

# **Pipelines 2023**

## **Planning and Design**

Proceedings of Sessions of the Pipelines 2023 Conference

San Antonio, Texas, USA  
12-16 August 2023

### **Editors:**

**Christine S. Ellenberger**  
**Jonathan D. Shirk**

ISBN: 978-1-7138-7747-9

**Printed from e-media with permission by:**

Curran Associates, Inc.  
57 Morehouse Lane  
Red Hook, NY 12571

**Some format issues inherent in the e-media version may also appear in this print version.**

# Contents

## *Aerial Crossings*

**Bridging the Gaps for Pipes and Pedestrians in Lawton, Oklahoma** .....1  
Tanner Pipher, Scott Young, and Rusty Whisenhunt

**Bridge-Supported Aerial Pipeline Installations—A Primer** .....10  
Keith Bushdiecker and Jeff Glover

**Design of Two 108-in. Welded Steel Pipes on a Concrete Span Bridge** .....21  
Tim Petty and Jerome (Jeff) Smith

## *Importance of Valves in Pipelines*

**Texas-Style Redesign of a 20-Year-Old, 104 MGD Flow Control Facility** .....29  
Elizabeth R. Blackwelder, Beau Uran, and Eric Johnson

**Air in Water Distribution Systems—Challenging the Status Quo** .....38  
Peter Rüsich, Kevin Waher, and Heather Hector

**Valves: The Key to Success in Pipeline Condition Assessment** .....48  
Chandler Carpenter

**Customer Service-Oriented Water Distribution Network  
Management through Optimized Control Valve Installation** .....56  
Kibum Kim, Tom Iseley, Taehyeon Kim, Dan Koo, and Jayong Koo

**Large-Diameter Buried Pipe-Valve System: Case Study of IPL Project and  
Finite Element Analysis** .....66  
Ashraf Mohammed Daradkeh, Himan Hojat Jalali, James Johnson,  
and Shelly Hattan

## *Overcoming Alignment Challenges*

**14 Mile Transmission Main Loop Project Purpose, Challenges, and  
Successful Completion** .....76  
Michael McReynolds, Thomas Gossiaux, Thomas Pullen, Tim Kuhns,  
and Vittoria Hogue

**Replacing LADWP Aging Infrastructure—Construction of the River  
Supply Conduit Upper Reaches Project** .....86  
Jorge Jimenez and Julio Venegas

**Improving LADWP Groundwater Infrastructure—The North Hollywood Central Remediation Well Collector Line (NHC RWCL) Project.....95**  
 Max D. Jansen, Vlad D. Scutelnicu, and Todd P. Le

**Don’t Get “Bogged Down”—Adapting the Upper Boggy Wastewater Design on the Fly.....104**  
 Hunter Hanson and Evan Dart

**Golf Courses Meet Large Diameter Interceptors .....111**  
 Steve Pool and Alex Pooley

*Pipe Design and Resiliency Considerations*

**0.7 OD Embedment Compaction.....119**  
 Amster Howard and Mark Gemperline

**Pipe Performance Scorecarding: An Essential Framework for Sustainability .....129**  
 Bob Walker

**Numerical Modeling of a Structural Behavior of Reinforced Concrete Pipes with Modified Steel Cage .....140**  
 Amin Darabnoush Tehrani, Ehsan Rajaie, Zahra Kohankar Kouchesfehiani, and Daniel Atambo

**How to Increase the Resilience and Life Expectancy of Ductile Iron and Steel Pipeline Assets.....150**  
 Maury D. Gaston and James C. Hogeland

**Glenridge 66-in. Water Main Relocation: Benefits of Early Contractor Inclusion.....160**  
 Cristian A. Arevalo, Dennis R. Funk, and William P. Wagner

*Pipe Fittings, Joints, and Flanges*

**Municipal Pipe Material Joints: Design and Sealing.....168**  
 Shah Rahman, Madhuri Arjun, Daniel Atambo, Sara Hassi, and Ahmad Jibreen

**The Origin of AWWA C207 Ring Flange Design .....180**  
 Terri A. Tovey and Chris C. Sundberg

**Protection Sleeve for Welded Field Joints of Steel Pipelines with Thin-Film Internal Linings .....192**  
 Ryan Sears and Jose Anisio de Oliveira e Silva

**Code Welding Details for Mitered Elbows .....201**  
 Chris C. Sundberg

*Pipeline Alignment and Route Study*

**Erosion of Soil, Schedule, and Property Negotiations—How All Were Mitigated for Austin Pipelines .....213**  
 Heraclio Bernal, Brent Crawford, Jason Roberts, and Karina Subieta

**Sewer Alignment Complexities in Historic Old Town Temecula .....220**  
 Steven A. Friedman

**But Why There? A Data-Driven Approach to Route Selection.....230**  
 Taylor Ahrens Dorf, Tracy Anderson, and Jarah Parke

**Siting a Regional Pump Station—Harder Than It Looks.....239**  
 Jun Chang, Showri Nandagiri, Rafael Ortega, John Rush, and David Dang

**Frontera, a Route Study Ballad—Out in the West Texas Town of El Paso .....249**  
 Michael Ancell, Doug Jenkins, Jennifer Baldwin, and Xavier Snell

