## TABLE OF CONTENTS

|                                                                                                                                     |    |
|-------------------------------------------------------------------------------------------------------------------------------------|----|
| Semantic Segmentation of Satellite Images for Accurate Forest and Crop Delineation Using Deep Learning Technique .....              | 1  |
| <i>Abhishek S. Rao, B H Karthik Pai, Sudeeksha Nayak, Reethika Hebbar, Udyavara Vasundhara Shenoy, R Shwetha</i>                    |    |
| Predicting Water Potability: Leveraging Machine Learning Techniques .....                                                           | 9  |
| <i>N Laya, J Shruthi Shetty</i>                                                                                                     |    |
| Tulu Manuscript OCR: Preserving Ancient Wisdom Through Character Recognition .....                                                  | 17 |
| <i>K R Jayashree, Sinchana, K Manisha, Deekshitha, K Sudarshan, Prashanth Kannadaguli</i>                                           |    |
| Machine Learning-Based Stress Detection in it Employees: A Data-Driven Approach for Workplace Well-Being.....                       | 24 |
| <i>Ramya Srikanteswara, P Rithicka, Y V Shilpha Kala, Shreya Rangaraj, Varsha Devaiah</i>                                           |    |
| Application of Machine Learning and Data Analytics in Detection of Parkinsons Disease .....                                         | 31 |
| <i>Mangala Shetty, Spoorthi B. Shetty, Harshitha Varshasri G Jambha, Hrithvika</i>                                                  |    |
| Kidney Stone Detection Using CNN .....                                                                                              | 36 |
| <i>Mangala Shetty, Spoorthi B. Shetty, Glenisha Preemal Sequeria, Vishwas Hegde</i>                                                 |    |
| Effectiveness of Isometric Handgrip Employment on Cardiovascular Variables Among Hypertensive Patients .....                        | 42 |
| <i>M Kavitha, S Vinoth Kumar</i>                                                                                                    |    |
| Low-Intensity Strengthening Exercises' Effects on Patients' Lipid Profiles and Serviceable Status with Chronic Kidney Disease ..... | 48 |
| <i>R Saranya, A. Priyadarsini</i>                                                                                                   |    |
| Social Media Sentiment Analysis Using Twitter Dataset .....                                                                         | 53 |
| <i>Vatsal Singh, Harsh Vardhan Kaushik, Reshma</i>                                                                                  |    |
| Implementing Machine Learning Techniques for Hair Health Prediction in Follicle Futures.....                                        | 58 |
| <i>Premkumar Duraisamy, V Vidhya, T Preetha, V Niranjani</i>                                                                        |    |
| Investigating the Impact of Optimizers and Epochs on VGG-19 in Tomato Disease Recognition .....                                     | 64 |
| <i>K. S Shruthi, B Naveen</i>                                                                                                       |    |
| Accuracy Prediction of Ensemble Deep Learning Model Through Software Defect Prediction.....                                         | 70 |
| <i>S Charan, Sumana Sinha, S M Sujana, Ullal Akshatha Nayak</i>                                                                     |    |
| Crop Prediction Based on Soil and Environmental Features Using Classification Models.....                                           | 78 |
| <i>S Nifasath Piyar, S. Baulkani</i>                                                                                                |    |
| A Novel Approach to Handle Disaster with Twitter Reports by Deep Learning .....                                                     | 83 |
| <i>Balika J Chelliah, A Santhoshika, B Kavya, S Bala Arbind, A Senthilselvi</i>                                                     |    |
| Exploring BERT and Bi-LSTM for Toxic Comment Classification: A Comparative Analysis .....                                           | 90 |
| <i>V G Tarun, Ramkumar Sivasakthivel, Gobinath Ramar, Manikandan Rajagopal, G. Sivaraman</i>                                        |    |
| Enhancing Sales Forecasting and Prediction with Cutting-Edge Machine Learning Methods .....                                         | 96 |
| <i>Khushi Pai, Moonisah Batool, Nitya Ravi, Ruchira Surendra, A N Ramya Shree, S J Meenakshi</i>                                    |    |

