List of submissions

Full papers

0274 Deep learning method for IMU-based tracking of Martian rover.....	2
0448 Lunar rover discrete element method study and calibration	7
0709 Proposal of swarm rovers' collaborative locomotion with expansion and contraction mechanism for driving a loose slope	15
0889 Skidding suppression method using "discrete 4-wheel-drive typed rover" considering steering angle at traveling across loose slope.....	22
1098 Simulation of change in supporting force when imparting vibration by distinct element method.....	29
1453 Suppressing the reduction of the traveling displacement on loose soil for rovers with function of a wheel-walking.....	34
1522 Tractive performance of rigid wheel in granular media using coarse-scale DEM models.....	39
1638 Analysis of tire characteristics on road surface with volcanic ash fall.....	44
1805 Accelerating Graph Networks for Real Time Physics Simulation	50
2145 Obstacle performance and wheel failure test analysis of Zhurong Rover	57
2177 Effects of road wheel load, driving speed and track slip upon stress state in sandy soil under tracked vehicle loading ...	62
2437 Improving predictive control methods on off-road vehicles with realistic steering preview inputs	72
2765 Obstacle detection vision system enabling autonomous mounding on clearcuts.....	78
2801 In situ soil property estimation for autonomous earthmoving using physics-infused neural networks.....	84
2936 Moisture content impacts on soil load-bearing capacity and its spectral behaviour	94
3280 Comparison of tweels and pneumatic tires on LTATV military vehicle	100
3493 Numerical modeling of a tire on undrained saturated clay using FEM, ALE, and SPH	105
3507 Determination of the tractive forces of a tractor based on the reconstruction of tire – soil contact surface obtained by means of photogrammetry.....	114
3796 The issue of assessing the suitability of own simulation models for testing off-road vehicles	121
3797 Disturbed and naturally recovered soil surface as a ground for subsequent vehicle mobility operations.....	127
3835 Effect of steer angle rate upon tire lateral force generation on two different soils	133
4141 Modeling and verification of a full-scale forestry vehicle real-time multi-physics digital twin	140
4456 Modeling soil-tool interaction of a cultivator sweep using DEM	147
4595 Evaluation and comparison of driving performance of lunar exploration rover wheel in different soils.....	151
4681 Simplified models of terrain-vehicle interaction for real-time applications.....	159

4816 Effects of humidity on the emissions of the diesel engines	165
5552 New approach to controlled vehicle drawbar pull testing	171
6027 Digital precision planning tool for autonomous forest regeneration of mixed tree species	175
6630 Real-time measurement of tire sinkage using stereo cameras.....	181
6690 Benchmarking of methods to evaluate penetration resistance for Clegg hammer and cone penetrometer.....	186
6736 Ride comfort comparison between 4-poster and straight-line driving simulations	192
6861 Researches on airplane performance on a grass airfield	197
7198 Analysis of aircraft dynamics while overcoming terrain obstacles.....	204
7477 Evaluating the pressure performance of DPF filters using engine bench analysis	213
7523 Assessing Performance of Light Wheeled Vehicles on GRC-1 using 3D Scanned Footprint Measurements.....	218
7577 Implementation of moving loads on ice in NRMM.....	225
8151 Study on estimation of traveling states using strain information on chassis of lunar and planetary exploration rovers	230
8254 Initial steps towards characterization of a new military cold weather all-terrain vehicle for performance in northern operations.....	234
8672 Trajectory optimization for vegetation override in off-road driving	239
9268 Experiments of sinkage characters of wire mesh wheel under different slip ratio	245
9992 Soil shear strength values obtained from its color	249

Abstract-only

1166 Selection of energy saving engine mode based on the power delivery and fuel consumption of a 95-kW tractor during agricultural operations.....	258
2297 Traction effects on vertical and horizontal contact stresses and the risk of soil structure deformation.....	258
3815 Data measurement and performance evaluation of an electric all-wheel-drive tractor during plow tillage.....	258
3859 Analysis for dynamic characteristics of a tractor cabin during agricultural operations	259
3893 Analysis of load factor and performance evaluation for developing an electric driven tractor	259
4336 High-fidelity 3D-DEM simulation for wheel mobility in low gravity environment.....	259
4508 Semi-empirical terramechanics model for variable terrain height	260
4727 Analysis of gear durability for agricultural tractor transmission	260
4895 Theoretical analysis and FEM simulation of the interfacial forces between tracked vehicle and snow soil	260
4976 Performance evaluation of autonomous driving lateral control simulation model of agricultural tractor	260
5356 Development and validation of head-feeding combine harvester multibody dynamics simulation model.....	261

6059 Comparison of multi-tracked running gears for light UGVs in terms of terrain obstacles overcoming abilities.....	261
6143 Flexible tire-terrain interaction model for real time simulations.....	261
6211 Wheel-soil terramechanics model augmentation using machine learning across multiple soil types	262
6955 Development of dynamics simulation model for agricultural tractor according to agricultural work.....	262
7994 Longitudinal friction coefficient comparison on actual and laboratory surfaces.....	262
8754 Characterization of lunar simulant (FJS-1), toyoura sand, and silica sand with physical experiments and dem simulation	263
8859 An efficient and high-fidelity track model for dynamic simulation of off-road tracked vehicles	263
8963 Analysis of the influence of terrain unevenness and velocity on the ground pressure exerted by demining rollers .	263
9504 Soil deformation model for efficient simulation of off-road vehicles and compaction force analysis.....	264
9716 Non-pneumatic tire for special vehicle – a review of selected functional properties.....	264
