

PROCEEDINGS OF SPIE

***Fourth International Conference
on Artificial Intelligence and
Electromechanical Automation
(AIEA 2023)***

**Fushuan Wen
Chuanjun Zhao
Yanjiao Chen**
Editors

**10–12 March 2023
Nanjing, China**

Organized by
South China University of Technology (China)

Sponsored by
Guangzhou University (China)
Jinan University (China)
South China University of Technology (China)
AEIC—Academic Exchange Information Centre (China)

Volume 12709
Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12709

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth International Conference on Artificial Intelligence and Electromechanical Automation (AIEA 2023)*, edited by Fushuan Wen, Chuanjun Zhao, Yanjiao Chen, Proc. of SPIE 12709, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xvii *Conference Committee*

Part One

ARTIFICIAL INTELLIGENCE MODELING AND PATTERN RECOGNITION

- 12709 02 **Multi-grained Chinese spelling error correction for electricity nameplate text recognition** [12709-188]
- 12709 03 **Intelligent recognition of transformer and converter components based on deep learning** [12709-23]
- 12709 04 **PV power prediction method based on ground-based cloud map and hybrid neural network** [12709-91]
- 12709 05 **Research on angle calibration method of space station indexing mechanism based on artificial intelligence** [12709-230]
- 12709 06 **Research on condition assessment method of submarine cable based on artificial intelligence algorithm** [12709-11]
- 12709 07 **Neural named entity recognition in Chinese electricity texts based on Bert-BiLSTM-CRF model** [12709-34]
- 12709 08 **Tikhonov regularization method for dynamic load identification** [12709-168]
- 12709 09 **Prediction of underwater towing cable tension based on LSTM neural network** [12709-160]
- 12709 0A **An effective graph attention network for aspect-based sentiment analysis** [12709-220]
- 12709 0B **Facial expression recognition with convolutional neural network embedded with attention mechanism** [12709-42]
- 12709 0C **Deep knowledge tracing model integrated with attention mechanism** [12709-257]
- 12709 0D **Algorithm for acquiring lettuce plant height based on image recognition network** [12709-82]
- 12709 0E **Deep learning-based framework for quantification and prognostic of polyploid giant cancer cells** [12709-249]
- 12709 0F **Single pig pose estimation using cross-stage stacked hourglass network** [12709-212]
- 12709 0G **Design of wall painting robot based on machine vision** [12709-263]

- 12709 OH **A text classification model for hypergraph convolutional neural networks with multi-feature fusion** [12709-14]
- 12709 OI **Detection of stealing electricity energy based on improved fuzzy C-means clustering** [12709-268]
- 12709 OJ **Influence of operating temperature on self-discharge of built-in battery of smart electric energy meter** [12709-269]
- 12709 OK **Analysis on network security of intelligent connected in-vehicle bus** [12709-243]
- 12709 OL **A method of ship identification based on DBN and its performance simulation** [12709-114]
- 12709 OM **Real-time fusion study of raster maps based on feature matching** [12709-183]
- 12709 ON **Research on tidal level recognition algorithm of water gauge image based on depth learning** [12709-180]
- 12709 OO **A BWCNN-GRU-LSTM-ATT model-based sentiment classification method for civil aviation passengers** [12709-107]
- 12709 OP **The trafficability prediction for an intelligent planetary rover** [12709-129]
- 12709 OQ **Multi-modality dense graph convolution network for skeleton-based action recognition** [12709-170]
- 12709 OR **A deep learning-based approach to classroom concentration analysis** [12709-46]
- 12709 OS **Tactile finger texture recognition study** [12709-15]
- 12709 OT **Research on phased scheduling algorithm based on multilevel fuzzy binding** [12709-161]
- 12709 OU **Multi-agent optimization operation of regional integrated energy system based on co-integration theory** [12709-264]
- 12709 OV **Signal classification based on self-attention mechanism in unlicensed bands** [12709-72]
- 12709 OW **Feature extraction and recognition: key to solving stability issues in electric braking booster** [12709-238]
- 12709 OX **Multi-scale dual self-attention refine network for semantic segmentation** [12709-61]
- 12709 OY **Global-local transformer for unsupervised person re-identification** [12709-195]
- 12709 OZ **RugbyNet: an efficient CNN architecture for offline unconstrained handwritten Chinese character recognition** [12709-174]