|                                                                                                                                                 |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Transfer Learning for Classification of GPR B-Scan Images from Clutter Using Vision Transformer and VGG-16 .....                                | 102 |
| <i>Ajay Anil Kumar, M Vamshidhar Reddy, Aanchal Agarwal, Sachin Vishwamitra, Chandrashekhar Pomu Chavan</i>                                     |     |
| Emotion Detection by Employing Deep Learning CNN Model.....                                                                                     | 108 |
| <i>P. Asha, Aararan Vipulendiran, Abishek Kumaravelu, J. Refonaa, S. L. Jany Shabu, L. K. Joshila Grace</i>                                     |     |
| Ensemble Learning Applications and Visualizations Taxonomy of Blockchain Data .....                                                             | 114 |
| <i>Ramachandra Rao Kurada, Y Ramu, N. Silpa, V. V. R. Maheswara Rao, Sunil Pattem, L. Pallavi</i>                                               |     |
| Multifaceted Understanding of Student Success: A Data Mining Approach .....                                                                     | 122 |
| <i>S Udit Krishna, A N Barath Lakshman, R Mukund</i>                                                                                            |     |
| Identifying Anomalies in Water Pump Systems Using Machine Learning and an Integrated Ensemble Method.....                                       | 129 |
| <i>Sanat Sukumar Sahoo, Akanksha Singh, Mupnesh Kumari</i>                                                                                      |     |
| Securing the Digital Data Using SFLA Based Deep Convolutional Neural Network in Medical Network Environment .....                               | 135 |
| <i>G N Keshava Murthy, N Achyutha Prasad, Piyush Kumar Pareek, Pankaj Zanke, Madhu Patil</i>                                                    |     |
| Hybrid Deep Learning with TSOA Model for Predicting the Parkinson Disease Using Speech Features .....                                           | 143 |
| <i>Piyush Kumar Pareek, Pankaj Zanke, Anoop N Prasad, Mohan B R</i>                                                                             |     |
| Scheduling the Tasks in Cloud Computing Using Adaptive Adjustment in Whale Optimization Algorithm .....                                         | 150 |
| <i>Piyush Kumar Pareek, G D Nithyashree, S A Rajashekhar, Pankaj Zanke, K S Navyashree</i>                                                      |     |
| DBROA Based Convolutional Auto Encoder for European Credit Card Fraud Detection.....                                                            | 158 |
| <i>Piyush Kumar Pareek, B R Mohan, E V Vidya, Pankaj Zanke, K S Navyashree</i>                                                                  |     |
| An Optimized Elliptical Curve Cryptography Based Crypto-Watermarking Model in Smart Healthcare Application .....                                | 165 |
| <i>G N Keshava Murthy, Manjula G, Harshitha P, Achyutha Prasad N</i>                                                                            |     |
| Email Spam Detection Using Graph Based Convolutional Neural Network with MALO.....                                                              | 173 |
| <i>G N Keshava Murthy, C P Nayana, P Harshitha, M Sandhya</i>                                                                                   |     |
| Automatic Weed Detection Using CCOA Based YOLO Network in Soybean Field .....                                                                   | 181 |
| <i>S Kavitha, G Gangambika, K Padmini, H S Supriya, Sreekanth Rallapalli, K Sowmya</i>                                                          |     |
| Preserve the Medical Data Using Secure Partially Homomorphic Encryption with Blockchain Technology in Smart Healthcare .....                    | 189 |
| <i>Kavitha S, B S Pavithra, A B Shashikala, B N Jagadeesh, P Uma Mageswari, Dileep Marichi</i>                                                  |     |
| A Machine Learning Approach for Revving Up Revenue of Indian Tech Companies.....                                                                | 195 |
| <i>Srushti Kailas Tungar, Umme Salma M</i>                                                                                                      |     |
| Computer Vision Based Bangla Sign Language Recognition Using Transfer Learning .....                                                            | 200 |
| <i>Md Rezwane Sadik, Rayhanul Islam Sony, Nuzhat Noor Islam Prova, Y Mahanandi, Abdullah Al Maruf, Sinhad Hossain Fahim, Md. Shariful Islam</i> |     |

|                                                                                                                                         |     |
|-----------------------------------------------------------------------------------------------------------------------------------------|-----|
| Shapley Explainable Deep Learning Based Knowledge Distillation Framework for Student's Performance Prediction .....                     | 207 |
| <i>Rahul, Rahul Katarya</i>                                                                                                             |     |
| Edu-Lingo: A Unified NLP Video System with Comprehensive Multilingual Subtitles .....                                                   | 215 |
| <i>Anant Kaulage, Ajinkya Walunj, Akash Bhandari, Aneesh Dighe, Anish Sagri</i>                                                         |     |
| Machine Learning Based Web-App to Predict Lung Disease Using SMOTE Analysis .....                                                       | 223 |
| <i>K B Prajna, Sai Achuth C Shekar, Shantanu Balakrishna Kudva, Dhaatri Prasanna</i>                                                    |     |
| FPGA Enactment of Biological Feature Based Authentication Algorithm Using Elliptic Curve Cryptography for IoT Communication.....        | 229 |
| <i>Vijaya Kumar Vadladi, D Marshiana</i>                                                                                                |     |
| Isolation Enhancement of Ultra Wideband THz MIMO Antenna Using DGS .....                                                                | 234 |
| <i>Goutham S Tantri, P Inchara, Gd Goutham Simha, Praveen Kumar</i>                                                                     |     |
| Real-Time Military Aircraft Detection Using YOLOv5 .....                                                                                | 239 |
| <i>Gudimetla Hanumath Rishi, P Ramesh Kumar, Namburu Chaitanya Varshit, Kl Sailaja</i>                                                  |     |
| Domain Based Medical Image Testing Using Attention Model .....                                                                          | 246 |
| <i>Hemanta Kumar Bhuyan, Anusha Kamireddy</i>                                                                                           |     |
| Brain Tumor Detection Using Machine Learning .....                                                                                      | 252 |
| <i>Viral Lishal Castelino, M Vishnu, Keerthi Shetty, Pranamya Jain, Vinayaka Kamath, Vasudeva Thanthri</i>                              |     |
| Machine Learning-Based Strategies for Crop Assessment in Diverse Districts of Uttarakhand .....                                         | 260 |
| <i>Janmejaya Pant, Pushpa Pant, Jaishankar Bhatt, Devendra Singh, Lalit Mohan, Hitesh Kumar Pant</i>                                    |     |
| Enhancement of Echocardiographic Images of Rheumatic Heart Disease Using Median Filtering and Histogram Equalization Techniques .....   | 266 |
| <i>M Ravikumar, A N Jagadish, K Indrakumar</i>                                                                                          |     |
| CardioPredict:Advancing Cardiovascular Diagnostics with Deep Learning.....                                                              | 272 |
