Photonic and Phononic Properties of Engineered Nanostructures XIII

Ali Adibi
Shawn-Yu Lin
Axel Scherer
Editors

30 January – 2 February 2023
San Francisco, California, United States

Sponsored and Published by
SPIE

Volume 12431
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

ISSN: 0277-786X
ISSN: 1996-756X (electronic)
ISBN: 9781510659674

Publication of record for individual papers is online in the SPIE Digital Library.

SPIEDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:
• The first five digits correspond to the SPIE volume number.
• The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.
Contents

NOVEL MATERIALS AND PHENOMENA IN ENGINEERED NANOSTRUCTURES

12431 02 Vibration localization in elastic hyperbolic lattices (Invited Paper) [12431-5]

NANOPHOTONIC STRUCTURES FOR SENSING AND SPECTROSCOPY

12431 03 Combined Brillouin and Raman scattering spectroscopy in 2PP printed structures [12431-11]
12431 04 Integrated optical sensing system on glass substrate [12431-12]

PHOTONIC CRYSTAL STRUCTURES

12431 05 Creating structured space-time light with nanophotonics (Invited Paper) [12431-13]
12431 06 H1 hexapole photonic crystal nanocavities with theoretical and measured quality factors exceeding $10^8$ and $10^6$ [12431-14]

QUANTUM NANOSTRUCTURES

12431 07 Quantum meta-photronics (Invited Paper) [12431-18]

METAPHOTONIC STRUCTURES: MATERIALS AND DEVICES I

12431 08 Overcoming intensity saturation in second harmonic nonlinear intersubband polaritonic metasurfaces using two-level systems [12431-23]

METAPHOTONIC STRUCTURES: MATERIALS AND DEVICES II

12431 09 High transmission efficiency colour filters based on hybrid metal-dielectric metasurfaces [12431-27]