- 12709 10 **Personalized brand recommendation model based on knowledge graph** [12709-50]
- 12709 11 **Conversation generation based on conversation topics and knowledge differences** [12709-252]
- 12709 12 **A hybrid intelligent combat network model coupled with virtual links** [12709-224]
- 12709 13 **Motion recognition of two-stream based on multi-attention** [12709-142]
- 12709 14 **Speech emotion recognition based on ResNet-BiGRU network** [12709-204]
- 12709 15 **An environmental digital twin construction method for 3D modeling** [12709-242]
- 12709 16 **Design of voice controlled multi-colored lamp based on single chip microcomputer and speech recognition chip** [12709-187]
- 12709 17 **A swift and efficient method for face mask recognition based on off-the-shelf models** [12709-210]
- 12709 18 **Recognition and positioning of vehicle nameplate in inspection scene based on binocular vision** [12709-175]
- 12709 19 **Unsupervised specific emitter identification of bispectrum features based on contrastive learning** [12709-200]
- 12709 1A **Effect of discretization on the structure function method of artificial neural networks** [12709-282]
- 12709 1B **Hybrid attention network for semantic segmentation** [12709-67]
- 12709 1C **Research on embedded workpiece ranging system based on binocular vision** [12709-8]
- 12709 1D **Improved the lightweight part identification method of YOLOv5** [12709-182]
- 12709 1E **A review of unsupervised text style transfer based on deep learning** [12709-117]

SENSOR NETWORK AND WIND POWER DATA MEASUREMENT

- 12709 1F **Discriminant analysis of user stealing electricity behavior based on Levenberg Marquardt neural network model** [12709-111]
- 12709 1G **Analysis of maximum access capability of offshore wind power considering static voltage stability** [12709-199]
- 12709 1H **Electricity purchase and sale decision of electricity retailers considering the responsibility of renewable energy consumption** [12709-9]

- 12709 1I **Optimization of frequency modulation index weights in power system with wind power based on AHP** [12709-217]
- 12709 1J **Day-ahead optimization strategies for electric vehicles participation in frequency regulation auxiliary services market based on distributionally robust chance constraint** [12709-130]
- 12709 1K **A substation anomaly detection method based on improved Siamese networks** [12709-18]
- 12709 1L **Influence of met-ocean data integrity on the dynamic performance optimization of floating offshore wind turbines** [12709-219]
- 12709 1M **A multifunctional flexible sensor based on 3D printing technology** [12709-248]
- 12709 1N **Research on sensorless control method of oral infusion system based on PMSM** [12709-121]
- 12709 1O **Design of Xilinx Zynq UltraScale+ MPSoC special power module** [12709-31]
- 12709 1P **Analysis of trading problems and metering methods for high power users with double-bus loop self-owned power plants** [12709-105]
- 12709 1Q **Online temperature monitoring of power equipment based on temperature difference sensing** [12709-274]
- 12709 1R **High stability tungsten halogen lamp drive power supply design and testing** [12709-151]
- 12709 1S **PV prediction model based on XGBoost with ISMA optimization** [12709-17]
- 12709 1T **Emotional irony detection based on multi-feature fusion** [12709-164]
- 12709 1U **Fault detection method of DC distribution network based on GRNN** [12709-206]
- 12709 1V **Focusing on representative examples for inductive program synthesis** [12709-64]
- 12709 1W **Point distance mask attention network for learning on point cloud** [12709-211]
- 12709 1X **The cloud verification platform of power system simulation AI model** [12709-283]
- 12709 1Y **Vehicle detection algorithm based on magnetoresistive sensor** [12709-120]
- 12709 1Z **Application of visual sensing technology in welding robot** [12709-236]
- 12709 20 **Prediction of thickness of blasting scatter water belt based on GA-BP and PSO-BP** [12709-112]
- 12709 21 **Multi-sensor fusion estimation algorithm based on IMM and SCC** [12709-146]
- 12709 22 **Cooperative optimization study of source network considering unbalanced power** [12709-197]

