# ***AOPC 2023: Optical Spectroscopy and Imaging; and Atmospheric and Environmental Optics***

**Yutao Feng**  
**Zongyin Yang**  
**Dong Liu**  
*Editors*

**25–27 July 2023**  
**Beijing, China**

*Sponsored by*  
Chinese Society for Optical Engineering (CSOE) (China)

*Technical Cosponsor*  
SPIE

*Organized by*  
Laser Technology Committee, CSOE (China)  
Infrared Technology Committee, CSOE (China)  
THz Technology Committee, CSOE (China)  
Imaging and Detection Technology Committee, CSOE (China)  
Advanced Optical Manufacturing Youth Expert Committee, CSOE (China)

*Published by*  
SPIE

**Volume 12962**

Proceedings of SPIE 0277-786X, V. 12962

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *AOPC 2023: Optical Spectroscopy and Imaging; and Atmospheric and Environmental Optics*, edited by Yutao Feng, Zongyin Yang, Dong Liu, Proc. of SPIE 12962, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Conference Committee*

## OPTICAL SPECTROSCOPY AND IMAGING

---

- 12962 02 **Mineral information recognition based on simulated high spatial resolution full spectrum remote sensing images** [12962-1]
- 12962 03 **Laser-induced breakdown spectroscopy combined with KNN for tracing study of soils from different regions** [12962-3]
- 12962 04 **Research on accuracy and optimization for some baseline removal algorithms for high-throughput experiments** [12962-4]
- 12962 05 **Effective framework for space target detection through atmospheric turbulence** [12962-5]
- 12962 06 **Spectral intersection over union: a bounding box overlap metric for hyperspectral object detection** [12962-7]
- 12962 07 **Analysis of the key techniques in polarization feature extraction and correction** [12962-8]
- 12962 08 **Resolution enhancement in retro-reflector based on aerial imaging using micro aperture arrays** [12962-13]
- 12962 09 **Study on identification method for *Artemisia argyi* floss** [12962-14]
- 12962 0A **Identification of nuclear materials using portable laser-induced plasma spectroscopy** [12962-15]
- 12962 0B **BRDF modeling and analysis of the pseudo-invariant calibration site in northwest China** [12962-22]
- 12962 0C **Design of photonic-crystal-modulated narrowband multichannel filters for visible light with high transmittance** [12962-24]
- 12962 0D **A micro-multispectral vision sensor: research on on-line measurement classification and recognition method of coal gangue** [12962-29]
- 12962 0E **Detection of deuterioxide by dual-wavelength Raman spectroscopy** [12962-31]
- 12962 0F **Influence of deformed window glass for GaAs photocathode on light transmission** [12962-32]

- 12962 0G **A miniature Fourier transform spectrometer based on an electrothermal MEMS mirror with asynchronous calibration** [12962-34]
- 12962 0H **Study on spectral characteristics of smoke interference unit** [12962-38]

---

#### ATMOSPHERIC AND ENVIRONMENTAL OPTICS

---

- 12962 0I **Research on interference suppression methods for indoor visible light communication** [12962-2]
- 12962 0J **Design of automatic coupling system based on all-fiber water vapor Raman lidar** [12962-6]
- 12962 0K **Effect of multicomponent alloy coating on high frequency plasma ablation of diamond films** [12962-9]
- 12962 0L **Earth-to-satellite laser long-path absorption measurement of atmospheric trace gases** [12962-10]
- 12962 0M **An improved calibration method and detection error simulation for three-wavelength polarization lidar systems** [12962-11]
- 12962 0N **Experimental study on atmospheric polarization characteristics measurement with different observation angles and wavelengths** [12962-16]
