguyen, Amin Mehrabian, Ashok Santra, Dung Phan, Arpita Bathija

An Integrative Software Platform to Support Drilling Operations in Troublesome Formations .............. 1465

Yanhui Han, Chao Liu, Dung Phan

Managing Wellbore Stability Challenges for an Optimum Well Delivery; Case Study, Balsam Field, Nile Delta, Egypt ................................................................. 1484

Wael El Sherbeny, Ashraf Baghdady, Ali Farag, Johannes Vossen

CCUS I: MODELING & WORKFLOWS

Locating CO2 Leakage in Subsurface Traps Using Bayesian Inversion and Deep Learning ..................... 1507

Zhen Zhang, Xupeng He, Yiteng Li, Marwa AlSinan, Hyung Kwak, Hussein Hoteit

Development of a Screening Framework for Re-Use of Existing Wells for CCUS Projects
Considering Regulatory, Experimental and Technical Aspects ............................................................................. 1516

Maartje Koning, Vedran Zikovic, Kaj Van der Valk, Rajesh Pawar, John Williams, Nils Opedal, Alexandra Dudu

UNCONVENTIONAL RESERVOIRS COMPLETIONS I

Enhancing Fracture Network Complexity Using Carbonated Slickwater Fracturing ................................. 1528

Prasad Karadkar, Murtadha J. AlTammar, Mohammed Alabdrabnabi, Ahmad Busaleh

First Microseismic Monitoring of Hydraulic Stimulation in Bahrah and Sabriyah Fields, Northeastern Kuwait .................................................. 1537

Sebastien Rajeul, Eric Fortier, Ernesto Barbieri, Sabry Abd El-Aziz, Chintamani Vemparala

CHEMICAL EOR

Managing Adequate Gas EOR for Unstable Asphaltene Stability Field?Asphaltene Flow Assurance
Pre-Risk Assessment Case Study for CO2, Enriched Gas, and Lean Gas Options ............................................. 1562

Masaaki Tange, Takeshi Hirawa, Khuloud Tareq Khlaifi, Risa Sakurai, Sami Bahri, Abdalla Abdelfattah Abed, Hiroshi Uematsu, Ken Makishima, Yuto Inokuma, Masaru Sawata, Sultan Hamdan Alkaabi, Hideharu Yonebayashi

A Novel Chemical Formulation for Heavy Oil Viscosity Reduction and Heavy Oil Displacement .......... 1578

Shaohua Chen, Ming Han, Abdulkareem AlSofi, Tianping Huang
POLYMER FLOODING
An Enhanced Synergistic Effect in Surfactant-Polymer Flooding Under High-Temperature and High-Salinity Conditions ................................................................. 1591
    Shaohua Chen, Tianping Huang, Ming Han, Abdulkareem AlSofi

Integrating High Resolution Sector Scale Dynamic Modeling into a Successful Long Term Pilot
Polymer Injectivity Test for the Wara Reservoir of the Greater Burgan Field of Kuwait ................. 1605
    Mohammed Taha Al-Murayri, Abrar Al-Qattan, Al-Ghanim Wafaa, Shweta Kakade, Anirban
     Banerjee, Carlos Mascagnini, Rafael Khamadinov, Muhammed Ali Chuughtai, Alexey
     Andrianov, Pitts Malcolm

ADVANCES IN DATA ACQUISITION AND ANALYSIS IN PETROPHYSICS
Unlocking Fracture Characterization Ambiguity a Multi Disciplinary Integrated Approach ............. 1626
    Ali Abughneej, Mohamed Al Naqeeb, Moahmmed Al-Ostath, Fatemah Albanay, Muhammad
     Abd El Duyem, Nasser Al-Hamad, Abdullah Al-Jamaan, Laila Akbar

Real-Time Facies Characterization Using LWD NMR Factor Analysis in High-Angle Wells .......... 1635
    Gabor Hursan, Marie Van Steene

Identifying Fracture Sweet Spots Using Artificial Neural Network Approach: A Case Study in
Najmah/Sargelu Reservoir, Kra Al-Maru Field, West Kuwait .................................................. 1648
    Kim Long Nguyen, Meshael Jumah, Naveen Verma, Riyad Quttainah

Digitally Derived Capillary Pressure Data for Reservoir Evaluation ....................................... 1660
    Mohammed Al Hamad, Denis Klemin, Mark Ma Shouxiang, Wael Abdallah

A Systematic Workflow of Optimum Log Data Acquisition and Integrated Formation Evaluation of
Laminated Sand-Silt-Clay Deep-Water Reservoir - A Case Study from Offshore Malaysia .......... 1673
    Saikat Das, Viet H. Nguyen, Fadzilazri Shapiei, Stephen Dymmock, Amirul Afiq Yaakob,
    Amirah Thaqifah Mahamud, Siti Najmi Farhan Zulkipi, Dzulfadly Johare, M Fazli Izham
    Zakaria, Izral Izarruddin Marzuki

