

PROCEEDINGS OF SPIE

***International Conference on  
Automation Control, Algorithm,  
and Intelligent Bionics  
(ACAIB 2023)***

**Samir Ladaci  
Suresh Kaswan**  
*Editors*

**28–30 April 2023  
Xiamen, China**

*Organized by*  
Jiangxi University of Science and Technology (China)

*Sponsored by*  
Anna University (India)  
AEIC Academic Exchange Information Centre (China)

*Published by*  
SPIE

**Volume 12759**  
Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12759

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Automation Control, Algorithm, and Intelligent Bionics (ACAIB 2023)*, edited by Samir Ladaci, Suresh Kaswan, Proc. of SPIE 12759, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

## Part One

### ELECTRONIC TECHNOLOGY MODELING AND AUTOMATIC CONTROL

---

- 12759 02 **Vehicle forward collision warning and simulation test based on predictive control model** [12759-168]
- 12759 03 **Fuzzy control of obstacle avoidance for substation patrol robot based on laser radar** [12759-172]
- 12759 04 **Research on trajectory planning of robot automatic winding** [12759-175]
- 12759 05 **Research on automatic thrower control based on brain-computer interface** [12759-106]
- 12759 06 **An inductive control method for bus priority based on dynamic green time constraint** [12759-15]
- 12759 07 **Research on game guidance and control of fixed time spacecraft** [12759-22]
- 12759 08 **Fault diagnosis model of automatic welder for marine manufacturing** [12759-136]
- 12759 09 **Research and design of permanent magnetic actuator control system with high action stability of vacuum switch** [12759-156]
- 12759 0A **Modified Smith prediction compensation control method for temperature control of deformation test equipment** [12759-5]
- 12759 0B **Current status and trends in the study of penetration fuze initiation control methods** [12759-165]
- 12759 0C **Predictive control and optimization analysis of ball mill system for coal mine** [12759-83]
- 12759 0D **Research on fuzzy PID control technology of hydraulic valve** [12759-82]
- 12759 0E **Radial 4-DOF decoupling control of active magnetic bearing** [12759-20]
- 12759 0F **A study on integrated control of trajectory tracking and lateral stability for distributed drive autonomous vehicle** [12759-90]
- 12759 0G **The photoelectric stabilization platform system is based on active disturbance rejection and integral backstepping control strategy** [12759-80]

- 12759 OH **Engineering vessel anchoring positioning control based on anti-saturation guidance dynamic surface** [12759-27]
- 12759 OI **Optimized control of ballast anti-heeling switching points for leveling barge** [12759-29]
- 12759 OJ **An optimized control switching strategy for STATCOM/BESS reactive power output** [12759-44]
- 12759 OK **Study on fuzzy PID control characteristics of gun vertical stabilizer load simulation system** [12759-31]
- 12759 OL **Nonlinear model predictive control based on improved growing and merging neural network** [12759-81]
- 12759 OM **Research on automatic path planning for obstacle avoidance of intelligent substation patrol robot** [12759-130]
- 12759 ON **Distributed autonomous coordinated control strategy for AC-DC hybrid multi-microgrid system** [12759-26]
- 12759 OO **Decoupled adaptive backstepping control of fractional-order permanent magnet synchronous motor** [12759-113]
- 12759 OP **Design and simulation of wind farm power control scheme** [12759-125]
- 12759 OQ **Exponential stability analysis and control of T-S fuzzy system with time-varying delay** [12759-164]
- 12759 OR **Synchronization control of multiple stepper motors with acceleration and deceleration** [12759-46]
- 12759 OS **Design of smart home control system based on NB-IoT technology** [12759-161]
- 12759 OT **Key points and quality control method of electrical equipment installation process based on machine learning** [12759-139]
- 12759 OU **High-gain observer-based fixed-time non-singular terminal sliding mode control for unmanned surface vehicles with actuator failures** [12759-92]
- 12759 OV **Subspace identification based predictive control of Wiener system** [12759-84]
- 12759 OW **Research of sliding mode control based on novel reaching law for PMSM** [12759-145]
- 12759 OX **A high precision temperature control strategy for space refrigeration controller** [12759-118]
- 12759 OY **Run-to-run optimal control for batch process based on principal component regression model** [12759-87]
- 12759 OZ **The application of immune neural network in the synchronous PID control system of double-cylinder hydraulic press** [12759-94]

