

PROCEEDINGS OF SPIE

***Fourth International Conference on
Computer Vision and Information
Technology (CVIT 2023)***

Jixin Ma
Editor

4–6 August 2023
Beijing, China

Organized by
North China University of Technology (China)

Sponsored by
North China University of Technology (China)

Published by
SPIE

Volume 12984

Proceedings of SPIE 0277-786X, V. 12984

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth International Conference on Computer Vision and Information Technology (CVIT 2023)*, edited by Jixin Ma, Proc. of SPIE 12984, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

IMAGE RECOGNITION AND DETECTION TECHNOLOGY

- 12984 02 **YOLO-animal: an animal detection network based on improved YOLOv5 and attention mechanism** [12984-2]
- 12984 03 **An application of the color spatio-temporal decomposition in video series of sign plate recognition** [12984-5]
- 12984 04 **Real-time industrial machine vision supervision using DPU-based edge devices** [12984-3]
- 12984 05 **Recognizing human-object interaction in videos with knowledge guidance** [12984-10]
- 12984 06 **Research on swine trajectory tracking algorithm based on object detection** [12984-6]

VISUAL BASED IMAGE ANALYSIS AND DATA VISUALIZATION

- 12984 07 **Adaptive graph residual network for hand shape estimation in single images** [12984-1]
- 12984 08 **A method for estimating the contribution of an object to scene semantics** [12984-4]
- 12984 09 **Effect of artifact removal on EEG based motor imagery BCI applications** [12984-9]
- 12984 0A **Enhancing traffic flow and safety: modeling and simulation analysis of vehicle following in V2V environment** [12984-12]
- 12984 0B **Numerical study on visual cue technology of SLD based on CRM aircraft** [12984-8]
- 12984 0C **A vision-based tactile sensor with single contact surface for pressure and slippage estimation** [12984-13]