Rigless Mineralogy Logging- A Reality for Improved Evaluation of Complex Formations .......... 1695
    Marie Van Steene, Shouxiang Ma, Sherif Ghadiry

UNCONVENTIONAL RESERVOIRS COMPLETIONS I
Frac Plug Evaluation to Improve Operations Efficiency ......................................................... 1705
    Sohrat Baki, Abdullah Alzamil, Zeyad Habiballah, Emad Shariff, Abdulrahman Alowaid,
    Wafaa Alnakhl, Hamoud Alshammari, Mohammad Mahfouz

Preparation and Characterization of Rapid Gelling Agent for Light Hydrocarbons-Based Gelled
Fracturing Fluid ....................................................................................................................... 1718
    Tao Du, Chen Chen, Jiangpeng Feng, Yiming Yao

CHEMICAL EOR
Superactive Surfactant for Enhanced Oil Recovery .................................................................... 1727
    Azzah AlRadhwan, Mohammed Al Hamad, Wael Abdallah
Research of Polymeric Surfactant as Multifunctional Monocomponent Oil Displacement Agent in EOR

Zhiqing Su, Hui Xu, Yingcheng Li, Hui Sun, Jun Jin, Bin Wang, Aiqing Ma, Xiujuan He, Ou Sha

Integrated Modelling and Forecasting of Gas Injection Pilot in a Heterogeneous Oolitic Carbonate Reservoir, West Kuwait

Akshaya Pradhan, Haya Al-Mayyan, Khaled Ziyab, Peyman Nurafza, Sumit Mishra, Arpit Khandelwal, Anshu Srivastava, Tom Faulkner

CO2 Huff-n-Puff: An Experimental and Modeling Approach to Delineate Mass Transfer and Recovery from Shale Cores

Saeed Alahmari, Mohammed Raslan, Pooya Khodaparast, Anuj Gupta, Jewel Duncan, Stacey Althaus, Kristian Jessen

Scale-Up Fabrication and Microfluidic Evaluation of Janus Graphene Nanofluids as Novel EOR Agent

Wei Wang, Sehoon Chang, Gawain Thomas

FLOW ASSURANCE & METERING I

Establishing Critical Gas Velocities for Liquid Loading in Deviated Gas Wells

Chidirim Ejim

Successful Application of a Novel High-Pressure High-Temperature (HPHT) Quartz Crystal Microbalance (QCM) Set-Up to the Evaluation of Asphaltene Deposition Inhibitors

Abeer Ghaffoori, Ross Anderson, Mohsen Hoopanah, Bahman Tohidi

Prediction of Slug Length for High Pressure Gas/Liquid Two-Phase Flow in Horizontal and Slightly Inclined Pipes

Eissa Al-Safran, Ahmed Aql

WELL INTEGRITY

Utilization of Innovative Resin-Cement Blend to Enhance Wellbore Integrity

Investigation of Polymer Latex Effects on Cement Mechanical Properties for Improved Wellbore Integrity

Abdullah Al-Yami, Hussam Al-Qahtani, Jaber Nizar, Majad Khan, Muhammad Nawaz Tahir, Vikrant Wagle

Well Integrity Challenges while Drilling in High Pressure and Narrow Window Environment: A Case Study of a Deep Gas Field in the Middle East

Efe Mulumba Ovwigho, Mohammed Sami Almomen, Mauricio Corona, Jose Terrez

Tailored Cement Systems with Enhanced Mechanical Properties Designed to Eliminate Sustained Casing Pressure in Development Wells

Pushkara Varma Chekuri, Ashish Singhal, Sheraya Kaura, Mikhil Dange, Animesh Kumar, Swarnima Singh
Rigless Repair of Packer Leak Via Annular Cement Plug ................................................................. 1905

GEOSTEERING & WELL PLACEMENT

Umesh Prasad, Fredrik Jonsbraten, David Holbrough, Craig Saint

A Novel Engineered Drilling Solution using a Sourceless Geosteering Bottomhole Assembly to Deliver the Longest Extended-Reach Well in a Carbonate Reservoir, Onshore Abu Dhabi, UAE........................ 1932
Wael Fares, Ashim Dutta, Rathnakar Reddy, Moahmed Baslaib, Ayman El Shahat, Luis Gerardo Cardozo, Mohamed Abdel Meguid, Mena Nasrallah, Muhammad Mubeen, Ahmet Aki

Combining Nuclear Magnetic Resonance with Deep and Ultradeep Azimuthal Resistivity Images in Carbonate Reservoirs Links Reservoir Structure with Rock Type while Drilling.............................................................................. 1942
Osama Ramadan, Umar Idris, Marie Van Steene, Gagok Santoso

