Volume 12542

Proceedings of SPIE 0277-786X, V. 12542

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Disruptive Technologies in Information Sciences VII*, edited by Misty Blowers, James Holt, Bryant T. Wysocki, Proc. of SPIE 12542, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

OPERATIONS IN CONTESTED ENVIRONMENTS

12542 03 **Analyzing the maximum on ground as an online with partial information optimization problem** [12542-1]

12542 05 **RESIDENT: a neighborhood-level framework for measuring and visualizing social capital and community resilience in dense urban terrain** [12542-4]

ADVANCEMENTS IN DECENTRALIZED DATA AND NETWORK TECHNOLOGIES

12542 06 **A cognitive dynamics framework for practical blockchain applications** [12542-5]

12542 09 **Decentralized approaches disrupt multi-stakeholder activities** [12542-9]

NOVEL SECURITY AND AUTHENTICATION

12542 0A **AUSOME: authenticating social media images using frequency analysis** [12542-10]

12542 0B **DEMA: decentralized electrical network frequency map for social media authentication** [12542-11]

12542 0C **Secure federated machine learning with flexible topology and distributed privacy controls** [12542-12]

12542 0D **Evaluation of an autonomous intelligent cyberdefense agent at NATO cyber coalition exercise 2022** [12542-13]

12542 0E **Review and assessment of prior work on and future directions for gradient descent-trained expert systems** [12542-14]

ADVANCEMENTS IN COMPUTER ALGORITHMS AND ARTIFICIAL INTELLIGENCE

12542 0F **Inter-connecting real EEG and imaginary convolutional neural networks using associative memory matrices** [12542-15]

12542 0G **New approaches to classification and regression for very high dimensional data** [12542-16]

12542 0I **Double-edged sword of LLMs: mitigating security risks of AI-generated code** [12542-18]

12542 0J **On combining automated theorem proving and digital engineering for general intelligence** [12542-19]

12542 0K **Integrating complex valued hyperdimensional computing with modular artificial neural networks** [12542-20]

BARRIERS AND ENABLERS OF INNOVATION AND TRANSFORMATIVE TECHNOLOGIES

12542 0N **Benefits and challenges of a military metaverse** [12542-23]

HOTGAME

12542 0O **Human-machine interactions in the fake news era: an integrated data analytics and behavioral approach** [12542-26]

12542 0P **Capturing the characteristics of mis/disinformation propagation over the internet** [12542-27]

12542 0Q **Implementations of blockchain applications to fight fake news: an applicability and acceptance investigation framework** [12542-32]

12542 0R **Easy money? Examining the trustworthiness of HYIP** [12542-33]

POSTER SESSION

12542 0S **Anatomical exoskeleton for movement approximation with neural networks (Student Emerging and Disruptive Innovation Award)** [12542-34]

12542 0U **Scaling intelligent agent combat behaviors through hierarchical reinforcement learning (Student Emerging and Disruptive Innovation Award)** [12542-36]

12542 0W **Using biologically hierarchical modular architecture for explainable, tunable, generalizable, spatial AI (Student Emerging and Disruptive Innovation Award)** [12542-38]

DIGITAL POSTER SESSION

12542 0X **Routing algorithms emulation on software defined networking architecture** [12542-8]