- 12709 23 **Simulation-based machine learning training data generation system** [12709-70]
- 12709 24 **Multi-time scale carbon emission of grid users forecasting based on hybrid neural network model** [12709-165]
- 12709 25 **Research on physical feature analysis of integrated circuits based on machine learning** [12709-68]
- 12709 26 **Robustness analysis of multi-sink placement in wireless sensor networks** [12709-97]
- 12709 27 **Sensing information collection and virtualization construction of smart scenarios of power grid infrastructure** [12709-20]
- 12709 28 **Direct drive transport circulation system based on wireless power supply** [12709-214]
- 12709 29 **Research on optimal allocation of power system based on achieving carbon peak: take Shandong province as an example** [12709-122]
- 12709 2A **Development of on-line monitoring equipment for position and state of high voltage transmission line based on Beidou integrated application** [12709-275]
- 12709 2B **Human skeleton key points detection model of substation operators based on mask initialization** [12709-190]
- 12709 2C **YOLOv5-based pothole measurement** [12709-84]
- 12709 2D **State of health estimation of lithium-ion battery based on DAGRU** [12709-106]
- 12709 2E **An evolving ensembles method based on genetic programming and whale optimization algorithm for imbalanced datasets** [12709-148]
- 12709 2F **Parking obstacle height measurement based on monocular fisheye camera** [12709-235]
- 12709 2G **Pneumonia detection research based on fine-grained image classification** [12709-138]
- 12709 2H **Video abnormal action detection based on enhanced video Swin transformer** [12709-116]
- 12709 2I **Real-time detection method for infrared pedestrian** [12709-155]
- 12709 2J **Multi-label text classification based on capsule network and virtual adversarial training** [12709-136]
- 12709 2K **Analysis and early warning method of power outage range for planned maintenance of distribution network based on logic coding** [12709-12]
- 12709 2L **Construction of a lithium-ion battery degradation model based on ultrasonic detection** [12709-28]

- 12709 2M **Low-delay transmission technology in 5G distribution network differential protection** [12709-95]
- 12709 2N **Unveiling the power of unpaired multi-modal data for RGBT tracking** [12709-256]
- 12709 2O **Flow scheduling and network updates in time-sensitive software-defined networks** [12709-260]
- 12709 2P **Research on combat network link prediction based on AIProbS method** [12709-245]
- 12709 2Q **Contrastive learning for stance detection based on theme** [12709-203]
- 12709 2R **Multi-scale progressive feedback based on a self-attentive mechanism image super-resolution reconstruction** [12709-185]
- 12709 2S **Measurement of truck carriage size based on lidar** [12709-79]
- 12709 2T **Analysis of distribution network fault and outage information based on multi-source data visualization design and application of digital signage** [12709-74]

ADVANCED ALGORITHM AND ELECTRICAL CONTROL SYSTEM

- 12709 2U **Consistency guaranteed two-timescale optimization decision for energy management system in nuclear power plant** [12709-94]
- 12709 2V **Emergency vehicle scheduling optimization for nuclear accidents based on minimum personal radiation dose** [12709-172]
- 12709 2W **Research on coordinated control technology of distribution network with soft open point based on RTDS** [12709-284]
- 12709 2X **Deep Q-learning network-based optimal deployment strategy for distribution IoT** [12709-24]
- 12709 2Y **Application of genetic programming algorithm in flow control** [12709-273]
- 12709 2Z **Analysis of hydraulic drainage system of drainage emergency vehicle based on Amesim** [12709-179]
- 12709 30 **Redirection controller-based reinforcement learning for redirected walking** [12709-43]
- 12709 31 **Research on energy saving and optimal control of semi submersible platform rapid unloading system** [12709-85]
- 12709 32 **Simulation design of variable speed control system of vine crushing device** [12709-150]
- 12709 33 **Research on the indicator system for civil aircraft project evaluation based on logical framework approach** [12709-267]

- 12709 34 **Agent model for calculating gas radiation properties based on gradient boosting decision tree algorithm** [12709-22]
- 12709 35 **BP (back propagation) neural network-based performance prediction and optimization of a low-grade heat recovery system** [12709-71]
- 12709 36 **Star uniform selection algorithm based on maximizing Kozachenko-Leonko entropy** [12709-125]
- 12709 37 **Improved tongue detection algorithm based on YOLO V4** [12709-246]
- 12709 38 **UAV target detection algorithm based on improved YOLOv5s** [12709-39]

