

Infrastructure System Resilience

**An Engineering Framework for
Assessment, Management, and
Governance**

Infrastructure Resilience Publication Volume 8

Editor:

Craig Davis

ISBN: 978-1-7138-9330-1

Contents

Foreword	vii
Acknowledgments.....	ix
Preface.....	xi
Acronyms	xiii
Executive Summary.....	xv
Disclaimer.....	xvii
 Chapter 1 Introduction.....	 1
References	4
 Chapter 2 Infrastructure Resilience Framework	 7
Element 1: Infrastructure Resilience Domain	12
System–Hazard Interaction	14
System–Event Cycle Interaction.....	14
Multidimensional.....	15
Element 2: Building and Lifeline Infrastructure System Performance or Functionality	16
Element 3: System Service Provision and Operability	19
Element 4: Continuity of Services	22
Element 5: Social and Economic Activity.....	24
Element 6: Community	25
Element 7: Establish Community Performance Targets.....	26
Element 8: Define Infrastructure System Performance Targets	27
Feedback.....	28
References	29
 Chapter 3 Outcomes of the Infrastructure Resilience Framework	 35
Policy	35
Assessments of Social and Economic Losses	36
The Economics of Resilience	38
Tools.....	39
References	40

Chapter 4 Assessment, Management, and Governance.....	43
Assessment.....	43
Management	44
Governance	45
Community Resilience	47
References	48
Chapter 5 Applying the Framework	51
Use the Framework In-Part or In-Whole	51
Reordering the Framework	52
Application to Design.....	53
References	54
Chapter 6 Summary and Conclusion	57
Appendix A Review of Existing Resilience Frameworks.....	59
References	66
Appendix B Complex Adaptive Systems	69
References	70
Appendix C The Social, Built Infrastructure, and Natural Environment Systems Relationships	71
Definitions	71
Systems Relationships	72
References	74
Index.....	75