**Private Use of Public Right-of-Way: Unanticipated Impacts to Pipeline Installation .....258**  
 Joel Koenig

**Acquiring Pipeline Easements in the Land of Opportunity .....267**  
 V. Ryan Sowa and Graham Moore

*Pipeline Hydraulics*

**Precast Concrete Tunnel Lining Bolt and Shear Pockets Hydraulic Review .....276**  
 Derek Kan, Kevin Waher, and Peter Rüs ch

**Flattening the (Diurnal) Curve during COVID .....286**  
 Andrew S. Vane

**Flow Test Results for Ductile Iron and PVC Pipes in the Same Water System.....294**  
 L. Gregg Horn

**What Is a Safe Filling Velocity in Water and Wastewater Pipelines? .....301**  
 Ahmad Malekpour and Ahmad Shahroodi

*Quality Management and Risk Mitigation*

**Safety Factors in AWWA Water Pipe Design: A Measurement against Risk? .....313**  
 Dennis A. Dechant and Robert J. Card

**Optimizing Plans and Specifications on Your Conveyance Projects .....322**  
Roger Beiler

**Quality Management on Pipeline Projects—Observations from an Owner .....332**  
Gary B. Savanyu

*Seismic*

**Long-Term Soil Settlement of 36" Requires Innovative Design and Construction of Critical 96" and 84" Steel Water Pipeline in Houston, Texas .....344**  
Richard D. Mielke, Brent D. Keil, Erin Cornwell, Glenn Davidenko, and Spyros A. Karamanos

**Welded Steel Pipe Joint Seismic Design Procedure for Transient Ground Shaking and Other Axial Loading .....354**  
Michael J. Britch and Mark Havekost

**Impact of Water Network Uncertainties on Seismic Rehabilitation Decision-Making for Water Pipelines .....364**  
Abhijit Roy, Jay M. Rosenberger, and Mohsen Shahandashti

**Compressive Failure Mechanisms of Thermoplastic Pipeline Systems in Response to Seismically Representative Compressive Loading .....373**  
Jessica L. Ramos, Nick Berty, Cory Ihnotic, and Brad Wham

**Prescriptive Approach to Design Buried Pipelines for Permanent Ground Deformations from Liquefaction-Induced Lateral Spread Hazards .....382**  
Sri Rajah

**A Case History of Design and Construction of a Seismic-Resilient Outfall Pipe within Liquefiable Ground: Design Challenges .....393**  
John Newby, Sri Rajah, and Ken Massé

**A Case History of Design and Construction of a Seismic-Resilient Outfall Pipe within Liquefiable Ground: Construction Challenges .....407**  
John Newby, Sri Rajah, and Ken Massé

**Progressive Decision-Making Process Helps Ensure Future Resiliency for San Diego's 2nd Aqueduct Pipelines in Moosa Canyon .....420**  
William Brick and Anjuli Corcovelos

**Test of Long Collar with Superior Ability to Absorb Ground Displacement and Pipeline Design Method of Long Collar to Cross Faults .....430**  
Takaaki Kagawa, Ryunosuke Tanaka, and Keita Oda

*System and Capital Planning*

**Desktop Analysis for Proactive Capital Investment Planning of Aging Pipeline .....441**  
 Rajat K. Chakraborti, Jagjit Kaur, Jonathan M. Green, Phil Facer,  
 Christy Hollander, George Erichsen, Ed Hogan, Enrique Lopezcalva,  
 Miranda Santucci, and Chris Williams

**Optimizing Sewage Collection Methodologies to Minimize Cost and  
 Maximize Nutrient Removal .....451**  
 Alan J. Garri and Ashley Miele

**North Miami Beach Water—Five-Year Capital Improvement Program .....463**  
 Maceo R. Lewis IV and Sam Zamacona

**Construction Procurement: How to Deliver Large Infrastructure  
 Projects—A Simple Model .....473**  
 Ron Mick, Shelbi Johnson, and Matt Gaughan

**Examining Pipe Cost Changes after Various Disasters in Los Angeles,  
 California .....481**  
 Sooin Kim and Mohsen Shahandashti

*Thrust Restraint*

**Thrust Restraint Assessment and Rehab for the Town of Gilbert’s Zone 1  
 Transmission Main .....492**  
 Henry H. Bardakjian, Osai Robinson, and Bethany McDonald

**Safety Considerations for Vault Isolation .....503**  
 Laura Dennis, David Fairburn, and Jon Fischer

*Trenchless*

**An “Out-of-the-Pipe” Solution to Protect the Environment.....513**  
 Uday Sant, Amanda Morrow, and Daniel Wilson

**What Could Go Wrong? Lessons Learned from Trenchless Installations.....523**  
 James Parkes and Sara Doran

**A Decision Tree Approach to Illustrate Trenchless versus Open-Cut  
 Construction Methods for the Southern Nevada Water Authority’s  
 Horizon Lateral Program.....532**  
 Juan R. Rosales, Zachary D. Hills, and Steve Hunt

**Review of Trenchless Installations at Willamette Water Supply Program.....542**  
 Matt Duffy, Scott T. Gibson, and Matt Pease

**Advantages of Underground Logistics Systems Using Pipelines in Airport Applications .....52**  
Kawalpreet Kaur, Madhuri Arjun, Vinayak Kaushal, Mohammad Najafi,  
and Ahmad Jibreen