## BIG DATA ALGORITHM AND HIGH PERFORMANCE COMPUTING

---

- 12759 10 **LES based power quality data feature extraction and Thompson Tau data cleaning** [12759-167]
- 12759 11 **Analysis and modeling of the spatial autocorrelation of the network passenger flow based on GPS data** [12759-93]
- 12759 12 **Dynamic SLAM algorithm based on reprojection error and depth estimation** [12759-74]
- 12759 13 **An unmanned vehicle path planning problem based on intelligent algorithms** [12759-42]
- 12759 14 **Design of material handling robot based on LSTM+DTW algorithm** [12759-134]
- 12759 15 **Double strategy fusion improved sparrow search algorithm** [12759-111]
- 12759 16 **Research on distributed power control strategy based on improved MPPT algorithm** [12759-67]
- 12759 17 **Mixed strategy improves dwarf mongoose optimization algorithm** [12759-41]
- 12759 18 **Deep learning algorithms for air pollution forecasting: an overview of recent developments** [12759-19]
- 12759 19 **Research on image classification algorithm of environmental art design effect based on deep learning** [12759-65]
- 12759 1A **Python-based approach for data analysis of physical fitness training among college students** [12759-98]
- 12759 1B **Target tracking algorithm based on node height regulate and considering node moving energy consumption** [12759-86]
- 12759 1C **An integral-differential LOS algorithm for USV path-tracking control** [12759-138]
- 12759 1D **Parameter identification based on resistance furnace model** [12759-152]
- 12759 1E **Transfer learning with deep models for small food datasets** [12759-91]
- 12759 1F **A path planning method for mobile robots incorporating artificial potential field method and ant colony algorithm** [12759-101]
- 12759 1G **An improved discrete particle swarm optimization for multi-objective flexible job shop scheduling problem under dynamic perturbation** [12759-79]
- 12759 1H **Application of ant colony genetic hybrid algorithm in Enshi route planning** [12759-68]

- 12759 1I **Industrial CT reconstruction based on back-projection algorithm** [12759-49]
- 12759 1J **Combinatorial optimization algorithm for workshop scheduling** [12759-150]
- 12759 1K **Simulation of multi-factor water-floating garbage drift trajectories based on Sa-LSTM** [12759-76]
- 12759 1L **Revised DBSCAN clustering algorithm based on quadratic grid segmentation** [12759-116]
- 12759 1M **Mobile robot motion obstacle avoidance control based on improved A\* algorithm and artificial potential field algorithm combination** [12759-117]
- 12759 1N **The implementation of an adaptive ambiguity resolution algorithm for phase error equivalence space** [12759-61]
- 12759 1O **YOLOv5 spore detection algorithm for wheat powdery mildew based on attentional feature fusion** [12759-33]
- 12759 1P **Construction of a low-carbon distribution network operation risk metric model based on information entropy and threshold comparison algorithm** [12759-133]
- 12759 1Q **Fuzzy C-mean clustering algorithm based on genetic simulated annealing algorithm battlefield site selection** [12759-21]
- 12759 1R **Calculation method of product similarity based on modern algorithm** [12759-99]
- 12759 1S **Research on scheduling optimization problem of process industry based on improved gray wolf algorithm** [12759-141]
- 12759 1T **Risk assessment of non-stationary time series driving data based on FMK method for autonomous vehicles** [12759-7]
- 12759 1U **Multi-objective operation optimization study of high-speed train ATO based on improved particle swarm algorithm** [12759-14]
- 12759 1V **A novel global localization algorithm based on ring-wise encoding descriptors** [12759-97]
- 12759 1W **Distribution substation heavy overload data processing method based on BP neural network** [12759-140]
- 12759 1X **A fast route planning algorithm for civil aircraft test flight** [12759-123]

## Part Two

---

### INTELLIGENT PATTERN RECOGNITION AND VISUAL LEARNING

- 12759 1Y **A new deep learning-based intelligent production support system that can be used in ordinary factories** [12759-169]

- 12759 1Z **Servo drive system design based on motor control requirements** [12759-154]
- 12759 20 **A deep learning-based adaptive segmentation method for general, national, and provincial trunk roads** [12759-158]
- 12759 21 **Short-term traffic flow prediction of parallel roads based on transfer learning** [12759-105]
- 12759 22 **Research on manned robot path expansion based on mixed social force model** [12759-78]
- 12759 23 **Daily production prediction of oil wells based on machine learning** [12759-160]
- 12759 24 **An improved graphical convolutional network model based on interactive aspect-level sentiment analysis** [12759-121]
- 12759 25 **Deep learning based multi-branch structure detection network** [12759-143]
- 12759 26 **Fisheye video stream target tracking** [12759-89]
- 12759 27 **Design of intelligent robot based on tennis ball recognition** [12759-32]
- 12759 28 **Sensorless control of permanent magnet synchronous motor based on PR controller and immune filter** [12759-11]
- 12759 29 **Robustness model prediction torque optimization control for permanent magnet synchronous motor** [12759-163]
- 12759 2A **Unloading system of concrete mixing station based on machine vision** [12759-47]
- 12759 2B **LIDAR and camera fusion method based on detection frame overlap** [12759-148]
- 12759 2C **Access control system of face recognition for smart campus based on cloud-side collaborative priority verification strategy** [12759-75]
- 12759 2D **Research on crowded scene localization method based on visual invariant information** [12759-53]
- 12759 2E **Underwater visual-inertial odometer based on artificial markers and natural feature points** [12759-30]
- 12759 2F **Adaptive intelligent particle filter for visual localization of mobile robot** [12759-95]
- 12759 2G **Research on prediction model of coal mine accident hidden dangers based on deep learning** [12759-96]
- 12759 2H **A study on the effect of write load and bandwidth on the load rebalancing conditions of distributed hash tables under IoT perspective** [12759-131]
- 12759 2I **Exploration of predictive applications based on machine learning** [12759-37]