A Workflow to Assess the Effect of Lateral Landing, Completion, and Fracturing on Production Potential in an Explorational Clastic Environment....................................................................................... 1949
Carlos Herrera, Abdul Muqtadir Khan, Abdulrahman Almulhim, Saad Hamid

Integration of Geosteering into an Automated Wellbore Placement System, Possibilities and Challenges .............................................................................................................................................. 1970
David Holbrough, Matthew Forshaw, Stefan Wessling, Saskia Idzerda, Ralf Gelfort, Simon Austin

RESERVOIR FLUID CHARACTERIZATION

Characterizing Movable and Non-Movable Zones in a Mature Carbonate Reservoir: A Novel Workflow Using Resistivity Logs ........................................................................................................ 1986
Saud Al-Otaibi, Saud Aldajani, Talal Al-Sayyar, Salem Al-Marri

Significant Impact of Non H-C Gases (NHG) on Reservoir Fluid of a Jurassic, HPHT and Tight Carbonate Discovery in North of Kuwait: A Case Study of a Sour and Critical Fluid Characteristics and Fluid Compartmentalization ...................................................................................................................... 1995
Sara Al-Dousari, Haifa Al-Bader, Ahmed Al-Otaibi, Sara Al-Shuaib, Bahaskar Chakrabarti

Successful Testing and Sampling the Desired Formation Fluids Despite the Challenging Environment in the Middle East ...................................................................................................................... 2006
Irina Baca Espinoza, Rony Perdigon, Halil Osunluk, Kashif Mushir Khan

Innovative Approach to Identify PVT Regions in a Sandstone Reservoir in Khafji Field with Geological Events .............................................................................................................................. 2017
Khaled Al-Qenae, Mohammed Al-Otaibi, Lazreg Belazreg, Mohammad Akhtar

Estimation of Missing Molecular Weight and Specific Gravity of Heptane Plus Fraction in PVT Laboratory Report .................................................................................................................. 2029
Muhammad Al-Marhoun
Identification and Mapping of Gas Reservoir Bitumen .................................................. 2035
Ali J Al Solial, Aijaz Shaikh, Abdullah K Idrees

MIDSTREAM GAS II
Towards Online Natural Gas Composition Analysis by Low-Field NMR Spectroscopy .................. 2044
Oliver Mohnke, Holger Thern, Sergio Ortiz, Anna Swiatek, Andreas Ohligschläger, Anton Duchowny, Pablo Matias Dupuy, Hege Christin Widerøe, Øyvind Leknes, Markus Küppers, Alina Adams

Unmanned Rotating Equipment for Normally Unattended Installations (nui) ................................ 2065

CO2 Sequestration: Sensitivity Analysis of Storage Mass to Multiphase Parameters ................................................................. 4155
Muhammad Majid Almajid, Markus Zechner, Zuhair A. AlYousif

Production Analysis on Wells Producing with Flow Thru Plugs to Optimize the Usage of HPCT Milling Operations ................................................................................................................................................. 4165
Abdullah Alsulaim, Fahad Alajmi, Mudhish Aldawsari, Javier Guzman, Bilal Amjad

High Power Laser Technology Toward the Downhole Applications: The Effect on Permeability ......................... 4173
Abdullah Alharith, Sameeh Batarseh, Damian San Roman Alerigi

Fracture Sealing Efficiency of an Acid Soluble, Expandable and Cementitious Loss Circulation Materials ..................................................................................................................................................... 4181
Ashok Santra, Arthur Hale, Kenneth Johnson, Nicolas Osorio

Performance Evaluation of Iron Oxide and Graphite Nanoparticles in Water-Based Drilling Muds at HPHT Conditions ........................................................................................................................................................................ 4192
 Mobeen Murtaza, Azeem Rana, Hafiz Mudaser Ahmad, Mohamed Mahmoud, Shirish Patil, Muhammad Shahzad Kamal, Dhafer Al Sheri

Improving the Efficiency of Frequent Team Meetings and Engagements at Petroleum Development of Oman (PDO), the Power of Visual Management Approach ................................................................................................................. 4201
Aisha Al Shukaili, Lubna Al Bahri, Nayakam Ram, Kin Tai, Maram Al Busaidi, Hilal Dughaishi, Yousuf Zaabi

A Renewed Focused on Cementing Design Has Improved the Cement Bond Log in Shorter Time Wait on Cement Time ........................................................................................................................................................................... 4212
Abdullah Saud Al Ruqaishi, Jamal Al Sulaimi, Ahmed Al Shuely, Qais Al Battashi, Hashem Al Sabti

A Methodology to Evaluate Video Analytics for Drilling Safety Operation using Machine Learning ............ 4221
Sultan Alkaabi, Ahmed AlAzri, Saud AlZakwani, Fadhil Altamimi