Part Two

- 12709 39 **A lightweight vehicles detection network model based on YOLOv5** [12709-250]
- 12709 3A **Rule engine system for ride-hailing services based on bitmap algorithm** [12709-75]
- 12709 3B **Application of automatic control system in continuous tube equipment** [12709-176]
- 12709 3C **Genetic algorithm-based pipeline layout for refrigeration plant rooms** [12709-201]
- 12709 3D **Coordinated control strategy based on voltage balancer in the bipolar DC network with PV power generation** [12709-89]
- 12709 3E **A quadrotor unmanned aerial vehicle trajectory generation algorithm based on RRT-JPS and corridors** [12709-108]
- 12709 3F **Research on fault location algorithm of city cables based on IAGA-BP** [12709-143]
- 12709 3G **APIT positioning algorithm based on tetrahedral centroid cutting in mountainous environment** [12709-244]
- 12709 3H **Research on optimal configuration of off-grid PH coupling system based on MPC** [12709-26]
- 12709 3I **VSG control strategy based on improved hybrid leapfrog algorithm** [12709-76]
- 12709 3J **Research and implementation of underwater SINS/DVL integrated navigation and positioning algorithm** [12709-147]
- 12709 3K **Optimization method of power grid economic dispatching based on adaptive particle swarm optimization algorithm** [12709-44]
- 12709 3L **An initial alignment algorithm of strapdown inertial navigation system assisted by Doppler radar based on adaptive filtering** [12709-93]
- 12709 3M **Study of six-degree-of-freedom wave characteristics simulator based on admittance control** [12709-123]

- 12709 3N **Oversampling algorithm based on generative adversarial network** [12709-45]
- 12709 3O **An adjustable time slice process scheduling algorithm based on feature similarity clustering** [12709-87]
- 12709 3P **Analysis method of line loss anomaly in platform area based on clustering algorithm** [12709-262]
- 12709 3Q **Additional frequency control strategy of VSC-MTDC system with wind farm** [12709-16]
- 12709 3R **Research on MMC-HVDC start-up control strategy for grid-connected wind power** [12709-7]
- 12709 3S **Fusion residual neural network-based product image recommendation system** [12709-109]
- 12709 3T **Design of small-size EtherCAT slave controller applied to servo system** [12709-49]
- 12709 3U **HCN-MOEA: a robustness optimization algorithm for large-scale heterogeneous combat network** [12709-237]
- 12709 3V **Node2vec enhanced attributed graph matrix factorization algorithm** [12709-3]
- 12709 3W **Fast pulse detection algorithm based on improved ghost convolution** [12709-35]
- 12709 3X **Sliding mode control of LLC resonant converters** [12709-281]
- 12709 3Y **Reality image super-resolution algorithm based on an improved pipeline processing model** [12709-240]
- 12709 3Z **Research on fault tracing method of communication-based train control system** [12709-258]
- 12709 40 **LLC resonant converter control optimization strategy** [12709-62]
- 12709 41 **Research on YOLOv4 object detection algorithm based on lightweight** [12709-194]

COMPOSITE MATERIAL INSPECTION AND QUALITY CONTROL

- 12709 42 **Green certificate trading and electricity market synergy modelling with renewable energy quotas** [12709-286]
- 12709 43 **Optimal design of hot shrink tube expansion mold based on Fluent** [12709-152]
- 12709 44 **A review of the detection technology of bolted connection state on transmission line towers** [12709-270]