- 12759 2J **Modeling and optimization methods for charging route planning and sensor battery capacity minimization for wireless rechargeable sensor networks** [12759-69]
- 12759 2K **Intelligent power warehousing control strategy based on speed sensorless** [12759-3]
- 12759 2L **Insulator recognition and self-explosion defect detection method based on improved YOLOv5 model** [12759-127]
- 12759 2M **A review of ADCP river flow measurement method based on bio-visual mechanism** [12759-25]
- 12759 2N **Research on photovoltaic system malfunction identification based on deep convolutional neural network** [12759-2]
- 12759 2O **Intelligent identification method of 10kV cable insulation fault under damped oscillatory wave voltage** [12759-137]
- 12759 2P **FPGA-based video gesture recognition smart home control** [12759-110]
- 12759 2Q **MADNet: based on multiple attention and dilated convolution for CSI feedback** [12759-39]
- 12759 2R **Design and experimental application of circular array of vector underwater acoustic sensor** [12759-73]
- 12759 2S **Target feature matching method of remote sensing image of power tower supported by grid coding** [12759-132]
- 12759 2T **Broad learning and convolutional neural network aided principal component analysis for detecting faults in high-speed trains** [12759-112]
- 12759 2U **An optimized proportional-integral-derivative controller by particle swarm optimization and back propagation neural network for a direct current motor servo control system** [12759-40]
- 12759 2V **Research on bird sound recognition based on deep learning** [12759-85]

---

#### INTELLIGENT BIONIC DESIGN AND PREDICTIVE SYSTEM

- 12759 2W **Aircraft arrival and departure time interval prediction based on improved Bayesian classifier** [12759-170]
- 12759 2X **Prediction of mud density of cutter suction dredger based on neural network optimized by SSA** [12759-173]
- 12759 2Y **Short-term traffic flow prediction model based on GWO-attention-LSTM** [12759-102]
- 12759 2Z **Urban rail transit passenger flow forecasting based on prophet-GRU combined model** [12759-155]

- 12759 30 **Shared-bicycle demand forecast using convolutional LSTM network** [12759-103]
- 12759 31 **Prediction model of mobike demand based on T-GCN** [12759-119]
- 12759 32 **Traffic flow prediction based on residual neural network** [12759-62]
- 12759 33 **Short-time prediction of parking demand based on LSTM neural network model** [12759-38]
- 12759 34 **Study on path planning of near-surface vehicle in island and reef areas** [12759-70]
- 12759 35 **Short-term traffic flow prediction based on TDG of expressway** [12759-115]
- 12759 36 **Research on hard points height prediction method based on BP neural network** [12759-149]
- 12759 37 **Kinetic study on the melting and crystallization of mold fluxe** [12759-142]
- 12759 38 **Experimental study on monitoring bearing load of spindle system based on bearing cap**  
[12759-24]
- 12759 39 **Dual-vehicle co-working system based on OpenMV** [12759-162]
- 12759 3A **LIDAR pedestrian segmentation based on improved Euclidean clustering** [12759-146]
- 12759 3B **Design of smart home system based on NB-IoT** [12759-159]
- 12759 3C **Process research on intelligent coating robot system for ship segments** [12759-64]
- 12759 3D **Software architecture evaluation model of the utility management system** [12759-166]
- 12759 3E **An unsupervised anomaly detection approach using spatiotemporal feature in hot strip rolling**  
[12759-114]
- 12759 3F **A multi-fidelity surrogate model by optimal model selection** [12759-100]
- 12759 3G **Bubble detection of polarizer on flexible OLED screen based on OpenCV** [12759-109]
- 12759 3H **Application of nonlinear dynamic system in software development engineering** [12759-151]
- 12759 3I **Design and test of precision seeding system based on fuzzy PID** [12759-8]
- 12759 3J **Research on key technologies of attitude adjustment and involution of reconfigurable flexible  
wing body** [12759-88]
- 12759 3K **Energy-conservative scheme design of the hydraulic system for high-level stacking and  
picking forklift trucks** [12759-56]

- 12759 3L **Simulation analysis of space trajectory planning for multi-joint bionic scorpion manipulator**  
[12759-108]
- 12759 3M **Research on the video processing module based on cameralink interface technology**  
[12759-6]
- 12759 3N **Novel nonsingular terminal sliding mode for inner-mounted permanent magnet synchronous motor speed regulation** [12759-60]
- 12759 3O **Design and analysis of buffer mechanism based on dumbbell type throwing robot** [12759-45]
- 12759 3P **Study on drag reduction characteristics of surface microstructure of underwater bionic robot**  
[12759-23]
- 12759 3Q **Tension optimization strategy of mooring positioning system** [12759-43]
- 12759 3R **Research on verdant structure scheme administration under CPS technology** [12759-120]
- 12759 3S **Low-dimensional feature enhanced camouflaged object detection** [12759-51]
- 12759 3T **A novel multi-modal feature extraction system for news video** [12759-12]
- 12759 3U **Position adjustment strategy for bearing-only passive location of unmanned aerial vehicles**  
[12759-147]
