**Volume 12960**

Proceedings of SPIE 0277-786X, V. 12960

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *AOPC 2023: Infrared Devices and Infrared Technology; and Terahertz Technology and Applications*, edited by Xue Li, Xin Tang, Shumin Wang, Proc. of SPIE 12960, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

## INFRARED DEVICES AND INFRARED TECHNOLOGY AND APPLICATIONS

---

- 12960 02 **Rotating target detection for nearshore SAR ships based on improved YOLOv7** [12960-2]
- 12960 03 **DIR-YOLOv5: a real-time drone-perspective infrared object detection method based on YOLOv5** [12960-3]
- 12960 04 **Intelligent matching method for visible and infrared images based on style translation** [12960-4]
- 12960 05 **Infrared time-sensitive target data augmentation algorithm based on generative model** [12960-5]
- 12960 06 **Research on an innovative method of setting the integration time of cooled infrared focal plane array** [12960-6]
- 12960 07 **Fully polarized detection of mid-infrared broadband achromatic metalenses** [12960-7]
- 12960 08 **Infrared optical design with large FOV based on image space scanning** [12960-8]
- 12960 09 **Development of near-space lightweight infrared multi-spectral camera** [12960-9]
- 12960 0A **Spatial-temporal joint constraints based tracking method for infrared UAV** [12960-10]
- 12960 0B **Simulation analysis of aerodynamic thermal effect of infrared seeker window** [12960-11]
- 12960 0C **Overview of the application of VOCs gas leakage infrared thermal imaging technology in the field of petrochemical industry** [12960-13]
- 12960 0D **Research on infrared hyperspectral band selection algorithm based on autoencoder** [12960-14]
- 12960 0E **Micro-vibration analysis and verification of space camera based on integrated model** [12960-16]
- 12960 0F **Design of signal processing system for airship-borne multi-spectral infrared camera** [12960-17]
- 12960 0G **A centre-scale sorting local contrast method for infrared small target detection** [12960-18]
- 12960 0H **Aerial infrared target tracking algorithm based on kernel correlation filtering and SIFT features in complex background** [12960-19]

- 12960 0I **Discussion on laser protection technologies for infrared imaging systems in the mid-wave band** [12960-20]
- 12960 0J **Temperature characteristics of infrared cryogenic camera lens** [12960-21]
- 12960 0L **Non-contact detection of toxic and hazardous chemical contaminants by short-wave infrared imaging spectroscopy** [12960-24]
- 12960 0M **Design and verification of thermal infrared automatic brightness temperature radiometer** [12960-25]
- 12960 0N **Large curvature concave metallic mesh with high optical transmittance and strong electromagnetic interference shielding efficiency** [12960-28]
- 12960 0O **Design and implementation of a new Dewar structure for large-scale and high performance infrared focal plane** [12960-29]

---

#### TERAHERTZ TECHNOLOGY AND APPLICATIONS

---

- 12960 0P **Diagnosing ATRX status in glioma utilizing terahertz spectroscopy and deep learning algorithms** [12960-1]
- 12960 0Q **Terahertz detection and recognition of suspicious objects hidden in the human body based on DeeplabV3+ deep learning model** [12960-12]