- 12709 45 **Simplified GoogLeNet-based spiking neural network for bridge crack detection** [12709-192]
- 12709 46 **A review of on-line monitoring technology of oil chromatography based on gas chromatography analysis** [12709-279]
- 12709 47 **Architecture design of whole process quality test and control for distribution equipment based on Internet of Things** [12709-60]
- 12709 48 **An improved method for partial occlusion face inpainting** [12709-54]
- 12709 49 **Implementation of a low-code monitoring system for solid oxide fuel cells** [12709-98]
- 12709 4A **Hot spot detection method of air preheater based on chaos theory and cluster analysis** [12709-63]
- 12709 4B **Automatic quality monitoring of two-photon printed devices based on deep learning** [12709-149]
- 12709 4C **Identification of ship medium voltage direct current power quality disturbances based on spatio-temporal fusion** [12709-104]
- 12709 4D **Optimization of dovetail magnetic isolation device for permanent magnet torque motor based on finite element method** [12709-27]
- 12709 4E **The research on bird hazard analysis and protective measures for converter station** [12709-158]
- 12709 4F **Design and realization of magnetic and laser hybrid navigation in AGV system** [12709-103]
- 12709 4G **A novel method of transformer winding deformation detection** [12709-261]
- 12709 4H **Research on transmission efficiency of wireless power supply based on space laser radar** [12709-137]
- 12709 4I **Semi-supervised depth completion with fusion of LiDAR sequences and stereo imagery** [12709-208]
- 12709 4J **Performance of active suspension control strategy based on road identification** [12709-69]
- 12709 4K **Multi label image classification learning with weak labels** [12709-285]
- 12709 4L **Textile fabric image classification method based on enhanced deep learning features** [12709-207]
- 12709 4M **Multi-target ranging technology based on fast steering mirror** [12709-228]
- 12709 4N **Study on inverter control under load disturbance based on repetitive and fuzzy PID methods** [12709-124]
- 12709 4O **Real-time detection of YOLOv5 guns based on lightweight** [12709-255]

- 12709 4P **Detection of TBM tunnel surrounding rock debris based on attention mechanism YOLOv5**
[12709-110]
- 12709 4Q **Tomato leaf disease detection based on peer-to-peer federated learning in wireless networks**
[12709-233]
- 12709 4R **Design of microgrid monitoring system based on LabVIEW** [12709-141]
- 12709 4S **Prediction of incompetent rock mass based on characteristic parameters and neural network**
[12709-216]
- 12709 4T **Research on the key technology of reverse engineering based on PRO-E** [12709-196]
- 12709 4U **Corrosion prediction of iron-based metals by the prophet model** [12709-113]
- 12709 4V **Error analysis and simulation of LiDAR system for indoor detection based on robotic dog**
[12709-154]
- 12709 4W **Improved cascaded partial decoder for boundary aware salient object detection** [12709-101]
- 12709 4X **Session recommendation based on graph neural networks incorporating graph attention**
[12709-144]
- 12709 4Y **Resource awareness and dynamic load balancing in satellite-ground integrated networks**
[12709-51]
- 12709 4Z **Non-material state estimation of arresting cable based on ALE formulation and UKF** [12709-162]
- 12709 50 **Learning to schedule job shop scheduling problem with maintenance time using graph node embedding and deep reinforcement learning** [12709-96]
- 12709 51 **The quality evaluation of psychometric scale reply base on eye tracking** [12709-90]
- 12709 52 **Research on entity relation extraction based on head entity feature extraction** [12709-21]
- 12709 53 **A word's distribution of reported results prediction model based on BP neural network**
[12709-100]
- 12709 54 **Chinese classical poetry generation LoRA for T5** [12709-221]
- 12709 55 **Research on multi-objective-multi-elevator coordinative strategy based on neural network**
[12709-223]
- 12709 56 **Defect detection algorithm for steel surface based on improved YOLOv5** [12709-213]
- 12709 57 **Analysis of surface temperature uniformity of temperature controlled wafer chuck based on fluid simulation** [12709-254]

- 12709 58 **Short-term power prediction of distributed photovoltaic based on CNN-LSTM and meteorological interpolation** [12709-290]
- 12709 59 **Research on power generation capacity of photovoltaic power generation system based on PVsyst software** [12709-4]

POWER MANUFACTURING AND MECHATRONICS

- 12709 5A **Intelligent torque diagnosis method of nuclear electrical valve actuator based on WOA-ELM algorithm** [12709-266]
- 12709 5B **A multivariate operational situation awareness method based on weighted graph structure for complex nuclear power systems** [12709-177]
- 12709 5C **Design of printing machine workbench based on simulation analysis** [12709-178]
- 12709 5D **Rolling scheduling strategy of electric vehicles based on dynamic clustering and variable horizon** [12709-153]
- 12709 5E **Study on automatic driving algorithm of floating bridge construction bridge gate based on Beidou RTK (Real-Time Kinematic)** [12709-232]
- 12709 5F **Simulation assembly and maintenance design of aircraft rudder control mechanism** [12709-241]
- 12709 5G **Design of measuring method for repeat collimation precision of self-propelled gun** [12709-229]
- 12709 5H **Research on fault diagnosis and health monitoring of wind power equipment** [12709-171]
- 12709 5I **Topological optimization design for support structure under multiple loading conditions** [12709-222]
- 12709 5J **Design and research of automatic deviation correction device for belt conveyor based on PLC control** [12709-218]
- 12709 5K **Modeling and motion simulation of four axis manipulator based on digital twin** [12709-167]
- 12709 5L **Optimization of inventor control strategy for ship hybrid propulsion** [12709-169]
- 12709 5M **A review of research on vibration and noise reduction in switched reluctance motors** [12709-33]
- 12709 5N **Research on double controller redundant switching system of permanent magnet synchronous motor** [12709-156]
- 12709 5O **Mechanism research on coupling leakage current of traction transmission system of EMU** [12709-13]

- 12709 5P **Path planning of UAV pesticide spraying in terraced fields based on Boustrophedon** [12709-278]
- 12709 5Q **Power equipment defect intelligent diagnosis platform based on knowledge map** [12709-66]
- 12709 5R **Research on energy management strategy of fuel cell hybrid power system based on minimum principle** [12709-128]
- 12709 5S **Moving vehicle detection based on RAFT optical flow and YOLOV4 in dynamic background** [12709-163]
- 12709 5T **Z-FFR architecture design for massively parallel development** [12709-73]
- 12709 5U **Research on a data fusion scheme for a depth camera and LIDAR of mobile robot based on depth completion** [12709-5]
- 12709 5V **Research on tower bolt loosening detection technology based on laser vibration measurement** [12709-271]
- 12709 5W **Design of steam turbine generator simulation APP based on industrial internet platform** [12709-251]
- 12709 5X **Study on test method of autonomous driving container vehicle for port** [12709-25]
- 12709 5Y **Research on image classification based on extreme learning machine and convolutional neural network** [12709-202]
- 12709 5Z **Research on fault diagnosis of LAMOST fiber positioning robot** [12709-6]
- 12709 60 **Research on optimization model of electric vehicle charging pile planning based on data-driven** [12709-181]
- 12709 61 **Peak traffic statistics and prediction for Markov process-based scheduling models** [12709-102]
- 12709 62 **A two-robot collaborative exploration approach for unknown environments** [12709-92]
- 12709 63 **Pipeline weld detection robot based on YOLOv5-Lite** [12709-59]
- 12709 64 **Research and application of indoor wheeled inspection robot system based on substation** [12709-40]
- 12709 65 **The design and research of the automatically picking and hanging Stichopus Japonicus tank changer** [12709-186]
- 12709 66 **PID parameter tuning of DC motor based on improved particle swarm optimization** [12709-126]
- 12709 67 **Research on fault diagnosis model driven by artificial intelligence from domain adaptation to domain generalization** [12709-19]

- 12709 68 **Integrated desert automatic tree planter** [12709-37]
- 12709 69 **Design of quick centralized feeder automation control system** [12709-80]
- 12709 6A **Research on automatic generation algorithm of duct system based on secondary development of Revit** [12709-36]
- 12709 6B **Multi-motor lifting synchronous control method based on digital twin** [12709-41]
- 12709 6C **Deep dynamic feature alignment-based few-shot learning for figure skating action localization** [12709-139]
- 12709 6D **The critical path adjustment mechanism for dynamic job shop scheduling problem** [12709-86]
- 12709 6E **Visual servoing for wheeled cable-climbing robots with deflection correction** [12709-58]
- 12709 6F **Developing a personalized chat-based AI model for enhanced sports education: a case study** [12709-47]
- 12709 6G **Research on automatic route planning algorithm for wind turbine inspection** [12709-184]
- 12709 6H **Research on regional carbon emission prediction method based on combination prediction model** [12709-10]
